PROXY STATEMENT

Relating to
Annual Meeting of Stockholders
To be held on June 16, 2011

We are sending this proxy statement to the holders of our common stock, \$0.001 par value, in connection with the solicitation by our Board of Directors (the Board) of proxies to be voted at the General Moly, Inc. (the Company, we, or us, or our) Annual Meeting of Stockholders (the

Annual Meeting) to be held on June 16, 2011 at 9:00 a.m., local Colorado time, at the Marriott Denver West, 1717 Denver West Boulevard, Golden, Colorado 80401, and any postponements or adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. This proxy statement and the accompanying proxy card are first being mailed to our stockholders on or about May 12, 2011.

A proxy card is enclosed for your use. **The Board requests that you sign, date, and return it in the enclosed postage paid return envelope, which does not require postage if mailed in the United States.** Your execution of the enclosed proxy will not affect your right as a stockholder to attend the Annual Meeting and to vote in person.

PURPOSE OF THE ANNUAL MEETING

At the Annual Meeting, stockholders entitled to vote will be asked to consider and take action on the following matters:

- election of four Class I members to our Board to serve until the 2014 Annual Meeting of Stockholders and until their respective successors are elected and qualified or until their earlier death, resignation, or removal in accordance with our Certificate of Incorporation, Amended and Restated Bylaws, and Corporate Governance Guidelines;

Edgar Filing: General Moly, Inc - Form DEF 14A

- an advisory vote on executive compensation;
- an advisory vote on the frequency of the executive compensation vote;
- ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2011; and
- action on such other matters as may properly come before the meeting or any adjournment thereof.

As your vote is important, we are requesting that you complete and sign the enclosed proxy card and mail it promptly in the enclosed postage paid return envelope, which does not require postage if mailed in the United States. Shares cannot be voted at the meeting unless the owner is present to vote or is represented by proxy.

Table of Contents

Shares Outstanding and Voting Rights

Record Date; Quorum. Our Board has fixed the close of business on April 28, 2011, as the record date for the purpose of determining stockholders of the Company entitled to notice of and to vote at the Annual Meeting. At the close of business on that date, we had **90,739,304** issued and outstanding shares of common stock. A majority of votes that could be cast by holders of all outstanding shares of stock entitled to vote will constitute a quorum for the transaction of business at the Annual Meeting. Proxies that are submitted but are not voted for or against (whether by abstentions, broker non-votes, or otherwise) will be treated as present for all matters considered at the meeting, and will be counted for determining whether we have a quorum.

Solicitation of Proxies. The accompanying proxy is solicited on behalf of our Board and the entire cost of solicitation will be borne by us. Following the original mailing of the proxies and soliciting materials, our directors, officers and employees may solicit proxies by mail, telephone, facsimile or other electronic means of communication, or personal interviews. We may utilize the services of a proxy solicitation firm. We will request brokers, custodians, nominees, and other record holders to forward copies of the proxies and soliciting materials to persons for whom they hold shares of the Company and to request authority for the exercise of proxies. In such cases, the Company will reimburse such holders for their reasonable expenses.

Revocation of Proxy. Any proxy delivered in the accompanying form may be revoked by the person executing the proxy by either (1) providing our Corporate Secretary a later-dated proxy prior to the Annual Meeting or presenting a later-dated proxy at the Annual Meeting, (2) providing our Corporate Secretary a written revocation prior to the Annual Meeting, or (3) attending the Annual Meeting and voting in person.

How Proxies will be Voted. Assuming a quorum is present, proxies received by our Board in the accompanying form will be voted at the Annual Meeting as specified by the person giving the proxy. All shares represented by a valid proxy will be voted at the discretion of the proxy holders on any other matters that may properly come before the meeting. The Board, however, does not know of any matters to be considered at the meeting other than those specified in the Notice of Annual Meeting.

Required Votes. With respect to the election of directors, the four candidates receiving the highest number of votes will be elected. Our stockholders may vote for or against each of the nominees, or may abstain. If the number of shares voted for a nominee does not exceed the number of shares voted against the nominee, under our Corporate Governance Guidelines adopted by the Board, he or she must submit his or her resignation from the Board. See Proposal 1 for further discussion of the majority voting provisions of the Corporate Governance Guidelines. The affirmative vote of the holders of a majority of the shares entitled to vote that are present in person or represented by proxy is required to approve, by non-binding vote, executive compensation (Proposal 2) and to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm (Proposal 4). The frequency of the executive compensation vote (Proposal 3) receiving the greatest number of votes (every one, two or three years) will be considered the frequency recommended by stockholders.

Effect of Abstentions and Broker Non-Votes. Abstentions will have no effect on the election of directors or the advisory vote on the frequency of the executive compensation vote. Abstentions may be specified and will be counted as present for the purposes of Proposals 2 and 4. For purposes of determining whether Proposals 2 and 4 have received the requisite vote, an abstention by a stockholder will have the same effect as a vote against the proposal.

Edgar Filing: General Moly, Inc - Form DEF 14A

Brokers and other intermediaries, holding shares in street name for their customers, are generally required to vote the shares in the manner directed by their customers. If their customers do not give any direction, brokers may vote the shares if (1) the broker holds the shares in a fiduciary capacity, or (2) the broker is acting pursuant to the rules of any national securities exchange of which it is a member. On certain routine matters, brokers may, at their discretion, vote shares on behalf of their customers. The election of directors is no longer considered a routine matter for which brokers are permitted to vote shares without customer direction. Therefore, brokers are not permitted to vote shares for the election of directors without customer direction. ***Therefore, we urge you to give voting instructions to your broker on all four proposals.*** Shares that are not voted by a broker given the absence of customer direction are called broker non-votes. Broker non-votes will have no direct effect on the outcome of a vote on any proposal.

Voting Power. Holders of our common stock are entitled to one vote for each share held. There is no cumulative voting for directors.

PROPOSAL 1 - ELECTION OF DIRECTORS

Our Board currently consists of 10 members. Pursuant to our bylaws, the members of our Board have been divided into three classes. The term of office for the Class I members of our Board, consisting of four members, expires at our 2011 Annual Meeting. The term of office for the Class II members of our Board, consisting of three members, expires at our 2012 Annual Meeting. The term of office for the Class III members of our Board, consisting of three members, expires at our 2013 Annual Meeting. At each of our Annual Meetings of Stockholders, the number of directors equal to the number of directors in the class whose term is scheduled to expire on the day of such meeting will be elected for a term of three years and will hold office until expiration of the terms for which they were elected and qualified. In each case, a director's term will continue until the director's successor is elected and has qualified. Any director may be removed from office as a director at any time by our stockholders, but only for cause, and only by the affirmative vote of a majority of the outstanding voting power entitled to elect such director.

At this Annual Meeting, four Class I directors are to be elected and will serve for a term of three years and until their successors are elected and qualified. The following nominees for election as Class I directors at this Annual Meeting are recommended by our Board:

Patrick M. James

Gary A. Loving
Richard F. Nanna

Gregory P. Raih

If any of the nominees for director should become unable or decline to serve if elected, it is intended that shares represented by proxies that are executed and returned will be voted for any substitute nominee(s) as may be recommended by our existing Board. The four nominees receiving the highest number of votes cast at the Annual Meeting will be elected as Class I directors for a term of three years and until their successors are elected and qualified.

