BEST BUY CO., INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(\$ in millions, except per share amounts)

(Unaudited)

1. Basis of Presentation

Unless the context otherwise requires, the use of the terms Best Buy, we, us and our in these Notes to Condensed Consolidated Financial Statements refers to Best Buy Co., Inc. and its consolidated subsidiaries.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments necessary for a fair presentation as prescribed by accounting principles generally accepted in the United States. All adjustments were comprised of normal recurring adjustments, except as noted in these Notes to Condensed Consolidated Financial Statements.

Historically, we have realized more of our revenue and earnings in the fiscal fourth quarter, which includes the majority of the holiday shopping season in the U.S., Europe and Canada, than in any other fiscal quarter. Due to the seasonal nature of our business, interim results are not necessarily indicative of results for the entire fiscal year. The interim financial statements and the related notes in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

We consolidate the financial results of our Europe, China and Mexico operations on a two-month lag. There were no significant intervening events that would have materially affected our consolidated financial statements had they been recorded during the three months ended August 29, 2009.

In preparing the accompanying unaudited condensed consolidated financial statements, we evaluated the period from August 30, 2009 through October 6, 2009, the date the financial statements herein were available to be issued, for material subsequent events requiring recognition or disclosure. No such events were identified for this period.

Reclassifications

To maintain consistency and comparability, we reclassified certain prior-year amounts to conform to the current-year presentation as described in Note 1, *Summary of Significant Accounting Policies*, of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009. To conform to the current-year presentation, which presents customer relationships separately on our consolidated balance sheets, we reclassified to customer relationships, \$488 at August 30, 2008, which was previously reported in other assets on our condensed consolidated balance sheet.

In addition, as a result of the adoption of Statement of Financial Accounting Standards (SFAS) No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*, as described below in *New Accounting Standards*, we:

- reclassified to noncontrolling interests, a component of shareholders' equity, \$513 and \$725 at February 28, 2009, and August 30, 2008, respectively, which was previously reported as minority interests on our condensed consolidated balance sheets;
- reported as separate captions within our consolidated statements of earnings, net earnings including noncontrolling interests, net (earnings) loss attributable to noncontrolling interests, and net earnings attributable to Best Buy Co., Inc. of \$205, \$(3) and \$202, respectively, for the three months ended August 30, 2008, and \$383, \$(2) and \$381, respectively, for the six months ended August 30, 2008; and
- utilized net earnings including noncontrolling interests of \$383 for the six months ended August 30, 2008, as the starting point on our consolidated statements of cash flows in order to reconcile net earnings to cash flows from operating activities, rather than beginning with net earnings, which was previously exclusive of noncontrolling interests.

Table of Contents

These reclassifications had no effect on previously reported consolidated operating income, net earnings attributable to Best Buy Co., Inc., or net cash flows from operating activities. Also, earnings per share continues to be based on net earnings attributable to Best Buy Co., Inc.

New Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. This standard replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and establishes only two levels of U.S. generally accepted accounting principles (GAAP), authoritative and nonauthoritative. The FASB Accounting Standards Codification (the Codification) became the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the Securities and Exchange Commission (SEC), which are sources of authoritative GAAP for SEC registrants. All other non-grandfathered, non-SEC accounting literature not included in the Codification became nonauthoritative. This standard is effective for financial statements for interim or annual reporting periods ending after September 15, 2009. We have begun to use the new guidelines and numbering system prescribed by the Codification when referring to GAAP in the third quarter of fiscal 2010. As the Codification was not intended to change or alter existing GAAP, it will not have a material impact on our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)*. This standard responds to concerns about the application of certain key provisions of FASB Interpretation (FIN) 46(R), including those regarding the transparency of the involvement with variable interest entities. Specifically, SFAS No. 167 requires a qualitative approach to identifying a controlling financial interest in a variable interest entity (VIE) and requires ongoing assessment of whether an entity is a VIE and whether an interest in a VIE makes the holder the primary beneficiary of the VIE. In addition, the standard requires additional disclosures about the involvement with a VIE and any significant changes in risk exposure due to that involvement. SFAS No. 167 is effective for fiscal years beginning after November 15, 2009. We plan to adopt SFAS No. 167 in fiscal 2011 and are evaluating the impact it will have on our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment to SFAS No. 140*. The new standard eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets, and requires additional disclosures in order to enhance information reported to users of financial statements by providing greater transparency about transfers of financial assets, including securitization transactions, and an entity's continuing involvement in and exposure to the risks related to transferred financial assets. SFAS No. 166 is effective for fiscal years beginning after November 15, 2009. We plan to adopt SFAS No. 166 in fiscal 2011 and are evaluating the impact it will have on our consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. This standard is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, this standard sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS No. 165 was effective for fiscal years and interim periods ended after June 15, 2009 and must be applied prospectively. We adopted and applied the provisions of SFAS No. 165 for our fiscal quarter ended August 29, 2009, and have included the disclosures required by SFAS No. 165 in the *Basis of Presentation* section above. The adoption of SFAS No. 165 did not have an impact on our consolidated financial position or results of operations.

Edgar Filing: BEST BUY CO INC - Form 10-Q

In April 2009, the FASB issued three FASB Staff Positions (FSP) intended to provide additional application guidance and enhanced disclosures regarding fair value measurements and impairments of securities. FSP No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, provides additional guidelines for estimating fair value in accordance with SFAS No. 157, *Fair Value Measurements*. FSP No. 115-2, *Recognition and Presentation of Other-Than-Temporary Impairments*, provides additional guidance related to the disclosure of impairment losses on securities and the accounting for impairment losses on debt securities. FSP No. 115-2 does not amend existing guidance related to other-than-temporary impairments of equity securities. FSP No. 107-1 and Accounting Principles Board (APB) Opinion No. 28-1, *Interim Disclosures about Fair Value of Financial Instruments*, increases the frequency of fair value disclosures. These FSPs are effective for fiscal years and interim periods ended after June 15, 2009. As such, we adopted these FSPs in the second quarter of fiscal 2010, and have included the additional required interim disclosures about the fair value of financial instruments and valuation techniques within Note 3, *Investments*, and Note 4, *Fair Value Measurements*. The adoption of these FSPs did not have a material impact on our consolidated financial position or results of operations.

Table of Contents

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133*. SFAS No. 161 is intended to improve financial standards for derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand the effect these instruments and activities have on an entity's financial position, financial performance and cash flows. Entities are required to provide enhanced disclosures about: how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations; and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Our adoption of SFAS No. 161 in the fourth quarter of fiscal 2009 had no impact on our consolidated financial statements. However, in the first quarter of fiscal 2010, we entered into significant derivative hedging contracts and, accordingly, we have included the disclosures required by SFAS No. 161 in Note 8, *Derivative Instruments*, which are provided on a prospective basis.

In December 2007, the FASB issued SFAS No. 141(revised 2007), *Business Combinations* (141R). SFAS No. 141R significantly changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, preacquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS No. 141R, changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS No. 141R is effective for fiscal years beginning after December 15, 2008. We adopted SFAS No. 141R on March 1, 2009, which changed our accounting treatment for business combinations on a prospective basis.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*. SFAS No. 160 changes the accounting and reporting for minority interests, which must be recharacterized as noncontrolling interests and classified as a component of shareholders' equity. This new consolidation method significantly changes the accounting for transactions with minority interest holders. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008. We adopted SFAS No. 160 on March 1, 2009, and applied the provisions of the standard prospectively, except for the presentation and disclosure requirements, which we applied retrospectively. Our adoption of SFAS No. 160 did not have a material impact on our consolidated financial statements other than the following reporting and disclosure changes which we applied retrospectively to all periods presented:

- (i) we recharacterized minority interests previously reported on our condensed consolidated balance sheets as noncontrolling interests and classified them as a component of shareholders' equity;
- (ii) we adjusted certain captions previously utilized on our consolidated statements of earnings to specifically identify net earnings attributable to noncontrolling interests and net earnings attributable to Best Buy Co., Inc.; and
- (iii) in order to reconcile net earnings to the cash flows from operating activities, we changed the starting point on our consolidated statements of cash flows from net earnings to net earnings including noncontrolling interests, with net earnings or loss from the noncontrolling interests (previously, minority interests) no longer a reconciling item in arriving at net cash flows from operating activities in our consolidated statement of cash flows.

Additional disclosures required by this standard are included in Note 10, *Supplemental Equity and Comprehensive Income Information*.

2. Acquisitions

Five Star

We acquired a 75% interest in Jiangsu Five Star Appliance Co., Ltd. (Five Star) in June 2006, for \$184, which included a working capital injection of \$122. At the time of the acquisition, we also entered into an agreement with Five Star's minority shareholders to acquire the remaining 25% interest in Five Star within four years, subject to Chinese government approval.

On February 6, 2009, we were granted a business license to acquire the remaining 25% interest in Five Star and our acquisition converted Five Star into a wholly-owned foreign enterprise. The \$191 purchase price for the remaining 25% interest was primarily based on a previously agreed-upon pricing formula, consisting of a base purchase price and an earn-out for the remaining Five Star shareholders. The amount paid in excess of the fair value of the net assets acquired, as agreed to at the time of the initial purchase, furthers our international growth plans and accelerates the integration of Best Buy and Five Star in China.

The acquisition of the remaining 25% interest in Five Star for \$191 was accounted for using the purchase method in accordance with SFAS No. 141, *Business Combinations*. We recorded the net assets acquired at their estimated fair values. We included Five Star's operating results, which are reported on a two-month lag, from the date of acquisition as part of our International

Table of Contents

segment. The purchase price allocation is preliminary and will be finalized no later than the fourth quarter of fiscal 2010. None of the goodwill is deductible for tax purposes.

The preliminary purchase price allocation was as follows:

Net assets of noncontrolling interests	\$	48
Tradenames		8
Goodwill		137
Total assets		193
Long-term liabilities		(2)
Purchase price allocated to assets and liabilities acquired	\$	191

Napster

On October 25, 2008, we acquired Napster, Inc. (Napster) for \$121 (or \$100 net of cash acquired), pursuant to a cash tender offer whereby all issued and outstanding shares of Napster common stock, and all stock purchase rights associated with such shares, were acquired by us at a price of \$2.65 per share. Of the \$121 purchase price, \$4 represented our previous ownership interest in Napster common shares. The effective acquisition date for accounting purposes was the close of business on October 31, 2008, the end of Napster's fiscal October.

We entered into this transaction as we believe Napster has one of the most comprehensive and easy-to-use digital music offerings in the industry. The amount we paid in excess of the fair value of the net assets acquired was to obtain Napster's capabilities and digital subscriber base to reach new customers with an enhanced experience for exploring and selecting music and other digital entertainment products over an increasing array of devices, such as bundling the sale of hardware with digital services. We believe the combined capabilities of our two companies allows us to build stronger relationships with customers and expand the number of subscribers.

We have consolidated Napster in our financial results as part of our Domestic segment from the date of acquisition. We recorded the net assets acquired at their estimated fair values and allocated the purchase price on a preliminary basis using information then available. The allocation of the purchase price to the acquired assets and liabilities will be finalized no later than the third quarter of fiscal 2010. None of the goodwill is deductible for tax purposes.

The preliminary purchase price allocation was as follows:

Cash and cash equivalents	\$	21
Short term investments		28
Receivables		3
Other current assets		2

Edgar Filing: BEST BUY CO INC - Form 10-Q

Property and equipment	10
Goodwill	32

Other current liabilities	(38)
Total liabilities	(41)
Purchase price allocated to assets and liabilities acquired	\$ 121

Best Buy Europe

On May 7, 2008, we entered into a Sale and Purchase Agreement with The Carphone Warehouse Group PLC (CPW). All conditions to closing were satisfied, and the transaction was consummated on June 30, 2008. The effective acquisition date for accounting purposes was the close of business on June 28, 2008, the end of CPW 's fiscal first quarter. Pursuant to the

Table of Contents

transaction, CPW contributed certain assets and liabilities into a newly-formed company, Best Buy Europe Distributions Limited (Best Buy Europe), in exchange for all of the ordinary shares of Best Buy Europe, and our wholly-owned subsidiary, Best Buy Distributions Limited, purchased 50% of such ordinary shares of Best Buy Europe from CPW for an aggregate purchase price of \$2,167. In addition to the purchase price paid to CPW, we incurred \$29 of transaction costs for an aggregate purchase price of \$2,196.

