WILLDAN GROUP, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 27, 2014

(Unaudited)

1. BASIS OF PRESENTATION, ORGANIZATION AND OPERATIONS OF THE COMPANY

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission and reflect all adjustments, which consist of only normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the consolidated results for the interim periods presented. Results for the interim periods are not necessarily indicative of results for the full year. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements should be read in conjunction with Willdan Group, Inc.'s 2013 Annual Report on Form 10-K filed on March 25, 2014.

Nature of Business

Willdan Group, Inc. and subsidiaries (Willdan Group or the Company) is a provider of professional technical and consulting services to public agencies at all levels of government, public and private utilities and commercial and industrial firms in California and New York. The Company also has operations in Arizona, Florida, Texas, Washington and Washington, D.C. The Company enables these entities to provide a wide range of specialized services without having to incur and maintain the overhead necessary to develop staffing in-house. The Company provides a broad range of complementary services including engineering and planning, energy efficiency and sustainability, economic and financial consulting, and national preparedness and interoperability. The Company's clients primarily consist of public and governmental agencies, including cities, counties, public utilities, redevelopment agencies, water districts, school districts and universities, state agencies, federal agencies, a variety of other special districts and agencies, private utilities and industry and tribal governments.

Principles of Consolidation

The consolidated financial statements include the accounts of Willdan Group, Inc. and its wholly owned subsidiaries, Willdan Engineering, Willdan Energy Solutions, Public Agency Resources, Willdan Financial Services and Willdan Homeland Solutions. All significant intercompany balances and transactions have been eliminated in consolidation.

Accounting for Contracts

The Company enters into contracts with its clients that contain three principal types of pricing provisions: fixed price, time-and-materials, and unit-based. Revenue on fixed price contracts is recognized on the percentage-of-completion method based generally on the ratio of direct costs (primarily exclusive of depreciation and amortization costs) incurred to date to estimated total direct costs at completion. Revenue on time-and-materials and unit-based contracts is recognized as the work is performed in accordance with the specific terms of the contract. Contracts that provide for multiple services or deliverables are evaluated as multiple element arrangements to determine the appropriate unit of accounting, allocation of contract value, and method of revenue recognition for each element. Revenue for amounts that have been billed but not earned is deferred and such deferred revenue is referred to as billings in excess of costs and estimated earnings on uncompleted contracts in the accompanying consolidated balance sheets. Service-related contracts, including operations and maintenance services and a variety of technical assistance services, are accounted for over the period of performance, in proportion to the costs of performance.

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is provided for currently in its entirety. Claims revenue is recognized only upon resolution of the claim. Change orders in dispute are evaluated as claims. Costs related to un-priced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for un-priced change orders if realization of the expected price of the change order is probable.

Table of Contents

Applying the percentage-of-completion method of recognizing revenue requires the Company to estimate the outcome of its long-term contracts. The Company forecasts such outcomes to the best of its knowledge and belief of current and expected conditions and its expected course of action. Differences between the Company's estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on future consolidated financial statements.

Direct costs of contract revenue consist primarily of that portion of technical and nontechnical salaries and wages that has been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses, subcontractor services and other expenses that are incurred in connection with revenue producing projects.

Direct costs of contract revenue exclude that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all Company personnel are included in general and administrative expenses in the accompanying consolidated statements of operations since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue. Other companies may classify as direct costs of contract revenue some of the costs that the Company classifies as general and administrative costs. The Company expenses direct costs of contract revenue when incurred.

Included in revenue and costs are all reimbursable costs for which the Company has the risk or on which the fee was based at the time of bid or negotiation. No revenue or cost is recorded for costs in which the Company acts solely in the capacity of an agent and has no risks associated with such costs.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon a review of all outstanding amounts on a quarterly basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Credit risk is generally minimal with governmental entities, but disputes may arise related to these receivable amounts. Accounts receivables are written off when deemed uncollectible. Recoveries of accounts receivables previously written off are recorded when received.

The value of retainage is included in accounts receivable in the accompanying consolidated financial statements. Retainage represents the billed amount that is retained by the customer, in accordance with the terms of the contract, generally until performance is substantially complete. At June 27, 2014 and December 27, 2013, the Company had retained accounts receivable of approximately \$691,000 and \$673,000, respectively.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash, cash equivalents, including restricted cash, accounts receivable, costs and estimated earnings in excess of billings on uncompleted contracts, other receivables, prepaid expenses and other current assets, excess of outstanding checks over bank balance, accounts payable, accrued liabilities and billings in excess of costs and estimated earnings on uncompleted contracts, and approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. The carrying amounts of debt obligations approximate their fair values since the terms are comparable to terms currently offered by local lending institutions for loans of similar terms to companies with comparable credit risk.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents*Liquidity*

The Company had \$12.1 million of cash and cash equivalents as of June 27, 2014. The Company's primary sources of liquidity are cash generated from operations and its revolving line of credit with BMO Harris Bank, National Association (BMO), which matures on March 24, 2016. While the Company believes that its cash and cash equivalents on hand, cash generated by operating activities and funds available under its line of credit will be sufficient to finance its operating activities for at least the next 12 months, if the Company does experience a cash flow shortage or violates the current terms of its credit agreement, the Company may have difficulty obtaining additional funds on favorable terms, if at all, to meet its obligations as they come due in the normal course of business.

2. EARNINGS PER SHARE (EPS)

Basic EPS is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding. Diluted EPS is computed by dividing net income by the weighted-average number of common shares outstanding and dilutive potential common shares for the period. Potential common shares include the weighted-average dilutive effects of outstanding stock options using the treasury stock method.

The following table sets forth the number of weighted-average shares used to compute basic and diluted EPS:

	Three Months Ended		Six Months Ended	
	June 27, 2014	June 28, 2013	June 27, 2014	June 28, 2013
Net income	\$ 1,893,000	\$ 688,000	\$ 3,208,000	\$ 1,087,000
Weighted-average common shares				
Outstanding-basic	7,405,000	7,353,000	7,401,000	7,336,000
Effect of dilutive stock options	256,000	48,000	116,000	47,000
Weighted-average common shares outstanding-diluted	7,661,000	7,401,000	7,517,000	7,383,000
Earnings per share:				
Basic	\$ 0.26	\$ 0.09	\$ 0.43	\$ 0.15
Diluted	\$ 0.25	\$ 0.09	\$ 0.43	\$ 0.15

For the three and six months ended June 27, 2014, 268,500 and 289,500 options, 25,000 and 25,000 restricted stock grants, respectively, were excluded from the calculation of dilutive potential common shares, compared to 686,000 options and 25,000 restrictive stock grants for the same periods last year. These options were not included in the computation of dilutive potential common shares because the assumed proceeds per share exceeded the average market price per share for the 2014 and 2013 periods. Accordingly, the inclusion of these options would have been anti-dilutive. For periods in which the Company incurs net losses, dilutive potential common shares are excluded as they would be anti-dilutive.

