At the close of business on March 16, 2011, the Company had 61,760,647 shares of common stock ("Shares" or "Common Shares") outstanding, all of which are entitled to vote. The Company's Restated Certificate of Incorporation provides that each person who received Shares pursuant to the Agreement of Merger, dated March 7, 1986, which was approved by the shareholders of Carlisle Corporation and became effective on May 30, 1986, is entitled to five votes per Share. Persons acquiring Shares after May 30, 1986 (the effective date of the Merger) are entitled to one vote per share until the Shares have been beneficially owned (as defined in the Restated Certificate of Incorporation) for a continuous period of four years. Following continuous ownership for a period of four years, the Shares are entitled to five votes per share. The actual voting power of each holder of Shares will be based on shareholder records at the time of the Annual Meeting. See "Voting by Proxy and Confirmation of Beneficial Ownership" beginning on page 40. In addition, holders of Shares issued from the treasury, other than in connection with the exercise of stock options, before the close of business on March 16, 2011 (the record date for determining shareholders entitled to vote at the Annual Meeting) will be entitled to five votes per share unless the Company's Board of Directors (the "Board of Directors" or "Board") determines otherwise at the time of authorizing such issuance.

**BOARD OF DIRECTORS**

**A. Election of Directors**

The Company's Restated Certificate of Incorporation provides for a classified Board of Directors under which the Board is divided into three (3) classes of directors, each class as nearly equal in number as possible.

Three (3) directors are to be elected at the 2011 Annual Meeting. Each director will be elected to serve for a three-year term until the 2014 Annual Meeting and until his or her successor is elected and qualified. Directors will be elected by a plurality of the votes cast. Only votes cast for a nominee will be counted, except that the accompanying Proxy will be voted for the three nominees in the absence of instructions to the contrary. Abstentions, Shares held of record by a broker or its nominee ("broker Shares") for which the brokerage firm has not received express voting instructions from the beneficial owner and instruction on the accompanying Proxy to withhold authority to vote for one or more of the nominees will result in the respective nominees receiving fewer votes than if the votes were cast for the respective nominees. For voting purposes, proxies requiring confirmation of the date of beneficial ownership received by the Board of Directors with such confirmation not completed so as to show which Shares beneficially owned by the shareholder are entitled to five votes will be voted with one vote for each Share. See "Voting by Proxy and Confirmation of Beneficial Ownership" beginning on page 40. In the event any nominee is unable to serve (an event management does not anticipate), the Proxy will be voted for a substitute nominee selected by the Board of Directors or the number of directors will be reduced.

The Board of Directors does not impose arbitrary term limits, but a director is required to submit his or her resignation upon a change in employment or significant change in responsibilities and at the Annual Meeting following the date when he or she reaches age 72.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" EACH OF THE FOLLOWING NOMINEES.**

### **C. Meetings of the Board and Its Committees**

During 2010, the Board of Directors of the Company held nine (9) meetings and had five (5) standing Committees: (i) Executive, (ii) Audit, (iii) Compensation, (iv) Pension and Benefits and (v) Corporate Governance and Nominating. All incumbent directors attended at least 75% of all meetings of the Board and the committees on which they served during 2010.

The functions of the Audit Committee also include reviewing the arrangements for and the results of the auditors' examination of the Company's books and records, internal accounting control procedures, the activities and recommendations of the Company's internal auditors, and the Company's accounting policies, control systems and compliance activities. During 2010, the Audit Committee held nine (9) meetings.

## Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The Compensation Committee administers the Company's annual and long-term, stock based incentive programs and decides upon annual salary adjustments for various employees of the Company, including the executive officers. During 2010, the Compensation Committee held three (3) meetings.

The Pension and Benefits Committee monitors the performance of the Company's pension and benefits programs. During 2010, the Pension and Benefits Committee held two (2) meetings.

The Corporate Governance and Nominating Committee develops and maintains the Company's corporate governance guidelines, leads the search for individuals qualified to become members of the Board and recommends such individuals for nomination by the Board to be presented for shareholder approval at the Company's annual meetings, reviews the Board's committee structure and recommends to the Board, for its approval, directors to serve as members of each committee, discusses succession planning and recommends a new chief executive officer if a vacancy occurs. ### **D. Changes to the Board's Committee Structure**

In December 2010, the Board of Directors approved a recommendation by the Governance Committee to eliminate the Executive and Pension and Benefits Committees of the Board.

The Board of Directors eliminated the Executive Committee because there had not been any meetings of the Executive Committee for three years, all directors are actively engaged and involved in all actions taken by the Board and the Board decided that any action requiring Board of Director action or review should be taken by the full Board of Directors.

The Board of Directors eliminated the Pension and Benefits Committee because the time involved in monitoring the funding and investment performance of the Company's pension plans has decreased substantially. The pension plans have been frozen to new participants and are well-funded. In addition, the assets of the plans are invested in a manner that is intended to produce returns that match the liabilities of the plans. The Audit Committee will review the funding and investment performance of the Company's defined benefit pension plans in the future.

*Lead Director.* Stephen P. Munn serves as Lead Director and as a member of the Executive Committee. He was appointed Lead Director effective June 25, 2007. The Company pays Mr. Munn an annual retainer of \$300,000 for his service as a member of the Board of Directors and as Lead Director. Mr. Munn does not receive any other compensation or stock or option awards for his service.

Mr. Munn entered into a retirement agreement with the Company in 2001, when he ceased serving as chief executive officer of the Company. Under the retirement agreement, Mr. Munn became entitled to receive the following benefits from the Company when he retired on June 25, 2007: (i) continued

medical insurance for Mr. Munn and his wife at the premium rates in effect from time -to -time for active employees; (ii) \$450,000 in group term life insurance on Mr. Munn's life; and (iii) a supplemental pension benefit of \$29,333 per month for the life of Mr. Munn and his wife.

*Other Non-employee Directors.* The Company paid an annual fee of \$50,000 to each director (other than Mr. Munn and Mr. Roberts). The annual fee is determined by the Board of Directors. Each non-employee director may elect to receive the annual fee in cash or in Shares (or any combination of cash and Shares). Directors do not receive meeting attendance fees.

The Company also pays an annual fee for service on the Board's Committees. Each member of the Executive Committee (other than Mr. Roberts, the Chairman of the Committee, and Mr. Munn, the former Chairman of the Committee) and the Audit Committee received an annual fee of \$15,000. The annual fee paid to each member of the Compensation, Pension and Benefits and Corporate Governance and Nominating Committees was \$5,000. The Chairman of each Committee received an additional annual fee of \$10,000.

In addition to the annual retainer and committee fees, each director (other than Mr. Munn and Mr. Roberts) is eligible to participate in the Nonemployee Director Equity Plan. The Nonemployee Director Equity Plan provides for the grant of stock options, stock appreciation rights, restricted shares or units or other stock-based awards to non-employee directors. The Board administers the Nonemployee Director Equity Plan and has the discretionary authority to make all award decisions under the Plan. At the meeting of the Board of Directors held on February 2, 2010, the Board of Directors awarded each eligible director an award of 1,754 restricted stock units having a value of approximately \$60,000 based on the closing price of the Company's common stock on the award date. Under the current policy of the Board, each new director receives an award of restricted stock units having a value of \$50,000.

All restricted stock units awarded to eligible directors are fully vested and will be paid in Shares of Company common stock after the director ceases to serve as a member of the Board, or if earlier, upon a change in control of the Company.

The Company also maintains the Deferred Compensation Plan for Non-Employee Directors. Under the Deferred Compensation Plan, each non-employee director of the Company is entitled to defer up to 100% of the cash fees and restricted stock units otherwise payable to him or her. Each participant can direct the "deemed investment" of his or her account among the different investment funds offered by the Company from time to time. The investment options include (i) a fixed rate fund and (ii) Share equivalent units. All amounts credited to a participant's account under the Deferred Compensation Plan are 100% vested and generally will be paid or commence to be paid after the participant terminates service as a director. At the participant's election, payments can be made in a lump sum or in quarterly installments. Payments under the Deferred Compensation Plan are made in cash from the Company's general assets. For the period January 1, 2010 to December 31, 2010, the fixed rate fund accrued interest at five and one-half percent (5.5%) per annum and the aggregate interest accrued for all participants in the Deferred Compensation Plan was \$29,713.

