ITEM 1. BUSINESS.

We manufacture premium-quality loudspeakers and sell them through our dealer networks. The speakers use our proprietary ribbon-driver technology and are generally recognized in the industry as high-quality systems. We sell a Professional Line of loudspeakers; a Commercial Line of loudspeakers; Home Theatre systems; a line for recording and broadcast studios; a line for contractor installations and touring companies; a line of in-wall, in-ceiling and outdoor loudspeakers; and a line for the cinema and movie theater market.

From the early 1990's through 1999 we derived substantially all of our

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

revenue from marketing, renting, selling and installing sound and lighting systems under the name Sound and Lighting Specialist Inc. In June 1999, due to the favorable customer acceptance of our custom-designed loudspeaker systems, we ceased these historical operations and began focusing all efforts towards becoming a loudspeaker manufacturer and selling to dealers and contractors on a wholesale basis. As a result, we have been essentially in a development stage, as we are bringing to market products that we introduced in 2000 and 2001 and designing and bringing to market additional products.

We began selling loudspeakers in June 2000 when we introduced our Professional Line. We introduced our other lines of speakers in subsequent years, with the most recent being the Cinema line, which we started selling in 2004. Our products are primarily sold through a network of approximately 200 dealers for our Professional and Commercial lines, 20 dealers for our Home Theater line, and 15 foreign distributors. We recently began selling products directly through a corporate sales department that targets major "big box" retailers.

SLS International, Inc. was formed on July 25, 2000 and had no previous operations. On the same date, this corporation merged with Sound and Lighting Specialist Inc., its sole shareholder, and SLS International, Inc. was the surviving corporation. The information in this section should be read together with the financial statements, the accompanying notes to the financial statements and other sections included in this report.

RECENT EVENTS

On January 4, 2005, we completed a private placement of our newly designated Series C Convertible Preferred Stock for an aggregate purchase price of \$15 million. The investors also received five-year warrants to purchase an aggregate of 6,000,000 shares of our common stock at an exercise price of \$6.00 per share, subject to certain adjustments. The securities were purchased by BayStar Capital II, L.P., PSO Trading IV, LLC, HFTP Investment L.L.C., and Royal Bank of Canada. The preferred stock is initially convertible, at the holder's option, into an aggregate of 6,000,000 shares of our common stock, at a conversion price of \$2.50 per share, subject to certain adjustments, and accrues a 6% premium to the stated value of the shares of preferred stock, which would be convertible into additional shares of common stock. We may redeem the warrants (or require the holder to exercise them) and may require holders to convert the preferred stock to common stock if certain conditions are met.

In a private placement that closed on July 27, 2004, we sold 272,100 shares of our Series B Preferred Stock for \$5,442,000, which have converted or are convertible into 2,721,000 shares of our common stock. We also issued a total of 2,846,000 Class C Warrants, 2,721,000 of which were attached to shares of the Series B Preferred Stock and 125,000 of which were issued to Kenny Securities for services as a placement agent.

In March 2004, we completed a merger of Evenstar, Inc. into a newly formed, wholly owned subsidiary. As a result of the merger, we now own, through the subsidiary, certain technologies and proprietary rights, including those embodied in one issued patent and one patent application. The technologies consist of digital amplification technologies that we intend to use in our loudspeakers and in stereo amplifiers in a product line complementary to our loudspeakers. We intend to sell these products through our current distribution channels, as well as through relationships that we expect to develop with mass merchandisers and real estate developers. In exchange for such technologies, we paid \$300,000 in cash and issued 300,000 shares of our common stock to the seller.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

We entered into a lease agreement with Bull Creek Ranch LLC on December 4, 2004. Pursuant to the agreement, we agreed to lease approximately 150,000 square feet of property in Ozark, Missouri through February 28, 2010 at a base rent of \$18,750 per month for the first twelve months and \$28,125 thereafter, with adjustments and additional charges set forth in the agreement. The lease agreement also provided us with an option to purchase the property for \$3,500,000, increasing by 5% for each year after the first year of the lease term. On February 3, 2004, we purchased the property for \$3,500,000, pursuant to the option to purchase. As a result, the lease agreement terminated. John Gott, our President, Chief Executive Officer and a Director, is a manager of, and a member owning a 50% interest in, Bull Creek Ranch LLC. As a result, Mr. Gott had a material interest in the lease agreement and in our purchase of the property.

DEVELOPMENT

Initially, we engaged in the direct sale and installation of sound systems for various customers and rented lighting and sound equipment. The business evolved into the business of designing cabinets for loudspeaker systems for sale and installation. We manufactured the cabinets and purchased the components, which consisted of compression drivers and woofers from independent manufacturers, and sold and installed the systems for our customers. The compression drivers make the high frequency or treble sounds and the woofers make the low frequency or bass sounds. During 1994, we expanded our line of loudspeaker systems to include speakers that used ribbon drivers instead of compression drivers. At that time, we purchased the ribbon drivers from an independent manufacturer.

As we developed our ribbon driver line of loudspeakers we relied on our Tef 20 computer acoustic measurement system to analyze and measure sound waves. This system is the industry standard for loudspeaker designing and is used by most of the major loudspeaker manufacturers in the design and manufacture of loudspeaker systems. Our Tef 20 system indicated that the ribbon driver systems that we were designing were superior in several ways to the compression driver systems that we previously used. The ribbon driver system had a smoother frequency response. The level of mid-range sound and treble sound that the ribbon driver systems were producing was more even and therefore the loudspeaker reproduced sound it received in a more natural manner. Also, the ribbon driver did not produce the same level of distortion when played at higher sound pressure levels, as compared to the compression driver. This resulted in a positive reaction from our customers to the quality of sound, and as a result we

2

decided to change our overall strategy. We determined to focus our efforts solely on the manufacture and sale of lines of ribbon driver speaker systems. We sell our speaker systems in seven product lines:

- o The Professional Contractor Speaker System, a more expensive "professional" line
- o The Universal Series Speaker System, a less expensive "commercial" line
- o The Home Theatre Speaker Systems
- o The Studio Series, for recording and broadcast studios
- o The Ribbon Line Array (RLA) Series, for contractor installations and touring companies
- o The Design Series, consisting of in-wall, in-ceiling and outdoor speakers for home theater and commercial installations
- o The Cinema Line for the cinema and movie theater market

The market for the ribbon driver product line is new and growing. Our

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

future success is uncertain because the loudspeaker market is experiencing rapid technological advances, changing customer needs and evolving industry standards. To realize our expectations regarding our operating results, we will depend on:

- o Market acceptance of our ribbon driver products
- o Our ability to compete in quality, price and customer service for our products
- o Our ability to develop, in a timely manner, new products and services that keep pace with developments in technology
- o Our ability to meet changing customer requirements
- o Our ability to enhance our current products and services and deliver them efficiently through appropriate distribution channels

We estimate that we spent \$200,000 in 2003 and \$150,000 in 2004 on research and development activities. None of these costs are borne directly by our customers.

