Executive Compensation

Our executive compensation program reflects a fundamental belief that rewards should be competitive, both in elements and amount, with the broad labor market in which we compete for executive talent and commensurate with the Company's and the individual executive's performance.

Pay for Performance Our total compensation for each individual provides reasonable upside potential for exceptional performance; as well as risk of no payment, with respect to incentive compensation, when performance objectives are not achieved. Our variable pay programs are designed as forward-looking incentives that reflect individual and corporate performance during the year under review.

Alignment with Stockholder Value Our LTI awards encourage share price improvement and a strong link to stockholder interests. Our compensation programs are designed and administered to maximize stockholder value.

Market Competitiveness Our overall compensation strategy recognizes that attraction and retention of key talent is critical to the attainment of our stated business goals and objectives and to the creation of value for our stockholders.

The mix of pay across base salary, short-term incentive and long-term incentive awards are most heavily weighted towards at-risk pay, aligning performance with stockholder value.

PROXY STATEMENT

GENERAL INFORMATION

Why am I receiving these materials?

The Board of Directors of Dynegy Inc., or the Board, has made these materials available to you over the internet, or has delivered printed versions of these materials to you by mail, in connection with the Board's solicitation of proxies for use at the 2015 Annual Meeting of Stockholders, or the Annual Meeting. The Annual Meeting is scheduled to be held on Wednesday, June 3, 2015 at 10:00 a.m., Central Time, via live webcast through the link www.virtualshareholdermeeting.com/DYN15. You will need the 12-digit control number provided on the Notice of Internet Availability of Proxy Materials or your proxy card (if applicable). This solicitation is for proxies for use at the Annual Meeting or at any reconvened meeting after an adjournment or postponement of the Annual Meeting.

What is included with these materials?

These materials include our proxy statement for the Annual Meeting and our 2014 Annual Report to Stockholders, or Annual Report, which includes our audited consolidated financial statements. If you received printed versions of these materials, a proxy card for the Annual Meeting is also included.

What items will be voted on at the Annual Meeting?

There are three items that will be voted on at the Annual Meeting:

1. The election of seven directors to serve until the 2016 Annual Meeting of Stockholders;
2. A proposal to approve, on an advisory basis, the compensation of Dynegy's named executive officers as described in this proxy statement; and
3. A proposal to ratify the appointment of Ernst & Young LLP as Dynegy's independent registered public accountants for the fiscal year ending December 31, 2015.

Additionally, if needed, the stockholders may act upon any other matters that may properly come before the meeting (including a proposal to adjourn the meeting to solicit additional proxies) or any reconvened meeting after an adjournment or postponement of the meeting.

What are the Board's voting recommendations?

The persons named as proxies were designated by the Board. Any proxy given pursuant to this solicitation and received prior to the Annual Meeting will be voted as specified in the proxy card. If you return a properly executed proxy card but do not mark any voting selections, then your proxy will be voted as follows in accordance with the recommendations of the Board:

Proposal 1 **FOR** the election of seven directors to the Board;

Proposal 2 **FOR** approval of the compensation of Dynegy's named executive officers described in this proxy statement; and

Proposal 3 **FOR** ratification of the appointment of Ernst & Young LLP as our independent registered public accountants.

Why did I receive a one-page notice in the mail regarding the internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to the rules adopted by the Securities and Exchange Commission, or SEC, we are providing electronic access to our proxy materials over the internet. Accordingly, we sent a Notice of Internet Availability of Proxy Materials, or Notice, to our stockholders of record and beneficial owners, which was first mailed on or about April 13, 2015. Instructions on how to access the proxy materials over the internet are included in the Notice.

Stockholders may also request via the internet to receive a printed set of the proxy materials at www.proxyvote.com, by sending an email to sendmaterial@proxyvote.com, or calling 1-800-579-1639. In addition, stockholders may request via the internet, telephone or by email to receive proxy materials in printed form on an ongoing basis.

Current and prospective investors can also access or order free copies of our Annual Report, proxy statement, Notice and other financial information through the Investor Relations section of our web site at www.dynegy.com, by calling 713-507-6400 or by writing to Investor Relations Department, Dynegy Inc., 601 Travis, Suite 1400, Houston, Texas 77002.

How can I get electronic access to the proxy materials?

The Notice provides you with instructions regarding how to:

View proxy materials for the Annual Meeting on the internet; and

Instruct us to send our future proxy materials to you electronically by email.

Choosing to receive your future proxy materials by email will save us the cost of printing and mailing documents to you and will reduce the impact of our Annual Meetings on the environment. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it. Internet/telephone voting for the Annual Meeting will close at 11:59 p.m., Eastern Time, on June 2, 2015.

Why did I only receive one set of materials when there is more than one stockholder at my address?

If two or more stockholders share one address, each such stockholder may not receive a separate copy of our Annual Report, proxy statement or Notice. Stockholders who do not receive a separate copy of our Annual Report, proxy statement or Notice and want to receive a separate copy may request to receive a separate copy of, or additional copies of, our Annual Report, proxy statement or Notice via the internet, email or telephone as outlined above. Stockholders who share an address and receive multiple copies of our Annual Report, proxy statement or Notice may also request to receive a single copy by following the instructions above.

What is the quorum requirement for the Annual Meeting?

With respect to each matter to be considered at the Annual Meeting, a majority of the outstanding shares of our common stock entitled to vote on each such matter, represented in person (through internet access) or by proxy, shall constitute a quorum for consideration of each such matter. Abstentions and broker non-votes shall be counted in determining the number of outstanding shares represented in person (through internet access) or by proxy for each matter.

Where is the Annual Meeting?

You are invited to attend the Annual Meeting online through the link www.virtualshareholdermeeting.com/DYN15. The 12-digit Control Number provided on your Notice or proxy card is necessary to access this site.

As of the record date, April 6, 2015, there were outstanding 128,139,664 shares of common stock.

What is the difference between holding shares as a stockholder of record and as a beneficial owner of shares held in street name?

Stockholder of Record. If your shares are registered in your name with our transfer agent, Computershare, you are considered the stockholder of record with respect to those shares, and the Notice was sent directly to you by us.

Beneficial Owner of Shares Held in Street Name. If your shares are held in an account at a brokerage firm, bank, broker dealer or other similar organization, then you are the beneficial owner of shares held in "street name," and the Notice was forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that organization on how to vote the shares held in your account.

If I am a stockholder of record of Dynegy's shares, how do I vote?

If you are a stockholder of record you may vote by proxy over the internet by following the instructions provided in the Notice, by telephone, or, if you received printed copies of the proxy materials, you may also vote by mail. You may also vote at the Annual Meeting through the link www.virtualshareholdermeeting.com/DYN15. The 12-digit Control Number provided on your Notice or proxy card is necessary to access this site. **Please vote as soon as possible.**

If I am a beneficial owner of shares held in street name, how do I vote?

If you are a beneficial owner of shares held in street name, please refer to the Notice, proxy card, or voting information form forwarded to you by your broker or other nominee to see what voting options are available to you. **Please vote as soon as possible.**

What happens if I do not give specific voting instructions?

Stockholder of Record. If you are a stockholder of record and you:

indicate when voting on the internet or by telephone that you wish to vote as recommended by our Board; or

if you sign and return a proxy card without giving specific voting instructions,

then the proxy holders will vote your shares in the manner recommended by our Board on Proposals 1-3 in this proxy statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the Annual Meeting.

Beneficial Owner of Shares Held in Street Name; "Broker Non-Votes." If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, under the rules of the New York Stock Exchange, or NYSE, the organization that holds your shares may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform our Inspector of Election that it does not have the authority to vote on this matter with respect to your shares. This is generally referred to as a "broker non-vote." When our Inspector of Election tabulates the votes for any particular matter, broker non-votes will be counted for purposes of determining whether a quorum is present for that matter, but will not otherwise be counted.

For example, please note that brokers may not vote your shares on the election of directors or the proposal regarding named executive officer compensation in the absence of your specific instructions as to how to vote. Please provide your broker with voting instructions as soon as possible so that your vote can be counted. We encourage you to provide voting instructions to the organization that holds your shares by carefully following the instructions provided in the Notice.

Which ballot measures are considered "routine" or "non-routine"?

Proposal 3 (Ratification of Appointment of Independent Registered Public Accountants) involves a matter that we believe will be considered routine.

Proposal 1 (Election of Directors) and Proposal 2 (Approval of Compensation of our Named Executive Officers) involve matters that we believe will be considered non-routine.

How are abstentions and broker non-votes treated?

For the purpose of determining whether a quorum is present, abstentions and broker non-votes shall be counted in determining the number of outstanding shares represented in person (through internet access) or by proxy for each matter.

For each "non-routine" proposal, including whether the stockholders have elected the seven director nominees, broker non-votes are not counted. **Please note that brokers may not vote your shares on the election of directors or the proposal regarding named executive officer compensation in the absence of your specific instructions as to how to vote. Please provide your broker with voting instructions as soon as possible so that your vote can be counted.** You cannot abstain in the election of directors you can only vote FOR the director nominees or WITHHOLD VOTES for such nominees.

For each proposal other than the election of directors an abstention will have the same effect as a vote AGAINST such proposal.

What is the voting requirement to approve each of the proposals?

The following table sets forth the voting requirement with respect to each of the proposals:

Proposal 1	Election of seven directors to serve until the 2016 Annual Meeting of Stockholders	<p>Seven persons have been nominated by the Board for election to serve as directors for one-year terms.</p> <p>The holders of our common stock are entitled to vote on the election of the directors. The directors are elected by a plurality of the shares of common stock represented in person (through internet access) or by proxy and entitled to vote on the election of directors, subject to our majority voting policy discussed below. This means that the seven individuals nominated for election to the Board who receive the most FOR votes among votes properly cast in person (through internet access) or by proxy will be elected. Each holder of our common stock is entitled to one vote for each share held and does not have cumulative voting rights.</p> <p>Only FOR or WITHHELD votes are counted in determining whether a plurality has been cast in favor of a director nominee. You cannot abstain in the election of directors and broker non-votes are not counted. A WITHHELD vote will have the same effect as a vote AGAINST the election of a director nominee under our majority voting policy, which is described below.</p> <p>Majority voting policy: In an uncontested election, any director nominee who receives a greater number of votes WITHHELD for his or her election than votes FOR such election must offer his or her resignation to the Board promptly following certification of the stockholder vote. The Corporate Governance and Nominating Committee, or Nominating Committee, is required to recommend to the Board whether such offered resignation should be accepted or rejected. The Board will determine whether to accept or reject the resignation offer and will promptly disclose its decision making process and decision regarding an offered resignation in a document furnished to or filed with the SEC. Please read our Amended and Restated Corporate Governance Guidelines posted in the "Corporate Governance" section of our web site at www.dynegy.com for more information regarding our majority voting policy.</p>

Proposal 2	Act upon a proposal to approve, on an advisory basis, the compensation of Dynegy's named executive officers as described in this proxy statement	The affirmative vote of a majority of the shares of common stock represented in person (through internet access) or by proxy at the meeting and entitled to vote is required to approve, on an advisory basis, the compensation of Dynegy's named executive officers. Each holder of our common stock is entitled to one vote for each share held. Abstentions will have the same effect as a vote AGAINST this proposal. Broker non-votes are not counted.
Proposal 3	Ratification of the appointment of Ernst & Young LLP as Dynegy's independent registered public accountants for the fiscal year ending December 31, 2015	The affirmative vote of a majority of the shares of common stock represented in person (through internet access) or by proxy at the meeting and entitled to vote is required to ratify the choice of independent registered public accountants. Each holder of our common stock is entitled to one vote for each share held. Abstentions will have the same effect as a vote AGAINST this proposal.