The Board of Directors has adopted stock ownership guidelines for non-employee directors. The guidelines require each non-employee director to own Shares, restricted stock units and Share equivalent units under the Deferred Compensation Plan having a market value equal to \$175,000 within five years of his or her becoming a director. Once the required market value ownership level is achieved, no further purchases are required in the event the value of the Shares held by a director fall below \$175,000 due solely to a decrease in the market value of the Shares. All of the directors owned as of December 31, 2010 the number of Shares, restricted stock units and Share equivalent units required by the ownership guidelines.

The Company does not make payments (or have any outstanding commitments to make payments) to director legacy programs or similar charitable award programs.

The amount shown represents the portion of interest credited on fees deferred under the Company's Deferred Compensation Plan for Non-Employee Directors that is considered above market under the proxy disclosure rules of the Securities and Exchange Commission. In 2010, the deferred fees accrued interest at five and one-half percent (5.5%). The above market portion is the amount of interest credited under the Plan that exceeded 4.85% (120% of the long-term applicable federal rate under the Internal Revenue Code for January 2010, compounded quarterly).

At its September and December meetings, the Compensation Committee considered a market analysis of the Company's non-employee director compensation prepared by the Committee's compensation consultant. The analysis showed that the Company's non-employee director compensation was approximately 11% below the median director pay of a comparator group comprised of approximately 400 publicly traded general industry companies with revenues between \$1 and

\$5 billion with the cash compensation component being approximately 5% below the median and the Company stock based component being approximately 15% below the median. Based on a recommendation of the Compensation Committee, the Board, at its December 2010 meeting, approved changes in the Company's non-employee director compensation program to provide compensation closer to the median level of director pay at comparable companies and to offset partially the director compensation reduction that resulted from the elimination of the Executive and Pension and Benefits Committees of the Board. The changes are summarized below and are effective for 2011:

Increase the annual Board retainer from \$50,000 to \$65,000.

Increase the annual Committee retainer for the Compensation and Governance Committees from \$5,000 to \$7,500.

Increase the Committee Chair retainer for the Audit Committee from \$10,000 to \$15,000 (and continue the current \$10,000 retainer for Chairing the Compensation and Governance Committees).

Increase the annual equity grant value from \$60,000 to \$80,000.

#### **F. Section 16(a) Beneficial Ownership Reporting Compliance**

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors, and persons who beneficially own more than ten percent (10%) of the Company's equity securities, to file reports of security ownership and changes in such ownership with the Securities and Exchange Commission (the "SEC"). Executive officers, directors and greater than ten-percent beneficial owners also are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely upon a review of copies of such forms and written representations from its executive officers and directors, the Company believes that all Section 16(a) filing requirements were complied with on a timely basis during and for 2010.

#### **G. Corporate Governance Matters**

*Board Leadership Structure.* Mr. Roberts, as Chairman, leads the Board of Directors. Mr. Roberts is also the Chief Executive Officer of the Company. The Board of Directors believes that having Mr. Roberts serve as both Chairman of the Board of Directors and Chief Executive Officer shows management and all others who may deal with the Company that Mr. Roberts has full discretionary power and authority to lead the Company. Separating the roles of Chairman and Chief Executive Officer could create the perception that the Company has multiple leaders and weaken the Company's ability to develop and implement strategy.

The Board of Directors does not believe that having Mr. Roberts serve as both Chairman and Chief Executive Officer adversely affects the independence of the Board. Currently, all of the Company's directors (other than Mr. Roberts) and each member of the Audit, Compensation and Corporate Governance and Nominating Committees meet the independence requirements of the New York Stock Exchange. Therefore, independent directors directly oversee such critical matters as the integrity of the Company's financial statements, the compensation of executive management, the selection and evaluation of directors and the development and implementation of the Company's corporate governance policies and structures. In addition, the Compensation Committee conducts an annual performance review of Mr. Roberts and, based upon this review, approves his compensation, including base salary, annual incentive and equity compensation.

The Board of Directors acknowledges that independent Board leadership is important, and for this reason, the Board has appointed a Lead Director, whose duties closely parallel the role of an independent Chairman of the Board of Directors, to ensure an appropriate level of independent oversight for Board of Director decisions. Mr. Munn, the current Lead Director, has the following responsibilities: (i) chair all meetings of the Board of Directors at which the Chairman is not present and all executive sessions of the Board of Directors; (ii) liaise between the Chairman and independent directors; (iii) consult with the Chairman concerning (a) information to be sent to the Board of Directors, (b) meeting agendas, and

(c) meeting schedules to ensure appropriate time is provided for all agenda items; (iv) call meetings of independent directors as required; and (v) be available when appropriate for consultation, including shareholder communications. In addition, the independent directors meet in executive session at every regularly scheduled meeting of the Board of Directors. The Board of Directors believes that the existence of a Lead Director, the scope of the Lead Director's responsibilities and the regularly scheduled executive sessions of the independent directors all support strong corporate governance principles and allow the Board to effectively fulfill its fiduciary responsibilities to shareholders.

*Role in Risk Oversight.* Risk management is a significant component of management's annual strategic and operating planning processes. The Company has adopted an enterprise risk management program to identify and mitigate enterprise risk. Under the program, each operating business is required to identify risks to its business and prepare a detailed plan to mitigate those risks. The division presidents present the plans to executive management as part of their strategic and operating plans. Over the course of each fiscal year, the division presidents provide similar presentations to the Board of Directors at the meetings covering the Company's business plans.

At its meeting in December 2009, the Compensation Committee of the Board reviewed and discussed a report prepared by the Compensation Committee's compensation consultant regarding the relationship between the Company's compensation practices and risk. After reviewing and discussing the report, the Compensation Committee concluded that the Company's compensation practices are not reasonably likely to have a material adverse effect on the Company and do not encourage inappropriate risk taking. The Committee's conclusion was based on the following:

Annual cash bonuses are capped at 200% of base salary for the Chief Executive Officer and at 150% of base salary for the other named executive officers. These caps are in line with competitive practice and ensure there is an appropriate balance between base salary and "at risk" incentive compensation.

Annual cash bonuses are based on multiple balanced performance metrics.

The threshold, target and maximum performance levels for each of the annual cash bonus performance metrics are based on prior year performance adjusted to reflect the current year Company business plan that has been reviewed and approved by the Board of Directors and general market expectations. The Company's Chief Financial Officer actively participates in the Compensation Committee meetings during which the performance levels are set and the performance results are verified.

The annual cash bonus payout curve from threshold to maximum is a straight line (linear) progression.

The target grant value of the Company's long-term, stock based awards are also capped at 300% of base salary for the Chief Executive Officer and 150% of base salary for the other named executive officers. These caps are in line with competitive practice.

The stock based awards include an equally-weighted mix of stock options and restricted stock that are subject to longer term, three year vesting periods and performance shares that are earned over a three year performance period.

The Compensation Committee has adopted a stock ownership policy that requires significant stock ownership by the Company's executives.

The Company has adopted guiding principles that govern plan design. The compensation programs are documented, communicated and monitored on a consistent basis.

The Compensation Committee will conduct similar assessments of the relationship between the Company's compensation practices and risk periodically and in connection with the adoption of any new material compensation programs or any material changes to existing compensation programs.

*Independence.* The Board recognizes the importance of director independence. Under the rules of the New York Stock Exchange, to be considered independent, the Board must determine that a director does

not have a direct or indirect material relationship with the Company. Moreover, a director will not be independent if, within the preceding three (3) years: (i) the director was employed by the Company or receives \$120,000 per year in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service; (ii) the director was a partner of or employed by the Company's independent auditor; (iii) the director is part of an interlocking directorate in which an executive officer of the Company serves on the compensation committee of another company that employs the director; (iv) the director is an executive officer or employee of another company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues; or (v) the director had an immediate family member in any of the categories in (i) (iv).

