NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2001
(Unaudited)
(Stated in U.S. Dollars)

1. NATURE OF OPERATIONS

a) Organization

The Company was incorporated in the State of Nevada, U.S.A., on October 12, 2000.

b) Development Stage Activities

The Company was organized to develop innovative technology based ventures with a current emphasis on building new technologies for the entertainment and content industry. The Company's initial venture is RAHX, a business concept focused on the growing Peer-To-Peer (P2P) file exchange industry. The first branded RAHX

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

product is Rahxware, a platform that uses P2P technologies to enable and enhance the distribution of digital media over the internet.

The Company is in the development stage, therefore, recovery of assets is dependent upon future events, the outcome of which is indeterminable. In addition, successful completion of the Company's development program and its transition, ultimately to the attainment of profitable operations, is dependent upon obtaining adequate financing to fulfill its development activities and achieve a level of sales to support its cost structure.

Management is of the opinion that sufficient short term funding will be obtained and that current negotiations with potential users of its products will be successful.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements for a period necessarily involves the use of estimates which have been made using careful judgment.

The consolidated financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Consolidation

These consolidated financial statements include the accounts of the Company, its 100% owned subsidiary, RRUN Ventures, Inc., and its 67% owned subsidiary, RAHX, Inc.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Development Stage Company

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

c) Investments

Investments in companies owned less than 20% are recorded at the lower of cost or fair market value.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

d) Software Development Costs

The costs to develop new software products and enhancements to existing software products will be expensed as incurred until technological feasibility has been established. Once technological feasibility has been established, any additional costs will be capitalized.

e) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 - "Accounting for Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

f) Amortization

Capital assets are being amortized on the declining balance basis at the following rates:

Computer equipment	30%
Computer software	100%
Office furniture and equipment	20%

g) Financial Instruments

The Company's financial instruments consist of cash, GST recoverable, prepaid expenses and accounts payable.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

h) Net Loss Per Share

Net loss per share is calculated using the weighted average number of common shares outstanding during the period. Fully diluted loss per share is not presented as the impact of the exercise of options is anti-dilutive.

3. ACQUISITION OF SUBSIDIARY

a) Effective November 13, 2000, RRUN Ventures, Inc. acquired 67% of the issued and outstanding shares of RAHX, Inc. by issuing 2,814,000 common shares. Since the transaction resulted in the former shareholders of RAHX, Inc. owning

the majority of the issued shares of RRUN Ventures, Inc., the transaction, which is referred to as a "reverse take-over", has been treated for accounting purposes as an acquisition by RAHX, Inc. of the net assets and liabilities of RRUN Ventures, Inc. Under this purchase method of accounting, the results of operations of RRUN Ventures, Inc. are included in these consolidated financial statements from November 13, 2000.

Corporate History

In August 2001, RRUN Ventures, Inc. merged with United Management, Inc. In the process we changed our name to RRUN Ventures Network, Inc. Also acquired in the merger was a majority shareholder position in RAHX, Inc., a Nevada Corporation, which was incorporated in 2000. In September 2001, we co-founded AXXUS

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

Corporation and subsequently acquired a majority interest in AXXUS Corporation and RRUN founded RRUN Labs Incorporated and subsequently acquired 100% of the common stock of RRUN Labs Incorporated, a Delaware Corporation, which was incorporated in September 2001. At the end of September 2001, there was no activity in AXXUS Corporation and RRUN Labs Incorporated.

General Overview

Our mission is to seek out and build a network of ventures specializing in various products and services in the digital technology industry. We will develop these new businesses through the use of our existing relationships with content owners, technology firms and our own staff knowledgeable in the areas of software development, technology, marketing and project management.

Our venture network currently consists of two technology-based business enabling networks and organizations, RAHX and AXXUS. These two companies combine to implement our initiatives: 1) the building of an advanced digital media network; and 2) the building of a new global marketplace that, interconnects consumers and businesses. The RAHX and AXXUS networks will be built on proprietary technology that utilizes Peer-2-Peer Distributed Architecture and

4

contain Digital Rights Management Systems and Advanced Integration and Personalization Software.

Until the Company raises additional capital, the Company's vision for RRUN Labs Incorporated cannot be fully realized. At the end of October, we were unable to raise additional capital for the operation of RRUN Labs. We decided to suspend the operations of RRUN Labs Incorporated until further notice. All RRUN Labs Incorporated employees have been given a temporary leave of absence. We incurred significant obligations with regard to our Virginia operations and certain debts remain outstanding. The Company cannot make any assurances that the personnel currently contracted by RRUN Labs will continue their contract in the future should the Company obtain funds necessary to continue the vision of RRUN Labs Incorporated.

Marketing Plan

Key Objectives

Our marketing strategy will be a key factor in achieving success in its overall strategic plan. Effectively executing the marketing strategy will help the Company realize the following objectives:

The marketing strategy spans across two years in accordance with the aforementioned implementation plan. (i.e. our initial implementation is planned over a period of two phases totaling twenty-four (24) months). During each phase and subsequent stages the marketing strategy evolves in accordance with development and distribution of RAHX.