Pursuant to our Corporate Governance Guidelines adopted by our Board, if a director nominee does not receive a majority of the votes cast, the director is required to promptly tender his or her resignation to the Board. For purposes of the policy, a majority of votes cast means that the number of shares voted for a director's election exceeds the number of votes cast against that director's election. The Governance and Nominating Committee will consider the resignation and make a recommendation to the Board as to whether to accept or reject the tendered resignation, or whether other action should be taken. The Board will act on the tendered resignation, taking into account the recommendation of the Governance and Nominating Committee, within 90 days from the date of the certification of the election results, and publicly disclose its decision promptly thereafter. The Governance and Nominating Committee, in making its recommendation, and the Board in making its decision, may each consider any factors or other information that it considers appropriate and relevant. A director who tenders his or her resignation will not participate in the recommendation of the Governance and Nominating Committee or the decision of the Board with respect to his or her resignation. If no director receives a majority of shares cast in an uncontested election, then the incumbent directors will nominate a new slate of directors and hold a special meeting of stockholders for the purpose of electing those nominees within 180 days after certification of the stockholder vote.

In February 2008, the Compensation Committee engaged Watson Wyatt (which merged in January 2010 with Towers Perrin to form Towers Watson) as its compensation consultant and directed it to help develop and implement a sound executive compensation framework that will enable growth, reinforce consistency and support transparency. Although Towers Watson was not engaged in 2009 due to the status of developments of the Mt. Hope Project and our cash conservation measures, the Compensation Committee again retained Towers Watson in 2010 in order to update our peer group and benchmark information and to provide information and recommendations to the committee regarding various compensation matters.

Edgar Filing: General Moly, Inc - Form DEF 14A

While the selection of qualified directors is a complex, subjective process that requires consideration of many intangible factors, the Governance and Nominating Committee and our Board take into account the following criteria, among others, in considering directors and candidates for the Board:

- judgment, experience, skills and personal character of the candidate;
- diversity of the Board in its broadest sense; and
- the needs of the Board.

Table of Contents

The Governance and Nominating Committee conducts a preliminary assessment of each proposed nominee based upon the proposed nominee's resume and biographical information, the individual's willingness to serve as a director of the Company, and other background information. This information is evaluated against the criteria set forth above and our specific needs at that time. Based upon a preliminary assessment of the candidate(s), those who appear best suited to meet our needs may be invited to participate in a series of interviews, which are used as a further means of evaluating potential candidates. On the basis of information learned during this process, the Governance and Nominating Committee determines which nominee(s) to recommend to the Board to submit for election at the next annual meeting. The Governance and Nominating Committee uses the same process for evaluating all nominees, regardless of the original source of the nomination. The Governance and Nominating Committee has approved the nominees included on our proxy card.

The Governance and Nominating Committee will consider nominees recommended by stockholders. To date, we have not received any recommendations from our stockholders requesting that the Board, or any of its committees, consider a nominee for inclusion among the Board's slate of nominees in this proxy statement. A stockholder wishing to submit a director nominee recommendation should comply with the provisions of our bylaws and the provisions set forth in this proxy statement under the heading "Stockholder Proposals and Recommendations for Director Nominees for the 2012 Annual Meeting." Under the terms of our Governance and Nominating Committee Charter, we evaluate all nominees, including those recommended by stockholders, by conducting appropriate inquiries into their backgrounds and qualifications; however, the Governance and Nominating Committee may prefer nominees who are personally known to the existing directors and whose reputations are highly regarded. The Governance and Nominating Committee will consider all relevant qualifications as well as the needs of the Company in terms of compliance with applicable SEC and stock exchange rules.

Diversity is considered in the nominating process as described above and in our Governance and Nominating Committee Charter, which provides that with regard to diversity, the committee will consider candidates for the Board regardless of gender, ethnicity or national origin and that any search firm retained to assist the committee should be instructed to seek to include diverse candidates from traditional and nontraditional candidate groups. Although we do not have a separate Board diversity policy, the Nominating Committee Charter provides that the committee is responsible for reviewing and making recommendations to the Board, as it may deem appropriate, in order to ensure that the Board consists of persons with sufficiently diverse and independent background.

Risk Oversight

Our senior management manages the risks facing the Company under the oversight and supervision of the Board. Senior management consults with the three Board committees with risk assessment responsibilities, and the Board to suggest risk management topics to be presented to the Board, and a different risk management topic is addressed at each of its meetings. While the full Board is ultimately responsible for risk oversight at our Company, three of our Board committees assist the Board in fulfilling its oversight function in certain areas of risk. The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to risk in the areas of financial reporting and internal controls. The Compensation Committee assists the Board in fulfilling its oversight responsibilities with respect to risk in the area of compensation policies and practices. The Technical Committee assists the Board in fulfilling its oversight responsibilities with respect to the management of risks related to operations and safety. Other general business risks such as economic, regulatory and permitting are monitored by the full Board. Risk management and assessment reports are regularly provided by management to these committees and the full Board.

Compensation Risk Assessment

Our Compensation Committee considered whether our compensation program encouraged excessive risk taking by employees at the expense of long-term Company value. Based upon its assessment, the committee does not believe that our compensation program encourages excessive or

Edgar Filing: General Moly, Inc - Form DEF 14A

inappropriate risk-taking. The committee believes that the design of our compensation program, which includes a mix of annual and long-term incentives, cash and equity awards and retention incentives, is balanced and does not motivate imprudent risk-taking.

The four candidates receiving the highest number of votes will be elected. If any candidate does not receive at least a majority of the votes cast in the election, he or she must submit his or her resignation from the Board as described above.

Recommendation

The Board recommends that stockholders vote **FOR** each of the nominees for director. If not otherwise specified, proxies will be voted **FOR** each of the nominees for director.

PROPOSAL 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act), enables our stockholders to vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with SEC rules.

As described in this proxy statement under the heading Compensation Discussion and Analysis, our executive compensation program is designed to enable us to obtain and retain the services of experienced executives. The compensation packages for our executive officers are designed to promote teamwork as well as individual initiative and achievement. Our executive compensation program is designed to enhance stockholder value by aligning the financial interests of our executive officers with those of our stockholders. We have also designed our compensation program to motivate and reward executives whose knowledge, skills and performance are critical to our success. Compensation depends to a significant extent on the achievement of annual and long-term performance goals. For additional information about our executive compensation program, please read the Compensation Discussion and Analysis beginning on page 24.

We are asking our stockholders to indicate their support for the compensation of our named executive officers, as described in this proxy statement. This proposal, commonly known as a say-on-pay proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this proxy statement. Accordingly, we are asking our stockholders to vote FOR the following resolution at our Annual Meeting:

RESOLVED, that the Company s stockholders approve, on an advisory basis, the compensation paid to the Company s named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.

Vote Required

The affirmative vote of holders of a majority of the shares of common stock entitled to vote that are present in person or by proxy at the Annual Meeting is required to approve this proposal. However, the say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or our Board. Our Board and our Compensation Committee value the opinions of our stockholders and will consider the outcome of the vote when considering future decisions on the compensation of our named executive officers.

Recommendation

The Board recommends that stockholders vote to approve the compensation of our named executive officers by voting **FOR** Proposal 2.