TECHNOLOGY

The function of loudspeakers is to increase the volume of sound in order to enable the sound to be heard by many people occupying a large area. For many years, the loudspeaker industry used certain types of components to increase the volume of sound. The technology originally permitted only the types of components that required low electrical power in order to achieve high-volume sound. In the past, loudspeakers consisted in part of a component called the compression driver. This device generally is used to reproduce the mid-range and high frequencies of sound. Early compression drivers consisted of a diaphragm made of a linen-based manmade resin material that is enclosed in a chamber. This diaphragm was generally formed as a partial sphere, similar to a ball that has been cut in half. The edges of the diaphragm were then wound many times with a fine electrical wire called a voice coil. Electrical current from an amplifier is sent through the wire and the diaphragm vibrates to produce the sound wave. However, in the compression driver, the diaphragm is enclosed in a chamber with the sound exiting out of a relatively small hole that increases the velocity of the sound, similar to forcing air or water through a small hole to increase its velocity. The disadvantage of the compression driver is that before the sound waves are forced through the small hole they are first bounced around inside the chamber and become distorted and tend to produce listening fatigue for audiences. Today the compression drivers use a diaphragm made from aluminum and titanium and can produce the same high volume but with higher frequency sounds.

3

Although today's compression drivers are superior to those of the past due to the new materials, the negative aspects still exist to a degree because of the nature of the design of the compression driver.

Ribbon drivers work in a different manner than compression drivers. The diaphragm of the ribbon driver is a flat piece of mylar plastic or, in the case of our ribbon drivers, a high temperature Kapton plastic. These materials are considerably thinner and lighter than the linen or even the aluminum or titanium diaphragms of the compression drivers. The ribbon diaphragm is laminated on one side with a thin coating of aluminum. This aluminum is then chemically etched to leave wire-like traces of aluminum that act as a voice coil, vibrating the diaphragm when current is applied. The diaphragm of the ribbon driver is not in a chamber and is open and visible to the air. The sound waves are not restricted and therefore they do not have the distorted properties of the compression driver. Because the diaphragm of the ribbon driver is so thin and light it reacts very quickly to the electrical signal and does not introduce new or resonated sounds created by the material of the diaphragm itself. This enables

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

the ribbon driver to produce a more pure reproduction of the sound source without adding any tones of its own.

In 1994, we purchased several ribbon drivers from a non-affiliated European company to determine if they could be used in our loudspeaker systems. Prior to this, we were only using compression drivers. We immediately noticed the difference in the quality of sound and began to install the ribbon drivers in some of our own smaller speaker cabinets that did not require high electrical power. Due to the positive response from our customers we decided to develop a completely new product line using the ribbon drivers that we purchased from the European manufacturers.

In February 2000, we retained Igor Levitsky, an electro-acoustics engineer, to develop a new technology ribbon driver for us. We requested that he develop two different-sized ribbon drivers and we paid a fixed fee for his work. In April 2001, Mr. Levitsky became our employee.

The ribbon driver that we have developed uses new lightweight high-powered magnets and plastics that can withstand high temperatures. This enables the speaker system to have increased power-handling ability and higher sound volume with substantial reliability and clarity. We developed our own proprietary ribbon driver, models PRD 500, a 5-inch version of the ribbon driver, and PRD 1000, a 6-inch version. In 2001, we began directly manufacturing models PRD 500 and PRD 1000. The direct manufacture of ribbon drivers substantially reduces our product cost, and it also provides improved performance for our loudspeaker systems. Sales of the Commercial line and Professional line of loudspeakers with direct-manufactured ribbon drivers began in 2001. The Studio Series, the RLA Series and the Design Series were all developed in 2002 and 2003 and use our ribbon drivers or ribbon drivers that we purchase from Bohlender & Graebener Corporation. In March 2004 we displayed our Cinema line of loudspeakers for the first time at the annual Show West Cinema trade show, and in December 2004, we made our first installation of cinema systems using the PRD 500 and 1000 ribbon drivers.

PRODUCTS

We sell our speaker systems in seven product lines:

- o The Professional Contractor Speaker System, a more expensive "professional" line
- o The Universal Series Speaker System, a less expensive "commercial" line
- o The Home Theatre Speaker Systems
- o The Studio Series, for recording and broadcast studios
- o The Ribbon Line Array (RLA) Series, for contractor installations and touring companies
- o The Design Series, consisting of in-wall, in-ceiling and outdoor speakers for home theater and commercial installations
- o The Cinema Line for the cinema and movie theater market

Our Professional Contractor Speaker System line now consists of eighteen models of speaker systems, each model consisting of a speaker cabinet and components of woofers that provide the bass sounds and ribbon drivers that provide the treble sounds. This line, the cabinets of which we generally manufacture, is usually sold to large contractors and installed in churches, theatres, school auditoriums, casinos, night clubs and touring production companies. Although we now manufacture our own ribbon drivers, the woofers are manufactured to our specifications by non-affiliated manufacturers.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

Our Commercial line, the Universal Series Speaker System, consists of lower-cost speakers that are designed to be sold by music stores for orchestras, disc jockeys and the less expensive commercial market. There are twelve models of different size, with less expensive components that produce varying sound levels and area coverage capabilities. These models are equal in quality to, but do not produce the sound levels of, our Professional Contractor Speaker System Line.

We recently developed a new line of loudspeakers for the home theatre market. We intend to direct a substantial effort to capture a greater share of the home theatre market. The home theatre market requires equipment that uses five or more speakers placed around a room. This configuration provides the listener with "surround sound" similar to a movie theatre experience. Almost all current movies are now produced in surround sound, which uses at least five speakers plus a sub-woofer system. Our Home Theatre Loudspeaker System consists of four models that use the smallest unit of our Professional Contractor Loudspeaker System as their basis. We manufacture the cabinetry and the ribbon drivers for this system, our PRD 500. These systems are designed for the boardroom and for the home.

Our efforts in home theater marketing have led us to market and offer in-wall and in-ceiling speakers for the home theater and commercial segment of our industry. These products are called our Design Series and are being specified in many installations. We have developed a new less-expensive 5.1 Home Theater system, which is now in production. It is in stock and being sold through our existing and new home theater dealers.

In conjunction with our development agreement with entertainer Quincy Jones, we have been in the design and initial production stages of several new Home Theater products. The Q Line Silver has completed the prototype development stage and is now being produced. We have offered this product line to one of the "big box" retailers in the U.S. and we expect it to be available for sale around September 2005. We are also in production of models of the Q Line Gold, and negotiations are underway to place these products in similar retail outlets in late 2005. We are anticipating that sales of these products will bring a significant revenue stream over the next few years and will increase the visibility of the SLS brand to the consumer.

Due to the unique design of our ribbon drivers we have developed a new series of speaker systems for the contractor installation and touring sound reinforcement markets. These products are part of our new RLA Series. This line has been receiving high acclaim in the industry and we have installed this product line in many prestigious locations.

5

We have developed two new models of speaker systems for the recording studio and broadcast markets and have added them to our existing in-studio speaker that was originally part of our Professional line. We are now designating these three different speaker models as our Studio Series.

We re-packaged certain models of our Professional Contractor Sound Systems and Universal Series for the cinema and movie theatre market by simplifying the cabinetry. In a typical movie house, the speakers are usually not displayed in view of the public, which allows for simplified cabinetry. The new cabinetry is designed to be less costly, as are the other components, which we expect to provide our representatives with a cost advantage in marketing our system to cinema owners. At present, a total of ten models have been repackaged for this line. They were introduced to cinema companies in 2004.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

Revenue from our ribbon driver product lines is expected to account for a material portion of our revenue for the foreseeable future. Our financial performance will depend on market acceptance of our ribbon driver technology and products. The sound system industry continually introduces technological developments, frequently announces new products, and has evolving industry standards and changing customer requirements. As a result, if our ribbon driver technology and product line do not rapidly achieve sufficient market acceptance, we may not be able to achieve expected revenues or profits.