The Board has determined that nine (9) of the Company's ten (10) directors are independent under these standards. The independent directors are as follows: Robin J. Adams, Robert G. Bohn, Robin S. Callahan, Paul J. Choquette, Jr., Terry D. Growcock, Stephen P. Munn, Gregg A. Ostrander, Lawrence A. Sala, and Magalen C. Webert. Mr. Munn, the current Lead Director, was employed as an executive officer of the Company and served as Chairman of the Board through June 25, 2007. Mr. Munn became an independent director under the Board's director independence standards as of June 26, 2010, three (3) years after his retirement from employment with the Company.

The other director, David A. Roberts, is the Company's Chairman, President and Chief Executive Officer.

In addition, each of the directors serving on the Audit, Compensation and Corporate Governance and Nominating Committees are independent under the standards of the New York Stock Exchange.

*Related Party Transactions.* The Board has adopted a policy concerning the review, approval and monitoring of transactions involving the Company and "related persons" (directors and executives officers or their immediate family members, or shareholders owning five percent (5%) or greater of the Company's outstanding Shares). The policy covers any transaction exceeding \$120,000 in which the related person has a direct or indirect material interest. Related person transactions must be approved by the Corporate Governance and Nominating Committee which will approve the transaction only if it determines that the transaction is in the best interests of the Company.

In 2010, in accordance with the requirements of the related party transaction policy, the Corporate Governance and Nominating Committee reviewed the fleet management services Emkay Incorporated provides to Carlisle Construction Materials. The Company paid Emkay a management fee of approximately \$40,000 and reimbursed Emkay for pass-through costs, such as fuel, taxes and vehicle depreciation, for Emkay's services, which in total exceeded \$120,000. Emkay has provided fleet management services as a preferred vendor to Carlisle Construction Materials since 1997. A brother-in-law of Mr. Roberts (the Company's Chairman, President and Chief Executive Officer) is a senior officer and more than ten percent owner of Emkay Incorporated. The Corporate Governance and Nominating Committee reviewed all of the material facts related to the services provided by Emkay and ratified all transactions that occurred during 2010. The Corporate Governance and Nominating Committee will continue to review annually the Company's business relationships with Emkay.

*Meetings of Independent Directors.* At the conclusion of each of the regularly scheduled Board meetings, the independent directors of the Board meet in executive session without management or, prior to June 26, 2010, the Lead Director. Prior to June 26, 2010, the independent directors selected one of the independent directors to preside at the executive session. The Lead Director presided at each executive session after June 25, 2010.

*Statement of Corporate Governance Guidelines and Principles.* The Company has adopted a Statement of Corporate Governance Guidelines and Principles and has published the Statement on its website: [www.carlisle.com](http://www.carlisle.com). The Company will provide without charge a copy of the Statement to any

shareholder upon written request mailed to the attention of the Company's Secretary at 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277.

*Charters.* The Company has adopted Charters for each of its Audit, Compensation and Corporate Governance and Nominating Committees and has published the Charters on its website: [www.carlisle.com](http://www.carlisle.com). The Company will provide without charge a copy of the Charters to any shareholder upon written request mailed to the attention of the Company's Secretary at 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277.

*Code of Ethics.* The Company's Business Code of Ethics is published on its website: [www.carlisle.com](http://www.carlisle.com). The Company will provide without charge a copy of the Business Code of Ethics to any shareholder upon written request mailed to the attention of the Company's Secretary at 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277.

*Communications with Board of Directors.* Any interested party may communicate with the Board of Directors or with the non-management directors as a group by writing to the Company's Secretary at Carlisle Companies Incorporated, 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277, Attention: Secretary. Any written communication will be forwarded to the Board for its consideration.

Directors are not required to attend the Company's Annual Meeting of Shareholders. However, all directors other than Mrs. Webert attended last year's Annual Meeting. All directors other than Mrs. Webert are planning to attend the 2011 Annual Meeting.

*Nomination Process.* At its February, 2003 meeting, the Board established a Corporate Governance and Nominating Committee. All directors serving on the Committee are "independent" under the standards established by the New York Stock Exchange.

As more fully described in its Charter, the Corporate Governance and Nominating Committee assists the Board by identifying individuals qualified to be directors and recommending such individuals be nominated by the Board for election to the Board by the shareholders. Director nominees should possess the highest personal and professional integrity, ethics and values, and be committed to representing the long-term interests of the Company's shareholders. Nominees should also have outstanding business, financial, professional, academic or managerial backgrounds and experience. Each nominee must be willing to devote sufficient time to fulfill his or her duties, and should be committed to serve on the Board for an extended period of time. Prior to accepting an invitation to serve on another public company board, directors must advise the Corporate Governance and Nominating Committee and the Committee will determine whether such service will create a conflict of interest and/or prevent the director from fulfilling his or her responsibilities.

The Corporate Governance and Nominating Committee has not adopted a policy with regard to the consideration of diversity in identifying director nominees. However, the Committee values what diversity brings to the Board of Directors and has consistently included diversity as a desired qualification when conducting searches for director nominees. The Committee's emphasis on diversity has produced a Board of Directors with broad diversity in qualifications and two female members.

The source of director candidates may include: other directors, management, third-party search firms and security holders. Security holders may submit director recommendations to the Corporate Governance and Nominating Committee by writing to the Company's Secretary at Carlisle Companies Incorporated, 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277, Attention: Secretary. The writing should include whatever supporting material the security holder considers appropriate and should address the director nominee characteristics described in the immediately preceding paragraph and must be received at least 120 days prior to the applicable Annual Meeting. The Company has not retained a third-party search firm to identify candidates at this time, but may do so in the future in its discretion.

**EXECUTIVE OFFICER  
COMPENSATION DISCUSSION AND ANALYSIS**

This section contains an in-depth description and analysis of the Company's executive compensation policies and practices and the compensation earned by the Company's most senior executives (referred to as "named executives" in this section) under those policies and practices. The Compensation Committee of the Board of Directors administers the Company's compensation policies and practices for all executive officers of the Company, including the named executives.

As you review this section, you will see that the Compensation Committee has adopted compensation policies and practices that (i) link pay and performance with Company executives having the opportunity to earn substantial compensation over and above their base salaries based on the Company's performance and increases in the market value of the Company's Common Stock, (ii) align the interests of the Company's executives and shareholders, (iii) are transparent and easy to communicate to the Company's executives and shareholders, and (iv) provide a valuable retention tool for key executive talent.

**A. Executive Summary**

Despite a continuing challenging economic environment, the Company delivered solid performance. As measured by the 2010 annual incentive performance measures, the Company's strong results were as follows:

	2010	2009	Percentage Change
Sales	\$ 2.596 billion	\$ 2.328 billion	11.5%
Net Earnings	\$ 142.3 million	\$ 134.4 million	5.9%
Global Sales	\$ 407.9 million	\$ 294.7 million	38.4%
EBIT Margin	8.2%	8.7%	(5.7)%
Working Capital as a % of Sales	22.8%	23.8%	(4.2)%

Based on these results, and with consideration of the Company's pay for performance philosophy, the Company took the following compensation actions in 2010 with regards to its named executives:

Increased named executive base salaries on average by 3% in line with market conditions, as described on page 21;

Paid above target 2010 annual incentive awards, as described on pages 21 through 24; and

Issued a long-term incentive compensation award, as described on pages 24 through 26.

In 2010, the Compensation Committee adopted two important changes to the Company's executive compensation policies and practices to further support the Company's pay for performance programs and the alignment of executive and shareholder interests. The first change altered the mix of equity awards from stock options and time-vested restricted stock (each weighted 50%) to stock options, performance shares and time-vested restricted stock (each weighted 33<sup>1</sup>/<sub>3</sub>%). The performance shares will be earned based on the total return to the Company's shareholders (share appreciation plus dividend) relative to the total shareholder return of the companies comprising the S&P 400 MidCap Index® over a three year performance period. The second change added a retention requirement to the Company's stock ownership policy. Under the retention requirement, executives must retain one-half of the after tax value of their vested equity awards until they reach the Share

ownership level required by the policy.