Table of Contents**3. EQUIPMENT AND LEASEHOLD IMPROVEMENTS**

Equipment and leasehold improvements consist of the following:

	June 27, 2014	December 27, 2013
Furniture and fixtures	\$ 3,043,000	\$ 3,039,000
Computer hardware and software	6,577,000	6,338,000
Leasehold improvements	769,000	776,000
Equipment under capital leases	827,000	831,000
Automobiles, trucks, and field equipment	572,000	533,000
	11,788,000	11,517,000
Accumulated depreciation and amortization	(10,899,000)	(10,826,000)
Equipment and leasehold improvements, net	\$ 889,000	\$ 691,000

4. ACCRUED LIABILITIES

Accrued liabilities consist of the following:

	June 27, 2014	December 27, 2013
Accrued bonuses	\$ 322,000	\$ 31,000
Paid leave bank	1,437,000	1,243,000
Compensation and payroll taxes	885,000	749,000
Accrued legal	525,000	356,000
Accrued workers compensation insurance	83,000	141,000
Accrued rent	271,000	367,000
Employee withholdings	367,000	343,000
Client deposits	141,000	232,000
Unvouchered accounts payable	2,974,000	2,282,000
Other	136,000	64,000
Total accrued liabilities	\$ 7,141,000	\$ 5,808,000

5. LINE OF CREDIT

Revolving Credit Facility: During fiscal year 2013, the Company had a revolving credit agreement with Wells Fargo Bank, N.A, which was entered into on December 23, 2011 and became effective as of January 1, 2012. Loans made under the revolving line of credit accrued interest at a floating rate of LIBOR plus 2.25%. The Company is also required to pay a 0.25% fee on unused commitments and customary fees on any letters of credit drawn under the facility. There were no outstanding borrowings under this agreement as of June 27, 2014.

Edgar Filing: Willdan Group, Inc. - Form 10-Q

The Wells Fargo revolving line of credit was scheduled to mature on April 1, 2014, but, on March 20, 2014, in connection with entering into a new credit facility with BMO, the Company reduced the size of the facility from \$5.0 million to \$75,905, which is the amount outstanding under a current letter of credit and extended its maturity until June 1, 2014. On July 1, 2014, the Company further extended the maturity of the letter of credit to June 30, 2015.

The Company also has a \$7.5 million revolving credit agreement with BMO Harris Bank, N.A. (BMO), which was entered into on March 24, 2014 and became effective as of March 24, 2014. The Company's credit agreement with BMO provides for a revolving line of credit of up to \$7.5 million, subject to a borrowing base calculation, including a \$5.0 million standby letter of credit sub-facility and a \$2.5 million secured term loan. All borrowings under the revolving line of credit are limited to a borrowing base equal to roughly 75% of the eligible accounts receivable plus 50% of the lower of cost or market value of our eligible inventory, each term as defined in

Table of Contents

the credit agreement. As of June 27, 2014, \$7.5 million was available for borrowing and there were no outstanding borrowings under the revolving line of credit. Under the BMO credit agreement, as of June 27, 2014, no cash amounts are restricted, as compared to \$5.0 million as of December 27, 2013. The line of credit matures on March 24, 2016. Loans made under the revolving line of credit will accrue interest at either (i) a floating rate equal to 0.75% above the base rate in effect from time to time or (ii) a floating rate of 1.75% above LIBOR, with the interest rate to be selected by the Company.

Borrowings under the revolving line of credit are guaranteed by all of the Company's subsidiaries (the Guarantors) and secured by all of the Company's and the Guarantors' accounts receivable and other rights to payment, general intangibles, inventory and equipment. Pursuant to the credit agreement, the Company also must pay a fee of up to 0.3% on unused commitments and customary fees on any letters of credit drawn under the facility.

The credit agreement contains customary representations and affirmative covenants, including financial covenants that require us to maintain (i) a maximum total leverage ratio, measured as total funded debt (measured as the sum of all obligations for borrowed money, including subordinated debt, plus all capital lease obligations) plus capital leases plus financial letters of credit divided by a trailing twelve month EBITDA, measured on a rolling basis) of not more than 2.00; (ii) a minimum fixed charge coverage ratio (measured as the sum of EBITDA plus rent expense less unfinanced capital expenditures divided by the sum of rent expense plus principal payments plus cash taxes plus cash interest plus restricted payments plus distributions) of not less than 1.25; and (iii) a minimum tangible net worth of at least 85% of actual tangible net worth for the last financial statements received prior to the closing date of the agreement, with step ups in an amount equal to 50% of net income (if positive) for each fiscal quarter ending thereafter (no add-back for losses).

The credit agreement also includes customary negative covenants, including (i) restrictions on the incurrence of additional indebtedness by us or the Guarantors other than indebtedness existing on the date of the credit agreement, (ii) restrictions on the total consideration for all permitted acquisitions (including potential future earn-out obligations) not to exceed \$2.5 million during the term of the agreement and the total consideration for any individual permitted acquisition not to exceed \$750,000 without BMO's consent, and (iii) limitations on asset sales, mergers and acquisitions. In addition, the credit agreement includes customary events of default. Upon the occurrence of an event of default, the interest rate may be increased by 2.0%, BMO has the option to make any loans then outstanding under the credit agreement immediately due and payable, and BMO is no longer obligated to extend further credit to the Company under the credit agreement.

6. COMMITMENTS

Leases

The Company is obligated under capital leases for certain furniture and office equipment that expire at various dates through the year 2017.

The Company also leases certain office facilities under non-cancelable operating leases that expire at various dates through the year 2017.

Employee Benefit Plans

Edgar Filing: Willdan Group, Inc. - Form 10-Q

The Company has a qualified profit sharing plan pursuant to Code Section 401(a) and qualified cash or deferred arrangement pursuant to Code Section 401(k) covering substantially all employees. Employees may elect to contribute up to 50% of compensation limited to the amount allowed by tax laws. Company contributions are made solely at the discretion of the Company's board of directors.

The Company has a discretionary bonus plan for regional managers, division managers and others as determined by the Company president. Bonuses are awarded if certain financial goals are achieved. The financial goals are not stated in the plan; rather they are judgmentally determined each year. In addition, the board of directors may declare discretionary bonuses to key employees and all employees are eligible for what the Company refers to as the "hot hand" bonus program, which pays awards for outstanding performance. The Company's compensation committee of the board of directors determines the compensation of the president.

