CAUTIONARY STATEMENT

REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains certain statements that are, or may be deemed to be, “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends affecting the financial condition of our business. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including, among other things, the risk factors discussed in this quarterly report and in our most recent annual report on Form 10-K and other factors, most of which are beyond our control.

The words “believe,” “may,” “estimate,” “continue,” “anticipate,” “intend,” “plan,” “expect,” “indicate” and similar expressions intended to identify forward-looking statements. All statements other than statements of current or historical fact contained in this quarterly report are forward-looking statements. Although we believe that the forward-looking statements contained in this quarterly report are based upon reasonable assumptions, the forward-looking events and circumstances discussed in this quarterly report may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

Important factors that may affect our expectations, estimates or projections include:

- a decline in, or substantial volatility of, oil or natural gas prices, and any related changes in expenditures by our customers;
- the effects of future acquisitions on our business;
- changes in customer requirements in markets or industries we serve;
- competition within our industry;
- general economic and market conditions;
- our access to current or future financing arrangements;
- our ability to replace or add workers at economic rates; and
- environmental and other governmental regulations.

Our forward-looking statements speak only as of the date of this quarterly report. Unless otherwise required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

This quarterly report includes market share and industry data and forecasts that we obtained from internal company surveys (including estimates based on our knowledge and experience in the industry in which we operate), market research, consultant surveys, publicly available information, and industry publications and surveys. Industry surveys and publications, consultant surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe such information is accurate and reliable, we have not independently verified any of the data from third party sources cited or used for our management’s industry estimates, nor have we ascertained the underlying economic assumptions relied upon therein. For example, the number of onshore well servicing rigs in the U.S. could be lower than our estimate to the extent our two larger competitors have continued to report as stacked rigs equipment that is not actually complete or subject to refurbishment. Statements as to our position relative to our competitors or as to market share refer to the most recent available data.

BASIC ENERGY SERVICES, INC.

Notes to Consolidated Financial Statements

September 30, 2014 (unaudited)

1. Basis of Presentation and Nature of Operations

Basis of Presentation

The accompanying unaudited consolidated financial statements of Basic Energy Services, Inc. and subsidiaries (“Basic” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. Certain information relating to our organization and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted in this Quarterly Report on Form 10-Q in accordance with GAAP and financial statement requirements promulgated by the U.S. Securities and Exchange Commission (“SEC”). The notes to the consolidated financial statements (unaudited) should be read in conjunction with the notes to the consolidated financial statements contained in the December 31, 2013 Form 10-K. In the opinion of management, all adjustments which are of a normal recurring nature considered necessary for a fair presentation have been made in the accompanying unaudited financial statements.

Nature of Operations

Basic provides a wide range of well site services to oil and natural gas drilling and producing companies, including completion and remedial services, fluid services, well servicing and contract drilling. These services are primarily provided using Basic’s fleet of equipment. Basic’s operations are concentrated in the major United States onshore oil and gas producing regions in Texas, New Mexico, Oklahoma, Arkansas, Kansas, Louisiana, Wyoming, North Dakota, Colorado, Utah, Montana, West Virginia, Ohio, California and Pennsylvania.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Basic and its wholly owned subsidiaries. Basic has no variable interest in any other organization, entity, partnership or contract. All intercompany transactions and balances have been eliminated.

Estimates and Uncertainties

Preparation of the accompanying consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Areas where critical accounting estimates are made by management include:

- Depreciation and amortization of property and equipment and intangible assets
 - Impairment of property and equipment, goodwill and intangible assets

- Allowance for doubtful accounts
- Litigation and self-insured risk reserves
- Fair value of assets acquired and liabilities assumed
- Stock-based compensation
- Income taxes

8

Table of Contents

2. Acquisitions

In 2013 and during the first nine months of 2014, Basic acquired either substantially all of the assets or all of the outstanding capital stock of each of the following businesses, each of which was accounted for using the purchase method of accounting. The following table summarizes the final values for the acquisitions at the date of acquisition (in thousands):

	Closing Date	Total Cash Paid (net of cash acquired)
Atlas Environmental Consulting, Inc. and Atlas Oilfield Construction Company, LLC	February 19, 2013	\$ 12,979
Petroleum Water Solutions, LLC	February 22, 2013	3,288
Karnes Water Management, LLC	December 31, 2013	5,200
Total 2013		\$ 21,467
Pioneer Fishing and Rental Services, LLC	September 17, 2014	\$ 16,090
Total 2014		\$ 16,090

The operations of each of the acquisitions listed above are included in Basic's consolidated statement of operations as of each respective closing date. The pro forma effect of the acquisition completed in the first nine months of 2014 is not material, either individually or when aggregated, to the reported results of operations. The provisional value used with respect to Pioneer Fishing and Rental Service, LLC will be finalized once the valuation of the tangible and intangible assets is complete.

3. Goodwill and Other Intangible Assets

Additions to goodwill during the nine months ended September 30, 2014 were primarily due to current period acquisitions and adjustments to the preliminary purchase price allocations for the Karnes Water Management, LLC acquisitions completed in the current year. The changes in the carrying amount of goodwill for the nine months ended September 30, 2014 were as follows (in thousands):

	Completion And Remedial Services	Well Servicing	Fluid Services	Contract Drilling	Total
Balance as of December 31, 2013	\$ 77,697	\$ 6,622	\$ 26,595	\$ —	\$ 110,914

Edgar Filing: BASIC ENERGY SERVICES INC - Form 10-Q

Goodwill additions	315	—	1,485	—	1,800
Balance as of September 30, 2014	\$ 78,012	\$ 6,622	\$ 28,080	\$ —	\$ 112,714

Basic's intangible assets subject to amortization were as follows (in thousands):

	September 30, 2014	December 31, 2013
Customer relationships	\$ 88,576	\$ 87,139
Non-Compete agreements	13,752	13,004
Trade names	1,939	1,939
Other intangible assets	2,086	2,086
	106,354	104,168
Less accumulated amortization	33,003	26,613
Intangible assets subject to amortization, net	\$ 73,351	\$ 77,555

Amortization expense for the three months ended September 30, 2014 and 2013 was approximately \$2.1 million and \$2.0 million, respectively. Amortization expense for the nine months ended September 30, 2014 and 2013 was approximately \$6.4 million and \$6.2 million, respectively.

Table of Contents

Intangible assets, net of accumulated amortization allocated to reporting units as of September 30, 2014 were as follows (in thousands):

	Completion And Remedial Services	Well Servicing	Fluid Services	Contract Drilling	Total
Intangible assets subject to amortization, net	\$ 54,035	\$ 5,473	\$ 10,395	\$ 3,448	\$ 73,351

Customer relationships are amortized over a 15-year life, non-compete agreements are amortized over a five-year life, and other intangible assets and trade names are amortized over a 15-year life.

