**AMNET MORTGAGE, INC. REPORTS THIRD QUARTER RESULTS**

San Diego, CA, November 15, 2005 AmNet Mortgage, Inc. (NASDAQ: AMNT), the parent company of American Mortgage Network (AmNet), a wholesale nationwide mortgage bank, today reported third quarter results, highlights of which included:

Third quarter 2005 consolidated net income was \$1.9 million, or \$0.23 per diluted share, compared to a consolidated net loss of \$985 thousand, or \$0.13 per diluted share, during the third quarter of 2004.

The Company reported total revenue, net of derivative financial instruments, of \$56.0 million for the third quarter of 2005. As discussed in the Company's third quarter 10-Q filed yesterday and second quarter earnings press release, timing differences routinely occur between the recognition of hedge gains and losses and associated changes in the fair value of loans held for sale. The third quarter was impacted by increases in fair value that were not recognized in the second quarter of 2005 of approximately \$2.3 million on a pre-tax basis;

Mortgage loans funded through AmNet were \$4.5 billion in the third quarter of 2005, an increase of 119%, compared to \$2.1 billion in the third quarter of 2004; and

Higher margin loans made up 41% of the Company's origination volume as compared to 32% in the third quarter of 2004.

**Consolidated Results**

AmNet Mortgage, Inc. reported consolidated pretax income was \$3.3 million and consolidated net income of \$1.9 million, or \$0.23 per diluted share, for the third quarter of 2005, compared to a consolidated pretax loss of \$1.7 million and a consolidated net loss of \$985 thousand, or \$0.13 per diluted share, in the third quarter of 2004. Consolidated net income for the nine months ended September 30, 2005 were \$785 thousand or \$0.10 per diluted share compared to a consolidated net loss of \$6.5 million or \$0.84 per diluted share in 2004.

Because the Company does not employ hedge accounting under FAS 133, positive timing differences between the recognition of hedge gains and losses and associated increases in the fair value of loans held for sale at the end of the second quarter had a positive impact on reported gain

on sale revenues in the third quarter. The positive impact on the third quarter amounted to approximately \$2.3 million on a pre-tax basis.

AmNet funded \$4.5 billion in home loans during the third quarter of 2005, compared to \$2.1 billion during the third quarter of 2004, an increase of 119%. In the third quarter of 2005, higher margin loans, including Alt-A, subprime, HELOC and second mortgages, made up 41% of the Company's origination volume as compared to 32% in the third quarter of 2004. Mortgage loans funded through AmNet were \$10.9 billion for the first nine months of 2005, compared to \$6.5 billion for the first nine months of 2004, an increase of 68%.

**Proposed Merger with Wachovia Bank, N. A.**

Also, during the third quarter, a definitive agreement was signed on September 13, 2005 under which Wachovia Bank, National Association, a national banking association organized under the laws of the United States of America ( Wachovia ) will acquire AmNet Mortgage, Inc. ( AmNet ) for a purchase price of \$10.30 per share in cash. The approximate total value of the transaction (on a fully diluted basis) is \$83 million. AmNet's Board of Directors, with the unanimous recommendation of a special committee comprised of independent directors, has approved the proposed merger and is recommending that the Company's stockholders vote to approve it. The merger is conditioned on stockholder approval and other customary conditions described in the definitive proxy statement dated November 7, 2005 related to the special stockholder meeting scheduled for December 8, 2005.
