Services revenues amounted to \$24,968 (+21.4% vs. 9M14) and represented 87.3% of consolidated revenues (vs. 85.1% in 9M14). Equipment revenues slightly increased amounting to \$3,622 and represented 12.7% of consolidated revenues (vs. 14.9% in 9M14).

Fixed Services

During 9M15, services revenues generated by this segment amounted to \$7,676 (+\$1,478 or 23.8% vs. 9M14), where Internet revenues have grown the most (+\$928 or +39.6% vs. 9M14), followed by voice retail services (+\$270 or +12.8% vs. 9M14) and data transmission services (+\$227 or +21.4% vs. 9M14).

Ø Voice

Voice retail revenues reached \$2,379 in 9M15 (+12.8% vs. 9M14). These revenues are still affected by tariffs of regulated services. Revenues from regulated services reached approximately 26% of the segment services revenues in 9M15 (vs. 29% in 9M14).

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Monthly Charges and Supplementary Services increased \$97 or +10.8% vs. 9M14, reaching \$992, as a consequence of an increase in supplementary services (not regulated), mainly due to an increase of their prices and, to a lesser extent, to the increase in the subscriber base. It also includes higher monthly charges to commercial, professional and government customers amounting to \$49.

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$1,315 (+\$184 or 16.3% vs. 9M14). The increase was mainly due to the increase in plans prices (both in local and long national distance), while customers remain stable. According to this, local measured service revenues increased 24.5% vs. 9M14 and DLD revenues increased 11.4% vs. 9M14. The Average Monthly Revenue per User (ARBU) amounted to \$64.8 pesos per month in 9M15 vs. \$56.5 pesos per month amounted in 9M14, representing an increase of 14.8%. The remaining retail voice revenues amounted to \$72 in 9M15 (-13.3% vs. 9M14). The decrease was mainly due to a decrease in customers and consumption of public telecommunication services and a decrease in customers rehabilitation charges.

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$105) amounted to \$734 in 9M15 (+7.8% vs. 9M14). Interconnection fixed and mobile revenues amounted to \$484 and the other wholesale revenues amounted to \$250 in 9M15 (+9.6% vs. 9M14), mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

Ø **Data**

Data revenues (including the revenues generated by the subsidiary Telecom USA amounting to \$4) amounted to \$1,290 (+\$227 or +21.4% vs. 9M14). These revenues were generated focusing on the Company's position as an integrated TIC provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was primarily due to higher prices of these services related to the variation of the \$/US\$ exchange rate and to the increase in the number of customers of *Innovation* services (particularly *Integra*, which increased \$15 or +7.1% vs. 9M14).

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2015

Table of Contents

TELECOM ARGENTINA S.A.

Ø **Internet**

Internet revenues amounted to \$3,273 (+\$928 or +39.6% vs. 9M14) mainly due to the expansion of the Broadband customers (+3.1% vs. 9M14) and an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$199 pesos per month in 9M15 vs. \$148.1 pesos per month in 9M14 (+34.6% vs. 9M14). As of September 30, 2015, Telecom Argentina reached approximately 1,804,000 ADSL customers. These connections represent approximately 44.5% of Telecom Argentina s fixed lines in service (vs. 42.6% in 9M14). The churn rate per month amounted to 1.4% in 9M15 (vs. 1.3% in 9M14).

Internet revenues represent 13.1% of consolidated services revenues (vs. 11.4% in 9M14) and 42.6% of Fixed Services segment services revenues (vs. 37.8% in 9M14).

Personal Mobile Services

During 9M15, total services revenues amounted to \$16,163 (+\$2,891 or 21.8% vs. 9M14), being the principal business segment in revenues terms (64.7% and 64.5% of services consolidated revenues in 9M15 and 9M14, respectively). Personal reached 19.4 million subscribers in Argentina (-1.6% vs. 9M14). Approximately 68% of the subscriber base is prepaid subscribers and 32% is postpaid subscribers (including Cuentas claras plans and Mobile Internet dongles). The churn rate per month amounted to 3.1% in 9M15 (vs. 3.0% in 9M14).

Ø **Voice**

Voice retail revenues amounted to \$5,109 in 9M15 (+33.4% vs. 9M14). The increase was mainly due to the increase in monthly charges prices for the postpaid and Cuentas claras subscribers and prepaid services, offset by the net variation of the subscribers base, showing an increase in Cuentas claras subscribers base (+4.5% vs. 9M14) and a decrease in postpaid subscribers base (-6.4% vs. 9M14) and prepaid subscribers base (-2.1% vs. 9M14).

Voice wholesale revenues amounted to \$1,395 in 9M15 (-4.2% vs. 9M14), mainly due to the decrease in interconnection traffic volume (especially TLRD and CPP).

Ø **Data**

Mobile data services revenues amounted to \$5,376 (-\$316 or -5.6% vs. 9M14). The decrease was due to lower revenues from the principal item of VAS revenues, SMS consumption, which decreased \$491 as compared to 9M14 (-14.3%), showing a decrease in TOU (-44.6% vs. 9M14) and an increase in such services prices for Cuentas claras and postpaid subscribers. Notwithstanding, this effect was partially offset with a constant increase of the SMS with content sales, as a result of several campaigns launched by Personal, which represented an inter-annual increase of \$189 or +9%.

Ø **Internet**

Mobile Internet revenues amounted to \$4,283 (+\$1,989 or +86.7% vs. 9M14). This increase is mainly explained by the increase in browsing services consumption of Personal's subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers, the migration of the existing ones to higher-value plans and the increase of subscribers that acquired 3G handsets, which facilitate Internet browsing in all subscribers' segments. Internet flat rate services revenues have decreased mainly due to the decrease of Mobile Internet dongles subscribers (-37.7% vs. 9M14).

As a consequence of the increase in monthly charges tariffs and Internet consumption, ARPU increased to \$88.8 pesos per month in 9M15 (vs. \$71.7 pesos per month in 9M14), which represents an increase of 23.8%.

VAS revenues (data and Internet) amounted to \$9,659 (+20.9% vs. 9M14) and represented 59.8% of Personal Mobile Services' services revenues (vs. 60.2% in 9M14).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$1,129 during 9M15 (+\$31 or 2.8% vs. 9M14) mainly due to the Internet revenues increase (+20.9% vs. 9M14), mainly related to the increase of browsing generated by subscribers with mobile equipment prepared for that purpose. As of September 30, 2015, Núcleo's subscriber base reached 2.5 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 80% and 20% in 9M15, respectively.

VAS revenues (data and Internet) amounted to \$608 (+6.9% vs. 9M14) and represented 53.9% of Núcleo Mobile Services segment services revenues (vs. 51.8% in 9M14).

Table of Contents**TELECOM ARGENTINA S.A.**

The Telecom Group's services revenues increased 21.4%. Internet services revenues from all segments have maximized Telecom Group's services revenues showing a 60.2% increase vs. 9M14, increasing the relative weight over total services revenues according to the following table:

	<u>Nine-month periods ended</u> <u>September 30,</u>				<u>9M15 vs.</u> <u>9M14</u> <u>%</u> <u>variation</u>
	<u>2015</u>	<u>%</u>	<u>2014</u>	<u>%</u>

Internet	7,944	32	4,960	24	60.2
Total service revenues	24,968	100	20,568	100	21.4

Equipment

Revenues from equipment amounted to \$3,622, +\$7 or +0.2% vs. 9M14. The Personal Mobile Services segment shows a decrease of \$47 vs. 9M14 due to lower handsets sold (-35% vs. 9M14) but with an increase in handset's average sale prices (+52% vs. 9M14), resulting in a higher operating margin of handsets (+\$350 or +67.8% vs. 9M14). Núcleo Mobile Services segment reached an increase of \$50 (+89.3% vs. 9M14) due to higher sales of handsets (+72% vs. 9M14) but with a decrease in handset's average sale prices (-16% vs. 9M14).