Table of Contents

Post Employment Health Benefits

In May 2006, the Company's board of directors approved providing lifetime health insurance coverage for Win Westfall, the Company's former chief executive officer and current chairman of the board of directors, and his spouse and for Linda Heil, the widow of the Company's former chief executive officer, Dan Heil. These benefits relate to past services provided to the Company. Accordingly, there is no unamortized compensation cost for the benefits.

7. INCOME TAXES

Income taxes are accounted for under the asset and liability method and are determined using an estimated annual effective tax rate. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded when it is more likely than not that all or a portion of the deferred tax assets may not be realized.

The Company recognizes the tax benefit from uncertain tax positions if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense.

Based on management's estimates and determination of an effective tax rate for the year, the Company recorded an income tax expense of \$64,000 and \$108,000 for the three and six months ended June 27, 2014 as compared to an income tax benefit of \$8,000 and an income tax expense of \$41,000 for the three and six months ended June 28, 2013.

8. SEGMENT INFORMATION

The Company has four reporting segments: Engineering Services, Energy Efficiency Services, Public Finance Services and Homeland Security Services. The Engineering Services segment consists of Willdan Engineering, Willdan Infrastructure and Public Agency Resources. The Engineering Services segment offers a broad range of engineering and planning services to our public and private sector clients. The Energy Efficiency Services segment, which consists of Willdan Energy Solutions, provides energy efficiency and sustainability consulting services to utilities, state agencies, municipalities, private industry and non-profit organizations. Prior to December 30, 2011, the energy efficiency and sustainability services were aggregated into the Engineering Services segment. Given the manner in which the chief operating decision maker reviews financial results and allocates resources, these services now comprise a separate reporting segment. The Public Finance Services segment, which consists of Willdan Financial Services, provides expertise and support for the various financing techniques employed by public agencies to finance their operations and infrastructure along with the mandated reporting and other requirements associated with these financings. The Homeland Security Services segment, which consists of Willdan Homeland Solutions, provides national preparedness, homeland security consulting, public safety and emergency response services to cities, related municipal service agencies and other entities.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies included in the Company's 2013 Annual Report on Form 10-K filed on March 25, 2014. There were no intersegment sales in the three and six months ended June 27, 2014. Management evaluates the performance of each segment based upon income or loss from operations before income taxes. Certain segment asset information including expenditures for long-lived assets has not been presented as it is not reported to or reviewed by the chief operating decision maker. In addition, enterprise-wide service line contract revenue is not included as it is impracticable to report this information for each group of similar services.

Table of Contents

Financial information with respect to the reportable segments as of and for the fiscal three and six months ended June 27, 2014 and as of and for the fiscal three months and six ended June 28, 2013 is as follows:

	Engineering Services	Energy Efficiency Services	Public Finance Services	Homeland Security Services	Unallocated Corporate	Intersegment	Consolidated Total
Fiscal Three Months Ended June 27, 2014							
Contract revenue	\$ 9,526,000	\$ 13,699,000	\$ 2,691,000	\$ 1,054,000	\$	\$	\$ 26,970,000
Segment profit (loss) before income taxes	612,000	1,526,000	13,000	106,000	(300,000)		1,957,000
Net income (loss)	593,000	1,473,000	13,000	104,000	(290,000)		1,893,000
Segment assets(1)	8,904,000	14,990,000	3,485,000	1,218,000	38,793,000	(23,130,000)	44,260,000
Fiscal Three Months Ended June 28, 2013							
Contract revenue	\$ 8,685,000	\$ 8,004,000	\$ 2,650,000	\$ 1,157,000	\$	\$	\$ 20,496,000
Segment profit before income taxes	328,000	85,000	173,000	94,000			680,000
Net income	322,000	107,000	168,000	91,000			688,000
Segment assets(1)	9,345,000	9,062,000	3,802,000	1,297,000	35,182,000	(23,129,000)	35,558,000
Fiscal Six Months Ended June 27, 2014							
Contract revenue	\$ 18,419,000	\$ 24,058,000	\$ 5,181,000	\$ 1,998,000	\$	\$	\$ 49,656,000
Segment profit (loss) before income taxes	1,141,000	2,053,000	250,000	172,000	(300,000)		3,316,000
Net income (loss)	1,107,000	1,980,000	244,000	167,000	(290,000)		3,208,000
Segment assets(1)	8,904,000	14,990,000	3,485,000	1,218,000	38,793,000	(23,130,000)	44,260,000
Fiscal Six Months Ended June 28, 2013							
Contract revenue	\$ 16,910,000	\$ 17,945,000	\$ 4,921,000	\$ 2,105,000	\$	\$	\$ 41,881,000
Segment profit before income taxes	399,000	379,000	240,000	110,000			1,128,000
Net income	385,000	365,000	231,000	106,000			1,087,000
Segment assets(1)	9,345,000	9,062,000	3,802,000	1,297,000	35,182,000	(23,129,000)	35,558,000

(1) Segment assets represent segment assets, net of intercompany receivables.

9. CONTINGENCIES

Claims and Lawsuits

The Company is subject to claims and lawsuits from time to time, including those alleging professional errors or omissions that arise in the ordinary course of business against firms that operate in the engineering and consulting professions. The Company carries professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of a loss.

In accordance with accounting standards regarding loss contingencies, the Company accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated, and discloses the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the Company's financial statements not to be misleading. The Company does not accrue liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote.

Because litigation outcomes are inherently unpredictable, the Company's evaluation of legal proceedings often involves a series of complex assessments by management about future events and can rely heavily on estimates and assumptions. If the assessments indicate that loss contingencies that could be material to any one of

Table of Contents

the Company's financial statements are not probable, but are reasonably possible, or are probable, but cannot be estimated, then the Company will disclose the nature of the loss contingencies, together with an estimate of the possible loss or a statement that such loss is not reasonably estimable. While the consequences of certain unresolved proceedings are not presently determinable, and a reasonable estimate of the probable and reasonably possible loss or range of loss in excess of amounts accrued for such proceedings cannot be made, an adverse outcome from such proceedings could have a material adverse effect on the Company's earnings in any given reporting period. However, in the opinion of the Company's management, after consulting with legal counsel, and taking into account insurance coverage, the ultimate liability related to current outstanding claims and lawsuits is not expected to have a material adverse effect on the Company's financial statements.