**PROPOSAL 3 ADVISORY VOTE ON THE FREQUENCY
OF THE EXECUTIVE COMPENSATION VOTE**

The Dodd-Frank Act also enables our stockholders to vote, on an advisory or non-binding basis, on how frequently we should seek a vote on the compensation of our named executive officers, as disclosed pursuant to the SEC's compensation disclosure rules, such as Proposal 2 above. The enclosed proxy card gives our stockholders four choices for voting on this Proposal. You can choose whether the "say-on-pay" vote should be conducted every year, every two years, or every three years. You may also abstain from casting a vote.

After consideration of the frequency alternatives, our Board believes that conducting an advisory vote on executive compensation on an annual basis is appropriate for us and our stockholders at this time.

When you vote in response to the resolution below, you may cast your vote on your preferred voting frequency by choosing among the following four options: every one year, every two years, or every three years, or you may abstain from voting.

RESOLVED, that the Company's stockholders determine, on an advisory basis, the frequency with which the stockholders of the Company wish to have an advisory vote on, the compensation of the Company's named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, with a frequency of once every year, every two years or every three years, whichever receives the highest number of votes cast with respect to this resolution.

Vote Required

The frequency of the executive compensation vote—every one, two or three years—receiving the greatest number of votes will be considered the frequency recommended by stockholders. This vote is advisory and, therefore, not binding on the Company, the Compensation Committee or our Board. Our Board may decide in the future that it is in the best interests of our stockholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option approved by our stockholders.

Recommendation

The Board recommends that stockholders vote for a **ONE YEAR** frequency for future advisory votes on the compensation of our named executive officers.

PROPOSAL 4 - RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board selected PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ended December 31, 2011. Our Board is asking stockholders to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2011. Although current law, rules, and regulations, as well as the charter of the Audit Committee, require the Audit Committee to appoint, retain, and supervise our independent accountants, our Board considers the selection of our independent registered public accounting firm to be an important matter of stockholder concern and is submitting the selection of PricewaterhouseCoopers LLP for ratification by stockholders as a matter of good corporate practice. If the stockholders do not ratify the selection of PricewaterhouseCoopers LLP as our independent accountants, the Audit Committee will reconsider whether to retain PricewaterhouseCoopers LLP. Even if the selection of PricewaterhouseCoopers LLP is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Representatives of PricewaterhouseCoopers LLP will be present at the Annual Meeting, will have the opportunity to make a statement if they so desire, and are expected to be available to respond to appropriate questions.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditors

Our Audit Committee is responsible for appointing, setting compensation for and overseeing the work of our independent auditors. The Audit Committee has established a policy regarding pre-approval of all audit and non-audit services provided by the independent auditors. All services and fees paid to PricewaterhouseCoopers LLP, including tax fees, for the fiscal year ended December 31, 2010 were pre-approved by the Audit Committee. On an ongoing basis, management communicates specific projects and categories of services for which advance approval of the Audit Committee is requested. The Audit Committee reviews these requests and advises management if the Audit Committee approves the engagement of the independent auditors for specific projects.

Table of Contents

On a periodic basis, management reports to the Audit Committee regarding the actual spending for such projects and services compared to the approved amounts. The Audit Committee may also delegate the ability to pre-approve audit and permitted non-audit services to a subcommittee consisting of one or more Audit Committee members, provided that any such pre-approvals are reported on at a subsequent Audit Committee meeting.

Vote Required

The affirmative vote of holders of a majority of the shares of common stock entitled to vote that are present in person or by proxy at the Annual Meeting is required to approve the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered accounting firm for the current fiscal year.

Executive Summary

Our Business Strategy

We are a development stage company in the business of the exploration, development and future mining of properties containing molybdenum. Our business strategy is to acquire and develop highly profitable advanced stage mineral deposits. Our primary asset is an 80% interest in the Mt. Hope Project, a primary molybdenum property located in Eureka County, Nevada. We also have a second significant molybdenum project, the Liberty Property, located in Nye County, Nevada which we own 100%.

Edgar Filing: General Moly, Inc - Form DEF 14A

In the near-term, our objective is to profitably develop and operate the Mt. Hope Project and to complete our evaluation and commence development of the Liberty Project. In the short-term, we are focused on receiving permits required to complete the development of the Mt. Hope Project based on our current schedule, while at the same time conserving our cash resources until such permits are received.

Significant Company Developments During 2010

During 2010, we achieved significant milestones in our development of the Mt. Hope Project and we believe our executive officers were instrumental in helping us achieve these results.

Equity Investment and Financing Transactions. On March 4, 2010, we entered into a Securities Purchase Agreement with Hanlong USA, an affiliate of Sichuan Hanlong, a large privately held Chinese company. This investment and strategic relationship provides for an investment by Hanlong USA of \$80 million in our equity and procurement of \$665 million in senior secured debt, which we anticipate will provide all remaining capital necessary to place the Mt. Hope Project into production. On December 20, 2010, we closed the sale of the first tranche of equity to Hanlong USA for \$40 million.

Permitting Efforts. During 2010, we continued to make progress towards satisfying various permitting requirements for the Mt. Hope Project. In June 2010, we received contingent approval by the Bureau of Land Management, or BLM, of our hydrology modeling study for the Mt. Hope Project, pending incorporation of final comments from the BLM and cooperating agencies. This milestone paved the way for the drafting of the Preliminary Draft Environmental Impact Statement, or PDEIS. On August 18, 2010, the BLM contractor completed the PDEIS and delivered it to the cooperating agencies for review. A second PDEIS was delivered to the cooperating agencies on April 11, 2011. As of the date of this proxy statement, the BLM and its independent contractor were awaiting comments from the second PDEIS, due May 6, 2011 and will work to review and incorporate the comments received from the cooperating agencies into a Draft Environmental Impact Statement, or DEIS. We anticipate receiving all major permits six to nine months after the DEIS is published in the Federal Register, although circumstances beyond our control may result in delays.

Table of Contents

Water Rights Update. During 2010, we also continued to make progress toward receiving a grant of our water application transferring our water rights to mining use for the Mt. Hope Project. In October of 2008, we completed a water rights hearing in Carson City, Nevada and in March 2009 were granted our water applications in a ruling by the State Engineer. An appeal of that ruling was granted in April 2010 by a Nevada District Court, overturning the original ruling and remanding the matter for another hearing by the State Engineer. In December 2010, we completed a second water rights hearing in Carson City, Nevada. The State Engineer noticed an additional one-day continuation hearing to occur on May 10, 2011 to provide testimony and cross-examination related to information the State Engineer requested following the December, 2010 hearing. We anticipate a grant of our applications on our water rights most likely during the third quarter of 2011.

Stock Price. During 2010, our stock price increased from a \$2.08 per share closing price on January 1, 2010 to \$6.48 per share closing price on December 31, 2010, a 212% increase.

Highlights of Our Executive Compensation for 2010

Our executive team is key to achievement of our business strategy. Our executives have significant experience in mine development, project financing, and operations.

Consistent with our objectives to enhance stockholder value by aligning the financial interests of our executive officers with those of our stockholders and to reward our executives for achieving our business objectives, we took into account the achievement of milestones for the Mt. Hope Project in making our executive compensation decisions for 2010, as follows:

Annual Incentive Awards. In February 2011 the Compensation Committee approved 2010 cash incentive awards, one-third of which was paid in February 2011 with the remaining two-thirds to be paid upon completion of certain permitting and financing milestones, for each of our named executive officers. The milestones include: release of the DEIS for the Notice of Availability (NOA) process; release of the DEIS from the NOA process for publication in the Federal Register; receipt of the Record of Decision from the Bureau of Land Management; and completion of and availability of funds from the bank loan for the Mt. Hope Project. Assuming all milestones are achieved during 2011, then payment of the 2010 annual incentive award component of our executive compensation program will range from approximately 8% to 23% of our NEOs total compensation for 2010.