MANUFACTURING AND SOURCING

We generally design and manufacture our own cabinets for our product lines, and on occasion contract certain models manufactured by independent, established, local and other woodcrafters. These manufacturers construct the cabinetry to our specifications. Our ribbon drivers are either directly manufactured or purchased from a non-affiliated manufacturer, Bohlender & Graebener Corporation. The principal suppliers of our woofers are Belisle Acoustics, Eminence, PHL and Seas Speaker Component Manufacturers. The manufacture of our own ribbon drivers has resulted in a meaningful reduction in costs, and we expect that it will enable our products to be more competitively priced.

Our sources of supply of other component sub-parts are all competitively priced and we have a sufficient number of other sources of supply available to us should the need arise for additional components. If a termination of an existing relationship with any current supplier occurs we do not expect to have any difficulty in replacing that source.

SALES AND MARKETING

Our sales and marketing force has increased significantly over the past year. A national sales manager that joined us at the end of 2003 has added to, or replaced, independent sales representative firms for several sales territories in the U.S. We have also added an international sales representative for the Far East and Southern Hemisphere, and his efforts have increased our distribution in that area to six countries. We also added a director of technical communications in the first quarter of 2004, and he has been traveling extensively in the U.S. and internationally, speaking on our behalf at many trade shows and marketing meetings. His main focus has been to educate the independent audio consultants about our technology, products and advantages.

6

In the first quarter of 2005, we added two highly-qualified regional sales managers to assist the national sales manager in working with our independent sales representatives across the U.S. We expect these regional sales managers to increase our market coverage. We also added an experienced director of field engineering who will work with our acoustical consultants and our design and production contractors in the specifications of our products for projects and larger venue installations.

Our corporate sales department and our independent consultants are building strong relationships with potential customers including several of the world's leading "big box" retail outlets. We expect to enter into sales agreements with some of these companies in 2005. Also, our first Cinema Line installation has been well received, several national cinema chains have auditioned our products, and several large orders have been placed for delivery in 2005. These early results indicate that the Cinema Line will become a good source of revenue in the coming years.

Domestic. In addition to advertising in trade journals and attending

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

industry conventions for promotion and sale of our products, we have established a network of dealers, contractors and distributors. Currently, we have approximately 200 dealers for our Professional and Commercial lines, 20 dealers for our Home Theatre line, and 15 international distributors for our Professional, Commercial, and Home Theater lines. These outlets sell our products in approximately three-quarters of the U.S. and 15 foreign countries. The dealer agreements may be terminated without cause by either party on 30 days notice.

We train the sales representatives to enable them to deal more easily with customer questions, and two in-house customer service specialists assist the sales team. As manufacturers, we are always available to respond to inquiries of customers and potential customers, if and when required. Although we are small in comparison to the industry leaders, we are seeking to become established in a niche market consisting of commercial and residential customers who are interested in a truer reproduction of sound.

In 2004, approximately 41.1% of our sales were our RLA Series systems (compared to 55.6% in 2003), 14.2% were our Professional Contractor systems (15.9% in 2003), 14.1% were our Universal Series systems (8.6% in 2003), 13.7% were our Home Theatre Systems (10.2% in 2003), 6.5% were our Design Series systems (1.5% in 2003), 3.5% were our Cinema line systems (0 in 2003), 1.3% were our Studio Series systems (2.7% in 2003), and 5.6% were miscellaneous revenue (5.4% in 2003). Miscellaneous revenue primarily consists of spare and replacement parts.

International. We are also engaged in marketing and promotion internationally. Our international business involves a number of risks, including:

- o foreign currency exchange fluctuations
- o political and economic instability
- o difficulty in managing distributors or sales representatives
- o tariffs and other trade barriers
- o complex foreign laws and treaties including employment laws

Because our sales are in U.S. currency, foreign currency exchange fluctuations could materially affect us negatively. A decrease in the value of foreign currencies as they relate to the U.S. dollar could make the pricing of our products more expensive than products of our foreign competitors that are priced in foreign currencies. Because of the fluctuating exchange rates and our involvement with a number of currencies, we are unable to predict future operating results.

7

In the future we expect to make significant investments in our operations, particularly to support technological developments and sales activities. As a result, operating expenses are expected to continue to increase.

COMPETITION

Our main competitors are JBL Professional, a division of Harmon International, Inc.; Eastern Acoustics Works, Inc.; Meyer Sound, Inc.; Turbosound, Inc.; and Renkus-Heinz, Inc. Some of these companies have substantially greater assets and financial resources than we do. Most of the competitors compete in both the higher-priced, more sophisticated line of loudspeaker systems, which are similar to our Professional Contractor Speaker Systems, and the lower-priced, less sophisticated line of loudspeaker systems, similar to our Universal Series Speaker Systems. Meyer Sound and Renkus-Heinz

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

are engaged only in the more expensive speaker systems. All of these competitors presently use the compression driver component in their sound systems. Although our ribbon driver products are new, the nature of the market for loudspeaker products is highly competitive and sensitive to the introduction of new products. As a result, we may experience increasing competition in the future.

Our success will depend, in part, upon our ability to continue to increase sales in our targeted markets. We may not be able to compete successfully with our competitors and the pressures from competitors may have a material adverse effect on us. Our success will depend in large part upon our ability to increase our share of our target market and to sell additional products to existing customers. However, future competition could result in price reductions, reduced margins or decreased sales of our products.

We currently compete primarily with the internal design efforts of larger and more established companies that have larger technical staffs, more established and larger marketing and sales organizations and significantly greater financial resources than we have. Such competitors may be able to respond more quickly to new or emerging technologies and changes in customer requirements. They are able to devote greater resources to the development, sale and promotion of their products than we are able to devote. They may develop products that are superior in certain respects to our products or may develop products that achieve greater market acceptance.

PROPRIETARY TECHNOLOGY

We are the owners of the proprietary ribbon driver technology for our models PRD 500 and PRD 1000. We have no patents on this technology. However, we filed a patent application in September 2002. Although we have filed for a patent we cannot be certain that a patent will be granted, or that it will give us an advantage over our competitors.

On March 12, 2004, we acquired Evenstar, Inc., by a merger with and into our newly formed, wholly owned subsidiary, Evenstar Mergersub, Inc. Evenstar is the owner of one issued patent and a second patent that was issued in September 2004. The patents are for Evenstar's digital amplification technology, which provides for substantially reduced production costs compared to amplifiers of comparable quality. During the remainder of 2004 Evenstar's founder, an electrical engineer who joined SLS after we acquired his company,

8

has been developing several models of the Evenstar amplifiers and making them ready for production. We introduced one of these models at the Audio Engineering Society convention in the fall of 2004 and it received a favorable response. The first Evenstar self-amplified SLS speakers are expected to be available for sale in the second quarter of 2005. Also, several Evenstar models have been developed for the new Q Line products, and we expect them to be in "big box" retail outlets in late 2005.