Pursuant to a shareholders' agreement with CPW, our designees to the Best Buy Europe board of directors have ultimate approval rights over select Best Buy Europe senior management positions and the annual capital and operating budgets of Best Buy Europe.

The assets and liabilities contributed to Best Buy Europe by CPW included CPW's retail and distribution business, consisting of retail stores and online offerings; mobile airtime reselling operations; device insurance operations; fixed line telecommunications businesses in Spain and Switzerland; facilities management business, under which it bills and manages the customers of network operators in the U.K.; dealer business, under which it acts as a wholesale distributor of handsets and airtime vouchers; and economic interests in pre-existing commercial arrangements with us (Best Buy Mobile in the U.S. and the Geek Squad joint venture in the U.K. and Spain).

The amount we paid at the time of acquisition in excess of the fair value of the net assets acquired was primarily for (i) the expected future cash flows derived from the existing business and infrastructure contributed to Best Buy Europe by CPW, which included over 2,400 retail stores, (ii) immediate access to the European market with a management team that is experienced in both retailing and wireless service technologies in this marketplace, and (iii) the expected synergies our management believes the venture will generate, which include benefits from joint purchasing, sourcing and merchandising. In addition, Best Buy Europe plans to introduce new product and service offerings in its retail stores and, beginning in fiscal 2011, launch large-format Best Buy-branded stores and Web sites in the European market.

We have consolidated Best Buy Europe in our financial results as part of our International segment from the date of acquisition. We consolidate the financial results of Best Buy Europe on a two-month lag to align with CPW's quarterly reporting periods.

We recorded the net assets acquired at their estimated fair values and allocated the purchase price on a preliminary basis using information then available. The allocation of the purchase price to the acquired assets and liabilities was finalized in the second quarter of fiscal 2010. None of the goodwill is deductible for tax purposes.

The final purchase price allocation was as follows:

Cash and cash equivalents	\$	124
Restricted cash		112
Receivables		1,190
Merchandise inventories		535
Other current assets		114
Property and equipment		500
Goodwill		1,546
Tradenames		93
Customer relationships		484

Edgar Filing: BEST BUY CO INC - Form 10-Q

Other assets		184
Total assets		4,882
Accounts payable		(803)
Other current liabilities		(695)
Short-term debt		(299)
Long-term liabilities		(246)
Total liabilities		(2,043)
Noncontrolling interests ¹		(643)
Purchase price allocated to assets and liabilities acquired	\$	2,196

¹ We recorded the fair value adjustments only in respect of the 50% of net assets acquired, with the remaining 50% of the net assets of Best Buy Europe being consolidated and recorded at their historical cost basis. This also resulted in a \$643 noncontrolling interest being reflected in our condensed consolidated balance sheet in respect of the 50% owned by CPW.

Table of Contents

The valuation of the identifiable intangible assets acquired was based on management's estimates, available information and reasonable and supportable assumptions. The valuation was generally based on the fair value of these assets using income and market approaches. The amortizable intangible assets are being amortized using a straight-line method over their respective estimated useful lives. The following table summarizes the identified intangible asset categories and their respective weighted average amortization periods:

	Weighted Average Amortization Period (in years)	Fair Value
Customer relationships	6.8	\$ 484
Tradenames	4.2	93
Total	6.4	\$ 577

We recorded an estimate for costs to terminate certain activities associated with Best Buy Europe operations. A restructuring accrual of \$20 has been recorded and reflects the accrued restructuring costs incurred at the date of acquisition, primarily for store closure costs and agreement termination fees.

Our interest in Best Buy Europe is separate from our investment in the common stock of CPW, as discussed in Note 3, *Investments*.

Pro Forma Financial Results

Our pro forma condensed consolidated financial results of operations are presented in the following table as if the acquisitions described above had been completed at the beginning of each period presented:

	Three months ended August 30, 2008	Six months ended August 30, 2008
Pro forma revenue	\$ 11,250	\$ 21,778
Pro forma net earnings	161	336
Pro forma earnings per common share		
Basic	\$ 0.39	\$ 0.82
Diluted	0.38	0.80
Weighted average common shares outstanding		
Basic	412.1	411.7
Diluted	423.3	423.0

These pro forma condensed consolidated financial results have been prepared for comparative purposes only and include certain adjustments, such as increased interest expense on acquisition debt, foregone interest income and amortization related to acquired customer relationships and tradenames. They have not been adjusted for the effect of costs or synergies that would have been expected to result from the integration of these acquisitions or for costs that are not expected to recur as a result of the acquisitions. The pro forma information does not purport to be indicative of the results of operations that actually would have resulted had the acquisitions occurred at the beginning of each period presented, or of future

results of the consolidated entities.

Table of Contents3. Investments

Investments were comprised of the following:

	August 29, 2009		February 28, 2009		August 30, 2008
Short-term investments					
Money market fund	\$	4	\$	8	\$
Debt securities (auction-rate securities)		89			
Other investments				3	
Total short-term investments	\$	93	\$	11	\$
Equity and other investments					
Debt securities (auction-rate securities)	\$	209	\$	314	\$ 354
Marketable equity securities		78		41	101
Other investments		47		40	46
Total equity and other investments	\$	334	\$	395	\$ 501

Debt Securities

Our debt securities are comprised of auction-rate securities (ARS). We classify our investments in ARS as available-for-sale and carry them at fair value. ARS were intended to behave like short-term debt instruments because their interest rates reset periodically through an auction process, most commonly at intervals of 7, 28 and 35 days. The auction process had historically provided a means by which we could rollover the investment or sell these securities at par in order to provide us with liquidity as needed.

In mid-February 2008, auctions began to fail due to insufficient buyers, as the amount of securities submitted for sale in auctions exceeded the aggregate amount of the bids. For each failed auction, the interest rate on the security moves to a maximum rate specified for each security, and generally resets at a level higher than specified short-term interest rate benchmarks. To date, we have collected all interest due on our ARS and expect to continue to do so in the future. We sold \$22 of ARS at par during the first six months of fiscal 2010. However, at August 29, 2009, our entire remaining ARS portfolio, consisting of 51 investments in ARS, was subject to failed auctions. Subsequent to August 29, 2009, and through October 6, 2009, we sold \$6 (par value) of our ARS.

As a result of the persistent failed auctions, and the uncertainty of when these investments could be liquidated at par, we have classified all of our investments in ARS as non-current assets within equity and other investments in our consolidated balance sheet at August 29, 2009, except for \$89, which was marketed and sold by UBS AG and its affiliates (collectively, UBS) and is classified within short-term investments. In October 2008, we accepted a settlement with UBS pursuant to which UBS issued to us Series C-2 Auction Rate Securities Rights (ARS Rights). The ARS Rights provide us the right to receive the full par value of our UBS-brokered ARS of \$89 plus accrued but unpaid interest at any time between June 30, 2010, and July 2, 2012. We plan to exercise our ARS Rights in the second quarter of fiscal 2011.

Our ARS portfolio consisted of the following at August 29, 2009, February 28, 2009, and August 30, 2008, at fair value:

Edgar Filing: BEST BUY CO INC - Form 10-Q

Description	Nature of collateral or guarantee	August 29, 2009	February 28, 2009	August 30, 2008
Student loan bonds	Student loans guaranteed 95% to 100% by the U.S. government	\$ 278	\$ 276	\$ 295
Municipal revenue bonds	100% insured by AA/Aa-rated bond insurers at August 29, 2009	20	24	44
Auction preferred securities	Underlying investments of closed-end funds		14	15
Total fair value ¹		\$ 298	\$ 314	\$ 354

¹ The par value and weighted-average interest rates (taxable equivalent) of our ARS were \$306, \$329 and \$354 and 1.23%, 2.04% and 6.95%, respectively, at August 29, 2009, February 28, 2009, and August 30, 2008, respectively.

At August 29, 2009, our ARS portfolio was 79% AAA/Aaa-rated, 9% AA/Aa-rated and 12% A/A-rated.

Table of Contents

The investment principal associated with failed auctions will not be accessible until successful auctions occur, a buyer is found outside of the auction process, the issuers establish a different form of financing to replace these securities, or final payments are due according to the contractual maturities of the debt issues, which range from seven to 39 years. We intend to hold our ARS until we can recover the full principal amount through one of the means described above, and have the ability to do so based on our other sources of liquidity.

We evaluated our entire ARS portfolio of \$306 (par value) for impairment at August 29, 2009, based primarily on the methodology described in Note 4, *Fair Value Measurements*. As a result of this review, we determined that the fair value of our ARS portfolio at August 29, 2009, was \$298. Accordingly, we recognized a \$8 pre-tax unrealized loss in accumulated other comprehensive income. This unrealized loss reflects a temporary impairment on all of our investments in ARS, except for our investments in ARS with UBS, for which we have determined that fair value approximates par value. The estimated fair value of our ARS portfolio could change significantly based on future market conditions. We will continue to assess the fair value of our ARS portfolio for substantive changes in relevant market conditions, changes in our financial condition or other changes that may alter our estimates described above.

We may be required to record an additional unrealized holding loss or an impairment charge to earnings if we determine that our ARS portfolio has incurred a further decline in fair value that is temporary or other-than-temporary, respectively. Factors that we consider when assessing our ARS portfolio for other-than-temporary impairment include the duration and severity of the impairment, the reason for the decline in value and the potential recovery period, the nature of the collateral or guarantees in place as well as our intent and ability to hold an investment.

We had \$(5), \$(10) and \$0 in unrealized (loss) gain, net of tax, recorded in accumulated other comprehensive income at August 29, 2009, February 28, 2009, and August 30, 2008, respectively, related to our investments in debt securities.

Marketable Equity Securities

We invest in marketable equity securities and classify them as available-for-sale. Investments in marketable equity securities are classified as non-current assets within equity and other investments in our condensed consolidated balance sheets, and are reported at fair value based on quoted market prices.

Our investments in marketable equity securities were as follows:

	August 29, 2009		February 28, 2009		August 30, 2008
Common stock of CPW	\$ 78	\$	40	\$	94
Other			1		7
Total	\$ 78	\$	41	\$	101

We review all investments for other-than-temporary impairment at least quarterly or as indicators of impairment exist. Indicators of impairment include the duration and severity of the decline in fair value as well as the intent and ability to hold the investment to allow for a recovery in the

Edgar Filing: BEST BUY CO INC - Form 10-Q

market value of the investment. In addition, we consider qualitative factors that include, but are not limited to: (i) the financial condition and business plans of the investee including its future earnings potential, (ii) the investee's credit rating, and (iii) the current and expected market and industry conditions in which the investee operates. If a decline in the fair value of an investment is deemed by management to be other-than-temporary, we write down the cost basis of the investment to fair value, and the amount of the write-down is included in net earnings. Such a determination is dependent on the facts and circumstances relating to each investment.

We purchased shares of CPW's common stock in fiscal 2008 for \$183 and in the third quarter of fiscal 2009, recorded a \$111 other-than-temporary impairment charge. Subsequent to February 28, 2009, the market price of CPW common stock increased and, accordingly, we recorded a \$32 pre-tax unrealized gain in accumulated other comprehensive income related to this investment at August 29, 2009.

All unrealized holding gains or losses related to our investments in marketable equity securities are reflected net of tax in accumulated other comprehensive income in shareholders' equity. Net unrealized gain (loss), net of tax, included in accumulated other comprehensive income was \$21, \$(4) and \$(72) at August 29, 2009, February 28, 2009, and August 30, 2008, respectively.

Table of Contents

Other Investments

The aggregate carrying values of investments accounted for using either the cost method or the equity method at August 29, 2009, February 28, 2009, and August 30, 2008, were \$47, \$43 and \$46, respectively.

4. Fair Value Measurements

We adopted SFAS No. 157, *Fair Value Measurements*, on March 2, 2008. This standard defines fair value, establishes a framework for measuring fair value and expands disclosure requirements about fair value measurements. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS No. 157 also establishes a three-tier valuation hierarchy based upon observable and non-observable inputs:

Level 1 Unadjusted quoted prices that are available in active markets for the identical assets or liabilities at the measurement date.

Level 2 Significant other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly.

Level 3 Significant unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. The following tables set forth by level within the fair value hierarchy, our financial assets and liabilities that were accounted for at fair value on a recurring basis at August 29, 2009, February 28, 2009, and August 30, 2008, according to the valuation techniques we used to determine their fair values.

