- (1) Assumes conversion of all of the holder's debentures at a conversion price of \$6.4826 per share of common stock. However, this conversion price will be subject to adjustment as described under "Description of Debentures - Conversion of Debentures by Holders." As a result, the amount of common stock issuable upon conversion of the debentures may increase or decrease in the future.

- (2) Calculated based on Rule 13d-3(d)(i) of the Exchange Act using 306,261,063 shares of common stock outstanding as of January 29, 2001. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular holder's debentures. However, we did not assume the conversion of any other holder's debentures.
- (3) Information about other selling security holders will be set forth in additional prospectus supplements, if required.
- (4) Assumes that any other holders of debentures, or any future transferees, pledgees, donees or successors of or from any such other holders of debentures, do not beneficially own any common stock other than the common stock issuable upon conversion of the debentures at the initial conversion rate.
