MFIC CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1.) ORGANIZATION, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization

MFIC Corporation (MFIC or the Company), through its wholly-owned subsidiary, Microfluidics Corporation (Microfluidics), operates in one segment, producing and marketing a broad line of proprietary fluid materials processing systems used for a variety of grinding, mixing, milling, and blending applications across a variety of industries and for use in numerous applications within those industries.

The consolidated financial statements of the Company include the accounts of the Company and its wholly owned subsidiary, Microfluidics. All significant intercompany transactions and balances have been eliminated in consolidation.

Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The Company believes, however, that the disclosures are adequate to make the information presented not misleading. It is suggested that these unaudited condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

The unaudited condensed consolidated financial statements, in the opinion of management, include all adjustments necessary to present fairly the Company's financial position and the results of operations. These results are not necessarily indicative of the results to be expected for the entire year.

Significant Accounting Policies

The significant accounting policies followed by the Company and its subsidiary in preparing its unaudited condensed consolidated financial statements are set forth in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Recent Accounting Pronouncements

The Company has adopted FASB Statement No. 151, Inventory Costs an amendment of ARB No. 43 (SFAS No. 151), which is the result of the FASB's efforts to converge U.S. accounting standards for inventories with international Accounting Standards. SFAS No. 151 requires idle facility expenses, freight, handling costs, and wasted material (spoilage) costs to be recognized as current-period charges. It also requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The Company has evaluated this standard and has determined there is no impact on our consolidated financial statements.

The Company has adopted FASB statement No. 154, Accounting Changes and Corrections. SFAS No. 154 addresses the accounting and reporting for changes in accounting principles. It replaces APB 20 and FIN 20, and is effective for all fiscal years beginning after December 15, 2005. It requires that the cumulative effect of a change in accounting principle be recorded directly in the opening retained earnings balance. The Company has evaluated this standard, and has determined there is no impact on our consolidated financial statements.

2.) STOCK-BASED COMPENSATION

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123(R), Share-Based Payment (SFAS 123R). This Statement is a revision of SFAS No. 123, Accounting for Stock-Based Compensation (SFAS 123), and supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), and its related implementation guidance. SFAS 123R requires a company to measure the grant date fair value of equity awards given to employees in exchange for services and recognize that cost over the period that such services are performed. The Company adopted SFAS 123R on January 1, 2006 using the modified prospective transition method.

Prior to adopting SFAS 123R, the Company accounted for stock-based compensation under APB 25, as permitted by SFAS 123. No stock-based compensation cost was recognized in the unaudited condensed consolidated statement of operations for the three months ended March 31, 2005, as all options granted had an exercise price equal to the fair market value of the underlying common stock on the date of grant. The Company has applied the modified prospective method in adopting SFAS 123R. Accordingly, periods prior to adoption have not been restated and are not directly comparable to periods after adoption. Under the modified prospective method, compensation cost recognized in the three months ended March 31, 2006 includes (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, less estimated forfeitures, and (b) compensation cost for all share-based payments granted and vested subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R.

Had the Company used the fair value method prescribed by SFAS 123R to measure compensation related to stock options and awards to employees in prior periods, pro forma net income (loss) and pro forma earnings per share would have been as follows:

	Three Months Ended March 31,	
	2006	2005
Net income (loss), as reported	\$ 41,629	\$ (116,066)
Add: stock-based compensation expense included in reported net income	36,935	
Less: stock-based compensation expense determined under fair value method for all awards	(36,935)	(58,619)
Pro forma net income (loss)	\$ 41,629	\$ (174,685)
Basic earnings per share:		
As reported	\$ 0.00	\$ (0.01)
Pro forma	\$ 0.00	\$ (0.02)
Diluted earnings per share:		
As reported	\$ 0.00	\$ (0.01)
Pro forma	\$ 0.00	\$ (0.02)

The stock-based employee compensation expense that is reflected in the unaudited condensed consolidated statement of operations in the first quarter of fiscal 2006 was approximately \$37,000.

We have two shareholder-approved stock option plans: the 1988 Stock Plan which authorizes the grant of Stock Rights for up to 3,500,000 shares of common stock and the 1989 Non-Employee Director Stock Option Plan which authorizes the grant of nonqualified stock options for up to 500,000 shares of common stock. These plans permit the granting of stock awards to officers, members of the Board of Directors and employees. Options granted under the plans vest over a 3-to-5-year period and expire 5 - 10 years from the grant date. At March 31, 2006, approximately 741,000 shares were available for future grants under the plans.

During the first quarter of fiscal 2006, the Company issued 51,000 stock options under the 1988 Stock Plan and the 1989 Non-Employee Director Stock Option Plan. The stock options generally vest over five years. Approximately 34,000 shares were forfeited and approximately 136,000 shares were vested as of March 31, 2006.

