CURRENT REPORT 2

INFODMATION TO	RE INCLUDED	IN THE DEDOOT

On October 24, 2007, CIBER, Inc. (the Company or we) issued a press release in which we announced our financial results for the three months ended September 30, 2007, and updated our guidance for the 2007 fiscal year. The full text of the press release issued in connection with the announcement is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The Company reports its financial results in accordance with generally accepted accounting principles (GAAP). However, management believes that certain non-GAAP financial measures used in managing the Company s business may provide users of this financial information with additional meaningful comparisons between current results and prior reported results. Certain of the information set forth in the attached press release constitutes non-GAAP financial measures within the meaning of Regulation G adopted by the Securities and Exchange Commission. We have presented below a reconciliation of these measures to the most directly comparable GAAP financial measure. The presentation of this additional information is not meant to be considered in isolation or as a substitute for comparable amounts determined in accordance with GAAP in the United States.

These non-GAAP financial measures are discussed below.

1. Organic Revenue Growth Organic revenue growth is measured as GAAP reported revenue growth adjusted for acquisitions and divestitures, the impact of foreign currency, and other changes that do not reflect the underlying results and trends.

Organic revenue growth is a useful measure of the Company s performance because it excludes items that: 1) are not completely under management s control, such as the impact of foreign currency exchange; or 2) do not reflect the underlying growth of the Company, such as acquisition and divestiture activity. The limitation of this measure is that it excludes items that have an impact on the Company s revenue. This limitation is best addressed by using organic revenue growth in combination with the GAAP numbers.

The following tables reconcile organic revenue growth for the three and nine month periods ended September 30, 2007, to the most comparable GAAP measure, reported revenue growth.

Reconciliation of GAAP Reported Revenue Growth to Organic Revenue Growth (Non-GAAP)

(Dollars in millions) U.S. ERP Solutions European Operations(1) CIBER Consolidated
