Press release

Mobile TeleSystems Announces Financial Results for the Second Quarter Ended June 30, 2014

August 20, 2014

Moscow, Russian Federation Mobile TeleSystems OJSC (MTS - NYSE: MBT), the leading telecommunications provider in Russia and the CIS, today announces its unaudited US GAAP financial results for the three months ended June 30, 2014.

Key Financial Highlights of Q2 2014

- Consolidated Group revenues increased 1.4% y-o-y to RUB 98.9 billion
- Mobile service revenue in Russia rose 6.3% y-o-y to RUB 70.9 billion
- Data traffic revenue in Russia grew 39.7% y-o-y to RUB 15.3 billion
- Fixed-line revenue in Russia grew 2.6% q-on-q to RUB 15.6 billion
- Consolidated Group OIBDA net of one-off effect due to compensation for the settlement over Bitel LLC(1) down 0.6% y-o-y to RUB 43.2 billion
- Group OIBDA margin net of one-off effect due to compensation for the settlement over Bitel LLC fell slightly 0.9 pp to 43.7%

- Consolidated net income⁽²⁾ of RUB 21.1 billion
- Free cash-flow from continuing operations⁽³⁾ adjusted for the compensation for the settlement over Bitel LLC increased 12.0% to RUB 46.0 billion for the six months ended June 30, 2014

Key Corporate and Industry Highlights

- MTS's brand was included in the BrandZ Top 100 Most Valuable Global Brands 2014 ranking for the seventh consecutive year and placed ninth among the Top 10 leading telecommunications brands in the world. MTS ranked #80 overall among the top 100 global brands.
- Acquired a 10.82% stake in Ozon Holdings (Ozon), the leading Russian e-commerce company
- Sold a remaining 49% stake in Business-Nedvizhimost CJSC to Sistema JSFC for RUB 3.1 billion
- Redeemed the remaining amount of RUB 15.0 billion series 04 bond
- Completed dividend payment of RUB 18.6 per ordinary MTS share (RUB 37.2 per ADR), or a total of RUB 38.4 billion, based on the full-year 2013 financial results.
- Launched LTE networks in 25 regions throughout Russia

(1) See Attachment A for definitions and reconciliation of OIBDA and OIBDA margin to their most directly comparable US GAAP financial measures.

(2) Attributable to the Group.

(3) See Attachment B for reconciliation of free cash-flow to net cash provided by operating activity.

Edgar Filing: MOBILE TELESYSTEMS OJSC - Form 6-K

- Semi-annual dividend recommendation by the MTS Board of RUB 6.2 per ordinary MTS share (RUB 12.4 per ADR) amounting to the total of RUB 12.8 billion on the basis of the H1 2014 results. The EGM to approve the dividends will be held on September 30, 2014
- Signed a settlement agreement with the Republic of Uzbekistan, which may allow the Company to relaunch operations through a joint venture with the government of Uzbekistan
- Moody's Investor Service has upgraded MTS's senior unsecured issuer rating from Ba2 to Baa3 with a stable outlook. This represents a two-notch upgrade and classifies MTS as investment grade
- Standard & Poor's Ratings Services raised MTS's corporate credit rating to BBB- from BB+ . The outlook on the foreign currency rating is negative and that on the local currency rating is stable. Ratings on the Company's senior unsecured debt were raised to BBB- from BB+ . This represents a one-notch upgrade and classifies MTS as investment grade

Commentary

Mr. Andrei Dubovskov, President and CEO of MTS, During the quarter we increased our Group revenues by 1.4% year-over-year to RUB 98.9 billion. We realized strong growth in our core Russian market and saw positive dynamics in Ukraine, Armenia and Turkmenistan despite macroeconomic issues. Growth in our markets, however, was offset by significant hryvna depreciation in Ukraine, while in Armenia, slight year-on-year weakness was mitigated by strong sequential growth.

Mr. Vasyl Latsanych, MTS Vice President for Marketing, said, In Q2, our Russian business grew 4.5% year-over-year to RUB 90.4 billion. Driving this growth were exceptionally strong mobile service revenues, which increased by 6.3% year-over-year. Key drivers included: greater adoption of data plans as smartphone penetration among our active subscribers reached 37.0%; upselling existing subscribers on data plans; increase in the subscriber base as we added 5.6 million subscribers during the year; and stable churn dynamics. We continued to see greater challenges in our Ukraine business unit, but we delivered growth year-over-year. In local currency, its revenues grew 2% year-over-year UAH 2.6 billion as MTS expanded its subscriber base.

