Form 10-Q

---

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarter ended June 30, 2018

Or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 000-27038

---

NUANCE COMMUNICATIONS, INC.  
(Exact name of registrant as specified in its charter)

---

Delaware	94-3156479
(State or Other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

1 Wayside Road	01803
Burlington, Massachusetts	
(Address of principal executive offices)	(Zip Code)
Registrant's telephone number, including area code:	
(781) 565-5000	

---

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☒ Accelerated filer ☐ "Emerging growth company" ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of shares of the Registrant's Common Stock, outstanding as of August 2, 2018 was 286,802,911.

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Presentation

The condensed consolidated financial statements include the accounts of Nuance Communications, Inc. ("Nuance", "we", "our", or "the Company") and our wholly-owned subsidiaries. We prepared the unaudited interim condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (the "U.S." or the "United States") and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The condensed consolidated financial statements reflect all normal and recurring adjustments that, in our opinion, are necessary to present fairly our financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and classifications of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period.

Although we believe the disclosures included herein are adequate to ensure that the condensed consolidated financial statements are fairly presented, certain information and footnote disclosures to the financial statements have been condensed or omitted in accordance with the rules and regulations of the SEC. Accordingly, the condensed consolidated financial statements and the footnotes included herein should be read in conjunction with the audited financial statements and the footnotes included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017. The results of operations for the interim periods presented are not necessarily indicative of the results for the entire fiscal year or any future period.

2. Summary of Significant Accounting Policies

Recently Adopted Accounting Standards

In October 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-16, "Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory" ("ASU 2016-16"), which requires income tax consequences of inter-company transfers of assets other than inventory to be recognized when the transfer occurs. ASU 2016-16 is effective for fiscal years beginning after December 15, 2017, with early adoption permitted. We early adopted the guidance during the first quarter of fiscal year 2018. As a result, deferred tax liabilities of \$0.9 million arising from inter-company transfers in prior years were recognized and recorded against the beginning balance of accumulated deficit in the first quarter of fiscal year 2018. The adoption of the guidance did not have a material impact on our consolidated financial statements for any period presented.

Recently Issued Accounting Standards

In January 2018, the FASB issued ASU 2018-02, "Income Statement — Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income ("AOCI"), which is effective for fiscal years beginning after December 15, 2018 and interim periods therein, with early adoption permitted. The guidance gives entities the option to reclassify to retained earnings the tax effects resulting from the Tax Cuts and Jobs Act ("TCJA") related to items in AOCI. The new guidance may be applied retrospectively to each period in which the effect of the Act is recognized in the period of adoption. We do not expect the implementation to have a material impact on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments" ("ASU 2016-15"), which is effective for fiscal years beginning after December 15, 2017 and the interim periods therein, with early adoption permitted. The guidance requires cash flows with multiple characteristics to be classified using a three-step process, including (i) determining whether explicit guidance is applicable, (ii) separating each identifiable source or use of cash flows, and (iii) determining the predominant source or use of cash flows when the source or use of cash flows cannot be separately identifiable. The guidance will be applied retrospectively to each period presented. We do not expect the implementation to have a material impact on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" ("ASU 2016-02"). ASU 2016-02 requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term,

and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. ASU 2016-02 is effective for us in the first quarter of fiscal year 2020, and early application is permitted. We are currently evaluating the impact of our pending adoption of ASU 2016-02 on our consolidated financial statements, and we currently expect that most of our operating lease commitments will be subject to the new standard and recognized as operating lease liabilities and right-of-use assets upon our adoption of ASU 2016-02, which will increase our total assets and total liabilities that we report relative to such amounts prior to adoption.

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In January 2016, the FASB issued ASU No. 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01"). ASU 2016-01 amends the guidance on the classification and measurement of financial instruments. Although ASU 2016-01 retains many current requirements, it significantly revises accounting related to the classification and measurement of investments in equity securities and the presentation of certain fair value changes for financial liabilities measured at fair value. ASU 2016-01 also amends certain disclosure requirements associated with the fair value of financial instruments and is effective for us in the first quarter of fiscal year 2019. Based on the composition of our investment portfolio, we do not believe the adoption of ASU 2016-01 will have a material impact on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers: Topic 606" ("ASU 2014-09"), to supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under existing U.S. GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. ASU 2014-09 permits two methods of adoption: (i) retrospective to each prior reporting period presented; or (ii) retrospective with the cumulative effect of initially applying the guidance recognized at the date of initial application. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date, which deferred the effective date of the new revenue standard for periods beginning after December 15, 2016 to December 15, 2017, with early adoption permitted but not earlier than the original effective date. ASU 2014-09 is effective for us beginning on October 1, 2018 and we plan to adopt ASU 2014-09 using the cumulative catch-up transition method, with a cumulative adjustment to retained earnings as opposed to retrospectively adjusting prior periods.

In the first quarter of fiscal 2017, we commenced a project to assess the potential impact of the new standard on our consolidated financial statements and related disclosures. This project also includes the assessment and enhancement of our internal processes, controls and systems to address the new standard.

While we are continuing to assess all potential impacts of ASU 2014-09, we currently believe the most significant impact relates to our accounting for arrangements that include term-based software licenses bundled with other performance obligations including (i) maintenance and support and (ii) professional services. A significant number of our Healthcare and Imaging customer contracts include term-based software licenses bundled with other performance obligations. Under current GAAP, the revenue attributable to these software licenses is recognized ratably over the term of the arrangement because vendor-specific objective evidence ("VSOE") does not exist for the undelivered maintenance and support element as it is not sold separately. Under ASU 2014-09, the requirement to have VSOE for undelivered elements to enable the separation of revenue for the delivered software licenses is eliminated.

Accordingly, under the new standard we will be required to recognize term-based software revenue as control is transferred and based upon the amount proportionally allocated to the term-based software license from the contract transaction price. We do not currently expect ASU 2014-09 to have a significant effect on the timing of revenue related to our renewal maintenance, professional services and cloud offerings.

Another significant provision under ASU 2014-09 includes the capitalization and amortization of costs associated with obtaining a contract, such as sales commissions. Currently, we expense sales commissions in the period incurred. Under ASU 2014-09, direct and incremental costs to acquire a contract are capitalized and amortized over the pattern of transfer of the goods and services to which the asset relates. While we are continuing to assess the impact of this provision of ASU 2014-09, we likely will be required to capitalize a significant amount of our sales commission costs.

### 3. Business Acquisitions

We continue to expand our solutions and integrate our technologies in new offerings through acquisitions. A summary of our acquisition activities is as follows:

Fiscal Year 2018

For the nine months ended June 30, 2018, we completed several acquisitions in our Healthcare and Automotive segments for a total cash consideration of \$113.1 million, contingent payments with a fair value of \$2.0 million and effective settlement of preexisting relationship with the acquiree of \$12.9 million. As a result, we recognized goodwill of \$65.1 million and other intangible assets of \$60.8 million, with a weighted average life of 6.0 years. Such acquisitions were not significant individually or in the aggregate to our condensed consolidated financial statements.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

## Fiscal Year 2017

For the nine months ended June 30, 2017, we completed several acquisitions in our Enterprise, Healthcare and Other segments for a total cash consideration of \$73.3 million, issuance of 0.8 million shares of common stock valued at \$13.4 million and contingent payments with a fair value of \$8.3 million. As a result, we recognized goodwill of \$62.0 million and other intangible assets of \$39.1 million, with a weighted average life of 5.9 years. Such acquisitions were not significant individually or in the aggregate to our condensed consolidated financial statements.

## Acquisition-Related Costs, net

Acquisition-related costs include costs related to business acquisitions. These costs consist of (i) transition and integration costs, including retention payments, transitional employee costs and earn-out payments, and other costs related to integration activities; (ii) professional service fees, including financial advisory, legal, accounting, and other outside services incurred in connection with acquisition activities, and disputes and regulatory matters related to acquired entities; and (iii) fair value adjustments to acquisition-related contingencies.

A summary of acquisition-related costs, net is as follows (dollars in thousands):

	Three Months		Nine Months	
	Ended June 30,		Ended June 30,	
	2018	2017	2018	2017
Transition and integration costs	\$5,370	\$3,722	\$12,799	\$11,044
Professional service fees	1,254	3,905	2,705	11,896
Acquisition-related adjustments	(1,708 )	19	(2,667 )	(889 )
Total	\$4,916	\$7,646	\$12,837	\$22,051

## 4. Goodwill and Intangible Assets

The changes in the carrying amount of goodwill by reportable segment for the nine months ended June 30, 2018 are as follows (dollars in thousands):

## Goodwill

	Healthcare	Enterprise	Imaging	Mobile	Automotive	Other	Total
Balance as of September 30, 2017	\$1,418,334	\$673,472	\$257,792	\$1,241,010	\$—	\$—	\$3,590,608

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Interim Impairment Analysis

As more fully described in Note 17, effective the second quarter of fiscal year 2018, our Automotive business, which was previously included within our former Mobile segment, became a standalone operating segment. In addition, we moved our Dragon TV business from our former Mobile operating segment into our Enterprise operating segment. As a result of the reorganization, the original Mobile reporting unit was separated into three discrete lines of business comprised of Automotive, Dragon TV, and Devices. We assigned \$1,080.5 million, \$12.0 million, and \$36.0 million of goodwill to Automotive, Dragon TV and Devices, respectively, based on their relative fair values as of March 31, 2018, and assessed the assigned goodwill for impairment by comparing each component's fair value to its carrying amount. The fair values of Automotive and Dragon TV significantly exceeded their carrying amounts. However, the carrying value of Devices exceeded its fair value by \$35.1 million. The standalone multi-year operating plan reflects the ongoing consolidation of our handset manufacturer customer base and continued erosion of our penetration of the remaining market. As a result, we recorded a \$35.1 million goodwill impairment for the second quarter of fiscal 2018. After the impairment charge, the goodwill assigned to Devices as of March 31, 2018 was immaterial. The reorganization did not result in any impairment charge of other intangible assets.

Also during the second quarter of fiscal 2018, our Subscriber Revenue Services ("SRS") reporting unit, originally included within our former Mobile operating segment, recorded significantly lower revenue and profitability due to recent market disruptions in certain markets that we serve. Our SRS business provides value-added services to mobile operators in emerging markets, primarily in India and Brazil. These markets have experienced recent and dramatic disruption as a result of accelerated change in competition and business models for our mobile operator customers. Specifically, the rapid shift away from a model where voice, data and text are offered separately toward unlimited bundled services at considerably lower costs has significantly reduced mobile operators' demand for our services. This reduced demand materially impacts our future expectations for SRS revenues. As a result, executive management performed an updated strategic assessment and reduced the long-term growth rates and profitability contemplated in SRS's multi-year operating plan. We concluded that these financial results coupled with the rapid market shifts being experienced in the industry were factors that represented impairment indicators, triggering a review of goodwill and indefinite-lived intangible assets for impairment during the second quarter of fiscal 2018. Based on the result of the impairment assessment, the carrying value of SRS exceeded its fair value by \$94.3 million. In addition, we recorded an \$8.5 million deferred tax benefit related to SRS's goodwill, which is amortized over time for tax purposes, and therefore increased the impairment charge by the same amount. As a result, we recorded a goodwill impairment charge of \$102.8 million related to SRS for the second quarter of fiscal 2018. After the impairment charge, goodwill assigned to SRS was \$17.8 million as of March 31, 2018. The assessment did not result in any impairment charge of other intangible assets.

For the purpose of the goodwill impairment analysis, the carrying value of each reporting unit is determined based on the allocation of assets and liabilities to the reporting unit based on the reporting unit's revenue and operating expenses as a percentage of our consolidated revenue and operating expenses. Certain corporate assets and liabilities that are not directly attributable to the reporting unit's operations and would not be transferred to a hypothetical purchaser of the reporting unit are excluded from the reporting unit's carrying amount.

The fair value of a reporting unit is generally determined using a combination of the income approach and the market approach, where the income approach is weighted 50% and the market approach 50%. The fair values of Devices and Dragon TV, however, were determined solely based upon the income approach due to the lack of comparable public companies or comparable acquisitions. For the income approach, fair value is determined based on the present value of estimated future after-tax cash flows, discounted at an appropriate risk-adjusted rate. We use our internal forecasts to estimate future after-tax cash flows and estimate the long-term growth rates based on our most recent views of the long-term outlook for each reporting unit. Actual results may differ from those assumed in our forecasts. We derive our discount rates using a capital asset pricing model and analyzing published rates for industries relevant to our

reporting units to estimate the weighted average cost of capital. We use discount rates that are commensurate with the risks and uncertainty inherent in the respective businesses and in our internally developed forecasts. For the market approach, we use a valuation technique in which values are derived based on valuation multiples of comparable publicly traded companies. We assess each valuation methodology based upon the relevance and availability of the data at the time we perform the valuation and weight the methodologies appropriately.

Determining the fair value of a reporting unit involves the use of significant estimates and assumptions, all of which we believe are reasonable but nevertheless inherently uncertain. These estimates and assumptions include revenue growth rates and operating margins used to estimate future cash flows, risk-adjusted discount rates, future economic and market conditions, and the use of market comparables. Additionally, if we continue to experience lower-than-expected growth in a reporting unit or fail to sustain our profitability due to changing market dynamics, competition or technological obsolescence, it could adversely impact the long-term assumptions used in our goodwill impairment analysis. Such changes in assumptions and estimates may result in additional

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

impairment of our goodwill and/or other long-lived assets, which could materially impact our future results of operations and financial conditions. Finally, as we continue to identify and assess other initiatives to better align our segment reporting structure with our long-term strategies, any additional changes in our organizational and segment reporting structure may result in additional impairment charges of goodwill and other intangible assets.

## 5. Financial Instruments and Hedging Activities

## Derivatives Not Designated as Hedges

## Forward Currency Contracts

We utilize foreign currency forward contracts to mitigate the risks associated with changes in foreign currency exchange rates. Generally, we enter into such contracts for less than 90 days and have no cash requirements until maturity. At June 30, 2018 and September 30, 2017, we had outstanding contracts with a total notional value of \$90.8 million and \$69.0 million, respectively.

We did not designate any forward contracts as hedging instruments for the nine months ended June 30, 2018 or 2017. Therefore, changes in fair value of foreign currency forward contracts were recognized within other expense, net in our condensed consolidated statements of operations. The cash flows related to the settlement of forward contracts not designated as hedging instruments are included in cash flows from investing activities within our condensed consolidated statement of cash flows.

A summary of the derivative instruments is as follows (dollars in thousands):

Derivatives Not Designated as Hedges	Balance Sheet Classification	Fair Value	
		June 30, 2018	September 30, 2017
Foreign currency forward contracts	Prepaid expenses and other current assets	\$ 169	\$ 220
Foreign currency forward contracts	Accrued expenses and other current liabilities	(353)	(373)

A summary of loss related to the derivative instruments for the nine months ended June 30, 2018 and 2017 is as follows (dollars in thousands):

Derivatives Not Designated as Hedges	Income Statement Classification	Three Months Ended June 30,		Nine Months Ended June 30,	
		2018	2017	2018	2017
Foreign currency forward contracts	Income (loss) recognized	\$ (1,597)	\$ 175	\$ (2,381)	\$ (7,885)
	Other expense, net				

## 6. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Valuation techniques must maximize the use of observable inputs and minimize the use of unobservable inputs. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and consider assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

The determination of the applicable level within the hierarchy of a particular financial asset or liability depends on the lowest level of inputs that are significant to the fair value measurement as of the measurement date as follows:

Level 1: Quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than those described as Level 1.

Level 3: Unobservable inputs that are supportable by little or no market activities and are based on significant assumptions and estimates.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Assets and liabilities measured at fair value on a recurring basis at June 30, 2018 and September 30, 2017 consisted of the following (dollars in thousands):

	June 30, 2018			
	Level 1	Level 2	Level 3	Total
<b>Assets:</b>				
Money market funds <sup>(a)</sup>	\$212,545	\$—	\$—	\$212,545
Time deposits <sup>(b)</sup>	—	103,995	—	103,995
Commercial paper, \$60,903 at cost <sup>(b)</sup>	—	61,214	—	61,214

Total liabilities at fair value	\$—	\$(373)	\$(8,648)	\$(9,021)

- (a) Money market funds and time deposits with original maturity of 90 days or less are included within cash and cash equivalents in the consolidated balance sheets and are valued at quoted market prices in active markets. Time deposits, commercial paper, corporate notes and bonds, and foreign currency exchange contracts are recorded at fair market values, which are determined based on the most recent observable inputs for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active or are directly or indirectly observable. Time deposits are generally for terms of one year or less. Commercial paper and corporate notes and bonds generally mature within three years and had a weighted average maturity of 0.61 years as of June 30, 2018 and 0.72 years as of September 30, 2017.
- (b) The fair values of our contingent consideration arrangements were determined using either the option pricing model with Monte Carlo simulation or the probability-weighted discounted cash flow method.
- (c) The fair values of our contingent consideration arrangements were determined using either the option pricing model with Monte Carlo simulation or the probability-weighted discounted cash flow method.

As of September 30, 2017, \$80.2 million of debt securities included within marketable securities were designated as held-to-maturity investments, which had a weighted average maturity of 0.27 years and an estimated fair value of \$80.4 million based on Level 2 measurements. No debt securities were designated as held-to-maturity investments as of June 30, 2018.

The estimated fair value of our long-term debt approximated \$2,488.9 million (face value \$2,587.0 million) as of June 30, 2018 and \$2,930.9 million (face value \$2,918.1 million) as of September 30, 2017 based on Level 2

measurements. The fair value of each borrowing was estimated using the average of the bid and ask trading quotes at each respective reporting date. There was no balance outstanding under our revolving credit agreement as of June 30, 2018 or September 30, 2017.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

Additionally, contingent acquisition payments are recorded at fair values upon the acquisition, and remeasured in subsequent reporting periods with the changes in fair values recorded within acquisition-related costs, net. Such payments are contingent upon the achievement of specified performance targets and are valued using the option pricing model with Monte Carlo simulation or the probability-weighted discounted cash flow model.

The following table provides a summary of changes in the aggregate fair value of the contingent acquisition payments for all periods presented (dollars in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Balance at beginning of period	\$11,752	\$6,377	\$8,648	\$8,240
Earn-out liabilities established at time of acquisition	1,500	5,000	2,000	8,253
Payments and foreign currency translation	(4,557 )	(26 )	(4,652 )	(4,283 )
Adjustments to fair value included in acquisition-related costs, net	(660 )	—	2,039	(859 )
Balance at end of period	\$8,035	\$11,351	\$8,035	\$11,351

Contingent acquisition payments are to be made in periods through fiscal year 2021. As of June 30, 2018, the maximum amount payable based on the agreements was \$17.5 million if the specified performance targets are achieved.