A summary of stock option activity under all plans is as follows:

	Number of Shares	Weighted Average Exercise Price Per Share
Options outstanding, January 1, 2006	1,718,925	\$ 1.37
Granted	51,000	1.51
Exercised	(43,573)	0.39
Canceled	(34,452)	1.65
Options outstanding, March 31, 2006	1,691,900	\$ 1.39
Options exercisable, March 31, 2006	1,414,086	\$ 1.35

The weighted average remaining contractual term and the aggregate intrinsic value for options outstanding at March 31, 2006 were 6.62 years and \$2,352,000, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options exercisable at March 31, 2006 were 6.57 years and \$1,909,000, respectively.

We estimate the fair value of each option award issued under the Plans on the date of grant using a Black-Scholes based option-pricing model that uses the assumptions noted in the following table. Expected volatilities are based on historical volatility of our common stock. We base the expected term of the options on our historical option exercise data taking into consideration the exercise patterns of the option holder during the option's life. We base the risk-free interest rate on the U.S. Treasury yield curve in effect at the time of the grant for a term equivalent to the expected life of the options.

	Three Months Ended March 31,	
	2006	2005
Expected volatility	126.0 %	129.0 %
Risk-free interest rate	4.85 %	4.35 %
Expected life in years	5.0	5.0
Expected dividend yield	None	None

Based on the above assumptions, the weighted average estimated fair value of options granted in the first quarter of fiscal years 2006 and 2005 was \$1.29 and \$3.36 per share, respectively. We estimate forfeitures related to option grants at an annual rate of 9% per year.

Other reasonable assumptions about these factors could provide different estimates of fair value. Future changes in stock price volatility, life of options, interest rates, forfeitures and dividend practices, if any, may require changes in our assumptions, which could materially affect the calculation of fair value.

Total unrecognized stock-based compensation expense related to unvested stock options, expected to be recognized over a weighted average period of 3 years, amounted to approximately \$523,000 at March 31, 2006.

On November 17, 2004, the Company entered into a twelve month general financial and advisory services agreement with Maxim Group LLC pursuant to which Maxim Group LLC was granted a three (3) year warrant to purchase 100,000 shares of the Company's common stock at an exercise price of \$3.20 per share. The estimated fair value of these warrants were being expensed over the term of the agreement, which expired as of December 31, 2005. The Company recognized \$29,750 in expenses for the quarter ended March 31, 2005.

3.) INVENTORIES

The components of inventories are as follows at:

	March 31, 2006	December 31, 2005
Raw materials	\$ 2,040,000	\$ 1,711,661
Work in progress	46,292	73,844
Finished goods	225,907	248,941
	2,312,199	2,034,446
Less: provision for excess inventory	(194,000)	(185,000)
Total	\$ 2,118,199	\$ 1,849,446

4.) EARNINGS (LOSS) PER SHARE

Basic and diluted net (loss) earnings per share are presented in conformity with Statement of Financial Accounting Standards No. 128, *Earnings per Share (SFAS No. 128)*, for all periods presented. In accordance with SFAS No. 128, basic net income per common share was determined by dividing net income applicable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income per share (EPS) reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock, unless the effects of dilution would be anti-dilutive.

	Three months ended	
	March 31, 2006	March 31, 2005
Shares for computation of basic net income per share	9,952,837	9,678,292
Effect of dilutive stock options	637,264	
Shares for computation of diluted net income per share	10,590,101	9,678,292

5.) CREDIT FACILITY

On March 3, 2004, the Company and its Microfluidics Corporation subsidiary, as co-borrowers, entered into a revolving credit and term loan agreement with Banknorth, N.A. (the Lender) providing the Company with a \$2,000,000 demand revolving credit and four year term loan facility (the Credit Facility). The Credit Facility, which expires on March 2, 2008, is comprised of (i) a \$1 million demand revolving line of credit (Revolving Credit Line) with advances thereunder bearing interest at an interest rate equal to the prime rate (the Prime Rate for United States borrowings from Banknorth, N.A. as publicly announced from time to time). All borrowings under the Revolving Credit Line are evidenced by a \$1 million demand promissory note (the Revolving Note), and (ii) a \$1,000,000 term promissory note, amortized over a four year period and having a maturity date of March 3, 2008 and bearing interest at an interest rate equal to the Federal Home Loan Bank Classic Rate at March 4, 2004 plus two and one-half percent (2.50%). Loans under the Credit Facility are secured by a collateral pledge to the Lender of substantially all the assets of the Company and its subsidiary. The Company is required to meet two covenants on an annual (calendar) basis as of December 31 of each year: (i) the Company s senior debt may not be more than four times the amount of its tangible capital base, and (ii) its debt service coverage ratio may not be less than 1.20 to 1.

