NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except per share data)

(unaudited)

**Note 1. Basis of Presentation and Organization**

The accompanying condensed consolidated financial statements of Five Star Quality Care, Inc. and its subsidiaries have been prepared without audit. Certain information and disclosures required by generally accepted accounting principles for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2008. In the opinion of our management, all adjustments, which include only normal recurring adjustments, considered necessary for a fair presentation have been included. All material intercompany transactions and balances have been eliminated. Our operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. For further discussion of our liquidity and capital resources see Item 2 of this quarterly report.

We operate senior living communities, including independent living or congregate care communities, assisted living communities and skilled nursing facilities, or SNFs. As of March 31, 2009, we leased or owned and operated 210 senior living communities containing 22,260 living units, including 161 primarily independent and assisted living communities with 17,846 living units and 49 SNFs with 4,414 units.

Of our 161 primarily independent and assisted living communities, we:

- leased 134 communities containing 15,670 living units from Senior Housing Properties Trust, or Senior Housing, our former parent;
- leased four communities with 200 living units from Health Care Property Investors, or HCPI; and
- owned 23 communities with 1,976 living units.

Of our 49 SNFs, we:

- leased 47 facilities from Senior Housing with 4,143 units; and
- owned two facilities with 271 units.

In the aggregate, our 210 senior living communities included 6,303 independent living apartments, 9,675 assisted living units and 6,282 skilled nursing units. Two assisted living communities containing 173 living units which are reported in discontinued operations are included in these counts.

We also own and operate institutional pharmacies and we operate two rehabilitation hospitals with 321 beds that we lease from Senior Housing. Our two rehabilitation hospitals provide inpatient services at the two hospitals and three satellite locations. In addition we operate 14 outpatient clinics affiliated with these rehabilitation hospitals.

**Note 2. New Accounting Pronouncements**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

In April 2009, the Financial Accounting Standards Board, or FASB, issued FASB Staff Position, or FSP, No. FAS 141R-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*, or FSP 141R-1. FSP 141R-1 amends and clarifies Statement of Financial Accounting Standards, or SFAS, No. 141 (revised 2007), *Business Combinations*, to require that an acquirer recognize at fair value, at the acquisition date, an asset acquired or a liability assumed in a business combination that arises from a contingency (pre-acquisition contingency) if the fair value of that asset or liability can be determined during the measurement period. If the fair value of a pre-acquisition contingency cannot be reasonably determined, the acquirer should apply the provisions of SFAS 5, *Accounting for Contingencies*, to determine whether the contingency should be recognized at the acquisition date or after it. FSP 141R-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The impact of FSP 141R-1 on our consolidated results of operations and financial condition will depend on the nature and size of acquisitions, if any, subsequent to the effective date.

In April 2009, the FASB also issued FSP No. FAS 107-1 and Accounting Principles Board, or APB, 28-1, *Interim Disclosures About Fair Value of Financial Instruments*, or FSP 107-1, which extends the disclosure requirements of SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, to interim financial statements of publicly traded companies as defined in APB Opinion No. 28, *Interim Financial Reporting*. FSP 107-1 will be effective for interim reporting periods ending after June 15, 2009. We are currently evaluating the impact the adoption will have on our consolidated financial statements.

In April 2009, the FASB issued FSP No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability has Significantly Decreased and Identifying Transactions that are Not Orderly*, or FSP 157-4, which amends SFAS No. 157, *Fair Value Measurements* to provide additional guidance on estimating fair value when the volume and level of transaction activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability. FSP 157-4 also provides additional guidance on circumstances that may indicate that a transaction is not orderly. FSP 157-4 will be effective for interim and annual reporting periods ending after June 15, 2009. We are currently evaluating the impact the adoption will have on our consolidated financial statements.

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*, or FSP 115-2, which amends the other-than-temporary impairment guidance for debt and equity securities. FSP 115-2 will be effective for interim and annual reporting periods ending after June 15, 2009. We evaluated the effect of the adoption of FSP 115-2 and have concluded that it has no effect on our financial position or results of operations.

### **Note 5. Financial Data by Segment**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

Our reportable segments consist of our senior living community business and our rehabilitation hospital business. In the senior living community segment, we operate independent living and congregate care communities, assisted living communities and SNFs. Our rehabilitation hospital segment provides inpatient rehabilitation services at two hospital locations and three satellite locations and outpatient rehabilitation services at 14 affiliated outpatient clinics. We do not consider our institutional pharmacy operations to be a material, separately reportable segment of our business but we report our institutional pharmacy revenues and expense as separate items within our corporate and other activities. All of our operations and assets are located in the United States, except for our two captive insurance companies that participate in our liability and workers' compensation insurance programs and which are located in Bermuda and the Cayman Islands.

We use segment operating profit as an important measure to evaluate our performance and for our business decision making purposes. Segment operating profit excludes interest and other income; interest and other expense; and certain corporate expenses.

Our revenues by segments and a reconciliation of segment operating profit (loss) to income (loss) from continuing operations before income taxes for the three months ended March 31, 2009 and 2008 are as follows:

(1) Corporate and Other includes operations that we do not consider significant, separately reportable segments of our business, as well as income and expenses that are not attributable to a specific segment.

(2) General and administrative expenses are not attributable to a specific segment and include items such as corporate payroll and benefits and outside service expenses affecting home office activities.

**Note 6. Income Taxes**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

Because we have historically reported losses, we do not currently recognize the benefit of all of our deferred tax assets, including tax loss carry forwards that may be used to offset future taxable income. We will, however, continue to assess our ability to generate sufficient taxable income during future periods in which our deferred tax assets may be realized. When we believe that we will more likely than not recover our deferred tax assets, we will record deferred tax assets as an income tax benefit in our consolidated statement of operations, which will affect our results of operations. As of December 31, 2008, our federal net operating loss carryforward was approximately \$165,361. Our net operating loss carry forwards, that begin to expire in 2023 if unused, are subject to audit and adjustments by the Internal Revenue Service.