## 7. Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following (dollars in thousands):

	June 30, 2018	September 30, 2017
Compensation	\$133,997	\$ 159,951
Cost of revenue related liabilities	25,620	20,124
Accrued interest payable	21,735	26,285
Consulting and professional fees	15,851	12,649
Facility-related liabilities	6,692	7,158
Sales and other taxes payable	6,453	3,125
Sales and marketing incentives	4,003	3,655
Other	10,081	12,954
Total	\$224,432	\$ 245,901

## 8. Deferred Revenue

Deferred maintenance revenue consists of prepaid fees received for post-contract customer support for our products, including telephone support and the right to receive unspecified upgrades/updates on a when-and-if-available basis. Unearned revenue includes fees for up-front setup of the service environment; fees charged for on-demand service; certain software arrangements for which we do not have fair value of post-contract customer support, resulting in ratable revenue recognition for the entire arrangement on a straight-line basis; and fees in excess of estimated earnings on percentage-of-completion service contracts.

Deferred revenue consisted of the following (dollars in thousands):

	June 30, 2018	September 30, 2017
Current liabilities:		
Deferred maintenance revenue	\$161,505	\$ 162,958
Unearned revenue	227,527	203,084
Total current deferred revenue	\$389,032	\$ 366,042
Long-term liabilities:		
Deferred maintenance revenue	\$61,736	\$ 60,298
Unearned revenue	421,098	363,631

Total long-term deferred revenue \$482,834 \$ 423,929

## Fiscal Year 2018

For the nine months ended June 30, 2018, we recorded restructuring charges of \$22.7 million, which included \$17.7 million related to the termination of approximately 160 employees and \$4.9 million related to certain excess facilities. Of these amounts, \$11.0 million was recorded for the three months ended June 30, 2018, which included \$9.0 million related to employee termination and \$1.9 million related to certain excess facilities. These actions were part of our strategic initiatives focused on investment rationalization, process optimization and cost reduction. We expect the remaining outstanding severance of \$4.8 million to be substantially paid during fiscal year 2018, and the remaining balance of \$8.5 million related to excess facilities to be paid through fiscal year 2025, in accordance with the terms of the applicable leases.

Additionally, for the nine months ended June 30, 2018, we recorded a \$5.7 million expense related to the transition agreement of our former CEO and a \$7.2 million expense related to our remediation and restoration efforts after the

malware incident that occurred in the third quarter of fiscal year 2017 (the "2017 Malware Incident"), offset in part by a \$2.5 million income related to cash receipt from insurance claims related to the 2017 Malware Incident. For the three months ended June 30, 2018, we recorded a \$2.5 million income related to cash receipt from insurance claims related to the 2017 Malware Incident and a \$1.1 million expense related to the CEO transition. The cash payments associated with the CEO transition agreement are expected to be made through fiscal year 2020.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

## Fiscal Year 2017

For the nine months ended June 30, 2017, we recorded restructuring charges of \$18.0 million, which included \$12.3 million related to the termination of approximately 300 employees and \$5.7 million related to certain excess facilities. Of these amounts, \$5.6 million was recorded for the three months ended June 30, 2017, which included \$4.1 million related to employee termination and \$1.6 million related to certain excess facilities. These actions were part of our strategic initiatives focused on process optimization and cost reduction.

Additionally, for the nine months ended June 30, 2017, we recorded \$5.8 million related to the transition agreement of our former CEO, \$10.8 million of non-cash impairment charge related to an internally developed software, and \$5.2 million professional services fees and fixed asset impairment related to the 2017 Malware Incident. Of these amounts, \$2.3 million related to the CEO transition and \$5.2 million professional services fees and fixed asset impairment related to the 2017 Malware Incident were recorded for the three months ended June 30, 2017.

## 10. Debt

As of June 30, 2018 and September 30, 2017, we had the following borrowing obligations (dollars in thousands):

	June 30, 2018	September 30, 2017
5.625% Senior Notes due 2026, net of deferred issuance costs of \$5.2 million and \$5.7 million, respectively. Effective interest rate 5.625%.	\$ 494,755	\$ 494,298
5.375% Senior Notes due 2020, net of unamortized premium of \$0.7 million and \$1.0 million, respectively, and deferred issuance costs of \$1.7 million and \$2.3 million, respectively. Effective interest rate 5.375%.	448,989	448,630
6.000% Senior Notes due 2024, net of deferred issuance costs of \$1.8 million and \$2.1 million, respectively. Effective interest rate 6.000%.	298,143	297,910
1.00% Convertible Debentures due 2035, net of unamortized discount of \$123.0 million and \$140.9 million, respectively, and deferred issuance costs of \$5.9 million and \$6.9 million, respectively. Effective interest rate 5.622%.	547,526	528,690
2.75% Convertible Debentures due 2031, net of unamortized discount of \$1.5 million and deferred issuance costs of \$0.1 million as of September 30, 2017. Effective interest rate 7.432%.	46,568	376,121
1.25% Convertible Debentures due 2025, net of unamortized discount of \$85.0 million and \$92.7 million, respectively, and deferred issuance costs of \$3.8 million and \$4.3 million, respectively. Effective interest rate 5.578%.	261,106	253,054
1.50% Convertible Debentures due 2035, net of unamortized discount of \$35.3 million and \$42.5 million, respectively, and deferred issuance costs of \$1.2 million and \$1.5 million, respectively. Effective interest rate 5.394%.	227,355	219,875
Deferred issuance costs related to our Revolving Credit Facility	(926)	(1,174)
Total debt	2,323,516	2,617,404
Less: current portion	—	376,121
Total long-term debt	\$ 2,323,516	\$ 2,241,283

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The following table summarizes the maturities of our borrowing obligations as of June 30, 2018 (dollars in thousands):

Fiscal Year	Convertible Debentures <sup>(1)</sup>	Senior Notes	Total
2018	\$—	\$—	\$—
2019	—	—	—
2020	—	450,000	450,000
2021	—	—	—
2022	310,463	—	310,463
Thereafter	1,026,488	800,000	1,826,488
Total before unamortized discount	1,336,951	1,250,000	2,586,951
Less: unamortized discount and issuance costs	(254,396 )	(9,039 )	(263,435 )
Total long-term debt	\$ 1,082,555	\$ 1,240,961	\$ 2,323,516

Pursuant to the terms of each convertible instrument, holders have the right to redeem the debt on specific dates <sup>(1)</sup> prior to maturity. The repayment schedule above assumes that payment is due on the next redemption date after June 30, 2018.

#### 5.625% Senior Notes due 2026

In December 2016, we issued \$500.0 million aggregate principal amount of 5.625% Senior Notes due on December 15, 2026 (the "2026 Senior Notes") in a private placement. The proceeds from the 2026 Senior Notes were approximately \$495.0 million, net of issuance costs, and we used the proceeds to repurchase a portion of our 2020 Senior Notes. The 2026 Senior Notes bear interest at 5.625% per year, payable in cash semi-annually in arrears, beginning on June 15, 2017.

The 2026 Senior Notes are unsecured senior obligations and are guaranteed on an unsecured senior basis by certain of our domestic subsidiaries ("Subsidiary Guarantors"). The 2026 Senior Notes and the guarantees rank equally in right of payment with all of our and the Subsidiary Guarantors' existing and future unsecured senior debt and rank senior in right of payment to all of our and the Subsidiary Guarantors' future unsecured subordinated debt. The 2026 Senior Notes and guarantees effectively rank junior to all our secured debt and that of the Subsidiary Guarantors to the extent of the value of the collateral securing such debt and to all liabilities, including trade payables, of our subsidiaries that have not guaranteed the 2026 Senior Notes.

At any time before December 15, 2021, we may redeem all or a portion of the 2026 Senior Notes at a redemption price equal to 100% of the aggregate principal amount of the 2026 Senior Notes to be redeemed, plus a "make-whole" premium and accrued and unpaid interest to, but excluding, the redemption date. At any time on or after December 15, 2021, we may redeem all or a portion of the 2026 Senior Notes at certain redemption prices expressed as percentages of the principal amount, plus accrued and unpaid interest to, but excluding, the redemption date.

#### 5.375% Senior Notes due 2020

In August 2012, we issued \$700.0 million aggregate principal amount of 5.375% Senior Notes due on August 15, 2020 in a private placement. In October 2012, we issued an additional \$350.0 million aggregate principal amount of our 5.375% Senior Notes (collectively the "2020 Senior Notes"). The 2020 Senior Notes bear interest at 5.375% per year, payable in cash semi-annually in arrears. The 2020 Senior Notes are our unsecured senior obligations and are guaranteed on an unsecured senior basis by certain of our domestic subsidiaries, ("the Subsidiary Guarantors"). The 2020 Senior Notes and guarantees rank equally in right of payment with all of our and the Subsidiary Guarantors' existing and future unsecured senior debt and rank senior in right of payment to all of our and the Subsidiary Guarantors' future unsecured subordinated debt. The 2020 Senior Notes and guarantees effectively rank junior to all secured debt of our and the Subsidiary Guarantors to the extent of the value of the collateral securing such debt and to all liabilities, including trade payables, of our subsidiaries that have not guaranteed the 2020 Senior Notes.

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In January 2017, we repurchased \$600.0 million in aggregate principal amount of our 2020 Senior Notes using cash and cash equivalents and the net proceeds from our 2026 Senior Notes issued in December 2016. In January 2017, we recorded an extinguishment loss of \$18.6 million. In accordance with the authoritative guidance for debt instruments, a loss on extinguishment is equal to the difference between the reacquisition price and the net carrying amount of the extinguished debt, including any unamortized debt discount or issuance costs. Following this activity, \$450.0 million in aggregate principal amount of our 2020 Senior Notes remains outstanding.

At any time on or after August 15, 2018, we may redeem any or all or a portion of the 2020 Senior Notes at a redemption price equal to 100% of the aggregate principal amount, plus any accrued and unpaid interest to, but excluding, the redemption date.

On August 1, 2018, our Board of Directors authorized the repayment of \$150 million of our 2020 Senior Notes, which is expected to be made in September 2018.

6.0% Senior Notes due 2024

In June 2016, we issued \$300.0 million aggregate principal amount of 6.0% Senior Notes due on July 1, 2024 (the "2024 Senior Notes") in a private placement. The proceeds from the 2024 Senior Notes were approximately \$297.5 million, net of issuance costs. The 2024 Senior Notes bear interest at 6.0% per year, payable in cash semi-annually in arrears. The 2024 Senior Notes are unsecured senior obligations and are guaranteed on an unsecured senior basis by our Subsidiary Guarantors. The 2024 Senior Notes and the guarantees rank equally in right of payment with all of our and the Subsidiary Guarantors' existing and future unsecured senior debt, and rank senior in right of payment to all of our and the Subsidiary Guarantors' future unsecured subordinated debt. The 2024 Senior Notes and guarantees effectively rank junior to all our secured debt and that of the Subsidiary Guarantors to the extent of the value of the collateral securing such debt and to all liabilities, including trade payables, of our subsidiaries that have not guaranteed the 2024 Senior Notes.

At any time before July 1, 2019, we may redeem all or a portion of the 2024 Senior Notes at a redemption price equal to 100% of the aggregate principal amount of the 2024 Senior Notes to be redeemed, plus a "make-whole" premium and accrued and unpaid interest to, but excluding, the redemption date. At any time on or after July 1, 2019, we may redeem all or a portion of the 2024 Senior Notes at certain redemption prices expressed as percentages of the principal amount, plus accrued and unpaid interest to, but excluding, the redemption date.

1.0% Convertible Debentures due 2035

In December 2015, we issued \$676.5 million in aggregate principal amount of 1.0% Senior Convertible Debentures due in 2035 (the "1.0% 2035 Debentures") in a private placement. We used a portion of the proceeds to repurchase \$38.3 million in aggregate principal on our 2.75% Senior Convertible Debentures due in 2031 and to repay the aggregate principal balance of \$472.5 million on the term loan. Upon the repurchase and repayment of debts in December 2015, we recorded an extinguishment loss of \$4.9 million in other expense, net, in the accompanying consolidated statements of operations. The 1.0% 2035 Debentures bear interest at 1.0% per year, payable in cash semi-annually in arrears. The 1.0% 2035 Debentures mature on December 15, 2035, subject to the right of the holders to require us to redeem the 1.0% 2035 Debentures on December 15, 2022, 2027, or 2032. The 1.0% 2035 Debentures are general senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 1.0% 2035 Debentures. The 1.0% 2035 Debentures will be effectively subordinated to indebtedness and other liabilities of our subsidiaries. The initial conversion price is approximately \$27.22 per share. At issuance, we allocated \$495.4 million to long-term debt, and \$181.1 million has been recorded as additional paid-in capital, which is being amortized to interest expense using the effective interest rate method through December 2022. As of June 30, 2018, none of the conversion criteria were met for the 1.0% 2035 Debentures. If the conversion criteria were met, we could be required to repay all or some of the aggregate principal amount in cash prior to the maturity date.

2.75% Convertible Debentures due 2031

In October 2011, we issued \$690.0 million in aggregate principal amount of 2.75% Senior Convertible Debentures due in 2031 (the “2031 Debentures”) in a private placement. The 2031 Debentures bear interest at 2.75% per year, payable in cash semi-annually in arrears. The 2031 Debentures mature on November 1, 2031, subject to the right of the holders to require us to redeem the 2031 Debentures on November 1, 2017, 2021, and 2026. The 2031 Debentures are general senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 2031 Debentures. The 2031 Debentures will be effectively subordinated to indebtedness and other liabilities of our subsidiaries. The initial conversion price is approximately \$32.30 per share. At issuance, we allocated \$533.6 million to long-term debt, and \$156.4 million has been recorded as additional paid-in capital, which is being amortized to interest expense using the effective interest rate method through November 2017.

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

In June 2015, we entered into separate privately negotiated agreements with certain holders of our 2031 Debentures to exchange, in a private placement, \$256.2 million in aggregate principal amount of our 2031 Debentures for approximately \$263.9 million in aggregate principal amount of our 1.5% 2035 Debentures. In December 2015, we entered into separate privately negotiated agreements with certain holders of our 2031 Debentures to repurchase \$38.3 million in aggregate principal with proceeds received from the issuance of our 1.0% 2035 Debentures. In March 2017, we entered into separate privately negotiated agreements with certain holders of our 2031 Debentures to repurchase \$17.8 million in aggregate principal with proceeds received from the issuance of our 1.25% Senior Convertible Debentures issued in March 2017. Following these activities, \$377.7 million in aggregate principal amount of our 2031 Debentures remained outstanding as of September 30, 2017, which was included within the total current liabilities.

In November 2017, holders of approximately \$331.2 million in aggregate principal amount of the outstanding 2031 Debentures exercised their right to require us to repurchase such debentures. Following the repurchase, \$46.6 million in aggregate principal amount of the 2031 Debentures remains outstanding. On or after November 6, 2017, we have the right to call for redemption of some or all of the remaining outstanding 2031 Debentures.

1.25% Convertible Debentures due 2025

In March 2017, we issued \$350.0 million in aggregate principal amount of 1.25% Senior Convertible Debentures due in 2025 (the “1.25% 2025 Debentures”) in a private placement. The proceeds were approximately \$343.6 million, net of issuance costs. We used a portion of the proceeds to repurchase 5.8 million shares of our common stock for \$99.1 million and \$17.8 million in aggregate principal on our 2031 Debentures. We used the remaining net proceeds, together with cash on hand to redeem and retire \$331.2 million of our outstanding 2031 Debentures in November 2017. The 1.25% 2025 Debentures bear interest at 1.25% per year, payable in cash semi-annually in arrears, beginning on October 1, 2017. The 1.25% 2025 Debentures mature on April 1, 2025. The 1.25% 2025 Debentures are general senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 1.25% 2025 Debentures. The 1.25% 2025 Debentures will be effectively subordinated to indebtedness and other liabilities of our subsidiaries.

We account separately for the liability and equity components of the 1.25% 2025 Debentures in accordance with authoritative guidance for convertible debt instruments that may be settled in cash upon conversion. The guidance requires the carrying amount of the liability component to be estimated by measuring the fair value of a similar liability that does not have an associated conversion feature and record the remainder in stockholders’ equity. At issuance, we allocated \$252.1 million to long-term debt, and \$97.9 million has been recorded as additional paid-in capital, which is being amortized to interest expense using the effective interest rate method through April 1, 2025. If converted, the principal amount of the 1.25% 2025 Debentures is payable in cash and any amounts payable in excess of the principal amount will (based on an initial conversion rate, which represents an initial conversion price of approximately \$22.22 per share, subject to adjustment under certain circumstances) be paid in cash or shares of our common stock, at our election, only in the following circumstances and to the following extent: (i) prior to October 1, 2024, on any date during any fiscal quarter beginning after June 30, 2017 (and only during such fiscal quarter) if the closing sale price of our common stock was more than 130% of the then current conversion price for at least 20 trading days in the period of the 30 consecutive trading days ending on the last trading day of the previous fiscal quarter; (ii) at any time on or after October 1, 2024, (iii) during the five consecutive business-day period immediately following any five consecutive trading-day period in which the trading price for \$1,000 principal amount of the 1.25% 2025 Debentures for each day during such five trading-day period was less than 98% of the closing sale price of our common stock multiplied by the then current conversion rate; or (iv) upon the occurrence of specified corporate transactions, as described in the indenture for the 1.25% 2025 Debentures. We may not redeem the 1.25% 2025 Debentures prior to the maturity date. If we undergo a fundamental change or non-stock change of control (as described in the indenture for the 1.25% 2025 Debentures) prior to maturity, holders will have the option to require us to repurchase all or any portion of their debentures for cash at a price equal to 100% of the principal amount of the

1.25% 2025 Debentures to be purchased plus any accrued and unpaid interest, including any additional interest to, but excluding, the repurchase date. As of June 30, 2018, none of the conversion criteria were met for the 1.25% 2025 Debentures. If the conversion criteria were met, we could be required to repay all or some of the aggregate principal amount in cash prior to the maturity date.