City of Glendale v. Willdan Financial Services, Superior Court of California, Los Angeles County

A complaint was filed against the Company on July 16, 2014 relating to a project performed by Willdan Financial Services to prepare a Cost of Services Analysis (a COSA) for the Department of Water and Power of the City of Glendale, California (the City of Glendale). The purpose of the COSA was to assist the City of Glendale in setting water rates for property owners. The lawsuit alleges that the City of Glendale suffered damages due to mistakes in the COSA, as follows: the City of Glendale received less revenue than anticipated in an amount exceeding \$9,000,000; the City of Glendale was required to retain another consultant to prepare a new COSA at the cost of \$130,000; and the City of Glendale incurred costs associated with noticing and conducting public hearings at a cost of \$83,052. The Company denies the allegations asserted in the lawsuit and will vigorously defend against the claims. Additionally, this matter is covered by the Company's professional liability insurance policy.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements included elsewhere in this Quarterly Report and the audited financial statements for the year ended December 27, 2013, included in our Annual Report on Form 10-K (File No. 001-33076). This Quarterly Report contains, in addition to unaudited historical information, forward-looking statements, which involve risk and uncertainties. The words believe, expect, estimate, may, will, could, plan, or continue and similar expressions are intended to identify forward-looking statements. Our actual results could differ significantly from the results discussed in such forward-looking statements. Factors that could cause or contribute to such differences in results and outcomes include, without limitation, those discussed under the headings Item 1A. Risk Factors in our 2013 Annual Report on Form 10-K. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to (and we expressly disclaim any obligation to) revise or update any forward-looking statement, whether as a result of new information, subsequent events, or otherwise (except as may be required by law), in order to reflect any event or circumstance which may arise after the date of this Quarterly Report on Form 10-Q.

Overview

We are a provider of professional technical and consulting services to public agencies at all levels of government, public and private utilities, and commercial and industrial firms. We enable these entities to provide a wide range of specialized services without having to incur and maintain the overhead necessary to develop staffing in-house. We assist our clients with a broad range of complementary services relating to:

- Engineering and Planning;

- Energy Efficiency and Sustainability;

- Economic and Financial Consulting; and

- National Preparedness and Interoperability

We operate our business through a network of offices located primarily in California and New York. We also have operations in Arizona, Florida, Texas, Washington and Washington, DC. As of June 27, 2014, we had a staff of 604 which includes licensed engineers and other professionals. Historically, our clients have primarily been public agencies in communities with populations ranging from 10,000 to 300,000 people. We believe communities of this size are underserved by large outsourcing companies that tend to focus on securing large federal and state projects, as well as projects for the private sector. Since fiscal 2008, we have begun to provide increased services to public and private utilities that service major metropolitan communities and commercial and industrial firms, particularly in connection with the growth of our energy efficiency and sustainability services. We seek to establish close working relationships with our clients and expand the breadth and depth of the services we provide to them over time.

Edgar Filing: Willdan Group, Inc. - Form 10-Q

While we currently serve communities throughout the country, our business with public agencies is concentrated in California and Arizona. We provide services to approximately 63% of the 482 cities and approximately 78% of the 58 counties in California. We also serve special districts, school districts, a range of public agencies and private industry. Our business with public and private utilities is concentrated in California and New York.

We were founded in 1964 and Willdan Group, Inc., a Delaware corporation, was formed in 2006 to serve as our holding company. We consist of a family of wholly owned companies that operate within the following segments for financial reporting purposes:

Engineering Services. Our Engineering Services segment includes the operations of our subsidiaries, Willdan Engineering, Willdan Infrastructure and Public Agency Resources (PARs). Willdan Engineering provides civil engineering-related and city planning services to our clients. PARs primarily provides staffing to Willdan Engineering. Contract revenue for the Engineering Services segment represented approximately 37.1% and 40.4% of our consolidated contract revenue for the six months ended June 27, 2014 and June 28, 2013, respectively.

Table of Contents

Energy Efficiency Services. Our Energy Efficiency Services segment consists of the business of our subsidiary, Willdan Energy Solutions, which offers energy efficiency and sustainability consulting services to utilities, public agencies and private industry. This segment is currently our largest segment based on contract revenue, representing approximately 48.4% and 42.8% of our consolidated contract revenue for the six months ended June 27, 2014 and June 28, 2013, respectively.

Public Finance Services. Our Public Finance Services segment consists of the business of our subsidiary, Willdan Financial Services, which offers economic and financial consulting services to public agencies. Contract revenue for the Public Finance Services segment represented approximately 10.4% and 11.7% of our consolidated contract revenue for the six months ended June 27, 2014 and June 28, 2013, respectively.

Homeland Security Services. Our Homeland Security Services segment consists of the business of our subsidiary, Willdan Homeland Solutions, which offers national preparedness and interoperability services and communications and technology solutions. Contract revenue for our Homeland Security Services segment represented approximately 4.0% and 5.0% of our consolidated contract revenue for the six months ended June 27, 2014 and June 28, 2013, respectively.

Recent Developments

We amended our revolving line of credit with Wells Fargo on March 20, 2014. The Wells Fargo credit facility was scheduled to mature on April 1, 2014. On March 20, 2014, we amended the facility by reducing the revolving line of credit from \$5.0 million to \$75,905, which is the amount outstanding under a current letter of credit and extending its maturity to June 1, 2014. On July 1, 2014, we further extended the maturity of the letter of credit to June 30, 2015. We amended the Wells Fargo credit facility in connection with entering into a new \$7.5 million revolving credit facility with BMO Harris Bank, N.A. on March 24, 2014. The new BMO Harris revolving credit facility matures on March 24, 2016. For further information on our new revolving credit facility, see [Liquidity and Capital Resources](#) [Outstanding Indebtedness](#) elsewhere in this report.

Components of Income and Expense

Contract Revenue

We provide our services under contracts, purchase orders or retainer letters. The contracts we enter into with our clients contain three principal types of pricing provisions: time and materials, unit based, and fixed price. Revenue on our time and materials and unit based contracts are recognized as the work is performed in accordance with specific terms of the contract. Approximately 36% of our contracts are based on contractual rates per hour plus costs incurred. Some of these contracts include maximum contract prices, but the majority of these contracts are not expected to exceed the maximum. Contract revenue on our fixed price contracts is determined on the percentage of completion method based generally on the ratio of direct costs incurred to date to estimated total direct costs at completion. Many of our fixed price contracts are relatively short in duration, thereby lowering the risks of not properly estimating the percent complete.

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is recognized currently in its entirety. Claims revenue is recognized only upon resolution of the claim.

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Change orders in dispute are evaluated as claims. Costs related to un-priced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for un-priced change orders if realization of the expected price of the change order is probable.