4. Property and Equipment

Property and equipment consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Land	\$ 18,519	\$ 17,800
Buildings and improvements	67,334	65,702
Well service units and equipment	473,909	498,846
Fluid services equipment	263,734	258,371
Brine and fresh water stations	13,971	13,496
Frac/test tanks	345,240	275,603
Pumping equipment	327,883	299,300
Construction equipment	15,981	15,677
Contract drilling equipment	108,667	104,958
Disposal facilities	154,864	143,459
Light vehicles	68,655	64,942
Rental equipment	99,150	70,738
Software	21,143	23,360
Other	16,291	16,754
	1,995,341	1,869,006
Less accumulated depreciation and amortization	1,013,431	940,969
Property and equipment, net	\$ 981,910	\$ 928,037

Basic is obligated under various capital leases for certain vehicles and equipment that expire at various dates during the next five years. The gross amount of property and equipment and related accumulated amortization recorded under capital leases and included above consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Light vehicles	\$ 44,635	\$ 39,970
Contract drilling equipment	4,255	4,223
Well service units and equipment	966	1,554
Fluid services equipment	127,594	121,051
Pumping equipment	35,126	29,080
Construction equipment	730	1,005
Software	17,120	17,120
Other	70	70
	230,496	214,073
Less accumulated amortization	94,082	77,340
	\$ 136,414	\$ 136,733

Amortization of assets held under capital leases of approximately \$9.5 million and \$8.0 million for the three months ended September 30, 2014 and 2013, respectively, and \$26.8 million and \$22.9 million for the nine months ended September 30, 2014 and 2013, respectively, is included in depreciation and amortization expense in the consolidated statements of operations.

Table of Contents

5. Long-Term Debt and Interest Expense

Long-term debt consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Credit Facilities:		
Revolver	\$ 16,000	\$ —
7.75% Senior Notes due 2019	475,000	475,000
7.75% Senior Notes due 2022	300,000	300,000
Unamortized premium	1,280	1,459
Capital leases and other notes	117,349	111,626
	909,629	888,085
Less current portion	43,921	41,394
	\$ 865,708	\$ 846,691

Basic had \$16.0 million in borrowings and \$51.3 million of letters of credit outstanding under the Credit Agreement as of September 30, 2014, giving Basic \$182.7 million of available borrowing capacity.

Basic's interest expense consisted of the following (in thousands):

	Nine Months Ended September 30,	
	2014	2013
Cash payments for interest	\$ 49,689	\$ 50,758
Commitment and other fees paid	1,719	1,351
Amortization of debt issuance costs and discount or premium on notes	2,232	2,134
Change in accrued interest	(3,413)	(3,376)
Other	26	(326)
	\$ 50,253	\$ 50,541

6. Commitments and Contingencies

Environmental

Basic is subject to various federal, state and local environmental laws and regulations that establish standards and requirements for protection of the environment. Basic cannot predict the future impact of such standards and requirements, which are subject to change and can have retroactive effectiveness. Basic continues to monitor the status of these laws and regulations. Management believes that the likelihood of any of these items resulting in a material adverse impact to Basic's financial position, liquidity, capital resources or future results of operations is remote.

Currently, Basic has not been fined, cited or notified of any environmental violations that would have a material adverse effect upon its financial position, liquidity or capital resources. However, management does recognize that by the very nature of its business, material costs could be incurred in the near term to bring Basic into total compliance. The amount of such future expenditures is not determinable due to several factors, including the unknown magnitude of possible contamination, the unknown timing and extent of the corrective actions which may be required, the determination of Basic's liability in proportion to other responsible parties and the extent to which such expenditures are recoverable from insurance or indemnification.

Litigation

From time to time, Basic is a party to litigation or other legal proceedings that Basic considers to be a part of the ordinary course of business. Basic is not currently involved in any legal proceedings that it considers probable or reasonably possible, individually or in the aggregate, to result in a material adverse effect on its financial condition, results of operations or liquidity. In the second quarter of 2014, Basic was involved in the settlement of a lawsuit related to the contractual indemnification of a customer for \$4.6 million, including legal fees.

Table of Contents

Self-Insured Risk Accruals

Basic is self-insured up to retention limits as it relates to workers' compensation, general liability claims, and medical and dental coverage of its employees. Basic generally maintains no physical property damage coverage on its workover rig fleet, with the exception of certain of its 24-hour workover rigs and newly manufactured rigs. Basic has deductibles per occurrence for workers' compensation, general liability claims, and medical and dental coverage of \$5.0 million, \$1.0 million, and \$400,000, respectively. Basic has lower deductibles per occurrence for automobile liability. Basic maintains accruals in the accompanying consolidated balance sheets related to self-insurance retentions based upon third-party data and claims history.

At September 30, 2014 and December 31, 2013, self-insured risk accruals totaled approximately \$33.5 million net of a \$14,000 receivable for medical and dental coverage and \$26.1 million net of a \$230,000 receivable for medical and dental coverage, respectively.

7. Stockholders' Equity

Common Stock

In March 2014, Basic granted various employees 414,900 restricted shares of common stock that vest over a three-year period and 294,909 shares that vest over a four-year period.

During the nine months ended September 30, 2014, Basic issued 250,000 shares of common stock from treasury stock for the exercise of stock options.

Treasury Stock

Basic has acquired treasury shares through net share settlements for payment of payroll taxes upon the vesting of restricted stock. Basic acquired a total of 253,056 shares through net share settlements during the first nine months of 2014 and 256,811 shares through net share settlements during the first nine months of 2013.

8. Incentive Plan

During the three months ended September 30, 2014 and 2013, compensation expense related to share-based arrangements was approximately \$3.8 million and \$2.8 million, respectively. For compensation expense recognized during the three months ended September 30, 2014 and 2013, Basic recognized a tax benefit of approximately \$1.5 million and \$1.2 million, respectively. During the nine months ended September 30, 2014 and 2013, compensation expense related to share-based arrangements was approximately \$10.9 million and \$9.0 million, respectively. For compensation expense recognized during the nine months ended September 30, 2014 and 2013, Basic recognized a tax benefit of approximately \$4.7 million and \$3.1 million, respectively.

As of September 30, 2014, there was approximately \$28.8 million of total unrecognized compensation related to non-vested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 2.3 years. The total fair value of share-based awards vested during the nine months ended September 30, 2014 and 2013 was approximately \$20.5 million and \$11.7 million, respectively. During the three months ended September 30, 2014 and 2013 there was no excess tax benefit due to the net operating loss carryforwards ("NOL"). If there was no NOL, the excess tax benefit would have been approximately \$4.0 million and \$814,000 at September 30, 2014 and 2013, respectively.