- Operating costs**

Consolidated operating costs including depreciations, amortizations and gain on disposal of PP&E and impairment of PP&E totaled \$24,146 in 9M15, which represents an increase of \$3,766 or +18.5% vs. 9M14. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase of VAS costs, the increase in bad debt expenses, higher provisions costs, higher agent commissions and higher depreciation and amortization of PP&E and intangible assets, which were partially offset by lower costs of equipment and handsets of \$345.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$5,292 (+\$1,290 or +32.2% vs. 9M14). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 16,269 by the end of 9M15 (vs. 16,540 employees in 9M14), lines in service per employee reached 373 in the Fixed Services segment (+0.8% vs. 9M14), subscribers per employee reached 3,884 in the Personal Mobile Services segment (-1.3% vs. 9M14) and subscribers per employee reached 6,186 (+6.3% vs. 9M14) in the Núcleo Mobile Services segment.

Employee benefit expenses and severance payments represents in 9M15 18.5% of consolidated revenues (vs. 16.5% in 9M14).

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF SEPTEMBER 30, 2015

Table of Contents

TELECOM ARGENTINA S.A.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$1,559 (+\$23 or +1.5% vs. 9M14). The increase was mainly due to higher TLRD costs offset by lower traffic volume in roaming vs. 9M14.

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$ 2,860, +\$378 or +15.2% vs. 9M14. The increase was mainly due to higher maintenance costs of radio bases and buildings in the mobile services segments, as a result of the variation in the \$/US\$ exchange rate, an increase in technical assistance cost of radio bases, higher costs of building maintenance, higher costs of sites location and storage costs. There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$2,841 (+18.4% vs. 9M14), influenced mainly by the increase in revenues of fixed and mobile services and by the increase of the IDC related to higher collections and payments to suppliers in 9M15 vs. 9M14.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$2,976 (+\$555 or +22.9% vs. 9M14). The increase was mainly due to the increase in Agents' commissions (associated to higher revenues) as a result of higher customer's acquisition and retention costs recognized to them and the increase of outsourced sales commissions and collection commissions related to higher cash flows as compared to 9M14.

On the other hand, agent commissions capitalized as SAC amounted to \$781, +\$147 or +23.2% vs. 9M14, and it is directly related to the increase in the Cuentas claras subscribers base in the Personal Mobile Services segment and the increase in the commissions prices.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$2,857 (-\$345 or -10.8% vs. 9M14) mainly due to a decrease in the units of handsets sold (-35% vs. 9M14), partially offset by an increase in the average unit cost of sales (+32% vs. 9M14) in the Personal Mobile Services segment.

On the other hand, SAC deferred costs from handsets sold amounted to \$66, -\$17 or -20.5% vs. 9M14. The lower capitalized amount was mainly due to the significant reduction of subsidies provided to customers in the Personal Mobile Services segment, especially in the postpaid segment.

Advertising

Advertising amounted to \$591 (+\$79 or +15.4% vs. 9M14), mainly due to higher commercial campaigns of Personal related to the launching of the 4G services throughout the country as compared to 9M14, especially those related to the new slogan *Hagamos que todo suceda* (*Let's make it all happen*).

Cost of VAS

Cost of VAS amounted to \$910 (+\$231 or +34.0% vs. 9M14). The increase was mainly due to the increase of VAS sales in the Personal Mobile Services segment, especially the SMS with content service, which grew as a consequence of several campaigns launched by Personal. Cost of VAS over its related revenues increased from 30% in 9M14 to 36% in 9M15.

Provisions

Provisions amounted to \$174, +\$72 or +70.6% vs. 9M14. The increase was mainly due to higher labor claims (+\$32 vs. 9M14), higher civil and commercial claims (+\$34 vs. 9M14) and higher regulatory and municipal contingencies (+\$6 vs. 9M14).

Table of Contents

TELECOM ARGENTINA S.A.

Bad debt expenses

Bad debt expenses amounted to \$410 (+\$83 or +25.4% vs. 9M14), representing approximately 1.4% of the consolidated revenues in 9M15 and 9M14. The major increase is observed in the Personal Mobile Services segment as a consequence of higher aging of the accounts receivables and higher incidence of handset sales directly financed by Personal to its postpaid and Cuentas claras subscribers. The mentioned increase was partially offset by a \$19 decrease of these expenses in the Government and Corporate segment in Telecom Argentina in 9M15 as a consequence of the collections from some governmental entities.

Other operating costs

Other operating costs amounted to \$1,318 (+\$226 or +20.7% vs. 9M14). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses (+\$122 or +30.4% vs. 9M14), among others, in the operations in Argentina; the increase of rent prices (+\$89 or +29.8% vs. 9M14), as a result of new agreements and the renegotiation of some of the existing ones and the increase of the consumption of electricity (+\$38 or +18.0% vs. 9M14).

• **Operating income before depreciation and amortization**

Operating income before depreciation and amortization amounted to \$7,664 (+\$1,478 or 23.9% vs. 9M14), representing 26.8% of consolidated revenues in 9M15 (vs. 25.6% in 9M14). This growth was mainly fueled by the Fixed Services segment (+\$196 or +12.7% vs. 9M14) and Personal Mobile Services segment (+\$1,286 or +30.5% vs. 9M14).

Operating income before depreciation and amortization generated by equipment and handset sales (including SAC capitalization) amounted to \$831 in 9M15 vs. \$496 in 9M14 (+\$335 or 67.5% vs. 9M14), while operating income before depreciation and amortization generated by services sales amounted to \$6,833 in 9M15 vs. \$5,690 in 9M14 (+\$1,143 or +20.1% vs. 9M14).

Depreciation and amortization

Depreciation and amortization amounted to \$3,154 (+\$800 or +34.0% vs. 9M14). The increase in depreciation and amortization includes \$425 from PP&E depreciation, \$238 from amortization of intangible assets without SAC (mainly 3G/4G Licenses which started their amortization in December 2014 and June 2015 and generated \$227 in 9M15) and \$137 from amortization of SAC and service connection costs. The increase in depreciation and amortization corresponds 24% to the Fixed Services segment and 76% to the mobile services segments.

Gain on disposal of PP&E and impairment of PP&E

Gain on disposal of PP&E increased \$10 vs. 9M14 and an impairment of \$79 related to work in progress was recorded in 9M15 in Personal Mobile Services segment, which includes \$49 mainly related to the mobile pricing system needed for the new management system.

- **Operating income**

Operating income amounted to \$4,459 in 9M15 (+\$616 or 16.0% vs. 9M14). The margin over consolidated revenues represented 15.6% in 9M15 (vs. 15.9% in 9M14). This growth was mainly fueled by the Personal Mobile Services segment (+\$623 or +20.5% vs. 9M14) and the Fixed Services segment (+\$17 or +2.6% vs. 9M14).

- **Financial results, net**

Financial results, net resulted in a net loss of \$192, representing an increase of \$422 vs. 9M14. This net loss is related to the net financial position, which turned into a net financial debt during 2015 as a consequence of the higher Group's investments. The increase was mainly due to higher interests on loans (+\$255 vs. 9M14) and lower financial interest on time deposits and other investments as consequence of the decrease of financial assets (-\$179 vs. 9M14), partially offset by higher interests on receivables (+\$14 vs. 9M14), higher net gains on NDF (+\$9 vs. 9M14) and lower net foreign currency exchange losses (-\$11 vs. 9M14).

- **Net income**

Telecom Argentina reached a net income of \$2,778 in 9M15, +\$94 or +3.5% as compared to 9M14, representing 9.7% of the consolidated revenues in 9M15 (vs. 11.1% in 9M14). Net income attributable to Telecom Argentina amounted to \$2,757 in 9M15, +\$113 or +4.3% as compared to 9M14.