**Fair Value Measurements

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Money Market Funds. Our money market fund investments were classified as Level 1 or 2. If a fund is not trading on a regular basis, and we have been unable to obtain pricing information on an ongoing basis, we classify the fund as Level 2.

U.S. Treasury Bills. Our U.S. Treasury notes were classified as Level 1 as they trade with sufficient frequency and volume to enable us to obtain pricing information on an ongoing basis.

Derivative Instruments. Comprised primarily of foreign currency forward contracts and foreign currency swaps, our derivative instruments were measured at fair value using readily observable market inputs, such as quotations on forward foreign exchange points and foreign interest rates. Our derivative instruments were classified as Level 2 as these instruments are custom, over-the-counter contracts with various bank counterparties that are not actively traded.

Auction-Rate Securities. Our investments in auction-rate securities were classified as Level 3 as quoted prices were unavailable due to events described in Note 3, *Investments*. Due to limited market information, we utilized a discounted cash flow (DCF) model to derive an estimate of

Edgar Filing: BEST BUY CO INC - Form 10-Q

fair value at August 29, 2009. The assumptions used in preparing the DCF model included estimates with respect to the amount and timing of future interest and principal payments, forward projections of the interest rate benchmarks, the probability of full repayment of the principal considering the credit quality and guarantees in place, and the rate of return required by investors to own such securities given the current liquidity risk associated with auction-rate securities.

Marketable Equity Securities. Our marketable equity securities were measured at fair value using quoted market prices. They were classified as Level 1 as they trade in an active market for which closing stock prices are readily available.

Deferred Compensation. Our deferred compensation liabilities and the assets that fund our deferred compensation consist of investments in mutual funds. These investments were classified as Level 1 as the shares of these mutual funds trade with sufficient frequency and volume to enable us to obtain pricing information on an ongoing basis.

Table of ContentsAssets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

Disclosures for nonfinancial assets and liabilities that are measured at fair value, but are recognized and disclosed at fair value on a nonrecurring basis, were required prospectively beginning March 1, 2009. During the six months ended August 29, 2009, we had no significant measurements of assets or liabilities at fair value on a nonrecurring basis subsequent to their initial recognition.

Fair Value of Financial Instruments

Our financial instruments, other than those presented in the disclosures above, include cash, receivables, other investments, accounts payable, accrued liabilities and short- and long-term debt. The fair values of cash, receivables, accounts payable, accrued liabilities and short-term debt approximated carrying values because of the short-term nature of these instruments. Fair values for other investments held at cost are not readily available, but are estimated to approximate fair value. See Note 7, *Debt*, for information about the fair value of our long-term debt.

5. Goodwill and Intangible Assets

The changes in the carrying amount of goodwill and indefinite-lived tradenames by segment were as follows in the six months ended August 29, 2009 and August 30, 2008:

	Goodwill			Tradenames		
	Domestic	International	Total	Domestic	International	Total
Balances at February 28, 2009	\$ 434	\$ 1,769	\$ 2,203	\$ 32	\$ 72	\$ 104
Adjustments to purchase price allocation		42	42			
Changes in foreign currency exchange rates		197	197		7	7
Balances at August 29, 2009	\$ 434	\$ 2,008	\$ 2,442	\$ 32	\$ 79	\$ 111

	Goodwill			Tradenames		
	Domestic	International	Total	Domestic	International	Total
Balances at March 1, 2008	\$ 450	\$ 638	\$ 1,088	\$ 23	\$ 74	\$ 97
Acquisition		1,491	1,491			
Changes in foreign currency exchange rates		(43)	(43)		(3)	(3)
Balances at August 30, 2008	\$ 450	\$ 2,086	\$ 2,536	\$ 23	\$ 71	\$ 94

The following table provides the gross carrying amount and related accumulated amortization of definite-lived intangible assets:

Edgar Filing: BEST BUY CO INC - Form 10-Q

	August 29, 2009		February 28, 2009		August 30, 2008	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Tradenames	\$ 76	\$ (19)	\$ 79	\$ (10)	\$ 94	\$
Customer relationships	406	(88)	367	(45)	489	(1)
Total	\$ 482	\$ (107)	\$ 446	\$ (55)	\$ 583	\$ (1)

Total amortization expense for the three months ended August 29, 2009 and August 30, 2008 was \$21 and less than \$1, respectively, and was \$42 and \$1 for the six months then ended, respectively. The estimated future amortization expense for identifiable intangible assets during the remainder of fiscal 2010 and for the next four years is as follows:

Fiscal Year	
Remainder of fiscal 2010	\$ 44
2011	89
2012	67
2013	46
2014	41
Thereafter	88

Table of Contents6. Restructuring Charges

In the fourth quarter of fiscal 2009, we implemented a restructuring plan for our domestic and international businesses to support our fiscal 2010 strategy and long-term growth plans. We believe these changes will provide an operating structure that will support a more effective and efficient use of our resources and provide a platform from which key strategic initiatives can progress despite changing economic conditions. In the fourth quarter of fiscal 2009, we recorded charges of \$78, related primarily to voluntary and involuntary separation plans at our corporate headquarters.

In April 2009, we notified our U.S. Best Buy store employees of our intention to update our store operating model, which included eliminating certain positions. In addition, we incurred restructuring charges related to employee termination benefits and business reorganization costs at Best Buy Europe within our International segment. As a result of our restructuring efforts, we recorded charges of \$52 in the first quarter of fiscal 2010. No restructuring charges were recorded in the second quarter of fiscal 2010, and we believe we are substantially complete with our announced restructuring activities.

All charges related to our restructuring plans were presented as restructuring charges in our consolidated statements of earnings. The composition of our restructuring charges incurred in the six months ended August 29, 2009, as well as the cumulative amount incurred through August 29, 2009, for both the Domestic and International segments, were as follows:

	Domestic		International		Total	
	Six Months Ended August 29, 2009	Cumulative Amount through August 29, 2009	Six Months Ended August 29, 2009	Cumulative Amount through August 29, 2009	Six Months Ended August 29, 2009	Cumulative Amount through August 29, 2009
Termination benefits	\$ 25	\$ 94	\$ 26	\$ 32	\$ 51	\$ 126
Facility closure costs		1	1	1	1	2
Property and equipment write-downs		2				2
Total	\$ 25	\$ 97	\$ 27	\$ 33	\$ 52	\$ 130

The following table summarizes our restructuring accrual activity in the six months ended August 29, 2009, related to termination benefits and facility closure costs:

	Termination Benefits	Facility Closure Costs	Total
Balances at February 28, 2009	\$ 73	\$ 1	\$ 74
Charges	51	1	52
Cash payments	(104)	(1)	(105)
Effects of foreign exchange rates	2		2
Balances at August 29, 2009	\$ 22	\$ 1	\$ 23

We will continue to evaluate our operating structure and cannot project whether any further restructuring charges will be necessary.

7. Debt

Short-Term Debt

Short-term debt consisted of the following:

	August 29, 2009		February 28, 2009		August 30, 2008
JPMorgan credit facility	\$ 325	\$	162	\$	1,173
Europe receivables financing agreement					
Europe revolving credit facility	730		584		299
Canada revolving demand facility			2		
China revolving demand facilities	36		35		43
Total short-term debt	\$ 1,091	\$	783	\$	1,515

Table of Contents*Europe Receivables Financing Agreement*

In the second quarter of fiscal 2010, a subsidiary of Best Buy Europe (the *Subsidiary*) entered into a £350 (or \$573) receivables financing agreement (the *Agreement*) with Barclays Bank PLC, as administrative agent, and a syndication of banks to finance the working capital needs of Best Buy Europe. The Agreement is secured by certain network carrier receivables of the Subsidiary. Availability on the facility is based on a percentage of the available acceptable receivables, as defined in the Agreement. Although no amount was outstanding under the Agreement at August 29, 2009, in September 2009, we drew the full amount available of £245 (or \$401) on the Agreement. The Agreement expires on July 3, 2012.

Interest rates under the Agreement are variable, based on the three-month London Interbank Offered Rate (LIBOR) plus a margin of 3.00%, with a commitment fee of 1.5% on unused available capacity. The Agreement also required an initial commitment fee of 2.75%.

The Agreement is not guaranteed by Best Buy Co., Inc., or any subsidiary nor does it provide for any recourse to Best Buy Co., Inc. The Agreement contains customary affirmative and negative covenants. Among other things, these covenants restrict or prohibit the Subsidiary's ability to incur certain types or amounts of indebtedness, incur additional encumbrances on its receivables, make material changes in the nature of its business, dispose of material assets, make guarantees, or engage in a change in control transaction. The Agreement also contains covenants that require the Subsidiary to comply with a maximum annual leverage ratio, a minimum annual interest coverage ratio and a minimum fixed charges coverage ratio.

Europe Revolving Credit Facility

In connection with a £475 (or \$777) revolving credit facility available to Best Buy Europe with CPW as lender, Best Buy Co., Inc. is named as guarantor, up to 50% of the amount outstanding. Concurrent with entering into the Agreement described above, we amended the revolving credit facility to decrease the amount available under the revolving credit facility by the amount available under the Agreement. The related guarantee by Best Buy Co., Inc. was similarly reduced. The revolving credit facility expires in March 2013.

Long-Term Debt

Long-term debt consisted of the following:

	August 29, 2009		February 28, 2009		August 30, 2008
6.75% notes	\$ 500	\$	500	\$	500
Convertible debentures	402		402		402
Financing lease obligations	195		200		198
Capital lease obligations	55		65		63
Other debt	4		13		12
Total long-term debt	1,156		1,180		1,175

Edgar Filing: BEST BUY CO INC - Form 10-Q

Less: current portion		(45)	(54)	(39)
Total long-term debt, less current portion	\$	1,111	\$ 1,126	\$ 1,136

The fair value of long-term debt approximated \$1,190, \$1,122 and \$1,183 at August 29, 2009, February 28, 2009, and August 30, 2008, respectively, based primarily on the ask prices quoted from external sources, compared with carrying values of \$1,156, \$1,180 and \$1,175, respectively.

Other than as referred to above, see Note 6, *Debt*, in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, for additional information regarding the terms of our debt facilities and obligations.

8. Derivative Instruments

We manage our economic and transaction exposure to certain market-based risks through the use of derivative instruments. Under this strategy, foreign currency exchange contracts are utilized to manage foreign currency exposure to certain forecasted inventory purchases, revenue streams and net investments in certain foreign operations. Our primary objective in holding derivatives is to reduce the volatility of earnings and cash flows as well as net asset values associated with changes in foreign currency exchange rates. We do not hold or issue derivative financial instruments for trading or speculative purposes.

Table of Contents

We record all derivatives on our condensed consolidated balance sheets at fair value and evaluate hedge effectiveness prospectively and retrospectively. We formally document all hedging relationships at inception for all derivative hedges and the underlying hedged items, as well as the risk management objectives and strategies for undertaking the hedge transactions. Our strategy employs both cash flow and net investment hedges. We classify the cash flows from derivatives treated as hedges in our consolidated statement of cash flows in the same category as the item being hedged. In addition, we have derivatives which are not designated as hedging instruments. We have no derivatives that have credit-risk-related contingent features, and we mitigate our credit risk by engaging with major financial institutions as our counterparties.

Cash Flow Hedges

We enter into foreign currency exchange contracts to hedge against the effect of exchange rate fluctuations on certain revenue streams denominated in non-functional currencies. The contracts have terms of up to three years. We report the effective portion of the gain or loss on a cash flow hedge as a component of other comprehensive income and it is subsequently reclassified into net earnings in the period in which the hedged transaction affects net earnings or the forecasted transaction is no longer probable of occurring. We report the ineffective portion, if any, of the gain or loss in net earnings.

Net Investment Hedges

We also enter into foreign currency exchange swap contracts to hedge against the effect of euro and swiss franc exchange rate fluctuations on net investments of certain foreign operations. For a net investment hedge, we recognize changes in the fair value of the derivative as a component of foreign currency translation within other comprehensive income to offset a portion of the change in the translated value of the net investment being hedged, until the investment is sold or liquidated. We limit recognition in net earnings of amounts previously recorded in cumulative translation of other comprehensive income to circumstances such as complete or substantially complete liquidation of the net investment in the hedged foreign operation. We report the ineffective portion, if any, of the gain or loss in net earnings.