1.50% Convertible Debentures due 2035

In June 2015, we issued \$263.9 million in aggregate principal amount of 1.50% Senior Convertible Debentures due in 2035 (the “1.5% 2035 Debentures”) in exchange for \$256.2 million in aggregate principal amount of our 2031 Debentures. The 1.5% 2035 Debentures were issued at 97.09% of the principal amount, which resulted in a discount of \$7.7 million. The 1.5% 2035 Debentures bear interest at 1.50% per year, payable in cash semi-annually in arrears. The 1.5% 2035 Debentures mature on November 1, 2035,

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

subject to the right of the holders to require us to redeem the 1.5% 2035 Debentures on November 1, 2021, 2026, or 2031. The 1.5% 2035 Debentures are general senior unsecured obligations and rank equally in right of payment with all of our existing and future unsecured, unsubordinated indebtedness and senior in right of payment to any indebtedness that is contractually subordinated to the 1.5% 2035 Debentures. The 1.5% 2035 Debentures will be effectively subordinated to indebtedness and other liabilities of our subsidiaries. The initial conversion price is approximately \$23.26 per share. At issuance, we allocated \$208.6 million to long-term debt, and \$55.3 million has been recorded as additional paid-in capital, which is being amortized to interest expense using the effective interest rate method through November 2021. As of June 30, 2018, none of the conversion criteria were met for the 1.5% 2035 Debentures. If the conversion criteria were met, we could be required to repay all or some of the aggregate principal amount in cash prior to the maturity date.

Revolving Credit Facility

Our revolving credit agreement (the “Revolving Credit Facility”), which expires on April 15, 2021, provides for aggregate borrowing commitments of \$242.5 million, including the revolving facility loans, the swingline loans and issuance of letters of credit. As of June 30, 2018, after taking into account the outstanding letters of credit of \$6.8 million, we had \$235.7 million available for borrowing under the Revolving Credit Facility. The borrowing outstanding under the Revolving Credit Facility bears interest at either (i) LIBOR plus an applicable margin of 1.50% or 1.75%, or (ii) the alternative base rate plus an applicable margin of 0.50% or 0.75%. The Revolving Credit Facility is secured by substantially all our assets. The Revolving Credit Facility contains customary affirmative and negative covenants and conditions to borrowing, as well as customary events of default. As of June 30, 2018, we are in compliance with all the debt covenants.

11. Stockholders' Equity

Share Repurchases

On April 29, 2013, our Board of Directors approved a share repurchase program for up to \$500.0 million, which was increased by \$500.0 million on April 29, 2015. Under the terms of the share repurchase program, we have the ability to repurchase shares through a variety of methods, which may include open market purchases, privately negotiated transactions, block trades, accelerated stock repurchase transactions, or any combination of such methods. The share repurchase program does not require us to acquire any specific number of shares and may be modified, suspended, extended or terminated by us at any time without prior notice. The timing and the amount of any purchases will be determined by management based on an evaluation of market conditions, capital allocation alternatives, and other factors.

For the three and nine months ended June 30, 2018, we repurchased 8.1 million shares of our common stock for \$112.0 million under the program. For the nine months ended June 30, 2017, we repurchased 5.8 million shares of our common stock for \$99.1 million under the program. Since the commencement of the program, we have repurchased an aggregate of 54.6 million shares for \$918.6 million. The amount paid in excess of par value is recognized in additional paid in capital. Shares were retired upon repurchase. As of June 30, 2018, approximately \$81.4 million remained available for future repurchases under the program.

On August 1, 2018, our Board of Directors approved an additional \$500.0 million under our share repurchase program. Since the beginning of the fourth quarter of fiscal year 2018, we have repurchased approximately 1.1 million shares of our common stock for approximately \$16.0 million.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

## 12. Net Loss Per Share

The following table sets forth the computation for basic and diluted net loss per share (dollars in thousands, except per share amounts):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Numerator:				
Net loss	\$(14,037)	\$(27,836)	\$(124,862)	\$(85,572)
Denominator:				
Weighted average common shares outstanding — Basic	292,663	287,856	292,703	289,269
Dilutive effect of employee stock compensation plans <sup>(a)</sup>	—	—	—	—
Weighted average common shares outstanding — Diluted	292,663	287,856	292,703	289,269
Net loss per share:				
Basic	\$(0.05)	\$(0.10)	\$(0.43)	\$(0.30)
Diluted	\$(0.05)	\$(0.10)	\$(0.43)	\$(0.30)
Anti-dilutive equity instruments excluded from the calculation	4,408	2,797	3,838	3,792
Contingently issuable awards excluded from the calculation <sup>(b)</sup>	1,975	4,687	1,801	3,856

<sup>(a)</sup> For all periods presented, there is no dilutive effect of equity instruments as the impact of these items is anti-dilutive due to the net loss incurred.

<sup>(b)</sup> Contingently issuable awards were excluded from the determination of dilutive net income per share as the conditions were not met at the end of the reporting period.

## 13. Stock-Based Compensation

On February 28, 2018, our shareholders approved amendments to the Company's amended and restated 2000 Stock Plan (the "Amended and Restated 2000 Stock Plan"). The Amended and Restated 2000 Stock Plan (i) increases the number of shares issuable by 6,400,000 to 82,250,000 shares; (ii) prohibits the payment of dividends relating to unvested awards unless and until such awards become vested; and (iii) prohibits shares that are withheld for taxes or to pay the exercise price of options or stock appreciation rights, or that are reacquired on the open market or otherwise using cash from option exercises, from becoming available for future grant under the Amended and Restated 2000 Stock Plan.

As of June 30, 2018, we had 13.4 million shares available for future grants under the Amended and Restated 2000 Stock Plan. We recognize stock-based compensation expenses over the requisite service periods. Our share-based awards are classified within equity. The amounts included in the condensed consolidated statements of operations related to stock-based compensation are as follows (dollars in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Cost of professional services and hosting	\$6,861	\$8,385	\$20,590	\$24,875
Cost of product and licensing	114	104	492	298
Cost of maintenance and support	952	1,130	3,041	3,117
Research and development	8,224	9,610	26,316	26,498
Sales and marketing	9,491	11,981	28,533	34,968
General and administrative	9,560	11,121	27,965	32,053
Total	\$35,202	\$42,331	\$106,937	\$121,809

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

## Stock Options

The table below summarizes activities related to stock options for the nine months ended June 30, 2018:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value <sup>(a)</sup>
Outstanding at September 30, 2017	23,807	\$ 15.39		
Exercised	(2,963 )	\$ 2.61		
Expired	(340 )	\$ 19.86		
Outstanding at June 30, 2018	20,504	\$ 17.16	2.5 years	\$0.1 million
Exercisable at June 30, 2018	20,504	\$ 17.16	2.5 years	\$0.1 million
Exercisable at June 30, 2017	25,936	\$ 15.78	2.8 years	\$0.1 million

<sup>(a)</sup> The aggregate intrinsic value in this table represents any excess of the closing market price of our common stock as of June 30, 2018 (\$13.89) over the exercise price of the underlying options.

The aggregate intrinsic value of stock options exercised during the nine months ended June 30, 2018 and 2017 was \$0.04 million and \$3.6 million, respectively.

## Restricted Units

Restricted units are not included in issued and outstanding common stock until the shares are vested and released. The purchase price for vested restricted units is \$0.001 per share. The table below summarizes activities relating to restricted units for the nine months ended June 30, 2018:

	Number of Shares Underlying Restricted Units — Contingent Awards	Number of Shares Underlying Restricted Units — Time-Based Awards
Outstanding at September 30, 2017	5,043,931	6,477,164
Granted	2,125,737	6,577,172
Earned/released	(2,092,862 )	(5,221,720 )
Forfeited	(1,541,975 )	(737,603 )
Outstanding at June 30, 2018	3,534,831	7,095,013
Weighted average remaining recognition period of outstanding restricted units	1.2 years	1.8 years
Unrecognized stock-based compensation expense of outstanding restricted units	\$36.6 million	\$75.6 million
Aggregate intrinsic value of outstanding restricted units <sup>(a)</sup>	\$49.1 million	\$98.6 million

<sup>(a)</sup> The aggregate intrinsic value in this table represents any excess of the closing market price of our common stock as of June 30, 2018 (\$13.89) over the purchase price of the underlying restricted units.

A summary of the weighted-average grant-date fair value of restricted units granted, and the aggregate intrinsic value of restricted units vested during the periods noted is as follows:

Nine Months  
Ended June 30,

	2018	2017
Weighted-average grant-date fair value per share	\$15.76	\$16.10
Total intrinsic value of shares vested (in millions)	\$115.3	\$119.2

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

## 14. Income Taxes

The components of loss before income taxes are as follows (dollars in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Domestic	\$(40,764)	\$(58,871)	\$(160,716)	\$(148,257)
Foreign	37,300	33,644	(29,550)	84,788
Loss before income taxes	\$(3,464)	\$(25,227)	\$(190,266)	\$(63,469)

The components of provision (benefit) for income taxes are as follows (dollars in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Domestic	\$206	\$(3,029)	\$(75,463)	\$5,952
Foreign	10,367	5,638	10,059	16,151
Provision (benefit) for income taxes	\$10,573	\$2,609	\$(65,404)	\$22,103
Effective tax rate	(305.2)%	(10.3)%	34.4%	(34.8)%

On December 22, 2017, the Tax Cuts and Jobs Act ("TCJA") was signed into law. The TCJA significantly revises the U.S. corporate income tax by, among other things, lowering corporate income tax rates, implementing a hybrid territorial tax system, and imposing a mandatory one-time repatriation tax on foreign cash and earnings.

As a result of the TCJA, we remeasured certain deferred tax assets and liabilities at the lower rates and recorded approximately \$87.0 million of tax benefits for the nine months ended June 30, 2018, which also reflected a benefit of \$0.5 million for the three months ended June 30, 2018 as we revised our estimates of the timing and amounts of the temporary differences. Additionally, we recorded a \$2.0 million provision for the deemed repatriation of foreign cash and earnings for the nine months ended June 30, 2018.

The provisional amounts above were based upon the estimates of (i) temporary differences at the end of the upcoming tax year, (ii) the timing the temporary differences are expected to reverse, (iii) foreign earnings and profits, and (iv) foreign income taxes. The assessment is incomplete as of June 30, 2018. As our assessment is ongoing, these amounts may materially change as we revise our assumptions and estimates based on new information available to us, changes in our interpretations, additional guidance to be issued, and actions we may take as a result of the TCJA. We are still evaluating the full impact of other provisions of the TCJA, which may materially increase or decrease our income tax provision. The assessment is expected to be completed no later than the first quarter of fiscal year 2019.

In addition, as more fully described in Note 4, in connection with the impairment charge of SRS's goodwill, we recognized a tax benefit of \$8.5 million related to the portion of deductible goodwill in Brazil for the three and nine months ended June 30, 2018.

The effective tax rate for the nine months ended June 30, 2018 reflects the impact of the TCJA discussed above. For other periods presented, the effective income tax rates differ from the U.S. federal statutory rate of 25% for fiscal year 2018 and 35% for fiscal year 2017 primarily due to current period losses in the United States that require an additional valuation allowance and accordingly provide no benefit to the provision as well as an increase to indefinite lived deferred tax liabilities. This is partially offset by our earnings in foreign operations that are subject to a significantly lower tax rate than the U.S. statutory tax rate, driven primarily by our subsidiaries in Ireland.

## 15. Commitments and Contingencies

## Litigation and Other Claims

Similar to many companies in the software industry, we are involved in a variety of claims, demands, suits, investigations and proceedings that arise from time to time relating to matters incidental to the ordinary course of our business, including at times actions with respect to contracts, intellectual property, employment, benefits and securities matters. At each balance sheet date we evaluate contingent liabilities associated with these matters in

accordance with ASC 450 “Contingencies.” If the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss. Significant judgments are required for the determination of probability and the range of the outcomes, and

NUANCE COMMUNICATIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

estimates are based only on the best information available at the time. Due to the inherent uncertainties involved in claims and legal proceedings and in estimating losses that may arise, actual outcomes may differ from our estimates. Contingencies deemed not probable or for which losses were not estimable in one period may become probable, or losses may become estimable in later periods, which may have a material impact on our results of operations and financial position. As of June 30, 2018, accrued losses were not material to our condensed consolidated financial statements, and we do not expect any pending matter to have a material impact on our condensed consolidated financial statements.

**Guarantees and Other**

We include indemnification provisions in the contracts we enter with customers and business partners. Generally, these provisions require us to defend claims arising out of our products' infringement of third-party intellectual property rights, breach of contractual obligations and/or unlawful or otherwise culpable conduct. The indemnity obligations generally cover damages, costs and attorneys' fees arising out of such claims. In most, but not all cases, our total liability under such provisions is limited to either the value of the contract or a specified, agreed upon amount. In some cases, our total liability under such provisions is unlimited. In many, but not all cases, the term of the indemnity provision is perpetual. While the maximum potential amount of future payments we could be required to make under all the indemnification provisions is unlimited, we believe the estimated fair value of these provisions is minimal due to the low frequency with which these provisions have been triggered.

We indemnify our directors and officers to the fullest extent permitted by Delaware law, which provides among other things, indemnification to directors and officers for expenses, judgments, fines, penalties and settlement amounts incurred by such persons in their capacity as a director or officer of the company, regardless of whether the individual is serving in any such capacity at the time the liability or expense is incurred. Additionally, in connection with certain acquisitions, we agreed to indemnify the former officers and members of the boards of directors of those companies, on similar terms as described above, for a period of six years from the acquisition date. In certain cases, we purchase director and officer insurance policies related to these obligations, which fully cover the six-year period. To the extent that we do not purchase a director and officer insurance policy for the full period of any contractual indemnification, and such directors and officers do not have coverage under separate insurance policies, we would be required to pay for costs incurred, if any, as described above.

**16. Related Party Transaction**

In January 2018, we entered into a software and license agreement (the "License Agreement") with Magnet Systems, Inc. ("Magnet"). A member of the Magnet board of directors also served on our board of directors at the time of the transaction. Pursuant to the License Agreement, Magnet granted Nuance a perpetual software license to certain technology for a one-time payment of \$5.0 million in cash, with \$3.5 million paid immediately upon the effective date of the License Agreement and \$1.5 million payable upon the earlier of (i) the 120-day period following the effective date of the License Agreement or (ii) signature of a statement of work for the engineering services described below. Additionally, we entered into a service agreement (the "Service Agreement") with Magnet, pursuant to which, Magnet will provide engineering services to assist in integrating the licensed technology into certain of our Enterprise solutions. Based upon the statement of work signed on April 19, 2018, total fees under the Service Agreement should not exceed \$2.0 million and are payable within thirty days after receipt of each invoice for services performed and accepted in accordance with the terms of the Service Agreement.

**17. Segment and Geographic Information**

During the first quarter of fiscal year 2018, we commenced a reorganization of our segment reporting structure to allow our Chief Operating Decision Maker ("CODM") greater focus on implementing strategic initiatives and identifying future investment opportunities. During the second quarter of fiscal year 2018, we established our Automotive business as a separate operating segment. Additionally, we moved our Dragon TV business from our former Mobile operating segment into our Enterprise operating segment to consolidate our telecommunications market resources. Finally, our SRS business and our Devices business, originally included within our former Mobile operating segment, are now presented within our Other segment. As a result, segment information for the three and

nine months ended June 30, 2018 and 2017 has been recast to reflect the new segment reporting structure. Our CODM regularly reviews segment revenues and segment profits for performance evaluation and resources allocation. Segment revenues include certain acquisition-related adjustments for revenues that would otherwise have been recognized without the acquisition. Segment profits reflect controllable costs directly related to each segment and the allocation of certain corporate expenses such as, corporate sales and marketing expenses and research and development project costs that benefit multiple segments. Certain items such as stock-based compensation, amortization of intangible assets, acquisition-related costs, net, restructuring and other charges, net, other expenses, net and certain unallocated corporate expenses are excluded from segment profits, which allow for more meaningful comparisons to the financial results of the historical operations for performance evaluation and resources allocation by our CODM.

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

The Healthcare segment is primarily engaged in providing clinical speech and clinical language understanding solutions that improve the clinical documentation process, from capturing the complete patient record to improving clinical documentation and quality measures for reimbursement.

The Enterprise segment is primarily engaged in using speech, natural language understanding, and artificial intelligence to provide automated customer solutions and services for voice, mobile, web and messaging channels.

The Automotive segment is primarily engaged in providing automotive manufacturers and their suppliers branded and personalized virtual assistants and connected car services built on our voice recognition and natural language understanding technologies.

The Imaging segment is primarily engaged in software solutions and expertise that help professionals and organizations to gain optimal control of their document and information processes through scanning and print management.

The Other segment includes our SRS business and our Devices business. Our SRS business provides value-added services to mobile operators in emerging markets, primarily in India and Brazil. Our Devices business provides speech recognition solutions and predictive text technologies to handset devices.

We do not track our assets by segment. Consequently, it is not practical to show assets or depreciation by segment.

The following table presents segment results along with a reconciliation of segment profit to loss before income taxes (dollars in thousands):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
Segment revenues:				
Healthcare	\$236,195	\$232,641	\$742,970	\$710,315

## NUANCE COMMUNICATIONS, INC.

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

No country outside of the United States provided greater than 10% of our total revenues. Revenues, classified by the major geographic areas in which our customers are located, were as follows (dollars in thousands):

	Three Months Ended June 30, 2018		Nine Months Ended June 30, 2018	
	2017		2017	
United States	\$362,796	\$341,826	\$1,094,695	\$1,043,933
International	140,091	144,395	424,061	429,519
Total revenues	\$502,887	\$486,221	\$1,518,756	\$1,473,452

## 18. Supplemental Cash Flow Information

## Cash paid for Interest and Income Taxes:

	Three Months Ended June 30, 2018		Nine Months Ended June 30, 2018	
	2017		2017	
Interest paid	\$22,536	\$24,481	\$71,244	\$70,363
Income taxes paid	\$3,139	\$2,211	\$11,972	\$10,847

(Dollars in thousands)

## Non-Cash Investing and Financing Activities:

From time to time, we issue shares of our common stock in connection with our business and asset acquisitions, including shares issued as payment for acquisitions, shares initially held in escrow, and shares issued as payment for contingent consideration, as more fully described in Note 3.

## Table of Contents

### Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following Management’s Discussion and Analysis is intended to help the reader understand the results of operations and financial condition of our business. Management’s Discussion and Analysis is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and the accompanying notes to the condensed consolidated financial statements.

### CAUTIONARY NOTE CONCERNING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q including the sections entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Quantitative and Qualitative Disclosures About Market Risk” under Items 2 and 3, respectively, of Part I of this report, and the sections entitled “Legal Proceedings” and “Risk Factors,” under Items 1 and 1A, respectively, of Part II of this report, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks, uncertainties and assumptions that, if they never materialize or if they prove incorrect, could cause our consolidated results to differ materially from those expressed or implied by such forward-looking statements. These forward-looking statements include predictions regarding:

- our future bookings, revenues, cost of revenues, research and development expenses, selling, general and administrative expenses, amortization of intangible assets and gross margin;
- our strategy relating to our segments;
- our programs to reduce costs and optimize processes;
- market trends;
- technological advancements;
- the potential of future product releases;
- our product development plans and the timing, amount and impact of investments in research and development;
- future acquisitions, and anticipated benefits from acquisitions;
- international operations and localized versions of our products; and
- the conduct, timing and outcome of legal proceedings and litigation matters.