**B. Roles of Compensation Committee, Compensation Consultant and Executive Officers in Determining Executive Compensation**

The Compensation Committee engaged Towers Watson to (i) review and confirm the soundness and effectiveness of the Company's executive compensation program, (ii) review and make recommended changes in the Company's stock ownership policy and (iii) provide an update on recent legislative and regulatory developments involving executive compensation. Towers Watson presented the results of its reviews and recommendations to the Compensation Committee at its September and December 2010 meetings. Towers Watson provided no services to the Company or its management other than services related to the Company's executive and non-employee director compensation programs.

The Compensation Committee also receives input from Company management in connection with the administration of the Company's executive compensation program. Mr. Roberts, the Company's Chairman, President and Chief Executive Officer, recommended base salary increases for the named executive officers, and the Compensation Committee approved that recommendation. In addition, Mr. Roberts made recommendations to Compensation Committee about the performance measures to be used for determining the 2010 annual incentive compensation awards, the threshold, target and maximum performance levels for the performance measures and the weighting of each performance measure. The Compensation Committee approved his recommendation.

Mr. Ford, the Company's Chief Financial Officer, provided information and analysis to the Compensation Committee about the financial performance of the Company for the 2010 fiscal year and each of the Company's operating businesses for which a named executive officer was responsible. The Compensation Committee used the information and analysis provided by Mr. Ford in determining the annual incentive compensation awards earned by the executives for 2010.

**C. Philosophy and Material Elements of Executive Compensation Program**

The material elements of the total direct compensation provided to executives under the Company's program are (i) base salary, (ii) a target annual cash bonus opportunity expressed as a percentage of each executive's base salary and (iii) a long-term, stock-based award, the expected value of which is also expressed as percentage of base salary. While each element of compensation paid to executive officers is significant, the annual cash bonus and long-term, stock-based awards have the potential to be the largest amounts of the total compensation paid to executive officers.

## Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The following table shows the guiding principles for the Company's executive compensation program and how the program complies with these principles:

Principle	How the Program Complies
Provide competitive compensation opportunities.	Total pay is targeted at the median of general industry companies similar in size to the Company. Above target performance results in above median pay; below target performance results in below median pay.
Reward performance that is consistent with key strategic and shareholder goals.	Annual incentive plan incorporates earnings and other financial measures aligned with shareholder interests. Performance share awards incorporate total shareholder return as a performance measure. Inappropriate risk taking is not encouraged.
Balance performance measures and, where appropriate, emphasize overall corporate, operating business and division performance.	Annual incentive plan incorporates corporate and operating business and division level performance measures.
Serve as a retention tool for key executive talent, provide a balance of liquidity and reward executives for superior performance.	Program provides a mix of base salary, annual incentives tied to performance and stock-based awards with vesting restrictions. Performance share awards incorporate total shareholder return as a performance measure.

### *Compensation Benchmarking*

The Compensation Committee periodically benchmarks executive compensation to ensure the compensation provided to Company executive officers is reasonable and competitive with the market. Compensation was last benchmarked in 2007 when the Compensation Committee used data collected from a large group of 244 general industry companies in the 2007 Towers Perrin Executive Compensation Database to develop market compensation rates. The companies in the database had revenues of one-half to two times the Company's revenue. The identities of the companies included in the 2007 Towers Perrin Executive Compensation Database were not known to or considered by the Compensation Committee. The Compensation Committee believes the broad group of companies provided a reliable source of market information that was not unduly influenced by the practices of one or two companies. The Compensation Committee set the total direct compensation opportunities for the Company's executive officers within a range of 15% above or below the median of the market compensation rates developed from the database. The 15% range was intended to allow the Compensation Committee to vary compensation from the median market compensation rate based on a named executive's experience, tenure, internal equity considerations and individual performance. In light of the 2010 economic conditions and the generally slow movement of executive pay, the Compensation Committee did not undertake benchmarking this year. The Compensation Committee

intends to benchmark compensation in 2011 and make any needed adjustments in executive officer compensation levels effective in 2012.

*Base Salaries*

Base salaries provide a baseline level of compensation to executive officers. Base salaries are not linked to the performance of the Company, because they are intended to compensate executives for carrying out the day-to-day duties and responsibilities of their positions.

The Compensation Committee reviews and adjusts base salary levels in February each year. During the review and adjustment process, the Compensation Committee considers:

the duties and responsibilities of each executive officer position;

the executive officer pay relative to the base salaries of senior officers and other employees of the Company; and

whether the base salary levels are competitive, based on a comparison of the current base salary with the market base salary.

In February 2010, the Committee approved base salary increases for the named executives as follows:

<b>Executive</b>	<b>2009 Base Salary</b>	<b>2010 Base Salary</b>	<b>% Increase</b>
Mr. Roberts	\$ 950,000	\$ 978,500	3.0%
Mr. Ford	\$ 385,250	\$ 425,000	10.3%
Mr. Altmeyer	\$ 580,000	\$ 597,400	3.0%
Mrs. Lowe	\$ 400,000	\$ 400,000	0.0%
Mr. Sutter	\$ 450,000	\$ 463,500	3.0%

The base salary increases for Messrs. Roberts, Altmeyer and Sutter were based on the cost of labor and the general market movement of executive pay and in line with Company-wide base salary adjustments. Mr. Ford's base salary was increased by more than 3.0% to reflect his expanded duties and responsibilities as both Chief Financial Officer and General Counsel of the Company. Mrs. Lowe's base salary was not adjusted due to the continued challenging economic environment for the business conducted by Trail King Industries, Inc. and the fact that the salaries of all other employees of Trail King Industries, Inc. remained frozen in 2010.

*2010 Annual Incentive Compensation Awards*

The Company's executive officers earned annual incentive compensation under the program for 2010 based on the Company's performance compared to pre-established performance measures.

The Compensation Committee first established a target annual incentive award expressed as percentage of each named executive's base salary. The 2010 target awards were set at the same level as the 2009 target awards 100% of base salary for the Chief Executive Officer and 75% of base salary for the other named executives.

## Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The Compensation Committee then selected the performance measures on which the 2010 annual incentive awards would be based. The measures for the 2010 annual incentive awards to Mr. Roberts, Chief Executive Officer and Mr. Ford, Chief Financial Officer were the Company's consolidated (i) sales, (ii) global sales, (iii) earnings, (iv) EBIT margin and (v) working capital as a percentage of sales. The measures adopted for the 2010 annual incentive awards for each of the other named executives were (i) sales, (ii) global sales, (iii) EBIT margin and (iv) working capital as a percentage of

sales, in each case, of the business for which the executive has responsibility and the Company's consolidated earnings. The Compensation Committee believes that each of these performance measures tracks whether the Company and its core businesses are operating efficiently and with a view toward long-term, sustainable growth in the United States and abroad. The Compensation Committee believes that superior performance under these measures will ultimately benefit Company shareholders through increased profits, dividends and Share value.

Finally, the Compensation Committee established threshold, target and maximum levels of performance for each of the measures and determined that 50% of the target annual incentive award would be paid for threshold level performance, 100% of the target annual incentive award would be paid for target level performance and 200% of the target annual incentive award would be paid for performance at or above the maximum level. Under the program adopted by the Compensation Committee, the Company's performance under each of the measures was independently determined from the other measures, so that an annual incentive award was determined for the actual level of performance under each measure. The annual incentive awards under each measure were combined to determine each named executive's aggregate annual incentive award for 2010.

The Compensation Committee approved threshold, target and maximum performance levels in December 2009 based on the Company's 2009 actual performance which was then adjusted to reflect the 2010 operating plan presented to the Board of Directors and general market expectations. The following tables show the threshold, target and maximum performance levels for each of the performance measures established by the Compensation Committee for 2010 as well as the Company's actual performance in 2010 and 2009.

The performance levels and measures are based on the Company's continuing operations except the actual sales and earnings amounts for 2010 have been adjusted as follows:

Sales include \$68.6 million of sales and earnings include \$3.6 million of after-tax earnings both from the operation of Trail King Industries, Inc. for the period January through September 2010. The Company sold Trail King on October 4, 2010, and as result of the sale, Trail King's sales and earnings while it was owned by the Company during 2010 are reported as sales and earnings from a discontinued operation. The Committee included Trail King's sales and earnings because its operations were included when the 2010 performance goals were adopted and the 2010 performance goals were not adjusted to reflect the sale of Trail King.