Derivatives Not Designated as Hedging Instruments

Derivatives not designated as hedging instruments include forward currency exchange contracts used to manage the impact of fluctuations in foreign currency exchange rates relative to recognized receivable and payable balances denominated in non-functional currencies and on certain forecasted inventory purchases and revenue streams denominated in non-functional currencies. The contracts have terms of up to twelve months. These derivative instruments are not designated in hedging relationships; therefore, we record gains and losses on these contracts directly in net earnings. There were \$4 in gains recorded to net earnings in the second quarter of fiscal 2010 related to dedesignated derivative instruments formerly designated in cash flow hedging relationships.

Summary of Derivative Balances

Edgar Filing: BEST BUY CO INC - Form 10-Q

The following table presents the gross fair values for derivative instruments and the corresponding classification in our condensed consolidated balance sheet at August 29, 2009:

Contract Type	Assets		Liabilities	
	Balance Sheet Classification	Fair Value	Balance Sheet Classification	Fair Value
<i>Derivatives designated as hedging instruments</i>				
Cash flow hedges				
Foreign exchange forward contracts	Other current assets	\$ 5	Accrued liabilities	\$
Foreign exchange forward contracts	Other assets	6	Long-term liabilities	
Net investment hedges				
Foreign exchange swap contracts	Other current assets		Accrued liabilities	
Total derivatives designated as hedging instruments				
		\$ 11		\$
<i>Derivatives not designated as hedging instruments</i>				
Foreign currency forward contracts	Other current assets	4	Accrued liabilities	(1)
Total derivatives				
		\$ 15		\$ (1)

Edgar Filing: BEST BUY CO INC - Form 10-Q

Table of Contents

The following table presents the effects of derivative instruments on other comprehensive income (OCI) and on our consolidated statements of earnings for the three and six months ended August 29, 2009:

Contract Type	Pre-tax	Gain (Loss) Recognized		Gain (Loss) Reclassified	
	Gain (Loss) Recognized in OCI 1	in Income on Derivative (Ineffective Portion) 2		from Accumulated OCI to Net Earnings (Effective Portion)	
	At August 29, 2009	Three months ended August 29, 2009	Six months ended August 29, 2009	Three months ended August 29, 2009	Six months ended August 29, 2009
<i>Derivatives designated as hedging instruments</i>					
Cash flow hedges					
Foreign exchange forward contracts 3	\$ 11	\$	\$	\$ 3	\$ 3
Net investment hedges					
Foreign exchange swap contracts	72				
Total	\$ 83	\$	\$	\$ 3	\$ 3

1 Reflects the amount recognized in OCI prior to the reclassification of \$5 and \$36 to noncontrolling interests for the cash flow and net investment hedges, respectively.

2 There are no amounts excluded from the assessment of hedge effectiveness.

3 Gains reclassified from OCI are included within selling, general and administrative expenses in our consolidated statements of earnings.

The following table presents the effects of derivatives not designated as hedging instruments on our consolidated statements of earnings for the three and six months ended August 29, 2009:

Contract Type	Gain (Loss) Recognized in Income 1	
	Three months ended August 29, 2009	Six months ended August 29, 2009
<i>Derivatives not designated as hedging instruments</i>		
Foreign exchange forward contracts	\$ 3	\$ (1)

Edgar Filing: BEST BUY CO INC - Form 10-Q

1 Included within selling, general and administrative expenses in our consolidated statements of earnings.

The following table presents the notional amounts of our foreign currency exchange contracts at August 29, 2009:

		Notional Amount
Derivatives designated as cash flow hedging instruments	\$	141
Derivatives designated as net investment hedging instruments		705
Derivatives not designated as hedging instruments		122
Total	\$	968

Table of Contents9. Earnings per Share

Our basic earnings per share calculation is computed based on the weighted-average number of common shares outstanding. Our diluted earnings per share calculation is computed based on the weighted-average number of common shares outstanding adjusted by the number of additional shares that would have been outstanding had the potentially dilutive common shares been issued. Potentially dilutive shares of common stock include stock options, nonvested share awards and shares issuable under our employee stock purchase plan, as well as common shares that would have resulted from the assumed conversion of our convertible debentures. Since the potentially dilutive shares related to the convertible debentures are included in the calculation, the related interest expense, net of tax, is added back to net earnings, as the interest would not have been paid if the convertible debentures had been converted to common stock. Nonvested market-based awards and nonvested performance-based awards are included in the average diluted shares outstanding each period if established market or performance criteria have been met at the end of the respective periods.

The following table presents a reconciliation of the numerators and denominators of basic and diluted earnings per share attributable to Best Buy Co., Inc. (shares in millions):

	Three Months Ended		Six Months Ended	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Numerator				
Net earnings attributable to Best Buy Co., Inc., basic	\$ 158	\$ 202	\$ 311	\$ 381
Adjustment for assumed dilution				
Interest on convertible debentures, net of tax	2	1	3	3
Net earnings attributable to Best Buy Co., Inc., diluted	\$ 160	\$ 203	\$ 314	\$ 384
Denominator				
Weighted-average common shares outstanding	416.5	412.1	415.8	411.7
Effect of potentially dilutive securities				
Shares from assumed conversion of convertible debentures	8.8	8.8	8.8	8.8
Stock options and other	1.7	2.4	1.6	2.5
Weighted-average common shares outstanding, assuming dilution	427.0	423.3	426.2	423.0
Earnings per share attributable to Best Buy Co., Inc.				
Basic	\$ 0.38	\$ 0.49	\$ 0.75	\$ 0.92
Diluted	\$ 0.37	\$ 0.48	\$ 0.74	\$ 0.91

The computation of average dilutive shares outstanding excluded options to purchase 20.0 million and 12.8 million shares of our common stock for the three months ended August 29, 2009, and August 30, 2008, respectively, and 20.0 million and 12.7 million shares of our common stock for the six months ended August 29, 2009, and August 30, 2008, respectively. These amounts were excluded as the options' exercise prices were greater than the average market price of our common stock for the periods presented and, therefore, the effect would be antidilutive (i.e., including such options would result in higher earnings per share).

Table of Contents10. Supplemental Equity and Comprehensive Income Information

The following tables present our consolidated statements of changes in shareholders' equity for the six months ended August 29, 2009 and August 30, 2008, respectively (shares in millions):

Comprehensive income attributable to Best Buy Co., Inc.	\$ 339	\$ 133	\$ 655	\$ 273

11. Segments

We have organized our operations into two segments: Domestic and International. These segments are our primary areas of measurement and decision-making. The Domestic reportable segment is comprised of all operations within the U.S. and its territories. The International reportable segment is comprised of all operations outside the U.S. and its territories. We rely on an internal management reporting process that provides segment information to the operating income level for purposes of assessing performance and allocating resources. The accounting policies of the segments are the same as those described in Note 1, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

Revenue by reportable segment was as follows:

	Three Months Ended		Six Months Ended	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Domestic	\$ 8,274	\$ 8,133	\$ 15,799	\$ 15,586
International	2,748	1,668	5,318	3,205
Total revenue	\$ 11,022	\$ 9,801	\$ 21,117	\$ 18,791

Operating income (loss) by reportable segment and the reconciliation to earnings before income tax expense and equity in loss of affiliates were as follows:

Three Months Ended

Six Months Ended

Edgar Filing: BEST BUY CO INC - Form 10-Q

	August 29, 2009		August 30, 2008		August 29, 2009		August 30, 2008

Domestic	\$	9,597	\$	9,059	\$	9,680
International		7,594		6,767		7,842
Total assets	\$	17,191	\$	15,826	\$	17,522

Table of Contents

12. Contingencies

We are involved in various legal proceedings arising in the normal course of conducting business. We believe the amounts provided in our consolidated financial statements are adequate in consideration of the probable and estimable liabilities. The resolution of those proceedings is not expected to have a material effect on our results of operations or financial condition.

13. Condensed Consolidating Financial Information

Our convertible debentures, due in 2022, are jointly and severally, fully and unconditionally, guaranteed by our wholly-owned indirect subsidiary Best Buy Stores, L.P. Investments in subsidiaries of Best Buy Stores, L.P., which have not guaranteed the convertible debentures, are accounted for under the equity method. We reclassified certain prior-year amounts as described in Note 1, *Basis of Presentation*, in this Quarterly Report on Form 10-Q. The aggregate principal balance and carrying amount of our convertible debentures was \$402 at August 29, 2009.

The convertible debentures may be converted into shares of our common stock by us at anytime or at the option of the holders if the criteria, as described in Note 6, *Debt*, of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, are met. At August 29, 2009, the debentures were not convertible at the option of the holders.

We file a consolidated U.S. federal income tax return. We allocate income taxes in accordance with our tax allocation agreement. U.S. affiliates receive no tax benefit for taxable losses, but are allocated taxes at the required effective income tax rate if they have taxable income.

The following tables present condensed consolidating balance sheets as of August 29, 2009; February 28, 2009; and August 30, 2008; condensed consolidating statements of earnings for the three and six months ended August 29, 2009, and August 30, 2008; and condensed consolidating statements of cash flows for the six months ended August 29, 2009, and August 30, 2008:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Unless the context otherwise requires, the use of the terms Best Buy, we, us and our in the following refers to Best Buy Co., Inc. and its consolidated subsidiaries.

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. Our MD&A is presented in six sections:

- Overview
- Results of Operations
- Liquidity and Capital Resources
- Off-Balance-Sheet Arrangements and Contractual Obligations
- Significant Accounting Policies and Estimates
- New Accounting Standards

We consolidate the financial results of our Europe, China and Mexico operations on a two-month lag. Consistent with such consolidation, the financial and non-financial information presented in our MD&A relative to these operations is also presented on a two-month lag. No significant intervening event occurred that would have materially affected our financial condition, results of operations, liquidity or other factors had it been recorded during the three months ended August 29, 2009.

Our MD&A should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, as well as our reports on Forms 10-Q and 8-K and other publicly available information. All amounts herein are unaudited.

Overview

We are a specialty retailer of consumer electronics, home office products, entertainment software, appliances and related services. We operate two reportable segments: Domestic and International. The Domestic segment is comprised of all operations within the U.S. and its territories. The International segment is comprised of all operations outside the U.S. and its territories.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Our business, like that of many U.S. retailers, is seasonal. Historically, we have realized more of our revenue and earnings in the fiscal fourth quarter, which includes the majority of the holiday shopping season in the U.S., Canada and Europe, than in any other fiscal quarter. The timing of new store openings, costs associated with restructuring or asset impairments, if any, as well as general economic conditions may also affect our future quarterly results.

Throughout this MD&A, we refer to comparable store sales. Comparable store sales is a measure commonly used in the retail industry, which indicates the performance of our existing stores by measuring the growth in sales for such stores for a particular period over the corresponding period in the prior year. Our comparable store sales is comprised of revenue from customers at stores operating for at least 14 full months as well as revenue related to call centers, Web sites and our other comparable sales channels. Revenue we earn from sales of merchandise to resellers is not included within our comparable store sales calculation. Relocated, remodeled and expanded stores are excluded from the comparable store sales calculation until at least 14 full months after reopening. Acquired stores are included in the comparable store sales calculation beginning with the first full quarter following the first anniversary of the date of the acquisition. The portion of our calculation of the comparable store sales percentage change attributable to our International segment excludes the effect of fluctuations in foreign currency exchange rates. The method of calculating comparable store sales varies across the retail industry. As a result, our method of calculating comparable store sales may not be the same as other retailers' methods.

Table of ContentsHighlights

- Net earnings attributable to Best Buy Co., Inc. decreased 22% to \$158 million, or \$0.37 per diluted share, in the second quarter of fiscal 2010, compared with \$202 million, or \$0.48 per diluted share, in the same period one year ago. Operating income decreased 17% to \$280 million, or as a percentage of revenue, 2.5%, in the second quarter of fiscal 2010, compared with \$339 million, or 3.5%, in the same period one year ago. The decrease in net earnings and operating income was primarily driven by a decrease in the International segment's operating income, while the Domestic segment's operating income remained flat.
- Revenue in the second quarter of fiscal 2010 increased 12% to \$11.0 billion, compared with \$9.8 billion in the same period one year ago, driven primarily by the acquisition of Best Buy Europe, which contributed \$1.2 billion of revenue, and the net addition of 170 new stores in the past 12 months. These gains were partially offset by a 3.9% comparable store sales decline and unfavorable fluctuations in foreign currency exchange rates.
- Our gross profit rate in the second quarter of fiscal 2010 increased slightly to 24.4% of revenue, compared with 24.3% of revenue in the same period one year ago. The increase was due primarily to the inclusion of Best Buy Europe, partially offset by a decline in our Domestic segment's gross profit rate due to unfavorable mix and rate impacts.
- Our selling, general and administrative expenses (SG&A) rate in the second quarter of fiscal 2010 increased to 21.8% of revenue, compared with 20.8% of revenue in the same period one year ago. The increase was due primarily to the inclusion of Best Buy Europe and deleverage on the comparable store sales decline in the U.S. and Canada, partially offset by reductions in spending in certain discretionary categories and in corporate payroll. Excluding fiscal 2009 acquisitions, SG&A dollars in the fiscal second quarter declined versus the prior year period.