You can identify these and other forward-looking statements by the use of words such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “intends,” “potential,” “continue” or the negative of such terms, or comparable terminology. Forward-looking statements also include the assumptions underlying or relating to any of the foregoing statements. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including the risks described in Item 1A — “Risk Factors” and elsewhere in this Quarterly Report on Form 10-Q.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document.

### OVERVIEW

#### Business Overview

We are a pioneer and leader in conversational and cognitive artificial intelligence (AI) innovations that bring intelligence to everyday work and life. Our solutions and technologies can understand, analyze and respond to human language to increase productivity and amplify human intelligence. Our solutions are used by businesses in the healthcare, automotive, financial services, telecommunication and travel industries, among others. We are seeing several trends in our markets, including (i) the growing adoption of cloud-based, connected services and highly interactive mobile applications, (ii) deeper integration of virtual assistant capabilities and services, and (iii) the continued expansion of our core technology portfolio including speech recognition, natural language understanding, semantic processing, domain-specific reasoning, dialog management capabilities, artificial intelligence, and biometric speaker authentication. We report our business in five segments, Healthcare, Enterprise, Automotive, Imaging and Other.

#### Business Trends

Healthcare. Customers in our healthcare segment are broadly implementing electronic medical record systems and are working to improve clinical documentation, to improve quality of care, to minimize physician burnout and to integrate quality measures and to aid reimbursement. These trends are driving a shift towards more integrated solutions that combine both Dragon Medical and transcription services, and increasingly use only Dragon Medical Services. Recently, higher demand for more integrated

## Table of Contents

solutions have offset declines in legacy, hosted transcription services. Additionally, we have been able to capitalize on healthcare providers' shift towards hosted, or cloud-based solutions, and away from perpetual licenses, by adding new innovations to our Dragon Medical cloud solutions including new clinical language understanding and Artificial Intelligence ("AI") capabilities designed to increase productivity and improve clinical documentation at the point of care and within existing electronic medical work flow.

**Enterprise.** Consumer demand for 24/7, multi-channel access to customer service from the businesses they interact with is driving demand for our AI-powered omni-channel engagement solutions. We continue to enhance our technology capabilities with intelligent self-service and artificial intelligence for customer service, and to extend the market for our on-demand omni-channel enterprise solutions into international markets, expand our sales and solutions for biometrics, and expand our core products and services portfolio.

**Automotive.** Demand for our embedded and cloud-based automotive solutions is being driven by the growth in personalized, automotive virtual assistants and connected services for cars and by auto manufacturers' desire to create a branded and personalized experience, capable of intelligently integrating users smart phone and home device preferences and technologies.

**Imaging.** The imaging market is evolving to include more networked solutions to multi-function printing ("MFP") devices, as well as more mobile access to those networked solutions, and away from packaged software. We are investing to merge the scan and print technology platforms to improve mobile access to our solutions and technologies, expand our distribution channels and embedded relationships, and expand our language coverage for optical character recognition ("OCR") in order to drive a more comprehensive and compelling offering to our partners.

**Other.** The Other segment includes our Subscriber Revenue Services ("SRS") business and our Devices business. Our SRS business provides value-added services to mobile operators in emerging markets, primarily in India and Brazil. Our Devices business provides speech recognition solutions and predictive text technologies to handset devices.

As more fully described in Note 4 to the accompanying condensed consolidated financial statements, during the second quarter of fiscal year 2018, we recognized a goodwill impairment charge of \$102.8 million related to SRS as a result of lowering our long-term projections of the business during the second quarter of fiscal year 2018 due to the recent market disruptions in India and Brazil. These markets have experienced recent and dramatic disruption as a result of accelerated change in competition and business models for our SRS mobile operator customers. Specifically, the rapid shift away from a model where voice, data and text are offered separately toward unlimited bundled services at considerably lower costs has significantly reduced mobile operators' demand for our services. This reduced demand materially impacts our future expectations for SRS revenues. As a result, executive management performed an updated strategic assessment and reduced the long-term growth rates and profitability contemplated in SRS's multi-year operating plan. We concluded that these financial results coupled with the accelerated market shifts being experienced in the industry were factors that represented impairment indicators, triggering a review of goodwill and indefinite-lived intangible assets for impairment during the second quarter of fiscal 2018.

Additionally, during the second quarter of fiscal year 2018, we recognized a \$35.1 million goodwill impairment related to our Devices business, which has been declining due to the ongoing consolidation of our handset manufacturer customer base and continued erosion of our penetration of the remaining market. While the business has been performing in line with our expectations, the reorganization, as more fully described in Note 17 to the accompanying condensed consolidated financial statements, triggered an assessment for the goodwill assigned to the business in the second quarter of fiscal year 2018.

### Key Metrics

A summary of key financial metrics for the nine months ended June 30, 2018, as compared to the nine months ended June 30, 2017, is as follows:

- Total revenues increased by \$45.3 million to \$1,518.8 million;
- Net loss increased by \$39.3 million to \$124.9 million;
- Gross margins decreased by 0.1 percentage points to 56.3%;
- Operating margins decreased by 10.8 percentage points to (6.1)%; and
- Cash provided by operating activities decreased by \$87.3 million to \$295.0 million.

## Table of Contents

As of June 30, 2018, as compared to June 30, 2017:

Total deferred revenue increased by 9.2% from \$798.7 million to \$871.9 million, primarily driven by the continued growth of our Automotive connected solutions and Healthcare bundled offerings.

A summary of key operating metrics for the three months ended June 30, 2018, as compared to the three months ended June 30, 2017, is as follows:

Net new bookings increased by 7.4% from one year ago to \$471.1 million, primarily due to increases in our Healthcare and Enterprise segments.

Bookings represent the estimated gross revenue value of transactions at the time of contract execution, except for maintenance and support offerings. For fixed price contracts, the bookings value represents the gross total contract value. For contracts where revenue is based on transaction volume, the bookings value represents the contract price multiplied by the estimated future transaction volume during the contract term, whether or not such transaction volumes are guaranteed under a minimum commitment clause. Actual results could be different than our initial estimate. The maintenance and support bookings value represents the amounts the customer is invoiced in the period. Because of the inherent estimates required to determine bookings and the fact that the actual resultant revenue may differ from our initial bookings estimates, we consider bookings one indicator of potential future revenue and not as an arithmetic measure of backlog.

Net new bookings represents the estimated revenue value at the time of contract execution from new contractual arrangements or the estimated revenue value incremental to the portion of value that will be renewed under pre-existing arrangements.

Recurring revenue represented 73% of total revenue for three months ended June 30, 2018 and June 30, 2017.

Recurring revenue represents the sum of recurring hosting, product and licensing, and maintenance and support revenues as well as the portion of professional services revenue delivered under ongoing contracts. Recurring product and licensing revenue comprises term-based and ratable licenses as well as revenues from royalty arrangements. Annualized line run-rate in our on-demand healthcare solutions decreased by 31% from a year ago to approximately 3.0 billion lines per year. The decrease was primarily due to the continued erosion in our transcription services and the impact of the 2017 Malware Incident, as defined below. The annualized line run-rate is determined using billed equivalent line counts in a given quarter, multiplied by four.

Estimated three-year value of total on-demand contracts as of June 30, 2018 increased by 1% from a year ago to approximately \$2.4 billion. The increase was primarily due to growth in our Dragon Medical cloud and Automotive solutions, offset in part by the continued erosion in our transcription services and the decline in our SRS business. We determine this value as of the end of the period reported, by using our estimate of three years of anticipated future revenue streams under signed on-demand contracts then in place, whether or not they are guaranteed through a minimum commitment clause. Our estimate is based on assumptions used in evaluating the contracts and determining sales compensation, adjusted for changes in estimated launch dates, actual volumes achieved, and other factors deemed relevant. For contracts with an expiration date beyond three years, we include only the value expected within three years. For other contracts, we assume renewal consistent with historic renewal rates unless there is a known cancellation. Contracts are generally priced by volume of usage and typically have no or low minimum commitments. Actual revenue could vary from our estimates due to factors such as cancellations, non-renewals or volume fluctuations.

### Cybersecurity & Data Privacy Matters

On June 27, 2017, Nuance was a victim of the global NotPetya malware incident (the “2017 Malware Incident”). The NotPetya malware affected certain Nuance systems, including systems used by our healthcare customers, primarily for transcription services, as well as systems used by our imaging division to receive and process orders. For fiscal year 2017, we estimate that we lost approximately \$68.0 million in revenues, primarily in our Healthcare segment, due to the service disruption and the reserves we established for customer refund credits related to 2017 Malware Incident. Additionally, we incurred incremental costs of approximately \$24.0 million for fiscal year 2017 as a result of our remediation and restoration efforts, as well as incremental amortization expenses. Although the direct effects of the 2017 Malware Incident were remediated during fiscal year 2017, as explained below, the 2017 Malware Incident had a continued effect on our results of operations in the first half of fiscal year 2018 including contributing to: a

year-over-year decline in the annualized line run-rate in our on-demand healthcare solutions and in the estimated three-year value of on-demand contracts; a year-over-year decline in hosted revenue and an increase in restructuring and other charges. In addition, we expect to expend additional resources during the remainder of fiscal year 2018 and beyond to continue to enhance and upgrade information security.

Table of Contents

In addition, in December 2017, an unauthorized third party illegally accessed certain reports hosted on a Nuance transcription platform. This incident was limited in scope to records of approximately 45,000 individuals and was isolated to a single transcription platform that was promptly shutdown. Customers using that platform were notified of the incident and were migrated to our eScription transcription platforms. We also notified law enforcement authorities and have cooperated in their investigation into the matter. The law enforcement investigation resulted in the identification of the third party, and the accessed reports have been recovered. This incident did not have a material effect on our financial results for the nine months ended June 30, 2018 and is not expected to have a material effect on our financial results for future periods. Future cybersecurity or data privacy incidents could have a material adverse effect on our results of operations. See “Risk Factors - Cybersecurity and data privacy incidents or breaches may damage client relations and inhibit our growth.”

**RESULTS OF OPERATIONS****Total Revenues**

The following tables show total revenues by product type and by geographic location, based on the location of our customers, in dollars and percentage change (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,				June 30,			
	2018	2017	Change	Change	2018	2017	Change	Change
Professional services and hosting	\$254.5	\$251.5	\$3.0	1.2 %	\$788.1	\$763.6	\$24.5	3.2 %
Product and licensing	168.7	154.2	14.5	9.4 %	491.8	465.2	26.6	5.7 %
Maintenance and support	79.7	80.5	(0.8 )	(1.0 )%	238.9	244.6	(5.7 )	(2.3 )%
Total Revenues	\$502.9	\$486.2	\$16.7	3.4 %	\$1,518.8	\$1,473.5	\$45.3	3.1 %
United States	\$362.8	\$341.8	\$21.0	6.1 %	\$1,094.7	\$1,043.9	\$50.8	4.9 %
International	140.1	144.4	(4.3 )	(3.0 )%	424.1	429.5	(5.4 )	(1.3 )%
Total Revenues	\$502.9	\$486.2	\$16.7	3.4 %	\$1,518.8	\$1,473.5	\$45.3	3.1 %

The geographic split for the three months ended June 30, 2018 was 72% of total revenues in the United States and 28% internationally, as compared to 70% of total revenues in the United States and 30% internationally for the three months ended June 30, 2017.

The geographic split for the nine months ended June 30, 2018 was 72% of total revenues in the United States and 28% internationally, as compared to 71% of total revenues in the United States and 29% internationally for the nine months ended June 30, 2017.

**Professional Services and Hosting Revenue**

Professional services revenue primarily consists of consulting, implementation and training services for customers. Hosting revenue primarily relates to delivering on-demand hosted services, such as medical transcription, automated customer care applications, mobile operator services, mobile infotainment and search and transcription, over a specified term. The following table shows professional services and hosting revenue, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,				June 30,			
	2018	2017	Change	Change	2018	2017	Change	Change
Professional services revenue	\$64.2	\$62.1	\$ 2.1	3.3 %	\$218.2	\$178.8	\$39.5	22.1 %
Hosting revenue	190.3	189.4	0.9	0.5 %	569.9	584.8	(15.0 )	(2.6 )%
	\$254.5	\$251.5	\$ 3.0	1.2 %	\$788.1	\$763.6	\$24.5	3.2 %
As a percentage of total revenue	50.6 %	51.7 %			51.9 %	51.8 %		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Hosting revenue increased by \$0.9 million, or 0.5%, primarily due to a \$3.7 million increase in our Automotive segment and a \$2.6 million increase in Enterprise segment, partially offset by a \$5.2 million decrease in our Other segment. Hosting revenue in Automotive increased due to continued growth in our speech recognition and

infotainment platform services. Hosting revenue in Enterprise segment increased mostly due to growth in our omni-channel hosting solutions. Hosting Revenue in Other segment decreased due to lower revenue from both our SRS and Devices businesses.

Professional services revenue increased by \$2.1 million, or 3.3%, primarily due to higher revenue from electronic healthcare record ("EHR") implementation and optimization services in Healthcare.

Table of Contents

As a percentage of total revenue, professional services and hosting revenue decreased from 51.7% to 50.6%, primarily due to higher product and licensing revenue discussed below.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Hosting revenue decreased by \$15.0 million, or 2.6%, primarily due to a \$18.8 million decrease in our Other segment and a \$11.7 million decrease in our Healthcare segment, partially offset by a \$11.3 million increase in our Automotive segment and a \$4.3 million increase in our Enterprise segment. Hosting revenue in Other segment decreased due to lower revenue from both our SRS and Devices businesses. Healthcare hosting revenue decreased primarily due to the continued erosion in transcription services, offset in part by the continued market penetration and growth of our Dragon cloud-based solutions. Automotive hosting revenue increased primarily due to continued growth in our speech recognition and infotainment platform services. Hosting revenue in Enterprise segment increased primarily due to the growth in our omni-channel hosting solutions.

Professional services revenue increased by \$39.5 million, or 22.1%, primarily due to higher revenue from EHR implementation and optimization services in Healthcare.

As a percentage of total revenue, professional services and hosting revenue increased from 51.8% to 51.9%, or essentially flat year-over-year.

#### Product and Licensing Revenue

Product and licensing revenue primarily consists of sales and licenses of our technology. The following table shows product and licensing revenue, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar Change	Percent Change	Ended		Dollar Change	Percent Change
	June 30, 2018	2017			June 30, 2018	2017		
Product and licensing revenue	\$168.7	\$154.2	\$ 14.5	9.4 %	\$491.8	\$465.2	\$ 26.5	5.7 %
As a percentage of total revenue	33.5 %	31.7 %			32.4 %	31.6 %		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Product and licensing revenue increased by \$14.5 million, or 9.4%, primarily due to a \$7.6 million increase in Automotive, a \$7.2 million increase in Enterprise, a \$3.9 million increase in Imaging and a \$2.6 million increase in Healthcare, partially offset by a \$6.9 million decrease in Other. Automotive product and licensing revenue increased primarily due to the timing of royalties from existing and new customers. Enterprise product and licensing revenue increased primarily due to higher contact center license revenue. Imaging product and licensing revenue increased primarily due to higher Core Imaging revenue driven by new product launch. Healthcare product and licensing revenue increased primarily as a result of higher revenue from diagnostics solutions due to recent acquisitions. Other segment decreased due to lower revenue from both our SRS and Devices businesses. As a result, product and licensing revenue as a percentage of total revenue increased from 31.7% to 33.5%.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Product and licensing revenue increased by \$26.5 million, or 5.7%, primarily due to a \$13.0 million increase in Automotive, a \$13.2 million increase in Healthcare, a \$3.3 million increase in Enterprise and a \$2.2 million increase in Imaging, offset in part by a \$5.1 million decrease in Other. Automotive product and licensing revenue increased primarily due to the timing of royalties from existing and new customers. Healthcare product and licensing revenue increased primarily as a result of higher revenue from diagnostics solutions due to recent acquisitions. Enterprise product and licensing revenue increased primarily due to higher contact center license revenue. Imaging product and licensing revenue increased primarily due to higher Core Imaging revenue driven by new product launch. Other segment decreased due to lower revenue from both our SRS and Devices businesses. As a result, product and licensing revenue as a percentage of total revenue increased from 31.6% to 32.4%.

#### Maintenance and Support Revenue

Maintenance and support revenue primarily consists of technical support and maintenance services. The following table shows maintenance and support revenue, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar Change	Percent Change	Ended		Dollar Change	Percent Change
	June 30, 2018	2017			June 30, 2018	2017		

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

	June 30,				June 30,			
	2018	2017			2018	2017		
Maintenance and support revenue	\$79.7	\$80.5	\$ (0.7 )	(1.0 )%	\$238.9	\$244.6	\$ (5.7 )	(2.3 )%
As a percentage of total revenue	15.9 %	16.6 %			15.7 %	16.6 %		

28

---

Table of Contents

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Maintenance and support revenue decreased by \$0.7 million, or 1.0%. As a percentage of total revenue, maintenance and support revenue decreased from 16.6% to 15.9%. The decreases were primarily due to the continuing customer transition from product licenses to cloud-based solutions in Healthcare.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Maintenance and support revenue decreased by \$5.7 million, or 2.3%. As a percentage of total revenue, maintenance and support revenue decreased from 16.6% to 15.7%. The decreases were primarily due to the continuing customer transition from product licenses to cloud-based solutions in Healthcare.