Earnings exclude a \$6.3 million non-recurring gain related to the sale of Trail King Industries, Inc. and \$8.1 million of after-tax costs incurred in connection with the Company's acquisition of Hawk Corporation in December 2010. The Compensation Committee concluded that both of these adjustments were one-time, non-recurring items that were not anticipated when the 2010 performance goals were adopted and should not be considered for purposes of measuring Company performance and determining the 2010 annual incentive awards.

## Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The Compensation Committee makes annual stock-based awards one time each year at the Committee's regularly-scheduled February meeting. All stock-based awards are made under the Company's Executive Incentive Program which imposes certain restrictions, described below, on the terms of the awards.

In February 2010, the Committee awarded stock options and restricted Shares to the named executives in the amount shown in the Grants of Plan Based Awards Table on page 33. The number of Shares included in the 2010 awards was determined using a formula-based approach. First, the Compensation Committee established a target award opportunity, expressed as a percentage of base salary, for the named executives based on each executive's position and the market median long-term incentive award for that position. The Committee used the same target award opportunity for the 2010 awards as it used in 2009 300% of base salary for the Chief Executive Officer and 150% of base salary for the other named executives.

## Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The Compensation Committee then determined the appropriate blend of the types of equity awards to be included in each named executive's stock-based award. In 2010, the Committee changed the blend of equity awards from stock options and time-vested restricted stock (each weighted 50%) to stock options, performance shares and time-vested restricted stock (each weighted 33<sup>1</sup>/<sub>3</sub>%). The Committee included performance shares in the 2010 award to further support the Company's pay for performance programs and the alignment of executive and shareholder interests.

The stock options awarded in 2010 will vest in equal annual installments over three years. The restricted stock awarded in 2010 will become vested upon the third anniversary of the award date.

The performance shares awarded in 2010 will be earned based on the total return to the Company's shareholders (share appreciation plus dividend) relative to the total shareholder return of the companies comprising the S&P 400 MidCap Index® over the three year performance period ending December 31, 2012 in accordance with the following table:

Relative Total Shareholder Return	Percentage of Performance Shares Earned
Below 25 <sup>th</sup> percentile	0%
25 <sup>th</sup> percentile	50%
50 <sup>th</sup> percentile	100%
75 <sup>th</sup> percentile or above	200%

If the Company's total shareholder return falls between the 25<sup>th</sup> and 50<sup>th</sup> percentile or between the 50<sup>th</sup> and 75<sup>th</sup> percentile, the number of performance shares earned will be determined by linear interpolation. Dividends will accrue during the three year performance period and will be paid on performance shares that are earned.

The Company's 2010 total shareholder return of 15.5% resulted in a ranking for the year at the 39<sup>th</sup> percentile. Based on that percentile, approximately 75% of the performance shares would have been earned if the performance period had ended on December 31, 2010.

The market value of the Company's common stock was multiplied by a relative value factor for each type of award (*i.e.*, \$10.00 for each stock option and \$34.21 for each restricted Share and performance share) to calculate the number of shares included in the awards. The total expected value of each named executive was divided equally between stock options, restricted Shares and performance shares.

The Committee included options in the awards to encourage the named executives to increase shareholder value over the term of the options. The Committee included restricted Shares in the awards not only to encourage the named executives to increase shareholder value but also to remain employed with the Company. The Committee added performance shares as an equally-weighted component of the stock-based awards to further link executive compensation to the performance of the Company and align the interests of the executives with the Company's shareholders.

The Company's Executive Incentive Program contains certain restrictions on the terms of all stock-based awards. For example, all stock options must be granted with an option exercise price that is equal to or greater than the fair market value of the Shares on the date of award. The Program also expressly prohibits re-setting the option exercise price of stock options. These restrictions ensure that any options awarded under the Program will have value to the executives only if the market price of the Shares increases after the date of the award. The Program further requires that restricted Share awards must be subject to a restriction period of at least two (2) years during which the Shares are subject to a substantial risk of forfeiture and may not be transferred. Finally, the Program provides an annual limit on the size of awards. No executive may receive in any one fiscal year period an award of

options to acquire more than 200,000 Shares or an award of more than 60,000 performance-vested restricted Shares.

The Compensation Committee has never manipulated the timing of stock-based awards to take advantage of non-public information. The Committee is aware that the February meeting during which it makes annual stock-based awards precedes the date the Company releases its fourth quarter and annual financial results. The Committee is also aware that the release will usually affect the market value of the Company's stock and the underlying value of the stock-based awards made to executives at the February meeting. The Committee believes that executives will not necessarily gain over the long run from the short term benefit of a positive release because the Company's stock price fluctuates over time and because all of the awards have multi-year vesting schedules and stock options have historically been held for several years prior to exercise. In addition, any gain from a positive benefit in some years will be offset by earnings releases in other years that negatively affect the market value of the Shares.

*Stock Ownership Policy*

The Compensation Committee believes that ownership of the Company's common stock by executive officers aligns their interests with those of the Company's shareholders, enhances retention of executives by providing them an opportunity to accumulate a meaningful ownership interest in the Company and focuses executives on building shareholder value over the long term. Therefore, the Committee has maintained for several years a stock ownership policy for the Company's officers, including the named executives.

The Compensation Committee reviewed the policy at its September and December 2010 meetings and approved the following changes to the policy:

Combine the separate Division President and Corporate Vice President ownership tiers into a single ownership tier that applies an ownership requirement of 25,000 Shares to all officers in this group who have an annual base salary of \$240,000 or more. The Compensation Committee made this change to reflect the elimination of the Group President level of Company management and to simplify the policy. This change resulted in an increase in the Share ownership requirement for most Division Presidents and Corporate Vice Presidents. The policy's Share ownership requirements after this change are:

Executive	Number of Shares
CEO	114,000
Division President or Corporate Vice President	25,000

Add a retention requirement under which an officer must retain at least one-half of the after-tax value realized from the vesting of restricted Shares, the exercise of options or the receipt of earned performance shares until the officer has satisfied the policy's Share ownership requirement.

The definition of ownership under the policy remains unchanged. Ownership includes Shares owned directly or under an employee benefit plan and all restricted shares. Ownership does not include any performance share awards or any Shares subject to stock options. As of December 31, 2010, all of the named executives were in compliance with the policy's Share ownership and retention requirements.

#### **D. Retirement and Other Benefits**

##### *Retirement and Group Insurance Benefits*

The Company also provides retirement, health and welfare and other benefits to its executive officers. The Company sponsors the Employee Incentive Savings Plan (the "Savings Plan"), a tax-qualified Code Section 401(k) retirement savings plan, for the benefit of substantially all of its non-union employees, including the named executives. The Savings Plan encourages saving for retirement by enabling participants to save on a pre-tax basis and by providing Company matching contributions.

The Company also sponsors the Retirement Plan for Employees of Carlisle Corporation (the "Retirement Plan"), a tax-qualified retirement plan, that provides retirement income to eligible employees following their retirement from the Company. The Pension Benefits Table beginning on page 35 shows the lump sum present value of the annual annuity benefit earned by the named executives under the Retirement Plan for their credited service through December 31, 2010.

Section 401(a)(17) of the Code limits the amount of annual compensation that tax-qualified plans like the Company's Savings Plan and Retirement Plan may take into account for purposes of determining contributions and benefits. The limit for 2010 was \$245,000 and it is subject to adjustment annually for cost of living increases. The Company maintains an unfunded supplemental pension plan to provide benefits to certain Retirement Plan participants whose benefits are limited by Section 401(a)(17) of the Code and to certain senior management employees who were employed on or after January 1, 2005 and are not eligible to participate in the Retirement Plan. The Pension Benefits Table beginning on page 35 also shows the lump sum present value of the annual annuity benefit earned by the named executives under the supplemental plan.

