Exchange Act (17 CFR 240.13e-4(c))

Item 2.01 Completion of Acquisition or Disposition of Assets
Item 3.02 Unregistered Sales of Equity Securities

As reported in Item 5.01 below, on May 22, 2007 Energroup Technologies Corporation (the "Company") completed the sale of an aggregate of 11,200,000 restricted shares (the "Shares") of its common capital stock to Halter Financial Investments, L.P. (the "Purchaser") for a cash purchase price of \$350,000 pursuant to the Stock Purchase Agreement entered into between the Company and Purchaser and dated as of May 3, 2007. The Company reported the signing of the Stock Purchase Agreement in its Form 8-K which was filed with the Commission on May 3, 2007 and the Stock Purchase Agreement was included as an exhibit to such report. The Shares represent approximately 83% of the voting control of the Company. The transaction resulted in a change in control of the Company. Other than in respect to this transaction, Purchaser has had no material relationship with the Company or any of the Company's officers, directors or affiliates. Purchaser used its own funds to acquire the Shares.

The Stock Purchase Agreement contains covenants that Purchaser, in its capacity as controlling stockholder of the Company following the closing, will not approve any reverse splits other than a one-time reverse split of not greater than 1-for-7 with no shareholder of record of the Company's common stock on the effective date of such split shall having his, her or its total share ownership reduced below 100 shares unless approved by the former officers of the Company; that it will not permit the Company to authorize the issuance of any additional shares of common stock or securities convertible into shares of common stock except in connection with a business combination transaction with a corporation or other business entity with current business operations (a "Going Public Transaction") and any shares issued to any consultants and finders in contemplation of or in connection with a Going Public Transaction; and that it will not allow the Company to enter into a Going Public Transaction unless the Company, on a combined basis with the operating entity with which it completes a Going Public Transaction, satisfies the financial conditions for listing on the NASDAQ Capital Market immediately following the closing of the Going Public Transaction. All of such covenants terminate automatically at the time the Company enters into a Going Public Transaction. The Stock Purchase Agreement also grants demand and "piggy back" registration rights to Purchaser and "piggy back" registration rights to certain current holders of the Company's common stock that are deemed to be "restricted securities", and their permitted transferees.

The foregoing summary of selected provisions of the Stock Purchase Agreement does not purport to be complete and is qualified in its entirety by reference to the Stock Purchase Agreement, a copy of which is filed as an exhibit to the Company's Current Report on Form 8-K on May 3, 2007.

The subject shares were sold to Purchaser without registration under the Securities Act of 1933, as amended (the "Securities Act"), in reliance on the exemption from such registration requirements provided by Section 4(2) of the Securities Act for transactions not involving any public offering. The shares were sold without general advertising or solicitation, the Purchaser acknowledged that it was purchasing "restricted securities" which had not been registered under the Securities Act and which were subject to certain restrictions on resale, and the certificates representing the shares contained a restricted stock legend indicating that the shares have not been registered and cannot be resold without registration under the Securities Act or the availability of an exemption from the registration requirements thereof.

The distribution will be payable on May 29, 2007 to stockholders of record on May 17, 2007 who hold a total of 2,297,421 shares of Common Stock. The Purchaser will not participate in the distribution.

2