Performance-Based and Other Equity Awards. The Compensation Committee granted equity awards to our executive officers that are primarily performance-based: (1) restricted stock units, 50% of which vest solely upon commencement of commercial production of the Mt. Hope Project and the remaining 50% of which vest incrementally over three years and (2) stock appreciation rights, 100% of which vest solely upon commencement of commercial production of the Mt. Hope Project. In addition, Mr. Roswell received a grant of restricted stock units, as a new-hire award, that vests incrementally over three years. During 2010, the annual performance-based equity component of our executive compensation program ranged from approximately 32% to 38% of our NEOs total compensation and the time-based equity component ranged from 12% to 49% of our NEOs total compensation.

Adjustments to Base Salary. After freezing base salaries for our CEO and CFO during 2009 at 2008 levels, for competitive reasons and consistent with our compensation philosophy, we increased their base salaries by 29% and 22%, respectively, during 2010. Our other NEO base salary increases ranged from 11% to 25%. The NEO salaries for 2010 range from 75% to 97% of the median base salary for our peer group.

Edgar Filing: General Moly, Inc - Form DEF 14A

During 2010, the annual base salary component of our executive compensation program ranged from approximately 37% to 46% of our NEOs total compensation.

Executive Compensation Philosophy and Objectives

Because of our modest size and stage of development, we do not have an extensive executive compensation program. Instead, we have a fairly simple executive compensation program that is intended to provide appropriate incentives for our executive officers to help us achieve our business strategy. Our executive compensation program currently has three primary elements: base salary, annual cash incentives and long-term performance based equity incentives. The overall objective of our program is to enable us to obtain and retain the services of experienced executives. The compensation packages for our executive officers are designed to promote teamwork as well as individual initiative and achievement. Our executive compensation program is designed to enhance stockholder value by aligning the financial interests of our executive officers with those of our stockholders. We have also designed our compensation program to motivate and reward executives whose knowledge, skills and performance are critical to our success. Compensation depends to a significant extent on the achievement of annual and long-term performance goals.

Table of Contents

We have entered into employment agreements or offer letters and change of control severance agreements with each of our NEO's. A summary of each of these agreements is included following the executive compensation tables under the heading Potential Payments Upon Termination or Change in Control. We believe that these agreements are necessary to attract and retain executives experienced in mine development, corporate and project finance and operations to help grow the Company and increase our stockholder value. In establishing the agreement with each executive officer, our Compensation Committee takes into account many factors, including the individual's prior business experience, historical compensation levels, work performance, retention considerations and our business need for the executive's skills. The committee also considered external market data, market trends, and drew upon the individual experience of the committee members. During 2009, we also entered into a Retention Incentive Agreement with each of our executive officers. For additional information, see Elements of Compensation and 2010 Compensation Decisions Retention Incentive Agreements below.

Our Executive Compensation Process

Role of Compensation Committee and Executive Officers

Our Compensation Committee has overall responsibility for (a) establishing, overseeing and evaluating the compensation philosophy, policies and plans for non-employee directors and executive officers, (b) making recommendations to the Board regarding director and executive compensation and (c) reviewing the performance and determining the compensation of our CEO and the other executive officers. The committee oversees the administration of our equity incentive plans, reviews and approves any employment, severance or change in control agreements and performs other functions set forth in its charter.

In carrying out its responsibilities, the committee works with members of our management team, including our CEO, and consults with legal counsel and independent compensation consultants as it deems appropriate. The management team assists the committee by providing information on Company and individual performance, market data and management's perspective and recommendations on compensation matters. Although the committee solicits and reviews management's recommendations, the committee considers management's recommendations as merely one factor in making compensation decisions for our executive officers. The committee regularly reports to, and sometimes consults with, our Board on the results of its reviews and any actions it takes or proposes to take with respect to compensation policies and executive officer compensation decisions.

Role of Compensation Consultant

For 2010, the committee engaged Towers Watson, a national compensation consulting firm, to provide it with information, recommendations and other advice relating to executive and director compensation. During 2010, Towers Watson participated in three committee meetings and provided assistance to the committee regarding a review of recommendations related to our executive officer base salaries, annual cash incentive compensation and long-term equity awards levels and an updated design for a three year period (2011-2013).

One of the purposes of the committee in hiring Towers Watson was to assist the committee in comparing our executive compensation program with executive compensation programs of peer companies. As we progress from a development stage company to an operational mining company, the committee intends to adjust the elements and pay levels of our executive compensation program based on market data and relevant trend information for our peer group. In 2008, with the assistance of Towers Watson, we benchmarked base salaries and target annual cash pay

Edgar Filing: General Moly, Inc - Form DEF 14A

(base salary *plus* target annual incentive payments) to use as a starting point to adjust compensation over the succeeding three years (2009-2011). The committee reviewed market data provided by Towers Watson in 2008 to compare our executive compensation elements and pay levels to those of operational companies of comparable scale with which we compete for talent and business. The committee, with the assistance of Towers Watson, selected designated mining industry compensation surveys and peer group companies consisting of North American companies primarily engaged in the hard rock mining of metals and coal mining, as well as other general industry companies, to use for comparison. For additional information see [Benchmarking](#) and our Peer Group [below](#).

Table of Contents

Although we did not engage Towers Watson in 2009 due to the status of development of the Mt. Hope Project and our cash conservation measures, the committee again retained Towers Watson in 2010 in order to update our peer group and benchmark information to reflect (1) revised economic and business projections, (2) up-to-date market compensation data, and (3) our progress towards becoming an operational mining company. In addition, during 2010 Towers Watson provided information and recommendations to the committee regarding, among other things, the design and guidelines for annual performance cash incentive awards, guidelines for severance benefits following changes in control, board compensation matters and recent legislative and regulatory developments.

Benchmarking and our Peer Group

In 2008 Towers Watson compiled publicly-available compensation data (*e.g.*, from proxy statements) and surveys published by Towers Watson and third parties. Towers Watson adjusted the data (via regression analyses and/or selection of appropriate size cuts) to reflect comparative companies similar to our projected post-operational size, targeting companies approximately one-half to two times our projected post-operational annual revenue of \$1 billion. For purposes of this comparison, we defined the market value for each executive position as the average of data from two sources: (1) published compensation surveys, and (2) proxy statements from a selected group of peer companies with which we compete for talent and business.

For 2010, Towers Watson performed a similar analysis, but revised the peer companies to reflect our projected post-operational annual revenue of \$600 million as a result of revised economic and business projections that reflect lower worldwide molybdenum prices than did our 2008 analysis. Our operational peer group for 2010 includes the following companies:

- AMCOL International Corporation
- Golden Star Resources Ltd.
- HudBay Minerals Inc.
- Inmet Mining Corporation
- James River Coal Company
- Lundin Mining Corporation
- Northgate Minerals Corp.
- Quadra FNX Mining Ltd
- Stillwater Mining Co.
- Thompson Creek Metals Company Inc.
- Walter Energy, Inc.

- Western Coal Corp.
- Westmoreland Coal Co.