Stock Option Awards

The fair value of each option award is estimated on the date of grant using the Black-Scholes-Merton option-pricing model. Options granted under the Plan expire 10 years from the date they are granted, and generally vest over a three-to five-year service period.

12

Table of Contents

The following table reflects the summary of stock options outstanding at September 30, 2014 and the changes during the nine months then ended:

	Number of Options Granted	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (000's)
Non-statutory stock options:				
Outstanding, beginning of period	530,000	\$ 18.15		
Options granted	—	—		
Options forfeited	—	—		
Options exercised	(250,000)	17.14		
Options expired	—	—		
Outstanding, end of period	280,000	\$ 19.05	1.14	\$ 1,545
Exercisable, end of period	280,000	\$ 19.05	1.14	\$ 1,545
Vested or expected to vest, end of period	280,000	\$ 19.05	1.14	\$ 1,545

The total intrinsic value of share options exercised during the nine months ended September 30, 2014 and 2013 was approximately \$2.2 million and \$501,000, respectively.

Cash received from share option exercises under the Plan was approximately \$4.3 million and \$302,000 for the nine months ended September 30, 2014 and 2013, respectively. During the nine months ended September 30, 2014 and 2013 there was no excess tax benefit due to the NOL. If there was no NOL, the excess tax expense would have been \$57,000 for the nine months ended September 30, 2014 and excess tax benefit would have been \$53,000 for the nine months ended September 30, 2013.

Basic has a history of issuing treasury and newly issued shares to satisfy share option exercises.

Restricted Stock Awards

On March 12, 2014, the Compensation Committee of Basic's Board of Directors approved grants of performance-based stock awards to certain members of management. The performance-based awards are tied to Basic's achievement of total stockholder return over the performance period from January 1, 2014 through December 31, 2014, as compared to other members of a defined peer group. The number of shares to be issued will range from 0% to 150% of the 286,518 target number of shares depending on the performance noted above. Any shares earned at the end of the performance period will then remain subject to vesting over a three-year period with the first shares vesting March 15, 2016. As of September 30, 2014, Basic estimated that 100% of the target number of performance-based awards will be earned.

A summary of the status of Basic's non-vested share grants at September 30, 2014 and changes during the nine months ended September 30, 2014 is presented in the following table:

	Number of	Weighted Average Grant Date Fair Value
Nonvested Shares	Shares	Per Share
Nonvested at beginning of period	2,089,597	\$ 14.93
Granted during period	1,032,125	25.10
Vested during period	(852,379)	14.82
Forfeited during period	(51,709)	20.63
Nonvested at end of period	2,217,634	\$ 19.57

9. Related Party Transactions

Basic had receivables from employees of approximately \$61,000 and \$50,000 as of September 30, 2014 and December 31, 2013, respectively. During 2006, Basic entered into a lease agreement with Darle Vuelta Cattle Co., LLC, an affiliate of a director, for approximately \$69,000 per year. The term of the lease will continue on a year-to-year basis unless terminated by either party. In December 2010, Basic entered into a lease agreement with Darle Vuelta Cattle Co., LLC for the right to operate a salt water disposal well, brine well and fresh water well. The term of the lease will continue until the salt water disposal well and brine well are plugged and no fresh water is being sold. The lease payments are the greater of (i) the sum of \$0.10 per barrel of disposed oil and gas waste and \$0.05 per barrel of brine or fresh water sold or (ii) \$5,000 per month.

Table of Contents

Basic entered into a joint venture agreement with a family member of an executive officer to form an entity in 2010. Basic held 80% of the equity in the joint venture, and accounted for the entity as a consolidated investment. In 2013, Basic funded approximately \$2.4 million for this joint venture. The entity had only research and development activities in 2013. This joint venture agreement was terminated in November 2013, and Basic now owns 100% of the entity.

10. Earnings Per Share

The following table sets forth the computation of unaudited basic and diluted earnings per share (in thousands, except share data):

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
	(Unaudited)		(Unaudited)	
Numerator (both basic and diluted):				
Net income (loss)	\$ 9,931	\$ (6,956)	\$ 10,467	\$ (28,530)
Denominator:				
Denominator for basic earnings per share	41,477,139	40,400,082	41,103,660	40,494,628
Stock options	83,790	—	109,914	—
Unvested restricted stock	651,984	—	540,780	—
Denominator for diluted earnings per share	42,212,913	40,400,082	41,754,354	40,494,628
Basic earnings per common share:	\$ 0.24	\$ (0.17)	\$ 0.25	\$ (0.70)
Diluted earnings per common share:	\$ 0.24	\$ (0.17)	\$ 0.25	\$ (0.70)

Stock options and unvested restricted stock shares of approximately 868,786 and 911,083 were excluded in the computation of diluted earnings per share for the three and nine months ended September 30, 2013, respectively as the effect would have been anti-dilutive.

Table of Contents

11. Business Segment Information

The following table sets forth certain financial information with respect to Basic's reportable segments (in thousands):

	Completion And Remedial Services	Well Servicing	Fluid Services	Contract Drilling	Corporate and Other	Total
Three Months Ended September 30, 2014 (Unaudited)						
Operating revenues	\$ 193,699	\$ 91,119	\$ 92,852	\$ 16,285	\$ —	\$ 393,955
Direct operating costs	(119,138)	(67,636)	(66,121)	(11,225)	—	(264,120)
Segment profits	\$ 74,561	\$ 23,483	\$ 26,731	\$ 5,060	\$ —	\$ 129,835
Depreciation and amortization	\$ 17,530	\$ 14,263	\$ 16,709	\$ 3,332	\$ 2,651	\$ 54,485
Capital expenditures (excluding acquisitions)	\$ 62,579	\$ 14,614	\$ 25,010	\$ 2,033	\$ (506)	\$ 103,730
Three Months Ended September 30, 2013 (Unaudited)						
Operating revenues	\$ 127,119	\$ 97,783	\$ 86,121	\$ 13,774	\$ —	\$ 324,797
Direct operating costs	(82,959)	(70,983)	(59,673)	(9,128)	—	(222,743)
Segment profits	\$ 44,160	\$ 26,800	\$ 26,448	\$ 4,646	\$ —	\$ 102,054
Depreciation and amortization	\$ 16,248	\$ 15,494	\$ 15,999	\$ 3,260	\$ 2,622	\$ 53,623
Capital expenditures (excluding acquisitions)	\$ 11,422	\$ 6,761	\$ 11,678	\$ 477	\$ 4,918	\$ 35,256
Nine Months Ended September 30, 2014 (Unaudited)						
Operating revenues	\$ 495,550	\$ 273,660	\$ 276,001	\$ 45,162	\$ —	\$ 1,090,373
Direct operating costs	(308,235)	(202,144)	(197,958)	(30,900)	—	(739,237)
Segment profits	\$ 187,315	\$ 71,516	\$ 78,043	\$ 14,262	\$ —	\$ 351,136
Depreciation and amortization	\$ 50,827	\$ 41,355	\$ 48,445	\$ 9,661	\$ 7,687	\$ 157,975
Capital expenditures (excluding acquisitions)	\$ 131,962	\$ 37,876	\$ 46,050	\$ 5,641	\$ 3,345	\$ 224,874
Identifiable assets	\$ 515,145	\$ 274,831	\$ 316,152	\$ 58,872	\$ 440,849	\$ 1,605,849
Nine Months Ended September 30, 2013 (Unaudited)						
Operating revenues	\$ 377,696	\$ 279,379	\$ 256,052	\$ 41,744	\$ —	\$ 954,871
Direct operating costs	(247,813)	(203,586)	(176,844)	(28,060)	—	(656,303)
Segment profits	\$ 129,883	\$ 75,793	\$ 79,208	\$ 13,684	\$ —	\$ 298,568
Depreciation and amortization	\$ 47,063	\$ 45,946	\$ 44,984	\$ 9,750	\$ 7,728	\$ 155,471
Capital expenditures (excluding acquisitions)	\$ 40,959	\$ 31,165	\$ 50,388	\$ 3,530	\$ 13,827	\$ 139,869
Identifiable assets	\$ 434,083	\$ 282,324	\$ 315,196	\$ 60,195	\$ 470,284	\$ 1,562,082