Mr. Alexey Kornya, MTS Vice President and Chief Financial Officer, said, In Q2 2014, Group OIBDA declined by 2.6% year-over-year to over RUB 43.2 billion. In the second quarter of 2013 we realized one-off gain related to the compensation we received for the settlement over Bitel LLC. Without this effect, our OIBDA declined by 0.6%. The decline was largely attributable to macroeconomic factors impacting our business in Ukraine and greater G&A expenses due to roll-out of our mobile and fixed networks in Russia. Our OIBDA margin net of the Bitel LLC settlement declined year-over-year by merely 0.9pp to 43.7%. In Russia, OIBDA grew by 2.8% year-over-year to RUB 40.3 billion. This reflects our sustained revenue growth and increased share of high-margin data revenues in the revenue mix. In Ukraine, OIBDA declined by 3.1% to nearly UAH 1.3 billion. During the quarter, profitability was pressured by an increase in frequency fees and higher electricity costs. We also saw a currency devaluation effect as some of cost items, including roaming and SIM cards, are denominated in non-hryvna currencies.

He continued, For the period, Group net income from continuing operations increased Q-o-Q by 61.9% to RUB 21.1 billion. Primarily we benefitted from a non-cash FOREX gain in the amount of RUB 4.2 billion due to ruble appreciation versus the previous quarter. Operating cash

Edgar Filing: MOBILE TELESYSTEMS OJSC - Form 6-K

flow from continuing operations for the first six months of 2014 increased slightly by 2.7% relative to the same period in 2013. Free cash flow for the first six months of 2013 adjusted for compensation for the settlement over Bitel LLC received in Q2 2013 increased by 12.0% year-over-year.

Mr. Andrei Dubovskov, President and CEO of MTS, added, "For now, as our results indicate, our business remains strong. However, macroeconomic weakness and uncertain political environment in Ukraine, however, force us to alter our full year guidance. While we expect Russia still to grow at the high end of our initial guidance of 3-5%, developments in Ukraine will limit Group growth to at least 1% in revenue for 2014. We should anticipate stable OIBDA year-over-year. Growth in our Russian markets will be offset by the decrease in profitability in our non-Russian assets, as well as the absence of certain positive one-offs we realized in 2013. Our CAPEX spending too should come in at 90 billion rubles, which is consistent with the guidance we gave at the beginning of the year."

Additional Information

MTS continues to see sustained macroeconomic volatility in its markets of operations that may impact the financial and operational performance throughout the Group

This press release provides a summary of some of the key financial and operating indicators for the period ended June 30, 2014. For full disclosure materials, please visit <http://www.mtsgsm.com/resources/reports/>.

**Attachments to the Second Quarter 2014
Earnings Press Release**

Attachment A

Non-GAAP financial measures. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP. Due to the rounding and translation practices, Russian ruble and functional currency margins, as well as other non-GAAP financial measures, may differ.

Operating Income before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. OIBDA may not be similar to OIBDA measures of other companies, is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations and comprehensive income. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of mobile operators and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA can be reconciled to our consolidated statements of operations as follows:

Group (RUB mln)	Q2 13	Q3 13	Q4 13	Q1 14	Q2 14

Definitions

Subscriber. We define a subscriber as an individual or organization whose account shows chargeable activity within sixty one days in the case of post-paid tariffs, or one hundred and eighty three days in the case of our pre-paid tariffs, or whose account does not have a negative balance for more than this period.

Average monthly service revenue per subscriber (ARPU). We calculate our ARPU by dividing our service revenues for a given period, including interconnect, guest roaming fees and connection fees, by the average number of our subscribers during that period and dividing by the number of months in that period.

Average monthly minutes of usage per subscriber (MOU). MOU is calculated by dividing the total number of minutes of usage during a given period by the average number of our subscribers during the period and dividing by the number of months in that period.

Churn. We define our churn as the total number of subscribers who cease to be a subscriber as defined above during the period (whether involuntarily due to non-payment or voluntarily, at such subscriber's request), expressed as a percentage of the average number of our subscribers during that period.

Subscriber acquisition cost (SAC). We define SAC as total sales and marketing expenses and handset subsidies for a given period. Sales and marketing expenses include advertising expenses and commissions to dealers. SAC per gross additional subscriber is calculated by dividing SAC during a given period by the total number of gross subscribers added by us during the period.
