REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
XSUNX, INC.
Aliso Viejo, CA

We have reviewed the accompanying balance sheet of XSUNX, INC. (a development stage company) as of December 31, 2006, and the related statements of operations, stockholders' equity (deficit), and cash flows for the three-month period then ended. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). The review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY AND FORWARD LOOKING STATEMENTS

In addition to statements of historical fact, this Form 10-Q contains forward-looking statements. The presentation of future aspects of XsunX, Inc. ("XsunX", the "Company" or "issuer") found in these statements is subject to a number of risks and uncertainties that could cause actual results to differ materially from those reflected in such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. Without limiting the generality of the foregoing, words such as "may", "will", "expect", "believe", "anticipate", "intend", or "could" or the negative variations thereof or comparable terminology are intended to identify forward-looking statements.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause XsunX's actual results to be materially different from any future results expressed or implied by XsunX in those statements. Important facts that could prevent XsunX from achieving any stated goals include, but are not limited to, the following:

- (a) volatility or decline of the Company's stock price;
- (b) potential fluctuation in quarterly results;
- (c) failure of the Company to earn revenues or profits;
- (d) inadequate capital to continue or expand its business, inability to raise additional capital or financing to implement its business plans;
- (e) failure to commercialize its technology or to make sales;
- (f) rapid and significant changes in markets;

Edgar Filing: XSUNX INC - Form 10-Q

- (g) litigation with or legal claims and allegations by outside parties;
- (h) insufficient revenues to cover operating costs.

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services, the Company may not be able to attract or retain qualified executives and technology personnel, the Company's products and services may become obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of warrants and stock options, and other risks inherent in the Company's businesses.

The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the factors described in other documents the Company files from time to time with the Securities and Exchange Commission, including the Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K filed by the Company and any Current Reports on Form 8-K filed by the Company.

CURRENT OVERVIEW

XsunX develops and markets proprietary Thin Film Photovoltaic (TFPV) solar cell designs and core solar cell manufacturing systems, enabling licensees to manufacture TFPV solar devices on various substrates. We function as a strategic solar technology partner, supplying the advanced thin film solar cell manufacturing know-how and capabilities that will enable original equipment manufacturers ("OEM") customers to address the expanding market for thin film solar products.

The product of the Company's development efforts is intended to deliver two aspects of deliverable technologies in the form of an integrated solution providing, a) commercially scalable manufactured processes and equipment designed for the specific manufacture of the Company's thin film solar technologies, and, b) proprietary thin film solar cell designs that address new application opportunities in the growing field of Building Integrated Photovoltaics.

XsunX is positioning itself as a leading provider of TFPV device designs and core manufacturing products to an expanding global group of existing and new entrant solar product manufacturers. The company is working to establish an environment in which XsunX products and technologies are viewed as advanced core support infrastructure to manufacturers increasing their opportunities for success in servicing their regional solar markets. XsunX does not sell thin film solar materials directly to the consumer market.

Management believes the summary data presented herein is a fair presentation of the Company's results of operations for the periods presented. Due to the Company's change in primary business focus in October 2003 and new business opportunities these historical results may not necessarily be indicative of results to be expected for any future period. As such, future results of the Company may differ significantly from previous periods.

Edgar Filing: XSUNX INC - Form 10-Q

Results of Operations for the Three-Month Period Ended December 31, 2006 Compared to the Same Period in 2005

The Company generated no revenues in the period ended December 31, 2006 as compared to \$8,000 for the same period in 2005.

The Company incurred operating expenses totaling \$616,523 for the three months ending December 31, 2006 compared to \$1,566,356 for the same period in 2005. Primary sources for the decrease to operating expense of \$949,833 include: Warrant Option Expenses decreased by \$951,250 to zero as compared to \$951,250 in the same period in 2005. Loan Fees decreased by \$213,000 to zero from \$213,000 during the same period in 2005. Research and Development expenses decreased by \$64,658 to \$209,945 as compared to \$274,603 for the same period in 2005, Legal and Accounting increased \$43,668 to \$77,418 as compared to \$33,750 for the same period in 2005. Salaries increased by \$96,386 to 140,615 from \$44,229 in the same period in 2005 as a result of the addition by the Company of three management level employees. The decrease in overall expenses was primarily attributable to the absence of a one-time expense of \$951,250 associated with the grant of in-the-money warrants from the sale by the Company of secured convertible debentures in the period ended December 31, 2005 not present in the three month period ending December 31, 2006. The \$616,523 operating expenses includes non-cash charges of \$27,047 for depreciation.