The following table reconciles the segment profits reported above to the operating income as reported in the consolidated statements of operations (in thousands):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Segment profits	\$ 129,835	\$ 102,054	\$ 351,136	\$ 298,568
General and administrative expenses	(41,516)	(43,179)	(124,028)	(134,457)
Depreciation and amortization	(54,485)	(53,623)	(157,975)	(155,471)
Loss on disposal of assets	(979)	(411)	(1,216)	(2,290)
Operating income	\$ 32,855	\$ 4,841	\$ 67,917	\$ 6,350

Table of Contents

12. Supplemental Schedule of Cash Flow Information

The following table reflects non-cash financing and investing activity during the following periods:

	For The Nine Months Ended September 30	
	2014	2013
	(In thousands)	
Capital leases issued for equipment	\$ 39,948	\$ 35,840
Asset retirement obligation additions	\$ 60	\$ 78

Basic paid no income taxes during the nine months ended September 30, 2014 and 2013. Basic paid interest of approximately \$49.7 million and \$50.8 million during the nine months ended September 30, 2014 and 2013, respectively.

13. Fair Value Measurements

The following is a summary of the carrying amounts and estimated fair values of our financial instruments as of September 30, 2014 and December 31, 2013. The fair value of our long-term notes is based upon the quoted market prices at September 30, 2014 and December 31, 2013 and is as follows:

	September 30, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(In thousands)			
7.75% Senior Notes due 2019, excluding premium	\$ 475,000	\$ 493,240	\$ 475,000	\$ 496,375
7.75% Senior Notes due 2022, excluding premium	\$ 300,000	\$ 312,000	\$ 300,000	\$ 309,750

The carrying amounts of cash and cash equivalents, trade accounts receivable, accounts receivable-related parties, accounts payable and accrued expenses approximate fair value due to the short maturities of these instruments. The carrying amount of our revolving credit facility in long-term debt also approximates fair value due to its variable-rate characteristics.

14. Recent Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. It is effective for annual periods beginning on or after December 15, 2014. Early adoption is permitted but only for disposals that have not been reported in financial statements previously issued. Basic does not believe this pronouncement will have a material impact on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 provides a framework that replaces the existing revenue recognition guidance. It is effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. Basic will determine if this pronouncement will have a material impact on its consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, "Compensation-Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period." ASU 2014-12 requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance condition. It is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. ASU 2014-12 may be adopted either prospectively for share-based payment awards granted or modified on or after the effective date, or retrospectively, using a modified retrospective approach. The modified retrospective approach would apply to share-based payment awards outstanding as of the beginning of the earliest annual period presented in the financial statements on adoption, and to all new or modified awards thereafter. Basic will determine if this pronouncement will have a material impact on its consolidated financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Overview

We provide a wide range of well site services to oil and natural gas drilling and producing companies, including completion and remedial services, well servicing, fluid services and contract drilling. Our results of operations reflect the impact of our acquisition strategy as a leading consolidator in the domestic land-based well services industry. Our acquisitions have increased our breadth of service offerings at the well site and expanded our market presence. In implementing our acquisition strategy, we purchased businesses and assets in four separate acquisitions from January 1, 2013 to September 30, 2014. We also divested our inland workover barge rig fleet in March 2014. These transactions, as well as market fluctuations, make our revenues, expenses and income not directly comparable between periods.

Our total hydraulic horsepower ("hhp") increased from 292,000 at September 30, 2013 to 413,000 at September 30, 2014. Our weighted average number of fluid service trucks increased from 970 in the third quarter of 2013 to 1,025 in the third quarter of 2014. Our weighted average number of well servicing rigs decreased to 421 in the third quarter of 2014 from 425 in the third quarter of 2013.

Our operating revenues from each of our segments, and their relative percentages of our total revenues, consisted of the following (dollars in millions):

	Nine Months Ended September 30,			
	2014		2013	
Revenues:				
Completion and remedial services	\$ 495.5	46%	\$ 377.7	40%
Well servicing	\$ 273.7	25%	\$ 279.4	29%
Fluid services	\$ 276.0	25%	\$ 256.1	27%
Contract drilling	\$ 45.2	4%	\$ 41.7	4%
Total revenues	\$ 1,090.4	100%	\$ 954.9	100%

Oil prices remained relatively stable throughout 2013 and through the third quarter of 2014. As a result of increased concentration of equipment and activity, utilization and pricing for our services has remained competitive in our oil-based operating areas. Natural gas prices have been depressed for a prolonged period and utilization and pricing for our services in our natural gas-based operating areas remained stable during 2014.

Subsequent to September 30, 2014, oil prices declined rapidly to a level near \$80 per barrel. For the most part, we have not seen an immediate impact on our customers' activity. However, continued or further declines in oil prices could have a negative impact on the demand for our services if our customers reduce their exploration plans and programs.

We believe that the most important performance measures for our business segments are as follows:

- Completion and Remedial Services — segment profits as a percent of revenues;
- Well Servicing — rig hours, rig utilization rate, revenue per rig hour, profits per rig hour and segment profits as a percent of revenues;
- Fluid Services — trucking hours, revenue per truck, segment profits per truck and segment profits as a percent of revenues; and
- Contract Drilling — rig operating days, revenue per drilling day, profits per drilling day and segment profits as a percent of revenues.