The Company does not maintain a supplemental plan to make up for any Savings Plan benefits that are limited by Section 401(a)(17) of the Code or any other Code imposed benefit limits.

The named executives also participate in group health, life and other welfare benefit plans on the same terms and conditions that apply to other employees. Generally, the named executives do not receive better insurance programs, vacation schedules or holidays or have access to other perquisites such as company cars, executive dining rooms or executive parking places.

##### *Employment Letter Agreement with Mr. Roberts*

In connection with the recruitment of Mr. Roberts to join the Company in 2007 as Chairman, President and Chief Executive Officer, the Company and Mr. Roberts negotiated the terms of his employment and entered into an employment letter agreement, dated June 5, 2007, that provides for the following compensation and benefits:

An annual base salary of not less than \$900,000.

A severance benefit equal to two times the highest annual compensation payable to Mr. Roberts for either of the two years ending with the date of termination and full vesting of all stock options and restricted Share awards if Mr. Roberts is terminated by the Company for other than gross and willful misconduct or Mr. Roberts resigns for good reason (as defined in the employment letter agreement).

Participation in all employee benefit plans generally available to the Company's senior executives and reimbursement of reasonable tax preparation and financial planning expenses as well as the cost of an annual executive physical.

A benefit under the Company's Supplemental Pension Plan equal to \$25,703 per month payable for Mr. Roberts' life if he continues employment with the Company until he attains age 65.

Retiree medical and dental coverage for the life of Mr. Roberts and his wife.

*Post-Termination of Employment Benefits*

The Company has not entered into an employment agreement with any executive officer that provides severance or other benefits following their resignation, termination, retirement, death or disability, except (i) for agreements with certain executive officers (including all of the named executives) that provide severance benefits in the event of a termination of their employment following a change of control of the Company (the "change in control agreements") and (ii) the previously-described employment agreement with Mr. Roberts. The change in control agreements provide that the executives will not, in the event of the commencement of steps to effect a change of control (defined generally as an acquisition of 20% or more of the outstanding voting Shares or a change in a majority of the Board of Directors), voluntarily leave the employ of the Company until the potential acquirer of the Company or control of the Company has terminated his or its efforts to effect a change of control or until a change of control has occurred. The Company believes that the change in control agreements protect the interests of the Company's shareholders by providing financial incentives to executives to represent the best interests of the Company and its shareholders during the periods immediately preceding and following a change of control.

In the event of any termination of an executive's employment (including due to the executive's resignation) within three (3) years of a change of control (other than due to the executive's death or disability or after the executive attains age 65), each change in control agreement provides that the executive will be entitled to receive three years' compensation, including bonus, retirement benefits equal to the benefits the executive would have received had he or she completed three additional years of employment, continuation of all life, accident, health, savings, and other fringe benefits for three years, and relocation assistance. The three year benefit period is reduced if the executive terminates within three years of the date the executive would attain age 65. In addition, the agreements provide that the executive will become fully vested in all outstanding stock option and restricted Share awards and outstanding performance shares will be earned at the maximum level. If any payments to a named executive are considered excess "parachute payments"\* and the amount of the excess is more than 15%, the Company is required to provide a tax gross up for the excise taxes the executive would be required to pay with respect to the payments.

\*

Section 280G of the Internal Revenue Code defines "parachute payments" as payments which (i) are compensatory in nature, (ii) are made to or for the benefit of a shareholder, officer or highly compensated individual, and (iii) are contingent on a change in ownership or effective control (or change in ownership of a substantial portion of assets) of a corporation. If the parachute payments have an aggregate present value of at least 3 times the average annual compensation earned by the recipient of the payment over the 5 years preceding the date of the change in control, the amount of the payments in excess of 1 times such average annual compensation are not deductible by the payor for federal income tax purposes and are subject to a 20% excise tax (payable by the recipient) in addition to regular income taxes.

- (5) Present value of the Supplemental Pension Plan benefit that would become vested upon termination after a change of control of the Company. Note 13 to the Company's consolidated financial statements included in the 2010 Annual Report on Form 10-K includes the valuation assumptions and other information relating to the Supplemental Pension Plan.

*Internal Revenue Code Section 162(m)*

Section 162(m) of the Code limits the amount of compensation paid to the named executives (other than the Chief Financial Officer who is not subject to the Section 162(m) limitation) in any one fiscal year that may be deducted by the Company for federal income tax purposes. The deduction limitation is currently \$1 million. "Performance-based compensation" paid under a plan that has been approved by the Company's shareholders is not subject to the deduction limitation.

The Company's Executive Incentive Program has been approved by the Company's shareholders, and the compensation attributable to stock option and performance share awards under the program should qualify as "performance-based" compensation that is fully deductible and not subject to the Code Section 162(m) deduction limit. Compensation attributable to time-vested restricted Share awards under the program is subject to the deduction limit.

The Company's shareholders have also approved the Senior Management Incentive Compensation Plan of Carlisle Companies Incorporated. All of the named executives participated in the Incentive Plan for 2010, and the annual incentive compensation awarded to the named executives under the Plan for 2010 should qualify as fully deductible "performance based" compensation.

The Committee has not adopted a formal policy that requires all compensation paid to the named executives to be fully deductible.

**E. Conclusion**

The Compensation Committee has reviewed all components of the Chief Executive Officer's and the named executives' compensation, including salary, bonus, equity and long-term incentive compensation, accumulated realized and unrealized stock option and restricted stock gains, the dollar value of all perquisites and other personal benefits as well as the Company's obligations under its pension plans. Based on this review, the Compensation Committee finds the Chief Executive Officer's and the named executives' total compensation, in the aggregate, to be reasonable and appropriately linked to the Company's performance. The Compensation Committee therefore recommends that shareholders vote "FOR" the say-on-pay proposal included as Proposal Two in this Proxy Statement.

The amounts in these columns do not reflect the actual value the named executives will realize from the stock option, restricted stock and performance share awards made to the executives. The amounts in the table are the grant date value of the awards computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation - Stock Compensation (excluding any effect of estimated forfeitures). The Company will recognize a portion of the grant date value of the awards each year as compensation expense over the vesting period of the awards.

The Compensation Committee included performance shares in the equity-based awards to the named executives for the first time in 2010. The performance shares are earned based on the Company's relative total shareholder return versus the S&P Midcap 400 Index® over the three year period ending December 31, 2012. The terms of the performance share awards are described on page 25. The 2010 stock awards column includes the following grant date values of the performance share awards: Mr. Roberts \$1,440,548, Mr. Ford \$312,736, Mr. Altmeyer \$439,643, Mr. Sutter \$341,189 and Mrs. Lowe \$294,354. The grant date values for the performance shares were determined using a Monte Carlo simulation and assumptions regarding the future performance of the Company's common stock and the stock of the S&P MidCap 400 Index® companies, including expected volatility, risk-free interest rates, correlation coefficients and dividend reinvestment. The grant date values of the performance share awards assuming the maximum number of performance shares would be earned at the end of the three year performance period based on the \$34.21 closing market price of the Company' common stock

**Pension Benefits Table** This table provides the actuarial present value of each named executive's accumulated benefit under the Company's Retirement and Supplemental Pension Plans.

The Retirement Plan provides benefits under a cash benefit accrual formula that was added to the plan in 1997. Under the formula, participants accumulate a cash balance benefit based upon a percentage of compensation allocation made annually to the participants' cash balance accounts. The allocation percentage ranges from 2% to 7% of total base salary and annual bonus (including amounts deferred under the Savings Plan and Section 125 of the Code) depending on each participant's years of service. The cash balance account is further credited with interest annually. The interest credit is based on the One Year Treasury Constant Maturities as published in the Federal Reserve Statistical Release over the one year period ending on the December 31st immediately preceding the applicable plan year. The interest rate for the plan year ending December 31, 2010 was 4%. The Retirement Plan was closed to new participants effective December 31, 2004. No employees hired on or after January 1, 2005 are eligible to participate in the Plan.

The benefits under the Supplemental Pension Plan are equal to the difference between the benefits that would have been payable under the Retirement Plan without regard to the compensation limitation imposed by the Code or the limitation on participation in the Retirement Plan that became effective on January 1, 2005 and the actual benefits payable under the Retirement Plan as so limited.