(unaudited)

For the three months ended March 31, 2009, we recognized tax expenses of \$516, which includes tax expense of \$186 for state taxes payable on operating income and state tax expense of \$330 attributable to the gain on extinguishment of debt each payable without regard to our tax loss carry forwards. This tax expense is solely associated with our income from continuing operations.

**Note 7. Earnings Per Share**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

Basic earnings per share, or EPS, for the three months ended March 31, 2009 and 2008 is computed using the weighted average number of shares outstanding during the periods. Diluted EPS for the three months ended March 31, 2009 and 2008 reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income applicable to common shareholders that would result from their assumed issuance.

The following table provides a reconciliation of net income and the number of common shares used in the computations of diluted EPS:

	Three Months Ended March 31,					
	2009			2008		
	Income (loss)	Shares	Per Share	Income (loss)	Shares	Per Share
Income from continuing operations	\$ 24,962	32,206	\$ 0.78	\$ 4,419	31,818	\$ 0.14

(1) Long lived assets held for sale consist of property and equipment we expect to sell to Senior Housing as permitted by our leases. We determined that these asset costs approximate fair value since we have either recently acquired the assets or the assets are part of ongoing construction projects and we expect to sell these assets to Senior Housing at their recorded value.

(2) Our investments in trading securities consist of auction rate securities, or ARS, which are primarily bonds issued by various entities to fund student loans pursuant to the Federal Family Education Loan Program. Due to events in the credit markets, auctions for our ARS failed starting in the first quarter of 2008 and there is

currently no market, or a very illiquid market, in which we might sell these securities. We measured the fair value of these securities by reference to a statement provided by UBS AG, or UBS, that was calculated with the assistance of a valuation model. This model considered, among other items, the collateral underlying the investments, the creditworthiness of the counterparty, the timing of expected future cash flows including possible refinancing of the securities and a determination of the appropriate discount rate. The analysis also included a comparison, when possible, to observable market data with characteristics similar to our ARS. We reviewed the components of, and calculations made under, UBS's model. Due to the changes in fair value for our ARS for the period ended March 31, 2009, we have recorded an unrealized gain of \$3,516.

(3) We have entered a settlement agreement with UBS related to our investment in ARS. Pursuant to this agreement we have the right to require UBS to acquire our ARS at par value after June 2010. We valued this put right by taking into consideration the fair value of our ARS, the amounts outstanding on our loan with UBS and a factor representing our credit party risk with UBS. The largest risk associated with these rights is the continued financial solvency of UBS. The value of our put right fluctuates inversely with the value of the ARS that we hold. The increase in value of our ARS during the three months ended March 31, 2009 caused an unrealized loss of \$3,527 in the value of our put right. We have accounted for our put right as a freestanding financial instrument and elected to record it as its estimated fair market value under the fair value option of SFAS No. 159, *The Fair Value Option for Financial Assets*. We elected the fair value option since we expect, other than changes in UBS's credit default swap rate and our borrowings on the UBS line, the changes in fair value of the put right will be offset by the fair value change in the ARS.

(4) Investments in available for sale securities consist primarily of preferred securities and are reported on our balance sheet as current investments in available for sale securities of \$6,720, current restricted investments of \$2,173 and long term restricted investments of \$6,037. These securities are carried at fair value utilizing quoted market prices with changes in fair value recorded in other comprehensive income. When a change in fair value is deemed temporary, we record a corresponding credit or charge to other comprehensive income for any unrealized gains or losses. If we determine that a valuation adjustment is other than temporary, we would record a charge to earnings. During the three months ended March 31, 2009, we have recorded an other than temporary loss of \$2,947, due to current economic conditions involving the companies that issued the securities we hold.

The table below presents the change in fair value measurements that used Level 3 inputs for the period ended March 31, 2009:

	<b>Investments in trading securities</b>		<b>UBS put right</b>
Balance at December 31, 2008	\$ 62,866	\$	11,081
Change in value recognized in earnings	3,542		(3,527)
Balance at March 31, 2009	\$ 66,408	\$	7,554

**Note 9. Line of Credit**

We have a \$40,000 revolving line of credit. Our revolving line of credit is available for acquisitions, working capital and general business purposes. The amount we are able to borrow at any time is subject to limitation based upon qualifying collateral. We are the borrower under this revolving line of credit and certain of our subsidiaries guarantee our obligations under the facility, which is secured by our and our guarantor subsidiaries' accounts receivable, deposit accounts and related assets. We borrow in U.S. dollars and borrowings under our revolving line of credit require annual interest at LIBOR plus 200 basis points. The facility contains covenants requiring us to maintain collateral, minimum net worth and certain other financial ratios, places limits on our ability to incur or assume debt or create liens with respect to certain of our properties and has other customary provisions. In certain

circumstances and subject to available collateral and lender approvals, the maximum amount which we may draw under this credit facility may be increased to \$80,000. The termination date may be extended twice, in each case by 12 months, subject to lender approval, our payment of extension fees and other conditions. As of March 31, 2009 and May 6, 2009, no amounts were outstanding and \$40,000 was available under this line of credit. As of March 31, 2009 and May 6, 2009 we believe we are in compliance with all applicable covenants under this revolving line of credit. Interest expense and other associated costs related to this facility were \$39 and \$49 for the three months ended March 31, 2009 and 2008, respectively.