Segment profits are computed as segment operating revenues less direct operating costs. These measurements provide important information to us about the activity and profitability of our lines of business. For a detailed analysis of these indicators for our company, see “Segment Overview” below.

Selected Acquisitions and Divestitures

During 2013, we made three business acquisitions that complemented our existing business segments. These included, among others:

Atlas Environmental Consulting, Inc. and Atlas Oilfield Construction Company, LLC

On February 16, 2013, we acquired all of the assets of Atlas Environmental Consulting, Inc. and Atlas Oilfield Construction Company, LLC for total cash consideration of \$13.0 million. This acquisition has been included in our fluid services segment.

Table of Contents

During the first nine months of 2014, we made two business transactions.

Sale of Barges

In March 2014, we sold our four inland workover barges, and related equipment, to a private buyer for approximately \$19.0 million. These assets had been included in the well servicing segment.

Pioneer Fishing and Rental Services, LLC

On September 17, 2014, we acquired all of the assets of Pioneer Fishing and Rental Services, LLC for total cash consideration of \$16.1 million. This acquisition has been included in our completion and remedial services segment.

Segment Overview

Completion and Remedial Services

During the first nine months of 2014, our completion and remedial services segment represented approximately 46% of our revenues. Revenues from our completion and remedial services segment are generally derived from a variety of services designed to complete and stimulate new oil and natural gas production or place cement slurry within the wellbores. Our completion and remedial services segment includes pumping services, rental and fishing tool operations, coiled tubing services, nitrogen services, cased-hole wireline services, snubbing and other services.

Our pumping services concentrate on providing mid-sized fracturing services in selected markets, targeting jobs at rates of 100 barrels per minute or lower. Cementing and acidizing services also are included in our pumping services operations. Our total hydraulic horsepower capacity for our pumping operations was 413,000 and 292,000 at September 30, 2014 and 2013, respectively, including additions of 62,000 hhp in the third quarter of 2014, compared to 50,000 hhp added in the second quarter of 2014.

In this segment, we generally derive our revenues on a project-by-project basis in a competitive bidding process. Our bids are generally based on the amount and type of equipment and personnel required, with the materials consumed billed separately. During periods of decreased spending by oil and gas companies, we may be required to discount our rates to remain competitive, which would cause lower segment profits.

The following is an analysis of our completion and remedial services segment for each of the quarters in 2013, the full year ended December 31, 2013 and the quarters ended September 30, 2014 (dollars in thousands):

	Revenues	Segment Profits %
2013:		
First Quarter	\$ 118,361	33%
Second Quarter	\$ 132,216	35%
Third Quarter	\$ 127,119	35%
Fourth Quarter	\$ 123,441	35%
Full Year	\$ 501,137	35%
2014:		

First Quarter	\$ 137,485	37%
Second Quarter	\$ 164,366	38%
Third Quarter	\$ 193,699	39%

The increase in completion and remedial services revenue to \$193.7 million in the third quarter of 2014 from \$164.4 million in the second quarter of 2014 resulted primarily from increased activity in our pumping and coil tubing services, from a larger equipment base, resulting due to an increase in capital expenditures during the third quarter.

Segment profits as a percentage of revenue increased to 39% for the third quarter of 2014 from 38% in the second quarter of 2014.

Well Servicing

During the first nine months of 2014, our well servicing segment represented approximately 25% of our revenues. Revenue in our well servicing segment is derived from maintenance, workover, completion, manufacturing and plugging and abandonment services. We provide maintenance-related services as part of the normal, periodic upkeep of producing oil and natural gas wells. Maintenance-related services represent a relatively consistent component of our business. Workover and completion services generate more revenue per hour than maintenance work due to the use of auxiliary equipment, but demand for workover and completion services fluctuates more with the overall activity level in the industry. We also have a rig manufacturing and servicing facility that builds new workover rigs, performs large-scale refurbishments of used workover rigs and provides maintenance services on previously manufactured rigs.

Table of Contents

We typically charge our well servicing rig customers for services on an hourly basis at rates that are determined by the type of service and equipment required, market conditions in the region in which the rig operates, the ancillary equipment provided on the rig and the necessary personnel. Depending on the type of job, we may also charge by the project or by the day. We measure the activity levels of our well servicing rigs on a weekly basis by calculating a rig utilization rate based on a 55-hour work week per rig. Our fleet decreased from a weighted average number of 425 rigs in the third quarter of 2013 to 421 in the third quarter of 2014, due to the divestiture of our barge rig operations.

The following is an analysis of our well servicing operations for each of the quarters in 2013, the full year ended December 31, 2013 and the quarters ended September 30, 2014:

	Weighted Average		Rig	Revenue	Profits	
	Number		Utilization	Per Rig	Per Rig	
	Of Rigs	Rig hours	Rate	Hour	hour	Profits %
2013:						
First Quarter	425	210,800	69%	\$ 399	\$ 108	26%
Second Quarter	425	223,900	74%	\$ 408	\$ 111	28%
Third Quarter	425	227,100	75%	\$ 404	\$ 118	27%
Fourth Quarter	425	199,400	66%	\$ 404	\$ 113	27%
Full Year	425	861,200	71%	\$ 404	\$ 114	27%
2014:						
First Quarter	425	217,400	73%	\$ 417	\$ 106	25%
Second Quarter	421	214,200	71%	\$ 410	\$ 116	28%
Third Quarter	421	217,500	71%	\$ 405	\$ 108	26%

Rig utilization remained flat at 71% in the second and third quarter of 2014. The slightly higher utilization rate in the third quarter of 2014 resulted from seasonal increases in rig hours. Our segment profit percentage decreased to 26% for the third quarter of 2014 from 28% in the second quarter of 2014, primarily due pricing competition, particularly in the Permian Basin.

Fluid Services

During the first nine months of 2014, our fluid services segment represented approximately 25% of our revenues. Revenues in our fluid services segment are earned from the sale, transportation, treatment, and recycling, storage and disposal of fluids used in the drilling, production and maintenance of oil and natural gas wells. Revenues also include well site construction and maintenance services. The fluid services segment has a base level of business consisting of transporting and disposing of salt water produced as a by-product of the production of oil and natural gas. These services are necessary for our customers and generally have a stable demand but typically produce lower relative segment profits than other parts of our fluid services segment. Fluid services for completion and workover projects typically require fresh or brine water for making drilling mud, circulating fluids or frac fluids used during a job, and

all of these fluids require storage tanks and hauling and disposal. Because we can provide a full complement of fluid sales, trucking, storage and disposal required on most drilling and workover projects, the add-on services associated with drilling and workover activity enable us to generate higher segment profits. The higher segment profits are due to the relatively small incremental labor costs associated with providing these services in addition to our base fluid services segment. Revenues from our water treatment and recycling services include the treatment, recycling and disposal of wastewater, including frac water and flowback, to reuse this water in the completion and production processes. Revenues from our well site construction services are derived primarily from preparing and maintaining access roads and well locations, installing small diameter gathering lines and pipelines, constructing foundations to support drilling rigs and providing maintenance services for oil and natural gas facilities. We typically price fluid services by the job, by the hour or by the quantities sold, disposed of or hauled.