**COSTS AND EXPENSES****Cost of Professional Services and Hosting Revenue**

Cost of professional services and hosting revenue primarily consists of compensation for services personnel, outside consultants and overhead, as well as the hardware, infrastructure and communications fees that support our hosting solutions. The following table shows the cost of professional services and hosting revenue, in dollars and as a percentage of professional services and hosting revenue (dollars in millions):

	Three Months Ended June 30, 2018		2017		Dollar Change	Percent Change	Nine Months Ended June 30, 2018		2017		Dollar Change	Percent Change
Cost of professional services and hosting revenue	\$166.3	\$169.4			\$ (3.2 )	(1.9 )%	\$519.9	\$498.5			\$ 21.4	4.3 %
As a percentage of professional services and hosting revenue	65.3	%	67.4	%			66.0	%	65.3	%		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

The decrease in cost of professional services and hosting revenue was primarily due to lower volume through our transcription services, partially offset by the growth in our Dragon Medical cloud-based solutions and EHR implementation and optimization services. Gross margin increased by 2.1 percentage points primarily due to a favorable shift in revenue mix towards higher margin Dragon Medical cloud-based offerings, offset in part by margin compression in our medical transcription services and the increase in EHR implementation and optimization services which carried lower margins.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

The increase in cost of professional services and hosting revenue was primarily due to the growth in our Dragon Medical cloud-based solutions and EHR implementation and optimization services, offset in part by lower volume through our transcription services. Also contributing to the increase was higher Automotive hosting costs driven by growth in our connected services. Gross margin decreased by 0.7 percentage points primarily due to margin compression in our medical transcription services and the increase in EHR implementation and optimization services which carried lower margins, offset in part by a favorable shift in revenue mix towards higher margin Dragon Medical cloud-based offerings.

**Cost of Product and Licensing Revenue**

Cost of product and licensing revenue primarily consists of material and fulfillment costs, manufacturing and operations costs and third-party royalty expenses. The following table shows the cost of product and licensing revenue, in dollars and as a percentage of product and licensing revenue (dollars in millions):

	Three Months Ended June 30, 2018		2017		Dollar Change	Percent Change	Nine Months Ended June 30, 2018		2017		Dollar Change	Percent Change
Cost of product and licensing revenue	\$19.1	\$17.6			\$ 1.4	8.0 %	\$57.1	\$54.8			\$ 2.2	4.2 %
As a percentage of product and licensing revenue	11.3	%	11.4	%			11.6	%	11.8	%		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Cost of product and licensing revenue increased by \$1.4 million, or 8.0%. Gross margin was essentially flat year-over-year.

Table of Contents

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Cost of product and licensing revenue increased by \$2.2 million, or 4.2%. Gross margin was essentially flat year-over-year.

#### Cost of Maintenance and Support Revenue

Cost of maintenance and support revenue primarily consists of compensation for product support personnel and overhead. The following table shows the cost of maintenance and support revenue, in dollars and as a percentage of maintenance and support revenue (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
Cost of maintenance and support revenue	\$14.3	\$13.4	\$ 0.9	7.0 %	\$42.8	\$40.2	\$ 2.5	6.3 %
As a percentage of maintenance and support revenue	18.0 %	16.7 %			17.9 %	16.5 %		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Cost of maintenance and support revenue increased by \$0.9 million, or 7.0%. Gross margins decreased by 1.3 percentage points primarily due to lower margin on Dragon Medical maintenance and support services in Healthcare.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Cost of maintenance and support revenue increased by \$2.5 million, or 6.3%. Gross margins decreased by 1.4 percentage points primarily due to lower margin on Dragon Medical maintenance and support services in Healthcare.

#### Research and Development Expense

Research and development ("R&D") expense primarily consists of salaries, benefits, and overhead relating to engineering staff as well as third party engineering costs. The following table shows research and development expense, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
Research and development expense	\$75.7	\$66.6	\$ 9.2	13.8 %	\$223.3	\$199.1	\$ 24.2	12.1 %
As a percentage of total revenue	15.1 %	13.7 %			14.7 %	13.5 %		

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Research and development expense increased by \$9.2 million, or 13.8%, primarily due to higher compensation expenses as a result of higher R&D headcount as a result of higher R&D headcount as we continue to invest in product evolution and new technologies to support our long-term growth.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Research and development expense increased by \$24.2 million, or 12.1%, primarily due to higher compensation expenses as a result of higher R&D headcount as a result of higher R&D headcount as we continue to invest in product evolution and new technologies to support our long-term growth.

Table of Contents**Sales and Marketing Expense**

Sales and marketing expense includes salaries and benefits, commissions, advertising, direct mail, public relations, tradeshow costs and other costs of marketing programs, travel expenses associated with our sales organization and overhead. The following table shows sales and marketing expense, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
Sales and marketing expense	\$96.2	\$97.0	\$ (0.8 )	(0.8 )%	\$292.4	\$292.2	\$ 0.2	0.1 %
As a percentage of total revenue	19.1 %	20.0 %			19.2 %	19.8 %		

**Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017**

Sales and marketing expense decreased by \$0.8 million, or 0.8%, primarily driven by increases in marketing and communication expenses, offset in part by lower compensation expenses.

**Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017**

Sales and marketing expense increased by \$0.2 million, or 0.1%, primarily driven by the increase in professional service expenses and marketing and communication expenses.

**General and Administrative Expense**

General and administrative expense primarily consists of personnel costs for administration, finance, human resources, general management, fees for external professional advisers including accountants and attorneys, and provisions for doubtful accounts. The following table shows general and administrative expense, in dollars and as a percentage of total revenues (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
General and administrative expense	\$50.7	\$42.3	\$ 8.3	19.7 %	\$177.8	\$123.6	\$ 54.2	43.8 %
As a percentage of total revenue	10.1 %	8.7 %			11.7 %	8.4 %		

**Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017**

General and administrative expense increased by \$8.3 million, or 19.7%, primarily due to professional service costs related to evaluating strategic alternatives for certain businesses and legal expenses related to enforcing our intellectual property rights.

**Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017**

General and administrative expense increased by \$54.2 million, or 43.8%, primarily due to professional services costs related to evaluating strategic alternatives for certain businesses and establishing the Automotive business as a separate operating segment, and legal expenses related to enforcing our intellectual property rights.

**Amortization of Intangible Assets**

Amortization of acquired patents and technologies are included within cost of revenue and the amortization of acquired customer and contractual relationships, non-compete agreements, acquired trade names and trademarks, and other intangibles are included within operating expenses. Customer relationships are amortized based upon the pattern in which the economic benefits of the customer relationships are expected to be realized. Other identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives. Amortization expense was recorded as follows (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
Cost of revenue	\$13.8	\$15.7	\$ (2.0 )	(12.5)%	\$43.9	\$48.5	\$ (4.6 )	(9.5 )%
Operating expenses	24.1	29.2	(5.0 )	(17.3)%	69.9	84.9	(15.1 )	(17.8)%

Edgar Filing: Nuance Communications, Inc. - Form 10-Q

Total amortization expense	\$37.9	\$44.9	\$ (7.0 )	(15.6)%	\$113.7	\$133.4	\$(19.7)	(14.7)%
As a percentage of total revenue	7.5	% 9.2	%		7.5	% 9.1	%	

The decreases in total amortization of intangible assets for the three and nine months ended June 30, 2018, as compared to the prior year periods, were primarily due to certain intangible assets having been fully amortized during fiscal year 2017.

Table of Contents**Acquisition-Related Costs, Net**

Acquisition-related costs include costs related to business acquisitions. These costs consist of (i) transition and integration costs, including retention payments, transitional employee costs, earn-out payments, and other costs related to integration activities; (ii) professional service fees, including financial advisory, legal, accounting, and other outside services incurred in connection with acquisition activities, and disputes and regulatory matters related to acquired entities; and (iii) fair value adjustments to acquisition-related contingencies. A summary of the acquisition-related costs is as follows (dollars in millions):

	Three Months				Nine Months			
	Ended		Dollar	Percent	Ended		Dollar	Percent
	June 30,		Change	Change	June 30,		Change	Change
	2018	2017			2018	2017		
Transition and integration costs	\$5.4	\$3.7	\$ 1.6	44.3 %	\$12.8	\$11.0	\$ 1.8	15.9 %
Professional service fees	1.3	3.9	(2.7 )	(67.9 )%	2.7	11.9	(9.2 )	(77.3 )%
Acquisition-related adjustments	(1.7 )	—	(1.7 )	(9,089.5)%	(2.7 )	(0.9 )	(1.8 )	200.0 %
Total acquisition-related costs, net	\$4.9	\$7.6	\$ (2.7 )	(35.7 )%	\$12.8	\$22.1	\$ (9.2 )	(41.8 )%
As a percentage of total revenue	1.0 %	1.6 %			0.8 %	1.5 %		

The decreases in acquisition-related costs, net for the three and nine months ended June 30, 2018, as compared to the prior year periods, were primarily due to the decrease in professional service fees driven by reduced acquisition activities during fiscal year 2018.

**Restructuring and Other Charges, Net**

While restructuring and other charges, net are excluded from segment profits, the table below presents the restructuring and other charges, net associated with each segment (dollars in thousands):

Three Months Ended June 30,										
2018					2017					
	Personnel	Facilities	Total	Other		Personnel	Facilities	Total	Other	Total
			Restructuring	Charges				Restructuring	Charges	
Healthcare	\$377	\$—	\$ 377	\$—	\$377	\$993	\$—	\$ 993	\$ 4,065	\$5,058
Enterprise	3,412	(197 )	3,215	—	3,215	1,910	2,040	3,950	—	3,950
Automotive	1,233	—	1,233	—	1,233	377	—	377	—	377
Imaging	2,725	1,170	3,895	—	3,895	43	—	43	—	43

Imaging	4,031	1,163	5,194	—	5,194	629	387	1,016	—	1,016
Other	1,498	624	2,122	—	2,122	2,341	(460 )	1,881	10,773	12,654
Corporate	2,339	951	3,290	10,335	13,625	1,241	2,007	3,248	6,824	10,072
Total	\$17,718	\$ 4,933	\$ 22,651	\$10,335	\$32,986	\$12,279	\$ 5,708	\$ 17,987	\$21,662	\$39,649

**Fiscal Year 2018**

For the nine months ended June 30, 2018, we recorded restructuring charges of \$22.7 million, which included \$17.7 million related to the termination of approximately 160 employees and \$4.9 million related to certain excess facilities. Of these amounts, \$11.0 million was recorded for the three months ended June 30, 2018, including \$9.0 million related to employee termination and \$1.9 million related to certain excess facilities. These actions were part of our

strategic initiatives focused on investment rationalization, process optimization and cost reduction. We expect the remaining outstanding severance of \$4.8 million to be substantially paid during fiscal year 2018, and the remaining balance of \$8.5 million related to excess facilities to be paid through fiscal year 2025, in accordance with the terms of the applicable leases.

Additionally, for the nine months ended June 30, 2018, we recorded a \$5.7 million expense related to the transition agreement of

Table of Contents

our former CEO, a \$7.2 million expense related to our remediation and restoration efforts after the 2017 Malware Incident that occurred in the third quarter of fiscal year 2017, offset in part by a \$2.5 million income related to cash receipt from insurance claims related to the 2017 Malware Incident. For the three months ended June 30, 2018, we recorded a \$2.5 million income related to cash receipt from insurance claims related to the 2017 Malware Incident and a \$1.1 million expense related to the CEO transition. The cash payments associated with the CEO transition agreement are expected to be made through fiscal year 2020.

**Fiscal Year 2017**

For the nine months ended June 30, 2017, we recorded restructuring charges of \$18.0 million, which included \$12.3 million related to the termination of approximately 300 employees and \$5.7 million related to certain excess facilities. Of these amounts, \$5.6 million was recorded for the three months ended June 30, 2017, including \$4.1 million related to employee termination and \$1.6 million related to certain excess facilities. These actions were part of our strategic initiatives focused on process optimization and cost reduction.

Additionally, for the nine months ended June 30, 2017, we recorded \$5.8 million related to the transition agreement of our former CEO, \$10.8 million of non-cash impairment charge related to an internally developed software, and \$5.2 million professional services fees and fixed asset impairment related to the 2017 Malware Incident. Of these amounts, \$2.3 million related to the CEO transition and \$5.2 million professional services fees and fixed asset impairment related to the 2017 Malware Incident were recorded for the three months ended June 30, 2017.

**Impairment of Goodwill****Fiscal Year 2018**

As more fully described in Note 4 of the accompanying condensed consolidated financial statements, during the second quarter of fiscal 2018, we recorded a goodwill impairment charge of \$138 million related to Other segment, with \$35.1 million related to Devices and \$102.8 million related to SRS.

**Other Expense, Net**

A summary of other expenses, net is as follows (dollars in millions):

	Three Months Ended				Nine Months Ended			
	June 30, 2018	June 30, 2017	Dollar Change	Percent Change	June 30, 2018	June 30, 2017	Dollar Change	Percent Change
Interest income	\$2.5	\$2.0	\$ 0.5	27.2 %	\$6.9	\$4.3	\$ 2.7	62.4 %
Interest expense	(33.8 )	(40.4 )	6.6	(16.3)%	(103.8 )	(116.3 )	12.5	(10.8)%
Other expense, net	(0.7 )	(1.0 )	0.3	(30.0)%	(1.5 )	(21.3 )	19.8	(93.0)%
Total other expense, net	\$(32.1)	\$(39.5)	\$ 7.4	(18.8)%	\$(98.4)	\$(133.3)	\$ 34.9	(26.2)%
As a percentage of total revenue	6.4 %	8.1 %			6.5 %	9.0 %		

Interest expense for the three months ended June 30, 2018 decreased \$6.6 million, as compared to three months ended June 30, 2017, was mainly due to the \$331.2 million repurchase of the outstanding 2.75% convertible debentures in November 2017. Other expense, net for the nine months ended June 30, 2017 included debt extinguishment losses of \$18.6 million primarily related to the partial repayment of our 2020 Senior Notes.

**Provision for Income Taxes**

The following table shows the provision (benefit) for income taxes and the effective income tax rate (dollars in millions):

	Three Months Ended				Nine Months Ended			
	June 30, 2018	June 30, 2017	Dollar Change	Percent Change	June 30, 2018	June 30, 2017	Dollar Change	Percent Change
Provision (benefit) for income taxes	\$10.6	\$2.6	\$ 8.0	305.3 %	\$(65.4)	\$22.1	\$(87.5)	(395.9)%
Effective income tax rate	(305.2)%	(10.3)%			34.4 %	(34.8 )%		

As more fully described in Note 14 to the accompanying condensed consolidated financial statements, as a result of the Tax Cuts and Jobs Act ("TCJA"), we remeasured certain deferred tax assets and liabilities at the lower rates and recorded approximately

Table of Contents

\$87.0 million of tax benefits for the nine months ended June 30, 2018. Additionally, we recorded a \$2.0 million provision for the deemed repatriation of foreign cash and earnings for the nine months ended June 30, 2018.

In addition, as more fully described in Note 4 to the condensed consolidated financial statements, in connection with the impairment charge of SRS's goodwill, we recognized a tax benefit of \$8.5 million related to the portion of deductible goodwill in Brazil for the nine months ended June 30, 2018.

The effective tax rate for the nine months ended June 30, 2018 reflects the impact of the TCJA discussed above. For other periods presented, the effective income tax rates differ from the U.S. federal statutory rate of 25% for fiscal year 2018 and 35% for fiscal year 2017 primarily due to current period losses in the United States that require an additional valuation allowance and accordingly provide no benefit to the provision as well as an increase to indefinite lived deferred tax liabilities. This is partially offset by our earnings in foreign operations that are subject to a significantly lower tax rate than the U.S. statutory tax rate, driven primarily by our subsidiaries in Ireland.

**SEGMENT ANALYSIS**

During the first quarter of fiscal year 2018, we commenced a reorganization of our segment reporting structure to allow our Chief Operating Decision Maker ("CODM") greater focus on implementing strategic initiatives and identifying future investment opportunities. During the second quarter of fiscal year 2018, we established our Automotive business as a separate operating segment. Additionally, we moved our Dragon TV business from our former Mobile operating segment into our Enterprise operating segment to consolidate our telecommunications market resources. Finally, our SRS business and our Devices business, originally included within our former Mobile operating segment, are now presented within our Other segment. As a result, segment information for the three and nine months ended June 30, 2018 and 2017 has been recast to reflect the new segment reporting structure.

The following table presents certain financial information about our operating segments (dollars in millions):

	Three Months Ended June 30,		Change	Percent Change	Nine Months Ended June 30,		Change	Percent Change	
	2018	2017			2018	2017			
Segment Revenues <sup>(a)</sup> :

Enterprise	27.6 %	28.4 %	(0.8 )		27.4 %	29.2 %	(1.9 )		
Automotive	38.2 %	48.7 %	(10.5 )		39.3 %	47.7 %	(8.4 )		
Imaging	34.2 %	34.3 %	(0.1 )		29.2 %	34.3 %	(5.1 )		
Other	13.9 %	34.9 %	(21.0 )		16.9 %	32.3 %	(15.3 )		
Total segment profit margin	31.7 %	32.9 %	(1.2 )		31.2 %	33.9 %	(2.7 )		

Segment revenues differ from reported revenues due to certain revenue adjustments related to acquisitions that would otherwise have been recognized but for the purchase accounting treatment of the business combinations.  
(a) These revenues are included to allow for more complete comparisons to the financial results of historical operations and in evaluating management performance.

## Table of Contents

### Segment Revenues

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Healthcare segment revenue increased by \$3.6 million, or 1.5%, primarily due to higher revenue from Dragon Medical cloud-based solutions and EHR implementation and optimization services, offset by in part by lower revenue from our transcription services revenue due to the continued erosion.

Enterprise segment revenue increased by \$5.5 million, or 4.8%, primarily due to higher contact center license revenue.

Automotive segment revenue increased by \$10.7 million, or 16.9%, primarily due to higher royalties and revenues from our hosting solutions driven by continued growth in our speech recognition and infotainment platform services.

Imaging segment revenues increased by \$4.8 million, or 9.8%, primarily due to higher revenue from our Core Imaging solutions due to new product launch.

Other segment revenue decreased by \$14.2 million, or 38.9%, primarily due to declines in both SRS and Devices. The decline in SRS was primarily due to the recent market disruptions in India and Brazil. These markets have experienced recent and dramatic disruptions as a result of accelerated change in competition and business models for our SRS mobile operator customers, which has reduced demand for our services. The decline in our Devices business was primarily due to the ongoing consolidation of our handset manufacturer customer base, as well as continued erosion of our penetration of the remaining market.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Healthcare segment revenue increased by \$32.7 million, or 4.6%, primarily due to higher revenue from Dragon Medical cloud-based solutions and EHR implementation and optimization services, offset by in part by lower revenue from our transcription services revenue due to the continued erosion and the negative impact of the 2017 Malware Incident.

Enterprise segment revenue increased by \$1.3 million, or 0.4%, primarily due to higher contact center license and services revenue, offset in part by lower volume through our legacy inbound and outbound on-demand solutions.

Automotive segment revenue increased by \$20.5 million, or 11.2%, primarily due to higher royalties and revenues from our hosting solutions driven by continued growth in our speech recognition and infotainment platform services.

Imaging segment revenues increased by \$4.3 million, or 2.8%, primarily due to higher revenue from our Core Imaging solutions due to new product launch.