Pursuant to our settlement agreement with UBS, we have a non-recourse credit facility with UBS which is available for acquisitions, working capital and general business purposes. The amount we are able to borrow at any time is 60% of the market value of the ARS which are collateral for the loan. Such amount may vary over time. Our interest rate under the credit facility will also vary depending on the interest payable to us on the ARS, but will not exceed LIBOR plus 50 basis points. As of March 31, 2009, we had \$37,100 outstanding under this credit facility, and \$2,700 remained available to borrow. As of May 6, 2009, we have \$39,800 outstanding under this credit facility and no amounts remain available to borrow. As of March 31, 2009 and May 6, 2009, we believe we are in compliance with all applicable covenants under this revolving credit facility. Interest expense and other associated costs related to this facility were \$69 for the three months ended March 31, 2009.

**Note 10. Mortgages Payable**

At March 31, 2009, three of our communities were encumbered by United States Department of Housing and Urban Development, or HUD, insured mortgages totaling \$12,553. The weighted average interest rate on these loans was 6.23%. Payments of principal and interest are due monthly until maturities at varying dates ranging from June 2035 to July 2043. These mortgages contain standard HUD mortgage covenants. Mortgage interest expense, including premium amortization, was \$202 and \$306 for the three months ended March 31, 2009 and 2008, respectively.

**Note 11. Convertible Senior Notes due 2026**

In October 2006, we issued \$126,500 principal amount of our Convertible Senior Notes due 2026, or the Notes, pursuant to an indenture which contains customary covenants. Our net proceeds from this offering were approximately \$122,600. The Notes are convertible into our common shares at any time. The initial conversion rate, which is subject to adjustment, is 76.9231 common shares per \$1 principal amount of the Notes, which represents an initial conversion price of \$13.00 per share. A holder that surrenders Notes for conversion in connection with a make-whole fundamental change, as defined in the indenture governing the Notes that occurs before October 20, 2011 may in some circumstances be entitled to an increased conversion rate. Interest expense and other associated costs on the Notes were \$871 and \$1,239 for the three months ended March 31, 2009 and 2008, respectively. We believe we are in compliance with all applicable covenants of this indenture.

In January 2009, we purchased and retired \$46,500 par value, or 36.8%, of our outstanding Notes for \$20,000, plus accrued interest. We financed this purchase principally by borrowings under our UBS credit facility. As a result of this transaction, we recorded a \$25,125 gain, net of related unamortized costs, on early extinguishment of debt.

In April 2009, we purchased and retired an additional \$8,500 par value of our outstanding Notes for \$3,740, plus accrued interest. We financed this purchase principally by borrowings under our UBS credit facility. As a result of this transaction, we expect to record in the second quarter of 2009 a \$4,510 gain, net of related unamortized costs, on early extinguishment of debt.

**Note 12. Related Person Transactions**

We leased 181 senior living communities of the 210 senior living communities we operated at March 31, 2009 and our two rehabilitation hospitals from Senior Housing for a total minimum rent of \$173,895.

During the three months ended March 31, 2009, pursuant to the terms of our leases with Senior Housing, Senior Housing purchased \$12,734 of improvements made to our properties leased from Senior Housing, and, as a result, our annual rent payable to Senior Housing increased by approximately \$1,020.

In February 2009, we invested \$25 in an insurance company with Reit Management & Research, LLC, or RMR, and other companies to which RMR provides management services, and in April 2009 we invested an additional \$5,049 in this insurance company. We currently own approximately 16.67% of this insurance company.

For more information about our related party transaction, including our transactions with Senior Housing and RMR, please see our Consolidated Financial Statements for the year ended December 31, 2008 and the Notes thereto as reported on our Annual Report on Form 10K as filed with the Securities and Exchange Commission, or SEC.

**Note 13. Discontinued Operations**

In March 2007, we agreed with Senior Housing that it should sell two assisted living communities in Pennsylvania, which we lease from Senior Housing. We and Senior Housing are in the process of selling these assisted living communities and, upon their sale, our annual minimum rent payable to Senior Housing will decrease by 9.0% of the net proceeds of the sale to Senior Housing, in accordance with the terms of our lease with Senior Housing. In December 2007, we decided to sell one institutional pharmacy located in California and our mail order pharmacy located in Nebraska. We sold our institutional pharmacy on January 15, 2009, which resulted in a gain on sale of \$1,195. We were unable to sell the mail order pharmacy on acceptable terms and we discontinued its operations on March 31, 2009.

As of March 31, 2009, we had disposed of substantially all of our assets and liabilities related to the assisted living communities which we expect to sell. The assets and liabilities related to the two pharmacies that we sold or closed are presented separately in the consolidated balance sheet. We have reclassified the consolidated statement of income for all periods presented to show the results of operations of the communities and pharmacies which have been sold or are expected to be sold as discontinued. Below is a summary of the operating results of these discontinued operations included in the financial statements for the three months ended March 31, 2009 and 2008:

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operation****RESULTS OF OPERATIONS**

Our reportable segments consist of our senior living community business and our rehabilitation hospital business. In the senior living community segment, we operate independent living, congregate care communities, assisted living communities and skilled nursing facilities, or SNFs. Our rehabilitation hospital segment provides inpatient rehabilitation services at two hospital locations and three satellite locations and outpatient rehabilitation services at 14 outpatient clinics. We do not consider our institutional pharmacy operations to be a material, separately reportable segment of our business but we report our institutional pharmacy revenues and expense as separate items within our corporate and other activities. All of our operations and assets are located in the United States, except for our two captive insurance companies that participate in our workers' compensation and liability insurance programs and which are located in Bermuda and the Cayman Islands.