Table of Contents**TELECOM ARGENTINA S.A.**

- Net financial assets**

As of September 30, 2015, net financial debt (Cash and Cash Equivalents plus financial investments minus Financial debt) amounted to \$1,586, showing a decrease of \$5,112 as compared to the net financial asset as of September 30, 2014 (amounting to \$3,526). This variation was mainly due to a decrease in the generation of cash from operating activities of the Telecom Group, mainly by higher CAPEX which include the acquisition of the 3G/4G Licenses amounting \$5,786 as of December 2014 and June 2015 - and cash dividends paid to its shareholders for a total amount of \$861 (including tax withholding on cash dividends). As of September 30, 2015, the Fixed Services segment has a financial asset of \$464 while Personal Mobile Services segment has a net financial debt of \$1,853 and Núcleo Mobile Services segment has a net financial debt of \$197.

- Capital expenditures (CAPEX)**

CAPEX composition for 9M15 and 9M14 is as follows:

	In millions of \$		% of participation		Variation	
	9M15	9M14	9M15	9M14	\$	%
Fixed Services	1,793	1,542	26%	40%	251	16%

Total CAPEX	6,791	3,819	100%	100%	2,972	78%

(*) Include 4G License for an amount of \$2,256 in 9M15.

PP&E CAPEX amounted to \$3,577 and intangible assets CAPEX amounted to \$3,214 in 9M15, while in 9M14 amounted to \$3,035 and \$784, respectively. The increase in intangible assets CAPEX was mainly due to the acquisition of the last Lot of 4G Licenses for an amount of \$2,256 during June 2015.

In relative terms, CAPEX represented 23.8% of consolidated revenues in 9M15 (15.8% in 9M14), and were intended mainly to the already mentioned 4G License (7.9% of consolidated revenues in 9M15), to the external wiring and network access equipment, to the initial deployment of the new 4G network, transmission and switching equipment, computer equipment and SAC.

PP&E and intangible assets additions (CAPEX plus materials additions) for 9M15 and 9M14 are as follows:

	In millions of \$		% of participation		Variation

Consolidated operating costs including depreciation, amortization and gain on disposal of PP&E and impairment of PP&E amounted to \$8,787 in 3Q15, which represented an increase of \$1,404 or 19.0% vs. 3Q14. The increase in costs is mainly a consequence of higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase of VAS costs, the increase in depreciation and amortization of PP&E and intangible assets and higher losses related to PP&E impairment, partially offset by lower equipment and handsets cost (-39% of equipment and handset sold).

8. Outlook

In 4Q15, the evolution of the fixed services segment is expected to continue in line with the trend experienced over the past years and shall be influenced by the level of maturity of the market with focus on increasing the value of the customers' base. In the Broadband business, Arnet continued capturing the growth opportunities the market offers, extending the offer of services with higher speeds and with proposals of overall integrated offers for customers (Internet, the fixed services segment and cellular mobile calls).

As regards pricing in the Fixed Services segment, the Company will continue the correspondent proceedings pursuant to the new rules proposed by the LAD to reach the readjustment of the prices of the regulated services, and with them, of the economic-financial equation of Telecom Argentina (Note 10.k to the consolidated financial statements). The growing pressures over the cost structure of the Company and its investment plans seeking to modernize its infrastructure to provide next-generation services emphasize this need.

Personal's leadership will continue to strengthen by providing new added value services especially in mobile broadband, based on the deployment of the new 4G networks which multiply tenfold the speed of mobile Internet speed in mobility. In this way, as the LTE infrastructure continues to be deployed on a national level, it is expected that our customers will increase their access to content, among others, of the Personal Play platform (music, games and videos), the latter being one of the highest factors for revenue growth.

At the same time, and following with the commitment with quality, the Company expects to continue working to optimize the experience of customers who use the 3G/HSPA+ network, by means of improvements in the network infrastructure made possible as from December 2014 with the acquisition of additional spectrum. In this way, the third generation services will also expand, continuing with the technological reconversion and extension of the capacity of the network.

The infrastructure improvements and the availability of a wide portfolio of advanced devices within the offer will continue to be drivers of higher revenues based on innovative and convenient commercial proposals for those who choose Personal as mobile operator. This assumes favorable conditions for foreign trading, access to the exchange market and financing of LTE equipment, 4G handsets, hardware and software by the Telecom Group and its technological suppliers.

It is foreseen a moderate expansion of the subscribers' base due to the level of maturity and the high penetration of mobile services in the market.

The Telecom Argentina's corporate purpose change authorized by the AFTIC, by adapting it to the LAD provisions (Note 10.i to the consolidated financial statements) will allow the Company to expand its products and a service offer and provides the Company with a better background to improve its position in ICTs and Audiovisual Communication markets.

The strategy implemented by the Management of the Company lays out the basic necessary fundamentals for the Telecom Group to pursue its objectives of continuous improvement of the quality of its services, to strengthen its market position and to improve its operating efficiency in order to satisfy the growing needs of the dynamic telecommunications market, all in compliance with the correspondent laws and regulations. The ambitious investment plans of the Telecom Group are based on this forward-looking vision and on the commitment of the Telecom Group with our country and its people.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation and significant accounting policies**

As required by the CNV for most of public companies, these consolidated financial statements have been prepared in accordance with RT 26 of FACPCE (as amended by RT 29) and in accordance with IFRS as issued by the IASB, as adopted by the CPCECABA.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2014 annual consolidated financial statements which can be consulted at the Company's website (www.telecom.com.ar/inversores).

As of September 30, 2015, entities included in the consolidation process and the respective equity interest owned by Telecom Argentina is presented as follows:

Subsidiaries	Percentage of capital stock owned and voting rights (i)	Indirect control through	Date of acquisition	Segment that consolidates
				(Note 4)
Telecom USA	100.00%		09.12.00	Fixed Services
Micro Sistemas (ii)	99.99%		12.31.97	Fixed Services
Personal	99.99%		07.06.94	Personal Mobile Services
Núcleo (iii)	67.50%	Personal	02.03.98	Núcleo Mobile Services
Personal Envíos (iii)	67.50%	Núcleo	07.24.14	Núcleo Mobile Services

(i) Percentage of equity interest owned has been rounded.

(ii) Dormant entity as of September 30, 2015 and December 31, 2014 and for the nine-month periods ended September 30, 2015 and 2014.

(iii) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A.

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual consolidated financial statements except for Government bonds acquired during 9M15 which are valued at fair

value (Note 2.b)).

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended September 30, 2015 was approved by resolution of the Board of Directors' meeting held on November 2, 2015.

b) Financial statement formats

The financial statement formats adopted are consistent with IAS 1, In particular:

- the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized within twelve months after the period-end;
- the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

TELECOM ARGENTINA S.A.

- the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;
- the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);
- the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LGS and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) Segment reporting

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Telecom Group's Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS as issued by the IASB) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) Net income per share

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

For the nine-month periods ended September 30, 2015 and 2014, the weighted average number of shares outstanding totaled 969,159,605 shares.

Total liabilities		(5,757)
Net liabilities		(4,308)

(i) US\$ = United States dollar; G= Guaraníes; SDR = Special Drawing Rights.

(ii) As foreign currency figures and their amount in Argentine pesos are in millions, the calculation of the amount of the foreign currency by its exchange rate could not be exact.

(iii) Includes 616 corresponding to Government bonds valued at fair value (equivalent to US\$ 46 million).

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

In order to partially reduce this net liability position in foreign currency the Telecom Group, as of September 30, 2015, holds investments adjustable to the variation of the US\$/ exchange rate (dollar linked) by \$894 and mutual funds whose main underlying asset are financial assets dollar linked for a total amount of \$279. So, the net liability position in foreign currency amounted to \$3,135 as of September 30, 2015 (equivalent to US\$ 350 million). Additionally, the Group has entered into several NDF contracts to purchase a total amount of US\$ 183 million (Note 10.b) and the portion of the net liability position in foreign currency not covered amounted to US\$ 167 million as of September 30, 2015.