The net loss for the three months ending December 31, 2006 was (\$583,680) as compared to a net loss of (\$1,595,533) for the same period 2005. The decrease of \$1,011,853 includes (i) prior period one-time expenditures of \$951,250 associated with Warrant Option Expenses, (ii) a prior period one-time expenditure of \$213,000 associated with loan fees, partially offset by (iii) Salaries increased by \$96,386 and Legal and Accounting increased by 43,668

The Company incurred net losses of (\$583,680) and (\$1,595,533) in the three-month period ended December 31, 2006 and 2005 respectively. The associated net loss per share was nominal in the three-month period ended December 31, 2006 and 2005. The Company anticipates the trend of losses to continue in future quarters until the Company can recognize sales of significance of which there is no assurance.

Liquidity and Capital Resources

The Company had cash at December 31, 2006 of \$3,692,139 and prepaid expenses in the amount of \$349,117 as compared to cash of \$4,305,105 and prepaid expenses in the amount of \$394,117 as of September 30, 2006. The Company had a net working capital of \$3,478,830 as compared to a working capital of \$4,065,523 at September 30, 2006. Cash flow used in operating activities during the three-month period ended, December 31, 2006, was (\$584,606) as compared to using (\$1,848,956) for the same period 2005. The decrease of cash used in operations of \$1,264,350 included (i) the decrease in net loss resulting primarily from prior period one-time expenditures of \$951,250 associated with Warrant Option Expenses not incurred in the current period, (ii) a prior period one-time expenditure of \$213,000 associated with loan fees not incurred in the current period. This decrease in Net Loss was partially offset by (i) Salary increases of \$96,386 and Legal and Accounting increases of 43,668. The current period ending December 31, 2006 also included a non-cash depreciation expense of \$27,047 while there was no depreciation expense in the period ending December 31, 2005.

For the three-months ended December 31, 2006, the Company's capital needs have been met from the use of working capital provided by the proceeds of (i) the issuance of Common Stock for Debenture conversion and; (ii) the issuance

Edgar Filing: XSUNX INC - Form 10-Q

of Common Stock for warrant conversion which both occurred in the fiscal year ended September 30, 2006.

We had, at December 31, 2006, cash and cash equivalents of \$4,041,256 and net working capital of \$3,478,830.

DEVELOPMENT STAGE COMPANY

The Company is in the development stage and as of the period ending December 31, 2006, did not have any significant revenues. We have begun marketing efforts and anticipate the sale of licenses in the 2007 period however the cash flow requirements associated with the transition to revenue recognition may exceed cash generated from operations in the current and future periods. We may seek to obtain additional financing from equity and/or debt placements. As such, the Company's ability to secure additional financing on a timely basis is critical to its ability to stay in business and to pursue planned operational activities.

While we have been able to raise capital in a series of equity and debt offerings in the past there can be no assurances that we will be able to obtain such additional financing, on terms acceptable to us and at the times required, or at all.

Irrespective of whether the Company's cash assets prove to be inadequate to meet the Company's operational needs, the Company might seek to compensate providers of services by issuances of stock in lieu of cash.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not have any market risk sensitive instruments. Since all operations are in U.S. dollar denominated accounts, we do not have foreign currency risk. Our operating costs are reported in U.S. dollars.

The Company does not invest in term financial products or instruments or derivatives involving risk other than money market accounts, which fluctuate with interest rates at market.

Item 4. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chairman have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report and, based on this evaluation, have concluded that the disclosure controls and procedures are effective.

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's first fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

On April 19th 2006, a service provider Office Radio Network filed a lawsuit in the District Court in Colorado alleging that it has been damaged due to refusal to allow it to sell its shares under Rule 144. The parties entered

Edgar Filing: XSUNX INC - Form 10-Q

into a settlement in December 2006 providing for the return of 150,000 shares of the 300,000 shares issued to Office Radio Network, and the provisioning by Office Radio Network of an additional six months of service to the Company.

The Company is currently not aware of nor has any knowledge of any other legal proceedings or claims that we believe will have, individually or in the aggregate, a material adverse affect on our business, financial condition or operating results.

Item 1A. Risk Factors

An investment in our shares involves a high degree of risk. Before making an investment decision, you should carefully consider all of the risks described on this Form 10-Q and Annual Reports on Form 10-K and Form 10KSB previously filed by the Company and any Current Reports on Form 8-K filed by the Company. If any of the risks discussed in these reports actually occur, our business, financial condition and results of operations could be materially and adversely affected. If this were to happen, the price of our shares could decline significantly and you may lose all or a part of your investment. The risk factors described below are not the only ones that may affect us. Our forward-looking statements in this prospectus are subject to the following risks and uncertainties. Our actual results could differ materially from those anticipated by our forward-looking statements as a result of the risk factors below. See "Cautionary and Forward-Looking Statements."