We use segment operating profit as an important measure to evaluate our performance and for internal business decision making purposes. Segment operating profit excludes interest and other income, interest and other expense and certain corporate expenses.

Three Months Ended March 31, 2009, Compared to Three Months Ended March 31, 2008

Senior living communities:

The 16.3% increase in senior living revenue for the three months ended March 31, 2009 was due primarily to revenues from the 42 communities we began to operate after January 1, 2008 and increased per diem charges, partially offset by a decrease in occupancy. The 1.3% increase in senior living revenue at the communities that we have operated continuously since January 1, 2008 was due primarily to increased per diem charges, partially offset by a decrease in occupancy.

Our 17.4% increase in senior living wages and benefits costs for the three months ended March 31, 2009 was primarily due to wages and benefits from the 42 communities we began to operate after January 1, 2008 and wage increases. The 15.7% increase in other senior living operating expenses, which include utilities, housekeeping, dietary, maintenance, insurance and community level administrative costs, primarily resulted from the other operating expenses at the 42 communities we began to operate after January 1, 2008. The senior living community expenses for the senior living communities that we have operated continuously since January 1, 2008 have increased by 2.6%, due primarily to increases in wages and benefits. The 25.7% rent expense increase was due to the 33 communities that we began to lease after January 1, 2008 and our payment of additional rent for senior living community capital improvements purchased by Senior Housing since January 1, 2008.

The 29.4% increase in depreciation and amortization expense for the three months ended March 31, 2009 was primarily attributable to our acquisition of ten communities after January 1, 2008 and our purchase of furniture and fixtures for our owned communities.

Interest and other expense decreased by 34.0%, for the three months ended March 31, 2009, primarily due to our September 2008 prepayment of two HUD insured mortgages secured by one of our communities.

Interest and other income decreased by \$679,000, or 71.4%, for the three months ended March 31, 2009, primarily as a result of the recognition in the first quarter of 2008 of an \$840,000 gain related to the 2003 sale of a property that was previously deferred until the buyer paid our note receivable related to the sale.

Rehabilitation hospitals:

The 0.2% decrease in rehabilitation hospital revenues for the three months ended March 31, 2009 was primarily due to lower Medicare payment rates and a decrease in occupancy.

The 1.4% increase in rehabilitation hospital expenses for the three months ended March 31, 2009 was primarily due to increases in labor and benefit expenses.

The 5.1% increase in rent expense for the three months ended March 31, 2009 was due to our payment of additional rent for rehabilitation hospital capital improvements purchased by Senior Housing since January 1, 2008.

The 88.0% decrease in depreciation and amortization expense for the three months ended March 31, 2009 was primarily attributable to our write off of long lived assets in the fourth quarter of 2008, partially offset by our purchase of computers and related information technology equipment.

Corporate and other:

The 6.2% increase in institutional pharmacy revenues for the three months ended March 31, 2009 was primarily the result of adding new customers from our senior living and third party senior living communities.

The 13.4% increase in institutional pharmacy expenses for the three months ended March 31, 2009 was primarily the result of adding new customers from our senior living and third party senior living communities and additional expenses related to the opening of a new business office and one satellite pharmacy located in Nebraska.

Table of Contents

The 11.8% increase in general and administrative expenses for the three months ended March 31, 2009 was primarily the result of the costs associated with the 47 communities we began to operate in 2008.

The 10.8% increase in depreciation and amortization expense for the three months ended March 31, 2009 was primarily attributable to our purchase of furniture and fixtures and computers and related information technology equipment for our pharmacies and corporate and regional offices.

Our interest and other income decreased by \$684,000, or 44.3%, for the three months ended March 31, 2009 primarily as a result of lower cash available for investment and lower interest rates earned on our cash investments.

Our interest and other expense decreased by \$309,000, or 24.0%, primarily as a result of our retirement of \$46.5 million of our outstanding Notes.

During the three months ended March 31, 2009, we recognized:

- an unrealized gain of \$3.5 million on investments in trading securities, principally related to our holdings of auction rate securities, or ARS;
- an unrealized loss of \$3.5 million on the value of our UBS put right;
- an other than temporary loss of \$2.9 million on investments in available for sale securities.

In January 2009, we purchased and retired \$46.5 million par value of our outstanding Notes for \$20.0 million, plus accrued interest. As a result of this transaction we recorded a gain on extinguishment of debt of \$25.1 million during the first quarter of 2009.

For the three months ended March 31, 2009, we recognized tax expenses of \$516,000, which includes tax expense of \$186,000 for state taxes payable on operating income and state tax expense of \$330,000 attributable to the gain on extinguishment of debt, each payable without regard to our tax loss carry forwards.

**LIQUIDITY AND CAPITAL RESOURCES**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

For the three months ended March 31, 2009, we had \$23.1 million of cash flows from continuing operations. As of March 31, 2009, we had unrestricted cash and cash equivalents of \$28.4 million. We had no amounts outstanding on our \$40.0 million revolving line of credit and \$37.1 million outstanding and \$2.7 million available under our line with UBS. We believe that our operations will continue to provide us with adequate cash flow to run our businesses and invest in and maintain our properties. If, however, our occupancy continues to decline and we are unable to generate positive cash flow for some period of time, we intend to further reduce costs or to borrow additional funds from our outstanding lines of credit.

### **Auction Rate Securities**

At March 31, 2009, we had \$66.4 million invested in student loan ARS with a par value of \$74.8 million which we classified as long term investments in trading securities. The funds which we invested in ARS were held to invest in potential acquisitions. Accordingly, these funds are not needed to fund our current operations. Based upon our expected operating cash flows and other sources of cash, we do not expect the failure of auctions affecting our ARS holdings to have a material adverse impact upon our day to day operations or our ability to meet our liquidity needs.