Results of OperationsConsolidated Performance Summary

The following table presents selected consolidated financial data (\$ in millions, except per share amounts):

	Three Months Ended ¹		Six Months Ended ¹	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Revenue	\$ 11,022	\$ 9,801	\$ 21,117	\$ 18,791
Revenue % gain	12%	12%	12%	13%
Comparable store sales % (decline) gain	(3.9)%	4.2%	(5.0)%	4.0%
Gross profit as % of revenue ²	24.4%	24.3%	24.8%	24.0%
SG&A as % of revenue ²	21.8%	20.8%	21.8%	20.7%

Edgar Filing: BEST BUY CO INC - Form 10-Q

Operating income 3	\$	280	\$	339	\$	576	\$	616
Operating income as % of revenue		2.5%		3.5%		2.7%		3.3%
Net earnings attributable to Best Buy Co., Inc	\$	158	\$	202	\$	311	\$	381
Diluted earnings per share	\$	0.37	\$	0.48	\$	0.74	\$	0.91

- 1 On June 28, 2008, we acquired a 50% interest in Best Buy Europe, whose operating results are reported on a two-month lag and included within our International segment. Accordingly, our results of operations did not reflect Best Buy Europe results until the third quarter of fiscal 2009.
- 2 Because retailers vary in how they record costs of operating their supply chain between cost of goods sold and SG&A, our gross profit rate and SG&A rate may not be comparable to other retailers' corresponding rates. For additional information regarding costs classified in cost of goods sold and SG&A, refer to Note 1, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.
- 3 Included within our operating income for the first six months of fiscal 2010 is \$52 million of restructuring charges related to measures we took to restructure our businesses in the first quarter of fiscal 2010. These charges resulted in a decrease in our operating income of 0.3% of revenue for the first six months of fiscal 2010. No restructuring charges were recorded in the second quarter of fiscal 2010 or the first six months of fiscal 2009.

Revenue in the second quarter of fiscal 2010 increased 12% to \$11.0 billion, compared with \$9.8 billion in the same period one year ago. In the first six months of fiscal 2010, revenue increased 12% to \$21.1 billion, compared with \$18.8 billion in the same period one year ago. In both the second quarter and the first six months of fiscal 2010, the revenue increases resulted primarily from the acquisition of Best Buy Europe, which contributed \$1.2 billion and \$2.6 billion of revenue, respectively, and the net addition of 170

Table of Contents

new stores (of which 36 were Best Buy Europe stores) in the past 12 months. The increases were partially offset by comparable store sales declines in the second quarter and the first six months of fiscal 2010 of 3.9% and 5.0%, respectively, as well as the unfavorable effect of fluctuations in foreign currency exchange rates.

The components of the net revenue increase for the three and six months ended August 29, 2009 were as follows:

	Three months ended August 29, 2009	Six months ended August 29, 2009
Acquisition of Best Buy Europe	13%	14%
Net new stores	4%	5%
Comparable store sales decline	(4)%	(5)%
Unfavorable impact of foreign currency	(1)%	(2)%
Total revenue increase	12%	12%

Our gross profit rate in the second quarter of fiscal 2010 increased by 0.1% of revenue to 24.4% of revenue. In the first six months of fiscal 2010, our gross profit rate increased from 24.0% of revenue to 24.8% of revenue. The gross profit rate increase in the second quarter of fiscal 2010 was due to an increase in our International segment's gross profit rate, due to the inclusion of Best Buy Europe, offset by a decrease in our Domestic segment's gross profit rate. For the first six months of fiscal 2010, increases in both our Domestic and International segments' gross profit rates contributed to the overall gross profit rate increase. The inclusion of Best Buy Europe, which predominantly features sales of higher-margin mobile phones, increased our gross profit rate by 0.6% of revenue for the fiscal second quarter and by 0.8% of revenue for the first six months of fiscal 2010. For further discussion of each segment's gross profit rate changes, see the *Segment Performance Summary* for Domestic and International below.

Our SG&A rate in the second quarter of fiscal 2010 increased by 1.0% of revenue to 21.8% of revenue. In the first six months of fiscal 2010, our SG&A rate increased from 20.7% of revenue to 21.8% of revenue. The SG&A rate increases in both the second quarter and first six months of fiscal 2010 were due to an increase in our International segment's SG&A rates, respectively, while the Domestic segment's rates, respectively, decreased compared with the prior year periods. The inclusion of Best Buy Europe increased our SG&A rate by 1.3% of revenue for the fiscal second quarter and by 1.2% of revenue for the first six months of fiscal 2010. For further discussion of each segment's SG&A rate changes, see the *Segment Performance Summary* for Domestic and International below.

Other Income (Expense)

Our investment income and other in the second quarter of fiscal 2010 increased to \$18 million, compared with \$9 million in the same period one year ago. The increase was primarily due to a gain on the sale of an equity investment. Our investment income and other in the first six months of fiscal 2010 decreased to \$27 million, compared with \$30 million in the same period one year ago, primarily due to the impact of lower average cash and investment balances and lower interest rates on our cash and investment balances.

Additionally, interest expense in the fiscal second quarter increased to \$22 million, compared with \$21 million in the same period one year ago. Our interest expense in the first six months of fiscal 2010 increased to \$45 million, compared with \$34 million in the same period one year ago. The increases in the second quarter and first six months of fiscal 2010 were primarily due to increased borrowings to acquire Best Buy Europe.

and the financing of its operations.

Income Tax Expense

Our effective income tax rates in the second quarter and first six months of fiscal 2010 were 42.8% and 43.9%, respectively, compared to 37.3% and 37.2%, respectively, in the corresponding periods of fiscal 2009. The increases in our effective income tax rate for the second quarter and first six months of fiscal 2010 were caused primarily by unbenefitted losses in certain foreign jurisdictions.

Table of ContentsSegment Performance Summary*Domestic*

The following table presents selected financial data for the Domestic segment (\$ in millions):

	Three Months Ended		Six Months Ended	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Revenue	\$ 8,274	\$ 8,133	\$ 15,799	\$ 15,586
Revenue % gain	2%	12%	1%	12%
Comparable store sales % (decline) gain	(3.1)%	5.3%	(4.0)%	4.4%
Gross profit as % of revenue	24.3%	24.9%	24.7%	24.7%
SG&A as % of revenue	20.5%	21.0%	20.6%	20.9%
Operating income 1	\$ 315	\$ 315	\$ 618	\$ 592
Operating income as % of revenue	3.8%	3.9%	3.9%	3.8%

- 1 Included within our Domestic segment's operating income for the first six months of fiscal 2010 is \$25 million of restructuring charges related to measures we took to restructure our businesses in the fiscal first quarter. These charges resulted in a decrease in our Domestic segment's operating income of 0.2% for the first six months of fiscal 2010. No restructuring charges were recorded in the second quarter of fiscal 2010 or the first six months of fiscal 2009.

The following table presents Domestic stores open at the end of the second quarters of fiscal 2010 and fiscal 2009:

	Total Stores at End of Second Quarter	
	Fiscal 2010	Fiscal 2009
U.S. Best Buy	1,044	973
Best Buy Mobile	48	21
Pacific Sales	35	22
Magnolia Audio Video	7	13
U.S. Geek Squad	6	7
Total Domestic stores	1,1401	1,0362

- 1 During the second quarter of fiscal 2010, we opened 22 new stores in our Domestic segment, consisting of 12 U.S. Best Buy stores, nine Best Buy Mobile stores and one Pacific Sales store. There were no store closures in our Domestic segment during the second quarter of fiscal 2010.
- 2 During the second quarter of fiscal 2009, we opened 33 new stores in our Domestic segment, consisting of 24 U.S. Best Buy stores, seven Best Buy Mobile stores and two Pacific Sales stores. There were no store closures in our Domestic segment during the second quarter of fiscal 2009.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Our Domestic segment's operating income in the second quarter of fiscal 2010 was \$315 million, or 3.8% of revenue, compared with \$315 million, or 3.9% of revenue, in the same period one year ago. The decrease in our Domestic segment's operating income rate for the second quarter of fiscal 2010 reflected a decrease in the gross profit rate, which was partially offset by an improvement in the SG&A rate. In the first six months of fiscal 2010, our Domestic segment's operating income was \$618 million, or 3.9% of revenue, compared with \$592 million, or 3.8% of revenue, in the same period one year ago. The increase in our Domestic segment's operating income rate in the first six months of fiscal 2010 reflected a decrease in the SG&A rate, while the gross profit rate remained flat. The increase was partially offset by \$25 million of restructuring charges recorded in the fiscal first quarter of 2010.

Our Domestic segment's revenue in the second quarter of fiscal 2010 increased 2% to \$8.3 billion, compared with \$8.1 billion in the same period one year ago. In the first six months of fiscal 2010, our Domestic segment's revenue increased 1% to \$15.8 billion, compared with \$15.6 billion in the same period one year ago. In both the second quarter and first six months of fiscal 2010, the revenue increases resulted primarily from the net addition of 104 new stores in the past 12 months, partially offset by the comparable store sales declines in the second quarter and the first six months of fiscal 2010 of 3.1% and 4.0%, respectively.

Table of Contents

The components of our Domestic segment's net revenue increase for the three and six months ended August 29, 2009 were as follows:

	Three months ended August 29, 2009	Six months ended August 29, 2009
Net new stores	5%	5%
Comparable store sales decline	(3)%	(4)%
Total revenue increase	2%	1%

The following table presents revenue mix percentages and comparable store sales percentage changes for the Domestic segment by revenue category in the second quarters of fiscal 2010 and fiscal 2009:

	Revenue Mix Summary Three Months Ended		Comparable Store Sales Summary Three Months Ended	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Consumer electronics	38%	38%	(2.4)%	2.0%
Home office	37%	34%	7.3%	15.1%
Entertainment software	13%	16%	(23.4)%	0.0%
Appliances	5%	5%	(10.1)%	(9.8)%
Services	6%	7%	(3.7)%	8.7%
Other	1%	<1%	n/a	n/a
Total	100%	100%	(3.1)%	5.3%

Our Domestic segment's comparable store sales decline in the second quarter of fiscal 2010 was driven by a reduction in average ticket, partially offset by a slight increase in customer traffic. The categories having the largest effect on our Domestic segment's comparable store sales decline in the fiscal second quarter were video gaming, digital cameras, DVDs and CDs. Weaker sales in these categories were partially offset by comparable store sales gains in notebook computers, mobile phones and flat-panel televisions.

In the second quarter of fiscal 2010, our Domestic segment's consumer electronics revenue category posted a 2.4% comparable store sales decline, driven primarily by decreases in the sales of digital cameras, navigation products and MP3 players, partially offset by gains in flat-panel televisions as unit sales increases more than offset average selling price decreases. The home office revenue category posted a 7.3% comparable store sales gain driven primarily by a continuation of increases in the sales of notebook computers and mobile phones. The entertainment software revenue category recorded a 23.4% comparable store sales decline due primarily to a decline in sales of video gaming, partially caused by industry-wide softness, as well as continued decline in sales of DVDs and CDs. The appliances revenue category recorded a 10.1% decline in comparable store sales due to continued weakness in the housing sector. The services revenue category recorded a 3.7% comparable store sales decline due primarily to reductions in computer and home installation services as a result of lower average selling prices and attachment rates.

Our Domestic segment's gross profit rate in the second quarter of fiscal 2010 decreased by 0.6% of revenue to 24.3% of revenue. In the first six months of fiscal 2010, our Domestic segment's gross profit rate remained flat at 24.7% of revenue, consistent with the same period one year ago. The decrease in the second quarter of fiscal 2010, as well as the flat gross profit rate for the first six months of fiscal 2010, was partially due to a shift in the segment's revenue mix to sales of lower-margin notebook computers, partially offset by increased sales of higher-margin mobile phones and decreased sales of lower-margin video gaming. In addition, the decrease in the second quarter of fiscal 2010 was impacted by rate unfavorability caused by increased sales of certain lower-margin mobile phones and several focused initiatives such as increased promotional pricing on televisions. Gross profit rate improvements in digital cameras and camcorders, televisions and services in the first quarter of fiscal 2010 directly offset the unfavorable mix and rate impacts previously discussed, resulting in the gross profit rate remaining flat for the first six

months of fiscal 2010.