Due to the subjective acceleration clause, and the lock-box arrangement, the Revolving Credit Line is classified as a current liability in the condensed consolidated balance sheet. At March 31, 2006, there was no outstanding balance on the Revolving Credit Line. The balance outstanding on the term loan was \$500,008, at an interest rate of 5.67%.

6.) DEBT

Long-term debt as of the following dates consisted of:

	March 31, 2006 (Unaudited)	December 31, 2005
Term note	\$ 500,008	\$ 562,507
Capital leases payable	40,920	50,546
	540,928	613,053
Less current portion	(288,507) (288,507
Long term debt, net of current portion	\$ 252,421	\$ 324,546

The capital leases payable consist of three capitalized leases with bargain purchase options that the Company is obligated to pay over a three-year period.

7.) INCOME TAXES

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate for the full fiscal year. Cumulative adjustments to the tax provision are recorded in the interim period in which a change in the estimated annual effective rate is determined. Changes to the valuation allowance are recorded on the date for which circumstances have changed, whereby it becomes more likely than not that there will be an adjustment to the deferred tax assets.

MFIC CORPORATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

1. RESULTS OF OPERATIONS

Total Company revenues for the quarter ended March 31, 2006 were approximately \$3,151,000, as compared to revenues of \$2,536,000 for the three months ended March 31, 2005, representing an increase of approximately \$615,000, or 24.2%. The increase for this period is due almost entirely to an increase in the sale of machines of approximately \$611,000.

Cost of goods sold for the three months ended March 31, 2006 was approximately \$1,447,000, or 45.9% of revenue, compared to \$1,149,000, or 45.3% of revenue, for the three months ended March 31, 2005. The increase in cost of goods sold in absolute dollars for the three months ended March 31, 2005, reflects the overall increase in sales. The Company's major product lines have different profit margins, as well as multiple profit margins within each product line.

Total operating expenses for the three months ended March 31, 2006 were approximately \$1,636,000, or 51.9% of revenue, as compared to \$1,573,000, or 62.0% of revenue, for the three months ended March 31, 2005, which is an increase of approximately \$63,000, or 4.0%.

Research and development expenses for the three months ended March 31, 2006 were approximately \$397,000, compared to \$421,000 for the three months ended March 31, 2005, a decrease of approximately \$24,000, or 5.6%. The decrease in research and development expenses was primarily due to a planned decrease in both consultant costs of approximately \$54,000, and development costs of approximately \$35,000, partially offset by a planned increase in payroll and related costs of approximately \$41,000, and test supplies of approximately \$13,000.

Selling expenses for the three months ended March 31, 2006 were approximately \$616,000, compared to \$614,000 for the three months ended March 31, 2005, an increase of \$2,000, or 0.3%. The increase is primarily attributable to an increase in commission expenses of approximately \$36,000, an increase in travel and entertainment of approximately \$24,000, an increase in delivery costs of approximately \$23,000, partially offset by a planned decrease in payroll costs of approximately \$56,000, and a decrease in printing costs of approximately \$13,000. The increase in commission costs was due to an increase in sales, partially offset by an increase in sales made in Asia, where a significant amount of the Company's sales are sold primarily through distributors, who are not paid commissions. The increase in delivery costs were principally due to an increase in sales.

General and administrative expenses for the three months ended March 31, 2006, were approximately \$622,000, compared to \$538,000 for the three months ended March 31, 2005, an increase of approximately \$84,000, or 15.7%. The increase in general and administrative expenses is principally due to an increase in corporate expenses of approximately \$57,000, an increase in professional fees of approximately \$67,000, partially offset by a decrease in consultant costs of approximately \$29,000. The increase in corporate expenses was principally due to the Company adopting SFAS 123R as of January 1, 2006, recognizing compensation expense in conjunction with share based payments to employees and directors in the amount of \$37,000. The increase is also attributable to an increase in directors' compensation in 2006. The increase in professional fees is partially due to payments made in conjunction with S.E.C. filings during the quarter in the amount of approximately \$27,000. The decrease in consulting costs is the result of the expiration in 2006 of a consulting agreement that was in effect in 2005.

Interest expense for the three months ended March 31, 2006 decreased approximately \$6,000, or 36.8%, to \$9,771, from \$15,470 for the three months ended March 31, 2006. The decrease is due to the net pay down of the line of credit and a reduction of the term loan with Banknorth.

Interest income for the three months ended March 31, 2006 increased approximately \$2,000, or 25.4%, to \$10,101 from \$8,052 for the three months ended March 31, 2005. The increase is due to the increase in cash available for investing.

For the quarter ended March 31, 2006 and 2005, the Company recognized a tax provision of \$27,000, and a tax benefit in the amount of \$77,000, respectively, at the Company's expected annualized effective tax rate of approximately 40%.

2. LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2006, the Company maintains a revolving credit and term loan agreement (the Credit Facility) with Banknorth, N.A., providing the Company with a \$1,000,000, four-year revolving credit line and a \$1,000,000 four-year term loan facility. As of March 31, 2006, there was no balance due under its revolving credit line and a balance of \$500,008 under its term loan facility.

The Company generated cash of \$72,000 and used cash of \$218,000 from operations for the three months ended March 31, 2006 and 2005, respectively. For the three months ended March 31, 2006, the Company's principal operating cash requirements were to fund its increase in inventory due to production requirements for orders, other current assets, and prepaid expenses, offset by its income from operations, decrease in current liabilities, and a decrease in trade receivables. For the three months ended March 31, 2005, the Company's principal operating cash requirements were to fund its loss from operations, an increase in inventory, and a decrease in current liabilities, partially offset by a decrease in trade receivables and prepaid expenses.

The Company used cash of \$14,000 and \$8,000 for investing activities for the three months ended March 31, 2006 and 2005, respectively. Net cash used by investing activities for both three months ended March 31, 2006 and 2005 were for the purchase of capital equipment.

The Company used cash of \$44,000 for the three months ended March 31, 2006 for financing activities, consisting of principal payments on the term loan and capital equipment loans, offset by proceeds from the issuance of common stock for options exercised, and proceeds from stock issued from the employee stock purchase plan.

The Company generated cash of \$199,000 for the three months ended March 31, 2005 from financing activities, consisting of proceeds from the line of credit from Banknorth and equipment loans, the issuance of common stock for options exercised and proceeds from stock issued from the employee stock purchase plan, partially offset by payments on the term loan, equipment loans and subordinated debt.

As of March 31, 2006, the Company had \$1,467,000 in cash and cash equivalents, compared to \$2,001,000 as of March 31, 2005.

Assuming that there is no significant change in the Company's business, the Company believes that cash flows from operations, together with the Credit Facility, and the existing cash balances, will be sufficient to meet its working capital requirements for at least the next twelve months.

The Company's contractual obligations as of March 31, 2006 are as follows:

	Contractual Obligations			
	At March 31, 2006	Payable the remainder of 2006	Payable in 2007	Payable in 2008
Long term debt	\$ 500,008	\$ 187,497	\$ 249,996	\$ 62,515
Operating leases	416,772	268,396	148,376	
Capital leases	40,920	28,880	9,286	2,754
Total contractual obligations	\$ 957,700	\$ 484,773	\$ 407,658	\$ 65,269

3. FORWARD-LOOKING INFORMATION

This report may contain forward-looking statements that are subject to certain risks and uncertainties including statements relating to the Company's plan to achieve, maintain, and/or increase revenue growth, and/or operating profitability, and to achieve, maintain, and/or increase net operating profitability. Such statements are based on the Company's current expectations and are subject to a number of factors and uncertainties that could cause actual results achieved by the Company to differ materially from those described in the forward-looking statements. The Company cautions investors that there can be no assurance that the actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including but not limited to, the following risks and uncertainties: (i) whether the performance advantages of the Company's Microfluidizer® materials processing equipment will be realized commercially or that a commercial market for the equipment will continue to develop, (ii) whether the timing of orders will significantly affect quarter to quarter revenues and resulting net income results for a particular quarter, which may cause increased volatility in the Company's stock price (iii) whether the Company will have access to sufficient working capital through continued and improving cash flow from sales and ongoing borrowing availability, the latter being subject to the Company's ability to maintain compliance with the covenants and terms of the Company's loan agreement with its senior lender, and (iv) whether the Company's technology will be adopted by customers as a means of producing MMR innovative materials in large quantities, and (v) whether the Company is able to deploy prototype MMR placements and then manufacture and introduce commercial production MMR equipment as well as those risks set forth in Item 1a, "Risk Factors", in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 and (vi) whether the Company will achieve a greater proportion of its sales in the future through the sale of advanced processor production systems.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's fixed rate debt is not exposed to cash flow or interest rate changes but it is exposed to fair market value changes in the event of refinancing this fixed rate debt.

The Company had approximately \$41,000 of variable rate borrowings outstanding under its revolving credit agreement and equipment loans. A hypothetical 10% adverse change in interest rates for this variable rate debt would have an approximate \$1,000 negative effect on the Company's earnings and cash flows on a quarterly basis.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures. Based on his evaluation as of the end of the fiscal quarter ended March 31, 2006, each of our principal executive officer and principal financial officer has concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended) are effective to ensure that material information required to be disclosed by the Company in reports that the Company files or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) Changes in internal control over financial reporting. There were no significant changes in the Company's internal control over financial reporting during the fiscal quarter ended March 31, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

MFIC CORPORATION

PART II - OTHER INFORMATION

ITEM 6 . EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

No.	Description
31.1	Certification of Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