In November 2008, we entered into a settlement with UBS regarding our ARS. The settlement offer was made in connection with UBS's settlement with the Securities and Exchange Commission, the New York Attorney General and other state agencies related to UBS's sale and marketing of ARS. Under the terms of the settlement, we obtained a put right pursuant to which UBS will repurchase our ARS at 100% of par value (including accrued and unpaid interest, if any) at our option during the period beginning June 2010 and ending July 2012. In certain circumstances, UBS has the right to purchase these securities earlier at par. As part of the settlement terms, we released UBS from all claims arising from its marketing of the ARS to us. In connection with the settlement, UBS provided us with a non-recourse credit facility secured by our investments in these ARS. The principal amount available to us under the credit facility is up to 60% of the market value of the ARS from time to time. As of March

Table of Contents

31, 2009, the estimated fair value of our investment in ARS was \$66.4 million, we had borrowings of \$37.1 million outstanding under the credit facility and \$2.7 million available for future borrowings. Our interest rate under the credit facility varies depending on the interest payable to us on the ARS, but will not exceed LIBOR plus 50 basis points.

We expect to sell our ARS by exercising our put right with UBS. However, if we do not exercise our put right before July 2, 2012, it will expire and UBS will have no further right or obligation to buy our ARS. The value of the put right is the difference between our estimated value of UBS repurchase obligation and our estimate of the fair value of the ARS. Accordingly, the value of the put right may increase or decrease as our estimate of the value of UBS repurchase obligation and our estimate of the fair value of the ARS changes. We reassess the fair values in each reporting period based on several factors, including auction and investment redemption experience, changes in credit ratings of UBS and our ARS investments, market risk and other factors. During the quarter ended March 31, 2009 we had an unrealized gain of \$3.5 million on our investments in ARS and we recognized a corresponding \$3.5 million decrease in the fair value of the put right.

**Assets and Liabilities**

Our total current assets at March 31, 2009 were \$116.3 million, compared to \$114.3 million at December 31, 2008. At March 31, 2009, we had cash and cash equivalents of \$28.4 million compared to \$16.1 at December 31, 2008. Our current liabilities were \$135.8 million at March 31, 2009, compared to \$129.1 million at December 31, 2008.

We had cash flows from continuing operations of \$23.1 million for the first three months of 2009 as compared with \$21.7 million for the same period of 2008. Acquisitions of property plant and equipment, on a net basis after considering the proceeds from sales of fixed assets to Senior Housing, were \$6.2 million and \$2.1 million for the three month periods ended March 31, 2009 and 2008, respectively. During the first three months of 2009, we purchased and retired \$46.5 million par value of our Notes for \$20.0 million plus accrued interest.

**Our Leases with Senior Housing**

As of March 31, 2009, we leased 181 senior living communities and two rehabilitation hospitals from Senior Housing under seven leases (in four combinations). Our leases with Senior Housing require us to pay minimum rent of \$173.9 million annually and percentage rent for most senior living communities but not for our rehabilitation hospitals. We paid approximately \$639,000 and \$1.0 million in percentage rent to Senior Housing for the three months ended March 31, 2009 and 2008, respectively.

Upon our request, Senior Housing may purchase capital improvements made at the properties we lease from Senior Housing and increase our rent pursuant to contractual formulas. During the three months ended March 31, 2009, Senior Housing reimbursed us \$12.7 million for capital expenditures made at the properties leased from Senior Housing and these purchases resulted in our annual rent being increased by \$1.0 million.

**Our Revenues**

Our revenues from services to residents at our senior living communities and patients of our rehabilitation hospitals and clinics are our primary source of cash to fund our operating expenses, including rent, principal and interest payments on our debt and our capital expenditures.

During the past year, our occupancy has been negatively affected by worsening economic conditions in many of the markets that we serve. These conditions appear to be impacting many companies both within and outside of our industry and there can be no certainty as to when current economic conditions may improve.

At some of our senior living communities and at our rehabilitation hospitals and clinics, operating revenues for skilled nursing and rehabilitation services are received from the Medicare and Medicaid programs. Medicare and Medicaid revenues were earned primarily at our SNFs and rehabilitation hospitals. We derived 33.8% and 37.2% of our revenues from these programs during the three months ended March 31, 2009 and 2008, respectively.

Our net Medicare revenues from services to senior living community residents totaled \$37.2 million and \$34.6 million for the three months ended March 31, 2009 and 2008, respectively. In October 2008 our senior living community