May I change my vote after I have voted?

You may revoke your proxy and change your vote at any time before the final vote at the Annual Meeting by:

Executing and submitting a revised proxy (including a telephone or internet vote, which must be received by 11:59 p.m., Eastern Time, on June 2, 2015);

Sending written notice of revocation to our Corporate Secretary at the address provided below (which must be received by 11:59 p.m., Eastern Time, on June 2, 2015); or

In the absence of a revocation, shares represented by proxies will be voted at the Annual Meeting.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within Dynegy or to third parties, except:

As necessary to meet applicable legal requirements;

To allow for the tabulation and certification of votes; and

To facilitate a proxy solicitation.

Who is paying the cost of this proxy solicitation?

We will bear the cost of soliciting proxies. Proxies may be solicited by mail or facsimile, or by our directors, officers or employees, without extra compensation, in person or by telephone. We have retained Morrow & Co., LLC to assist in the solicitation of proxies for a fee of approximately \$9,000 plus out-of-pocket expenses and telephone solicitation expenses. BOARD RISK OVERSIGHT

The Board has ultimate responsibility for protecting stockholder value. Among other things, the Board is responsible for understanding the risks to which we are exposed, approving management's strategy to manage these risks, establishing policies that monitor and manage defined risks and measuring management's performance against the strategy. The Board's oversight responsibility for managing risk is detailed in our Risk Policy Statement.

The Risk Policy Statement provides a structure around risk and defines the risks that we accept in the normal course of business. The Risk Policy Statement, in some instances, requires that separate policy documentation be in place including Interest Rate Risk and Investment Policy, Disclosure Controls and Procedures Policy, Risk Management and Insurance Policy, Credit Risk Policy, Investment Policy (Employee Benefit Plans), and Commodity Risk Policy. Although not mandated by the Risk Policy Statement, our Delegation of Authority policy and the Code of Business Conduct and Ethics are complementary and critical to the risk management process. Our Executive Management Team is responsible for managing the above risks and reports on such

matters to the applicable Board committees. Further, our Ethics and Compliance Office reports functionally to the Audit Committee Chairman and meets regularly with the Audit Committee. The Risk Policy Statement can be amended with the approval of our Audit Committee on behalf of the Board.

The Audit Committee oversees the risks associated with the integrity of our financial statements and our compliance with legal and regulatory requirements. In addition, the Audit Committee discusses policies with respect to risk assessment and risk management, including major financial risk exposure and the steps management has taken to monitor and control such exposures. The Audit Committee reviews with management, internal auditors, and external auditors the accounting policies, the system of internal control over financial reporting and the quality and appropriateness of disclosure and content in the financial statements or other external financial communications. The Audit Committee also performs oversight of the business ethics and compliance program, reviews the programs and policies designed to assure compliance with our Code of Business Conduct and Ethics and applicable laws and regulations and monitors the results of the compliance efforts.

The Compensation and Human Resources Committee, or Compensation Committee, oversees risks primarily associated with our ability to attract, motivate and retain quality talent, particularly executive talent, and disclosure of our executive compensation philosophies, strategies and activities. As part of our ongoing formal process for assessing and monitoring risk related to our compensation programs and for reviewing certain policies to ensure that the appropriate controls exist to mitigate any identified risk, the Compensation Committee conducted a risk assessment in 2015 to reaffirm that our short-term incentive, or STI, programs, including specifically the lack of separate plans or incentives for individual functions, do not encourage excessive risk-taking. This involved a review of a set of risk assessment considerations related to our STI and long-term incentive, or LTI, programs.

Following this review, the Compensation Committee concluded that our STI programs collectively foster cooperation and focus award opportunities on measures that are aligned with our business strategy and the interests of our stockholders and do not encourage excessive risk-taking and risk-taking behaviors.

The Nominating Committee oversees risks primarily associated with our ability to attract, motivate and retain quality directors, and our corporate governance programs and practices and our compliance therewith. Additionally, the Nominating Committee evaluates the performance of the Board, its committees and management annually and considers risk management effectiveness as part of their evaluation.

The Finance and Commercial Oversight Committee, or Finance Committee, oversees risks primarily with respect to oversight of our capital structure, financing and treasury matters and oversight of management's process for the identification, evaluation and mitigation of our financial and commercial related risks. Further, as part of their risk assessment responsibility, the Finance Committee oversees our commodity risk monitored by our risk control group and receives regular reporting regarding commodity risk management effectiveness.

The full Board oversees risks primarily associated with our commercial and operating performance and our environmental, health and safety performance. The full Board also receives quarterly updates from all Board committees, and they provide guidance to individual committee activities as appropriate.

BOARD LEADERSHIP STRUCTURE; SEPARATION OF POSITIONS OF CHAIRMAN AND CHIEF EXECUTIVE OFFICER

As discussed in our Corporate Governance Guidelines, the Board believes the position of Chairman should be held by a non-management director and not the Chief Executive Officer. Mr. Flexon, as President and Chief Executive Officer, is responsible for setting the strategic direction for the Company and the day-to-day leadership and performance of the Company, while Mr. Wood, as Chairman, provides overall leadership to the Board in its oversight function. As such, he serves as the presiding director of executive sessions of the non-management and independent directors.

STOCK OWNERSHIP GUIDELINES

We have stock ownership guidelines for directors, members of the executive management team and other officers. We believe that a significant ownership stake by directors and officers leads to a stronger alignment of interests between directors, officers and stockholders. These guidelines, which were developed with the assistance of an independent compensation consultant, support our corporate governance focus and provide further alignment of interests among our directors and executive officers and stockholders.

Directors

Each non-management director is expected to own a meaningful amount of Dynegy common stock; specifically, it is expected that within three years of joining the Board, a non-management director shall own at least the number of shares equivalent to three times their annual cash retainer. For purposes of this guideline: (1) each share of common stock owned on any date (a "measuring date") by a director shall be deemed to have a value equal to the greater of (a) the trading price of a share of the Company's common stock as of the date the applicable share was granted to the director or (b) the trading price of a share of the Company's common stock as of the measuring date; and (2) shares owned outright, phantom stock units, shares or units of restricted stock and shares subject to deferred compensation shall be counted as shares of common stock owned by the director (with the value thereof determined in accordance with clause (1) above).

Officers

The shares counted for purposes of our officers' common stock ownership guidelines include shares owned outright, unvested restricted stock units, or RSUs, stock options (vested, in-the-money), and other share based equivalents that we may use from time to time. The holding requirements are expressed as a multiple of base salary and vary by level, specifically for the Chief Executive Officer and Executive Vice President levels they are as follows:

Chief Executive Officer	5 × annual base salary
Executive Vice President	3 × annual base salary

Upon our emergence from bankruptcy on October 1, 2012 (the "Effective Date") and pursuant to the terms of our Plan of Reorganization, all outstanding equity awards of the Company as of the Effective Date were cancelled. As such, the stock ownership guidelines for our executives are subject to a mandatory five-year compliance period that started on the Effective Date, and executives are encouraged to accumulate one-fifth of their holding requirement during each year of the five-year period and may not sell any shares until executives have successfully met the holding requirement. The Nominating Committee will monitor each executive's progress toward the required holding requirement on an annual basis. At the end of the five-year period, if any executive fails to attain the required level of common stock ownership, action may be taken, in the discretion of the Nominating Committee considering all factors it deems relevant, including awarding annual incentive cash bonuses in the form of restricted shares or requiring an executive to refrain from disposing of any vested shares and shares realized from any option exercise.

CHARITABLE CONTRIBUTIONS

During 2014, we did not make any contributions to any charitable organization in which an independent director served as an executive officer.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers, directors and persons who own more than 10% of our equity securities to file reports of ownership and changes in ownership with the SEC and the

NYSE. Executive officers, directors and greater than 10% stockholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely upon a review of the copies of such forms furnished to us in 2014 and upon written representations that no Forms 5 were required, we believe that all persons subject to these reporting requirements filed the required reports on a timely basis.

REVIEW AND APPROVAL OF TRANSACTIONS WITH RELATED PERSONS

Our Board adopted a written policy relating to the approval of transactions with related parties. In general, for purposes of this policy, a related party transaction is a transaction to which we are a party, or a material amendment to any such transaction, and with respect to which a related party is directly, or to our knowledge, indirectly, a party. Under our policy, a "related party" is an executive officer, director or nominee for director of ours, a person known to us to be the beneficial owner of more than 5% of our voting securities, an immediate family member of an executive officer, director, nominee for director or 5% stockholder, and any entity owned or controlled by any of the foregoing individuals or in which any such individual serves as an executive officer or general partner or, together with any other such individuals, owns 10% or more of the equity interests of such an entity. Our policy requires the Audit Committee or, at the Board's discretion, a majority of directors disinterested from the transaction, to review and approve related party transactions. In reviewing and approving any related party transaction or material amendments to any such transaction, the Audit Committee must satisfy itself that it has been fully informed as to the related party's relationship and interest and as to the material facts of the transaction and must determine that the related party transaction is fair to us.

A copy of our related party transactions policy is available on our web site at

http://www.dynegy.com/downloads/Dynegy_Corporate_Governance_Related_Party_Transactions.pdf.

AFFIRMATIVE DETERMINATIONS REGARDING DIRECTOR INDEPENDENCE AND OTHER MATTERS

The Board previously determined that each of the following directors who served in 2014 is "independent" as such term is defined in the NYSE Listed Company Standards:

Pat Wood III
Hilary E. Ackermann
Paul M. Barbas
Richard L. Kuersteiner
Jeffrey S. Stein
John R. Sult

The Board has also determined that each member of the Audit Committee, the Compensation Committee and the Nominating Committee meets the independence requirements applicable to those committees prescribed by the NYSE and the SEC. The Board has further determined that more than one of the members of the Audit Committee, including its current Chairman, Mr. Sult, are "audit committee financial experts" as such term is defined in Item 407(d) of the SEC's Regulation S-K.