Elements of Compensation and 2010 Compensation Decisions

Our compensation program has three primary elements: base salary, annual cash incentive awards and long-term equity-based incentives. Our executive officers also participate in employee benefits that are generally available to all of our employees. Each of these primary elements is discussed in further detail below.

Base Salary

Base salary represents the fixed portion of our executive officers' compensation and is an important element of compensation to attract, retain and motivate experienced executives. We establish our executives' salaries based on consideration of, among other things, the scope of their responsibilities, taking into account competitive market compensation for similar positions determined in the collective judgment of the committee and information provided by Towers Watson, seniority of the individual, and our ability to replace the individual. The committee reviews base salaries annually and makes adjustments from time to time. An adjustment to an executive's salary may be made, for example, to align that salary with the committee's perception of market levels, taking into account the individual's responsibilities, performance and experience. As a development stage company with limited financial resources, the salaries for our executive officers were initially established at levels the committee believes were below the median salaries for comparable positions with operating companies. From 2006 through 2011, the committee has made periodic adjustments to some executive salaries to bring the salaries closer to amounts the committee believes more closely reflect salaries paid to individuals in operating companies with similar positions and responsibilities.

Table of Contents

We will target the salary range midpoints for each executive position at the median of the competitive peer group when the Company reaches production. The committee guideline for the salary range for each executive position is $\pm 20\%$ of the midpoint (80% to 120% of the median). For 2010, our base salaries compared to the median of our peer group as follows:

Name	2010 Annualized		Comparison to	
	Base Salary		Benchmark	% of Median
Bruce D. Hansen	\$	450,000		75%
David A. Chaput	\$	275,000		97%
Robert I. Pennington	\$	250,000		79%
R. Scott Roswell	\$	225,000		81%
Lee M. Shumway	\$	195,000		86%

For 2010, the percentage base salary increases were approximately: Mr. Hansen, 29% (from \$350,000 to \$450,000), Mr. Chaput, 22% (from \$225,000 to \$275,000), and Mr. Shumway, 11% (from \$175,780 to \$195,000). Mr. Pennington did not receive a base salary increase for 2010. Mr. Roswell was hired by the Company in September 2010. The increases were approved because there were no salary increases for Mr. Hansen or Mr. Chaput for 2009 and the salaries of each of Mr. Hansen, Mr. Chaput, and Mr. Shumway were below market competitive levels based on market data provided to the committee by Towers Watson in 2008.

In December 2010, the Company approved base salary increases for 2011 as follows: Mr. Hansen, 11% (from \$450,000 to \$500,000), Mr. Chaput, 7% (from \$275,000 to \$295,000), Mr. Pennington, 8% (from \$250,000 to \$270,000), Mr. Roswell, 2% (from \$225,000 to \$230,000), and Mr. Shumway, 10% (from \$195,000 to \$215,000). The increases were approved in part because the compensation of our named executive officers was below market competitive levels based on information provided by Towers Watson in 2010, but also as part of our ongoing plan to move our executive group towards market-median levels of compensation as the Company moves toward production.

Annual Incentive Awards

Our executive officers have the opportunity to earn annual incentive awards in the form of a cash incentive award for achievement of corporate and individual goals and objectives. Annual incentive awards have traditionally been paid to executive officers to recognize specific accomplishments and overall performance, as determined by the committee in its discretion.

Although we target annual cash pay, during the period we are a development stage company the committee will retain full discretion to adjust annual incentive awards based on its collective judgment of the CEO's and executives' achievement of business milestones and individual objectives. For 2010, the annual incentive awards for our executive officers were determined by the committee, in its discretion, based on achievement of the following business and individual objectives:

Corporate Business Objectives	Weight
Safety, health and environmental	10%
Engineering and construction	20%
Financing	40%
Permitting and compliance	30%
Other goals	As Appropriate

Edgar Filing: General Moly, Inc - Form DEF 14A

For 2010, our actual total annual cash compensation compared to the median of our operating company peer group is as follows:

Name	2010 Annualized Base Salary	2010 Actual Annual Incentive Award (1)	2010 Annual Cash Compensation	Comparison to Benchmark Median	% of
Bruce D. Hansen	\$ 450,000	\$ 337,500	\$ 787,500		77%
David A. Chaput	\$ 275,000	\$ 137,500	\$ 412,500		102%
Robert I. Pennington	\$ 250,000	\$ 125,000	\$ 375,000		85%
R. Scott Roswell (2)	\$ 225,000	\$ 37,125	\$ 262,125		67%
Lee M. Shumway	\$ 195,000	\$ 97,500	\$ 292,500		92%

Table of Contents

(1) One-third of the annual incentive awards has been paid (\$111,375 in the case of Mr. Hansen, \$45,375 in the case of Mr. Chaput, \$41,250 in the case of Mr. Pennington, \$12,251 in the case of Mr. Roswell, and \$32,175 in the case of Mr. Shumway). The remaining two-thirds of the annual incentive awards will become payable, in part or in whole, when the relevant milestones are achieved. See

Executive Summary Highlights for Our Executive Compensation for 2010 Annual Incentive Awards above for additional information regarding the applicable milestones.

(2) Mr. Roswell was hired in September 2010, so the 2010 Actual Incentive Award above reflects the pro rated amount for which he is eligible. Using an annualized potential 2010 Actual Incentive Award of \$112,500, Mr. Roswell's total 2010 Annual Cash Compensation would have been \$337,500 or 86% of the median pay for a similar position based on our operating company peer group.

Long-Term Equity Incentives

As a development stage company with limited financial resources, long-term equity awards are a significant element of our executive compensation program. Equity awards have been a key component in attracting and retaining our executive officers. Each of our named executive officers negotiated equity awards in his employment or offer letter agreement.

In 2009, we granted equity awards to our executive officers in February. During 2010, we asked our stockholders to approve an amendment to our 2006 Equity Incentive Plan, which included an increase in authorized shares for issuance. As a result, we did not grant equity awards to our executive officers in February 2010. Our stockholders approved the amendment and restatement of the 2006 Equity Incentive Plan in May 2010. During 2010, the committee determined that it was appropriate to change the timing of grants of equity awards to our executive officers to December in order to make the timing of equity award grants to our executive officers consistent with the timing of equity award grants to other employees, which were also determined in December. In December 2010, the committee granted equity awards to our executive officers consisting of restricted stock units, or RSUs, and stock appreciation rights, or SARs. In addition to changing the timing of equity awards, the committee also changed the design of awards made in December 2010. Below is a summary of 2010 equity awards for our executive officers:

Retention Incentive Agreements

During 2009, in conjunction with our decision to freeze base salaries, we entered into Retention Incentive Agreements with certain employees, including our executive officers in order to provide an incentive for each individual to continue his employment with the Company through the critical phase of obtaining permitting and construction financing for, and the construction of, the Mt. Hope mine. The Retention Incentive Agreements provide for the payment of cash incentive amounts to the covered executive if he remained continuously employed by the Company from May 7, 2009 through January 1, 2011.

Effective January 1, 2011, the following cash incentive amounts became payable to our executive officers: Mr. Hansen \$262,500, Mr. Chaput \$112,500, Mr. Pennington \$125,000 and Mr. Shumway \$43,945. Mr. Shumway's agreement also included a restricted stock award of 54,732 shares that vested on January 1, 2011.