Table of Contents

Medicare rates increased by approximately 3.5% over the prior period. Our net Medicaid revenues from services to senior living community residents totaled \$39.9 million and \$38.2 million for the three months ended March 31, 2009 and 2008, respectively. Federal agencies and some members of Congress have proposed Medicare and Medicaid policy changes and freezes on rate increases or rate reductions to be phased in during the next several years. The Federal Centers for Medicare and Medicaid Services, or CMS, has recently proposed rules that it estimates would decrease aggregate Medicare payments to SNFs by approximately 1.2% in federal fiscal year 2010. In addition, some of the states in which we operate either have not raised Medicaid rates by amounts sufficient to offset increasing costs or are expected to freeze or reduce Medicaid rates. The current recession and worsening economic conditions are causing budget shortfalls in many states, increasing the likelihood of Medicaid rate reductions, freezes on rate increases, or increases that are insufficient to offset increasing operating costs. The magnitude of the potential Medicare and Medicaid rate reductions and the impact on us of the failure of these programs to increase rates to match increasing expenses, as well as the impact on us of the potential Medicare and Medicaid policy changes, cannot currently be estimated, but they may be material to our operations and may affect our future results of operations. Effective as of October 1, 2008 CMS increased Medicare rates for SNFs by approximately 3.5% for the federal fiscal year ending September 30, 2009, under a rule adding an annual update to account for inflation in the cost of goods and services included in a SNF stay. CMS had proposed a recalibration of the payment categories for SNFs, which would have resulted in a net reduction of rates by approximately 0.3% in federal fiscal year 2009, but delayed the recalibration in order to continue to evaluate the data. CMS has recently issued proposed rules recalibrating the Medicare prospective payment categories for SNFs for federal fiscal year 2010. If CMS adopts the proposed rules, the recalibration will result in a decrease of approximately 3.3% in projected SNF payments, offset by a proposed increase of approximately 2.1% to account for inflation. As a result, CMS anticipates that aggregate Medicare payments for SNFs would be reduced by approximately 1.2% in fiscal year 2010, for discharges on or after October 1, 2009. On July 15, 2008, as part of the Medicare Improvements for Patients and Providers Act of 2008, Congress enacted an 18-month extension of the Medicare outpatient therapy exception process through the end of 2009, under which Medicare may approve payments for medically necessary outpatient therapies which exceed the Medicare payment caps. This July 15, 2008 law forestalls a reduction in certain therapy revenues that we have historically realized.

Approximately 63.4% and 66.3% of our revenues from our two rehabilitation hospitals came from the Medicare and Medicaid programs for the three months ended March 31, 2009 and 2008, respectively. In October 2007, the Medicare rates at our inpatient rehabilitation facilities, or IRFs, increased by approximately 3.2% over the prior period. However, this increase was later rescinded and, for payments on and after April 1, 2008, the Medicare rate increase was reset to zero per cent for federal fiscal years 2008 and 2009. Also, on July 1, 2008, CMS issued a rule updating the Medicare IRF prospective rate formulas for the federal fiscal year 2009. The rule revises the weights assigned to patient case-mix groups that are used to calculate rates under the IRF prospective payment system, and re-sets the outlier threshold to maintain estimated outlier payments at 3% of total estimated IRF payments for the year. CMS estimated that the rule would result in a decrease of 0.7% to total Medicare payments to IRFs for the year. CMS has recently proposed an increase of approximately 2.4% to Medicare prospective payment rates at IRFs for fiscal year 2010, to account for inflation and update the outlier payment limits. If adopted, this increase would take effect as of October 1, 2009. In May 2004, CMS issued the 75% Rule establishing revised Medicare criteria that rehabilitation hospitals are required to meet in order to participate as IRFs in the Medicare program. As recently amended, the rule requires that for cost reporting periods starting on and after July 1, 2006, 60% of a facility's inpatient population must require intensive rehabilitation services for one of the CMS's designated medical conditions. An IRF that fails to meet the requirements of this rule is subject to reclassification as a different type of healthcare provider; and the effect of such reclassification would be to lower Medicare payment rates. As of March 31, 2009 and May 6, 2009, we believe we are in compliance with the CMS requirements to remain an IRF. However, the actual percentage of patients at these hospitals who meet these Medicare requirements may not be or remain as high as we believe or anticipate or may decline. Our failure to remain in compliance, or a CMS finding of noncompliance, if it occurs, will result in our receiving lower Medicare rates than we currently receive at our rehabilitation hospitals.

**Debt Financings and Covenants**

In October 2006, we issued \$126.5 million principal amount of Notes. These Notes are convertible into our common shares at any time. The initial conversion rate, which is subject to adjustment, is 76.9231 common shares per \$1,000 principal amount of Notes, which represents an initial conversion price of \$13.00 per share. The Notes are guaranteed by certain of our wholly owned subsidiaries. These Notes mature on October 15, 2026. We may

Table of Contents

prepay the Notes at any time after October 20, 2011 and the Note holders may require that we purchase all or a portion of these Notes on each of October 15 of 2013, 2016 and 2021. We issued these Notes pursuant to an indenture which contains various customary covenants. As of March 31, 2009 and May 6, 2009, we believe we are in compliance with all applicable covenants of this indenture.

In January 2009, we purchased and retired \$46.5 million par value, or 36.8%, of our outstanding Notes for \$20.0 million plus accrued interest. We financed this purchase, principally by borrowings under our UBS credit facility. As a result of this transaction, we recorded a gain of \$25.1 million net of related unamortized costs on early extinguishment of debt.

In April 2009, we purchased and retired an additional \$8.5 million par value of our outstanding Notes for \$3.7 million, plus accrued interest. We financed this purchase principally by borrowings under our UBS credit facility. As a result of this transaction, we expect to record a \$4.5 million gain, net of related unamortized costs, on early extinguishment of debt in the second quarter of 2009.

We have a \$40.0 million revolving secured credit facility with a financial institution available for general business purposes, including acquisitions and working capital, which is currently scheduled to expire in May 2010. The amount we are able to borrow at any time is subject to limitations based upon qualifying collateral. We are the borrower under this revolving credit facility and certain of our subsidiaries guarantee our obligations under the facility, which is secured by our and our guarantor subsidiaries' accounts receivable, deposit accounts and related assets. The facility contains covenants requiring us to maintain collateral, minimum net worth and certain other financial ratios; and this facility also places limits on our ability to incur or assume debt or create liens with respect to certain of our assets and has other customary provisions. In certain circumstances and subject to available collateral and lender approvals, the maximum amounts which we may borrow under this credit facility may be increased to \$80.0 million. The termination date may be extended twice, in each case by 12 months upon our payment of extension fees and other conditions, including lender's approvals. As of March 31, 2009 and May 6, 2009, no amounts were outstanding with \$40.0 million available under this credit facility. As of March 31, 2009 and May 6, 2009, we believe we are in compliance with all applicable covenants under this credit facility.