The Nominating Committee reviewed the answers to annual questionnaires completed by the directors and nominees as well as the above described legal standards for Board and committee member independence and the criteria applied to determine "audit committee financial expert" status. On the basis of this review, the Nominating Committee made its recommendation to the full Board and the Board made its independence and "audit committee financial expert" determinations after consideration of the Nominating Committee's recommendation and a review of the materials made available to the Nominating Committee.

DIRECTOR NOMINATION PROCESS AND QUALIFICATION REVIEW OF DIRECTOR NOMINEES***Process***

Our director nominees are approved by the Board after considering the recommendation of the Nominating Committee. A copy of the Nominating Committee's charter is available in the "Corporate Governance" section of our web site at www.dynegy.com.

Our Certificate of Incorporation provides that the number of our directors shall be fixed from time to time exclusively by our Board. The Board has fixed the number of our directors currently at seven, subject to adjustment by the Board in accordance with our Certificate of Incorporation.

The Nominating Committee reviews annually the composition of the Board as a whole and recommends, if necessary, measures to be taken so that the Board reflects the appropriate balance of knowledge, experience, skills, expertise and diversity required for the Board as a whole and contains at least the minimum number of independent directors required by applicable laws and regulations. The Nominating Committee is responsible for ensuring that the composition of the Board accurately reflects the needs of our business and, in furtherance of this goal, proposing the nomination of directors for purposes of obtaining the appropriate members and skills. The Nominating Committee identifies nominees in various ways. The committee considers the current directors that have expressed an interest in and that continue to satisfy the criteria for serving on the Board as set forth in our Corporate Governance Guidelines. Other nominees that may be proposed by current directors, members of management or by stockholders are also considered. From time to time, the committee engages a professional firm to identify and evaluate potential director nominees.

Qualifications

All director nominees, whether proposed by a stockholder or otherwise, are evaluated in accordance with the qualifications set forth in our Corporate Governance Guidelines. These guidelines require that directors possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of our stockholders at large. They must also have an inquisitive and objective perspective, practical wisdom, mature judgment and sufficient personal resources such that any director compensation to be received from the Company would not be sufficiently meaningful to impact their judgment in reviewing matters coming before the Board. Finally, they must be able to work compatibly with the other members of the Board and otherwise have the experience and skills necessary to enable them to serve as productive members of the Board. Directors also must be willing to devote sufficient time to carrying out their fiduciary duties and other responsibilities effectively and should be committed to serve on the Board for an extended period of time. For additional information, please read our Corporate Governance Guidelines.

In connection with the director nominations for the 2015 Annual Meeting, the Nominating Committee also considered the nominees' (1) experience in the energy industry and understanding of the energy and commodity markets, (2) experience in finance and commercial risk management, (3) publicly traded company and board experience, (4) knowledge in the areas of laws and regulations related to environmental, health, safety, regulatory and other key industry issues, (5) strategic planning skills, (6) knowledge of corporate governance issues coupled with an appreciation of their practical application, and (7) accounting expertise, including audit, internal controls and risk management.

Each nominee brings a strong and unique background and set of skills to the Board, giving the Board as a whole competence and experience in a wide variety of areas, including energy, wholesale power generation and marketing, commodities, risk management, strategic planning, legal, corporate governance and board service, executive management, regulatory and policy development, accounting and finance, operations, and economics. For information concerning each director's various qualifications, attributes, skills and experience of our director nominees considered important by the Board in determining that such nominee should serve as a director as well as each nominee's principal occupation, directorships and additional biographical information, please see "Proposal 1 Election of Directors Information on Director Nominees."

Diversity

The Board does not have a formal policy with respect to Board nominee diversity. In recommending proposed nominees to the full Board, the Nominating Committee is charged with building and maintaining a board that has an ideal mix of talent and experience to achieve our business objectives in the current environment. In particular, the Nominating Committee is focused on relevant subject matter expertise, depth of knowledge in key areas that are important to us, and diversity of thought, background, perspective and experience so as to facilitate robust debate and broad thinking on strategies and tactics pursued by us.

Future director nominations

For purposes of the 2016 Annual Meeting, the Nominating Committee will consider any director nominations from a stockholder received by the Corporate Secretary by the close of business on March 5, 2016, but not before the close of business on February 4, 2016. See "Future Stockholder Proposals" below for more information. Any such nomination must be accompanied in writing by all information relating to such person that is required under the federal securities laws, including such person's written consent to be named in the proxy statement as a nominee and to serve as a director if elected. The nominating stockholder must also submit its name and address, as well as that of the beneficial owner if applicable, and the number of shares of our common stock that are owned beneficially and of record by such stockholder and such beneficial owner. Finally, the nominating stockholder must discuss the nominee's qualifications to serve as a director as described in our Corporate Governance Guidelines.

PROPOSAL 1 ELECTION OF DIRECTORS

DIRECTORS

Seven directors are to be elected at the Annual Meeting by the holders of common stock to each serve a one-year term. The directors are elected by a plurality of the shares of common stock represented in person (through internet access) or by proxy and entitled to vote on the election of directors, subject to our majority voting policy discussed below. This means that the seven individuals nominated for election to the Board as directors who receive the most **FOR** votes among votes properly cast in person (through internet access) or by proxy will be elected. Only **FOR** or **WITHHELD** votes are counted in determining whether a plurality has been cast in favor of a director nominee. Under our Certificate of Incorporation, stockholders do not have cumulative voting rights. If you withhold authority to vote with respect to the election of some or all of the director nominees, your shares will not be voted with respect to those nominees indicated.

Under our majority voting policy, in an uncontested election, any director nominee who receives a greater number of votes **WITHHELD** for his or her election than votes **FOR** such election must offer his or her resignation to the Board promptly following certification of the stockholder vote.

Broker non-votes are not counted for purposes of election of directors. You cannot abstain in the election of directors.

Unless you withhold authority to vote or instruct otherwise, a properly executed proxy will be voted **FOR** the election of the nominees listed below as the proxies may determine. Although the Board does not contemplate that any of the nominees will be unable to serve, if such a situation arises prior to the Annual Meeting, the persons appointed as proxies will vote for the election of such other persons that may be nominated by the Board.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information as of April 6, 2015 regarding the beneficial ownership of our common stock by: (1) each of our current directors; (2) each of our current executive officers; (3) all of our directors and executive officers as a group; and (4) each person or entity we know to beneficially own more than 5% of our outstanding shares of common stock.

Beneficial ownership for the purposes of this table is determined in accordance with the rules and regulations of the SEC. Under such rules, beneficial ownership includes any shares as to which a person has sole or shared voting power or investment power and any shares which the person has the right to dispose or acquire within 60 days of April 6, 2015. Common stock subject to options and warrants, regardless of whether such arrangement is currently in the money, that are currently exercisable or exercisable within 60 days of April 6, 2015 are deemed to be outstanding and beneficially owned by the person holding the options or warrants, and common stock issuable upon vesting of RSUs that is vested or will vest within 60 days of April 6, 2015 is deemed to be outstanding and beneficially owned by the person holding the RSUs. These shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Percentage of beneficial ownership is based on 128,139,664 shares of common stock outstanding as of April 6, 2015. Except as disclosed in the footnotes to this table, we believe that each stockholder identified in the table possesses sole voting and investment power over all shares of common stock shown as beneficially owned by the stockholder.

BUSINESS HIGHLIGHTS AND PERFORMANCE

Dynegy's transformative performance in 2014 was driven by our talented and dedicated employees that executed our business strategy centered on capital allocation, customer focus and continuous improvement. As we entered the year, our focus was integrating the assets obtained from the Ameren Energy Resources acquisition and positioning us to pursue strategic opportunities to further grow the business. Consistent with our continuous improvement strategy we safely and reliably operated our Midwest and Eastern region assets during the Polar Vortex that impacted much of the country. As part of our capital allocation strategy, in the second half of 2014, we simultaneously announced two acquisitions of approximately 12,500 megawatts of coal and gas generation, from Duke Energy and Energy Capital Partners, which increased our generation capacity to nearly 26,000 megawatts. These transactions have transformed Dynegy into the third largest independent power producer with added scale in the structured markets of PJM and ISO NE. The high quality of these acquired assets, combined with their favorable locations and strong capacity factors are expected to result in significant accretive earnings and cash flows which may be used to further strengthen our balance sheet and liquidity position, make investments in existing assets, pursue additional growth opportunities and support other high value capital allocation opportunities. These transactions have been favorably received in the equity market as evidenced by our 2014 stock price increasing over 40%, significantly outperforming our peer group.

- (1) We define Adjusted EBITDA as EBITDA adjusted to exclude (i) gains or losses on the sale of certain assets, (ii) the impacts of mark-to-market changes on derivatives related to our generation portfolio, as well as interest rate swaps and warrants, (iii) the impact of impairment charges and certain other costs such as those associated with the acquisition of Ameren Energy Resources, (iv) income or expense on up front premiums received or paid for financial options in periods other than the strike periods and (v) income or losses attributable to noncontrolling interest.
- (2) We define Free Cash Flow as cash flow from operations less maintenance and environmental capital expenditures, the cash impact of the AER acquisition and debt refinance costs plus return on restricted cash. Free Cash Flow also includes receipts or payments related to interest rate swaps and excludes the impact of changes in collateral.

EXECUTIVE COMPENSATION PROGRAM OVERVIEW***Philosophy and Objectives of our Executive Compensation Programs***

The executive compensation program, administered by the Compensation Committee, is primarily designed to attract, motivate and retain a highly qualified Executive Management Team capable of effectively managing and growing our business. Our executive compensation program reflects a fundamental belief that rewards should be competitive, both in elements and amount, with the broad labor market in which we compete for executive talent and commensurate with the Company's and the individual executive's performance.

Pay for Performance Our total compensation for each individual provides reasonable upside potential for exceptional performance; as well as risk of no payment, with respect to incentive compensation, when performance objectives are not achieved. Our variable pay programs are designed as forward-looking incentives that reflect individual and corporate performance during the year under review.

Alignment with Stockholder Value Our LTI awards encourage share price improvement and a strong link to stockholder interests. Our compensation programs are designed and administered to maximize stockholder value.

Market Competitiveness Our overall compensation strategy recognizes that attraction and retention of key talent is critical to the attainment of our stated business goals and objectives and to the creation of value for our stockholders.

Elements of our Executive Compensation Program

In 2014, the Compensation Committee refined our executive compensation program as detailed below. The Compensation Committee and the Executive Management Team strive to promote a pay for performance culture. The executive compensation program was designed to incorporate three primary elements: base salary, STI, and LTI awards.