Other segment revenue decreased by \$28.3 million, or 27.5%, primarily due to declines in both of SRS and Devices. The decline in SRS was primarily due to the recent market disruptions in India and Brazil. These markets have experienced recent and dramatic disruptions as a result of accelerated change in competition and business models for our SRS mobile operator customers, which has reduced demand for our services. The decline in our Devices business was primarily due to the ongoing consolidation of our handset manufacturer customer base, as well as continued erosion of our penetration of the remaining market.

### Segment Profit

Three Months Ended June 30, 2018 compared to Three Months Ended June 30, 2017

Healthcare segment profit increased by \$7.2 million, or 10.3%, primarily due to higher segment revenue and higher gross margin. The increase in gross margin was primarily due to a favorable shift in revenue mix towards higher margin Dragon Medical cloud-based offerings, offset in part by margin compression in our medical transcription services and the increase in EHR implementation and optimization services which carried lower margins. As a result, segment profit margin increased by 2.6 percentage points to 32.9%.

Enterprise segment profit increased by \$0.7 million, or 2.0%, primarily due to higher segment revenue, partially offset by lower gross margin and higher operating expenses. The lower gross margin was primarily due to higher infrastructure costs and increased headcount to support future growth. Operating expenses increased primarily due to higher sales and marketing expenses. As a result, segment profit margin decreased by 0.8 percentage points to 27.6%.

Automotive segment profit decreased by \$2.5 million, or 8.4%, primarily due to lower gross margin and higher R&D expenses, offset in part by higher revenue. The lower gross margin was primarily driven by our investment in automotive technologies

## Table of Contents

and increased professional services headcount to support future growth. The higher R&D expenses was primarily driven by our increased investment in new technologies. As a result, segment profit margin decreased by 10.5 percentage points to 38.2%.

Imaging segment profit increased by 1.6 million, or 9.4%, primarily due to higher segment revenue, offset in part by gross margin and higher operating expenses. Gross margin declined as a result of an unfavorable shift in revenue mix from higher margin software revenue to lower margin hardware revenue. Operating expenses increased primarily due to higher sales and marketing expenses to support new products and solutions. Segment profit margin remained essentially flat year-over-year.

Other segment profit decreased by \$9.6 million, or 75.7%, primarily driven by revenue and gross margin declines. Profit margin decreased by 21.0 percentage points to 13.9%, primarily due to the recent market disruptions in India and Brazil, as more fully discussed in Overview - Business Trends.

Nine Months Ended June 30, 2018 compared to Nine Months Ended June 30, 2017

Healthcare segment profit increased by \$10.1 million, or 4.3%, primarily due to higher segment revenue offset in part by lower gross margin. The gross margin decline was primarily due to margin compression in our medical transcription services and the increase in EHR implementation and optimization services which carried lower margins, offset in part by a favorable shift in revenue mix towards higher margin Dragon Medical cloud-based offerings. As a result, segment profit margin remained essentially flat year-over-year.

Enterprise segment profit decreased by \$6.2 million, or 6.0%, primarily due to essentially flat segment revenue and lower gross margin. The lower gross margin was primarily due to higher infrastructure costs and increased headcount to support future growth. As a result, segment profit margin decreased by 1.9 percentage points to 27.4%.

Automotive segment profit decreased by \$7.5 million, or 8.5%, primarily due to lower gross margin and higher R&D expenses, offset in part by higher revenue. The lower gross margin was primarily driven by our investment in automotive technologies and increased professional services headcount to support future growth. The higher R&D expenses was primarily driven by our increased investment in new technologies. As a result, segment profit margin decreased by 8.4 percentage points to 39.3%.

Imaging segment profit decreased by \$6.6 million, or 12.4%, primarily due to higher segment revenue, offset in part by gross margin and higher operating expenses. Gross margin declined as a result of an unfavorable shift in revenue mix from higher margin software revenue to lower margin hardware revenue. Operating expenses increased primarily due to higher sales and marketing expenses to support new products and solutions. As a result, segment profit margin decreased by 5.1 percentage points to 29.2%.

Other segment profit decreased by \$20.5 million, or 62.0%, primarily driven by revenue and gross margin declines. Profit margin decreased by 15.3 percentage points to 16.9%, primarily due to the recent market disruptions in India and Brazil, as more fully discussed in Overview - Business Trends.

## LIQUIDITY AND CAPITAL RESOURCES

### Liquidity

We had cash and cash equivalents and marketable securities of \$509.1 million as of June 30, 2018, a decrease of \$365.0 million from \$874.1 million as of September 30, 2017. Our working capital, defined as total current assets less total current liabilities, was \$255.4 million as of June 30, 2018, compared to \$216.4 million as of September 30, 2017. Additionally, we had \$235.7 million available for borrowing under our revolving credit facility as of June 30, 2018.

We believe that our existing sources of liquidity are sufficient to support our operating needs, capital requirements and any debt service requirements for the next twelve months.

Cash and cash equivalents and marketable securities held by our international operations totaled \$96.3 million as of June 30, 2018 and \$148.6 million as of September 30, 2017. As more fully described in Note 14 to the accompanying condensed consolidated financial statements, as a result of the enactment of the Tax Cuts and Jobs Act ("TCJA"), we recorded a provisional amount of one-time repatriation tax of approximately \$2 million on foreign cash and earnings as of June 30, 2018. The actual impact of the TCJA may differ materially from our estimate due to changes in our interpretations and assumptions, additional guidance to be issued, and actions we may take as a result of the TCJA.

We have not changed our indefinite reinvestment assertion related to foreign cash and earnings.

### Net Cash Provided by Operating Activities

Cash provided by operating activities for the nine months ended June 30, 2018 was \$295.0 million, a decrease of \$87.3 million from \$382.4 million for the nine months ended June 30, 2017. The decrease was primarily due to:

36

---

## Table of Contents

▲ decrease of \$70.2 million due to lower net income, excluding non-cash adjustments;

A decrease of \$40.8 million due to unfavorable changes in working capital, primarily due to the timing of billing and associated collections, as well as timing of certain payments related to Malware Incident remediation and strategic initiatives; offset in part by,

An increase of \$23.7 million from changes in deferred revenue. Deferred revenue had a positive effect of \$84.3 million on operating cash flows for the nine months ended June 30, 2018, as compared to \$60.6 million for the nine months ended June 30, 2017, primarily driven by continued growth of our Automotive connected solutions and Healthcare bundled offerings.

### Net Cash Used in Investing Activities

Cash used in investing activities for the nine months ended June 30, 2018 was \$47.2 million, a decrease of \$182.7 million from \$229.9 million for the nine months ended June 30, 2017. The decrease was primarily due to:

▲ An increase of \$186.7 million in net proceeds from the sale and purchase of marketable securities and other investments; offset in part by,

▲ An increase of \$4.9 million in capital expenditures.

### Net Cash (Used in) Provided by Financing Activities

Cash used in financing activities for the nine months ended June 30, 2018 was \$507.5 million, an increase of \$568.2 million from cash provided by financing activities of \$60.7 million for the nine months ended June 30, 2017. The net increase was primarily due to:

A decrease in cash inflows of \$838.1 million from debt issuance. During the nine months ended June 30, 2017, the cash inflows from debt activities includes \$494.6 million net proceeds from the issuance of 5.625% Senior Notes due 2026; and \$344.3 million net proceeds from the issuance of our 1.25% 2025 Convertible Debentures;

▲ An increase in cash outflows of \$20.8 million related to acquisition payments with extended payment terms, offset in part by,

A decrease in cash outflows of \$302.9 million from the redemption and repayment of debt. During the nine months ended June 30, 2018 holders of approximately \$331.2 million in aggregate principal amount of the 2.75% 2031

Debentures exercised their right to require us to repurchase such debentures. During the nine months ended June 30, 2017, we made repayments of \$616.7 million for the redemption of our 2020 Senior Notes and \$17.9 million for the redemption of our 2031 Convertible Debentures; and

An increase in cash outflows of \$12.9 million related to share repurchases. During the nine months ended June 30, 2018 and 2017, we repurchased 8.1 million and 5.8 million shares of our common stock under our share repurchase program for \$112.0 million and \$99.1 million, respectively.

### Debt

For a detailed description of the terms and restrictions of the debt and revolving credit facility, see Note 10 to the accompanying condensed consolidated financial statements.

On August 1, 2018, our Board of Directors authorized the repayment of \$150 million of our 2020 Senior Notes, which is expected to be made in September 2018. We expect to fund this repayment using our existing cash and investments and our cash flows from operations.

### Share Repurchase Program

On April 29, 2013, our Board of Directors approved a share repurchase program for up to \$500.0 million, which was increased by \$500.0 million on April 29, 2015. Under the terms of the share repurchase program, we have the ability to repurchase shares through a variety of methods, which may include open market purchases, privately negotiated transactions, block trades, accelerated stock repurchase transactions, or any combination of such methods. The share repurchase program does not require us to acquire any specific number of shares and may be modified, suspended, extended or terminated by us at any time without prior notice. The timing and the amount of any purchases will be determined by management based on an evaluation of market conditions, capital allocation alternatives, and other factors.

For the three and nine months ended June 30, 2018, we repurchased 8.1 million shares of our common stock for \$112.0 million under the program. For the nine months ended June 30, 2017, we repurchased 5.8 million shares of our

common stock for \$99.1 million under the program. Since the commencement of the program, we have repurchased an aggregate of 54.6 million shares

Table of Contents

for \$918.6 million. The amount paid in excess of par value is recognized in additional paid in capital. Shares were retired upon repurchase. As of June 30, 2018, approximately \$81.4 million remained available for future repurchases under the program.

On August 1, 2018, our Board of Directors approved an additional \$500.0 million under our share repurchase program. Since the beginning of the fourth quarter of fiscal year 2018, we have repurchased approximately 1.1 million shares of our common stock for approximately \$16.0 million.

## Off-Balance Sheet Arrangements, Contractual Obligations

## Contractual Obligations

The following table outlines our contractual payment obligations (dollars in millions):

Contractual Obligations	Total	Contractual Payments Due in Fiscal Year			
		2018	2019	2020	2021 and Thereafter
Convertible debentures <sup>(1)</sup>	\$1,337.0	\$—	\$—	\$310.5	\$1,026.5
Senior notes	1,250.0	—	450.0	—	800.0
Interest payable on long-term debt <sup>(2)</sup>	495.8	21.2	173.2	122.4	179.0
Letters of credit <sup>(3)</sup>	6.8	2.8	4.0	—	—
Lease obligations and other liabilities:					
Operating leases	164.6	10.6	46.9	31.2	75.9
Operating leases under restructuring <sup>(4)</sup>	54.5	2.4	17.0	13.9	21.2
Purchase commitments <sup>(5)</sup>	32.6	8.0	13.8	10.8	—
Total contractual cash obligations	\$3,341.3	\$45.0	\$704.9	\$488.8	\$2,102.6

Pursuant to the terms of each convertible instrument, holders have the right to redeem the debt on specific dates

<sup>(1)</sup> prior to maturity. The repayment schedule above assumes that payment is due on the next redemption date after June 30, 2018.

<sup>(2)</sup> Interest per annum is due and payable semi-annually and is determined based on the outstanding principal as of June 30, 2018, the stated interest rate of each debt instrument and the assumed redemption dates discussed above.

<sup>(3)</sup> Letters of Credit are in place primarily to secure future operating lease payments.

Obligations include contractual lease commitments related to facilities that were part of restructuring plans. As of

<sup>(4)</sup> June 30, 2018, we have subleased certain of the facilities with total sublease income of \$51.1 million through fiscal year 2025.

Purchase commitments include non-cancelable purchase commitments for property and equipment, inventory, and

<sup>(5)</sup> services in the normal course of business. These amounts also include arrangements that require a minimum purchase commitment by us.

Total unrecognized tax benefits as of June 30, 2018 were \$33.3 million. We do not expect any significant change in the amount of unrecognized tax benefits within the next twelve months.

## Contingent Liabilities and Commitments

Certain acquisition payments to selling shareholders were contingent upon the achievement of pre-determined performance target over a period of time after the acquisition. Such contingent payments were recorded at estimated fair values upon the acquisition and re-measured in subsequent reporting periods. As of June 30, 2018, the maximum amount of payments to be made based on the agreements was \$17.5 million if the specific performance objectives are achieved. In addition, certain deferred compensation payments to selling shareholders contingent upon their continued employment after the acquisition was recorded as compensation expense over the requisite service period. As of June 30, 2018, total deferred compensation to be paid out upon the conclusion of requisite service periods was \$24.3 million.

## Off-Balance Sheet Arrangements

As of June 30, 2018, there were no off-balance sheet arrangements that may have a material impact on the condensed consolidated financial statements.

**CRITICAL ACCOUNTING POLICIES**

Our critical accounting policies are included in the “Critical Accounting Policies” section of “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in the Form 10-K for the fiscal year ended September 30, 2017. There has been no material change to our critical accounting policies since September 30, 2017. See Note 4 to the accompanying condensed consolidated financial statements for the critical estimates related to our interim goodwill impairment analysis.

Table of Contents

**RECENTLY ADOPTED AND ISSUED ACCOUNTING STANDARDS**

See Note 2 to the accompanying condensed consolidated financial statements for a discussion of the recently adopted and issued accounting standards.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to market risk from changes in foreign currency exchange rates, interest rates and equity prices which could affect operating results, financial position and cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments.

**Exchange Rate Sensitivity**

We are exposed to changes in foreign currency exchange rates. Any foreign currency transaction, defined as a transaction denominated in a currency other than the local functional currency, will be reported in the functional currency at the applicable exchange rate in effect at the time of the transaction. A change in the value of the functional currency compared to the foreign currency of the transaction will have either a positive or negative impact on our financial position and results of operations.

Assets and liabilities of our foreign entities are translated into U.S. dollars at exchange rates in effect at the balance sheet date and income and expense items are translated at average rates for the applicable period. Therefore, the change in the value of the U.S. dollar compared to foreign currencies may impact our financial position and results of operations. Historically, our primary exposure has related to transactions denominated in the euro, British pound, Brazilian real, Canadian dollar, Japanese yen, Indian rupee and Hungarian forint.

Periodically, we enter into forward exchange contracts to hedge against foreign exchange rate fluctuations. As of June 30, 2018, we had not designated any contracts as fair value or cash flow hedges. The contracts are not designated as cash flow hedges and generally are for periods less than 90 days. As of June 30, 2018, the notional contract amount of outstanding foreign currency exchange contracts was \$90.8 million.

**Interest Rate Sensitivity**

We are exposed to interest rate risk as a result of our cash and cash equivalents and marketable securities.

At June 30, 2018, we held approximately \$509.1 million of cash and cash equivalents and marketable securities primarily consisting of cash, money-market funds, bank deposits and a separately managed investment portfolio.

Assuming a one percentage point change in interest rates, our interest income on our investments classified as cash and cash equivalents and marketable securities would change by approximately \$4.4 million per annum, based on the balances as of June 30, 2018.

At June 30, 2018, we had no outstanding debt subject to variable interest rates.

**Convertible Debentures**

The fair values of our convertible debentures are dependent on the price and volatility of our common stock as well as movements in interest rates. The fair market values of these debentures will generally increase as the market price of our common stock increases and will decrease as the market price of our common stock decreases. The fair market values of these debentures will generally increase as interest rates fall and decrease as interest rates rise. The market value and interest rate changes affect the fair market values of these debentures, but do not impact our financial position, results of operations or cash flows due to the fixed nature of the debt obligations. However, increases in the value of our common stock above the stated trigger price for each issuance for a specified period of time may provide the holders of these debentures the right to convert each bond using a conversion ratio and payment method as defined in the debenture agreement.

Table of Contents

The following table summarizes the fair value and conversion value of our convertible debentures, and the estimated increase in fair value and conversion value with a hypothetical 10% increase in the stock price of \$13.89 as of June 30, 2018 (dollars in millions):

	June 30, 2018			
	Fair value	Conversion value	Increase to fair value	Increase to conversion value
2.75% 2031 Debentures	\$45.9	\$ 19.9	\$ 0.3	\$ 2.0
1.5% 2035 Debentures	\$256.0	\$ 156.9	\$ 6.5	\$ 15.7
1.0% 2035 Debentures	\$607.8	\$ 343.7	\$ 13.9	\$ 34.4
1.25% 2025 Debentures	\$325.6	\$ 217.9	\$ 14.4	\$ 21.8

## Item 4. Controls and Procedures

## Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer’s management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures under the supervision of, and with the participation of, management, including our Chief Executive Officer and Chief Financial Officer, as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to meet the requirements of Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

## Changes in Internal Control Over Financial Reporting

There were no material changes to our internal controls over financial reporting as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f) identified in connection with the evaluation that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## Part II. Other Information

## Item 1. Legal Proceedings

This information is included in Note 15, Commitments and Contingencies, in the accompanying notes to unaudited consolidated financial statements and is incorporated herein by reference from Item 1 of Part I.

## Item 1A. Risk Factors

You should carefully consider the risks described below when evaluating our company and when deciding whether to invest in our company. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we do not currently believe are important to an investor may also harm our business operations. If any of the events, contingencies, circumstances or conditions described below actually occurs, our business, financial condition or our results of operations could be seriously harmed. If that happens, the trading price of our common stock could decline, and you may lose part or all of the value of any of our shares held by you.

## Risks Related to Our Business

The markets in which we operate are highly competitive and rapidly changing and we may be unable to compete successfully.

There are a number of companies that develop or may develop products that compete in our targeted markets. The markets for our products and services are characterized by intense competition, evolving industry and regulatory standards, emerging business and distribution models, disruptive software and hardware technology developments, short product and service life cycles, price

## Table of Contents

sensitivity on the part of customers, and frequent new product introductions, including alternatives for certain of our products that offer limited functionality at significantly lower costs or free of charge. Within voice recognition and natural language understanding, we compete primarily with Amazon, Google, as well as other smaller providers. In our Healthcare business we compete primarily with M\*Modal, Optum, 3M and other smaller providers. In our Automotive business we compete, or may in the future compete, with Amazon, Google, iFlyTek and Microsoft as well as with other, smaller vendors particularly in China. In our Imaging business we compete primarily with ABBYY and Adobe. Also, some of our partners such as Avaya, Canon, Cisco, and Genesys develop and market products that might be considered substitutes for our solutions. In addition, a number of smaller companies in voice recognition, natural language understanding, text input and imaging offer technologies or products that are competitive with our solutions. Current and potential competitors have established, or may establish, cooperative relationships among themselves or with third parties to increase the ability of their technologies to address the needs of our prospective customers. Furthermore, there has been a trend toward industry consolidation in our markets for several years. We expect this trend to continue as companies attempt to strengthen or hold their market positions in an evolving industry and as companies are acquired or are unable to continue operations.