NOTE 3 SUPPLEMENTARY CASH FLOW INFORMATION

For purposes of the statements of cash flows, cash and cash equivalents comprise cash, bank current accounts and short-term highly liquid investments (with a maturity of three months or less from the date of acquisition) and bank overdrafts, which integrate the Telecom Group's cash management and whose balances fluctuate according to the Group's needs (as happened as of December 31, 2014). Bank overdrafts are disclosed in the statement of financial position as financial debts. During 9M15 bank overdrafts have been part of the permanent short-term financing structure of Personal, so, net funds requests under that method (with maturities less than three months) are included in financing activities.

NOTE 4 SEGMENT INFORMATION

As of September 30, 2014, the Telecom Group carried out its activities through five companies, each identified as an operating segment. In July 2014 it was constituted in Paraguay a new company (Personal Envíos, controlled by Núcleo) which was included in the Núcleo Mobile Services segment since 4Q14. Therefore, as of September 30, 2015, the Telecom Group carries out its activities through six companies which were consolidated by the end of the nine-month period ended September 30, 2015 (Note 1.a).

The Telecom Group has combined the operating segments into three reportable segments: Fixed Services, Personal Mobile Services and Núcleo Mobile Services based on the nature of products provided by the entities and taking into account the regulatory and economic framework in which each entity operates.

Segment financial information for the nine-month periods ended September 30, 2015 and 2014 was as follows:

NOTE 5 RELATED PARTY BALANCES AND TRANSACTIONS

a) Controlling group

Nortel, residing in A. Moreau de Justo 50 - 11th floor Ciudad Autónoma de Buenos Aires, holds 54.74% stake in the Company, meaning that exercises control of the Company in the terms of Art. 33 of Law No. 19,550. As of September 30, 2015, Nortel owns all of the Class A Preferred shares (51% of total shares of the Company) and 7.64% of the Class B Preferred shares (3.74% of total shares of the Company).

As a result of the Company's Treasury Shares Acquisition Process described in Note 7.b) Acquisition of Treasury Shares, as of September 30, 2015, Nortel's equity interest in Telecom Argentina amounts to 55.60% of the outstanding shares. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders' Meetings.

All of the common shares of Nortel belong to Sofora. As of September 30, 2015 these shares represent 78.38% of the capital stock of Nortel.

During 2011, Telecom Italia International N.V. acquired 8% of all Nortel Preferred Class B Shares and Telecom Argentina Class B shares, representing 1.58 % of Telecom Argentina's capital stock, through Tierra Argentea S.A. (Tierra Argentea), its controlled company incorporated in Argentina.

On November 14, 2013, Telecom Italia S.p.A y Telecom Italia International N.V. (jointly, the Sellers) and Tierra Argentea (a company controlled by the Sellers) announced the acceptance of an offer by the Fintech Group to acquire the controlling stake held by the Telecom Italia Group in Telecom Argentina, owned by the Sellers, through its subsidiaries Sofora, Nortel and Tierra Argentea. Closing of the transfer of the Telecom Italia Group's shares in Sofora was subject to the prior obtaining of certain regulatory authorizations therefore required.

On December 10, 2013, Tierra Argentea transferred to the Fintech Group Telecom Argentina's Class B shares representing 1.58% of its capital stock and Nortel's ADRs representing 8% of the total Nortel's Preferred Class B Shares.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

On October 25, 2014, Telecom Italia S.p.A. announced the acceptance of an offer by the Fintech Group to amend and restate the agreement announced on November 14, 2013. Within the frame of this amendment agreement: 1) on October 29, 2014 Telecom Italia International N.V. agreed the transfer of 17% of the capital stock of Sofora to the Fintech Group; 2) it was confirmed that the transfer of the 51% controlling interest in Sofora is subject to the prior regulatory approval of the SC and closing of the transaction will not occur until such approval is obtained. It is expected that the transfer of such controlling interest will take place within the next two and one-half years.

It was informed that the majority of the members of Sofora's Board of Directors will continue to be appointed by the Telecom Italia Group until the regulatory authorizations in Argentina are obtained and the transfer of the 51% controlling interest in Sofora is completed. No material changes in Sofora and its subsidiaries' corporate governance are expected.

It was also informed that: *if the sale of 51% of Sofora to Fintech is not completed within two and one-half years, Telecom Italia may then elect to either (i) terminate the agreement with Fintech and receive a six-month call option to purchase (or designate a Telecom Italia Group company to purchase) the 17% minority interest in Sofora previously sold to Fintech pursuant to an agreed formulation or (ii) pursue a sale of its 51% controlling interest in Sofora to a third party purchaser, subject to applicable regulatory approval and as to which Fintech has agreed to guarantee that Telecom Italia will receive an overall amount of at least US\$ 630.6 million. After such third party sale is consummated, if the overall amount received in connection with such approved sale exceeds the purchase price amount guaranteed by Fintech, any excess will be allocated between the parties according to an agreed formula.*

If it was not possible for Telecom Italia to sell to a third party within a period of two and one-half years, the agreement with Fintech will be terminated, Fintech will pay to Telecom Italia an amount of US\$ 175 million and Telecom Italia will have an option to purchase (or designate a Telecom Italia Group company to purchase) within a period of six months the 17% minority interest in Sofora previously transferred to Fintech, pursuant to a formula agreed by the parties.

As of the date of issuance of these consolidated financial statements, Sofora's shares belong to Telecom Italia S.p.A. (32.5%), Telecom Italia International N.V. (18.5%); W de Argentina - Inversiones S.L. (32%) and Fintech Telecom LLC (17%). The economic rights of Telecom Italia Group in Telecom Argentina amounted to 14.5% as of September 30, 2015.

TELECOM ARGENTINA S.A.

On October 16, 2015 Resolution No. 491/15 of the Federal Authority of Information Technology and Communications (AFTIC) was published in the Official Bulletin. This body has absorbed, among others, the duties of the SC. Through the mentioned Resolution, the authorization to transfer to Fintech the controlling interest of Telecom Italia in Sofora Telecomunicaciones S.A. was denied. The Resolution is available in www.boletinoficial.gob.ar.

It should be noted that, in 2010, the SC issued Resolution No. 136/10 whereby, at the Company's request, the Operator figure included in the List of Conditions for the privatization of Entel approved by Decree No. 62/90, as amended, is annulled. The grounds for this SC Resolution 136/10 states that as the exclusivity period ended and after twenty years of service provision by Telecom Argentina, the experience is deemed to have been acquired by the licensee and is not imperative at present the maintenance of such figure. Article 3 of the Resolution disposals provides: Rescind the Operator figure included in the List of Conditions, Decree No. 62/90, as amended, regarding Telecom Argentina S.A. Accordingly, the Company has been developing its activities since 2010 based on this regulatory framework in force.

As informed by Telecom Italia S.p.A, Fintech is planning to refuse the AFTIC Resolution.

Telecom Argentina is analyzing the legal actions to execute related to its rights as licensee.

More information about the operation celebrated between the Telecom Italia Group and the Fintech Group is available in Relevant Facts section of the CNV at www.cnv.gob.ar, and in Company filings search section (Telecom Italia S.p.A and Telecom Argentina) of the SEC in www.sec.gov.

b) Related parties

For the purposes of these consolidated financial statements, related parties are those individuals or legal entities which are related (in terms of IAS 24) to the Telecom Italia Group or W de Argentina - Inversiones SL, except Nortel and companies under sect. 33 of Law No. 19,550 (subsidiaries or affiliates).

Under IAS 24, Telefónica, S.A. (of Spain) and its controlled companies, including Telefónica de Argentina S.A. and Telefónica Móviles de Argentina S.A. are not considered related parties. Such situation is confirmed by the commitments assumed before the CNDC to ensure the separation and independence between the Telecom Italia Group and the Telecom Group, on one hand, and Telefónica, S.A. (of Spain) and its controlled companies, on the other, with respect to their activities in the Argentine telecommunications market, such as it has been corroborated by the applicable authorities.

The Telecom Group has transactions in the normal course of business with certain related parties. For the periods presented, the Telecom Group has not conducted any transactions with executive officers and/or persons related to them.

As of September 30, 2015 and 2014, the Telecom Group has recorded a provision of \$16 and \$13, respectively, for the fees of its Board of Directors members. The members and alternate members of the Board of Directors do not hold executive positions in the Company or Company's subsidiaries.