Element	Key Characteristics	Pay at risk
Base Salary	<p>Base Salaries reflect the Named Executive Officer's scope, experience, qualifications, and impact to the outcomes of the organization</p> <p>The Compensation Committee considers job responsibilities, budget for annual merit increases, external benchmark data, internal pay equity, and individual performance to determine the level of base salary for each Named Executive Officer</p>	No
Short-Term Incentive Awards	<p>STI awards are based on annual performance against specific identified financial, strategic, and operational goals and are designed to motivate Named Executive Officers to achieve short-term outcomes critical to our success and that provide sustainable long-term total return to our stockholders</p> <p>STI performance period is January 1 through December 31 of each year and are paid out on or before March 15 following the performance period</p> <p>The annual STI opportunity (percent of annual base salary) for each Named Executive Officer have remained unchanged since each was hired</p> <p>A funding gate must be achieved before any payout occurs</p> <p>Payout may range from zero to two times target</p>	Yes; payout based on achievement of pre-established company goals and individual performance factors
Long-Term Incentive Awards	LTI awards are structured to achieve a variety of objectives, including attracting and retaining executives, aligning	Yes; payout strongly linked to share price performance

Peer Group and Benchmarking

The Compensation Committee uses compensation benchmarking data to provide a competitive market context to its decisions regarding compensation for the Named Executive Officers. To assist the Compensation Committee with setting 2014 target compensation levels, Meridian prepared a benchmarking review to assess the competitiveness of each element of compensation for the Named Executive Officers, and to provide information regarding incentive plan designs and pay practices within the energy industry.

The Committee reviewed and discussed the benchmarking data, and used the data to inform its compensation decisions. The Committee believes the combination of these two data perspectives offers an appropriate and credible basis for benchmarking the compensation of the Named Executive Officers. The Committee will continue to evaluate this approach and available data sources, and make changes as appropriate.

Compensation data in the benchmarking review are based primarily on public disclosures of the compensation of executives among a selected group of peer companies, and are supplemented by information in surveys specific to the energy industry. The Compensation Committee believes the peer group companies are indicative of the competitive market for executive talent.

Selection of the peer companies presents certain challenges, due to the limited number of directly-comparable companies. Therefore, the Committee elected to include companies from three segments of the energy industry – independent power producers, electric utilities and multi-utilities (i.e., electric and gas) – that are comparable to Dynegy. Specific factors considered in selection of the peer group include:

Financial and Operational Metrics – assets, revenues, market capitalization, enterprise value;

Operational Scope – merchant generation capacity, industry segment, commercial, retail and commodity focus;

Market-Based Factors – labor market requirements (e.g., finance, operations, commercial), competition for executive talent, comparability of pay data; and

External stockholder and governance evaluations of Dynegy's pay levels and practices.

The Compensation Committee reviews the composition of the peer group annually and considers changes as warranted. For 2014, the peer group consisted of the following twelve companies, which is the same set of companies that comprised our peer group in 2013, or our selected peer group.

Peer Companies

AES Corporation	Entergy Corporation
Ameren Corporation	First Energy Corporation
Atlantic Power Corporation	NRG Energy Inc.
Calpine Corporation	PPL Corporation
DTE Energy Company	Public Service Enterprise Group Inc.
Edison International	TransAlta Corporation

Survey data used in the benchmarking review were from the Towers Watson 2014 CDB Energy Services Executive Compensation survey and the AonHewitt 2014 Energy Marketing and Trading survey, or the energy industry survey data. Please see the table in Annex A for a complete listing of the companies included in the energy industry survey data. Position matches are developed for each of the Named Executive Officers to positions with similar roles and responsibilities at both the peer companies and in the surveys.

2014 COMPENSATION

Base Salary

The Compensation Committee considers job responsibilities, external benchmark data, internal pay equity, and individual performance to determine the level of base salary for each Named Executive Officer. In early 2014, the Compensation Committee reviewed these factors and base salaries for the Named Executive Officers and approved increases as indicated below:

<i>Named Executive Officer</i>	<i>Base Salary as of December 2013</i>	<i>Base Salary as of December 2014</i>	<i>Percentage Increase from 2013</i>
Robert Flexon	\$900,000	\$1,000,000	11%
Clint Freeland	\$500,000	\$520,000	4%
Carolyn Burke	\$475,000	\$500,000	5%
Catherine Callaway	\$475,000	\$495,000	4%
Henry Jones	\$475,000	\$495,000	4%

The Compensation Committee recommended competitive increases for Mr. Freeland, Ms. Burke, Ms. Callaway, and Mr. Jones comparable to the peer market levels, job complexity, and individual performance. Mr. Flexon's salary increase was based on benchmark data from our selected peer group, the Company's performance, and his individual contribution to the organization's success. His base salary prior to the 2014 increase was positioned nearly 20% below the 50th percentile and 12% below the 25th percentile of the selected peer group. Given Mr. Flexon's performance and contributions, the Compensation Committee sought to bring Mr. Flexon's salary closer to competitive benchmark levels. As such, the Committee recommended, and the full Board approved, an adjustment that positioned his salary between the 25th percentile and median of the selected peer group.

Short-term Incentive Plan

The Dynegy Inc. Incentive Compensation Plan, or STI Plan, serves as a variable, at-risk mechanism to reward our Named Executive Officers and other eligible employees for the achievement of short-term performance objectives critical to our success. The STI Plan contains a number of components established to emphasize pay for performance by providing cash awards for the achievement of pre-determined levels of Company performance.

Performance-Based Bonus Pool

Annual bonus awards are paid from a performance-based bonus pool designed to fund bonus awards paid to our Named Executive Officers and other executives as determined through the STI Plan, and to allow for full tax deductibility of such bonuses. Each year, the Compensation Committee identifies executives covered under the bonus pool for that year, the performance-based formula used to fund the bonus pool, and the individual share of the bonus pool for each employee covered under the bonus pool.

To comply with Section 162(m) of the Internal Revenue Code, bonus awards that may be paid from the bonus pool are subject to the Compensation Committee's authority to reduce, but not increase, the amount of each covered executive's share of the bonus pool. The Compensation Committee may, in its sole discretion, increase or decrease individual bonus awards calculated under the STI Plan (as discussed below), provided that the resulting bonus award does not exceed the executive's individual share of the pool. Further, the exercise of negative discretion with respect to one covered executive may not result in an increase in the amount payable to another covered executive; and the sum of all covered executives' allocable shares of the pool may not exceed 100% of the total bonus pool.

In early 2014, the Compensation Committee established that the 2014 bonus pool will be funded in an amount equal to 5% of the Company's forecasted Adjusted EBITDA for the year. The Compensation Committee also identified the executives covered under the bonus pool, which included our Named Executive Officers, and assigned to the covered executives individual shares of the bonus pool. As discussed below, the design of the STI Plan provides each of our Named Executive Officers with the opportunity to earn up to a maximum of 200% of their individual bonus target, based on the Company's performance relative to pre-established performance components and levels of achievement. Provided that bonus award payouts to each executive covered under the pool does not exceed their individual share, the award will be fully-deductible.

How Bonus Awards are Determined

Once a minimum performance level is achieved, STI awards are determined through the following calculation.

Individual Bonus Targets. The STI target opportunity for each Named Executive Officer was set within their respective employment agreements upon hire and has remained unchanged. The Compensation Committee, in conjunction with the external compensation consultant, reviews the STI targets each year for competitive alignment. The Compensation Committee believes the target opportunities are appropriately positioned within the energy industry survey data and selected peer group. Current bonus targets for the Named Executive Officers, expressed as a percentage of base salary, are as follows:

<i>Named Executive Officer</i>	<i>Target Bonus (percent of base pay)</i>
Robert Flexon	100%
Clint Freeland	75%
Carolyn Burke	75%
Catherine Callaway	75%
Henry Jones	75%

STI Award Funding. Performance objectives for the STI program are approved annually by the Compensation Committee and Board. Each year the Compensation Committee establishes a minimum performance funding gate. If the funding gate metric is not achieved, no STI awards are paid to any employee, including the Named Executive Officers. The Compensation Committee established a funding gate for 2014 as Operating Cash Flow of \$25 million.

Individual funding for the STI awards is based on performance relative to Compensation Committee-approved Critical Success Factors and related performance metrics, which represent specific financial, strategic, operational and safety goals that are important indicators of our overall performance. The attainment of these goals directly relates to the achievement of sustainable long-term total returns for our stockholders. Each of the Critical Success Factors is weighted, and performance is measured against overall year-end performance to determine the overall funding of the STI program. In early 2014, the Board reviewed and the Compensation Committee approved the Critical Success Factors and associated objectives and metrics to be used in determining STI awards for the 2014 performance year, as follows:

Capital Allocation (weighted 50%)

Financial Performance
Financial Optimization
Strategic Growth

Customer Focus (weighted 25%)

Commercial
Retail
Regulatory

Continuous Improvement (weighted 25%)

Operations and Ops Support
PRIDE/Integration
Corporate Support

Individual Performance Adjustment. In addition to the formulaic calculation of overall Company results, individual performance adjustments are made to determine bonus awards under the STI Plan. The individual performance adjustment is designed to adjust for each Named Executive Officer's individual achievements for the respective performance year and may result in STI award payouts above or below actual funding percentage determined through the formulaic calculation.

2014 STI Results. In February 2015, the Compensation Committee determined that the 2014 funding gate of \$25 million in Operating Cash Flow had been achieved. The Compensation Committee also reviewed the

Company's performance relative to the 2014 Critical Success Factors and approved funding of the STI Plan at 122% of target, as summarized in the table below:

Long-term Incentive Awards

Our LTI awards focus on the attainment of long-term performance goals and objectives, which are deemed instrumental in creating long-term value for stockholders and long-term retention incentives for our executives. The Compensation Committee, in conjunction with Meridian reviews the LTI targets each year for competitive

alignment. The Compensation Committee also reviews industry trends related to the award mix and determines the appropriate mix of equity instruments considering benchmark data. While some within our select peer group have moved to a less-diverse mix of equity instruments, the Compensation Committee has strived to provide our Named Executive Officers with a balanced mix of LTI during each annual grant. The Compensation Committee increased the use of PSUs in 2014 but still believes that the use of stock options and RSUs provide incentives that are aligned with stockholder interest and provide the necessary retention incentives for our Named Executive Officers.

In February 2014, the Compensation Committee approved the following mix and grant of LTI awards (based on award values): 40% RSUs, 25% stock options, and 35% PSUs. The awards for Mr. Freeland, Ms. Burke, Ms. Callaway and Mr. Jones were recommended by Mr. Flexon and reviewed and approved by the Compensation Committee. All awards were within the targeted range of 100-200% of base salary. The award levels reflect the contributions each have made and Mr. Flexon's and the Compensation Committee's desire to both retain each Named Executive Officer and ensure continued alignment with long-term stockholders' interests. Mr. Flexon's award, which was recommended by the Compensation Committee and approved by the full Board, was within his targeted range of 200-400% of his salary. In determining the award level, the Committee took into account Mr. Flexon's efforts and contributions in leading the Company, successful execution on critical objectives and the importance of retaining him as the Company pursues strategic opportunities to further grow the business.