Benefits under the Retirement Plan are payable as a monthly annuity or in a lump sum payment. Vested benefits under the Supplement Pension Plan are payable only in the form of a monthly annuity. The benefits under the Retirement Plan become vested after the executive completes 5 years of vesting service, or if earlier, the date the executive terminates employment due to death or disability. The benefits under the Supplemental Plan become vested after the executive completes ten years of vesting service and retires at or after age 55, or if earlier, the date the executive terminates employment due to death or disability.

Edgar Filing: CARLISLE COMPANIES INC - Form DEF 14A

The Company's employment agreement with Mr. Roberts provides that Mr. Roberts will receive a monthly benefit under the Supplemental Pension Plan of \$25,703, expressed as a life annuity commencing on January 1, 2013. The benefit vests at the rate of 20% per year commencing June 21, 2008, or if earlier, the date the Company terminates Mr. Roberts' employment other than for gross or willful misconduct or Mr. Roberts terminates employment due to death, disability or retirement or for good reason, as defined in his employment agreement with the Company. The benefit will be

actuarially adjusted if it is paid in any form other than a life annuity or the benefit commencement date is before or after January 1, 2013.

**Review of Financial Statements and Other Matters with Independent Accountant**

The Audit Committee discussed with the Company's independent registered public accounting firm the audited financial statements and the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU Section 380), as may be modified or supplemented. The Audit Committee has received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees), as may be modified or supplemented, and has discussed with the independent accountants the independence of the Company's independent registered public accounting firm. In concluding that such firm is independent, the Audit Committee considered, among other factors, whether the non-audit services provided by such firm were compatible with its independence. See "Fees paid to Independent Registered Public Accounting Firm" on page 38.

**Recommendation that Financial Statements be Included in Annual Report**

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the last fiscal year for filing with the SEC.

**PROPOSAL TWO  
ADVISORY VOTE ON EXECUTIVE COMPENSATION**

We encourage you to review the complete description of the Company's executive compensation programs provided in the "Executive Officer Compensation Discussion and Analysis" Section of this Proxy Statement (pages 18 through 37).

The compensation program for the Company's named executive officers is based on the following guiding principles:

Link pay with Company performance, align the interests of the Company's executives and shareholders.

Reward performance that is consistent with key strategic and shareholder goals identified by the Board of Directors.

Balance financial and non-financial performance measures and, where appropriate, emphasize overall corporate, operating business and division performance.

Be transparent, simple to administer and easy to communicate to the Company's executives and shareholders.

Retain key executive talent.

The Compensation Discussion and Analysis provides a thorough description of how the Compensation Committee has designed and administered the executive compensation program to comply with these principles.

At the 2011 Annual Meeting, Company shareholders will have the opportunity to endorse or not endorse the compensation of the named executives through a non-binding vote (commonly known as a "say-on-pay" vote) on the following resolution:

**RESOLVED**, that the compensation of the named executives of the Company described in the Executive Officer Compensation Discussion and Analysis section of this Proxy Statement, including the disclosure tables and narrative discussion (pages 18 through 37), is hereby **APPROVED**.

Even though the result of the say-on-pay vote is non-binding, the Board of Directors values the opinions that shareholders express in their votes and will consider the outcome of the vote when making future executive compensation decisions.

The Board unanimously recommends a vote "**FOR**" the resolution.

**PROPOSAL THREE**  
**ADVISORY VOTE ON FREQUENCY OF SHAREHOLDER ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The Company will include a say-on-pay vote in the annual meeting proxy statement at least once every three years. At the 2011 Annual Meeting, Company shareholders will be asked to provide a non-binding vote on whether a say-on-pay vote should occur every one, two or three years. After careful consideration of the pros and cons with respect to each of the intervals, the Board of Directors has determined that a say-on-pay vote that occurs every three years is the most appropriate alternative for the Company, and therefore the Board recommends that you vote for a three-year frequency.

A substantial portion of the compensation of the named executives is based on the Company's performance over multi-year performance periods. A vote every three years more closely matches this long-term focus of the compensation program and will allow Company shareholders to evaluate whether the Company's compensation program is appropriately linked to the Company's long-term business plan and performance over more complete performance periods.

The three-year frequency will also provide the Board of Directors adequate time to implement compensation changes in response to the advisory vote on executive compensation. The majority of the compensation paid to the named executives is performance-based compensation that is earned under the Company's shareholder-approved Executive Incentive Program. Any changes in the Program are likely to require shareholder approval prior to implementation and for this reason any changes in the Program may not be fully implemented until the second year after the advisory vote on executive compensation. An annual advisory vote could result in shareholders' providing advisory votes more frequently than responses to the votes could be implemented.

Although the Board of Directors is recommending a say-on-pay vote every three years, Company shareholders, when voting on this proposal, will be asked to select from the following four choices for the frequency of the say-on-pay vote: every year, every two years, every three years, or to abstain from voting on the matter.

The option of every one year, two years or three years that receives the highest number of votes cast by shareholders will be the frequency for the advisory vote on executive compensation that has been selected by shareholders, and the Board of Directors will consider the outcome of the vote when deciding how often a say-on-pay vote will be requested from the Company's shareholders. Because this vote is advisory and not binding on the Board of Directors in any way, the Board may decide that it is

in the best interests of our shareholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option approved by our shareholders.

The Board unanimously recommends that an advisory vote on executive compensation be held **"EVERY THREE YEARS."**

**PROPOSAL FOUR  
TO RATIFY THE APPOINTMENT OF INDEPENDENT REGISTERED  
PUBLIC ACCOUNTING FIRM**

The Audit Committee has engaged E&Y as the Company's independent registered public accounting firm to audit the Company's financial statements and the effectiveness of the Company's internal controls over financial reporting for the year ending December 31, 2011. E&Y's engagement commenced on May 17, 2005, and E&Y has served as the Company's auditors for the years ended December 31, 2005 through 2010.

Although ratification of the Audit Committee's appointment of E&Y is not required by the Company's by-laws or otherwise, the Board is submitting the selection of E&Y to the shareholders for ratification as a matter of good corporate practice. If the selection is not ratified, the Audit Committee will consider whether it is appropriate to select another independent registered accounting firm. Even if the selection is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its shareholders.

One or more representatives of E&Y are expected to be present at the 2011 Annual Meeting and will be given an opportunity to make a statement, if they so desire, and to respond to appropriate questions of shareholders in attendance.

The Board unanimously recommends a vote **"FOR"** the ratification of the appointment of E&Y as the Company's independent registered public accounting firm. Proxies received by the Board will be so voted unless shareholders specify a contrary choice in their proxies.

**SHAREHOLDER PROPOSALS FOR PRESENTATION  
AT THE 2012 ANNUAL MEETING**

If a shareholder of the Company wishes to present a proposal for consideration for inclusion in the Proxy Statement for the 2012 Annual Meeting, the proposal must be sent by certified mail-return receipt requested and must be received at the executive offices of the Company, 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277, Attn: Secretary, no later than November 25, 2011. All proposals must conform to the rules and regulations of the Securities and Exchange Commission. The Securities and Exchange Commission has amended Rule 14a-4, which governs the use by the Company of discretionary voting authority with respect to other shareholder proposals. Securities and Exchange Commission Rule 14a-4(c)(1) provides that, if the proponent of a shareholder proposal fails to notify the Company at least forty-five (45) days prior to the month and day of mailing the prior year's proxy statement, the proxies of the Company's management would be permitted to use their discretionary authority at the Company's next annual meeting of shareholders if the proposal were raised at the meeting without any discussion of the matter in the proxy statement. For purposes of the Company's 2012 Annual Meeting of Shareholders, the deadline is February 8, 2012.

**VOTING BY PROXY AND CONFIRMATION OF BENEFICIAL OWNERSHIP**

To ensure that your Shares will be represented at the Annual Meeting, please follow the instructions shown on the Notice Regarding the Availability of Proxy Materials (or paper proxy card if

you requested one) whether or not you expect to attend the Annual Meeting. Shares represented by a valid proxy will be voted as specified.