The laws of some foreign countries do not protect or enforce proprietary rights to the same extent as do the laws of the U.S. Also, our domestic and international competitors may develop other technology that produces results similar to our technology. We expect that some loudspeaker products may be subject to patent infringement claims as the number of products and competitors in our industry grows. As a result, third parties may assert patent infringement claims against us in the future, and the claims may not be resolved in our favor. Any such claims, with or without merit, could be time-consuming and may result in costly litigation. The claims may also require us to enter into royalty or licensing agreements. The royalty or licensing

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

agreements, if they become necessary, may not be available on terms that are favorable to us, if at all. In addition, we may be forced to commence litigation in the future to protect our trade secrets or proprietary rights, or to determine the validity and extent of the proprietary rights of others. Any litigation could result in substantial costs and diversion of our energy and resources.

EMPLOYEES

As of March 2, 2005 we have a total of 30 employees, one of which is executive, four are administrative, four are in marketing and sales, one is in technical communications, four are in engineering, and sixteen are in production. In the past, we have employed additional temporary and part-time employees to meet production obligations and fill orders. There is presently no labor union contract between any union and us. We do not anticipate our employees will seek to form or join a union for the foreseeable future.

BUSINESS STRATEGY

We believe that maintaining consistent contact with distributors, customers and others in the industry and continued marketing through conventions and trade magazines will produce additional business. We believe marketing our products by the distributor/sales representative network is best suited to generate revenue. Sales by our Professional, Commercial, Cinema and Design Series distributors, as well as sales by our corporate sales department to "big box" retailers, are expected to be our primary source of business in coming years. As our products gain popularity in the Professional and Commercial markets, we expect to capitalize on our reputation and use it to market effectively to retail consumers. Our technology is becoming proven, and as we have shown by its versatility, we believe that it is a better way to produce sound for any application. We intend to continue to develop products for all segments of the consumer markets, including personal sound systems that include MP-3 players, headphones, personal stereo docking stations, personal computer sound systems, gaming system sound products and headphones as well as car audio and video systems. All of these markets have been reviewed and our technology has been implemented in several prototypes to compare to the competition. In addition, the sales representatives will enable us to monitor the effectiveness of our marketing program.

9

Our initial marketing efforts were in the area of church construction and performance theatre construction, as our larger speakers have been specifically designed for use in these venues.

We intend to continue advertising in trade journals and attending industry conventions to maintain our image as a competitor in the loudspeaker industry in the U.S. and internationally. We are seeking to derive profits and competitiveness by sales through the dealer network of our product line using our less costly ribbon driver, which we have manufactured since 2001. However, we cannot assure investors or predict profits from distributor sales or any other business activity.

We manufacture our own ribbon drivers, which provides cost savings compared to the cost of purchasing compression drivers and ribbon drivers from third parties. We believe that both the cost savings and the quality of the lower distortion, as demonstrated by our Tef 20 analysis device, provide us with competitive advantages to establish a place in the home, commercial and professional loudspeaker markets.

At the appropriate time, we intend to investigate possible strategic

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

alliances with key industry participants to strengthen our image, our product components and our distribution pattern. We cannot be certain that a future alliance opportunity will present itself or, if an opportunity is presented, that it will result in a profitable working relationship. It is likely that in some future financial quarter or quarters, our operating results will be below the expectations of securities analysts and investors. If a shortfall in revenue occurs, the market price for our common stock may decline significantly. The factors that may cause our quarterly operating results to fall short of expectations include:

- o our ability to develop and market our new ribbon driver loudspeaker products in a timely manner
- o the size and timing of customer orders
- o seasonality of sales
- o availability of capital
- o the degree and rate of growth of the markets in which we compete and the accompanying demand for our loudspeaker products
- o our suppliers' ability to perform under their contracts with us

Many of these factors are beyond our control. For these reasons, period-to-period comparisons of our financial results may not necessarily assist in forecasting our future performance.

RISK FACTORS

An investment in our common stock involves various risks, including those described in the risk factors below. You should carefully consider these risk factors, together with all of the other information included and incorporated by reference in this report, before you decide to invest in our common stock. If any of the following risks, or any other risks not described below, develop into actual events, then our business, financial condition, results of operations, or prospects could be materially adversely affected, the market price of our common stock could decline further and you could lose all or part of your investment.

10

RISKS RELATED TO OUR BUSINESS

WE HAVE A HISTORY OF LOSSES AND MAY NOT BE PROFITABLE IN THE FUTURE IF WE DO NOT ACHIEVE SUFFICIENT REVENUE TO ABSORB RECENT AND PLANNED EXPENDITURES.

We have experienced significant operating losses since investing in the development of ribbon driver technology in 1998 and, through December 31, 2004, have an accumulated retained deficit of approximately \$23,541,337. If we do not achieve continued revenue growth sufficient to absorb our recent and planned expenditures, we could experience additional losses in future periods. These losses or fluctuations in our operating results could cause the market value of our common stock to decline.

WE WILL DEPEND ON ADDITIONAL CAPITAL.

Our ability to implement our strategy and expand our operations largely depends on our access to capital. To implement our long-term strategy, we plan to make ongoing expenditures for the expansion and improvement of our product line and the promotion of our products. To date, we have financed our operations primarily through sales of equity and the issuance of notes. We will need to issue additional equity or other securities to obtain the financing required to continue our operations. However, additional capital may not be available on terms acceptable to us. Our failure to obtain sufficient additional capital

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

could curtail or alter our growth strategy or delay needed capital expenditures.

OUR DEPENDENCE UPON THIRD-PARTY DEALERS FOR SALES MAKES US VULNERABLE TO THE EFFORTS OF OTHERS WHICH ARE BEYOND OUR CONTROL.

Our distributors may not continue their current relationships with us and they may give higher priority to the sale of our competitors' products. In addition, to be effective, distributors must devote significant technical, marketing and sales resources to an often lengthy sales cycle. Our current and future distributors may not devote sufficient resources to market our products effectively and economic or industry conditions may adversely affect their ability to market or sell for us. A reduction in sales efforts or a discontinuation of distribution of our products by any distributor could lead to reduced sales and greater net losses.

WE MAY NOT GAIN MARKET ACCEPTANCE OF OUR RIBBON DRIVER TECHNOLOGY.

We believe that revenues from our ribbon driver product line will account for a material portion of our revenue for the foreseeable future. Our future financial performance will depend on the market acceptance of our ribbon driver technology and products. To date, we have had limited sales of products containing our new technology ribbon drivers. If our ribbon driver technology and product line do not gain sufficient positive market acceptance, we may not achieve anticipated revenue, profits or continued viability.

IN THE LOUDSPEAKER MARKET, WE ARE SUBJECT TO INTENSE COMPETITION.

Although our ribbon driver loudspeaker products are relatively new and emerging, the markets for loudspeaker products are extremely competitive and we expect such competition to increase. The market for sound enhancement products in general is intensely competitive and sensitive to new product introductions or enhancements and marketing efforts by our competitors. The market is sustained by ongoing technological developments, frequent new product announcements and introductions, evolving industry standards and changing

11

customer requirements. We expect to experience increasing levels of competition in the future. Although we have attempted to design our loudspeaker systems to compete favorably with competitive products, we may not be able to establish and maintain our competitive position against current or potential competitors. Aggressive competition could cause us to have sales and profitability below expectations.