Table of Contents

The following is an analysis of our fluid services operations for each of the quarters in 2013, the full year ended December 31, 2013, the quarters ended September 30, 2014 (dollars in thousands):

	Weighted Average		Revenue Per Fluid Service Truck	Segment Profits Per Fluid Service Truck	Segment Profits %
2013:					
First Quarter	963	555,600	\$ 88	\$ 27	31%
Second Quarter	972	568,500	\$ 88	\$ 27	31%
Third Quarter	970	578,900	\$ 89	\$ 27	31%
Fourth Quarter	986	579,400	\$ 89	\$ 26	29%
Full Year	973	2,282,400	\$ 353	\$ 107	30%
2014:					
First Quarter	1,006	607,200	\$ 92	\$ 26	28%
Second Quarter	1,015	630,900	\$ 89	\$ 25	28%
Third Quarter	1,025	645,800	\$ 91	\$ 26	29%

Revenue per fluid service truck increased to \$91,000 in the third quarter of 2014 compared to \$89,000 in the second quarter of 2014 primarily due to increases in disposal capacity and utilization. We added two salt water disposal wells in the third quarter which brings the total number of salt water disposal wells to 85. Segment profit percentage increased to 29% in the third quarter of 2014 up from 28% in the second quarter of 2014.

Contract Drilling

During the first nine months of 2014, our contract drilling segment represented approximately 4% of our revenues. Revenues from our contract drilling segment are derived primarily from the drilling of new wells.

Within this segment, we typically charge our drilling rig customers at a “daywork” daily rate, or “footage” at an established rate per number of feet drilled. We measure the activity level of our drilling rigs on a weekly basis by calculating a rig utilization rate based on a seven-day work week per rig. Our contract drilling rig fleet had a weighted average of 12 rigs during the second and third quarter of 2014.

The following is an analysis of our contract drilling segment for each of the quarters in 2013, the full year ended December 31, 2013 and the quarters ended September 30, 2014:

	Weighted Average	Rig	Revenue	Profits	Segment
	Number of	Operating	Per	Per	Profits %
	Rigs	Days	Drilling	Drilling	
			Day	Day	
2013:					
First Quarter	12	850	\$ 16,500	\$ 5,700	35%
Second Quarter	12	846	\$ 16,500	\$ 5,000	30%
Third Quarter	12	833	\$ 16,500	\$ 5,500	34%
Fourth Quarter	12	781	\$ 16,400	\$ 5,800	35%
Full Year	12	3,310	\$ 16,500	\$ 5,500	33%
2014:					
First Quarter	12	821	\$ 16,500	\$ 5,300	32%
Second Quarter	12	942	\$ 16,300	\$ 5,100	32%
Third Quarter	12	968	\$ 16,800	\$ 5,200	31%

Revenue per day increased to \$16,800 in the third quarter of 2014 compared to \$16,300 in the second quarter of 2014. Segment profit percentage decreased slightly to 31% in the third quarter of 2014 compared to 32% in the second quarter of 2014.

Operating Cost Overview

Our operating costs are comprised primarily of labor, including workers' compensation and health insurance, repair and maintenance, fuel and insurance. The majority of our employees are paid on an hourly basis. We also incur costs to employ personnel to sell and supervise our services and perform maintenance on our fleet. These costs are not directly tied to

Table of Contents

our level of business activity. Compensation for our administrative personnel in local operating yards and in our corporate office is accounted for as general and administrative expenses. Repair and maintenance is performed by our crews, company maintenance personnel and outside service providers. Insurance is generally a fixed cost regardless of utilization and relates to the number of rigs, trucks and other equipment in our fleet, employee payroll and safety record.

Critical Accounting Policies and Estimates

Our unaudited consolidated financial statements are impacted by the accounting policies used and the estimates and assumptions made by management during their preparation. A complete summary of our significant accounting policies is included in Note 2 of the notes to our historical audited consolidated financial statements in our most recent annual report on Form 10-K.

Results of Operations

The following is a comparison of our results of operations for the three months ended September 30, 2014 compared to the three months ended September 30, 2013. For additional segment-related information and trends, please read “Segment Overview” above.

Three Months Ended September 30, 2014 Compared to Three Months Ended September 30, 2013

Revenues. Revenues increased by 21% to \$394.0 million during the third quarter of 2014 from \$324.8 million during the same period in 2013. This increase was primarily due to increased demand for our services by our customers and expansion of our fleets, particularly in the completion and remedial segment.

Completion and remedial services revenues increased by 52% to \$193.7 million during the third quarter of 2014 compared to \$127.1 million in the same period in 2013. The increase in revenue between these periods was primarily due to an increased amount of pumping hhp, increased completion activity and higher rates. Total hydraulic horsepower increased to 413,000 at September 30, 2014 from 292,000 at September 30, 2013.

Well servicing revenues decreased by 7% to \$91.1 million during the third quarter of 2014 compared to \$97.8 million during the same period in 2013. The decrease was driven by a decrease in rig hours, primarily due to the divestiture of the barge rigs in the first quarter of 2014. Excluding the barge rig operations, third quarter 2013 well servicing revenues were \$92.9 million, 2% higher than the third quarter of 2014. Our weighted average number of well servicing rigs decreased to 421 during the third quarter of 2014 from 425 during the same period in 2013. Utilization was 71% in the third quarter of 2014, compared to 75% in the comparable quarter of 2013. Excluding the hours associated with the divested barge rigs, utilization was 73% during the third quarter of 2013. Revenue per rig hour in the third quarter of 2014 was \$405, flat from \$404 in the comparable quarter of 2013.

Fluid services revenues increased by 8% to \$92.9 million during the third quarter of 2014 compared to \$86.1 million in the same period in 2013, due to increases in trucking hours and our fleet driven by an increase in our disposal capacity. Our revenue per fluid service truck increased 2% to \$91,000 in the third quarter of 2014 compared to \$89,000 in the same period in 2013 due mainly to increases in disposal and skim oil revenues. Our weighted average number of fluid service trucks increased to 1,025 during the third quarter of 2014 compared to 970 in the same period in 2013.

Contract drilling revenues increased by 18% to \$16.3 million during the third quarter of 2014 compared to \$13.8 million in the same period in 2013. The number of rig operating days increased 16% to 968 in the third quarter of 2014 compared to 833 in the third quarter of 2013. The increase in revenue and rig operating days was due to an

increase in utilization for our 1,000 horsepower rigs in the vertical Wolfberry play in the Permian Basin.