Our Domestic segment's SG&A rate in the second quarter of fiscal 2010 decreased by 0.5% of revenue to 20.5% of revenue. In the first six months of fiscal 2010, our Domestic segment's SG&A rate was 20.6% of revenue, compared with 20.9% of revenue in the same period one year ago. The decreases in the second quarter and first six months of fiscal 2010 were attributable to reductions in outside and outsourced services, travel expense, advertising and corporate payroll, partially offset by the deleveraging impact of lower comparable store sales on payroll, benefits and overhead and higher incentive pay due to better-than-expected performance. Overall, SG&A dollars in the fiscal second quarter declined versus the prior year period.

Our Domestic segment incurred no restructuring charges in the second quarter of fiscal 2010, consistent with the same period one year ago. Our Domestic segment's restructuring charges in the first six months of fiscal 2010 were \$25, compared to \$0 in the same period one year ago. The charges were primarily the result of changes to our U.S. Best Buy store operating model, which resulted in the elimination of certain positions, for which we incurred employee termination costs.

Table of Contents*International*

The following table presents selected financial data for the International segment (\$ in millions):

	Three Months Ended ¹		Six Months Ended ¹	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Revenue	\$ 2,748	\$ 1,668	\$ 5,318	\$ 3,205
Revenue % gain	65%	10%	66%	17%
Comparable store sales % (decline) gain	(8.3)%	(1.0)%	(10.9)%	1.7%
Gross profit as % of revenue	24.5%	21.3%	25.2%	20.8%
SG&A as % of revenue	25.8%	19.9%	25.5%	20.1%
Operating (loss) income ²	\$ (35)	\$ 24	\$ (42)	\$ 24
Operating (loss) income as % of revenue	(1.2)%	1.4%	(0.8)%	0.7%

- On June 28, 2008, we acquired a 50% interest in Best Buy Europe, whose operating results are reported on a two-month lag. Accordingly, our results of operations did not reflect Best Buy Europe results until the third quarter of fiscal 2009.
- Included within our International segment's operating loss for the first six months of fiscal 2010 is \$27 million of restructuring charges related to measures we took to restructure our businesses in the fiscal first quarter. These charges resulted in a decrease in our International segment's operating income of 0.5% of revenue for the first six months of fiscal 2010. No restructuring charges were recorded in the second quarter of fiscal 2010 or the first six months of fiscal 2009.

The following table presents International stores open at the end of the second quarters of fiscal 2010 and fiscal 2009:

	Total Stores at End of Second Quarter	
	Fiscal 2010	Fiscal 2009
Best Buy Europe ¹	2,450	
Five Star	165	161
Future Shop	142	133
Best Buy Canada	60	52
Best Buy China	6	1
Best Buy Mobile Canada	3	
Best Buy Mexico	1	
Total International stores	2,827 ²	347 ³

- Consists of The Carphone Warehouse stores in the U.K. and The Phone House stores throughout continental Europe.
- During the second quarter of fiscal 2010, we opened 34 new stores in our International segment, consisting of 27 Best Buy Europe stores, two Five Star stores, two Future Shop stores, two Best Buy Canada stores, and one Best Buy China store. Offsetting these store openings were 37 store closures in second quarter of fiscal 2010, consisting of 36 Best Buy Europe stores and one Five Star store.
- During the second quarter of fiscal 2009, we opened one new store in our International segment, a Best Buy Canada store. No stores were closed in our International segment during the second quarter of fiscal 2009.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Our International segment's operating loss in the second quarter of fiscal 2010 was \$(35) million, or (1.2)% of revenue, compared with operating income of \$24 million, or 1.4% of revenue, in the same period one year ago. The International segment's decrease in operating (loss) income for the fiscal second quarter resulted primarily from an operating loss with our Europe business, whose operating results are seasonal and generally at their lowest in the fiscal second quarter, and lower operating income in Canada. In the first six months of fiscal 2010, our International segment's operating loss was \$(42) million, or (0.8)% of revenue, compared with operating income of \$24 million, or 0.7% of revenue, in the same period one year ago. The International segment's decrease in operating income for the first six months of fiscal 2010 resulted primarily from the operating loss with our Europe business in the second quarter of fiscal 2010, the \$27 million of restructuring charges incurred in the first quarter of fiscal 2010 and lower operating income in Canada.

Our International segment's revenue in the second quarter of fiscal 2010 increased 65% to \$2.7 billion, compared with \$1.7 billion for the same period one year ago. In the first six months of fiscal 2010, our International segment's revenue increased 66% to \$5.3 billion, compared with \$3.2 billion in the same period one year ago. The inclusion of Best Buy Europe and the net addition of 66 new

Table of Contents

stores in the past 12 months (of which 36 were Best Buy Europe stores) accounted for the majority of the revenue increase. Partially offsetting these increases were the effects of comparable store sales declines in the second quarter and the first six months of fiscal 2010 of 8.3% and 10.9%, respectively, as well as unfavorable fluctuations in foreign currency exchange rates. Excluding the addition of Best Buy Europe and the negative impact of fluctuations in foreign currency exchange rates, the International segment's revenue declined 3% and 6% for the second quarter and first six months of fiscal 2010, respectively, versus the prior year periods.

The components of our International segment's net revenue increase for the three and six months ended August 29, 2009 were as follows:

	Three months ended August 29, 2009	Six months ended August 29, 2009
Acquisition of Best Buy Europe	73%	80%
Net new stores	5%	4%
Comparable store sales decline	(7)%	(10)%
Unfavorable impact of foreign currency	(5)%	(8)%
Non-comparable store sales channels ¹	(1)%	%
Total revenue increase	65%	66%

¹ Revenue we earn from sales of merchandise to resellers is not included within our comparable store sales calculation.

The following table presents revenue mix percentages and comparable store sales percentage changes for the International segment by revenue category in the second quarters of fiscal 2010 and fiscal 2009:

	Revenue Mix Summary 1		Comparable Store Sales Summary 2	
	Three Months Ended		Three Months Ended	
	August 29, 2009	August 30, 2008	August 29, 2009	August 30, 2008
Consumer electronics	19%	36%	(14.3)%	3.7%
Home office	52%	30%	(10.0)%	(2.6)%
Entertainment software	5%	11%	(21.1)%	13.1%
Appliances	11%	18%	11.6%	(13.2)%
Services	13%	5%	10.4%	(2.6)%
Other	<1%	<1%	n/a	n/a
Total	100%	100%	(8.3)%	(1.0)%

¹ The International segment's revenue mix changed significantly beginning in the third quarter of fiscal 2009 due to our acquisition of Best Buy Europe. Best Buy Europe comprised 44% of the International segment's revenue in the second quarter of fiscal 2010. The majority of Best Buy Europe's business is the sale of mobile phones and acting as an agent to sell mobile voice and data service plans, which are included in our home office revenue category. In addition, Best Buy Europe offers mobile phone insurance and other mobile and fixed-line telecommunication services, which are included in our services revenue category.

² Comparable store sales does not include Best Buy Europe, which will first be included in our comparable store sales in the third quarter of fiscal 2010.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Our International segment's comparable store sales decline in the second quarter of fiscal 2010 was driven by Canada, partially offset by a comparable store sales gain in China. The categories having the largest effect on our International segment's comparable store sales decline in the fiscal second quarter were flat-panel televisions, video gaming, desktop computers and monitors and notebook computers. Weaker sales in these product categories were partially offset by comparable store sales gains in major appliances and services.

In the second quarter of fiscal 2010, our International segment's consumer electronics revenue category posted a 14.3% comparable store sales decline resulting primarily from reductions in the comparable sales of nearly all product categories within consumer electronics, particularly flat-panel televisions and digital cameras and camcorders. The home office revenue category posted a 10.0% comparable store sales decline due primarily to desktop computers and monitors as well as notebook computers, partially offset by a modest gain in mobile phones. The entertainment software revenue category recorded a 21.1% comparable store sales decline due to a decrease in the comparable sales of nearly all categories within this revenue category, particularly video gaming. The appliances revenue category recorded an 11.6% comparable store sales gain resulting primarily from increases in the sales of appliances in China operations, where appliances represent a larger percentage of the sales, as well as a gain in appliances in Canada. The services revenue category posted a 10.4% comparable store sales gain due primarily to an increase in revenue from our repair and installation business and sales of service plans.

Table of Contents

Our International segment's gross profit rate in the second quarter of fiscal 2010 increased by 3.2% of revenue to 24.5% of revenue. In the first six months of fiscal 2010, our International segment's gross profit rate increased by 4.4% of revenue to 25.2% of revenue. In the second quarter and first six months of fiscal 2010, the inclusion of Best Buy Europe increased our International segment's gross profit rate by 3.8% and 4.9% of revenue, respectively. In the second quarter of fiscal 2010, partially offsetting the effect of the acquisition of Best Buy Europe was the mix impact of China's lower-margin operations as well as heavier promotions, while Canada's gross profit rate remained flat. In the first six months of fiscal 2010, partially offsetting the effect of the acquisition of Best Buy Europe was a slight reduction in Canada's gross profit rate, primarily due to promotional pressure on margins in the fiscal first quarter from televisions and notebook computers as well as the mix impact of China's lower-margin operations.

Our International segment's SG&A rate in the second quarter of fiscal 2010 increased by 5.9% of revenue to 25.8% of revenue. In the first six months of fiscal 2010, our International segment's SG&A rate increased by 5.4% of revenue to 25.5% of revenue. In the second quarter and first six months of fiscal 2010, the inclusion of Best Buy Europe increased our International segment's SG&A rate by 5.2% and 4.4% of revenue, respectively. The deleveraging impact of Canada's comparable store sales decline on payroll, benefits and overhead costs further contributed to the overall increase in the SG&A rate for both the second quarter and first six months of fiscal 2010. Partially offsetting these increases were lower SG&A rates in China in both the second quarter and first six months of fiscal 2010, as compared to the prior year periods, due to savings in payroll and advertising as well as reductions in advertising costs in Canada.

Our International segment incurred no restructuring charges in the second quarter of fiscal 2010, consistent with the same period one year ago. Our International segment's restructuring charges in the first quarter of fiscal 2010 were \$27 million, compared to \$0 in the same period one year ago. The charges incurred were primarily related to employee termination benefits and business reorganization costs at Best Buy Europe.

Liquidity and Capital ResourcesSummary

The following table summarizes our cash and cash equivalents and short-term investments balances at August 29, 2009; February 28, 2009; and August 30, 2008 (\$ in millions):

	August 29, 2009		February 28, 2009		August 30, 2008
Cash and cash equivalents	\$	668	\$	498	\$ 544
Short-term investments		93		11	
Total cash and cash equivalents and short-term investments	\$	761	\$	509	\$ 544

The increase in the balance of our cash and cash equivalents and short-term investments compared with the end of the second quarter of fiscal 2009 was due primarily to cash inflows from operations as well as our re-classification of certain auction-rate securities to short-term investments in the second quarter of fiscal 2010, partially offset by short-term debt repayments.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Our current ratio, calculated as current assets divided by current liabilities, was 1.0 at the end of the second quarter of fiscal 2010, compared with 1.0 at the end of fiscal 2009 and 0.9 at the end of the second quarter of fiscal 2009.

Our debt-to-capitalization ratio, which represents the ratio of total debt, including the current portion of long-term debt, to total capitalization (total debt plus total shareholders' equity), was 30% at the end of the second quarter of fiscal 2010, compared with 30% at the end of fiscal 2009, and 36% at the end of the second quarter of fiscal 2009. We view our debt-to-capitalization ratio as an important indicator of our creditworthiness. The decrease from the end of the second quarter of fiscal 2009 was due primarily to higher borrowings in the prior year in connection with our acquisition of Best Buy Europe as well as repayments of short-term borrowings in the second quarter of fiscal 2010.

Our adjusted debt-to-capitalization ratio, which includes capitalized operating lease obligations in its calculation, was 67% at the end of the second quarter of fiscal 2010, compared with 68% at the end of fiscal 2009 and 65% at the end of the first quarter of fiscal 2009.