IF WE ARE UNABLE TO HIRE OR RETAIN QUALIFIED AND SKILLED PERSONNEL AS NECESSARY, WE MAY NOT BE ABLE TO DEVELOP NEW PRODUCTS OR SUCCESSFULLY MANAGE OUR BUSINESS.

We believe our success will depend in large part upon our ability to identify, attract and retain highly skilled managerial, engineering, sales and marketing, finance and operations personnel. However, we may not be successful in identifying, attracting and retaining such personnel. Our success also depends to a great degree upon the continued contributions of our key management, engineering, sales and marketing, finance and manufacturing personnel, many of whom would be difficult to replace. In particular, we believe that our future success depends on John Gott, Chief Executive Officer. We presently maintain key person life insurance on Mr. Gott in the amount of \$5 million, but we do not have an employment contract with him. If we experience the loss of the services of any of our key personnel, we may be unable to identify, attract or retain qualified personnel in the future. This could make it difficult for us to manage our business and meet key objectives, or achieve

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

or sustain profits.

OUR PATENT APPLICATION MAY NOT BE ISSUED AND EVEN IF IT IS ISSUED, WE STILL MAY NOT BE ABLE TO ADEQUATELY PROTECT THE PATENT OR OUR OTHER INTELLECTUAL PROPERTY.

In September 2002, we filed a U.S. patent application on our proprietary ribbon driver technology. Our success will depend in significant part on our ability to obtain, preserve and defend U.S. patent protection for this technology. The patent may not be issued from the patent application. The issuance of a patent is not conclusive as to its validity or enforceability and, if a patent is issued, it is uncertain how much protection, if any, will be given to our patent if we attempt to enforce it. Litigation, which could be costly and time consuming, may be necessary to enforce our current patents or any patent issued in the future or to determine the scope and validity of the proprietary rights of third parties. A competitor may successfully challenge the validity or enforceability of a patent or challenge the extent of the patent's coverage. If the outcome of litigation is adverse to us, third parties may be able to use our patented technology without payment to us. Even if we are successful in defending such litigation, the cost of litigation to uphold the patent can be substantial. On March 12, 2004, we acquired Evenstar, Inc., by a merger with and into our newly formed, wholly owned subsidiary, Evenstar Mergersub, Inc. Evenstar is the owner of one issued patent and a second patent that was issued in September 2004. The patents are for Evenstar's digital amplification technology, which provides for substantially reduced production costs compared to amplifiers of comparable quality.

It is possible that competitors may infringe our patents or successfully avoid them through design innovation. To stop these activities we may need to file a lawsuit. These lawsuits are expensive and would consume time and other resources. In addition, there is a risk that a court would decide that our patent is not valid, that we do not have the right to stop the other party from using the inventions, or that the competitor's activities do not infringe our patent.

Our competitive position is also dependent upon unpatented technology and trade secrets, which may be difficult to protect. Others may independently develop substantially equivalent proprietary information and techniques that would legally circumvent our intellectual property rights. Currently, we have not registered any potential trademarks and we may not be able to obtain registration for such trademarks.

12

THE USE OF OUR TECHNOLOGIES COULD POTENTIALLY CONFLICT WITH THE RIGHTS OF OTHERS.

Our competitors, or others, may have or may acquire patent rights that they could enforce against us. If our products conflict with patent rights of others, third parties could bring legal actions against us or our suppliers or customers, claiming damages and seeking to enjoin manufacturing and marketing of the affected products. If these legal actions are successful, in addition to any potential liability for damages, we could be required to alter our products or obtain a license in order to continue to manufacture or market the affected products. We may not prevail in any legal action and a required license under the patent may not be available on acceptable terms or at all. The cost to us of any litigation or other proceeding relating to intellectual property rights, even if resolved in our favor, could be substantial.

WE MUST EXPAND OUR OPERATIONS TO COMMERCIALIZE OUR PRODUCTS, WHICH WE MAY NOT BE ABLE TO DO.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

We will need to expand and effectively manage our operations and facilities to successfully pursue and complete our commercialization efforts. We will need to add personnel, including management, and expand our capabilities, which may strain our existing managerial, operational, financial and other resources. To compete effectively and manage our growth, we must train, manage and motivate a substantially larger employee base, accurately forecast demand for our products and implement operational, financial and management information systems. In the event that we fail to expand or manage our growth effectively or if we cannot recruit qualified employees, our commercialization efforts could be curtailed or delayed.

WE MAY ACQUIRE OTHER BUSINESSES OR TECHNOLOGIES, AND WE MAY NOT BE ABLE TO INTEGRATE AND OPERATE THE ACQUISITIONS.

In March 2004 we acquired Evenstar, Inc. From time to time, we have considered the acquisition of other businesses or other technologies, and we continue to consider such acquisitions as opportunities arise. Some of these businesses and technologies, including Evenstar, are directly related to our business and others are not. If we make any such acquisitions, we may not be able to efficiently combine our operations with those of the businesses or technologies we acquire without encountering difficulties. These difficulties could result from a variety of issues, including incompatible operating practices, corporate cultures, product lines, or technologies. As a result, we may have difficulties in integrating, managing and operating the acquired businesses and technologies.

RISKS RELATED TO OUR SECURITIES

SINCE OUR COMMON STOCK IS THINLY TRADED, IT CAN BE SUBJECT TO EXTREME RISES OR DECLINES IN PRICE, AND YOU MAY NOT BE ABLE TO SELL YOUR SHARES AT OR ABOVE THE PRICE YOU PAID.

13

You may have difficulty reselling shares of our common stock. You may not be able to resell your shares at or above the price you paid, or at a fair market value. The stock markets often experience significant price and volume changes that are not related to the operating performance of individual companies. These broad market changes may cause the market price of our common stock to decline regardless of how well we perform as a company.

FUTURE SALES OF COMMON STOCK COULD DEPRESS THE PRICE OF OUR COMMON STOCK.

Future sales of substantial amounts of our common stock pursuant to Rule 144 under the Securities Act of 1933 or otherwise could have a material adverse impact on the market price for the common stock at the time. On February 1, 2005, there were approximately 25,011,318 outstanding shares of our common stock held by stockholders that are deemed "restricted securities" as defined by Rule 144 under the Securities Act. The resale of many of these shares has been registered on a registration statement filed with the U.S. Securities and Exchange Commission. Upon sale pursuant to such registration statement, the shares would no longer be restricted securities. Also, under certain circumstances, these shares may be sold without registration pursuant to the provisions of Rule 144. In general, under Rule 144, a person (or persons whose shares are aggregated) who has held the stock for one year may, under certain circumstances, sell within any three-month period a number of restricted securities that does not exceed the greater of 1% of the shares outstanding or the average weekly trading volume during the four calendar weeks preceding the notice of sale required by Rule 144. In addition, Rule 144 permits, under certain circumstances, the sale of restricted securities without any quantity limitations by a non-affiliate who has held the security for two years. Any

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

sales of shares by stockholders pursuant to a registration statement or Rule 144 may have a depressive effect on the price of our common stock.

WE MAY HAVE LIABILITY FOR PRIOR ISSUANCES OF OUR STOCK.