RISKS RELATED TO OUR BUSINESS

WE HAVE NOT GENERATED ANY SIGNIFICANT REVENUES AND MAY NEVER ACHIEVE PROFITABILITY

We are a development stage company and, to date, have not generated any significant revenues. From inception through December 31, 2006, we had an accumulated deficit of \$9,755,034. For the quarter ended December 31, 2006 and 2005, we incurred net losses of \$583,680 and \$1,595,533 respectively. We cannot assure you that we can achieve or sustain profitability in the future. Our operations are subject to the risks and competition inherent in the establishment of a business enterprise. There can be no assurance that future operations will be profitable. Revenues and profits, if any, will depend upon various factors, including whether our product development can be completed, and if it will achieve market acceptance. We may not achieve our business objectives and the failure to achieve such goals would have an adverse impact on us.

WE MAY NEED TO RAISE ADDITIONAL CAPITAL WHICH MAY NOT BE AVAILABLE ON ACCEPTABLE TERMS OR AT ALL

In the future, we may be required to raise additional funds, particularly if we are unable to generate positive cash flow as a result of our operations. There can be no assurance that financing will be available in amounts or on terms acceptable to us, if at all. The inability to obtain additional capital may reduce our ability to continue to conduct business operations. If we are unable to obtain additional financing, we will likely be required to curtail our research and development plans. Any additional equity financing may involve substantial dilution to our then existing shareholders.

WE MAY NOT BE ABLE TO SUCCESSFULLY COMMERCIALIZE OUR TECHNOLOGIES WHICH WOULD RESULT IN CONTINUED LOSSES AND MAY REQUIRE US TO CURTAIL OR CEASE OPERATIONS

As is the case with any new technology, we expect the development process to continue. We cannot assure that our engineering resources will be able to modify the product fast enough to meet market requirements. We can also not assure that

Edgar Filing: XSUNX INC - Form 10-Q

our product will gain market acceptance and that we will be able to successfully commercialize the technologies. The failure to successfully commercialize the technologies would result in continued losses and may require us to curtail or cease operations

6

OUR REVENUES ARE DEPENDENT UPON ACCEPTANCE OF OUR PRODUCTS BY LICENSEES; THE FAILURE OF WHICH WOULD CAUSE TO CURTAIL OR CEASE OPERATIONS

We believe that virtually all of our revenues will come from the licensing of our proprietary technologies to major manufacturers. We intend to offer non-exclusive licensing rights. As a result, we will continue to incur substantial operating losses until such time as we are able to generate revenues from licensing and service fees for our products through our distribution partners. There can be no assurance that businesses and customers will adopt our technology and products, or those businesses and prospective customers will agree to pay the licensing and service fees for our products. In the event that we are not able to significantly increase the number of customers that license our products, or if we are unable to charge the necessary license fees, our financial condition and results of operations will be materially and adversely affected.

IF WE LOSE KEY EMPLOYEES AND CONSULTANTS OR ARE UNABLE TO ATTRACT OR RETAIN QUALIFIED PERSONNEL, OUR BUSINESS COULD SUFFER.

Our success is highly dependent on our ability to attract and retain qualified scientific and management personnel. We are highly dependent on our management, including Mr. Tom Djokovich who has been critical to the development of our technologies and business. The loss of the services of Mr. Djokovich could have a material adverse effect on our operations. We do not have an employment agreement with Mr. Djokovich. Accordingly, there can be no assurance that he will remain associated with us. His efforts will be critical to us as we continue to develop our technology and as we transition from a development stage company to a company with commercialized products and services. If we were to lose Mr. Djokovich, or any other key employees or consultants, we may experience difficulties in competing effectively, developing our technology and implementing our business strategies.

THE LOSS OF STRATEGIC RELATIONSHIPS USED IN THE DEVELOPMENT OF OUR PRODUCTS AND TECHNOLOGY COULD IMPEDE OUR ABILITY TO COMPLETE OUR PRODUCT AND RESULT IN A MATERIAL ADVERSE EFFECT CAUSING THE BUSINESS TO SUFFER.

We have established a plan of operations under which a portion of our operations rely on strategic relationships with third parties, to provide general facilities, personnel, and expertise in research, development, systems design, assembly and support. A loss of any of our third party relationships for any reason could cause us to experience difficulties in implementing our business strategy. There can be no assurance that we could establish other relationships of adequate expertise in a timely manner or at all.