Our adjusted debt-to-capitalization ratio is considered a non-GAAP financial measure and is not in accordance with, or preferable to, the ratio determined in accordance with U.S. generally accepted accounting principles (GAAP). However, we have included this information as we believe that our adjusted debt-to-capitalization ratio, including capitalized operating lease obligations, is important for understanding our operations and provides meaningful additional information about our ability to service our long-term debt and

Table of Contents

other fixed obligations, and to fund our future growth. In addition, we believe our adjusted debt-to-capitalization ratio, including capitalized operating lease obligations, is relevant because it enables investors to compare our indebtedness to that of retailers who own, rather than lease, their stores. Our decision to own or lease real estate is based on an assessment of our financial liquidity, our capital structure, our desire to own or to lease the location, the owner's desire to own or to lease the location, and the alternative that results in the highest return to our shareholders.

The most directly comparable GAAP financial measure to our adjusted debt-to-capitalization ratio, including capitalized operating lease obligations, is our debt-to-capitalization ratio. Our debt-to-capitalization ratio excludes capitalized operating lease obligations in both the numerator and denominator of the calculation. The following table presents a reconciliation of the numerator and denominator used in the calculation of our adjusted debt-to-capitalization ratio, including capitalized operating lease obligations, for the dates indicated (\$ in millions):

	August 29, 2009	February 28, 2009	August 30, 2008
Debt (including current portion)	\$ 2,247	\$ 1,963	\$ 2,690
Capitalized operating lease obligations (8 times rental expense) ¹	8,691	8,114	5,964
Adjusted debt (including capitalized operating lease obligations)	\$ 10,938	\$ 10,077	\$ 8,654
Debt (including current portion)	\$ 2,247	\$ 1,963	\$ 2,690
Capitalized operating lease obligations (8 times rental expense) ¹	8,691	8,114	5,964
Total Best Buy Co., Inc. shareholders' equity	5,306	4,643	4,752
Adjusted capitalization	\$ 16,244	\$ 14,720	\$ 13,406
Debt-to-capitalization ratio	30%	30%	36%
Adjusted debt-to-capitalization ratio (including capitalized operating lease obligations)	67%	68%	65%

¹ The multiple of eight times annual rental expense used to calculate our capitalized operating lease obligations total is the multiple used for the retail sector by one of the nationally recognized credit rating agencies that rate our creditworthiness.

Our liquidity is affected by restricted cash balances that are pledged as collateral or restricted to use for vendor payables, general liability insurance, workers' compensation insurance and customer warranty and insurance programs. Restricted cash and cash equivalents, which is included in other current assets, totaled \$515 million, \$487 million and \$440 million at August 29, 2009; February 28, 2009; and August 30, 2008, respectively. The increase in restricted cash from the end of the second quarter of fiscal 2009 was due primarily to increased reserve requirements with respect to our captive insurance businesses.

Cash Flows

The following table summarizes our cash flows for the first six months of the current and prior fiscal years (\$ in millions):

	Six Months Ended	
	August 29, 2009	August 30, 2008
Total cash provided by (used in):		
Operating activities	\$ 238	\$ 50

Edgar Filing: BEST BUY CO INC - Form 10-Q

Investing activities		(238)		(2,500)
Financing activities		218		1,505
Effect of exchange rate changes on cash		(48)		51
Increase in cash and cash equivalents	\$	170	\$	(894)

Cash provided by operating activities in the first six months of fiscal 2010 was \$238 million, compared with \$50 million in the first six months of fiscal 2009. The increase in cash provided was due primarily to increases in cash provided by net earnings (excluding depreciation and amortization) and receivables and decreases in cash used for accrued incomes taxes and other liabilities including restructuring charges, partially offset by decreases in cash provided by accounts payable. The increase in cash provided by receivables was due primarily to the timing of the receipt of customer and network operating receivables in our Best Buy Europe business. The decrease in cash used for accrued income taxes was due primarily to the timing of tax payments, while the decrease in cash used for other liabilities was due to the timing and magnitude of transaction taxes payable and other accrued liabilities. The decrease in cash provided by accounts payable was due primarily to the timing of inventory purchases and receipts to later in the period as well as higher average accounts payable balances in the prior year period.

Table of Contents

Cash used in investing activities in the first six months of fiscal 2010 was \$238 million, compared with \$2.5 billion in the first six months of fiscal 2009. The decrease in cash used in investing activities was due primarily to the \$2.1 billion of net cash associated with the acquisition of businesses in the first six months of fiscal 2009, including Best Buy Europe. Also contributing to the decrease was an expected decrease in capital expenditures to \$310 million in the first six months of fiscal 2010, compared with \$502 million in the prior year period.

Cash provided by financing activities in the first six months of fiscal 2010 was \$218 million, compared with \$1.5 billion for the first six months of fiscal 2009. The decrease in cash provided by financing activities was primarily the result of a \$1.3 billion decrease in borrowings, net of repayments, in the first six months of fiscal 2010 compared to the same period one year ago. Larger borrowings in the prior year were associated with the acquisition of Best Buy Europe.

Share Repurchases and Dividends

For the three months ended August 29, 2009 and August 30, 2008, we made no share repurchases under our June 2007 share repurchase program or otherwise.

During the second quarter of fiscal 2010, we paid our regular quarterly cash dividend of \$0.14 per common share, or \$58 million in the aggregate. During the same period one year ago, we paid a regular quarterly cash dividend of \$0.13 per common share, or \$53 million in the aggregate. As announced on September 16, 2009, our Board of Directors authorized payment of our next regular quarterly cash dividend of \$0.14 per common share, payable on October 27, 2009, to shareholders of record as of the close of business on October 6, 2009.

Sources of Liquidity

Funds generated by operating activities, available cash and cash equivalents, and our credit facilities continue to be our most significant sources of liquidity. We believe our sources of liquidity will be sufficient to sustain operations, including announced restructuring costs, and to finance anticipated expansion plans and strategic initiatives for the remainder of fiscal 2010. However, in the event our liquidity is insufficient, we may be required to limit our future expansion plans or we may not be able to pursue promising business opportunities. There can be no assurance that we will continue to generate cash flows at or above current levels or that we will be able to maintain our ability to borrow under our existing credit facilities or obtain additional financing, if necessary, on favorable terms.

We have a \$2.32 billion five-year unsecured revolving credit facility, as amended (the Credit Agreement), with a syndicate of banks, of which \$325 million was outstanding at August 29, 2009. The Credit Agreement expires in September 2012. We were in compliance with our financial covenants under the Credit Agreement at August 29, 2009. At October 6, 2009, we had \$100 million of borrowings outstanding under the Credit Agreement.

We have \$1.0 billion available under secured and unsecured revolving demand and credit facilities related to our International segment operations, of which \$766 million was outstanding at August 29, 2009.

At August 29, 2009, we had \$298 million of auction-rate securities (ARS) recorded at fair value within short-term investments and equity and other investments in our consolidated balance sheet. The majority of our ARS portfolio is AAA/Aaa-rated and collateralized by student loans, which are guaranteed 95% to 100% by the U.S. government. Due to the auction failures that began in mid-February 2008, we have been unable to liquidate many of our ARS. The investment principal associated with our ARS subject to failed auctions will not be accessible until successful auctions occur, a buyer is found outside of the auction process, the issuers establish a different form of financing to replace these securities, or final payments come due according to the contractual maturities of the debt issues, which range from seven to 39 years. We intend to hold our ARS until we can recover the full principal amount through one of the means described above, and have the ability to do so based on our other sources of liquidity.

Our credit ratings and outlooks at October 6, 2009, are summarized below and are consistent with the ratings and outlooks reported in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009.

Rating Agency	Rating	Outlook
Fitch	BBB+	Negative
Moody's	Baa2	Stable
Standard & Poor's	BBB	Stable

Factors that can affect our credit ratings include changes in our operating performance, the economic environment, conditions in the retail and consumer electronics industries, our financial position, and changes in our business strategy. We are not aware of any

Table of Contents

reasonable circumstances under which our credit ratings would be significantly downgraded. If a downgrade were to occur, it could adversely impact, among other things, our future borrowing costs, access to capital markets, vendor financing terms and future new-store occupancy costs. In addition, the conversion rights of the holders of our convertible debentures could be accelerated if our credit ratings were to be downgraded.

Debt and Capital

At August 29, 2009, we had short-term debt outstanding under our various credit agreements of \$1.1 billion, an increase from \$783 million at February 28, 2009, to meet normal working capital needs. Other than as discussed in Note 7, *Debt*, of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q, there were no significant changes in the terms of our debt at August 29, 2009, compared to February 28, 2009. See Note 6, *Debt*, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, for additional information regarding our debt.

Off-Balance-Sheet Arrangements and Contractual Obligations

Our liquidity is not dependent on the use of off-balance sheet financing arrangements other than in connection with our operating leases.

There has been no material change in our contractual obligations other than in the ordinary course of business since the end of fiscal 2009. See our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, for additional information regarding our off-balance-sheet arrangements and contractual obligations.

Significant Accounting Policies and Estimates

We describe our significant accounting policies in Note 1, *Summary of Significant Accounting Policies*, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009. We discuss our critical accounting estimates in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, in our Annual Report on Form 10-K for the fiscal year ended February 28, 2009. There has been no significant change in our significant accounting policies or critical accounting estimates since the end of fiscal 2009.

New Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. This standard replaces SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, and establishes only two levels of U.S. generally accepted accounting principles (GAAP), authoritative and nonauthoritative. The FASB Accounting Standards Codification (the Codification) became the source of authoritative, nongovernmental GAAP,

Edgar Filing: BEST BUY CO INC - Form 10-Q

except for rules and interpretive releases of the Securities and Exchange Commission (SEC), which are sources of authoritative GAAP for SEC registrants. All other non-grandfathered, non-SEC accounting literature not included in the Codification became nonauthoritative. This standard is effective for financial statements for interim or annual reporting periods ending after September 15, 2009. We have begun to use the new guidelines and numbering system prescribed by the Codification when referring to GAAP in the third quarter of fiscal 2010. As the Codification was not intended to change or alter existing GAAP, it will not have a material impact on our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)*. This standard responds to concerns about the application of certain key provisions of FASB Interpretation (FIN) 46(R), including those regarding the transparency of the involvement with variable interest entities. Specifically, SFAS No. 167 requires a qualitative approach to identifying a controlling financial interest in a variable interest entity (VIE) and requires ongoing assessment of whether an entity is a VIE and whether an interest in a VIE makes the holder the primary beneficiary of the VIE. In addition, the standard requires additional disclosures about the involvement with a VIE and any significant changes in risk exposure due to that involvement. SFAS No. 167 is effective for fiscal years beginning after November 15, 2009. We plan to adopt SFAS No. 167 in fiscal 2011 and are evaluating the impact it will have on our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment to SFAS No. 140*. The new standard eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets, and requires additional disclosures in order to enhance information reported to users of financial statements by providing greater transparency about transfers of financial assets, including securitization transactions, and an entity's continuing involvement in and exposure to the risks related to transferred financial assets. SFAS No. 166 is effective for fiscal years beginning after

Table of Contents

November 15, 2009. We plan to adopt SFAS No. 166 in fiscal 2011 and are evaluating the impact it will have on our consolidated financial statements.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. This standard is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, this standard sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS No. 165 was effective for fiscal years and interim periods ended after June 15, 2009 and must be applied prospectively. We adopted and applied the provisions of SFAS No. 165 for our fiscal quarter ended August 29, 2009, and have included the disclosures required by SFAS No. 165 in the *Basis of Presentation* within Note 1, *Basis of Presentation*. The adoption of SFAS No. 165 did not have an impact on our consolidated financial position or results of operations.