The table below illustrates the 2014 LTI award grant value for each of the Named Executive Officers.

<i>Named Executive Officer</i>	<i>Value of 2014</i>			
	<i>Long-term Incentive Award</i>	<i>Stock Option Value</i>	<i>Restricted Stock Unit Value</i>	<i>Performance Share Unit Target Value</i>
Robert Flexon	\$3,300,000	\$825,000	\$1,320,000	\$1,155,000
Clint Freeland	\$825,000	\$206,250	\$330,000	\$288,750
Carolyn Burke	\$800,000	\$200,000	\$320,000	\$280,000
Catherine Callaway	\$800,000	\$200,000	\$320,000	\$280,000
Henry Jones	\$800,000	\$200,000	\$320,000	\$280,000

Performance Share Units. PSUs are earned over a three-year performance period starting on January 1, 2014 based on TSR over that period relative to the performance of a selected group of energy industry peer-companies. The Compensation Committee selected TSR as the performance measurement since it directly aligns with the long-term interests of our stockholders. In addition, the Compensation Committee selected the peer companies because they are similar to the Company in terms of operations and business focus. Therefore, the peer companies provide an appropriate reference point against which to compare the Company's TSR. The number of PSUs granted to each Named Executive Officers was based on the PSU Target Value shown above divided by the closing stock price of our common stock on the day of grant. Each PSU corresponds in value to a single share of our common stock.

2014 TSR Peer Companies

AES Corporation	Edison International	NRG Energy Inc.
Ameren Corporation	Entergy Corporation	PPL Corporation
Calpine Corporation	Exelon	Public Service Enterprise Group Inc.
Dominion Resources	First Energy Corporation	Sempra Energy
DTE Energy Company	Nextera Energy Inc.	

Set forth below are the key provisions of PSUs granted to our Named Executive Officers in 2014:

Payout opportunity of 0-200% of target, intended to be settled in shares;

DYN 3-year Cumulative TSR percentile ranking calculated at the end of the performance period and applied to a pre-established payout scale to determine the number of earned/vested PSUs;

TSR calculated using and average stock price at the beginning and end of the performance period.

The 20-day average price calculation will be a period that is +/-10 days around the measurement dates.

If absolute TSR is negative, the PSU award will be capped at 100% of the target number of PSUs granted, regardless of relative TSR positioning.

<i>Percentile Rank Relative TSR</i>	<i>Payout % of Target (# of Shares)</i>
90th percentile or better	200%
75 th percentile	175%
50 th percentile	100%
25 th percentile	50%
<25 th percentile	0%

Restricted Stock Units. The number of RSUs granted to each Named Executive Officers was based on the RSU Value shown above divided by the closing stock price of our common stock on the day of grant. Each RSU corresponds in value to a single share of our common stock. RSU awards will vest in three equal annual installments starting on the first anniversary of the award's grant date. On each vesting date, the number of RSUs that vest will be settled and paid in a corresponding number of shares of our common stock.

Stock Options. In 2014, we granted stock options to each Named Executive Officer that allows for the purchase of a fixed number of shares of our common stock at a fixed price (i.e., exercise price) over a ten-year period. The exercise price is set at the closing price of a share of our common stock on the date of grant. The stock options vest in three equal annual installments starting on the first anniversary of the award's grant date. The number of stock options granted to each Named Executive Officers was based on the Stock Option Value shown above divided by the Black Scholes value of a single option determined on the day of grant.

2012 Long-Term Incentive Program-Cash. During 2014, final installment payments were paid to our executives for compensation earned as a result of the successful bankruptcy emergence on October 1, 2012. Shortly after the start of their employment in 2011 and continuing over the course of 2012, our executives worked to restore the Company's financial health by restructuring the organization's balance sheet. Additionally, executives were tasked with improving operating margins, while reducing fixed costs, and successfully operating and commercializing our assets. In connection with our financial restructuring, on January 5, 2012, the former compensation and human resources committee established the 2012 Long Term Incentive Program Cash, or the Cash Incentive Program, for our executives and certain other members of management. The Cash Incentive Program was intended to:

provide an incentive to remain employed by us during the ongoing restructuring program;

provide an incentive to assist us in successfully emerging from bankruptcy pursuant to the Plan of Reorganization; and

promote our long-term growth.

Edgar Filing: DYNEGY INC. - Form DEF 14A

Awards earned under the Cash Incentive Program were paid out in three installments, the first upon the Effective Date, the remaining on the second and third anniversaries of the Effective Date. The final installment payments were made on October 1, 2014. Additional information regarding these payments can be found on the Summary Compensation Table.

Retirement Benefit Plans

Our Named Executive Officers, similar to all employees, participate in our two qualified retirement plans: the Dynegy Inc. 401(k) Plan and the Dynegy Inc. Retirement Plan. The Dynegy 401(k) Plan provides for a dollar-for-dollar match for each dollar contributed (on a pre-tax basis) up to 5% of salary (with such elective contributions capped at \$17,500 for 2014). Our matching contributions to the Dynegy 401(k) Plan vest at a rate of 50% per year of service.

The Dynegy Inc. Retirement Plan provides a monthly benefit at retirement. The amount of the retirement benefit is based, in part, on amounts contributed by the Company to each participant's retirement account. The contribution rate is equal to 6% of a participant's salary (with such salary capped at \$225,000 for plan purposes for 2014).

Our Named Executive Officers, who are all fully vested in the 401(k) and Retirement Plans, do not participate in any supplemental executive retirement plans.

Executive Perquisites

On an annual basis, the Compensation Committee reviews executive perquisites. For 2014, each Named Executive Officer is eligible to receive an annual reimbursement for reasonable costs incurred for individual tax and financial planning advice up to \$10,000. The total value of perquisites for each of our Named Executive Officers represents less than 1% of their total compensation in 2014.

Employment Agreements

In 2011, the company entered into employment agreements with Mr. Flexon, Mr. Freeland, Ms. Burke, and Ms. Callaway. This was important in order for the company to attract talented and qualified executives. In 2013, Mr. Jones entered into a similar agreement upon his employment. These employment agreements were originally set to expire on December 31, 2014 but the Committee elected to allow them to extend, per the terms of the individual agreements, for an additional term through December 31, 2015.

Severance and Change in Control

We have entered into arrangements and maintain plans under which specified payments and benefits would be provided to the Named Executive Officers in connection with a change in control. The Dynegy Inc. Executive Change in Control Severance Pay Plan, as amended, or Change in Control Plan, provides for certain severance benefits payable in the event of an involuntary termination in connection with a change in control (i.e., "double trigger"). Also, certain LTI award agreements provide for accelerated vesting of outstanding equity-based awards in the event of a change in control. We believe these arrangements are important competitive benefits that assist in the attraction and retention of critical talent. Please read "Executive Compensation Potential Payments Upon Termination or Change in Control" for further details on our change in control plans.

We also maintain the Dynegy Inc. Executive Severance Pay Plan, as amended, or Executive Severance Pay Plan, that provides for payment of certain severance benefits in the event of a termination not in connection with a change in control. We believe the Executive Severance Pay Plan is an important competitive benefit that assists in the attraction and retention of critical talent. For details regarding the Executive Severance Pay Plan, please read "Executive Compensation Potential Payments Upon Termination or Change in Control Severance-Eligible Terminations."

GOVERNANCE OF OUR EXECUTIVE COMPENSATION PRACTICES**Role of Compensation Committee**

The Compensation Committee has overall responsibility for reviewing and approving the principal terms of any employment, change of control, severance, or other like agreement between the Company and its executive

officers. The Compensation Committee established the overall compensation strategy and reviews such strategy at least annually for alignment with our business strategy and with similar programs offered by our competitors to ensure compensation arrangements are designed to provide incentives that are consistent with our stakeholders of the Company but do not encourage senior executives to take excessive risks that threaten the value of the Company.

Role of Compensation Consultant

As set forth in its charter, the Compensation Committee has the authority to retain or obtain the advice of a compensation consultant, and shall be directly responsible for the appointment, compensation and oversight of the work of the consultant. The Committee utilized the services of Meridian in 2014 to provide information, analyses, and advice regarding executive compensation matters

Stock Ownership Guidelines

We have established Stock Ownership Guidelines for officers to provide further alignment of interests among our executive officers and our stockholders. These guidelines are mandatory for all members of the executive management team and other officers. Executives are required to achieve ownership levels within five years of hire or appointment. For those executives in place at bankruptcy emergence on October 1, 2012, the five year ramp up period was reset to the emergence date. Individuals holding the following titles are included in this group: Chief Executive Officer and President, Executive Vice President, Senior Vice President and Vice President. As of December 31, 2014 each of the Named Executive Officers has met their required stockownership guidelines.

The shares counted for purposes of the stock ownership guidelines include shares owned outright, unvested restricted shares, vested stock options (in-the-money), and other share-based equivalents that may be used by Dynegy from time to time. The guidelines are expressed as a multiple of base salary and vary by level. Targets for the Named Executive Officers are as follows:

Chief Executive Officer	5 × annual base salary
Executive Vice President	3 × annual base salary

Risk Analysis

The Compensation Committee annually conducts an incentive risk assessment to ensure the structure and design of our Compensation programs are not reasonably likely to result in excessive risk taking that could have a material adverse impact on the company.

Say on Pay

At our annual meeting of stockholders held in May 2014, we received a favorable result on our Say on Pay proposal, with 95.4% of our stockholders represented in person (through internet access) or by proxy voting to approve the compensation of our Named Executive Officers. In advance of the annual meeting, members of the management team also proactively reached out to a number of our largest institutional stockholders to provide review highlights our executive compensation program. These discussions proved informative and helped to ensure that our philosophy, programs and actions were consistent with our efforts to be aligned with long-term stockholder interests. The Compensation Committee believes that our stockholder outreach efforts and the Say on Pay result provide a strong indication that a significant majority of our stockholders are satisfied with our executive compensation policies and decisions, and that our executive compensation program effectively aligns the interests of the Named Executive Officers with the interests of our stockholders. The Compensation Committee will continue to consider the outcomes of our Say on Pay votes when making future compensation decisions.