From May 1, 2002 through May 10, 2004, warrant holders exercised 2,545,800 of our Class A Warrants and 22,600 of our Class B Warrants for a total of 2,568,400 shares of common stock. The warrant holders paid an aggregate of \$1,340,700 for these exercises. From May 1, 2002 through May 10, 2004, the registration statement that we filed with the U.S. Securities and Exchange Commission to register the common stock issuable upon exercise of these warrants may not have been "current" because the registration statement had not been amended to include our most recent audited financial statements. As a result, the former warrant holders may be entitled to demand a rescission of their previous exercises of common stock. We intend to make a rescission offer to all warrant holders who exercised warrants during the period from May 1, 2002 through May 10, 2004. Once made, the rescission offer is expected to remain open for 30 days. The rescission offer would require us to repurchase the shares of common stock issued upon exercise of the warrants at their original exercise price, \$.50 for the Class A Warrants and \$3.00 for the Class B Warrants, at each warrant holder's option. If all warrant holders accepted the rescission offer, we would be required to pay \$1,340,700 plus interest, which amount would be reduced to the extent of the proceeds from any sales of the underlying common stock by the former warrant holders. Acceptance of the rescission offer by all former warrant holders could have a material adverse effect. The current market price is over the \$.50 exercise price of the Class A Warrants, and if that remains true, we would expect no former holders of Class A Warrants to accept the rescission offer. The current market price is below the \$3.00 exercise price of the Class B Warrants. Only 22,600 Class B Warrants were exercised during the rescission offer period, making our potential rescission liability to the former Class B Warrant holders equal to \$67,800 plus interest, which amount would be reduced to the extent of any sales of the underlying common stock by the former warrant holders.

14

SHARES OF CONVERTIBLE PREFERRED STOCK MAY NOT HAVE BEEN VALIDLY ISSUED.

In 2001 - 2003, we sold shares of our Convertible Preferred Stock, which is sometimes reflected in our financial statements as our Series A Preferred Stock. We subsequently discovered that the certificate of designation for the Convertible Preferred Stock had not been filed, and we made such filing in December 2004. The delay in filing the certificate of designation may have resulted in the shares of Convertible Preferred Stock not being validly issued under Delaware law. We are assessing the effects of the delay and determining what actions we will take, if any, to remedy the effects of the delay. To date, we have issued 1,891,473 shares of the Convertible Preferred Stock, all of which were issued prior to the filing of the certificate of designation and 350,873 of which remain outstanding. All other shares have converted to common stock on a 10-to-1 basis, at a conversion price of \$0.25 per share.

OUR INTERNAL CONTROLS OVER FINANCIAL REPORTING MAY NOT BE EFFECTIVE AND OUR INDEPENDENT AUDITORS MAY NOT BE ABLE TO CERTIFY AS TO THEIR EFFECTIVENESS.

We are evaluating our internal controls over financial reporting in order to allow management to report on, and our independent auditors to attest to, our internal controls over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act of 2002 and rules and regulations of the SEC thereunder. We are currently performing the system and process evaluation and testing required (and any necessary remediation) in an effort to comply with management certification and auditor attestation requirements of Section 404.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

The management certification and auditor attestation requirements of Section 404 will initially apply to us as of either December 31, 2005 or December 31, 2006. In the course of our ongoing Section 404 evaluation, we will seek to identify areas of internal controls that need improvement and to design enhanced processes and controls to address these and any other issues that might be identified through this review. In the evaluation process, we may identify conditions that may result in significant deficiencies or material weaknesses in the future.

We cannot be certain as to the timing of completion of our evaluation, testing and any remediation actions or the impact of the same on our operations. If we are not able to implement the requirements of Section 404 in a timely manner or with adequate compliance, our independent auditors may not be able to certify as to the effectiveness of our internal control over financial reporting and we may be subject to sanctions or investigation by regulatory authorities, including the SEC. As a result, there could be a negative reaction in the financial markets due to a loss of confidence in the reliability of our financial statements. In addition, we may be required to incur costs in improving our internal control system and the hiring of additional personnel. Any such action could negatively affect our results.

We expect to incur expenses of an aggregate of approximately \$200,000 in 2005 in connection with our compliance with Section 404.

CERTAIN RESTRICTIVE COVENANTS MAY LIMIT OUR ABILITY TO RAISE ADDITIONAL CAPITAL AND AFFECT OTHER ASPECTS OF OUR BUSINESS.

In our January 2005 private placement of Series C Preferred Stock and warrants, we entered into a securities purchase agreement with the investors. The agreement contains numerous covenants that limit our financing and other activities, including those described in the following paragraphs.

15

So long as at least 3,750 shares of the Series C Preferred Stock are outstanding and held by the original purchasers thereof, we may not pay any cash dividends, make distributions, redeem or repurchase any capital stock, or repay or prepay any indebtedness of ours other than as expressly required pursuant to the terms of such indebtedness.

So long as any shares of the Series C Preferred Stock are beneficially owned by the original purchasers thereof, we may not issue or sell any rights, warrants or options to subscribe for or purchase our common stock, or any other securities directly or indirectly convertible into or exchangeable or exercisable for our common stock, at an effective conversion, exchange or exercise price that varies or may vary with the market price of our common stock.

Prior to January 3, 2007, the investors in the January 2005 private placements have a right to participate in any issuance of equity securities, equity-linked securities, or convertible debt, subject to certain exceptions. The participation rights may prevent other potential investors from making offers for, or entering into agreements to purchase, our securities and thereby limiting our ability to raise capital.

WE ARE OBLIGATED TO REDEEM OUR SERIES C PREFERRED STOCK UPON THE OCCURRENCE OF CERTAIN EVENTS.

Pursuant to the terms of the certificate of designation for our Series C Preferred Stock, we are required to redeem the Series C Preferred Stock upon the occurrence of certain events, including the following:

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

- o our common stock is suspended from trading on any of, or is not listed or quoted (and authorized) for trading on at least one of, the New York Stock Exchange, the American Stock Exchange, the Nasdaq National Market, the Nasdaq SmallCap Market or the Nasdaq Over-The-Counter Bulletin Board for an aggregate of ten or more trading days in any twelve-month period;
- o the registration statement of which this prospectus is a part, after being declared effective, cannot be used by the holders of Series C Preferred Stock for the resale of all of the common stock issuable to them for an aggregate of more than 20 days, subject to certain exceptions;
- o we make an assignment for the benefit of creditors, or apply for or consent to the appointment of a receiver or trustee for us or for a substantial part of our property or business, or such a receiver or trustee shall otherwise be appointed;
- o bankruptcy, insolvency, reorganization or liquidation proceedings or other proceedings for the relief of debtors shall be instituted by or against us or any subsidiary of ours and if instituted against us or any of our subsidiaries by a third party, shall not be dismissed within 60 days of their initiation;
- o if at least 3,750 shares of Series C Preferred Stock are outstanding and held by the original purchasers thereof and we do any of the following:

16

- (a) sell, convey or dispose of all or substantially all of our assets;
 - (b) consummate specified mergers, consolidations or business combinations;
 - (c) engage in transactions providing for sales or issuances by us or our stockholders that result in the purchaser owning or having the right to acquire greater than 35% of the outstanding shares of our common stock (calculated on a fully diluted basis); or
 - (d) issue or agree to issue any equity or equity-linked securities or debt that is convertible into equity or in which there is an equity component, subject to certain exceptions;
- o we either fail to make any payment with respect to any of our indebtedness in excess of \$250,000, subject to certain exceptions, or default under any agreement binding us, subject to certain exceptions; or
 - o we breach any material term under the certificate of designation for our Series C Preferred Stock, the Series C Preferred Stock securities purchase agreement, the registration rights agreement or the warrants attached to the Series C Preferred Stock, subject to certain exceptions.

