⁽a) Non-income producing security.

⁽b) Affiliated issuers in which the Fund holds 5% or more of the voting securities (Total Market Value of \$22,482,860).

⁽c) Includes 321,000 non-voting shares.

⁽d) Variable maturity.

⁽e) Security fair valued by the Valuation Committee of the Board of Trustees.

⁽f) American Depository Receipt.

⁽g) Foreign Security.

Investment Securities Valuation - Investments traded on national securities exchanges or in the over-the-counter market that are National Market System securities are valued at the last sale price or, lacking any sales, at the mean between the last bid and asked prices. Other over-the-counter securities are valued at the most recent bid prices as obtained from one or more dealers that make markets in the securities. Exchange-traded investments for which market quotations are not readily available are valued at fair value as determined in good faith by the Trustees of the Fund. The fair value of venture capital and other restricted securities is determined in good faith by the Trustees. However, because of the uncertainty of fair valuations these estimated values may differ significantly from the values that would have been used had a ready market for these securities existed, and the differences could be material. Each such fair value determination is based on a consideration of relevant factors. Factors the Trustees consider may include (i) the existence of any contractual restrictions on the disposition of securities; (ii) information obtained from the issuer which may include an analysis of the company s financial statements, the company s products or intended markets or the company s technologies; and (iii) the price of a security negotiated at arm s length in an issuer s completed subsequent round of financing. Short-term investments with maturity of 60 days or less are valued at amortized cost.

Venture Capital and Other Restricted Securities - The following table details the acquisition date, cost, carrying value per unit, and value of the Fund s venture capital and other restricted securities at December 31, 2006, as determined by the Trustees of the Fund. The Fund may invest up to 40% of its net assets in venture capital and other restricted securities. The values of these securities represent 16% of the Fund s net assets at December 31, 2006. The Fund on its own does not have the right to demand that such securities be registered.
