Item 1.01 Entry into a Material Definitive Agreement

On October 19, 2005 Idaho General Mines exercised its option to lease the Mount Hope Molybdenum Project in central Nevada. Exercise of the Option allows IGMI to proceed for the next 30 years with permitting, developing and mining the deposit and for so long thereafter as IGMI maintains an active operation. Pursuant to the terms of the lease, the underlying total royalty on production, less certain deductions, is 4 percent for a molybdenum price up to \$12 per pound, 5 percent for a molybdenum price up to \$15 per pound, and 6 percent for a molybdenum price above \$15 per pound. IGMI is subject to certain periodic payments totaling \$1,550,000 to be paid as per a schedule between October 2005 and October 2010. IGMI has a best efforts obligation, by the third anniversary of the lease, to pay Mt Hope Mines, Inc a recoverable periodic payment of 3 percent of the estimated capital cost of the project. This obligation to pay 3 percent of the construction capital is subject to certain extension provisions through October 2013. Minimum royalty payment after the mine is in production is \$.27/lb of molybdenum if producing and \$500,000 per year if the plant is idled.

Certain technical corrections to the lease are being made. As soon as these corrections have been made, anticipated to be within two weeks, the lease will be filed as an exhibit to an amended Form 8K.