Direct Operating Expenses. Direct operating expenses, which primarily consist of labor, including workers' compensation and health insurance, repair and maintenance, fuel and insurance, increased to \$264.1 million during the third quarter of 2014 from \$222.7 million in the same period in 2013, primarily due to increases in activity.

Direct operating expenses for the completion and remedial services segment increased by 44% to \$119.1 million during the third quarter of 2014 compared to \$83.0 million for the same period in 2013 due primarily to increased activity levels overall, especially in our pumping and coil tubing services. Segment profits increased to 39% of revenues during the third quarter of 2014 compared to 35% for the same period in 2013, due to increased completion-related activity and pricing improvements.

Direct operating expenses for the well servicing segment decreased by 5% to \$67.6 million during the third quarter of 2014 compared to \$71.0 million for the same period in 2013. The decrease in direct operating expenses was primarily due to the decreased activity levels and the divestiture of our barge rig operation in March 2014. Segment profits decreased to 26% of revenues during the third quarter of 2014 compared to 27% of revenues during the third quarter of 2013 primarily due to higher personnel cost that could not be offset by rate increases.

Direct operating expenses for the fluid services segment increased by 11% to \$66.1 million during the third quarter of 2014 compared to \$59.7 million for the same period in 2013, mainly due to increased activity levels. Segment

Table of Contents

profits were 29% of revenues during the third quarter of 2014 compared to 31% for the same period in 2013, primarily due to higher personnel costs and costs associated with our water recycling operations.

Direct operating expenses for the contract drilling segment increased 23% to \$11.2 million during the third quarter of 2014 compared to \$9.1 million for same period in 2013. Segment profits for this segment decreased to 31% of revenues during the third quarter of 2014 from 34% during the third quarter of 2013 due to higher repairs and maintenance expense.

General and Administrative Expenses. General and administrative expenses decreased by 4% to \$41.5 million during the third quarter of 2014 from \$43.2 million for the same period in 2013, due to cost cutting measures and costs associated with the retirement of our former CEO in the third quarter of 2013. General and administrative expenses included \$3.8 million and \$2.8 million of stock-based compensation expense during the third quarter of 2014 and 2013, respectively.

Depreciation and Amortization Expenses. Depreciation and amortization expenses were \$54.5 million during the third quarter of 2014 compared to \$53.6 million for the same period in 2013. The increase in depreciation and amortization expense is due to the increase in our fleet through acquisition and capital expenditures for equipment.

Interest Expense. Interest expense decreased to \$16.8 million during the third quarter of 2014 compared to \$16.9 million during the third quarter of 2013.

Income Tax Expense. There was income tax expense of \$6.2 million during the third quarter of 2014 compared to an income tax benefit of \$4.9 million for the same period in 2013. Our effective tax rate during the third quarter of 2014 and 2013 was approximately 39% and 38%, respectively. Our effective tax rates for 2014 and 2013 differ from the federal tax rate due to permanent items and state income taxes.

Nine Months Ended September 30, 2014 Compared to Nine Months Ended September 30, 2013

Revenues. Revenues increased by 14% to \$1,090.4 million during the nine months ended September 30, 2014 from \$954.9 million during the same period in 2013. This increase was primarily due to increased demand by our customers for our services, and increased capacity of our equipment.

Completion and remedial services revenues increased by 31% to \$495.6 million during the nine months ended September 30, 2014 compared to \$377.7 million in the same period in 2013. The increase in revenue between these periods was primarily due to an increased amount of pumping hhp, increased completion activity and higher rates. Our total hydraulic horsepower increased to 413,000 at September 30, 2014 from 292,000 at September 30, 2013.

Well servicing revenues decreased by 2% to \$273.7 million during the nine months ended September 30, 2014 compared to \$279.4 million during the same period in 2013. The segment experienced a 2% decrease in rig hours to 649,100 during the nine months ended September 30, 2014 from 661,800 during the same period in 2013, due to the sale of our inland barge rigs in March 2014. Excluding the barge rig operations, the nine months ended September 30, 2013 well servicing revenues were \$264.3 million, 4% lower than the nine months ended September 30, 2014. Our average number of well servicing rigs decreased to 422 during the nine months ended September 30, 2014 compared to 425 in the same period in 2013, due to the sale of our barge rigs in March 2014. This segment experienced an increase in revenue per rig hour to \$411 during the nine months ended September 30, 2014 from \$404 during the same period in 2013 due to the mix of revenues for our services.

Fluid services revenues increased by 8% to \$276.0 million during the nine months ended September 30, 2014 compared to \$256.1 million in the same period in 2013 due to increases in trucking hours and our fleet due to an

addition in disposal capacity. We added eight salt water disposal wells during the first nine months of 2014. Our revenue per fluid service truck increased 3% to \$272,000 in the nine months ended September 30, 2014 compared to \$265,000 in the same period in 2013 due to an increase in disposal and skim oil revenues from our salt water disposal facilities. Our weighted average number of fluid service trucks increased 5% to 1,015 during the nine months ended September 30, 2014 compared to 968 in the same period in 2013.

Contract drilling revenues increased by 8% to \$45.2 million during the nine months ended September 30, 2014 compared to \$41.7 million in the same period in 2013. The number of rig operating days increased 8% to 2,731 in the nine months ended September 30, 2014 compared to 2,529 in the same period in 2013. The increase in revenue and rig operating days was due to an increase in new well starts in the Permian Basin, where all of our drilling rigs operate.

Direct Operating Expenses. Direct operating expenses, which primarily consist of labor, including workers' compensation and health insurance, repair and maintenance, fuel and insurance, increased by 13% to \$739.2 million during the nine months ended September 30, 2014 from \$656.3 million in the same period in 2013. This increase was primarily due to increased activity.

Direct operating expenses for the completion and remedial services segment increased by 24% to \$308.2 million during the nine months ended September 30, 2014 compared to \$247.8 million for the same period in 2013 due primarily to increased activity levels overall. Segment profits increased to 38% of revenues during the nine months ended

Table of Contents

September 30, 2014 compared to 34% for the same period in 2013, due to increased capacity and rate increases in selected markets.

Direct operating expenses for the well servicing segment decreased less than 1% to \$202.1 million during the nine months ended September 30, 2014 compared to \$203.6 million for the same period in 2013. The decrease in direct operating expenses was primarily due to the divestiture of our barge rig operations in March 2014. Segment profits decreased to 26% of revenues for the nine months ended September 30, 2014 compared to 27% for the same period in 2013, due to higher legal and insurance costs and wage pressure in selected markets.