Any shareholder may revoke a proxy by a later-dated proxy or by giving notice of revocation to the Company (addressed to the Company at 13925 Ballantyne Corporate Place, Suite 400, Charlotte, North Carolina 28277 Attention: Secretary) or by attending the Annual Meeting and voting in person.

The number of votes that each shareholder will be entitled to cast at the Annual Meeting will depend on when the Shares were acquired and whether or not there has been a change in beneficial ownership since the date of acquisition, with respect to each of such holder's Shares.

Shareholders whose Shares are held by brokers or banks or in nominee name are requested to confirm to the Company how many of the Shares they own as of March 16, 2011 were beneficially owned before March 16, 2007, entitling such shareholder to five votes per Share, and how many were acquired after March 15, 2007, entitling such shareholder to one vote per Share. If no confirmation of beneficial ownership is received from a shareholder prior to the Annual Meeting, it will be deemed by the Company that beneficial ownership of all such Shares was effected after March 15, 2007, and the shareholder will be entitled to one vote for each Share. If a shareholder provides incorrect information, he or she may provide correct information at any time prior to the voting of his or her Shares at the Annual Meeting.

This Proxy Statement and the form of Proxy Card are being furnished to shareholders of record on March 16, 2011 whose Shares on the records of the Company show the following:

(i) that such shareholder had beneficial ownership of such Shares before March 16, 2007, and there has been no change since that date, thus entitling such shareholder to five votes for each Share; or

(ii) that beneficial ownership of such Shares was effected after March 15, 2007, thus entitling such shareholder to one vote for each Share; or

(iii) that the dates on which beneficial ownership of such Shares were effected are such that such shareholder is entitled to five votes for some Shares and one vote for other Shares.

Printed on the Proxy Card for each individual shareholder of record is the number of Shares for which he or she is entitled to cast five votes each and/or one vote each, as the case may be, as shown on the records of the Company.

Shareholders of record are urged to review the number of Shares shown on their Proxy Cards in the five-vote and one-vote categories. If the number of Shares shown in a voting category is believed to be incorrect, the shareholder should notify the Company in writing of that fact and either enclose the notice along with the Proxy Card in the postage-paid, return envelope, or mail the notice directly to the Company at the address indicated above. The shareholder should identify the Shares improperly classified for voting purposes and provide information as to the date beneficial ownership was acquired. Any notification of improper classification of votes must be made at least three (3) business days prior to the Annual Meeting or the shareholder will be entitled at the Annual Meeting to the number of votes indicated on the records of the Company.

In certain cases record ownership may change but beneficial ownership for voting purposes does not change. The Restated Certificate of Incorporation of the Company states the exceptions where beneficial ownership is deemed not to have changed upon the transfer of Shares. Shareholders should consult the pertinent provision of the Restated Certificate of Incorporation attached as Exhibit B to this Proxy Statement for those exceptions.

By resolution duly adopted by the Board of Directors of the Company pursuant to subparagraph B(v) of Article Fourth of the Restated Certificate of Incorporation, the following

procedures have been adopted for use in determining the number of votes to which a shareholder is entitled.

(i) The Company may accept the written and signed statement of a shareholder to the effect that no change in beneficial ownership has occurred during the four years immediately preceding the date on which a determination is made of the shareholders of the Company who are entitled to vote or take any other action. Such statement may be abbreviated to state only the number of Shares as to which such shareholder is entitled to exercise five votes or one vote.

(ii) In the event the Vice President, Treasurer of the Company, in his or her sole discretion, taking into account the standards set forth in the Company's Restated Certificate of Incorporation, deems any such statement to be inadequate or for any reason deems it in the best interest of the Company to require further evidence of the absence of change of beneficial ownership during the four-year period preceding the record date, he or she may require such additional evidence and, until it is provided in form and substance satisfactory to him or her, a change in beneficial ownership during such period shall be deemed to have taken place.

(iii) Information supplementing that contemplated by paragraph (i) and additional evidence contemplated by paragraph (ii) may be provided by a shareholder at any time but must be furnished at least three business days prior to any meeting of shareholders at which such Shares are to be voted for any change to be effective at such meeting.

### **VOTING PROCEDURES**

The presence, in person or by proxy, of the owners of a majority of the votes entitled to be cast is necessary for a quorum at the Annual Meeting. Abstentions and broker Shares that are voted on any matter are included in determining the number of votes present or represented at the meeting. Broker shares that are not voted on any matter at the meeting are not included in determining whether a quorum is present.

Under New York Stock Exchange rules, the proposal to ratify the appointment of the independent registered public accounting firm is considered a "discretionary" proposal. This means that brokerage firms may vote in their discretion on the proposal on behalf of clients who have not furnished express voting instructions. The proposal to elect three (3) directors and the advisory votes related to executive compensation are "non-discretionary" proposals, which means that brokerage firms may not use their discretion to vote on any of those proposals without express voting instructions from their clients.

All Shares in the Company's Employee Incentive Savings Plan that have been allocated to the account of a participant for which the Trustee receives voting instructions will be voted in accordance with those instructions and all such Shares for which the Trustee does not receive voting instructions will not be voted.

### **OTHER MATTERS**

As of the date of this Proxy Statement, the Board of Directors of the Company knows of no other business which will be or is intended to be presented at the Annual Meeting. Should any further business come before the Annual Meeting or any adjourned meeting, it is the intention of the proxies named in the Proxy to vote according to their best judgment.

By Order of the Board of Directors  
Steven J. Ford,  
Secretary

Common Stock of Carlisle Companies Incorporated

## To All Banks, Brokers and Nominees:

Carlisle Companies Incorporated ( Carlisle ) shareholders who were holders of record on March 16, 2011 and who acquired Carlisle Common Stock before March 16, 2007, will be entitled to cast five votes per share at the Annual Meeting to be held on May 13, 2011. Those holders of record who acquired their shares after March 15, 2007 are, with certain exceptions, entitled to cast one vote per share on the Common Stock they own.

To enable Carlisle to tabulate the voting by beneficial owners of Common Stock held in your name, a special proxy has been devised for use in tabulating the number of shares entitled to five votes each and one vote each. On this card, the beneficial owner must confirm the numbers of five-vote shares and one-vote shares, respectively, he or she is entitled to vote, and by the same signature, gives instructions as to the voting of those shares. ALL UNINSTRUCTED SHARES WILL BE VOTED UNDER THE 10-DAY RULE. ALL SHARES WHERE BENEFICIAL OWNERSHIP IS NOT CONFIRMED, WHETHER INSTRUCTED OR NOT, WILL BE LISTED AS ONE-VOTE SHARES. THIS IS NOT TO BE REGARDED AS A NON-ROUTINE VOTE MERELY BECAUSE OF THE NATURE OF THE VOTING RIGHTS OF THE COMMON STOCK. The confirmation of beneficial ownership is as follows:

### VOTING CONFIRMATION

Please provide the number of shares beneficially owned for each category as of March 16, 2011.

\_\_\_\_\_ shares beneficially owned BEFORE March 16, 2007 entitled to five votes each.

\_\_\_\_\_ shares beneficially owned and acquired AFTER March 15, 2007 entitled to one vote each.

If no confirmation is provided, it will be deemed that beneficial ownership of all shares voted will be entitled to one vote each.

**You do not have to tabulate votes.** Only record the number of shares shown on the Voting Confirmation Section of the Proxy Card. If no shares are reported on the Proxy Card, record the shares for tabulation purposes as having been acquired **AFTER** March 15, 2007.

**If you are a broker, do not confirm shares.** Only the beneficial owner confirms shares in each voting category shown on the Proxy Card.

**If you are a bank, you may wish to follow your usual procedures and furnish the Proxy Card to the beneficial owner.** The beneficial owner will vote his beneficial ownership including the completion of the information required by the Voting Confirmation. The beneficial owner may return the Proxy Card either to you or to Carlisle Companies Incorporated c/o Computershare Investor Services, 7600 South Grant Street,

Burr Ridge, Illinois 60527.