NOTE 6 COMMITMENTS AND CONTINGENCIES OF THE TELECOM GROUP**a) Purchase commitments**

The Telecom Group has entered into various purchase orders amounting in the aggregate to approximately \$6,711 as of September 30, 2015 (of which \$3,160 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

b) Contingencies

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of September 30, 2015, the Telecom Group has recorded provisions in an aggregate amount of \$1,489 to cover potential losses under these claims (\$84 for regulatory contingencies deducted from assets and \$1,405 included under provisions) and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. As of September 30, 2015, these restricted funds totaled \$56 (included under Other receivables item line in the consolidated statement of financial position).

(b) Acquisition of Treasury Shares

The Company's Ordinary Shareholders' Meeting held on April 23, 2013, which was adjourned until May 21, 2013, approved at its second session of deliberations, the creation of a Voluntary Reserve for Capital Investments of \$1,200, granting powers to the Company's Board of Directors to decide its total or partial application, and to approve the methodology, terms and conditions of such investments.

In connection with the above mentioned, on May 22, 2013, the Board of Directors approved a Company's Treasury Shares Acquisition Program in the market in Argentine pesos (the Treasury Shares Acquisition Program) so as to avoid any possible damages to the Company and its shareholders derived from fluctuations and unbalances between the shares' price and the Company's solvency, for the following maximum amount and deadline:

- Maximum amount to be invested: \$1,200.
- Deadline for the acquisitions: until April 30, 2014.

According to the offer made on November 7, 2013 by the Fintech Group for the acquisition of the controlling interest of the Telecom Italia Group in Telecom Argentina (see Note 5.a to these consolidated financial statements), Telecom Argentina suspended the acquisition of treasury shares and its Board of Directors considered appropriate to request the opinion of the CNV on the

applicability of the new provisions contained in the rules issued by that entity (Title II, Chapter I, Art.13 and concurring) with respect to the continuation of the Treasury Shares Acquisition Program.

The CNV did not answer the Company's request and the Telecom Argentina's Board of Directors, at its meeting held on May 8, 2014, decided to conclude the request considering that the Treasury Shares Acquisition Program finished on April 30, 2014, which had been approved by Telecom Argentina's Board of Directors Meeting held on May 22, 2013.

Telecom Argentina's Board of Directors, at its meeting held on June 27, 2014, decided to request a new opinion from the CNV to confirm whether Telecom Argentina is obliged to refrain from acquiring treasury shares in the market under Section 13, Chapter I, Title II of the CNV rules (NT 2013).

Pursuant to Section 67 of Law No. 26,831, the Company must sell its treasury shares within three years of the date of acquisition. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders' Meetings. No restrictions apply to Retained Earnings as a result of the creation of a specific reserve for such purposes named "Voluntary Reserve for Capital Investments".

As of the date of issuance of these consolidated financial statements, the Company owns 15,221,373 treasury shares, representing 1.55% of its total capital. The acquisition cost of these shares in the market amounted to \$461.

(c) Conversion of Class C shares

Pursuant to the authorization approved by the General Ordinary and Extraordinary and Special Class C Shares Meetings of Telecom Argentina held on December 15, 2011 and following the request of individual holders, on June 15, 2015, 24,901 Class C shares were converted, in a ninth tranche, into an equal number of Class B shares. As of the date of issuance of these consolidated financial statements, conversion is pending for 241,881 Class C shares.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 8 RESTRICTIONS ON DISTRIBUTION OF PROFITS**

The Company is subject to certain restrictions on the distribution of profits. Under the LGS, the by-laws of the Company and rules and regulations of the CNV, a minimum of 5% of net income for the year in accordance with the statutory books, plus/less previous years adjustments and accumulated losses, if any, must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock). On May 21, 2014, Telecom Argentina reached the maximum amount of its Legal Reserve according to LGS and CNV provisions previously disclosed.

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2015 FOR THE TELECOM GROUP**(a) Personal s bank loan**

On January 28, 2015, Personal entered into a loan with a foreign bank for a total amount of US\$ 40.8 million (equivalent to \$353 at that date). This new loan is a 27-months bullet loan with three-month interest payment at a weighted average rate of three-month LIBO plus 8.75% (a financial cost of 9.0537% in 9M15). The debt amounted to \$375 as of September 30, 2015 (including a principal of \$368 disclosed in Non-current financial debt and accrued interests amounting to \$7 disclosed in Current financial debt).

The terms and conditions of the loan include covenants and events of default that are usual for this type of transaction, among those the limitation that Personal will not incur new indebtedness other than the permitted indebtedness if, as a result of the incurrence thereof, its consolidated total leverage ratio (consolidated debt to consolidated operating profit/loss before depreciation and amortization, including gain/loss on disposal of PP&E and impairment of PP&E, as defined in the terms and conditions of the loan) is greater than 3.0 to 1.0 or its consolidated interest coverage ratio (consolidated operating profit/loss before depreciation and amortization, including gain/loss on disposal of PP&E and impairment of PP&E and impairment of PP&E, as defined in the terms and conditions of the loan, to consolidated net interest) is lower than 3.0 to 1.0.

The funds were totally used for the acquisition of inventories.

(b) Financial transactions to mitigate foreign exchange risk

Due to the existence of commitments denominated in US Dollars as of September 30, 2015, the Telecom Group entered into several NDF agreements during 9M15 to purchase a total amount of US\$183 million which will mature between November 2015 and July 2016. The purpose of these NDF is to eliminate the risks associated to the fluctuation of the future exchange rate and to align the payment currency of Telecom Argentina s and Personal s commitments (item covered) to its functional currency. As the effect of the fluctuation of the exchange rate over the hedged items is recognized in the Income Statement, changes in the fair value of NDF in 9M15 (net income of approximately \$11) have also been recognized in the Income Statement, within Finance income and expenses - NDF. The Telecom Group recognizes the hedging instruments results, distinguishing between gains and losses of such agreements that generate assets and liabilities, as appropriate, without offsetting balances with different counterparties. As of September 30, 2015, the Telecom Group has a current asset amounting to \$46, a current liability amounting to \$25 and deferred results amounting to \$4 (before income tax) related to the US\$183 million outstanding NDF to such date.

Table of Contents

TELECOM ARGENTINA S.A.

During 1Q15, Personal also realized the remaining NDF entered as of December 31, 2014 for US\$149 million, recording a net loss of \$22 which was recognized in the Income Statement, within Finance income and expenses NDF in 1Q15. The purpose of these NDF was also to eliminate the risks associated to the fluctuation of the future exchange rate and to align the payment currency of Personal's commercial commitments (item covered) to its functional currency.

As part of their financial risk management and reduction of exchange rate risk policies, during 9M15 Telecom Argentina and Personal acquired Government bonds denominated in U.S. dollars (Bonar X 2017), at a cost of \$522, with an annual interest rate of 7%, also in U.S. dollars. These bonds were valued at fair value and generated a gain of \$94 million which was recognized in Financial results - Gains on investments .

(c) Profit sharing bonds

The *Ramollino Silvana v. Telecom Argentina S.A.* case was pending to be solved by the Supreme Court as a result of a complaint introduced by certain co-plaintiffs whose claim related to the profit sharing bonds had been left ineffective because they were not part of the Share Ownership Plan (the PPP).

The Labor Chamber of Appeals had rejected this action as it considered that such employees joined Telecom Argentina following the transfer of staff to the privatized entity and the only beneficiaries who could collect bonds were employees who participated in the PPP during the privatization.

On March 16, 2015, the Attorney General's Office ruled that the issue to be solved is to determine if recurrent co-plaintiffs who were employed by the Company after its privatization and the implementation of the PPP- have the right to participate in profit sharing programs created under Law No. 23,696. In this regard the Attorney General's Office ruled that the profit sharing bonds are a necessary consequence of the implementation of the PPP, so if the plaintiffs were not entitled to the profit sharing bonds they would not be entitled to the PPP.