Our contracts come up for renewal periodically and at the time of renewal may be subject to renegotiation, which could impact the profitability on that contract. In addition, during the term of a contract, public agencies may request additional or revised services which may impact the economics of the transaction. Most of our contracts permit our clients, with prior notice, to terminate the contracts at any time without cause. While we have a large volume of transactions, the renewal, termination or modification of a contract, in particular our contract with Consolidated Edison, may have a material adverse effect on our consolidated operations.

Table of Contents

Direct Costs of Contract Revenue

Direct costs of contract revenue consist primarily of subconsultant services and that portion of technical and nontechnical salaries and wages that have been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses and other expenses that are incurred in connection with revenue producing projects. Direct costs of contract revenue generally exclude depreciation and amortization, that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all of our personnel are included in general and administrative expenses since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue nor is depreciation and amortization allocated to direct costs. We expense direct costs of contract revenue when incurred.

As a firm that provides multiple and diverse services, we do not believe gross margin is a consistent or appropriate indicator of our performance and therefore we do not use this measure as construction contractors and other types of consulting firms may. Other companies may classify as direct costs of contract revenue some of the costs that we classify as general and administrative expenses. As a result, our direct costs of contract revenue may not be comparable to direct costs for other companies, either as a line item expense or as a percentage of contract revenue.

General and Administrative Expenses

General and administrative expenses include the costs of the marketing and support staffs, other marketing expenses, management and administrative personnel costs, payroll taxes, bonuses and employee benefits for all of our employees and the portion of salaries and wages not allocated to direct costs of contract revenue for those employees who provide our services. General and administrative expenses also include facility costs, depreciation and amortization, professional services, legal and accounting fees and administrative operating costs. Within general and administrative expenses, Other includes expenses such as provision for billed or unbilled receivables, professional services, legal and accounting, computer costs, travel and entertainment and marketing costs. We expense general and administrative costs when incurred.

Critical Accounting Policies

This discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the U.S., or GAAP. To prepare these financial statements in conformity with GAAP, we must make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses in the reporting period. Our actual results may differ from these estimates. We have provided a summary of our significant accounting policies in Note 2 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 27, 2013. We describe below those accounting policies that require material subjective or complex judgments and that have the most significant impact on our financial condition and results of operations. Our management evaluates these estimates on an ongoing basis, based upon information currently available and on various assumptions management believes are reasonable as of the date of this report.

Contract Accounting

Applying the percentage-of-completion method of recognizing revenue requires us to estimate the outcome of our long-term contracts. We forecast such outcomes to the best of our knowledge and belief of current and expected conditions and our expected course of action. Differences between our estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on our future consolidated financial statements.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon our review of all outstanding amounts on a monthly basis. We determine the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Our credit risk is minimal with governmental entities. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

Table of Contents

For further information on the types of contracts under which we perform our services, see Components of Income and Expense Contract Revenue elsewhere in this report.

Accounting for Claims Against the Company

We accrue an undiscounted liability related to claims against us for which the incurrence of a loss is probable and the amount can be reasonably estimated. We disclose the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements not to be misleading. We do not accrue liabilities related to claims when the likelihood that a loss has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. Losses related to recorded claims are included in general and administrative expenses.

Determining probability and estimating claim amounts is highly judgmental. Initial accruals and any subsequent changes in our estimates could have a material effect on our consolidated financial statements.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the financial reporting basis and tax basis of our assets and liabilities, subject to a judgmental assessment of recoverability of deferred tax assets. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets may not be realized.

We recognize the tax benefit from uncertain tax positions if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. We recognize interest and penalties related to unrecognized tax benefits in income tax expense.

Table of Contents**Results of Operations**

The following table sets forth, for the periods indicated, certain information derived from our consolidated statements of operations expressed as a percentage of contract revenue. Amounts may not add to the totals due to rounding.

Statement of Operations Data	Fiscal Three Months Ended		Fiscal Six Months Ended	
	June 27, 2014	June 28, 2013	June 27, 2014	June 28, 2013
Contract revenue	100.0%	100.0%	100.0%	100.0%
Direct costs of contract revenue (exclusive of depreciation and amortization shown separately below):				
Salaries and wages	26.0	29.9	26.6	28.6
Subconsultant services and other direct costs	34.5	25.9	32.8	27.5
Total direct costs of contract revenue	60.4	55.8	59.4	56.0
General and administrative expenses:				
Salaries and wages, payroll taxes, employee benefits	18.6	24.1	20.0	25.0
Facilities and facilities related	4.2	5.6	4.4	5.6
Stock-based compensation	0.2	0.2	0.2	0.2

Lease abandonment				
Other	9.0	10.1	9.0	9.6
Total general and administrative expenses	32.4	40.7	34.0	41.1
Income from operations	7.2	3.5	6.6	2.8
Other income (expense):				
Interest income				
Interest expense		(0.2)		(0.2)
Other, net	0.1		0.1	(0.1)
Total other income (expense), net	0.1	(0.3)	0.1	(0.1)
Income before income tax expense	7.3	3.3	6.7	2.1
Income tax expense (benefit)	0.2	(0.0)	0.2	(0.1)
Net income	7.0%	3.4%	6.5%	2.6%

Three Months Ended June 27, 2014 Compared to Three Months Ended June 28, 2013

Contract revenue. Our contract revenue was \$27.0 million for the three months ended June 27, 2014, with \$9.5 million attributable to the Engineering Services segment, \$13.7 million attributable to the Energy Efficiency Services segment, \$2.7 million attributable to the Public Finance Services segment, and \$1.1 million attributable to the Homeland Security Services segment. Consolidated contract revenue increased \$6.5 million, or 31.6%, to \$27.0 million for the three months ended June 27, 2014 from \$20.5 million for the three months ended June 28, 2013. This increase was due primarily to an increase in contract revenue for the Energy Efficiency Services segment of \$5.7 million, or 86.9%, to \$13.7 million for the three months ended June 27, 2014 from \$8.0 million for the three months ended June 28, 2013 as a result of an increase in the direct installation of energy efficiency measures from the energy efficiency audits in New York and California. Contract revenue for the Engineering Services segment increased \$0.8 million, or 9.7% to \$9.5 million for the three months ended June 27, 2014 from \$8.7 million for the three months ended June 28, 2013. Contract revenue for the Public Finance Services segment increased \$0.1 million, or 1.4% for the three months ended June 27, 2014 as compared to the three months ended June 28, 2013. Contract revenue for the Homeland Security Services segment decreased \$0.1 million, or 2.2% to \$1.1 million for the three months ended June 27, 2014 from \$1.2 million for the three months ended June 28, 2013.