Employee Benefits

Our executive officers generally participate in the same employee benefit programs (401(k) plan, health, dental, vision, life, accident and disability insurance) as other employees.

Employment and Change of Control Agreements

In order to attract and retain key executives, the Company previously entered into employment agreements with Mr. Hansen and Mr. Chaput. In February 2009, the agreements for Mr. Hansen and Mr. Chaput were amended to extend the term of the agreements to December 31, 2011 and to revise the change of control definition and benefits. As amended, upon a change of control, Mr. Hansen and Mr. Chaput are each entitled to: (i) a lump sum payment of (a) three times the executive's annual base compensation and (b) the executive's cash incentive award for major financing, if it has not previously been paid and (ii) full vesting of all outstanding stock-based equity awards. The definition of change of control was modified to include a change in the composition of the Board if current members of the Board no longer constitute a majority of the Board (except for new directors whose election or nomination was approved by at least a majority of the incumbent board).

The terms of employment for Mr. Pennington, Mr. Roswell, and Mr. Shumway are covered by offer letter agreements and change of control severance agreements. The change of control severance agreements generally expire on December 31, 2011 and include the same definition of change of control as the agreements for Mr. Hansen and Mr. Chaput. Generally, if a change of control occurs and the Company (or its successor) terminates the employment of the covered executive without cause during the one-year period following the closing of the change of control event or the executive terminates employment for good reason during the one-year period, the executive will be entitled to a lump sum severance payment (a double-trigger arrangement). The severance payment is subject to execution of a binding termination release agreement. The amount of the severance payment will be equal to two times the executive's annual base salary plus 100% of his target annual incentive award for one year, if any. In addition, all outstanding stock-based equity awards will vest, regardless of whether his employment has terminated.

Timing of Compensation Decisions

Salary adjustments and annual incentive awards have typically been made at the Compensation Committee and Board meetings held in January or February and have been based, in part, on the individual executive officer's performance in the prior fiscal year.

In 2010, the committee changed the timing of its determination of salary adjustments and equity awards to December in order to make the timing of equity award grants to our executive officers consistent with the timing of equity award grants to other employees, which were determined in December. For additional information, see Elements of Compensation and 2010 Compensation Decisions Long-Term Equity Incentives above.

Table of Contents

Individual Executive Officers and the CEO

Each of our executive officers is considered individually in the compensation setting process. In setting cash compensation, the primary factors are the scope of the executive officer's duties and responsibilities, the executive officer's performance of those duties and responsibilities, the executive officer's experience level and tenure with us, and a general evaluation of the competition in the market for key executives with the executive officer's experience. Long-term equity incentives are focused largely on retention of our executive officers and matching the financial interests of our executive officers with those of our stockholders.

We believe that stock-based incentives through stock options, stock appreciation rights and restricted stock awards ensure that our executive officers have a continuing stake in our long-term success, which will enable us to transition from a development stage company to an operating company. We focus on creating long-term value for our stockholders by aligning the financial interests of our executive officers with those of our stockholders, since the price of our stock is the principal factor in stockholder value over time.

Historically, we have issued stock options, and restricted stock and restricted stock unit awards to our executive officers and key employees under our 2003 Stock Option Plan (the 2003 Plan) and our 2006 Equity Incentive Plan (the 2006 Plan). Following the adoption and stockholder approval of the 2006 Plan, no additional awards were granted under the 2003 Plan and there are currently no awards outstanding under the 2003 Plan. For a limited period of time, prior to the inception of the 2006 Plan, we issued stock options pursuant to individual option agreements that were not approved by our stockholders. See Equity Compensation Plan Information. Formerly stock options were, and now restricted stock units are, principally awarded at the start of employment with a two-year to three-year vesting period. The purpose of the 2006 Plan is to provide us with a greater ability to attract, retain, and motivate our officers, directors and key employees.

Our 2006 Plan provides for the grant of incentive stock options, nonstatutory stock options, restricted stock awards, restricted stock units and stock appreciation rights, which may be granted to our employees (including officers), directors and consultants. Each award is subject to an agreement between the Company and the recipient of the grant reflecting the terms and conditions of the award. Subject to the terms of the 2006 Plan, the Compensation Committee establishes grant dates, the numbers and types of stock awards to be granted and the terms and conditions of the stock awards, including the period of their exercisability and vesting. The Compensation Committee , in accordance with the 2006 Plan, sets the option exercise price, and, if applicable, the strike price for stock appreciation rights, in each case based on the closing price of the Company s common stock on the date of the grant.

Compensation Arrangements and Employment Agreements

The material terms of our named executive officers annual compensation, including base salaries, bonus awards, our equity granting practices and employment, change in control and stay bonus agreements are described in our Compensation Discussion and Analysis and Employment Agreements sections of this proxy statement.

(1) All of the awards were made under the 2006 Plan.

(2) The option/SAR exercise price is the closing market price of the stock on the day of the grant.

(3) Option granted on January 30, 2007, with 500,000 shares vested immediately and 250,000 shares vested on January 30, 2008. SARs were granted on February 27, 2009, with 66,666 vested on February 27, 2010, and 66,667 scheduled to vest on February 27, 2011 and 66,667 on February 27, 2012. (4) Performance SARs and restricted stock units were granted on December 16, 2010 and are scheduled to vest at the commencement of commercial production at the Mt. Hope Mine, subject to continuous employment. The market value of the restricted stock units was determined by multiplying the closing market price of a share of our common stock on December 31, 2010 of \$6.48 by the number of shares granted, which assumes that all performance goals for the shares are achieved. The SARs expire on the earliest of termination of service, the 5th anniversary of the vesting date, the 10th anniversary of the date of grant, or in the event of a change in control.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Potential payments upon termination or change in control for Mr. Hansen, Mr. Chaput, Mr. Pennington, Mr. Roswell, and Mr. Shumway are set forth in their respective employment agreements or offer letter agreements and change of control agreements, described below.

In the event of a change in control as defined in our 2006 Plan, and previously under our 2003 Plan, all outstanding options and other awards under the plans may be assumed, continued or substituted by any surviving or acquiring entity. If the surviving or acquiring entity elects not to assume, continue or substitute the awards, the vesting of such awards held by award holders whose service with us or any of our affiliates has not terminated will be accelerated, the awards will be fully vested and exercisable immediately prior to the consummation of the transaction and the stock awards will automatically terminate upon consummation of the transaction if not exercised prior to such event.

Employment Agreements

The following is a summary of the employment agreements or offer letter agreements and change of control agreements that were in effect between us and each of our named executive officers during the last fiscal year. For information regarding changes to the agreements effective during 2010, see Compensation Discussion and Analysis Employment and Change of Control Agreements.

Bruce D. Hansen. On January 30, 2007, we entered into an employment agreement with Mr. Hansen to serve as our Chief Executive Officer for a term of three years. Mr. Hansen's agreement was subsequently amended and restated effective September 13, 2007. The agreement was further amended in 2009 to extend the term and to modify and clarify the Company's obligations under the agreement upon a change of control of the Company. The following is a description of the terms of his agreement, as in effect on December 31, 2010.