He noted that *the legislative design of these programs does not constitute harm to the plaintiffs and cannot be considered discriminatory. The difference in treatment between those who joined the ex-Entel and employees of the entity once it was privatized seems a reasonable regulation of different situations.*

On June 9, 2015 the Argentine Supreme Court issued a final sentence adhering to the opinion of the Attorney General's Office, ratifying that every employee hired by the Company after November 8, 1990 do not have the right to participate in the profit sharing bond as they were excluded of the PPP.

This judicial precedent endorse the criteria used by the Company and based on its legal advisors opinion (who considered remote the chances of compensation to employees not included in the PPP) to estimate the provisions recorded for these claims.

(d) Legal Procedures relating to the Definition of the Scope of Fixed and Mobile Telephone Services under Broadcasting Law No. 22,285, repealed by Law No. 26,522 of Audiovisual Communication Services

ii **Supercanal Case**

Within the context of a claim filed by Supercanal S.A., on June 16, 2014 Telecom Argentina had filed before the Courts a request to terminate the injunction, arguing among other reasons that new Law No. 26,522 of Audiovisual Communication Services repealed the former law, under which the injunction had been ordered.

In March 2015, Telecom Argentina reported the issuance of Law No. 27,078 (LAD) and the effect on the injunction, turning it abstract.

As a result, on June 3, 2015 the plaintiff informed the Court that it has no statement opposing the abstraction of the injunction related to the legal framework change of the Law Nos. 26,522 and 27,078.

As of the date of issuance of these consolidated financial statements, the declaration of the abstraction of the injunction is still pending.

ii **Claim by the Argentine Association of Cable Television**

Within the context of a claim filed by the Argentine Association of Cable Television in 2006, an injunction had been ordered against the fixed and mobile telephone companies, by which the Court ordered them to abstain from *transmitting, repeating and/or providing directly or indirectly broadcasting services or their supplementary services*, based on the former Broadcasting Law No. 22,285.

Table of Contents

TELECOM ARGENTINA S.A.

Subsequently, such injunction was extended to the marketing of the service called Superpack (joint offer of satellite television services provided by DirecTV and telephone and Internet services provided by Telecom Argentina, where each entity invoiced the services provided by it directly to the final customer), which was suspended by an appeal filed by Telecom Argentina before the Supreme Court of Justice. However, on June 3, 2014, the Supreme Court rejected such appeal because it did not refer yet to a final decision on the substantial issue that must be resolved by such Court. According to this, the Company suspended the marketing of the above referred joint offer with DirecTV from June 4, 2014, as a prudential measure. The suspension of this joint offer only meant to the Group a decrease in commissions revenues for new subscribers that our network marketed in favor of DirecTV, and a decrease in costs from commissions conceded to DirecTV for subscribers that the latter captured for the Telecom Group, which were not relevant during the year ended December 31, 2014.

On June 10, 2014, the Company claimed to the Courts that the substantial issues under the claim have become abstract and the injunctions have become ineffective as a result of the new Law No. 26,522 of Audiovisual Communication Services which repealed the former law under which the injunction had been ordered.

On October 7, 2014, the Court notified the Company and Personal of a breach complaint related to the above referred injunction. Such notification was answered rejecting its whole content and requesting that the CNC and the SC become part of the process.

On December 19, 2014 came into force Law No. 27,078 which in Article 9 second paragraph states that licensees of services under the Law - as Telecom Argentina and Personal- may provide audiovisual media services. This legislation reinforces the legal arguments used by the Company to continue providing the VAS analyzed in these cases.

On June 18, 2015 a lower Court decided to postpone the treatment of the abstract question and to limit the term of the injunction for six months. The decision was appealed by the Company and other defendants and on October 8, 2015 the Court of Appeals decided to revoke the judge's decision, to declare that the demand has become abstract and to provide that the injunction has become obsolete.

(e) Lawsuits related to value added services - mobile contents

On October 1, 2015 Personal was notified of a legal action for an uncertain amount initiated by the civil association Cruzada Cívica para la defensa de los consumidores y usuarios de servicios públicos (Civic Crusade for the defense of consumers and users of public services). The plaintiff invokes the collective representation of an undetermined number of Personal customers.

The claim relates to the way content and trivia are contracted, in particular for alleged improper collections of messages sent offering those services and their subscription. Additionally, it proposes the enforcement of a civil penalty.

This demand has a similar object to other claims made by a consumers association (Proconsumer) where collective representation of customers is invoked as well. As of the date of issuance of these financial statements, those claims are not open to proof.

Personal has answered the claims by opposing legal and factual defenses, subpoenaing third parties involved in the provision of VAS. Likewise, with the assistance of its legal counsel, Personal believes to have strong arguments for its defense in these lawsuits. However, given the absence of jurisprudential precedents, the final result in such legal proceedings cannot be ensured.

(f) Constitution and startup of activities of the Autoridad Federal de las Tecnologías de la Información y las Comunicaciones (the AFTIC)

Decree No. 1,117/15 issued on June 12, 2015 approved the organizational structure of the AFTIC, created by section 77 of Law No. 27,078 (LAD) as an autonomous and decentralized body within the PEN.

AFTIC is the continuation, for all purposes, of the SC and the CNC, and its functions are the regulation, control, supervision and verification concerning the Information and Communications Technology (ICT) in general, of the telecommunications in particular, of the postal service and all those matters integrated to its field in accordance to the text of the LAD and the applicable regulations and the policies set by the National Government.

Table of Contents

TELECOM ARGENTINA S.A.

AFTIC is constituted by a plural Board that will be integrated by seven (7) members and by a Telecommunications and Digitalization Technologies Federal Council that will be integrated by thirty four (34) members. The plural Board will manage and administrate the AFTIC and the Council will bring together different stakeholders of the sector and will be responsible for the law enforcement.

Pursuant to the provisions of the mentioned Decree, the AFTIC organizational structure is compound by five (5) General Managements and eight (8) National Managements, an Internal Audit Area, a Communication and Press Area, and a General Secretary, all depending from the plural Board, and, through AFTIC Resolution No 12/15 issued on August 3, 2015, it was decided to delegate into the AFTIC operational management the faculties provided in Article 2 of that Decree, according to the respective faculties of each Area. However, as of the date of issuance of these financial statements, the appointment of the mentioned responsible of the AFTIC organizational structure was not published yet.

Decree No. 1,115 published on June 16, 2015, appointed two members of the AFTIC plural Board as the Chairman of the mentioned Board and as the AFTIC Director, and Decree No. 1,116 published on the same date in the Official Bulletin appointed another two AFTIC Directors, as a proposal of the parliamentary bloc of the first and second minority, respectively. Subsequently, through Decree No. 1,728 issued on August 31, 2015, the Director proposed by the parliamentary bloc of the third minority was appointed.

According to the LAD, Decree No. 764/00, as amended, will remain in force in all matters that are not contrary to its provisions, during the period that the AFTIC issues the regulations concerning the ICT Services Licenses, the National Interconnection Regulation, the SU General Regulation and the Rules on the Management and Control of Radio Spectrum. Also, the Telecommunications Law No. 19,798 (issued in 1972), as amended, will also remain in force only regarding to those provisions that are not contrary to LAD provisions.

(g) Spectrum Final adjudication

Resolution No. 25/15, issued on June 11, 2015, registered under Personal brand for the SCMA and for the National Exploitation Area, the SCMA Frequency Bands 713-723 Mhz and 768-778 Mhz, which conformed Lot 8 and were pending of SC adjudication.

On June 25, 2015 Personal paid the auctioned amounts related to the adjudicated Frequency Bands (equivalent to US\$ 247.3 millions), according to the List of Conditions provisions and its clarifying circulars, and integrating thereby full payment of the amount related to Lot 8. Moreover, pursuant to Article 54 of the List of Conditions, the compliance guarantee was accompanied by the 15% of the auction realized by SC Resolution No. 25/15.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

The acquisition of these rights of use of Frequency Bands was recorded as Intangible Assets amounting to \$2,256 that includes \$13 related to the IDC costs which will be depreciated according to Note 3.i) 3G and 4G Licenses of the consolidated financial statements as of December 31, 2014.