Contract revenue for the Energy Efficiency Services segment increased primarily as a result of an increase in the direct installation of energy efficiency measures from the energy efficiency audits in New York and California. Contract revenue for the Engineering Services segment increased primarily due to greater demand for our city engineering services in northern California.

Table of Contents

Direct costs of contract revenue. Direct costs of contract revenue were \$16.3 million for the three months ended June 27, 2014, with \$5.5 million attributable to the Engineering Services segment, \$9.0 million attributable to the Energy Efficiency Services segment, \$1.2 million attributable to the Public Finance Services segment, and \$0.7 million attributable to the Homeland Security Services segment. Overall, direct costs increased by \$4.8 million, or 42.5%, to \$16.3 million for the three months ended June 27, 2014 from \$11.4 million for the three months ended June 28, 2013. This increase is primarily attributable to an increase in direct costs within our Energy Efficiency Services segment of \$4.1 million, or 85.4% for the three months ended June 27, 2014. Direct costs of contract revenue also increased within our Engineering Services and Public Finance segments by \$0.8 million, or 16.1%, and \$0.1 million, or 1.2%, respectively. Direct costs of contract revenue in our Homeland Security Services segment decreased by \$0.1 million, or 2.7% to \$0.7 million for the three months ended June 27, 2014 from \$0.8 million for the three months ended June 27, 2014.

Direct costs increased as a result of increases in subconsultant services and other direct costs of \$4.0 million and an increase in salaries and wages of \$0.9 million. Within direct costs of contract revenue, salaries and wages remained flat at 26.0% of contract revenue for the three months ended June 27, 2014 as compared to 29.9% for the three months ended June 28, 2013. Subconsultant services and other direct costs increased to 34.5% of contract revenue for the three months ended June 27, 2014 from 25.9% of contract revenue for the three months ended June 28, 2013. Subconsultant services increased primarily because of increased demand for the energy efficiency, sustainability and renewable energy services of our subsidiary Willdan Energy Solutions, which generally utilizes a higher percentage of subconsultants than our other subsidiaries.

General and administrative expenses. General and administrative expenses increased by \$0.4 million, or 4.7%, to \$8.7 million for the three months ended June 27, 2014 from \$8.3 million for the three months ended June 28, 2013. This was due primarily to increases of \$0.3 million, \$0.2 million and \$0.1 million, in general and administrative expenses of our corporate offices, the Energy Efficiency Services and Public Finance Services segments, respectively. These increases were partially offset by a decrease of \$0.2 million in the general and administrative expenses of the Engineering Services segment. General and administrative expenses in our Homeland Security Services Segment remained flat. General and administrative expenses as a percentage of contract revenue decreased to 32.4% for the three months ended June 27, 2014 as compared to 40.7% for the three months ended June 28, 2013.

Of the \$0.4 million increase in general and administrative expenses, approximately \$0.3 million relates to an increase in other general and administrative expenses. The remaining \$0.1 million increase is attributable to an increase in salaries and wages, payroll taxes and employee benefits. The increase in employee related costs primarily resulted from increased headcount.

Income from operations. As a result of the above factors, our operating income was \$1.9 million for the three months ended June 27, 2014 as compared to operating income of \$0.7 million for the three months ended June 28, 2013. Income from operations as a percentage of contract revenue was 7.2% for the three months ended June 27, 2014, as compared to 3.5% in the prior year period.

Other income (expense). Other income, net was \$16,000 for the three months ended June 27, 2014, as compared to other expense, net of \$38,000 for the three months ended June 28, 2013.

Income tax expense (benefit). Income tax expense was \$64,000 for the three months ended June 27, 2014, as compared to an income tax benefit \$8,000 for the three months ended June 28, 2013.

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Net income. As a result of the above factors, our net income was \$1.9 million for the three months ended June 27, 2014, as compared to a net income of \$0.7 million for the three months ended June 28, 2013.

Six Months Ended June 27, 2014 Compared to Six Months Ended June 28, 2013

Contract revenue. Our contract revenue was \$49.7 million for the six months ended June 27, 2014, with \$18.4 million attributable to the Engineering Services segment, \$24.1 million attributable to the Energy Efficiency Services segment, \$5.2 million attributable to the Public Finance Services segment, and \$2.0 million attributable to the Homeland Security Services segment. Consolidated contract revenue for the six months ended June 27, 2014 increased \$7.8 million, or 18.6%, to \$49.7 million from \$41.9 million for the six months ended June 28, 2013, reflecting an increase of \$6.1 million, or 34.1%, in contract revenue for the Energy Efficiency Services segment.

Table of Contents

Contract revenue increased by \$1.5 million, or 8.9% and \$0.3 million, or 5.3%, for our Engineering Services and Public Finance Services segments, respectively. Contract revenue for our Homeland Security Services segment decreased by \$0.1 million, or 5.1% to \$2.0 million for the six months ended June 27, 2014 from \$2.1 million for the six months ended June 28, 2013.

Contract revenue for the Energy Efficiency Services segment increased primarily because of increased demand for energy efficiency services in the states of New York and California. Contract revenue for the Engineering Services segment increased primarily due to greater demand for our city engineering services in northern California and our building and safety, construction management and geotechnical services. Revenue in the Homeland Security Services segment decreased due to slightly lower levels of activity in the traditional planning, training and exercise consulting services business.

Direct costs of contract revenue. Direct costs of contract revenue were \$29.5 million for the six months ended June 27, 2014, with \$10.3 million attributable to the Engineering Services segment, \$15.8 million attributable to the Energy Efficiency Services segment, \$2.1 million attributable to the Public Finance Services segment, and \$1.3 million attributable to the Homeland Security Services segment. Overall, direct costs increased by \$6.0 million, or 25.7%, to \$29.5 million for the six months ended June 27, 2014, from \$23.5 million for the six months ended June 28, 2013. This increase is primarily attributable to an increase in direct costs within our Energy Efficiency Services segment of \$4.7 million, or 42.8% for the six months ended June 27, 2014. Direct costs of contract revenue also increased within our Engineering Services and Public Finance segments by \$1.3 million, or 14.1%, and \$0.1 million, or 6.8%, respectively. Such increases were partially offset by a decrease in direct costs of contract revenue of \$0.1 million, or 8.3%, in our Homeland Security Services segment.

Direct costs increased primarily as a result of an increase in subconsultant services (used primarily by our Energy Efficiency Services segment) and other direct costs of \$4.8 million. Salaries and wages also increased by \$1.2 million. Salaries and wages decreased to 26.6% of contract revenue for the six months ended June 27, 2014 from 28.6% for the six months ended June 28, 2013 and subconsultant services increased to 32.8% of contract revenue for the six months ended June 27, 2014 from 27.5% of contract revenue for the six months ended June 28, 2013. Subconsultant services increased primarily because of increased use of subconsultant services to perform certain energy efficiency, sustainability and renewable energy services of our subsidiary Willdan Energy Solutions, which generally utilizes a higher percentage of subconsultants than our other subsidiaries.