The competition in these markets could adversely affect our operating results by reducing the volume of the products we license or the prices we can charge. Some of our current or potential competitors, such as 3M, Adobe, Amazon, Google and Microsoft, have significantly greater financial, technical and marketing resources than we do. These competitors may be able to respond more rapidly than we can to new or emerging technologies or changes in customer requirements. They may also devote greater resources to the development, promotion and sale of their products than we do, and in certain cases may be able to include or combine their competitive products or technologies with other of their products or technologies in a manner whereby the competitive functionality is available at lower cost or free of charge within the larger offering. To the extent they do so, market acceptance and penetration of our products, and therefore our revenue and bookings, may be adversely affected. Our success will depend substantially upon our ability to enhance our products and technologies and to develop and introduce, on a timely and cost-effective basis, new products and features that meet changing customer requirements and incorporate technological enhancements. If we are unable to develop new products and enhance functionalities or technologies to adapt to these changes, or if we are unable to realize synergies among our acquired products and technologies, our business will suffer.

Our operating results may fluctuate significantly from period to period, and this may cause our stock price to decline. Our revenue, bookings and operating results have fluctuated materially in the past and are expected to continue to fluctuate in the future. Given these fluctuations, we believe that quarter to quarter comparisons of revenue, bookings and operating results are not necessarily meaningful nor an accurate indicator of our future performance. These fluctuations may cause our results of operations to not meet the expectations of securities analysts or investors. If this occurs, the price of our stock would likely decline. Factors that contribute to fluctuations in operating results include:

- volume, timing and fulfillment of customer orders and receipt of royalty reports;
- fluctuating sales by our channel partners to their customers;
- customers delaying their purchasing decisions in anticipation of new versions of our products;
- contractual counterparties are unable to, or do not, meet their contractual commitments to us;
- introduction of new products by us or our competitors;
- cybersecurity or data breaches perpetrated by hackers or other third parties;
- seasonality in purchasing patterns of our customers;
- reduction in the prices of our products in response to competition, market conditions or contractual obligations;
- returns and allowance charges in excess of accrued amounts;
- timing of significant marketing and sales promotions;
- impairment of goodwill or intangible assets;
- the pace of the transition to an on-demand and transactional revenue model;
- delayed realization of synergies resulting from our acquisitions;
- accounts receivable that are not collectible and write-offs of excess or obsolete inventory;
- increased expenditures incurred pursuing new product or market opportunities;
- higher than anticipated costs related to fixed-price contracts with our customers;

• change in costs due to regulatory or trade restrictions;  
• expenses incurred in litigation matters, whether initiated by us or brought by third-parties against us and even in matters where we are the prevailing party, and settlements or judgments we are required to pay in connection with disputes; and  
• general economic trends as they affect the customer bases into which we sell.

Due to the foregoing factors, among others, our revenue, bookings and operating results are difficult to forecast. Our expense levels are based in significant part on our expectations of future revenue, and we may not be able to reduce our expenses quickly

## Table of Contents

to respond to near-term shortfalls in projected revenue. Therefore, our failure to meet revenue expectations would seriously harm our operating results, financial condition and cash flows.

A significant portion of our revenue and bookings are derived, and a significant portion of our research and development activities are based, outside the United States. Our results could be harmed by economic, political, regulatory, foreign currency fluctuations and other risks associated with these international regions.

Because we operate worldwide, our business is subject to risks associated with doing business internationally. We anticipate that revenue and bookings from international operations could increase in the future. Most of our international revenue and bookings are generated by sales in Europe and Asia. In addition, some of our products are developed outside the United States and we have a large number of employees in India that provide development and transcription services. We also have a large number of employees in Canada, Germany and the United Kingdom that provide professional services. A significant portion of the development of our voice recognition and natural language understanding solutions is conducted in Canada and Germany, and a significant portion of our imaging research and development is conducted in Hungary and Canada. We also have significant research and development resources in Austria, Belgium, China, Italy, and the United Kingdom. In addition, we are exposed to fluctuating exchange rates of foreign currencies including the euro, British pound, Brazilian real, Canadian dollar, Japanese yen, Indian rupee and Hungarian forint. Changes in the value of foreign currencies relative to the value of the U.S. dollar could adversely affect future revenue and operating results. Accordingly, our future results could be harmed by a variety of factors associated with international sales and operations, including:

- adverse political and economic conditions in the U.S. and abroad;
- trade protection measures, including tariffs and import/export controls, imposed by the United States and/or by other countries or regional authorities such as China, Canada or the European Union;
- the impact on local and global economies of the United Kingdom leaving the European Union;
- changes in foreign currency exchange rates or the lack of ability to hedge certain foreign currencies;
- changes in a specific country's or region's economic conditions;
- compliance with laws and regulations in many countries and any subsequent changes in such laws and regulations;
- geopolitical turmoil, including terrorism and war;
- changing and import or export licensing requirements, particularly for our voice biometrics products;
- changing data privacy regulations and customer requirements to locate data centers in certain jurisdictions;
- restrictions on cross-border investment, including enhanced oversight by the Committee on Foreign Investment in the United States (CFIUS) and substantial restrictions on investment from China;
- changes in applicable tax laws;
- difficulties in staffing and managing operations in multiple locations in many countries;
- longer payment cycles of foreign customers and timing of collections in foreign jurisdictions; and
- less effective protection of intellectual property than in the United States.

We recently hired a new Chief Executive Officer. If we encounter difficulties in the transition, our business could be negatively impacted.

Mark D. Benjamin became our Chief Executive Officer and a member of our Board of Directors in April 2018. Our future success will partly depend upon Mr. Benjamin's ability, along with the ability of other senior management and other key employees, to effectively implement our business strategies. In addition, Mr. Benjamin may pursue changes in our strategy or business focus. Mr. Benjamin may require transition time to fully understand all aspects of our business as would be typical with any executive transition. If we have failures in any aspects of this transition, or new strategies implemented by our management team are not successful, our business could be harmed.

If we are unable to attract and retain key personnel, our business could be harmed.

If any of our key employees were to leave, we could face substantial difficulty in hiring qualified successors and could experience a loss in productivity while any successor obtains the necessary training and experience. For example, we have recently undergone a chief executive officer transition with the retirement of Mr. Ricci as our Chief Executive Officer in March 2018 and the appointment of Mr. Benjamin as our new Chief Executive Officer in April 2018.

Although we have arrangements with some of our executive officers designed to promote retention, our employment

relationships are generally at-will and we have had key employees leave in the past. We cannot assure you that one or more key employees will not leave in the future. We intend to continue to hire additional highly qualified personnel, including research and development and operational personnel, but may not be able to attract, assimilate or retain qualified personnel in the future. Any failure to attract, integrate, motivate and retain these employees could harm our business.

## Table of Contents

In response to our changing needs and input from our investors, we recently added a number of new directors to our Board of Directors and expect to add additional directors over the balance of fiscal year 2018 and a number of long-serving directors retired from our Board of Directors. If the transition to these new directors is not effective, our business could be harmed.

In addition to his appointment as Chief Executive Officer, Mr. Benjamin was appointed to our Board of Directors effective in April 2018, and in June 2018 three long-serving directors retired from our Board. With these changes, three of the five members of our Board of Directors have joined since December 2017. We also expect to add additional members to our Board of Directors in the coming months. We have also recently reconstituted the membership of Board Committees and expect further changes as new directors are added to take advantage of the experience the new members bring to our Board of Directors. There can be no assurances that the new Board of Directors or its committees will function effectively and that there will not be any adverse effects on the business as a result of the significant changes on our Board of Directors.

We experienced a significant malware incident in the third quarter of fiscal year 2017, which had and continues to have a significant impact on our future results of operations and financial condition.

On June 27, 2017, Nuance was a victim of the global NotPetya malware incident (the “2017 Malware Incident”). The NotPetya malware affected certain Nuance systems, including systems used by our healthcare customers, primarily for transcription services, as well as systems used by our imaging division to receive and process orders. Our revenue and our operating results for fiscal year 2017 were negatively impacted by the 2017 Malware Incident. For fiscal year 2017, we estimate that we lost approximately \$68.0 million in revenues, primarily in our Healthcare segment, due to the service disruption and the reserves we established for customer refund credits. Additionally, we incurred incremental costs of approximately \$24.0 million for fiscal year 2017 as a result of our remediation and restoration efforts, as well as incremental amortization expenses. Although the direct effects of the 2017 Malware Incident were remediated during fiscal year 2017, the 2017 Malware Incident had a continued effect on our results of operations in the first and second quarters of fiscal year 2018. Our outlook for the remainder of fiscal year 2018 reflects both the residual effects of the incident and the ongoing significant costs we will incur to continuously enhance information security.

Cybersecurity and data privacy incidents or breaches may damage client relations and inhibit our growth.

The confidentiality and security of our information, and that of third parties, is critical to our business. Our services involve the transmission, use, and storage of customers’ and their customer’s confidential information. We were the victim of a cybercrime in the past, and future cybersecurity or data privacy incidents could have a material adverse effect on our results of operations and financial condition. While we maintain a broad array of information security and privacy measures, policies and practices, our networks may be breached through a variety of means, resulting in someone obtaining unauthorized access to our information, to information of our customers or their customers, or to our intellectual property; disabling or degrading service; or sabotaging systems or information. In addition, hardware, software, or applications we develop or procure from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Unauthorized parties may also attempt to gain access to our systems or facilities, or those of third parties with whom we do business, through fraud or other forms of deceiving our employees, contractors, and vendors. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently and generally are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. We will continue to incur significant costs to continuously enhance our information security measures to defend against the threat of cybercrime. Any cybersecurity or data privacy incident or breach may result in:

- loss of revenue resulting from the operational disruption;
- loss of revenue or increased bad debt expense due to the inability to invoice properly or to customer dissatisfaction resulting in collection issues;
- loss of revenue due to loss of customers;
- material remediation costs to restore systems;
- material investments in new or enhanced systems in order to enhance our information security posture;
- cost of incentives offered to customers to restore confidence and maintain business relationships;

- reputational damage resulting in the failure to retain or attract customers;
- costs associated with potential litigation or governmental investigations;
- costs associated with any required notices of a data breach;
- costs associated with the potential loss of critical business data; and
- other consequences of which we are not currently aware but will discover through the remediation process.

## Table of Contents

Our business is subject to a variety of domestic and international laws, rules, policies and other obligations regarding data protection.

We are subject to a complex array of federal, state and international laws relating to the collection, use, retention, disclosure, security and transfer of personally identifiable information and personal health information, with additional laws applicable in some jurisdictions where the information is collected from children. In many cases, these laws apply not only to transfers between unrelated third-parties but also to transfers between us and our subsidiaries. Many jurisdictions have passed laws in this area, and other jurisdictions are considering imposing additional restrictions. The European Commission adopted the European General Data Protection Regulation (the “GDPR”), which went into effect on May 25, 2018. China adopted a new cybersecurity law as of June 2017, and there is an increase in regulation of biometric data globally, which may include voiceprints. In addition, California adopted significant new consumer privacy laws in June 2018 that will be effective beginning in January 2020. Complying with the GDPR and other emerging and changing requirements may cause us to incur substantial costs and may require us to change our business practices. Noncompliance could result in penalties or significant legal liability, and could affect our ability to retain and attract customers.

Any failure by us, our customers, suppliers or other parties with whom we do business to comply with our privacy policy or with federal, state or international privacy-related or data protection laws and regulations could result in proceedings against us by governmental entities or others. Any alleged or actual failure to comply with applicable privacy laws and regulations may:

- cause our customers to lose confidence in our solutions;
- harm our reputation;
- expose us to litigation, regulatory investigations and to resulting liabilities including reimbursement of customer costs, damages penalties or fines imposed by regulatory agencies; and
- require us to incur significant expenses for remediation.

Interruptions or delays in services could impair the delivery of our services and harm our business

Because our services are complex and incorporate a variety of hardware and proprietary and third-party software, our services may have errors or defects that could result in unanticipated downtime for our customers and harm to our reputation and our business. We have from time to time, found defects in our services, and new errors in our services may be detected in the future. As we acquire companies, we may encounter difficulty in incorporating the acquired services or technologies into our services. Any damage to, or failure of, the systems that serve our customers in whole or in part, could result in interruptions in our service. Interruptions in our service may reduce our revenue, cause us to issue credits or pay service-level agreement penalties, cause customers to terminate their on-demand services, and adversely affect our renewal rates and our ability to attract new customers.

Interruptions or delays in service from data center hosting facilities could impair the delivery of our services and harm our business.

We currently serve our customers from data center hosting facilities we directly manage and from third-party public cloud facilities. Any damage to, or failure of, the systems that serve our customers in whole or in part, could result in interruptions in our service. Interruptions in our service may reduce our revenue, cause us to issue credits or pay service level agreement penalties, cause customers to terminate their on-demand services and adversely affect our renewal rates and our ability to attract new customers.

As part of our business strategy, we acquire other businesses and technologies, and our ability to realize the anticipated benefits of our acquisitions will depend on successfully integrating the acquired businesses.

As part of our business strategy, we have in the past acquired, and expect to continue to acquire, other businesses and technologies. Our prior acquisitions required, and our recently completed acquisitions continue to require, substantial integration and management efforts, and we expect future acquisitions to require similar efforts. Successfully realizing the benefits of acquisitions involves a number of risks, including:

- difficulty in transitioning and integrating the operations and personnel of the acquired businesses;
- potential disruption of our ongoing business and distraction of management;
- difficulty in incorporating acquired products and technologies into our products and technologies;
- potential difficulties in completing projects associated with in-process research and development;

- unanticipated expenses and delays in completing acquired development projects and technology integration and upgrades;
- challenges associated with managing additional, geographically remote businesses;
- impairment of relationships with partners and customers;

## Table of Contents

- assumption of unknown material liabilities of acquired companies;
- the accuracy of revenue and bookings projections of acquired companies;
- customers delaying purchases of our products pending resolution of product integration between our existing and our newly acquired products;
- entering markets or types of businesses in which we have limited experience; and
- potential loss of key employees of the acquired business.

As a result of these and other risks, if we are unable to successfully integrate acquired businesses, we may not realize the anticipated benefits from our acquisitions. Any failure to achieve these benefits or failure to successfully integrate acquired businesses and technologies could seriously harm our business.

Charges to earnings as a result of our acquisitions may adversely affect our operating results in the foreseeable future, which could have a material and adverse effect on the market value of our common stock.

Under accounting principles generally accepted in the United States, we record the market value of our common stock and other forms of consideration issued in connection with an acquisition as the cost of acquiring the company or business. We allocate that cost to the individual assets acquired and liabilities assumed, including various identifiable intangible assets such as acquired technology, acquired trade names and acquired customer relationships, based on their respective fair values. Our estimates of fair value are based upon assumptions believed to be reasonable but which are inherently uncertain. After we complete an acquisition, the following factors could result in material charges and may adversely affect our operating results and cash flows:

- costs incurred to combine the operations of businesses we acquire, such as transitional employee expenses and employee retention, redeployment or relocation expenses;
- impairment of goodwill or intangible assets;
- amortization of intangible assets acquired;
- a reduction in the useful lives of intangible assets acquired;
- identification of or changes to assumed contingent liabilities, both income tax and non-income tax related, after our final determination of the amounts for these contingencies or the conclusion of the measurement period (generally up to one year from the acquisition date), whichever comes first;
- charges to our operating results to eliminate certain duplicative pre-merger activities, to restructure our operations or to reduce our cost structure;
- charges to our operating results arising from expenses incurred to effect the acquisition; and
- charges to our operating results due to the expensing of stock awards assumed in acquisitions.

Intangible assets are generally amortized over three to ten years. Goodwill is not subject to amortization but is subject to an impairment analysis, at least annually, which may result in an impairment charge if the carrying value exceeds its implied fair value. As of June 30, 2018, we had identified intangible assets of approximately \$612.9 million, net of accumulated amortization, and goodwill of approximately \$3.5 billion, net of accumulated impairment charges. In addition, purchase accounting limits our ability to recognize certain revenue that otherwise would have been recognized by the acquired company as an independent business. As a result, the combined company may delay revenue recognition or recognize less revenue than we and the acquired company would have recognized as independent companies.

We have grown, and may continue to grow, through acquisitions, which could dilute our existing stockholders and/or increase our debt levels.

In connection with past acquisitions, we have in the past issued a substantial number of shares of our common stock as transaction consideration, including contingent consideration, and also incurred significant debt to finance the cash consideration used for our acquisitions. We may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly, depending on the terms of such acquisitions. We may also incur additional debt in connection with future acquisitions, which, if available at all, may place additional restrictions on our ability to operate our business.

Our strategy to increase cloud services, term licensing and transaction-based recurring revenue may adversely affect our near-term revenue growth and results of operations.

Our ongoing shift from a perpetual software license model to cloud services, term licensing and transaction-based recurring revenue models will create a recurring revenue stream that is more predictable. The transition, however, creates risks related to the timing of revenue recognition. We also incur certain expenses associated with the infrastructures and selling efforts of our hosting offerings in advance of our ability to recognize the revenues associated with these offerings, which may adversely affect our near-term reported revenues, results of operations and cash flows. A decline in renewals of recurring revenue offerings in any period may

## Table of Contents

not be immediately reflected in our results for that period but may result in a decline in our revenue and results of operations in future quarters.

Impairment of our intangible assets could result in significant charges that would adversely impact our future operating results.

We have significant intangible assets, including goodwill and other intangible assets, which are susceptible to valuation adjustments as a result of changes in various factors or conditions. The most significant intangible assets are customer relationships, patents and core technology, completed technology and trademarks. Customer relationships are amortized on an accelerated basis based upon the pattern in which the economic benefits of customer relationships are being utilized. Other identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives. We assess the potential impairment of intangible assets on an annual basis, as well as whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors that could trigger an impairment of such assets include the following:

- significant underperformance relative to historical or projected future operating results;
- significant changes in the manner of or use of the acquired assets or the strategy for our overall business;
- significant negative industry or economic trends;
- significant decline in our stock price for a sustained period;
- changes in our organization or management reporting structure that could result in additional reporting units, which may require alternative methods of estimating fair values or greater disaggregation or aggregation in our analysis by reporting unit; and
- our market capitalization declining to below net book value.