The term of the agreement generally expires on December 31, 2011. Under this agreement, Mr. Hansen is paid an annual base salary of \$350,000, subject to annual review and adjustment by the Board. Mr. Hansen is eligible to receive a discretionary cash incentive payment in an amount, if any, as determined by the Board from time to time. In addition, Mr. Hansen was granted an option to purchase 750,000 shares of stock, all of which are fully vested. Mr. Hansen was also granted a restricted stock award of 250,000 shares that vested upon completion of a financing that satisfied the cash requirements in our 2007 budget. Upon the completion of an equity or debt financing that raises sufficient capital to commence production at the Mt. Hope Project, Mr. Hansen is entitled to a cash payment of \$1,000,000. If a change of control occurs, Mr. Hansen will be entitled to receive a payment equal to three years of annual base salary and the vesting of all outstanding unvested equity awards will accelerate. In addition, he will be paid the cash incentive award of \$1,000,000 for major financing if it has not previously been paid. In the event the Company terminates Mr. Hansen's employment without cause, Mr. Hansen will be entitled to any base salary earned but not yet paid and a severance payment in an amount equal to two years of his annual base salary. If Mr. Hansen terminates his employment for good reason, which includes a substantial diminution of Mr. Hansen's duties, a direction to Mr. Hansen that would violate local, state or federal law, or a failure by the Company to pay Mr. Hansen's base salary, Mr. Hansen will be entitled to any base salary earned but not yet paid and a severance payment in an amount equal to one year of his annual base salary.

David A. Chaput. On April 25, 2007, we entered into the three-year employment agreement with David A. Chaput pursuant to which Mr. Chaput serves as our Chief Financial Officer. The agreement was further amended in 2009 to extend the term and to modify and clarify the Company's obligations under the agreement upon a change of control of the Company. The following is a description of the terms of his

agreement, as in effect on December 31, 2010.

The term of the agreement generally expires on December 31, 2011. Under this agreement, Mr. Chaput is paid an annual base salary of \$225,000 per year, subject to annual review and adjustment by the Board. His agreement includes a cash incentive payment of \$50,000 upon his establishment of a dwelling at his assigned location, which was paid to him during 2007. In addition, the agreement provides for other cash incentive payments as our Board may determine from time to time. In accordance with the agreement, Mr. Chaput received an option to purchase 400,000 shares of common stock under the 2006 Plan, 250,000 of which are fully vested and 150,000 of which were scheduled to vest upon completion of a financing which raises sufficient capital to commence

production of the Mt. Hope Project. Mr. Chaput will also receive a cash payment of \$400,000 within 45 days of the completion of a financing which raises sufficient capital to commence production at the Mt. Hope Project. Upon a change of control of the Company, Mr. Chaput will receive three years of his annual base salary, and any outstanding unvested equity awards that Mr. Chaput holds will vest on the effective date of the closing of the change of control event. In the event the Company terminates Mr. Chaput's employment without cause, Mr. Chaput will be entitled to his base salary earned but not yet paid and a severance payment in an amount equal to two years of his annual base salary. If Mr. Chaput terminates his employment for good reason, which includes a substantial diminution of Mr. Chaput's duties, a direction to Mr. Chaput that would violate local, state or federal law, or a failure by the Company to pay Mr. Chaput's base salary, Mr. Chaput will be entitled to receive any base salary earned but not yet paid and a severance payment equal to one year of his annual base salary.

Robert I. Pennington. On October 5, 2007, we entered into an offer letter agreement with Robert I. Pennington pursuant to which Mr. Pennington serves as our Vice President of Engineering and Construction. Pursuant to the terms of this agreement, Mr. Pennington is paid a base salary of \$200,000 per year, plus eligibility for a performance based annual incentive award. Mr. Pennington received an option to purchase 150,000 shares of common stock under the 2006 Plan, all of which are fully vested. In addition, Mr. Pennington is also eligible to receive up to 165,000 shares of restricted common stock upon reaching certain pre-determined goals relating to the Mt. Hope Project, of which 20,000 shares of the restricted common stock have been issued to Mr. Pennington. Effective April 23, 2009, Mr. Pennington entered into a Change of Control Agreement whereby if Mr. Pennington's employment is terminated by the Company as a result of a change of control, or one year following the closing of the change of control, or Mr. Pennington terminates employment for good reason, such as material diminution of duties or salary, geographic relocation, or material breach, Mr. Pennington will be paid two years of his annual salary and 100% of his annual target incentive payment. In addition, all of his outstanding equity awards will vest, regardless of whether Mr. Pennington has terminated employment.

R. Scott Roswell. On August 17, 2010, we entered into an offer letter agreement with R. Scott Roswell pursuant to which Mr. Roswell serves as our Corporate Counsel and Vice President of Human Resources. Pursuant to the terms of this agreement, Mr. Roswell is paid a base salary of \$225,000 per year, plus eligibility for a performance based annual incentive award. Mr. Roswell received an award of 50,000 RSUs under the 2006 Plan and a RSU agreement, pursuant to which 1/3 of the RSUs will vest equally on the first, second, and third anniversary of the grant date, so long as Mr. Roswell is an employee of the Company on the vesting date. Effective September 16, 2010, Mr. Roswell entered into a Change of Control Agreement whereby if Mr. Roswell's employment is terminated by the Company as a result of a change of control, or one year following the closing of the change of control, or Mr. Roswell terminates his employment for good reason, such as material diminution of duties or salary, geographic relocation, or material breach, Mr. Roswell will be paid two years of his annual salary and 100% of his annual target incentive payment. In addition, all of his outstanding equity awards will vest, regardless of whether Mr. Roswell has terminated employment.

Lee M. Shumway. On November 6, 2007, we entered into an offer letter agreement with Lee M. Shumway pursuant to which Mr. Shumway initially served as the Director of Business Process/Information Technology. Mr. Shumway now serves as our Controller and Treasurer. Pursuant to the terms of this agreement, Mr. Shumway is paid a base salary of \$165,000 per year. Mr. Shumway's offer letter agreement also provided Mr. Shumway an option to purchase 100,000 shares of common stock under the 2006 Plan, all of which are fully vested. Effective March 16, 2009, Mr. Shumway entered into a Change of Control Agreement whereby if Mr. Shumway's employment is terminated by the Company as a result of a change of control, or one year following the closing of the change of control, or Mr. Shumway terminates employment for good reason, such as material diminution of duties or salary, geographic relocation, or material breach, Mr. Shumway will be paid two years of his annual salary and 100% of his annual target incentive payment. In addition, all of his outstanding equity awards will vest, regardless of whether Mr. Shumway has terminated employment.

Change of Control Employment Agreements

Generally, for purposes of the executive employment and change of control severance agreements, a change of control occurs if:

- Any single holder (or group acting in concert) acquires ownership of 50% or more of the outstanding common stock or combined voting power of the Company (under the present capitalization, outstanding stock and voting power are the same). The following acquisitions are excluded: (a) acquisition of shares from the Company; and (b) acquisition of shares by the Company or by any employee benefit plan sponsored by the Company; or

Table of Contents

- There is a business combination (a merger, reorganization, etc.) involving the Company and another company unless substantially all of the holders who owned shares of the Company before the combination own more than half of the shares of the company resulting from the combination in substantially the proportion that they owned our shares and no one (including a group acting in concert) owns more than one-half of the resulting company. In other words, generally, if we merged with another company and our stockholders owned more than one-half of the resulting company there would not be a change of control. If they owned less than 50%, a change of control would have occurred; or
- The current (incumbent) members of the Company's Board no longer constitute at least a majority of the Board; provided, however, that an individual that becomes a director whose election or nomination was approved by at least a majority of the directors serving on the incumbent Board is considered as though such individual was a member of the incumbent Board unless the individual assumed the office as a result of an actual or threatened election contest or solicitation of proxies or consents on the person's behalf; or
- All or substantially all of our operating assets are sold to an unrelated party; or
- Our stockholders approve a liquidation or dissolution of the Company.