Potential Impact of Restatements and Ability to Claw Back Compensation Awards

The Compensation Committee has a mechanism to address any restatements, if they occur, that may impact our key financial metrics and our financial performance. The Compensation Committee will take action, as it determines to be appropriate, with respect to bonuses or other incentive or equity compensation awards to the extent such specified performance targets were not achieved in light of a restatement, which could include seeking to recover amounts paid. We believe this mechanism allows for remedial action to be taken if executive compensation is awarded for achievement of financial performance that is later determined not to have been achieved and further aligns our Named Executive Officers' interests with those of our stockholders.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for individual compensation paid to the Chief Executive Officer and the other four highest compensated executive officers to the extent the compensation exceeds \$1 million in any year. Performance-based compensation paid pursuant to a stockholder-approved incentive plan is not subject to the Section 162(m) limitations if certain requirements are met. As part of its role, the Compensation Committee reviews and considers the financial reporting and income tax deductibility of the compensation of our executive officers. Our policy is to utilize available tax deductions whenever appropriate and consistent with our compensation philosophy and objectives. However, the Compensation Committee retains the discretion to provide compensation to our executive officers that may not be fully deductible.

COMPENSATION AND HUMAN RESOURCES COMMITTEE REPORT

Our executive compensation program is administered and reviewed by the Compensation Committee, which consists of Messrs. Barbas (Chairman), Kuersteiner and Stein, all of whom are independent directors as such term is defined in the NYSE and SEC Rules. The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

This report is submitted by the members of the Compensation Committee of the Board as of March 2, 2015:

Paul M. Barbas, Chairman
Richard L. Kuersteiner
Jeffrey S. Stein

(1)

Mr. Jones was not included as a Named Executive Officer for 2012.

(2)

Amounts include salary earned for a full 12 months. Actual salary earned in any calendar year may vary from the annual base salary due to timing of pay cycles and time of service.

(3)

Amounts shown for 2012, 2013 and 2014 under Bonus, except for Mr. Jones, include amounts paid in 2012, 2013 and 2014 under the Cash Incentive Program. The Named Executive Officers received one-third of the total amount upon the Effective Date (October 2012) and the first and second anniversary dates. For Mr. Jones, the amount for 2013 includes a cash sign-on bonus received upon commencement of employment.

(4)

The amounts shown under "Stock Awards" for 2012, 2013 and 2014 reflect the aggregate grant date fair value for RSUs and, in 2013 and 2014, PSUs (using the Monte Carlo valuation model) calculated in accordance with FASB ASC Topic 718. The amounts shown under "Option/SAR Awards" for 2012, 2013 and 2014 reflect the aggregate grant date fair value for options (using the Black Scholes valuation model) calculated in accordance with FASB ASC Topic 718. Please read the discussion of the assumptions used in such valuation in Notes 16 and 17 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014.

For 2012, RSUs and stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year beginning on October 29, 2013. For 2013, RSUs and stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year beginning on March 18, 2014. For 2014, RSUs and stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year beginning on March 3, 2015. The PSUs for 2013 and 2014 require performance goals to be attained over a three-year period following the granting of the opportunity for any actual award to be earned. For the grant date fair value of the PSUs, the value reported in the table is based on the probable outcome of the performance conditions as of the grant date using the Monte Carlo valuation model. Based on the share price at grant and assuming the maximum market and financial performance conditions are achieved, the maximum value of the PSUs granted in fiscal year 2013, payable following completion of the 2013-2015 performance period, are: Mr. Flexon \$1,500,022, Mr. Freeland \$500,023, Ms. Burke \$375,005, Ms. Callaway \$400,046 and Mr. Jones \$1,100,017. The amounts shown represent the awards that could be earned by the Named Executive Officers under the STI Plan for 2014. Based upon Mr. Flexon's employment agreement, target is set at 100% of base salary and target is set at 75% of base salary for Messrs. Freeland and Jones and Meses. Burke and Callaway based upon their respective employment agreements. The actual payouts to eligible executives under the STI Plan were determined in March 2015 and are shown in the Summary Compensation Table under "Non-Equity Incentive Plan Compensation."

In March 2014, PSUs were granted under the 2012 Long Term Incentive Plan. The PSUs require performance goals to be attained over a three-year period following the granting of the opportunity for any actual award to be earned. For the grant date fair value of the PSUs, the value reported in the table is based on the probable outcome of the performance conditions as of the grant date, March 3, 2014, using the Monte Carlo valuation model.

- (3) The amounts shown under "All Other Stock Awards" for the Named Executive Officers reflect awards in the form of RSUs granted under the 2012 Long Term Incentive Plan. Each RSU represents a contingent right to receive one share of common stock. The RSUs have a three-year ratable vesting schedule, with 1/3 of each award vesting each year beginning on March 3, 2015.
- (4) The amounts shown under "All Other Option/SAR Awards" reflect the number of shares of common stock underlying stock option awards granted to the Named Executive Officers under the 2012 Long Term Incentive Plan. The stock options have a three-year ratable vesting schedule, with 1/3 of each award vesting each year beginning on March 3, 2015.
- (5) The amounts shown under "Grant Date Fair Value of Stock and Option Awards" reflect the grant date fair value for the RSUs, PSUs (using the Monte Carlo valuation model) and stock options (using the Black Scholes valuation model) computed in accordance with FASB ASC Topic 718. Please read the discussion of the assumptions used in such valuation in Notes 16 and 17 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014.

OUTSTANDING EQUITY AWARDS AT 2014 FISCAL YEAR-END

Upon our emergence from bankruptcy and pursuant to the Plan of Reorganization, all outstanding equity awards of the Company as of the Effective Date were cancelled. The following table sets forth certain information regarding unexercised option awards and unvested stock awards granted to each Named Executive Officer following emergence from bankruptcy that were outstanding as of December 31, 2014. The table does not include information regarding equity based awards related to 2014 performance that were or may be granted to the Named Executive Officers in 2015. Dynegy's allocations to the Retirement Plan for the PRB component of that plan vest at a rate of 33%, 67% and 100% after completion of each year of service over three years. Our allocations to the Restoration Pension Plan vested at the same rate as under the PRB component of the Retirement Plan. Effective January 1, 2012, participation in the Restoration Pension Plan was frozen, and benefit accruals were suspended.

Our Named Executive Officers are eligible for qualified pension benefits under the Retirement Plan. The pension benefit is based on the PRB portion of the Retirement Plan, which provides a defined benefit that grows each year at a variable rate (30-year Treasury rate). This benefit, which was introduced in 2001, provides an annual contribution of 6% of each eligible employee's, including each Named Executive Officer's, salary, capped at \$260,000 for 2014. Our Named Executive Officers were eligible in 2011 to participate in the Restoration Pension Plan, which is an unfunded, nonqualified plan designed to provide an allocation or benefit to certain employees that are highly compensated and whose company pension contributions are limited under certain Internal Revenue Service, or IRS, requirements for qualified plans. Under the Restoration Pension Plan the allocations or benefits were intended to supplement or make up for what affected employees would have received under the Retirement Plan but for the IRS limitations. The participation in the Restoration Pension

Plan was frozen, effective for periods on and after January 1, 2012, and benefit accruals have also been suspended.

The present values of accumulated benefits payable to each of the Named Executive Officers under the Retirement Plan and Restoration Pension Plan were determined using assumptions consistent with those used in Note 17 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2014.

Furthermore, Mr. Jones is eligible to receive additional annual award grants pursuant to our LTI programs and he participates in our other employee benefit plans and programs. Mr. Jones is entitled to participate in the Executive Severance Pay Plan and the Change in Control Plan; provided that, to the extent he is eligible to receive severance payable under the Executive Severance Pay Plan, the amount payable to Mr. Jones is increased by an amount equal to two times the current target award as in effect immediately prior to the date of the termination. Voluntary Resignation and Termination for Cause

Except as otherwise described under "Severance Eligible Terminations" and "Change in Control," our Named Executive Officers are not entitled to payments or benefits in connection with a voluntary resignation or termination for cause, other than payments for amounts due before such termination. Under our company policy applicable to all employees, a Named Executive Officer terminated under such circumstances would be entitled to vacation pay accrued up to the month of termination. A Named Executive Officer would be able to exercise any options vested before the date of termination upon termination for cause and for a 90-day period after the date of termination upon a voluntary resignation, or through the end of the option term, if less. Vested options that were not exercised before the date of termination, in the case of termination for cause, or before the end of the 90-day period, or end of the option term if less, in the case of voluntary resignation, unvested options, RSUs and PSUs would all be forfeited as a result of termination in accordance with the applicable award agreement.

Severance Eligible Terminations

Any outstanding stock options, RSUs, phantom stock units, PSUs and other equity based awards previously granted to our executives will vest based upon the applicable LTI award agreement.

In addition, pursuant to our Executive Severance Pay Plan, our executives are entitled to payment of severance benefits if their employment is terminated due to a reduction in work force, a position elimination or an office closing, or an involuntary termination without cause or upon a "good reason" termination. A good reason termination is defined as a voluntary resignation following a material reduction in base salary. Severance benefits under the Executive Severance Pay Plan, which are payable in a lump sum, include:

severance pay equal to one month of base pay for each full, completed year of service with us and a pro-rated amount for each partial year of service, subject to the following requirements:

for the Chief Executive Officer, 24 months of base pay;

for any Executive Vice President, 12 months of base pay;

for any Senior Vice President, minimum nine months and a maximum of 12 months of base pay; and

for any Vice President or Managing Director, minimum six months and a maximum of 12 months of base pay;

continued participation in our group health care plan that provides medical and dental coverage for a period of time equal to the number of months of base pay such executive receives under the Executive Severance Pay Plan, provided the executive continues to pay premiums at active employee rates, with such coverage ending immediately upon the executive obtaining new employment and eligibility for similar coverage; and

outplacement assistance benefits, as determined by the plan administrator, for a period of time equal to the minimum number of months of base pay such executive is entitled to receive under the Executive Severance Pay Plan (but in any event not beyond the end of the second calendar year following the calendar year in which the executive terminated employment), with such benefits paid directly to the outplacement assistance provider and not to the executive in a lump sum.

The foregoing benefits may be subject to the following material conditions or obligations:

execution and performance of a confidentiality and nondisparagement agreement; and

execution and performance of a release and waiver of liability agreement with respect to his or her employment and termination.

Change in Control

In the event of a change in control or Corporate Change, the RSUs and option awards granted under the 2012 Long Term Incentive Plan require a double trigger, both the occurrence of a Corporate Change and an involuntary termination, to vest. For PSUs, upon a Corporate Change, the Name Executive Officers would be entitled to receive payment as prescribed by the award agreement regardless of whether the Named Executive Officer is terminated.

In addition, each of our executives is entitled to severance benefits if, no earlier than 60 days before and in connection with or within two years after a "change in control," such executive is subject to an "involuntary termination," as defined in the Change in Control Plan. In general, such an executive experiences an "involuntary termination" if such executive:

is terminated without cause; or

terminates for "good reason," generally meaning he or she suffers a material reduction in authority or duties, a material reduction in total compensation or relocation to a location 50 miles or more from the previous principal employment location.