In April 2009, the FASB issued three FASB Staff Positions (FSP) intended to provide additional application guidance and enhanced disclosures regarding fair value measurements and impairments of securities. FSP No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, provides additional guidelines for estimating fair value in accordance with SFAS No. 157, *Fair Value Measurements*. FSP No. 115-2, *Recognition and Presentation of Other-Than-Temporary Impairments*, provides additional guidance related to the disclosure of impairment losses on securities and the accounting for impairment losses on debt securities. FSP No. 115-2 does not amend existing guidance related to other-than-temporary impairments of equity securities. FSP No. 107-1 and Accounting Principles Board (APB) Opinion No. 28-1, *Interim Disclosures about Fair Value of Financial Instruments*, increases the frequency of fair value disclosures. These FSPs are effective for fiscal years and interim periods ended after June 15, 2009. As such, we adopted these FSPs in the second quarter of fiscal 2010, and have included the additional required interim disclosures about the fair value of financial instruments and valuation techniques within Note 3, *Investments*, and Note 4, *Fair Value Measurements*. The adoption of these FSPs did not have a material impact on our consolidated financial position or results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133*. SFAS No. 161 is intended to improve financial standards for derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand the effect these instruments and activities have on an entity's financial position, financial performance and cash flows. Entities are required to provide enhanced disclosures about: how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations; and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Our adoption of SFAS No. 161 in the fourth quarter of fiscal 2009 had no impact on our consolidated financial statements. However, in the first quarter of fiscal 2010, we entered into significant derivative hedging contracts and, accordingly, we have included the disclosures required by SFAS No. 161 in Note 8, *Derivative Instruments*, which are provided on a prospective basis.

In December 2007, the FASB issued SFAS No. 141(revised 2007), *Business Combinations* (141R). SFAS No. 141R significantly changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, preacquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under SFAS No. 141R, changes in an acquired entity's deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. SFAS No. 141R is effective for fiscal years beginning after December 15, 2008. We adopted SFAS No. 141R on March 1, 2009, which changed our accounting treatment for business combinations on a prospective basis.

Edgar Filing: BEST BUY CO INC - Form 10-Q

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*. SFAS No. 160 changes the accounting and reporting for minority interests, which must be recharacterized as noncontrolling interests and classified as a component of shareholders' equity. This new consolidation method significantly changes the accounting for transactions with minority interest holders. SFAS No. 160 is effective for fiscal years beginning after December 15, 2008. We adopted SFAS No. 160 on March 1, 2009, and applied the provisions of the standard prospectively, except for the presentation and disclosure requirements, which we applied retrospectively. Our adoption of SFAS No. 160 did not have a material impact on our consolidated financial statements other than the following reporting and disclosure changes which we applied retrospectively to all periods presented:

(i) we recharacterized minority interests previously reported on our condensed consolidated balance sheets as noncontrolling interests and classified them as a component of shareholders' equity;

(ii) we adjusted certain captions previously utilized on our consolidated statements of earnings to specifically identify net earnings attributable to noncontrolling interests and net earnings attributable to Best Buy Co., Inc.; and

Table of Contents

(iii) in order to reconcile net earnings to the cash flows from operating activities, we changed the starting point on our consolidated statements of cash flows from net earnings to net earnings including noncontrolling interests, with net earnings or loss from the noncontrolling interests (previously, minority interests) no longer a reconciling item in arriving at net cash flows from operating activities in our consolidated statement of cash flows.

Additional disclosures required by this standard are included in Note 10, *Supplemental Equity and Comprehensive Income Information*, of the Notes to Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Safe Harbor Statement Under the Private Securities Litigation Reform Act

Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act), provide a safe harbor for forward-looking statements to encourage companies to provide prospective information about their companies. With the exception of historical information, the matters discussed in this Quarterly Report on Form 10-Q are forward-looking statements and may be identified by the use of words such as anticipate, believe, estimate, expect, intend plan, project, outlook, and other words and terms meaning. Such statements reflect our current view with respect to future events and are subject to certain risks, uncertainties and assumptions. A variety of factors could cause our future results to differ materially from the anticipated results expressed in such forward-looking statements. Readers should review Item 1A, *Risk Factors*, of our Annual Report on Form 10-K for the fiscal year ended February 28, 2009, for a description of important factors that could cause future results to differ materially from those contemplated by the forward-looking statements made in this Quarterly Report on Form 10-Q. In addition, general economic conditions, acquisitions and development of new businesses, divestitures, product availability, sales volumes, pricing actions and promotional activities of our competitors, profit margins, weather, changes in law or regulations, foreign currency fluctuation, availability of suitable real estate locations, our ability to react to a disaster recovery situation, availability of consumer credit and the impact of labor markets and new product introductions on our overall profitability, among other things, could cause our future results to differ materially from those projected in any such forward-looking statement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In addition to the risks inherent in our operations, we are exposed to certain market risks, including adverse changes in foreign currency exchange rates and interest rates.

Foreign Currency Exchange Rate Risk

We have market risk arising from changes in foreign currency exchange rates related to our International segment operations. On a limited basis, we use forward foreign exchange contracts to hedge the impact of fluctuations in foreign currency exchange rates. Our Canada and Europe businesses enter into the contracts primarily to hedge certain non-functional currency exposures. The aggregate notional amount and fair value recorded on our consolidated balance sheet related to our foreign exchange forward and swap contracts outstanding was \$968 million and \$14 million, respectively, at August 29, 2009. The aggregate gains recorded in our consolidated statement of net earnings related to all such contracts settled and outstanding were \$6 million and \$2 in the second quarter and first six months of fiscal 2010, respectively.

Edgar Filing: BEST BUY CO INC - Form 10-Q

Since the second quarter of fiscal 2009, the U.S. dollar has been generally stronger relative to the currencies of the foreign countries in which we operate. The overall strength of the U.S. dollar had a negative impact on our International segment's revenue and net earnings because the foreign denominations translated into fewer U.S. dollars.

It is not possible to determine the exact impact of foreign currency exchange rate changes; however, the effect on reported revenue and net earnings can be estimated. We estimate that the overall strength of the U.S. dollar had an unfavorable impact on our revenue of approximately \$86 million in the second quarter of fiscal 2010. In addition, we estimate that such strength had an unfavorable impact of approximately \$2 million on our net earnings in the second quarter of fiscal 2010.

Interest Rate Risk

Short-term and long-term debt

At August 29, 2009, our short-term and long-term debt was comprised primarily of credit facilities, our convertible debentures and our 6.75% notes. We do not currently manage the interest rate risk on our debt through the use of derivative instruments.

Our credit facilities are not subject to material interest rate risk. The credit facilities' interest rates may be reset due to fluctuations in a market-based index, such as the federal funds rate, the London Interbank Offered Rate (LIBOR), or the base rate or prime rate of our

Table of Contents

lenders. A hypothetical 100-basis-point change in the interest rates of our credit facilities would change our annual pre-tax earnings by \$11 million.

There is no interest rate risk associated with our 6.75% notes or convertible debentures, as the interest rates are fixed at 6.75% and 2.25%, respectively, per annum.

Short- and long-term investments in debt securities

At August 29, 2009, our short- and long-term investments in debt securities were comprised of auction-rate securities. These investments are not subject to material interest rate risk. A hypothetical 100-basis-point change in the interest rate would change our annual pre-tax earnings by \$3 million. We do not currently manage interest rate risk on these investments through the use of derivative instruments.

Other Market Risks

Investments in auction-rate securities

At August 29, 2009, we held \$298 million in investments in ARS, after recording a \$8 million pre-tax temporary impairment in the second quarter of fiscal 2010. Given current conditions in the ARS market, we may incur additional temporary unrealized losses or other-than-temporary realized losses in the future if market conditions were to persist and we are unable to recover the cost of our ARS investments. A hypothetical 100-basis-point loss from the par value of these investments would result in a \$3 million impairment.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), to allow timely decisions regarding required disclosure. We have established a Disclosure Committee, consisting of certain members of management, to assist in this evaluation. The Disclosure Committee meets on a regular quarterly basis, and as needed.

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act), at August 29, 2009. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, at August 29, 2009, our disclosure controls and procedures were effective.

There was no change in internal control over financial reporting during the fiscal quarter ended August 29, 2009, that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

We acquired Best Buy Europe and Napster in fiscal 2009. We are not yet required to evaluate, and have not fully evaluated, changes in Best Buy Europe's or Napster's internal control over financial reporting and, therefore, any material changes in internal control over financial reporting that may result from these acquisitions have not been disclosed in this Quarterly Report on Form 10-Q. We intend to disclose all material changes in internal control over financial reporting resulting from these acquisitions prior to or in our Annual Report on Form 10-K for the fiscal year ending February 27, 2010, in which report we will be required for the first time to include Best Buy Europe and Napster in our annual assessment of internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Stock Repurchases

During the second quarter of fiscal 2010, we purchased no shares under our June 2007 \$5.5 billion share repurchase program. There is no stated expiration date for the June 2007 share repurchase program. We purchased \$3.0 billion in fiscal 2008.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our Regular Meeting of Shareholders was held on June 24, 2009.

a. The individuals named below were elected as Class 2 directors, each to serve for a term expiring with the election of directors at our 2011 Regular Meeting of Shareholders. Shares voted were as follows:

<u>Ronald James</u>	
Shares For	374,884,066
Shares Withheld	5,234,720

<u>Elliot S. Kaplan</u>	
Shares For	359,570,232
Shares Withheld	20,548,554

<u>Sanjay Khosla</u>	
Shares For	376,250,128
Shares Withheld	3,868,658

<u>George L. Mikan III</u>	
Shares For	368,788,964
Shares Withheld	11,329,822

<u>Matthew H. Paull</u>	
Shares For	377,063,114
Shares Withheld	3,055,672

<u>Richard M. Schulze</u>	
Shares For	371,966,792
Shares Withheld	8,151,994

<u>Hatim A. Tyabji</u>	
Shares For	370,929,324
Shares Withheld	9,189,462

b. The appointment of the Class 1 director named below was ratified. The term of the Class 1 director expires with the election of directors at our 2010 Regular Meeting of Shareholders. Shares voted were as follows:

<u>Gérard R. Vittecoq</u>	
Shares For	376,267,312
Shares Withheld	3,851,474

c. The appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year beginning March 1, 2009, was ratified. There were 379,133,337 votes for, and 775,333 votes against, ratification. There were 210,116 abstentions.

d. A proposal to approve amendments to the Best Buy Co., Inc. 2004 Omnibus Stock and Incentive Plan, as amended, was approved. There were 311,141,322 votes for, and 34,983,669 votes against, approval. There were 512,690 abstentions and 33,481,105 broker non-votes.

e. A proposal to approve an amendment to Article IX of our Amended and Restated Articles of Incorporation (Articles) to change the approval required for certain business combinations was approved. There were 376,485,874 votes for, and 3,064,379 votes against, approval. There were 568,533 abstentions.

f. A proposal to approve an amendment to Article IX of our Articles to decrease the shareholder approval required to amend Article IX was approved. There were 371,515,431 votes for, and 7,951,253 votes against, approval. There were 652,102 abstentions.

Table of Contents

g. A proposal to approve an amendment to Article IX of our Articles to decrease the shareholder approval required to remove directors without cause was approved. There were 373,003,967 votes for, and 6,504,451 votes against, approval. There were 610,368 abstentions.

h. A proposal to approve an amendment to Article IX of our Articles to decrease the shareholder approval required to amend the classified board provisions in our Amended and Restated By-laws was approved. There were 372,380,319 votes for, and 7,109,237 votes against, approval. There were 629,230 abstentions.

i. A proposal to approve an amendment to Article X of our Articles to decrease the shareholder approval required for certain repurchases of stock from substantial shareholders and make other related changes was approved. There were 338,926,337 votes for, and 7,423,176 votes against, approval. There were 288,167 abstentions and 33,481,106 broker non-votes.

j. A proposal to approve an amendment to Article X of our Articles to decrease the shareholder approval required to amend Article X was approved. There were 371,295,229 votes for, and 8,173,572 votes against, approval. There were 649,985 abstentions.

ITEM 6. EXHIBITS

- 5.0 Receivables Financing Agreement dated July 3, 2009, between a subsidiary of Best Buy Europe and Barclays Bank PLC, as administrative agent, and a syndication of banks
- 31.1 Certification of the Chief Executive Officer pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of the Chief Financial Officer pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of the Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of the Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 101 The following financial information from our Quarterly Report on Form 10-Q for the second quarter of fiscal 2010, filed with the SEC on October 8, 2009, formatted in Extensible Business Reporting Language (XBRL): (i) the Condensed consolidated balance sheets at August 29, 2009; February 28, 2009; and August 30, 2008, (ii) the Consolidated statements of earnings for the three and six months ended August 29, 2009, and August 30, 2008, (iii) the Consolidated statements of cash flows for the six months ended August 29, 2009, and August 30, 2008, and (iv) Notes to condensed consolidated financial statements (tagged as blocks of text).(1)

(1)The XBRL related information in Exhibit 101 to this Quarterly Report on Form 10-Q shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to liability of that section and shall not be incorporated by reference into any filing or other document pursuant to the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing or document.