General and administrative expenses. General and administrative expenses decreased by \$0.3 million, or 1.9%, to \$16.9 million for the six months ended June 27, 2014 from \$17.2 million for the six months ended June 28, 2013. This reflected decreases of \$0.3 million, \$0.4 million, and \$0.1 million in general and administrative expenses of the Energy Efficiency Services, the Engineering Services and the Homeland Security Services segments, respectively, partially offset by increases of \$0.1 million and \$0.3 million in the general and administrative expenses of our Public Finance Services segment and our corporate offices. General and administrative expenses as a percentage of contract revenue was 34.1% for the six months ended June 27, 2014 as compared to 41.1% for the six months ended June 28, 2013.

Of the \$0.3 million decrease in general and administrative expenses, approximately \$0.2 million resulted from decreases in salaries and wages, payroll taxes and employee benefits, (primarily as a result of cost control measures and a decrease in non-chargeability of labor) partially offset by an increase in other general and administrative expenses. As discussed above under Components of Income and Expense Direct Costs of Contract Revenue, we do not allocate that portion of salaries and wages not related to time spent directly generating revenue to direct costs of contract revenue. The remaining \$0.1 million decrease is attributable to decreases in facility and facilities related expenses.

Income from operations. As a result of the above factors, our operating income was \$3.3 million for the six months ended June 27, 2014, as compared to an operating income of \$1.1 million for the six months ended June 28, 2013. Income from operations as a percentage of contract

Edgar Filing: Willdan Group, Inc. - Form 10-Q

revenue was 6.6% for the six months ended June 27, 2014, as compared to income from operations as a percentage of contract revenue of 2.8% in the prior year period.

Other income (expense). Other income, net was \$63,000 for the six months ended June 27, 2014, as compared to \$(47,000) for the six months ended June 28, 2013. The increase is primarily the result of lower interest expense due to decreased borrowings under our line of credit.

Table of Contents

Income tax expense. We recorded an income tax expense of \$108,000 for the six months ended June 27, 2014, as compared to an income tax expense of \$41,000 for the six months ended June 28, 2013.

Net income. As a result of the above factors, our net income was \$3.2 million for the six months ended June 27, 2014 compared to a net income of \$1.1 million for the six months ended June 28, 2013.

Liquidity and Capital Resources

We had \$12.1 million of cash and cash equivalents as of June 27, 2014. Our primary sources of liquidity are cash generated from operations and our revolving line of credit with BMO Harris Bank, N.A., which matures on March 24, 2016. While we believe that our cash and cash equivalents on hand, cash generated by operating activities and funds available under our line of credit will be sufficient to finance our operating activities for at least the next 12 months, if we do experience a cash flow shortage or violate the current terms of our credit agreement, we may have difficulty obtaining additional funds on favorable terms, if at all, to meet our obligations as they come due in the normal course of business.

Cash flows from operating activities

Cash flows provided by operating activities were \$4.4 million for the six months ended June 27, 2014, as compared to \$2.0 million for the six months ended June 28, 2013. The cash flows provided by operating activities in the six months ended June 27, 2014 were comparatively higher than the prior year period due primarily to a higher net income, a larger decrease in prepaid expenses and other current assets, and increases in accounts payable and accrued liabilities, partially offset by a smaller decrease in accounts receivable and a larger increase in costs and estimated earnings in excess of billings on uncompleted contracts.

Cash flows from investing activities

Cash flows used in investing activities were \$0.3 million for the six months ended June 27, 2014 as compared to \$0.1 million for the six months ended June 28, 2013. Cash used in investing activities reflects purchases of equipment and leasehold improvements.

Cash flows from financing activities

Cash flows used in financing activities were \$0.1 million for the six months ended June 27, 2014 compared to cash flows used in financing activities of \$3.5 million for the six months ended June 28, 2013. The cash flows used in financing activities for the six months ended June 27, 2014 were primarily attributable to payments on notes payable, partially offset by principal payments on capital leases and proceeds from stock option exercise. Cash used in financing activities for the six months ended June 28, 2013 was primarily attributable to the repayment of borrowings under our prior credit facility with Wells Fargo.

Outstanding indebtedness

Revolving Credit Facility: On March 20, 2014, we amended our credit agreement with Wells Fargo Bank N.A. to reduce the size of the facility from \$5.0 million to \$75,905 and extended its maturity from April 1, 2014 to June 1, 2014. On July 1, 2014, we further extended the maturity on the letter of credit to June 30, 2015. As of June 27, 2014, there were no outstanding borrowings under this agreement as and we were in compliance with each of our covenants under the Wells Fargo credit agreement. We amended the Wells Fargo credit facility in connection with entering into a new credit facility with BMO Harris Bank, N.A. (*BMO*).

We currently have a revolving credit agreement with BMO Harris Bank, N.A. (*BMO*), which was entered into on March 24, 2014 and became effective as of March 24, 2014. Our credit agreement with BMO provides for a revolving line of credit of up to \$7.5 million, subject to a borrowing base calculation, including a \$5.0 million standby letter of credit sub-facility and a \$2.5 million secured term loan. All borrowings under the revolving line of credit are limited to a borrowing base equal to roughly 75% of the eligible accounts receivable plus 50% of the lower of cost or market value of our eligible inventory, each term as defined in the credit agreement. As of June 27, 2014, \$7.5 million was available for borrowing and there were no outstanding borrowings under the revolving line of credit. The line of credit matures on March 24, 2016. Loans made under the revolving line of credit will accrue interest at either (i) a floating rate equal to 0.75% above the base rate in effect from time to time or (ii) a floating rate equal to 1.75% above LIBOR, with the interest rate to be selected by us.

Table of Contents

Borrowings under the revolving line of credit are guaranteed by all of our subsidiaries (the Guarantors) and secured by all of our and the Guarantors' accounts receivable and other rights to payment, general intangibles, inventory and equipment. Pursuant to the credit agreement, we also must pay a fee of up to 0.3% on unused commitments and customary fees on any letters of credit drawn under the facility.