Severance benefits under the Change in Control Plan include:

a lump sum cash payment equal to:

for the Chief Executive Officer or Chief Operating Officer, 2.99 times such executive's "compensation," which is defined in the Change in Control Plan as the sum of any covered executive's (1) annual base salary based on the greatest rate in effect (a) immediately prior to the "change in control," (b) sixty days prior to the date of such executive's involuntary termination or (c) as of the date of such executive's involuntary termination and (2) target cash bonus under our STI Plan, for (a) the fiscal year in which the "change in control" occurs, (b) any fiscal year beginning after the fiscal year in which the "change in control" occurs and before the fiscal year in which such executive's involuntary termination occurs or (c) the fiscal year in which such executive's involuntary termination occurs, whichever is greatest;

for any Executive Vice President (other than the Chief Operating Officer), 2.50 times such executive's compensation;

for any Senior Vice President, 2.00 times such executive's compensation;

for any Vice President, 1.50 times such executive's compensation; or

for any Managing Director, 1.00 times such executive's compensation;

a lump sum cash payment equal to the aggregate target annual incentive compensation under any applicable STI Plan for the fiscal year during which such involuntary termination of employment occurs (determined as if all applicable goals and targets had been satisfied in full), pro-rated to the date of such executive's termination, plus the aggregate target annual incentive compensation under any applicable STI Plan earned but not yet paid (if any) for the fiscal year prior to the fiscal year during which the involuntary termination occurs;

all medical, dental, vision and life insurance benefits maintained for such executive as of the termination date, contingent upon continued payment of premiums by such executive at a cost that is no greater than the lesser of the cost of such coverage paid by such executive immediately prior to the date of the (a) executive's involuntary termination or (b) the "change in control" for a period equal to (1) 36 months from termination for the Chief Executive Officer, (2) 30 months from termination for any Executive Vice President, (3) 24 months from termination for any Senior Vice President, (4) 18 months from termination for any Vice President, and (5) 12 months from termination for any Managing Director;

benefits resulting from a change of control would be cut back if doing so would result in greater after-tax proceeds to an executive absent such cut back "Best Net provision". Otherwise, the executive would receive payment of all change of control related benefits and would be responsible for paying any excise tax incurred under Internal Revenue Code section 280(G); and

outplacement assistance benefits at least equivalent to those that would have been provided to the Named Executive Officer before the "change in control" (but in any event not beyond the end of the second calendar year following the calendar year in which the executive terminated employment), with such benefits paid directly to the outplacement assistance provider and not to the executive in a lump sum.

The foregoing benefits may be subject to the following material conditions or obligations:

execution and performance of a confidentiality and nondisparagement agreement;

execution and performance of a non-solicitation agreement for a period of 24 months; and

execution and performance of a release and waiver of liability agreement with respect to his or her employment and termination.

Retirement

As of December 31, 2014, none of our Named Executive Officers have reached eligibility age for payments upon retirement.

Disability or Death

All of our employees may elect to participate in our disability policy, and any participating employee would be entitled to long-term disability benefits under such disability policy if he or she paid any required premiums. All of our Named Executive Officers have elected to participate in our disability policy. Under such policy, all employees at the level of Vice President or above are entitled to 12 months of the monthly base salary that is in effect on the date that the employee is determined to be disabled. Additionally, employees at the level of Vice President or above are also provided with additional basic life insurance coverage as supplemental life insurance equal to 12 months of monthly base salary.

Further, in the event of death, the medical, dental and vision benefits that we maintained for the deceased employee at the level of Vice President or above and his or her family would be maintained for 12 months after the date of death, provided that such employee's covered dependents

Edgar Filing: DYNEGY INC. - Form DEF 14A

continue to pay the required premiums. Such employee's Dynegy 401(k) Plan distributions and Retirement Plan benefits would generally be paid to his or her beneficiary. Health benefits in the event of disability vary depending on the type of disability.

In addition, each Named Executive Officer's equity based awards would vest upon death or disability in accordance with the applicable LTI award agreement.

Potential Payments and Benefits

The following tables describe the estimated potential payments we would have been required to make to our Named Executive Officers under the severance and change in control plans, as applicable, upon termination of their employment under various circumstances. The following assumptions and general principles apply with respect to these tables:

The amounts shown assume the applicable termination event took place on December 31, 2014, the last business day of the year; accordingly, values associated with LTI awards made in March 2015 are not included;

The price per share used to calculate the value of the equity based payments is the closing price of our common stock on December 31, 2014 of \$30.35;

The amounts shown as "Base salary" under the "Change in Control" column are the lump sum cash payments described as annual compensation under " Change in Control";

The amounts shown for "Medical, dental and vision benefits" under the "Severance eligible terminations" column assume that the applicable Named Executive Officer continued to participate in our group health care for the maximum period of time permitted for such Named Executive Officer under the Executive Severance Pay Plan; and

The amounts shown for "Accidental death & dismemberment insurance proceeds" under the "Disability" column represent the maximum payment available under the applicable accidental death and disability policy. The actual value could be lower depending on the type of disability. Under the "Death" column is the maximum payment if death occurred from an accident covered under the applicable accidental death and disability policy.

(1)

The Named Executive Officers would be able to exercise any options vested before the day of termination for cause or for a 90-day period after the date of termination upon a voluntary resignation, or through the end of the option term, if less.

(2)

The Named Executive Officers are eligible to participate in the Executive Severance Pay Plan and the Change in Control Plan. Under the Executive Severance Pay Plan and/or per the terms of the respective Employment Agreements, in the event of an Involuntary Termination occurs each is eligible to receive two times his or her base salary and two times his or her target annual bonus under the applicable STI Plan. The Executive Severance Pay Plan also provides for medical, dental, and vision benefits at the active employee rates for 24 months. Under the Change in Control Plan, in the event of an Involuntary Termination, Mr. Flexon is eligible to receive a severance payment equal to 2.99 times his annual base salary plus annual target bonus under the STI Plan and 36 months of medical, dental, and vision benefits coverage at the active employee rates. Messrs. Freeland and Jones and Mses. Burke and Callaway are eligible to receive a severance payment

equal to 2.50 times their annual base salary plus annual target bonus under the STI Plan and 30 months of medical, dental, and vision benefits coverage at the active employee rates. In the event of a change in control and subsequent Involuntary Termination, the Named Executive Officers will also have accelerated vesting treatment on the Incremental non-qualified pension. Outplacement services are made available under both plans for all eligible employees.

(3)

Under the PSU award agreement, the Name Executive Officers would be entitled to a pro-rata vesting of the PSUs at the "target" level of the award for an involuntary termination without cause. Upon a Corporate Change, each Name Executive Officer would be entitled to receive payment as prescribed by the award agreement regardless of whether he or she is terminated. For purposes of this table, the value for a corporate change was calculated using the "target" level.

PROPOSAL 2 APPROVAL OF COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

A proposal will be presented at the meeting asking stockholders to approve on an advisory basis the compensation of Dynegy's Named Executive Officers as described in this proxy statement. Please see our "Compensation Discussion and Analysis" section beginning on page 36 for a discussion of our compensation program for our Named Executive Officers.

Consistent with the stated philosophy and objectives of our executive compensation programs as described in our Compensation Discussion and Analysis, the structure of our compensation program reflects the following key objectives:

Pay for Performance Our total compensation for each individual provides reasonable upside potential for exceptional performance; as well as risk of no payment, with respect to incentive compensation, when performance objectives are not achieved. Our variable pay programs are designed as forward-looking incentives that reflect individual and corporate performance during the year under review.

Alignment with Stockholder Value Our LTI awards encourage share price improvement and a strong link to stockholder interests. Our compensation programs are designed and administered to maximize stockholder value.

Market Competitiveness Our overall compensation strategy recognizes that attraction and retention of key talent is critical to the attainment of our stated business goals and objectives and to the creation of value for our stockholders.

Key Features of our Executive Compensation Program

We Do...

ii

Pay for Performance via a compensation structure that includes a competitive base salary and performance based STI and LTI awards that are aligned with stockholder interests

ii

Provide LTI that include Performance Share Units based on Total Stockholder Return ("TSR") and cap these awards when TSR outperforms the peer group but is negative

ii

Have change in control cash severance benefits that are subject to "double trigger" provisions which require both the occurrence of a change in control event and involuntary termination

ii

Enforce stock ownership requirements for all officers that require attainment of ownership levels before equity transactions can occur

ii

We Do Not...

×

Offer supplemental executive retirement plan benefits

×

Engage in option backdating or re-pricing

×

Permit hedging or pledging of Company Stock by Directors or Officers

×

Provide excise tax assistance upon a change in control

×

Provide any material perquisites, other than reimbursement for financial planning and tax advice

×

Encourage excessive risk or inappropriate risk taking though our incentive programs; our plans focus on aligning our compensation policies with the long-term interests of our stockholders

Have an independent compensation consultant that reports directly to the Compensation Committee

×

Guarantee bonuses

ii

Conduct an annual incentive risk assessment to ensure that the structure and design of our compensation programs are not reasonably likely to result in excessive risk-taking that could have a material adverse impact on the Company

ii

Have a claw-back mechanism in place for incentive awards

ii

Establish a performance-based bonus pool

The advisory vote on following resolution is not intended to address any specific element of compensation; rather, it relates to the overall compensation of the Company's Named Executive Officers, as well as the philosophy, policies and practices described in this proxy statement. You have the opportunity to vote for, against or abstain from voting on the following resolution relating to executive compensation:

THEREFORE, BE IT RESOLVED, that the stockholders of Dynegy approve, on an advisory basis, the compensation of Dynegy's Named Executive Officers listed in the 2014 Summary Compensation Table included in the proxy statement for this meeting, as such compensation is disclosed pursuant to Item 402 of Regulation S-K in this proxy statement under the section entitled "Executive Compensation," including the compensation tables and other narrative executive compensation disclosures set forth under that section, as well as the section in the proxy statement entitled "Compensation Discussion and Analysis."

This advisory vote on the compensation of Dynegy's Named Executive Officers gives stockholders another mechanism to convey their views about Dynegy's compensation programs and policies. Although your vote on executive compensation is not binding on us, the Board values the views of stockholders. The Board and Compensation Committee will review the results of the vote and take them into consideration in addressing future compensation policies and decisions.

The Board unanimously recommends that stockholders vote **FOR** the proposal to approve the compensation of our Named Executive Officers.

AUDIT COMMITTEE PRE-APPROVAL POLICY

The Audit Committee is responsible for appointing, setting compensation for and overseeing the work of our independent registered public accountants. The Audit Committee has established a policy requiring its pre-approval of all audit and permissible non-audit services to be provided by our independent registered public accountants in order to assure that the provision of such services does not impair the auditors' independence. The policy, as amended, provides for the general pre-approval of specific types of services, gives detailed guidance to management as to the specific audit, audit related and tax services that are eligible for general pre-approval and provides specific fee limits for each such service type on an annual basis. The policy requires specific pre-approval of the annual audit engagement, statutory or subsidiary audits and all permissible non-audit services for which no general pre-approval exists. For both audit and non-audit pre-approvals, the Audit Committee considers whether such services are consistent with applicable law and SEC rules and regulations concerning auditor independence.