Direct operating expenses for the fluid services segment increased by 12% to \$198.0 million during the nine months ended September 30, 2014 compared to \$176.8 million for the same period in 2013, mainly due to increased activity levels. Segment profits were 28% of revenues during the nine months ended September 30, 2014 compared to 31% for the same period in 2013 due to high levels of pricing competition and higher personnel costs.

Direct operating expenses for the contract drilling segment increased by 10% to \$30.9 million during the nine months ended September 30, 2014 from \$28.1 million for the same period in 2013. Segment profits for this segment decreased to 32% of revenues during the nine months ended September 30, 2014 compared to 33% for the same period in 2013, primarily due to higher repairs and maintenance expenses.

General and Administrative Expenses. General and administrative expenses decreased by 8% to \$124.0 million during the nine months ended September 30, 2014 from \$134.5 million for the same period in 2013, due mainly to cost-cutting initiatives, as well as costs associated with the retirement of our former CEO in September 2013. General and administrative expenses included \$10.9 million and \$9.0 million of stock-based compensation expense during the nine months ended September 30, 2014 and 2013, respectively.

Depreciation and Amortization Expenses. Depreciation and amortization expenses were \$158.0 million during the nine months ended September 30, 2014 compared to \$155.5 million for the same period in 2013. The increase in depreciation expense was due to the increased capital expenditures for property and equipment over the past year through internal growth and through the two acquisitions completed since September 30, 2013.

Interest Expense. Interest expense decreased to \$50.3 million during the nine months ended September 30, 2014 compared to \$50.5 million during the same period of 2013.

Income Tax Expense. Income tax expense was \$7.8 million during the nine months ended September 30, 2014 compared to an income tax benefit of \$15.1 million for the same period in 2013. Our effective tax rate during the nine months ended September 30, 2014 and 2013 was approximately 43% and 35%, respectively. Our effective tax rates for 2014 and 2013 differ from the federal tax rate due to permanent items and state income taxes.

Liquidity and Capital Resources

As of September 30, 2014, our primary capital resources were net cash flows from our operations, utilization of capital leases and our \$250.0 million revolving credit facility. As of September 30, 2014, we had unrestricted cash and cash equivalents of \$57.5 million compared to \$111.5 million as of December 31, 2013. When appropriate, we will consider public or private debt and equity offerings and non-recourse transactions to meet our liquidity needs.

We had \$16.0 million in borrowings and \$51.3 million of letters of credit outstanding under the Credit Agreement as of September 30, 2014, giving us \$182.7 million of available borrowing capacity. At September 30, 2014, we were in compliance with our covenants under the Credit Agreement.

Net Cash Provided by Operating Activities

Cash provided by operating activities was \$131.8 million for the nine months ended September 30, 2014 compared to cash provided by operating activities of \$107.2 million during the same period in 2013. Operating cash flow in the first nine months of 2014 was higher mainly due to generally increased activity levels.

Capital Expenditures

Capital expenditures are the main component of our investing activities. Cash capital expenditures (including acquisitions) during the first nine months of 2014 were \$201.0 million compared to \$120.3 million in the same period of 2013. We added \$39.9 million of additional assets through our capital lease program during the first nine months of 2014 compared to \$35.8 million of additional assets in the same period in 2013.

In 2014, we currently have planned capital expenditures of approximately \$300 million, including capital leases of \$55 million. We do not budget acquisitions in the normal course of business, and we regularly engage in discussions related to potential acquisitions related to the well services industry.

Table of Contents

Capital Resources and Financing

We currently believe that our operating cash flows, available funds from our revolving credit facility, and cash on hand will be sufficient to fund our near term liquidity requirements.

Our ability to access additional sources of financing will be dependent on our operating cash flows and demand for our services, which could be negatively impacted due to the extreme volatility of commodity prices and declines in capital and debt markets.

Other Debt

During 2014, we had total capital lease additions of approximately \$39.9 million.

Other Matters

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Net Operating Losses

As of September 30, 2014, we had approximately \$23.9 million of net operating loss carryforwards.

Recent Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. It is effective for annual periods beginning on or after December 15, 2014. Early adoption is permitted but only for disposals that have not been reported in financial statements previously issued. Basic will determine if this pronouncement will have a material impact on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." ASU 2014-09 provides a framework that replaces the existing revenue recognition guidance. It is effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. Basic will determine if this pronouncement will have a material impact on its consolidated financial statements.

In June 2014, the FASB issued ASU No. 2014-12, "Compensation-Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period." ASU 2014-12 requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance condition. It is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. ASU 2014-12 may be adopted either prospectively for share-based payment awards granted or modified on or after the effective date, or retrospectively, using a modified retrospective approach. The modified retrospective approach would apply to share-based payment awards outstanding as of the beginning of the earliest annual period presented in the financial statements on adoption, and to all new or modified awards thereafter. Basic will determine if

this pronouncement will have a material impact on its consolidated financial statements.

Impact of Inflation on Operations

Management is of the opinion that inflation has not had a significant impact on our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of September 30, 2014, we had no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Based on their evaluation as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are effective to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the

Table of Contents

SEC's rules and forms and effective to ensure that information required to be disclosed in such reports is accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

During the most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are a party to litigation or other legal proceedings that we consider to be a part of the ordinary course of business. We are not currently involved in any legal proceedings that we consider probable or reasonably possible, individually or in the aggregate, to result in a material adverse effect on our financial condition, results of operations or liquidity.

ITEM 1A. RISK FACTORS

For information regarding risks that may affect our business, see the risk factors included in our most recent annual report on Form 10-K under the heading "Risk Factors."

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Purchase of Equity Securities by the Issuer and Affiliated Purchasers

The following table summarizes stock repurchase for the three months ended September 30, 2014:

Period	Issuer Purchases of Equity Securities			Approximate Dollar Value of Shares that May Yet be Purchased Under the Program (1)
	Total Number of Shares reacquired	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program (1)	
July 1 — July 31 (2)	2,115	\$ 28.44	—	\$
August 1 — August 31 (2)	480	\$ 24.77	—	\$

Edgar Filing: BASIC ENERGY SERVICES INC - Form 10-Q

September 1 — September 30 (2)	—	\$ —	—	\$
Total	2,595	\$ 27.76	—	\$ 20,326

- (1) On May 24, 2012, we announced that our Board of Directors had reauthorized the repurchase of up to approximately \$35.2 million of shares of our common stock from time to time in open market or private transactions, at our discretion, as a continuation of our prior \$50.0 million stock repurchase program announced in 2008 (of which \$14.8 million was purchased prior to such reauthorization). The stock repurchase program may be suspended or discontinued at any time.
- (2) The shares were repurchased from various employees to provide such employees the cash amounts necessary to pay certain tax liabilities associated with the vesting of restricted shares owned by them. The shares were repurchased on various dates based on the closing price per share on the date of repurchase.