We may borrow additional amounts under the facility before it expires in May 2010. If we have outstanding borrowings under the facility and are unable to extend it when it expires, we would need to explore alternatives for the repayment of amounts due. Such alternatives may include incurring additional debt and engaging in sale leaseback transactions relating to some or all of our owned communities. While we believe we will be able to extend this facility or raise funds to repay any outstanding borrowings, there can be no assurance that we will be able to do so or that our cost associated with any such transaction will be reasonable. If current capital market conditions continue or worsen, our lender under this facility may be unable or unwilling to fund advances which we request or to extend or renew this facility when it expires and we may not be able to access additional capital. Also, the current market conditions have led to materially increased credit spreads which, if they continue, may result in a material increase in the interest rate under this facility when it is extended or renewed.

In November 2008, we entered into a non-recourse credit facility with UBS which is available for acquisitions, working capital and general business purposes. The amount we are able to borrow is 60% of the fair value of the ARS which are collateral for the loan and such amount may vary over time. Our interest rate under the credit facility varies depending on the interest payable to us on the ARS, but will not exceed LIBOR plus 50 basis points. As of March 31, 2009, the estimated fair value of our investment in ARS was \$66.4 million. As of March 31, 2009 we had \$37.1 outstanding under this credit facility and \$2.7 million remained available for drawing. As of May 6, 2009, we have \$39.8 million outstanding under this credit facility and no amounts remain available. As of March 31, 2009 and May 6, 2009 we believe we are in compliance with all applicable covenants under this credit facility.

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

At March 31, 2009, three of our communities were encumbered by HUD insured mortgages totaling \$12.6 million. The weighted average interest rate on these mortgages is 6.23%. Payments of principal and interest are due monthly until maturities at varying dates ranging from June 2035 to July 2043. These mortgages contain standard HUD mortgage covenants. As of March 31, 2009 and May 6, 2009, we believe we are in compliance with all covenants of these mortgages.

**Related Person Transactions**

Senior Housing is our former parent company and we have various continuing relationships with Senior Housing. We lease 181 senior living communities and two rehabilitation hospitals that we operated on March 31, 2009 from Senior Housing for total annual minimum rent of \$173.9 million. In addition to the minimum rent, we paid \$639,000 and \$1.0 million in percentage rent to Senior Housing for the three months ended March 31, 2009 and 2008, respectively.

Upon our request, Senior Housing may purchase our capital improvements and other investments made at the properties we lease from Senior Housing and increase our rent pursuant to contractual formulas. During the three months ended March 31, 2009, Senior Housing reimbursed us \$12.7 million for capital expenditures made at the properties leased from Senior Housing and these purchases resulted in our annual rent being increased by \$1.0 million.

In February 2009 we invested \$25,000 in an insurance company with Reit Management & Research, LLC, or RMR, and other companies to which RMR provides management services, and in April 2009 we invested an additional \$5.0 million in this insurance company. We currently own approximately 16.67% of this insurance company.

We believe that all transactions with all parties are on reasonable commercial terms. We also believe that our relationship with Senior Housing benefits us and, in fact, provide us competitive advantages in operating and growing our businesses.

Other historical and continuing related party transactions are described in our Annual Report on Form 10K for the year ended December 31, 2008 and in our definitive proxy statement for our 2009 annual meeting, both of which are filed at the Securities and Exchange Commission, or SEC, and available at the SEC website [www.sec.gov](http://www.sec.gov).

**Seasonality**

Our senior living business is subject to modest effects of seasonality. During the calendar fourth quarter holiday periods, nursing home and assisted living residents are sometimes discharged to join family celebrations and admission decisions are often deferred. The first quarter of each calendar year usually coincides with increased illness among nursing home and assisted living residents which can result in increased costs or discharges to hospitals. As a result of these factors, nursing home and assisted living operations sometimes produce greater earnings in the second and third quarters of a calendar year and lesser earnings in the first and fourth quarters. We do not believe that this seasonality will cause fluctuations in our revenues or operating cash flow to such an extent that we will have difficulty paying our expenses, including rent, which do not fluctuate seasonally.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

## Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

We are exposed to risks associated with market changes in interest rates. We manage our exposure to this market risk by monitoring available financing alternatives. Our strategy to manage exposure to changes in interest rates remains unchanged since December 31, 2008.

### **Item 4. Controls and Procedures**

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our President and Chief Executive Officer and our Treasurer and Chief Financial Officer of the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, our President and Chief Executive Officer and our Treasurer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2009, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**WARNING CONCERNING FORWARD LOOKING STATEMENTS**

Edgar Filing: FIVE STAR QUALITY CARE INC - Form 10-Q

THIS QUARTERLY REPORT ON FORM 10-Q CONTAINS STATEMENTS WHICH CONSTITUTE FORWARD LOOKING STATEMENTS WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 AND OTHER FEDERAL SECURITIES LAWS. ALSO, WHENEVER WE USE WORDS SUCH AS BELIEVE , EXPECT , ANTICIPATE , INTEND , PLAN , ESTIMATE OR SIMILAR EXPRESSIONS, WE ARE MAKING FORWARD LOOKING STATEMENTS. THESE FORWARD LOOKING STATEMENTS ARE BASED UPON OUR PRESENT INTENT, BELIEFS OR EXPECTATIONS, BUT FORWARD LOOKING STATEMENTS ARE NOT GUARANTEED TO OCCUR AND MAY NOT OCCUR. FORWARD LOOKING STATEMENTS IN THIS REPORT RELATE TO VARIOUS ASPECTS OF OUR BUSINESS, INCLUDING:

- OUR ABILITY TO MEET OUR DEBT OBLIGATIONS;
- OUR ABILITY TO COMPLY AND TO REMAIN IN COMPLIANCE WITH APPLICABLE MEDICARE, MEDICAID AND OTHER RATE SETTING AND REGULATORY REQUIREMENTS;
- THE FINANCIAL CAPACITY OF UBS TO MEET ITS OBLIGATIONS TO US AND TO PURCHASE OUR ARS;
- OUR POTENTIAL SALE OF PROPERTIES THAT ARE CLASSIFIED AS HELD FOR SALE ON OUR CONSOLIDATED BALANCE SHEET;
- OUR PARTICIPATING IN THE INSURANCE COMPANY BEING FORMED AND LICENSED IN THE STATE OF INDIANA WITH RMR AND COMPANIES TO WHICH RMR PROVIDES MANAGEMENT SERVICES; AND
- OTHER MATTERS.

OUR ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE CONTAINED IN OR IMPLIED BY THE FORWARD LOOKING STATEMENTS AS A RESULT OF VARIOUS FACTORS, SOME OF WHICH ARE BEYOND OUR CONTROL. FACTORS THAT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR FORWARD LOOKING STATEMENTS AND UPON OUR BUSINESS, RESULTS OF OPERATIONS, FINANCIAL CONDITION, CASH FLOWS, LIQUIDITY AND PROSPECTS INCLUDE, BUT ARE NOT LIMITED TO:

- THE IMPACT OF CHANGES IN THE ECONOMY AND THE CAPITAL MARKETS ON US AND OUR RESIDENTS AND OTHER CUSTOMERS;
- COMPETITION WITHIN THE SENIOR LIVING INDUSTRY AND OUR OTHER BUSINESSES;

- INCREASES IN INSURANCE AND TORT LIABILITY COSTS;
- CHANGES IN MEDICARE AND MEDICAID POLICIES WHICH COULD RESULT IN REDUCTION OF RATES OF PAYMENT OR A FAILURE OF THESE RATES TO COVER OUR COST INCREASES;
- ACTUAL AND POTENTIAL CONFLICTS OF INTEREST WITH OUR MANAGING DIRECTORS, RMR, SENIOR HOUSING AND THEIR AFFILIATES; AND
- CHANGES IN FEDERAL, STATE AND LOCAL REGULATIONS WHICH COULD AFFECT OUR SERVICES.

FOR EXAMPLE:

- IF THE AVAILABILITY OF DEBT CAPITAL REMAINS RESTRICTED OR BECOMES MORE RESTRICTED, WE MAY BE UNABLE TO REPAY OUR DEBT OBLIGATIONS WHEN THEY

BECOME DUE OR TO REFINANCE OR OBTAIN ADDITIONAL FINANCING ON TERMS WHICH ARE AS FAVORABLE AS WE NOW HAVE;

- UBS HAS RECENTLY REPORTED SIGNIFICANT LOSSES AND MAY BE UNABLE TO PURCHASE OUR ARS AS A RESULT OF ITS FINANCIAL CAPACITY AND OTHER CIRCUMSTANCES BEYOND OUR CONTROL;

- OUR PARTICIPATION IN THE INSURANCE BUSINESS WITH RMR AND ITS AFFILIATES INVOLVES POTENTIAL FINANCIAL RISKS AND REWARDS TYPICAL OF ANY START UP BUSINESS VENTURE AS WELL AS OTHER FINANCIAL RISKS AND REWARDS SPECIFIC TO INSURANCE COMPANIES. AMONG THE RISKS THAT ARE SPECIFIC TO INSURANCE COMPANIES IS THE RISK THAT THE INSURANCE COMPANY MAY NOT BE ABLE TO ADEQUATELY PAY CLAIMS WHICH COULD LEAVE OUR COMPANY UNDERINSURED AND INCREASE ITS FUNDING EXPOSURE FOR CLAIMS THAT MIGHT OTHERWISE HAVE BEEN FUNDED IF INSURANCE WAS PURCHASED FROM OTHER INSURERS. ACCORDINGLY, OUR EXPECTED FINANCIAL BENEFITS FROM OUR INITIAL OR FUTURE INVESTMENTS IN THIS INSURANCE COMPANY MAY BE DELAYED OR MAY NOT OCCUR AND THE INSURANCE COMPANY MAY REQUIRE A LARGER INVESTMENT THAN WE EXPECT;

- WE EXPECT TO OPERATE OUR REHABILITATION HOSPITALS AND PHARMACIES PROFITABLY. HOWEVER, WE HAVE HISTORICALLY EXPERIENCED LOSSES FROM THESE OPERATIONS AND WE MAY BE UNABLE TO OPERATE THESE BUSINESSES PROFITABLY; AND

- OUR RESIDENTS AND PATIENTS MAY BE UNABLE TO AFFORD OUR SERVICES WHICH COULD RESULT IN DECREASED OCCUPANCY AND REVENUES AT OUR SENIOR LIVING COMMUNITIES AND REHABILITATION HOSPITALS.

OTHER IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE IN OUR FORWARD LOOKING STATEMENTS ARE DESCRIBED MORE FULLY UNDER ITEM 1A. RISK FACTORS IN OUR ANNUAL REPORT ON FORM 10-K FOR THE YEAR ENDED DECEMBER 31, 2008.

YOU SHOULD NOT PLACE UNDUE RELIANCE UPON OUR FORWARD LOOKING STATEMENTS.

EXCEPT AS REQUIRED BY LAW, WE DO NOT INTEND TO UPDATE OR CHANGE ANY FORWARD LOOKING STATEMENTS AS A RESULT OF NEW INFORMATION, FUTURE EVENTS OR OTHERWISE.