The Audit Committee Charter provides that the Audit Committee may delegate to the Audit Committee Chairman the authority to grant pre-approvals only if such approvals are presented to the Audit Committee at a subsequent meeting. The policy prohibits the Audit Committee from delegating to management such committee's responsibility to pre-approve services performed by the independent registered public accountants. When we engage the independent registered public accountants to perform services based on a general pre-approval, our Chief Financial Officer or, in his absence, our Chief Accounting Officer is required to, as soon thereafter as reasonably practicable, notify the chairman of such engagement and provide a detailed description of the type and scope of services, proposed staffing, a budget of the proposed fees for such services and a general timetable for the performance of such services.

Requests for pre-approval of services must be detailed as to the particular services proposed to be provided and are to be submitted by our Chief Financial Officer or, in his or her absence, our Chief Accounting Officer. Generally, each such request must include a joint statement to the effect that neither the submitting officer nor the independent registered public accountants believe the proposed engagement would impair the auditors' independence. In addition, each such request generally must include a detailed description of the type and scope of services, proposed staffing, a budget of the proposed fees for such services and a general timetable for the performance of such services.

AUDIT COMMITTEE REPORT

Our Board has established an Audit Committee of independent directors, which operates under a written charter adopted by the Board on October 30, 2012. The charter is reviewed annually and is available in the "Corporate Governance" section of our web site at http://www.dynegy.com/downloads/Dynegy_Audit_Committee_Charter.pdf. The Audit Committee held 8 meetings in 2014 and currently is comprised of three members: Messrs. Sult (Chair) and Barbas and Ms. Ackermann. The Board has determined that each member of the Audit Committee possesses the necessary level of financial literacy required to enable him or her to serve effectively as an Audit Committee member, and all members qualify as Audit Committee Financial Experts, including our designated Financial Expert, Mr. Sult, our Audit Committee Chair. For more information regarding each member of the Audit Committee's industry background and credentials, please read "Proposal 1 Election of Directors Information on Director Nominees." above.

Our management is responsible for establishing a system of internal controls, assessing such controls and for preparing our consolidated financial statements in accordance with generally accepted accounting principles. Our independent registered public accountants are responsible for auditing our consolidated financial statements and the effectiveness of our internal control over financial reporting in accordance with standards

of the Public Company Accounting Oversight Board (United States) (the "PCAOB") and issuing their reports based on those audits.

Under the Audit Committee's charter, the primary function of the Audit Committee is to assist the Board in fulfilling its oversight responsibilities as to, among other duties: (1) the integrity of our financial statements, including a review of the application of accounting principles, significant financial reporting issues and judgments in connection with the preparation of the financial statements, and the effects of regulatory and accounting initiatives on the financial statements; (2) recommending to the Board the filing of our audited financial statements; (3) our disclosure controls and procedures and internal control over financial reporting, including review of any material issues as to the adequacy of internal control over financial reporting; (4) our compliance with legal and regulatory requirements and Code of Business Conduct and Ethics; (5) the performance of our internal audit function; (6) the performance of our business ethics and compliance function; (7) enterprise risk management process, policies and procedures; and (8) the evaluation, appointment and retention of our independent registered public accountants including, the selection of the lead partner, and a review of the firm's qualifications, services, independence, fees and performance. In connection with the evaluation, appointment and retention of the independent registered public accountants, each year the Audit Committee reviews and evaluates the qualifications, performance and independence of the independent registered public accountants and lead partner, including taking into account the opinions of management and our internal auditor. In doing so, the Audit Committee considers a number of factors including, but not limited to: quality of services provided; technical expertise and knowledge of the industry; effective communication; objectivity; and independence. Based on this evaluation, the Audit Committee has retained Ernst & Young LLP, or EY, as our independent registered public accountants for 2015. EY has been our independent registered public accountants since 2007.

The Audit Committee and Board believe that it is in the best interests of the Company and its stockholders to continue retention of EY to serve as our independent registered public accountants. Although the Audit Committee has the sole authority to appoint the independent registered public accountants, the Audit Committee will continue to recommend that the Board request the stockholders, at the Annual Meeting, to ratify the appointment of the independent registered public accountants.

Further, the Audit Committee reviews in advance and pre-approves, explicitly, audit and permissible non-audit services provided to us by our independent registered public accountants. For more information regarding the Audit Committee's approval procedures, please read "Audit Committee Pre-Approval Policy" above. The Audit Committee is also directly responsible for reviewing with the independent registered public accountants the plans and scope of the audit engagement and providing an open venue of communication between our management, the internal audit function, ethics and compliance function, the independent registered public accountants and the Board. The Audit Committee meets with the Internal Audit department, Ethics and Compliance Office and EY, with and without management present, to discuss the results of their examinations and evaluations.

In connection with the preparation of the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2014:

The Audit Committee reviewed and discussed the audited financial statements and the effectiveness of our internal control over financial reporting and associated audit with the independent registered public accountants and management.

The Audit Committee discussed with the independent registered public accountants the matters required to be discussed by Auditing Standard No. 16 "Communications with Audit Committees" as adopted by the PCAOB. In general, these auditing standards require the independent registered public accountants to communicate to the Audit Committee certain matters that are incidental to the audit, such as any initiation of, or changes to, significant accounting policies, management judgments, accounting estimates and audit adjustments; disagreements with management; the independent registered public accountants' judgment about the quality of our accounting principles; significant audit risks identified and any changes from planned

audit strategy; the use of specialists on the audit team; and issues for which the independent registered public accountants have consulted outside the engagement team.

The Audit Committee has received the written disclosures and the letter from the independent registered public accountants required by applicable requirements of the PCAOB regarding the independent registered public accountants' communication with the Audit Committee concerning independence, and has discussed the independent registered public accountants' independence with the independent registered public accountants. The Audit Committee also considered whether the independent registered public accountants' provision of non-audit services to us was compatible with maintaining their independence.

Based on the review and discussions noted above, the Audit Committee recommended to the Board that the audited consolidated financial statements for the year ended December 31, 2014 be included in our Annual Report on Form 10-K filed with the SEC.

This report is submitted by the members of the Audit Committee of the Board as of February 19, 2015:

John R. Sult, Chairman
Hilary E. Ackermann
Paul M. Barbas

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

PRINCIPAL ACCOUNTANT FEES AND SERVICES

EY served as our independent registered public accountants for the years ending December 31, 2014 and 2013. Set forth below is a summary of the fees we paid EY for professional services rendered for the years ended December 31, 2014 and 2013.

<i>(in thousands)</i>	2014	2013
Audit Fees(1)	\$2,620	\$2,330
Audit Related Fees(2)	566	250
Tax Fees	68	
All Other Fees		
Total Fees	\$3,254	\$2,580

(1) Audit fees relate to the audit of Dynegy's financial statements and the effectiveness of our internal control over financial reporting for the years ended December 31, 2014 and 2013.

(2) Audit related fees include fees of \$50,000 and \$0 in 2014 and 2013, respectively, for the audits of separate financial statements of certain of our consolidated subsidiaries. Additionally, 2014 and 2013 fees included \$516,000 and \$250,000, respectively, for services rendered related to Dynegy Inc. registration statements.

All of the fees and services described above under the captions "Audit Fees," "Audit Related Fees," "Tax Fees" and "All Other Fees" were approved under the Audit Committee's pre-approval policy and pursuant to Section 202 of SOX. None of the services described above were provided pursuant to the de minimus exception provided for in applicable SEC rules and regulations.

PROPOSAL 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit Committee has appointed the firm of Ernst & Young LLP, or EY, as our independent registered public accountants for us and our subsidiaries for the fiscal year ending December 31, 2015, and the Board recommends that the stockholders ratify that appointment. Ratification requires the affirmative vote of a majority of the shares of common stock represented in person (through internet access) or by proxy at the meeting and entitled to vote on the matter. Unless you withhold authority to vote or instruct otherwise, a properly executed proxy will be voted **FOR** ratification of such appointment.

The Audit Committee and Board believe that it is in the best interests of the Company and its stockholders to continue retention of EY to serve as our independent registered public accountants. Although there is no requirement that we submit the appointment of independent registered public accountants to stockholders for ratification or that the appointed auditors be terminated if the ratification fails, the Audit Committee will consider the appointment of other independent registered public accountants if the stockholders choose not to ratify the appointment of EY and may retain that firm or another without re-submitting the matter to our stockholders. Even if the appointment is ratified, the Audit Committee may terminate the appointment of EY as our independent registered public accountants without the approval of the stockholders whenever the Audit Committee deems such termination appropriate.

Representatives of EY are expected to attend the Annual Meeting and will be available to respond to appropriate questions. The representatives will also have the opportunity to make a statement if they wish to do so.

The Board unanimously recommends that stockholders vote **FOR** ratification of the appointment of Ernst & Young LLP as our independent registered public accountants for the fiscal year ending December 31, 2015.

FUTURE STOCKHOLDER PROPOSALS

If a stockholder wants us to include a proposal in our proxy statement and form of proxy for presentation at the 2016 Annual Meeting of stockholders, under the rules of the SEC, the proposal must be received by our Corporate Secretary at the address indicated on the first page of this proxy statement on or before the close of business on Tuesday, December 15, 2015 (the 120th day before the one-year anniversary date of the release of these proxy materials to stockholders).

If a stockholder wishes to introduce a director nominee or other item of business for consideration at an Annual Meeting of stockholders, the stockholder must comply with the procedures specified in our Bylaws, as permitted by the rules of the SEC. These procedures require that director nominations or other items of business to be introduced at an Annual Meeting of stockholders must be submitted in writing to our Corporate Secretary at the address indicated on the first page of this proxy statement. Under our Bylaws, we must receive notice of a stockholder's intention to introduce a nomination or proposed item of business at our 2016 Annual Meeting of Stockholders:

By the close of business on the 120th day before the 2016 Annual Meeting but not before the close of business on the 90th day before the 2016 Annual Meeting or the tenth day following the public announcement of the 2016 Annual Meeting date, if the 2016 Annual Meeting is held more than 30 days before or more than 60 days after June 3, 2016 (the one-year anniversary date of the 2015 Annual Meeting).

Assuming our 2016 Annual Meeting of stockholders is held on a schedule similar to that of the 2015 Annual Meeting, we must receive notice of your intention to introduce a nomination or another item of business at that meeting by the dates specified in the first bullet point above. Our Bylaws specify the information that must be contained in a stockholder's notice for director nominees or an item of business to be introduced at an Annual Meeting of stockholders. Please read our Bylaws, which are available free of charge through the SEC's web site at www.sec.gov and through our web site at www.dynegy.com, for additional information regarding stockholder proposals.