Trough Resolution No. 155 issued on September 2, 2015, the AFTIC resolved to rescind the spectrum adjudications granted to Arlink S.A. through Resolutions No. 28, 29, 30, 31 and 32 issued on June 11, 2015, and the records conferred through Articles 1 and 2 of SC Resolution No. 27 issued on June 11, 2015, for the provisions of Personal Communications Services (PCS) and Advanced Mobile Services Communications (SCMA) services.

Additionally, the Public Auction of Lot 1 was declared desert for the frequency bands adjudications for the provision of PCS, Mobile Cellular Radiocommunication Services (SRMC) and SCMA services, approved by Article 1 of SC Resolution No. 38/14.

Personal has made a presentation expressing its interest in the frequency bands of the mentioned Lot. However, on September 30, 2015, the PEN presented the Satellite Industry Development bill to the National Senate which states to set apart to the company AR-SAT, on a preferential basis, the frequency bands of Lot 1. The bill provides that these bands will be used for the implementation and operation of services and applications for which they are or will be allocated, giving priority to Public Protection and Defense Operations applications, complementing the AR-SAT ICT network services and serving primarily to the most vulnerable areas of the country.

(h) Universal service

Through registered letters received on August 13, 2015, the AFTIC gave notice to the Company and Personal that on July 28, 2015, the National Government, through this Enforcement Authority held as trustor, entered an administrative trust fund with Nación Fideicomisos S.A. (as trustee) called Contrato de Fideicomiso Argentina Digital (Argentina Digital Trust Fund) under which the AFTIC has fiduciary assigned the trustee the investment contributions to the FFSU equivalent to 1% of total revenues recorded since July 1, 2015, and to be collected as of August 3, 2015, for the supply of ICT services included in the scope of the LAD (Argentine Digital Law), net of payable taxes and fees, in accordance with article 22 of the abovementioned Law. It also reported the information of the bank account in which the deposit of the mentioned contribution was to be made in the future.

As a response to the notice, on September 3, 2015, the Company and Personal made their respective filings before the AFTIC requesting some clarification in relation to the implementation of the new FFSU, and expressly reserving the rights in relation to the rules issued by the LAD.

Through the Official Notice published in the Official Bulletin on September 1, 2015, the AFTIC communicated to all licensees of ICT services that as of this date the FFSU assets managed by Banco Itaú S.A. would be transferred to account No. 659.051.294/5 corresponding to the new escrow Nación Fideicomisos S.A., and that as a result, investment contributions corresponding to SU programs would cease to be paid into the trust account of Banco Itaú and should be funded in the aforementioned account. In addition, by means of the notice published in the Official Bulletin on September 2, 2015, Banco Itaú notified all Licensees that as of September 1, 2015, the deposit of new funds in the trust under liquidation would not be allowed.

On September 10, 2015 the Company and Personal filed before the AFTIC their respective SU contributions affidavits, corresponding to the revenues recorded in July 2015, clarifying that these presentations were made on the understanding that the operational rules related to the FFSU contribution, regulated by Decree No. 558/08 and related provisions, are in force. Additionally, Personal proceeded to deposit the corresponding contribution in the new FFSU account reported through the Official Notice published by the AFTIC.

Likewise, the Company and Personal stated that the filing of the affidavits and the deposit - in the case of Personal - did not imply explicit or implicit consent of the regulations issued by the LAD, expressly reserving their rights in relation to the unconstitutionality of the provisions set forth in articles 21, 22, 91 and related provisions of said law, as well as the claim of any rights arising from the acknowledgement of this argument.

As of the date of issuance of these financial statements, the AFTIC has not yet responded to the presentations filed by the Company and by Personal on September 3, 2015, nor published any rules or additional instruction in relation to SU.

(i) **Amendment of the Company's corporate purpose**

The Company's Ordinary and Extraordinary Shareholders' Meeting held on June 22, 2015 approved the change of the Telecom Argentina's corporate purpose, by adapting it to the new definition of ICTs Services included in the LAD and including the possibility to provide Audiovisual Communication Services. This Meeting provided that the enforcement of the Company's corporate purpose amendment will be conditional and subject to obtaining prior approval by the Regulatory Authority.

Through Resolution No. 19 issued on July 27, 2015, the AFTIC approved the corporate purpose amendment described in Article 3 of Telecom Argentina's Bylaws. On September 18, 2015 the CNV's Board of Directors confirmed the amendment of the Bylaws and decided to send the case to the General Board of Corporations for enrollment. On September 26, 2015 the General Board of Corporations enrolled the corporate purpose amendment described in Article 3 of Telecom Argentina's Bylaws. On October 9, 2015 the certificate of enrollment was presented to AFTIC.

(j) **Salary agreements**

In July 2015 Telecom Argentina and Personal concluded the salary negotiation process with various telecommunications unions (Telecom Argentina for the period July 2015 - June 2016 and Personal for the period April 2015 - June 2016). Pursuant to the agreements reached, the unionized employees of both companies will receive in two installments different fixed amounts per category, representing an annual raise of 30.1% and 32.3%, respectively (Personal's unionized employees had already received a 17% in April 2015).

Table of Contents

TELECOM ARGENTINA S.A.

Salary raises of 3Q15 affected the consolidated operating results of the Telecom Group in approximately \$282. For 4Q15, an additional cost of approximately \$171 is expected.

(k) Presentations of the Company within the LAD

On July 23, 2014, the Company made a filing before the SC pursuant to which it requested, among others: (i) adjustment of the monthly basic charges of all the SBT categories set forth in the Tariffs General Structure; (ii) the determination of a social tariff; (iii) the adjustment of the telephonic pulse value; (iv) the adaptation of the international long distance tariff to the current value of the gold franc; and (v) the tariff deregulation of the commercial service category. In addition, and until such adjustments are made, it was also requested that the SBT become excluded from the sanctioning regime provided by Decree No. 1,185/90, Decree No. 62/90, SC Resolution No.10,059/99 and SC Resolution No. 5/13. It is worth mentioning that such adjustments would have relevant effects on Telecom Argentina's ability to finance the technological updating of its networks and infrastructure, which would in the end result in the provision of better services to the Company's customers.

Following this presentation, on December 19, 2014 the LAD came in force setting a new legal framework in this matter. According to this, among its provisions, under Title (VI) Prices, rates and levies established a general rule (Article 48) with certain exceptions.

Under these provisions, on April 16, 2015, the Company made two presentations to the CNC through which reported new installation rates for the business, professional and government segment (that will apply from April 23, 2015 and which value is \$690 Argentine pesos) and also the new monthly charges tariff for this segment (that will apply from July 15, 2015 and which value is \$77.28 Argentine pesos). The presentation was rejected by the CNC, through note received on April 29, 2015, which requests the Company to refrain from engaging in unilateral conducts as the informed, under penalty to initiate a sanction process.

Likewise, on June 2, 2015, the Company filed another presentation to the CNC informing new tariffs for the price per minute for calls made by our customers to certain international destinations, being effective from October 15, 2015. The Company also informed through the mentioned presentation the prices applying to public telephony service in the South Region and the prices applying to the assisted call service, being effective from July 1, 2015.

On June 16, 2015 the Company was notified of the CNC GC Note No. 364/15 through which the CNC urged the Company to apply the maximum rates approved by the General Tariff Structure in effect as of that date to the international calls made to the mentioned countries, according to the provisions of CNT Resolution No. 127/91, as amended. The Company was also refrained from engaging in unilateral conducts, under penalty to initiate the corresponding sanction process.

The Company filed on May 27, 2015 and July 2, 2015, respectively, two claims against the injunctions received from the CNC.

However, on July 17, 2015, the AFTIC notified the Company the initiation of a sanction process related to a presumed violation of the General Tariff Structure and of CNT Resolution No. 127/91, as amended, with respect to the increase of the installation charges prices and the monthly charges tariffs for the business, professional and government segment informed on April 16, 2015.

