EXPLANATORY COMMENT

MAG Silver Corp. (the "Company" or the "Registrant") is a British Columbia corporation and a "foreign private issuer" as defined in Rule 3b-4 promulgated under the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") by the U.S. Securities and Exchange Commission (the "SEC"). Under the SEC's rules, the Company is eligible to prepare and file this annual report on Form 40-F, and to present the disclosures herein primarily in accordance with Canadian disclosure requirements, which differ in certain material respects from those which the SEC requires of United States companies.

For example, the Company has prepared its financial statements, which are included as Exhibit 99.2 to this annual report on Form 40-F, in accordance with IFRS, and such statements are not in many respects directly comparable to financial statements of United States companies.

Similarly, and as discussed in greater detail below in "ESTIMATES OF RESOURCES AND RESERVES," the resource and reserve estimates included in the accompanying Annual Information Form (including the Schedules thereto), found at Exhibit 99.1 of this Form 40-F Annual Report, and management's discussion and analysis for the fiscal year ended December 31, 2014 filed as Exhibit 99.2 to this Annual Report on Form 40-F, have been prepared in accordance with the requirements of Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101"), which differ from the practices used to estimate resources and reserves in reports and other materials filed with the SEC by United States companies.

As a “foreign private issuer” the Company is exempt from certain proxy-related requirements found in Sections 14(a), 14(b), 14(c), and 14(f) of the Exchange Act, and the insider reporting, “short swing profit” and short sale provisions found in Section 16 thereof are not applicable to the Company’s common shares.

The Company’s Audited Annual Consolidated Financial Statements have been prepared in accordance with IFRS.

CAUTIONARY COMMENT ON FORWARD-LOOKING STATEMENTS AND ADJACENT PROPERTY DISCLOSURES

Forward Looking Statements

This Annual Report on Form 40-F contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of Canadian securities laws (collectively, “forward-looking statements”) that are based on the beliefs and estimates of management on the date as of which the statement are made, as well as assumptions made by and information then available to the Company. The Company’s documents incorporated herein by reference, contain forward-looking statements concerning anticipated developments in the operations of the Company in future periods, planned exploration and development activities, the adequacy of the Company’s financial resources and other events or conditions that may occur in the future. Forward-looking statements are frequently, but not always, identified by words such as “expects,” “anticipates,” “believes,” “intends,” “estimates,” “potential,” “possible” and similar expressions, or statements that events, conditions or results “will,” “may,” “could” or “should” occur or be achieved. Information concerning the interpretation of drill results and mineral resource or reserve estimates also may be deemed to be forward-looking statements, as such information constitutes a prediction of what mineralization might be found to be present if and when a project is actually developed. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Company or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors, including, without limitation, those described in the AIF.

For the reasons set forth above, investors should not place undue reliance on forward-looking statements.

Adjacent Property Disclosure

The staff of the SEC takes the position that mining companies, in their filings with the SEC, should describe only those mineral deposits that the companies themselves can economically and legally extract or produce. The AIF filed as Exhibit 99.1 to this Annual Report on Form 40-F contains information regarding adjacent properties on which we have no right to explore or mine, and is considered by management to be of material importance to the Company and its land holdings in the area. Investors are cautioned that mineral deposits on adjacent properties are not necessarily probative of the existence, nature or extent of mineral deposits on our properties.

ESTIMATES OF RESOURCES AND RESERVES

The Company's AIF filed as Exhibit 99.1 to this Annual Report on Form 40-F and management's discussion and analysis for the fiscal year ended December 31, 2014 filed as Exhibit 99.2 to this Annual Report on Form 40-F have been prepared in accordance with the requirements of Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petroleum (the "CIM") — CIM Definition Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council, as amended. NI 43-101 is a rule developed by the Canadian Securities Administrators, which establishes standards for disclosure a Canadian public company makes of scientific and technical information concerning its mineral projects, differs from the requirements of SEC Industry Guide 7 ("SEC Industry Guide 7") under the United States Securities Act of 1933, as amended (the "Securities Act").

For example, the terms "mineral reserve", "proven mineral reserve" and "probable mineral reserve" are Canadian mining terms as defined in accordance with NI 43-101 and the CIM standards. These definitions differ from the definitions in SEC Industry Guide 7.

In addition, the terms "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are defined in and required to be disclosed by NI 43-101; however, these terms are not defined under SEC Industry Guide 7 and are normally not permitted to be used in reports and registration statements filed with the SEC. It should not be assumed that any part or all of mineral deposits in these categories will ever be converted into reserves. "Inferred mineral resources" have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category.

Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. Investors are cautioned not to assume that all or any part of an inferred mineral resource exists or is economically or legally mineable. Disclosure of "contained ounces" in a resource is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC Industry Guide 7 standards as in place tonnage and grade without reference to unit measures.

Accordingly, information contained in this Annual Report and the documents incorporated by reference herein contains descriptions of mineral deposits that may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the United States federal securities laws.

DISCLOSURE CONTROLS AND PROCEDURES

After evaluating the effectiveness of the Company's disclosure controls and procedures as required by paragraph (b) of Exchange Act Rule 13a-15, the Chief Executive Officer and Chief Financial Officer of the Company have concluded that, as of the end of the period covered by this Annual Report on Form 40-F, the Company's disclosure controls and procedures were effective to ensure that material information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rule 13a-15(f).

Management recognizes that effective internal control over financial reporting may nonetheless not prevent or detect all possible misstatements or frauds. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

Management has evaluated the effectiveness of the Company's internal control over financial reporting as of the end of the Company's fiscal year ended December 31, 2014 using the framework Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management concluded that, as of December 31, 2014, the Company maintained effective internal control over financial reporting.

ATTESTATION REPORT OF THE INDEPENDENT REGISTERED CHARTERED ACCOUNTANTS

Under the Jumpstart Our Business Startups Act ("JOBS Act"), enacted by Congress in April 2012, "emerging growth companies" ("EGCs") are exempt from the requirements of Section 404(b) of the Sarbanes-Oxley Act, which requires that public companies, in connection with the filing of their annual reports under the Exchange Act provide an attestation by their independent auditors regarding management's assessment of the effectiveness of internal controls over financial reporting. The Company qualifies as an EGC under the JOBS Act, and is therefore exempt from the requirement of obtaining such an auditor attestation.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the period covered by this Annual Report on Form 40-F, no changes occurred in the Company’s internal control over financial reporting that were identified in connection with the evaluation required by paragraph (e) of Exchange Act Rule 13a-15 that materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

NOTICES PURSUANT TO REGULATION BTR

Not applicable.

AUDIT COMMITTEE FINANCIAL EXPERT

The Company’s Board of Directors has determined that each of Derek White, Richard Colterjohn, Peter Barnes and Jill Leversage is an “audit committee financial expert” as that term is defined in paragraph (8) of General Instruction B of Form 40-F, and each is an “independent director” as that term is defined under the listing standards applicable to the Company contained in Section 803A of the NYSE MKT Company Guide. A description of the relevant experience of each of such director can be found in the AIF. The SEC has indicated that the designation of a director as an audit committee financial expert does not make that director an “expert” for any purpose, impose any duties, obligations or liability on him or her that are greater than those imposed on members of the Audit Committee and Board of Directors who do not carry this designation, or affect the duties, obligations or liability of any other member of the Audit Committee or Board of Directors.

CODE OF ETHICS FOR CHIEF EXECUTIVE OFFICER, CHIEF FINANCIAL OFFICER,
AND OFFICERS AND DIRECTORS

The Company has adopted a Code of Business Conduct and Ethics (the “Code”) for its Chief Executive Officer, Chief Financial Officer, directors and officers. The Company previously furnished the latest version of the Code with the SEC on May 21, 2014 as Exhibit 99.1 to its Form 6-K. Shareholders may obtain a copy upon request, addressed to The Secretary, MAG Silver Corp., #770-800 West Pender Street, Vancouver, British Columbia, V6C 2V6. The Company has also posted the Code on its internet website at www.magsilver.com. Amendments to the Code were approved by the directors on May 13, 2014 and since that time there have been no further amendments to the Code. No waivers were granted from the Code during the fiscal year ended December 31, 2014.

(1) Salamandra property option payments of C\$450,000 and exploration expenditure commitments of \$860,803 by May 23, 2017 in order to exercise an initial 55% interest in the property. An additional C\$20 million of exploration expenditures (or the delivery of a feasibility study) over the four years following the initial 55% earn in is required to exercise an additional 15% option on the property.

(2) Cinco de Mayo property option payments of \$110,000 on two auxiliary claims acquired in 2010.

(3) The Company makes cash deposits to Minera Juanicipio as cash called by operator Fresnillo, based on approved joint venture budgets. The scale and scope of the Juanicipio project will require development capital in the years ahead exceeding the Company's on hand cash resources. As noted above in this section, it is unlikely that the Company will generate sufficient operating cash flows to meet these ongoing obligations in the foreseeable future. Accordingly the Company will need to raise additional capital in the future and is currently evaluating debt, equity, and other financing alternatives in order to continue to fund its share of cash calls and avoid dilution of its ownership interest.