The credit agreement contains customary representations and affirmative covenants, including financial covenants that require us to maintain (i) a maximum total leverage ratio, measured as total funded debt (measured as the sum of all obligations for borrowed money, including subordinated debt, plus all capital lease obligations) plus capital leases plus financial letters of credit divided by a trailing twelve month EBITDA (as defined in the credit agreement) measured on a rolling basis) of not more than 2.00; (ii) a minimum fixed charge coverage ratio (measured as the sum of EBITDA plus rent expense less unfinanced capital expenditures divided by the sum of rent expense plus principal payments plus cash taxes plus cash interest plus restricted payments plus distributions) of not less than 1.25; and (iii) a minimum tangible net worth of at least 85% of actual tangible net worth for the last financial statements received prior to the closing date of the agreement, with step ups in an amount equal to 50% of net income (if positive) for each fiscal quarter ending thereafter (no add-back for losses).

The credit agreement also includes customary negative covenants, including (i) restrictions on the incurrence of additional indebtedness by us or the Guarantors other than indebtedness existing on the date of the credit agreement, (ii) restrictions on the total consideration for all permitted acquisitions (including potential future earn-out obligations) shall not exceed \$2.5 million during the term of the agreement and the total consideration for any individual permitted acquisition shall not exceed \$750,000 without BMO's consent, and (iii) limitations on asset sales, mergers and acquisitions. In addition, the credit agreement includes customary events of default. Upon the occurrence of an event of default, the interest rate may be increased by 2.0%, BMO has the option to make any loans then outstanding under the credit agreement immediately due and payable, and BMO is no longer obligated to extend further credit to us under the credit agreement.

Loans made under the Wells Fargo credit facility during fiscal year 2013 accrued interest at a floating rate of LIBOR plus 2.25%. We also were required to pay a 0.25% fee on unused commitments and customary fees on any letters of credit drawn under the facility. There were no outstanding borrowings under the Wells Fargo credit facility as of June 27, 2014 and we were in compliance with each of our covenants under the Wells Fargo credit agreement as of June 27, 2014.

Contractual obligations

We had no material changes in commitments for long-term debt obligations, operating lease obligations or capital lease obligations as of June 27, 2014, as compared to those disclosed in our table of contractual obligations included in our Annual Report on Form 10-K for the year ended December 27, 2013.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Recent Accounting Pronouncements

As of June 27, 2014, the impact of recent accounting pronouncements on the Company is not expected to be material to the consolidated financial statements.

Table of Contents

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

In addition to current and historical information, this report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our future operations, prospects, potential products, services, developments and business strategies. These statements can, in some cases, be identified by the use of words like may, will, should, could, would, intend, plan, anticipate, believe, estimate, predict, project, potential, or continue or the negative of such terms or other comparable terminology. This report includes, among others, forward-looking statements regarding our:

- Expectations about future customers;

- Expectations about expanded service offerings;

- Expectations about our ability to cross-sell additional services to existing clients;

- Expectations about our intended geographical expansion;

- Expectations about our ability to attract executive officers and key employees;

- Evaluation of the materiality of our current legal proceedings; and

- Expectations about positive cash flow generation and available cash and cash equivalents being sufficient to meet normal operating requirements.

These statements involve certain known and unknown risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. Such risks and uncertainties include, among others, those listed in this report. The forward-looking statements in this report, as well as subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf, are hereby expressly qualified in their entirety by the cautionary statements in this report, including the risk factors in our Annual Report on Form 10-K for the year ended December 27, 2013. We do not intend, and undertake no obligation, to update any of our forward-looking statements after the date of this report to reflect actual results or future events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, exchange rates, commodity prices, equity prices and other market changes. Market risk is attributed to all market risk sensitive financial instruments, including long-term debt.

We had cash and cash equivalents of \$12.1 million as of June 27, 2014. This amount includes \$4.5 million invested in the Wells Fargo Stage Coach Sweep Investment Account and \$5.0 million invested in the Wells Fargo Collateral Investment Account. The balance of \$2.6 million represents cash on hand in business checking accounts. Although these investments are subject to variable interest rates, we do not believe we are subject to significant market risk for these short-term investments.

We do not engage in trading activities and do not participate in foreign currency transactions or utilize derivative financial instruments. As of June 27, 2014, we had no outstanding debt under our revolving credit facility that bears interest at variable rates.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures defined in Rule 13a-15(e) under the Exchange Act, as controls and other procedures that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to our management, including our President and Chief Executive Officer, Thomas Brisbin, and our Chief Financial Officer, Stacy McLaughlin, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

In connection with the preparation of this Quarterly Report, an evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of June 27, 2014. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, as of June 27, 2014. No change in our internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to claims and lawsuits from time to time, including those alleging professional errors or omissions that arise in the ordinary course of business against firms, like ours, that operate in the engineering and consulting professions. We carry professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of a loss.

In accordance with accounting standards regarding loss contingencies, we accrue an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated, and we disclose the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements not to be misleading. We do not accrue liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote.

Because litigation outcomes are inherently unpredictable, our evaluation of legal proceedings often involves a series of complex assessments by management about future events and can rely heavily on estimates and assumptions. If the assessments indicate that loss contingencies that could be material to any one of our financial statements are not probable, but are reasonably possible, or are probable, but cannot be estimated, then we disclose the nature of the loss contingencies, together with an estimate of the possible loss or a statement that such loss is not reasonably estimable. While the consequences of certain unresolved proceedings are not presently determinable, and a reasonable estimate of the probable and reasonably possible loss or range of loss in excess of amounts accrued for such proceedings cannot be made, an adverse outcome from such proceedings could have a material adverse effect on our earnings in any given reporting period. However, in the opinion of our management, after consulting with legal counsel, and taking into account insurance coverage, the ultimate liability related to current outstanding claims and lawsuits is not expected to have a material adverse effect on our financial statements.

City of Glendale v. Willdan Financial Services, Superior Court of California, Los Angeles County

A complaint was filed against us on July 16, 2014 relating to a project performed by Willdan Financial Services to prepare a Cost of Services Analysis (a COSA) for the Department of Water and Power of the City of Glendale, California (the City of Glendale). The purpose of the COSA was to assist the City of Glendale in setting water rates for property owners. The lawsuit alleges that the City of Glendale suffered damages due to mistakes in the COSA, as follows: the City of Glendale received less revenue than anticipated in an amount exceeding \$9,000,000; the City of Glendale was required to retain another consultant to prepare a new COSA at the cost of \$130,000; and the City of

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Glendale incurred costs associated with noticing and conducting public hearings at a cost of \$83,052. We deny the allegations asserted in the lawsuit and will vigorously defend against the claims. Additionally, this matter is covered by our professional liability insurance policy.

Item 1A. Risk Factors

There are no material changes to the risk factors set forth in Item 1A. Risk Factors, of our Annual Report on Form 10-K for the year ended December 27, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