Any such redemption would be made at a premium in excess of the purchase price of the shares of Series C Preferred Stock, as determined by a formula set forth in the certificate of designation for the Series C Preferred Stock. These requirements may cause us to pay a significant amount of money to redeem the Series C Preferred Stock or may cause us to avoid taking certain actions in order to prevent the occurrence of such redemption requirement.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

WE MAY BE REQUIRED TO PAY SUBSTANTIAL AMOUNTS TO THE INVESTORS IN OUR JANUARY 2005 PRIVATE PLACEMENT UPON THE OCCURRENCE OF CERTAIN EVENTS.

In connection with the January 2005 private placement of our Series C Preferred Stock and warrants, we agreed to file a registration statement to register the resale of shares of our common stock by the investors in the private placement. We have an obligation to register additional shares that may be issuable from time to time as a result of potential adjustments to the preferred stock and warrants. We filed a registration statement to register the resale of these shares, and the registration statement was declared effective in February 2005.

We could be required to pay amounts to each investor upon the occurrence of certain events, including (a) the number of the investors' shares registered on the registration statement is less than the number then issued or issuable to such investors pursuant to the Series C Preferred Stock and warrants; (b) sales of our common stock can not be made pursuant to the registration statement; or (c) our common stock is not traded, listed or included for quotation, as applicable, on the Nasdaq Over-The-Counter Bulletin Board, certain stock exchanges or certain automated quotation systems. Each of the foregoing events are, to some extent, beyond our control.

If any of the foregoing events occur, then we would be required to pay each investor an amount equal to the product of (x) the number of shares of Series C Preferred Stock held by such investor (plus any shares of preferred stock that have been converted into shares of our common stock then held by such investor as if such shares of preferred stock had not been so converted) multiplied by the per share purchase price, multiplied by (y) .01, for each

17

thirty-day period (or portion thereof) beginning April 3, 2005 and ending July 2, 2005, and .02 for each thirty-day period beginning July 2, 2005 (or portion thereof) and prior to the date the registration statement is declared effective by the SEC. Assuming that the 6,000,000 shares of Series C Preferred Stock currently outstanding remain the number outstanding during such periods, then the amounts payable pursuant to such provisions are \$150,000 through July 2, 2005 and \$300,000 thereafter.

ITEM 2. PROPERTIES.

We lease and operate in 32,000 square feet of office and factory space at our current headquarters address from a nonaffiliated landlord. The lease expired August 31, 2004 and we continue to occupy the space on a month-to-month basis at a monthly rental of \$6,650. Our facility is divided into four equal 3,000 square foot sections that are internally connected plus two 7,500 square foot adjoining sections and one 5,000 square foot warehouse. One of the 3,000 square foot sections is used for cabinet fabrication; another is used for storage of completed cabinets and component storage; the third is used for assembly and shipping; and the fourth is used for engineering and administration. One 7,500 square foot section is used for inventory, packaging and trade show materials storage and the other is used for (a) additional inventory space for the components and cabinets needed for planned increases in production, (b) additional engineering testing space to perform critical tests and produce data for sound system designers to provide specifications for products, and (c) on-site product demonstrations. These facilities are suitable for producing in excess of 300 finished speaker cabinets per week and for the production of up to 1,500 ribbon drivers per month. In addition, we have three subcontractor cabinet shops that add to our production capabilities. These companies are highly automated and can supply up to a total of 2,000 cabinets per week on scheduled notice.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

We entered into a lease agreement with Bull Creek Ranch LLC on December 4, 2004. Pursuant to the agreement, we agreed to lease approximately 150,000 square feet of property in Ozark, Missouri through February 28, 2010 at a base rent of \$18,750 per month for the first twelve months and \$28,125 thereafter, with adjustments and additional charges set forth in the agreement. We intend to move our headquarters to this location in the second quarter of 2005, at which time we will terminate our month-to-month lease of our current headquarters location. The lease agreement also provided us with an option to purchase the property for \$3,500,000, increasing by 5% for each year after the first year of the lease term. On February 3, 2004, we purchased the property for \$3,500,000, pursuant to the option to purchase. As a result, the lease agreement terminated. John Gott, our President, Chief Executive Officer and a Director, is a manager of, and a member owning a 50% interest in, Bull Creek Ranch LLC. As a result, Mr. Gott had a material interest in the lease agreement and in our purchase of the property.

In our opinion, the leased and owned properties are adequately covered by insurance.

ITEM 3. LEGAL PROCEEDINGS.

In February 2004, we entered into an agreement with the owners of SA Sound B.V. and SA USA, Inc., providing us with an option to acquire such companies at any time prior to February 27, 2004 for a purchase price of 370,000 euros. We paid 50,000 euros for this option. The option agreement entitled us to a return of the option purchase price if the sellers failed to negotiate such stock purchase agreement in good faith, or if our due diligence disclosed material adverse facts about the companies. After completion of our due diligence, we determined not to exercise the option, and we asserted our right to a return of the option purchase price. The sellers challenged the return of such price and we sued the escrow agent in the Supreme Court of the State of New York (SLS International, Inc. v. B&B Beneer B.V., Campex Holding B.V., Serge Van Tuyn and Marcel Van Tuyn filed July 27, 2004).

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

This item is inapplicable, as no matters were submitted to a vote of our security holders during the quarter ended December 31, 2004.

18

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER

MATTERS.

Our common stock began trading on the Over-the-Counter Bulletin Board under the symbol "SITI.OB" on June 27, 2001. The table below sets forth, by quarter, the sales information for our common stock as reported on the Over-the-Counter Bulletin Board in our last two fiscal years. This information reflects inter-dealer prices, without retail mark-up, mark-down or commission, and may not represent actual transactions.

BID PRICES

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

PERIOD	LOW	HIGH
Quarter Ended December 31, 2004	\$1.47	\$2.90
Quarter Ended September 30, 2004	\$1.25	\$2.85
Quarter Ended June 30, 2004	\$2.21	\$3.00
Quarter Ended March 31, 2004	\$2.65	\$3.46
Quarter Ended December 31, 2003	1.37	3.92
Quarter Ended September 30, 2003	0.75	1.85
Quarter Ended June 30, 2003	0.19	0.60
Quarter Ended March 31, 2003	0.20	0.45

On March 21, 2005, there were approximately 270 holders of record of our common stock, based on information furnished by our transfer agent. On March 21, 2005, the closing price of our common stock on the Over-the-Counter Bulletin Board was \$2.30 per share. We urge you to obtain current market quotations for shares of our common stock.

We have not paid any cash dividends in our past two fiscal years and do not anticipate paying cash dividends in the foreseeable future. We intend to retain future earnings to fund the development and growth of our business. Any payment of dividends in the future will be at the discretion of our board of directors and will be dependent upon our earnings, financial condition, capital requirements and other factors deemed relevant by our board of directors.

