Item 1.01 Entry into a Material Definitive Agreement

Item 2.01 Completion of Acquisition or Disposition of Assets

Golden Cycle Gold Corporation (the Company or Golden Cycle) entered into an agreement (Agreement) August 23, 2006, with Tornado Gold International Corp. (Tornado), pursuant to which Tornado acquired certain mining claims referred to as the Illipah claims. Tornado paid the Company US \$50,000 upon execution of the Agreement. Under the Agreement, Tornado is required to pay an additional US \$50,000 and 50,000 shares of Tornado common stock within ninety days of the date of the Agreement, an additional 100,000 shares of Tornado common stock within one hundred eighty days of the date of the Agreement, and an additional 200,000 shares of Tornado common stock one year after the date of the Agreement. Upon execution of the Agreement, Tornado assumed Golden Cycle s obligations in an underlying exploration and mining lease agreement on the claims, and grants to Golden Cycle a production royalty of two percent of net smelter returns on all rents and mineral production from the property. Tornado has the option, exercisable at any time prior to commercial production on any of the Illipah claims, to reduce the Golden Cycle production royalties from two percent to one percent by paying Golden Cycle, at Golden Cycle s option, either US \$1 million, or its equivalent in gold bullion at the August 23, 2006 closing price of gold on the New York Commodity Exchange. Tornado has also agreed to undertake an exploration program on the Illipah property and related area of interest, and incur exploration and development expenditures of at least US \$750,000 within two years, of which US \$250,000 must be expended during the first year of the Agreement. Pursuant to the Agreement, Golden Cycle may reacquire the Illipah claims under certain circumstances, such as default by Tornado.

The foregoing description of the Agreement is qualified in its entirety by reference to the full text of such document, which is filed with this Current Report as Exhibit 2.1 and is incorporated herein by reference.