For example, during the second quarter of fiscal year 2018, we reorganized our former Mobile business into three discrete lines of business. In connection with this reorganization, and with the review of goodwill and indefinite-lived intangible assets for impairment during the second quarter of fiscal year 2018 that was triggered by recent financial results and rapidly changing business conditions for our Subscriber Revenue Services (“SRS”), we recorded a total of \$137.9 million of goodwill impairment charge related to our Devices business and SRS for the second quarter of fiscal 2018. For more information, please see Note 4 of the accompanying condensed consolidated financial statements. Future adverse changes in these or other unforeseeable factors could result in an impairment charge that would impact our results of operations and financial position in the reporting period identified.

We have a history of operating losses, and may incur losses in the future, which may require us to raise additional capital on unfavorable terms.

We reported net losses of \$151.0 million, \$12.5 million and \$115.0 million in fiscal years 2017, 2016 and 2015, respectively, and a net loss of \$14.0 million for the third fiscal quarter of fiscal year 2018. We had a total accumulated deficit of \$705.8 million as of June 30, 2018. If we are unable to return to profitability, the market price for our stock may decline, perhaps substantially. We cannot assure you that our revenue or bookings will grow or that we will return to profitability in the future. If we do not achieve profitability, we may be required to raise additional capital to maintain or grow our operations. Additional capital, if available at all, may be highly dilutive to existing investors or contain other unfavorable terms, such as a high interest rate and restrictive covenants.

If our efforts to execute our formal transformation program are not successful, our business could be harmed.

We have been executing a formal transformation program to focus our product investments on our growth opportunities, increase our operating efficiencies, reduce costs, and further enhance shareholder value through share buybacks. There can be no assurance that we will be successful in executing this transformation program or be able to fully realize the anticipated benefits of this program, within the expected time frames, or at all. Additionally, if we are not successful in strategically aligning our product portfolio, we may not be able to achieve the anticipated benefits of this program. A failure to successfully reduce and re-align our costs could have an adverse effect on our revenue and on our expenses and profitability. As a result, our financial results may not meet our or the expectations of securities

analysts or investors in the future and our business could be harmed.

Tax matters may cause significant variability in our financial results.

Our businesses are subject to income taxation in the United States, as well as in many tax jurisdictions throughout the world. Tax rates in these jurisdictions may be subject to significant change. If our effective tax rate increases, our operating results and cash flow could be adversely affected. Our effective income tax rate can vary significantly between periods due to a number of complex factors including:

## Table of Contents

- projected levels of taxable income;
- pre-tax income being lower than anticipated in countries with lower statutory rates or higher than anticipated in countries with higher statutory rates;
- increases or decreases to valuation allowances recorded against deferred tax assets;
- tax audits conducted and settled by various tax authorities;
- adjustments to income taxes upon finalization of income tax returns;
- the ability to claim foreign tax credits;
- the repatriation of non-U.S. earnings for which we have not previously provided for income taxes; and
- changes in tax laws and their interpretations in countries in which we are subject to taxation.

During 2014, Ireland enacted changes to the taxation of certain Irish incorporated companies effective as of January 2021. On October 5, 2015, the Organization for Economic Cooperation and Development released the Final Reports for its Action Plan on Base Erosion and Profit Shifting. The implementation of one or more of these reports in jurisdictions in which we operate, together with the 2014 enactment by Ireland, could result in an increase to our effective tax rate. In addition, in December 2017, the United States enacted the Tax Cut and Jobs Act of 2017. We expect this to have a material impact on our GAAP tax financial results. We have determined that our GAAP tax provision for the first quarter of fiscal 2018 was benefited by approximately \$80 million driven by a revaluation of certain deferred tax assets and liabilities using the updated federal tax rates, offset in part by a one-time repatriation tax on non-US cash and earnings. Future changes in U.S. and non-U.S. tax laws and regulations could have a material effect on our results of operations in the periods in which such laws and regulations become effective as well as in future periods.

The failure to successfully maintain the adequacy of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial results in an accurate and timely manner.

Under the Sarbanes-Oxley Act of 2002, we were required to develop and are required to maintain an effective system of disclosure controls and internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements. In addition, our management is required to assess and certify the adequacy of our controls on a quarterly basis, and our independent auditors must attest and report on the effectiveness of our internal control over financial reporting on an annual basis. Any failure in the effectiveness of our system of internal control over financial reporting could have a material adverse impact on our ability to report our financial statements in an accurate and timely manner. Inaccurate and/or untimely financial statements could subject us to regulatory actions, civil or criminal penalties, shareholder litigation, or loss of customer confidence, which could result in an adverse reaction in the financial marketplace and ultimately could negatively impact our stock price due to a loss of investor confidence in the reliability of our financial statements.

Our sales to government clients subject us to risks, including early termination, audits, investigations, sanctions and penalties.

We derive a portion of our revenues and bookings from contracts with the United States government, as well as various state and local governments, and their respective agencies. Government contracts are generally subject to oversight, including audits and investigations which could identify violations of these agreements. Government contract violations could result in a range of consequences including, but not limited to, contract price adjustments, civil and criminal penalties, contract termination, forfeiture of profit and/or suspension of payment, and suspension or debarment from future government contracts. We could also suffer serious harm to our reputation if we were found to have violated the terms of our government contracts.

### Risks Related to Our Intellectual Property and Technology

Third parties have claimed and may claim in the future that we are infringing their intellectual property, and we could be exposed to significant litigation or licensing expenses or be prevented from selling our products if such claims are successful.

From time to time, we are subject to claims and law actions alleging that we or our customers may be infringing or contributing to the infringement of the intellectual property rights of others. We may be unaware of intellectual property rights of others that may cover some of our technologies and products. If it appears necessary or desirable, we may seek licenses for these intellectual property rights. However, we may not be able to obtain licenses from some

or all claimants, the terms of any offered licenses may not be acceptable to us, and we may not be able to resolve disputes without litigation. Any litigation regarding intellectual property could be costly and time-consuming and could divert the attention of our management and key personnel from our business operations. Intellectual property disputes could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from manufacturing or licensing certain of our products, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers including contractual provisions under various arrangements. Any of these could seriously harm our business.

## Table of Contents

Unauthorized use of our proprietary technology and intellectual property could adversely affect our business and results of operations.

Our success and competitive position depend in large part on our ability to obtain and maintain intellectual property rights protecting our products and services. We rely on a combination of patents, copyrights, trademarks, service marks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property and proprietary rights. Unauthorized parties may attempt to copy or discover aspects of our products or to obtain, license, sell or otherwise use information that we regard as proprietary. Policing unauthorized use of our products is difficult and we may not be able to protect our technology from unauthorized use. Additionally, our competitors may independently develop technologies that are substantially the same or superior to our technologies and that do not infringe our rights. In these cases, we would be unable to prevent our competitors from selling or licensing these similar or superior technologies. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as the laws of the United States. Although the source code for our proprietary software is protected both as a trade secret and as a copyrighted work, litigation may be necessary to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others, or to defend against claims of infringement or invalidity. Litigation, regardless of the outcome, can be very expensive and can divert management efforts.

Our software products may have bugs, which could result in delayed or lost revenue and bookings, expensive correction, liability to our customers and claims against us.

Complex software products such as ours may contain errors, defects or bugs. Defects in the solutions or products that we develop and sell to our customers could require expensive corrections and result in delayed or lost revenue and bookings, adverse customer reaction and negative publicity about us or our products and services. Customers who are not satisfied with any of our products may also bring claims against us for damages, which, even if unsuccessful, would likely be time-consuming to defend, and could result in costly litigation and payment of damages. Such claims could harm our reputation, financial results and competitive position.

### Risks Related to our Corporate Structure, Organization and Common Stock

Our debt agreements contain covenant restrictions that may limit our ability to operate our business.

Our debt agreements contain, and any of our other future debt agreements or arrangements may contain, covenant restrictions that limit our ability to operate our business, including restrictions on our ability to:

- incur additional debt or issue guarantees;
- create liens;
- make certain investments;
- enter into transactions with our affiliates;
- sell certain assets;
- repurchase capital stock or make other restricted payments;
- declare or pay dividends or make other distributions to stockholders; and
- merge or consolidate with any entity.

Our ability to comply with these limitations is dependent on our future performance, which will be subject to many factors, some of which are beyond our control, including prevailing economic conditions. As a result of these limitations, our ability to respond to changes in business and economic conditions and to obtain additional financing, if needed, may be significantly restricted, and we may be prevented from engaging in transactions that might otherwise be beneficial to us. In addition, our failure to comply with our debt covenants could result in a default under our debt agreements, which could permit the holders to accelerate our obligation to repay the debt. If any of our debt is accelerated, we may not have sufficient funds available to repay the accelerated debt.

Our significant debt could adversely affect our financial health and prevent us from fulfilling our obligations under our credit facility and our convertible debentures.

We have a significant amount of debt. As of June 30, 2018, we had \$2,587.0 million outstanding principal amount of debt, including \$450.0 million of senior notes due in 2020, \$300.0 million of senior notes due in 2024, and \$500.0 million of senior notes due in 2026, \$46.6 million of 2.75% 2031 Convertible Debentures redeemable in November

2021, \$263.9 million of 1.5% 2035 Convertible Debentures redeemable in November 2021, \$676.5 million of 1.0% 2035 Convertible Debentures redeemable in December 2022, and \$350.0 million of 1.25% 2025 Convertible Debentures redeemable in April 2025. Investors may require us to redeem these debentures earlier than the dates indicated if the closing sale price of our common stock is more than 130% of the

## Table of Contents

then current conversion price of the respective debentures for certain specified periods. If a holder elects to convert, we will be required to pay the principal amount in cash and any amounts payable in excess of the principal amount in cash or shares of our common stock, at our election. We also had a \$242.5 million Revolving Credit Facility under which \$6.8 million was committed to backing outstanding letters of credit issued and \$235.7 million was available for borrowing at June 30, 2018. Our debt level could have important consequences, for example it could:

require us to use a large portion of our cash flow to pay principal and interest on debt, including the convertible debentures and the credit facility, which will reduce the availability of our cash flow to fund working capital, capital expenditures, acquisitions, research and development, exploiting business opportunities, and other business activities; place us at a competitive disadvantage compared to our competitors that have less debt; and limit, along with the financial and other restrictive covenants related to our debt, our ability to borrow additional funds, dispose of assets or pay cash dividends.

Our ability to meet our payment and other obligations under our debt instruments depends on our ability to generate significant cash flow in the future. This, to some extent, is subject to general economic, financial, competitive, legislative and regulatory factors as well as other factors that are beyond our control. We cannot assure you that our business will generate cash flow from operations, or that additional capital will be available to us, in an amount sufficient to enable us to meet our payment obligations under the convertible debentures and our other debt and to fund other liquidity needs. If we are not able to generate sufficient cash flow to service our debt obligations, we may need to refinance or restructure our debt, including the convertible debentures, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may not be able to meet our payment obligations under the convertible debentures and our other debt.

The market price of our common stock has been and may continue to be subject to wide fluctuations, and this may make it difficult for you to resell the common stock when you want or at prices you find attractive.

Our stock price historically has been, and may continue to be, volatile. Various factors contribute to the volatility of our stock price, including, for example, quarterly variations in our financial results, new product introductions by us or our competitors and general economic and market conditions. Sales of a substantial number of shares of our common stock by our largest stockholders, or the perception that such sales could occur, could also contribute to the volatility of our stock price. While we cannot predict the individual effect that any of these factors may have on the market price of our common stock, these factors, either individually or in the aggregate, could result in significant volatility in our stock price. Moreover, companies that have experienced volatility in the market price of their stock often are subject to securities class action litigation. Any such litigation could result in substantial costs and divert management's attention and resources.

Current uncertainty in the global financial markets and the global economy may negatively affect the value of our investment portfolio.

Our investment portfolios, which include investments in money market funds, bank deposits and separately managed investment portfolios, are generally subject to credit, liquidity, counterparty, market and interest rate risks that may be exacerbated by a global financial crisis or by uncertainty surrounding the United Kingdom's exit from the European Union or recent changes in tariffs and trade agreements. If the banking system or the fixed income, credit or equity markets deteriorate or remain volatile, our investment portfolio may be impacted and the values and liquidity of our investments could be adversely affected.

Future issuances of our common stock could adversely affect the trading price of our common stock and our ability to raise funds in new stock offerings.

Future issuances of substantial amounts of our common stock, whether in the public market or through private placements, including issuances in connection with acquisition activities, or the perception that such issuances could occur, could adversely affect prevailing trading prices of our common stock and could impair our ability to raise capital through future offerings of equity or equity-related securities. In connection with past acquisitions, we issued a substantial number of shares of our common stock as transaction consideration or contingent consideration. We may continue to issue equity securities for future acquisitions, which would dilute existing stockholders, perhaps significantly depending on the terms of such acquisitions. No prediction can be made as to the effect, if any, that

future sales of shares of common stock, or the availability of shares of common stock for future sale, will have on the trading price of our common stock.

Our business could be negatively affected by the actions of activist stockholders.

In recent periods, certain stockholders have publicly and privately expressed concerns with the Company's performance and with certain governance matters. For example, certain stockholders had expressed concerns about the timing and process related to our

Table of Contents

former chief executive officer retiring and the appointment of a new chief executive officer, certain provisions of our executive compensation plans, majority voting requirements for director elections and features of our corporate governance provisions in our governing documents and policies. In addition, we have enacted certain changes to our bylaws in the past year in response to demands from stockholders that may weaken our ability to prevent an unsolicited takeover. Responding to actions by activist stockholders can be costly and time-consuming, disrupting our operations and diverting the attention of management and our employees. Furthermore, any perceived uncertainties as to our future direction could result in the loss of potential business opportunities, and may make it more difficult to attract and retain qualified personnel and business partners.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following is a summary of our share repurchases for the three months ended June 30, 2018:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program <sup>(1)</sup>	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program <sup>(1)</sup>
April 1, 2018 - April 30, 2018	—	\$ —	—	\$ 193,410
May 1, 2018 - May 31, 2018	4,188	\$ 13.58	4,188	\$ 136,529
June 1, 2018 - June 30, 2018	3,919	\$ 14.06	3,919	\$ 81,431
Total	8,107		8,107	

<sup>(1)</sup> On April 29, 2013, our Board of Directors approved a share repurchase program for up to \$500.0 million, which was increased by \$500.0 million on April 29, 2015. As of June 30, 2018, approximately \$81.4 million remained available for future repurchases under the program.

For the majority of restricted stock units granted to employees, the number of shares issued on the date the restricted stock units vest is net of the minimum statutory income withholding tax requirements that we pay in cash to the applicable taxing authorities on behalf of our employees. We do not consider these transactions to be common stock repurchases.

## Item 3. Defaults Upon Senior Securities

None.

## Item 4. Mine Safety Disclosures

Not applicable.

## Item 5. Other Information

(a) In July 2018, the Compensation Committee of the Company's Board of Directors approved a new form of Change of Control and Severance Agreement for use with executive officers, a summary of the key terms of which is as follows: The new form of agreement will have an initial three-year term ending September 30, 2021, renewing automatically thereafter for successive three-year terms, unless the Company or the executive provides timely notice of non-renewal prior to the end of the initial or a succeeding term. The new form of agreement provides that in the event an executive's employment is involuntarily terminated without Cause (and not due to death or Disability) other than within twelve (12) months following a Change of Control of the Company (as those terms are defined in the agreement), he/she will be eligible to receive severance benefits consisting of: (i) twelve (12) months base salary, payable in a lump sum; (ii) a pro-rated percentage of his/her target bonus for the fiscal year in which the termination occurs, payable in a lump sum; (iii) vesting of the pro-rated portion of the outstanding time-based Company equity awards that are scheduled to vest in the fiscal year in which the termination occurs and (iv) twelve (12) months Company-paid health insurance continuation coverage under COBRA, subject to the executive timely electing such

coverage. If an executive's employment is terminated without Cause (and not due to death or Disability) or executive resigns for Good Reason (as such term is defined in the agreement) within twelve (12) months following a Change of Control of the Company, he/she will instead be eligible to receive severance benefits consisting of: (i) twelve (12) months base salary, payable in a lump sum; (ii) a lump sum payment equal to 100% of the executive's annual target bonus for the year of termination, or the year preceding the Change of Control, if greater; (iii) full vesting of all outstanding time-based Company equity awards and (iv) twelve (12) months Company-paid health insurance continuation coverage under COBRA, subject to the executive timely electing such coverage. In addition, upon a Change of Control of the Company, (a) executive's outstanding performance-based equity awards subject to performance goals for the fiscal year of the Change of Control (other than relative total shareholder return performance goals), will convert to time-based equity awards with respect to the number of shares that would vest at 100% of targeted performance and (b) outstanding performance-based equity awards subject to relative total shareholder return performance goals will convert to time-based equity awards with respect to the number of shares that would vest based on actual performance as of the Change of Control. Performance-

based equity awards described in the preceding sentence, as so modified, will vest on the last day of the performance period, subject to executive's continued service through such date or upon earlier termination without Cause or resignation for Good Reason. Upon a Change of Control, an executive's outstanding performance-based equity awards subject to goals for fiscal years after the fiscal year of the Change in Control will remain subject to their existing terms, except executive will receive acceleration of 50% of shares subject to such awards (determined assuming achievement of performance goals at 100% of target) if executive's employment is terminated without Cause or for Good Reason during twelve (12) months following a of Change of Control. To receive the foregoing severance payments and benefits, an executive would be required to enter into a separation and release agreement with the Company and continue to comply with his/her existing confidentiality and restrictive covenant agreements. If an executive's employment with the Company terminates due to death or due Disability he/she or his/her eligible dependents will be eligible to receive benefits consisting of twelve (12) months Company-paid health insurance under COBRA and immediate acceleration of all of his/her outstanding and unvested time-based equity awards. The foregoing description of the new form of Change of Control and Severance Agreement is a summary only and does not purport to be complete. A copy of such agreement is attached hereto as Exhibit 10.2.

The Company has entered into, or expects in the near term to enter into, change of control and severance agreements with each of its Named Executive Officers, other than Mr. Benjamin whose employment agreement addresses severance benefits to which he would be entitled, in substantially the form summarized above, except that the agreement with Mr. Tempesta includes previously approved and disclosed enhanced severance benefits in the event that his employment is terminated by the Company other than for Cause or Mr. Tempesta resigns from the Company for Good Reason on or before December 31, 2019. The enhanced benefits are that any time-based equity awards outstanding at the time of termination that were scheduled to vest at any time on or before December 31, 2019 will fully vest upon the termination and any performance-based equity awards outstanding at the time of termination that were scheduled to vest at any time on or before December 31, 2019 will fully vest upon the termination, with the performance measures deemed to have been fully achieved at target level.

## Item 6. Exhibits

The exhibits listed on the Exhibit Index are filed or incorporated by reference (as stated therein) as part of this Quarterly Report on Form 10-Q.