WE CANNOT GUARANTEE YOU THAT OUR PATENTS ARE BROAD ENOUGH TO PROVIDE ANY MEANINGFUL PROTECTION NOR CAN WE ASSURE YOU THAT ONE OF OUR COMPETITORS MAY NOT DEVELOP MORE EFFECTIVE TECHNOLOGIES, DESIGNS OR METHODS WITHOUT INFRINGING OUR INTELLECTUAL PROPERTY RIGHTS OR THAT ONE OF OUR COMPETITORS MIGHT NOT DESIGN AROUND OUR PROPRIETARY TECHNOLOGIES.

We have been granted, and exclusively own, three patents from the United States Patent and Trademark Office. We have also been granted a license to a patent and technology portfolio relating to photovoltaic technology design, manufacturing

Edgar Filing: XSUNX INC - Form 10-Q

processes, and the development of technology. These patents and licenses may not protect us against our competitors, and patent litigation is very expensive. We may not have sufficient cash available to pursue any patent litigation to its conclusion because currently we do not generate revenues.

We cannot rely solely on our current patents to be successful. The standards that the U.S. Patent and Trademark Office and foreign patent offices use to grant patents, and the standards that U.S. and foreign courts use to interpret patents, are not the same and are not always applied predictably or uniformly and can change, particularly as new technologies develop. As such, the degree of patent protection obtained in the U.S. may differ substantially from that obtained in various foreign countries. In some instances, patents have been issued in the U.S. while substantially less or no protection has been obtained in Europe or other countries.

We cannot be certain of the level of protection, if any, that will be provided by our patents. If we attempt to enforce them and they are challenged in court where our competitors may raise defenses such as invalidity, unenforceability or possession of a valid license. In addition, the type and extent of any patent claims that may be issued to us in the future are uncertain. Our patents may not contain claims that will permit us to stop competitors from using similar technology.

7

THE FOLLOWING RISKS RELATE PRINCIPALLY TO OUR COMMON STOCK AND ITS MARKET VALUE:

THERE IS A LIMITED MARKET FOR OUR COMMON STOCK WHICH MAY MAKE IT MORE DIFFICULT FOR YOU TO DISPOSE OF YOUR STOCK

Our common stock is quoted on the OTC Bulletin Board under the symbol "XSNX." There is a limited trading market for our common stock. Accordingly, there can be no assurance as to the liquidity of any markets that may develop for our common stock, the ability of holders of our common stock to sell our common stock, or the prices at which holders may be able to sell our common stock.

OUR STOCK PRICE MAY BE VOLATILE

The market price of our common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond our control, including:

- o technological innovations or new products and services by us or our competitors;
- o additions or departures of key personnel;
- o sales of our common stock;
- o our ability to integrate operations, technology, products and services;
- o our ability to execute our business plan;
- o operating results below expectations;
- o loss of any strategic relationship;
- o industry developments;
- o economic and other external factors; and
- o period-to-period fluctuations in our financial results.

Because we have a limited operating history with limited revenues to date, you may consider any one of these factors to be material. Our stock price may fluctuate widely as a result of any of the above listed factors.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating

Edgar Filing: XSUNX INC - Form 10-Q

performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our common stock.

WE HAVE NOT PAID DIVIDENDS IN THE PAST AND DO NOT EXPECT TO PAY DIVIDENDS IN THE FUTURE. ANY RETURN ON INVESTMENT MAY BE LIMITED TO THE VALUE OF OUR COMMON STOCK

We have never paid cash dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on your investment will only occur if its stock price appreciates.

8

Item 2. Changes in Securities

In December 2006 the Company entered into a settlement agreement with a service provider in which the service provider returned to the Company 150,000 of the 300,000 shares of common stock issued to the service provider in the period ended March 31, 2005. The shares were received and cancelled effective January 2007. As a result of the return and cancellation of these shares the Company will record a credit to expenses in the amount of \$12,000 and a debit to paid in capital of \$12,000 for the period ending March 31, 2007. The \$12,000 dollars represents one half of the monetary value expensed by the Company in the period in which the shares were issued.

In conjunction with the sale of convertible debentures in the amount of \$850,000 and \$5,000,000 in the fiscal periods ended December 31, 2005 and 2006 respectively, the Company issued and deposited into escrow 26,798,418 shares of Common Stock as part of a security structure for the above referenced obligations. As of September 30, 2006 the principal balance of the debentures had been reduced to \$0.0. Subsequently the holder of the debentures provided the Company with a notice of release of its security interests and returned the security shares to the Company for cancellation. On January 18, 2007 the above shares were cancelled on the Company's books.
