Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
The Thomson 401(k) Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of The Thomson 401(k) Savings Plan (the "Plan") at December 31, 2003 and 2002, and the changes in net assets available for benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held at End of Year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**The Thomson 401(k) Savings Plan
Notes to Financial Statements
December 31, 2003**

1.

Description of the Plan

The following description of The Thomson 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering substantially all of the employees of Thomson Holdings Inc. and certain affiliates (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation

All full-time employees of the Company are eligible to participate, provided that the employee has completed at least 90 days of service. Part-time employees are eligible to participate upon completion of one year of employment.

Investments

During 2003, the Plan began offering units representing shares of common stock of The Thomson Corporation as an investment option for participants.

Contributions

In accordance with the provisions of the Plan, participants may voluntarily authorize the Company to contribute on a pretax, or contribute on a post-tax basis, 1/2% to 16% of their annual base salary and overtime through Salary Reduction (as defined in the Plan agreement) contributions for investment in the Plan, up to the maximum allowed under the provisions of the Internal Revenue Code ("IRC"). The Company will make matching contributions of fifty cents on each dollar the participant contributes, up to 6% of the participant's compensation. The Company honors other contribution provisions for plans that were merged into the Plan, up to a 100% match of 6% of the participant's compensation. Additionally, for any Plan year, the Company may make discretionary contributions to the Plan.

Vesting of benefits

A participant is fully vested in his or her contributions and the earnings thereon at all times and will become vested in Company contributions and the related earnings credited to their account, based upon their years of service, as shown below:

Years of service	Vested Percentage
1	25%
2	50%
3	75%
4	100%

Employees who reach normal retirement age, or become disabled or die while still employed by the Company, are immediately vested in the value of the Company contributions credited to their accounts.

Distributions and forfeitures

Distributions from participant accounts under the Plan as a result of termination, retirement, disability or death will be paid at the election of the participant (beneficiary) as either: (a) a lump-sum (required if the total benefit is less than \$5,000); (b) substantially equal annual or more frequent installments over a reasonable period of time not to exceed the participant's life expectancy or the joint and survivor life expectancy of the participant and their designated beneficiary at the commencement of the installments; or (c) a combination of the foregoing.

Participant balances which have not been vested will generally be forfeited upon termination of employment. At December 31, 2003 and 2002, forfeited nonvested accounts, which remain as assets in the Plan, totaled \$390,716 and \$437,969, respectively. Amounts forfeited by withdrawing members may be applied against future matching employer contributions or employer discretionary contributions or used to pay Plan administrative expenses. In 2003, employer contributions were reduced by \$1,280,886 from forfeited nonvested accounts. Forfeitures that have been used to pay Plan administrative expenses have been reflected as such in the accompanying financial statements.

Loans to participants

Participants may borrow from their accounts for any purpose. The minimum loan amount is \$500 and the maximum is 50% of the participant's vested balance up to the Internal Revenue Service limit of \$50,000. Participants may have up to two outstanding loans at a time. Additionally, loans must be repaid by payroll deductions over a period not to exceed five years, except when the loan is used for the purchase of a primary residence, in which case the repayment period may not exceed ten years. Some loans transferred into the Plan as a result of Plan mergers have repayment periods up to 30 years. Interest rates on loans are determined based upon the prevailing interest rate charged for similar loans by commercial banks in the area of the employer's place of business.

Plan administration

A Plan administrator, appointed by the board of directors of the Company, administers the Plan in accordance with the terms and provisions of the Plan agreement. The Plan administrator has appointed Putnam Fiduciary Trust Company ("Putnam") as the trustee and third party administrator to manage the assets and day-to-day operations of the Plan.

Termination

The Company anticipates and believes that the Plan will continue without interruption but reserves the right to terminate, amend or modify the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, the balances in the accounts of each participant would become fully vested and be distributed to participants as described above.

Transfers

During 2003, Plan assets totaling \$608,521 were transferred from the Plan either into a separate plan maintained by the Company or as a result of the sale of certain business units of the Company as follows:

Date	Plan	Assets Transferred
6/3/2003	Thomson 401(k) Plan for Puerto Rico Employees	\$ 396,022
10/1/2003	Medical Economics Magazine Group	212,499
		\$ 608,521

2.

Summary of Significant Accounting Policies**Basis of accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and transactions

Investments (excluding the commingled trusts and the Putnam Stable Value Fund) are valued at fair market value based on quoted market prices. The commingled trusts are valued at fair market value based on quoted market prices of the underlying securities within that fund. The Putnam Stable Value Fund is recorded at contract value. Participant loans are valued at cost less principal repayments, which approximates fair value. Purchases and sales of shares in the investment funds are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Administrative expenses

Administrative expenses of the Plan are either paid directly by the Company or are funded utilizing Plan forfeitures. Administrative expenses paid by the Company are not reflected in the accompanying financial statements. Administrative expenses paid out of the forfeitures account have been reflected in the accompanying financial statements. Loan origination fees are paid by the participant via a deduction from their respective account, and are recorded upon issuance of the loan.

Benefit payments

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties

The Plan provides for various investment options in mutual funds that invest in any combination of stocks, bonds, fixed income securities and other investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits, and the statement of changes in net assets available for benefits.

Reclassifications

Certain reclassifications have been made to conform with current year presentation.

3.

Description of Investment Options

Participants in the Plan may elect to invest in any of the following investment options:

The George Putnam Fund of Boston

The fund invests primarily in stocks as well as corporate and U.S. government bonds.

	\$ 234,758,005

5.

Income Tax Status

The Internal Revenue Service has determined and informed management by a letter dated September 26, 2002, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended subsequent to the receipt of the latest determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

6.

Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at:

	December 31,	
	2003	2002
Net assets available for benefits per the financial statements	\$ 1,477,604,119	\$ 1,157,108,340
Amounts allocated to withdrawing participants	(275,874)	(216,001)
Net assets available for benefits per the Form 5500	\$ 1,477,328,245	\$ 1,156,892,339

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2003 to the Form 5500:

Benefits paid to participants per the financial statements	\$ 102,301,207
Add Amounts allocated to withdrawing participants at December 31, 2003	275,874
Less Amounts allocated to withdrawing participants at December 31, 2002	(216,001)
Benefits paid to participants per the Form 5500, Schedule H, Part II (lines e(4), f and g)	<u>\$ 102,361,080</u>

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2003, but not yet paid as of that date.

7.

Related Party Transactions

Certain Plan investments are mutual funds managed by Putnam. Putnam is the trustee as defined by the Plan, therefore, these transactions qualify as parties-in-interest.

Loan origination fees paid by the participants of the Plan amounted to \$119,407 for the year ended December 31, 2003.

As of December 31, 2003, the Plan held 203,230 shares of The Thomson Corporation common stock valued at \$7,367,081.

The employees of Jane's Information Group ("Jane's"), a business unit sold in April 2001 by the Company to its principal shareholder, The Woodbridge Company Limited, continue to participate in the Plan. Jane's matches the contributions of its employees in accordance with the provisions of the Plan.

8.

Subsequent Events

On April 1, 2004, assets totaling \$19,460,036 related to the employees of the Drake Beam Morin business unit were transferred from the Plan as a result of the sale of that business unit on February 18, 2004.

Effective May 3, 2004, the Plan ceased to offer the Putnam New Opportunities Fund as an investment option. All existing asset balances were transferred to the Artisan Mid Cap Fund.
