**Item 1.01 Entry into a Material Definitive Agreement.**

On April 20, 2006, Scientific Games Corporation (the Company) and certain of its subsidiaries completed the acquisition of Global Draw Limited and certain related companies (collectively, Global Draw). Global Draw is a leading United Kingdom supplier of fixed odds betting terminals and systems, and interactive sports betting systems. The Company has paid approximately \$183 million (subject to adjustment), and it will pay an earn-out to the principal selling shareholder, as well as contingent bonuses to certain members of the existing management team, based on the financial performance of the business. The aggregate amount of such payments would total one-third of an amount equal to Global Draw's EBITDA (EBITDA, for such purposes, is defined as the consolidated earnings before interest, tax, depreciation and amortization) for the year ended December 31, 2008 multiplied by a specified multiple. Such multiple would vary depending upon the EBITDA levels achieved, subject to certain adjustments, as follows:

if such EBITDA is less than £18 million (which currently converts into approximately \$32 million), then the multiple would be zero;

if such EBITDA is at least £18 million but less than £24 million (which currently converts into approximately \$43 million), then the multiple would be 3.75;

if such EBITDA is at least £24 million but less than £30 million (which currently converts into approximately \$54 million), then the multiple would be 7.25;

if such EBITDA is at least £30 million but less than £36 million (which currently converts into approximately \$64 million), then the multiple would be 7.75;

if such EBITDA is at least £36 million but less than £42 million (which currently converts into approximately \$75 million), then the multiple would be 8.25;

if such EBITDA is at least £42 million but less than £48 million (which currently converts into approximately \$86 million), then the multiple would be 9.00;

if such EBITDA is at least £48 million but less than £54 million (which currently converts into approximately \$96 million), then the multiple would be 10.00; and

if such EBITDA is £54 million (which currently converts into approximately \$96 million) or more, then the multiple would be 10.75.

The transaction also provides for, among other things, representations, warranties, indemnities and set-off provisions.

The Company financed the acquisition through a combination of borrowings under its recently amended and restated credit facility, which increased the revolving credit facility by \$50 million, and added a new \$100 million term loan.