2006 Equity Incentive Plan and 2003 Stock Option Plan

In general, under the terms of the 2006 Equity Incentive Plan and the previous 2003 Stock Option Plan, in the event of a change in control (as defined in each of the plans), outstanding awards will either be assumed or substituted by the surviving corporation or automatically become fully vested and exercisable for a limited period of time.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

It is our policy to enter into or ratify related party transactions only when the Board, acting through the Audit Committee, determines that the related party transaction in question is in, or is not inconsistent with, the best interests of the Company and our stockholders.

Our Audit Committee reviews any transaction involving the Company and a related party (1) prior to the entry by the Company into such transaction, (2) at least once a year after the Company's entry into the transaction, and (3) upon any significant change in the transaction or relationship. If advance approval of a related party transaction is not feasible, then, pursuant to our recently amended related party transaction policy, the related party transaction is considered at the Audit Committee's next regularly scheduled meeting, and if the Audit Committee determines it to be appropriate, is ratified. For these purposes, a related party transaction includes any transaction required to be disclosed pursuant to Item 404 of Regulation S-K. In its review of any related party transactions, the Audit Committee will consider all of the relevant facts and circumstances available to the Audit Committee, including (if applicable): the benefits to the Company; the impact on a director's independence in the event the related person is a director, an immediate family member of a director or an entity in which a director is a partner, stockholder or executive officer; the availability of other sources for comparable products or services; the terms of the transaction; and the terms available to unrelated third parties or to employees generally.

Certain types of transactions are pre-approved in accordance with the terms of our recently amended related party transaction policy. These include, among other things, transactions in which rates or charges are determined by competitive bids or are fixed by law and certain charitable contributions by the Company.

Hanlong USA and Hui (Steven) Xiao

On December 20, 2010, we entered into a Stockholder Agreement (the "Stockholder Agreement") with Hanlong USA in connection with a Tranche 1 closing under a Securities Purchase Agreement dated March 4, 2010 (the "Purchase Agreement") between us and Hanlong USA. The Stockholder Agreement, among other things, limits Hanlong USA's future acquisitions of our common stock, and provides for designation of up to two directors to our Board, and places some restrictions on Hanlong's voting and disposition of our shares. Additional provisions of the Stockholder Agreement will become operative upon the closing of Tranche 2 under the Purchase Agreement and the occurrence of certain other events.

As a result of the Tranche 1 closing, Hanlong USA is entitled to nominate one director to our Board so long as it maintains at least a 10% fully diluted interest in the Company. We have agreed to assure that each Hanlong USA nominee is included in the Board's slate of nominees (for the applicable class of directors) submitted to our stockholders, subject to the Board's fiduciary obligations and compliance by the nominee with applicable law and our requirements concerning disclosure of information. Pursuant to the terms of the Stockholder Agreement, Hanlong USA designated Mr. Xiao, as its nominee for appointment to the Board and on February 25, 2011, the Board appointed Mr. Xiao to the Board as a Class III member.

ArcelorMittal and APERAM

Edgar Filing: General Moly, Inc - Form DEF 14A

Consent and Waiver Agreement. On April 16, 2010, we entered into a Consent and Waiver Agreement (the Consent and Waiver Agreement) with ArcelorMittal, then a beneficial owner of more than 5% of our common stock and one of our off-take partners, whereby ArcelorMittal agreed to waive its anti-dilution rights with respect to the Company s proposed issuance of stock under the Hanlong USA investment that we announced on March 5, 2010. Obtaining ArcelorMittal s consent and waiver was a requirement under the terms of the a bridge loan agreement between us and Hanlong USA. ArcelorMittal retained anti-dilution rights for future issuances of our common stock. ArcelorMittal also consented to the issuance of common stock at a price that may be below the market price. ArcelorMittal was also granted the one-time right to purchase a number of shares that will ensure that ArcelorMittal owns 10% of our outstanding common stock if we issue more than 10.0 million shares of common stock.

Extension of Molybdenum Supply Agreement. On April 16, 2010, we also entered into an Extension Molybdenum Supply Agreement (the Extension Agreement), providing ArcelorMittal with a five-year option to make effective an agreement to purchase from us three million pounds of molybdenum per year for 10 years following the expiration of the current five year, 6.5 million annual pound molybdenum supply agreement. The additional optional off-take will be priced in alignment with our existing supply agreements. In order for ArcelorMittal to exercise this option and make the Extension Agreement effective, ArcelorMittal must have beneficial ownership of more than 11,100,000 shares of Company common stock on or prior to April 15, 2015. ArcelorMittal owned 8,256,699 shares of common stock upon execution of the Extension Agreement.

APERAM Spin-Off. Based on a Form 3 filed with the SEC on January 28, 2011 by APERAM, on January 25, 2011, the Board of Directors of ArcelorMittal and APERAM each approved the transfer of the assets comprising ArcelorMittal's stainless and specialty steels business from its carbon steel and mining business (including, we have been informed, ArcelorMittal's equity interests in us) to APERAM, a separate entity incorporated in the Grand Duchy of Luxembourg.

Coghill Capital and Affiliates

Amended and Restated Warrants. Coghill Capital and its affiliates, which may be deemed to beneficially own more than 5% of our common stock, provided substantial assistance to us with the signing of the Consent and Waiver Agreement and the Extension Agreement with ArcelorMittal. In recognition of that support, on April 16, 2010, we amended and restated warrants issued to Coghill Master Qualified Fund and Coghill Special Holdings Fund (collectively, the Coghill Funds) to purchase an aggregate of one million shares of our common stock issued in connection with a November 2007 private placement and original molybdenum supply agreement with ArcelorMittal to reduce the price of the warrants from \$10.00 per share to \$5.00 per share (from an aggregate exercise price of \$10.0 million to an aggregate exercise price of \$5.0 million). The amended warrants remain exercisable once we have received financing necessary for the commencement of commercial production at our Mt. Hope project and will expire one year thereafter. They will also become exercisable in the event of certain corporate reorganizations.

Letter Agreements to Reprice and Exercise Warrants. On December 21, 2010, we entered into letter agreements to reprice and exercise certain outstanding warrants (the Letter Agreements) with the Coghill Funds, each of which may be deemed to beneficially own more than 5% of our common stock, with respect to warrants to purchase up to an aggregate of 4,250,000 shares of our common stock at an exercise price of \$3.75 per share. Pursuant to the Letter Agreements, on January 3, 2011 the Coghill Funds exercised all of such warrants at a reduced exercise price of \$3.66 per share, for an aggregate exercise price of approximately \$15.6 million (in lieu of the original aggregate exercise price of approximately \$15.9 million). In addition, in accordance with the terms of the Letter Agreements, on January 7, 2011 we filed a prospectus supplement to our Registration Statement on Form S-3 (File No. 333-170389) to enable the Coghill Funds to resell the shares of common stock issued to them pursuant to such Registration Statement.

An aggregate of \$0.3 million in installment payments were made during December 2010 and January 2011; the final installment payment of \$1.6 million is due on or before December 26, 2011.