On August 11, 2015, the Company filed to AFTIC a discharge against the mentioned sanction process, which, as of the date of issuance of these consolidated financial statements, is still pending of resolution.

(I) Demerger of Telco S.p.A. and Telefónica, S.A. (of Spain) indirect stake

Telefónica, S.A. (of Spain) has reported that, having obtained the approval of CADE (the Brazilian antitrust authority), ANATEL (Brazilian regulatory authority); CNDC (Argentinean antitrust authority) and Istituto per la Vigilanza sulle Assicurazioni IVASS (Italian insurance regulatory authority), the demerger of Telco S.p.A. has been formalized and its shareholders has assumed, through its subsidiaries, the direct stakes in Telecom Italia S.p.A. The Telco S.p.A. Shareholders Agreement has also become ineffective.

Regarding the Telefónica, S.A. (of Spain) stake, on June 24, 2015 such company informed to the CNV and the BCBA the *divesting of its entire stake in Telecom Italia S.p.A.* .

(m) Telco and TI-W Commitments

In Telecom Argentina's 2014 Annual Report, Note B.4.2, a reference was made to the commitment accepted through Resolution No. 148/10 of the Secretariat of Economic Policy (Telco Commitment) and the commitment accepted through Resolution No. 149/10 of the Secretariat of Economic Policy (TI-W Commitment) (the Telco Commitment and the TI-W Commitment , together, the Commitments), both presented through the CNDC with the purpose of ensuring the segregation and independence between the activities in the Argentine market of (a) Telefónica, S.A. (of Spain) and its subsidiaries, on one side and (b) the Telecom Italia Group, certain subsidiaries of Telecom Italia and the Telecom Group, on the other side, aimed to preserve and encourage the level of competition of their activities in the Argentine market.

On June 24, 2015 Telefónica, S.A. (of Spain) informed to the CNV and the BCBA the *divesting of its entire stake in Telecom Italia S.p.A.*

According to the provisions of Clause 9.2 from the Telco Commitment and to Clause 3 of the TI-W Commitment, the mentioned Telefónica, S.A. (of Spain) divestment and the end of the validity of the Telco S.p.A Shareholders Agreement also represents the end of the validity of the Commitments.

For that reason, on July 6, 2015, Telecom Italia S.p.A. submitted a note to the CNDC informing that the end of the validity of the Commitments had been configured, according to that contemplated in Clause 9.2 from the Telco Commitment and Clause 3 of the TI-W Commitment.

On July 7, 2015, the Chairmen of the Board of Directors of Telecom Argentina and Personal submitted a note to the CNDC adhering to the presentation made by Telecom Italia S.p.A. and requiring the extinction of the validity of the Commitments for the same reasons exposed by Telecom Italia S.p.A on its note.

As of the date of issuance of these consolidated financial statements, the CNDC has not expressed its opinion about this matter.

(n) Legal claim Asociación por la Defensa de Usuarios y Consumidores (Association for the Defense of Users and Consumers) c/Telecom Personal S.A.

In 2008 Personal had been sued by the *Asociación por la Defensa de Usuarios y Consumidores* for an uncertain amount, claiming the collection of calls of the automatic answering machine and the collection system called *send to end* in collective representation of an undetermined number of Personal customers.

Personal's Management, with the assistance of its legal counsel, had deemed to have solid arguments of defense and had classified this claim as a remote contingency. As of the date of issuance of these financial statements, this lawsuit is at the proof stage.

In 3Q15 Personal knew an adverse court ruling in a similar trial, promoted by the same consumers association against other mobile operator.

Personal's Management, with the assistance of its legal counsel, believes that it has strong arguments for its defense, but given the new jurisprudential precedent, the outcome of this trial cannot be ensured.

(o) Law No. 27,181 Declaración de interés público de la protección de las participaciones sociales del Estado Nacional que integran la cartera de inversiones del FGS (Statement of public interest on the protection of the National Government equity interest which are part of the FGS investment portfolio (Sustainability Guarantee Fund)

On October 6, 2015 Law No. 27,181 was published in the Official Bulletin which:

(i) declares of public interest the protection of the National Government equity interest which are part of the investment portfolio of the Sustainability Guarantee Fund of the Argentine Pension Integrated System (FGS) and the equity interest or share holdings in companies where the National Government is a minority partner or where the Ministry of Economy and Public Finances holds shares or equity interest, whose transfer is forbidden without prior authorization of the National Congress, requiring this authorization through two-third (2/3) votes of the members of the National Congress.

(ii) creates the *Agencia Nacional de Participaciones Estatales en Empresas* (National Agency for Government Equity Interests in Companies) (ANPEE), as a decentralized body within the scope of the PEN, which will be responsible for the implementation of policies and actions involved in the practice of corporate rights of the mentioned equity interests, and for instructing the respective representatives of the National Government or the FGS or body proposed by them in said enterprises or companies.

NOTE 11 SUBSEQUENT EVENTS AS OF SEPTEMBER 30, 2015

Núcleo - Auction for 4G spectrum in the Republic of Paraguay

On October 14, 2015 the CONATEL launched the final List and Conditions for the auction license for the supply of mobile services, Internet access and data transmission in the 1,700 / 2,100 MHz (4G - LTE) frequency bands in the Republic of Paraguay. The List and Conditions were subjected to public consultation for two weeks, during which the mobile operators sent their considerations in this regard.

The auction will be performed in auction to the best economic offer modality, and will distribute 30 MHz in 1,700 Mhz frequency band and 30 MHz in 2,100 frequency band divided into six lots of 10 Mhz (5 of 1,700 Mhz and 5 of 2,100 Mhz), which allows to deploy technological fourth-generation mobile broadband. Interested parties must submit the proposal based of the requirements in the List and Conditions. Receipt of tenders is scheduled for December 3, 2015.

As of the date of issuance of these financial statements Núcleo is analyzing its participation in the abovementioned auction.

LIMITED REVIEW REPORT ON CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of

Telecom Argentina S.A.

Legal address: Alicia Moreau de Justo 50

City of Buenos Aires

Tax Code No.: 30-63945373-8

Introduction

We have reviewed the accompanying condensed interim consolidated financial statements of Telecom Argentina S.A. and its subsidiaries (Telecom or the Company), which comprise the consolidated statement of financial position as of September 30, 2015, the consolidated statements of income and of comprehensive income for the three and nine-month periods ended September 30, 2015, the consolidated statements of changes in equity and of cash flows for the nine- month period ended September 30, 2015 and selected explanatory notes.

The balances and other information for the fiscal year 2014 and interim periods are an integral part of the above-mentioned financial statements and therefore they should be considered in relation with those financial statements.

Management Responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of the financial statements in accordance with International Financial Reporting Standards, as approved by the International Accounting Standards Board (IASB), which have been adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and incorporated by the National Securities Commission (CNV) to its regulations and is therefore responsible for the preparation and presentation of the condensed interim consolidated financial statements mentioned in the first paragraph, in accordance with International Accounting Standard No. 34 Interim Financial Information (IAS 34).

Scope of our review

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Our review was limited to the application of the procedures established under International Standards on Review Engagements 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity (ISRE 2410), approved by the International Auditing and Assurance Standards Board (IAASB) and adopted as a review standard in Argentina by Technical Pronouncement No. 33 of the FACPCE. A review of interim financial information consists of inquiries of Company personnel responsible for preparing the information included in the condensed interim consolidated financial statements and of analytical and other review procedures. This review is substantially less in scope than an audit performed in accordance with International Auditing Standards; consequently, a review does not enable us to obtain assurance that we would become aware of all significant matters that could be identified in an audit. Therefore, we do not express an opinion on the consolidated financial position, the consolidated comprehensive income and the consolidated cash flow of the Company.

Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the condensed interim consolidated financial statements mentioned in the first paragraph of this report are not prepared, in all material respects, in accordance with International Accounting Standard No. 34.