SALES OF UNREGISTERED SECURITIES DURING THE 2004 FOURTH QUARTER

In the fourth quarter of 2004, we issued an aggregate of 300,000 shares of common stock under consulting agreements entered into during the quarter. The issuances were made in reliance on Section 4(2) of the Securities Act of 1933, as amended.

There were no net proceeds from these issuances in the fourth quarter of 2004, as all such shares were issued in exchange for services. We did not use any registered securities broker-dealers in connection with any sales of stock.

STOCK OPTION PLAN

Our Board of Directors approved the SLS International, Inc. 2000 Stock Purchase and Option Plan (the "Plan") and the plan was approved by existing stockholders.

Our Board of Directors administers the Plan. The Plan affords key employees, officers, and consultants, who are responsible for our continued growth, an opportunity to acquire an investment interest in SLS, and to create in such individuals a greater incentive and concern for the welfare of SLS. By means of this 2000 Stock Purchase and Option Plan, we seek to retain the services of persons now holding key positions and to secure the services of persons capable of filling such positions.

We have reserved up to 2,000,000 shares of common stock for issuance upon exercise of options that may be issued from time to time under the Plan. The shares to be issued are subject to adjustment in the event of stock dividends, splits and other events that affect the number of shares of common stock outstanding.

Maximum Purchase. The options offered in the plan are a matter of separate inducement and are in addition to any salary or other compensation for the services of any key employee or consultant. The options granted under the plan are intended to be either incentive stock options or non-qualified or non-statutory stock options.

Option. Participants will receive such options as are granted from time to time by the Board of Directors. The option will state the number of shares and price of common stock to be purchased upon exercise of the options by the option holder.

Exercise Price. The purchase price per share purchasable under an option will be determined by the Board of Directors. However, for statutory options, the purchase price shall not be less than 90% of the fair market value of a share on the date of grant of such option. Furthermore, any option granted to a participant under the plan who, at the time the option is granted, is one of our officers or directors, the purchase price shall not be less than 100% of the fair market value of a share on the date of grant of such option. In the case of an incentive stock option granted to a participant who, at the time the option is granted, is a 10% stockholder, the purchase price for each share will be an amount not less than 110% of the fair market value per share on the date the incentive stock option is granted.

20

Term of Option. The term of each option shall be fixed by the Administrator which in any event will not exceed a term of 10 years from the date of the grant.

Termination of Employment. The Administrator will have the right to specify the effect to a participant upon his or her retirement, death, disability, leave of absence or any other termination of employment during the term of any option.

Amendments. The Board of Directors may amend, suspend, discontinue or terminate the Plan; provided, however, that, without approval of our stockholders, no such amendment, suspension, discontinuation or termination will be made that would (1) cause Rule 16b-3 under the Securities Exchange Act of 1934 to become unavailable with respect to the Plan; (2) violate the rules or regulations of any national securities exchange on which our shares are traded or the rules or regulations of the NASD that are applicable to us; or (3) cause us to be unable, under the Internal Revenue Code, to grant investment stock options under the Plan.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND

RESULTS OF OPERATIONS

OVERVIEW

We manufacture premium-quality loudspeakers and sell them through our dealer networks. The speakers use our proprietary ribbon-driver technology and are generally recognized in the industry as high-quality systems. We sell a Professional Line of loudspeakers; a Commercial Line of loudspeakers; Home Theatre systems; a line for recording and broadcast studios; a line for contractor installations and touring companies; a line of in-wall, in-ceiling and outdoor loudspeakers; and a line for the cinema and movie theater market.

From the early 1990's through 1999 we derived substantially all of our revenue from marketing, renting, selling and installing sound and lighting systems under the name Sound and Lighting Specialist Inc. In June 1999, due to the favorable customer acceptance of our custom-designed loudspeaker systems, we ceased these historical operations and began focusing all efforts towards becoming a loudspeaker manufacturer and selling to dealers and contractors on a wholesale basis. As a result, we have been essentially in a development stage, as we are bringing to market products that we introduced in 2000 and 2001 and designing and bringing to market additional products.

We began selling loudspeakers in June 2000 when we introduced our Professional Line. We introduced our other lines of speakers in subsequent years, with the most recent being the Cinema line, which we started selling in 2004. Our products are primarily sold through a network of approximately 200 dealers for our Professional and Commercial lines, 20 dealers for our Home Theater line, and 15 foreign distributors. We recently began selling products directly through a corporate sales department that targets major "big box" retailers.

SLS International, Inc. was formed on July 25, 2000 and had no previous operations. On the same date, this corporation merged with Sound and Lighting Specialist Inc., its sole shareholder, and SLS International, Inc. was the surviving corporation. The information in this section should be read together with the financial statements, the accompanying notes to the financial statements and other sections included in this report.

RESULTS OF OPERATIONS

Year ended December 31, 2004 as compared to the year ended December 31, 2003. For the year ended December 31, 2004, revenue increased to \$2,040,575 from \$968,245 in 2003, as a result of the further roll-out of our product line and customer acceptance of our products. Gross profit percentage decreased to 26% in 2004 from 38% in 2003, primarily as a result of new personnel that were in training and sales of several large systems at high promotional discounts.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

General and administrative expenses for 2004 increased to \$9,179,555 (\$5,115,554 of which were non-cash charges) from \$4,492,237 in 2003 (\$1,799,248 of which were non-cash charges). The following table compares categories of our general and administrative expenses in 2004 to 2003:

	Year Ended December 31, 2004	Year Ended December 31, 2003
	-----	-----
Non-cash G&A expense items:		
Charges for stock and options issued for consulting and investor relation services	\$4,179,266	\$1,799,248
Charges for options issued to directors and officers		
Impairment charge - Evenstar, Inc.	87,786	23,134
	848,502	0
	-----	-----
Total non-cash G&A expenses	5,115,554	1,822,382
Cash G&A expense items:		
Consulting and investor relation services		
Acquisitions - SA Sound	802,748	1,304,905
Impairment charge - Evenstar, Inc.	109,165	
Other cash G&A expenses	300,000	
	2,852,088	1,364,950
	-----	-----
Total cash G&A expenses	4,064,001	2,669,855
	-----	-----
Total G&A expenses	\$9,179,555	\$4,492,237
	=====	=====

Included in the increased general and administrative expenses are one-time charges totaling \$1,658,889 for promotional services provided by performing artist Quincy Jones through Global Drumz, Inc. Of these charges, \$1,408,889 are included in the table above as non-cash charges for stock and options issued for consulting and investor relation services and \$250,000 are included as cash charges for consulting and investor relation services.

In 2004 we reported an increased net loss of \$8,646,333 as compared to a net loss of \$3,979,341 in 2003, primarily as a result of the increased general and administrative expenses as well as a decrease in other income, which were partially offset by increased revenue.

Other income decreased to \$46,434 in 2004, compared to other income of \$145,864 in 2003, due primarily to other income recognized in 2003 from the write-off of accounts payable.

Year ended December 31, 2003 as compared to the year ended December 31, 2002. For the year ended December 31, 2003, revenue increased to \$968,245 from \$790,582 in 2002, as a result of the further roll-out of our product line and customer acceptance of our products. Gross profit percentage increased to 38% in 2003 compared to 32% in 2002, primarily as a result of decreased cost of goods sold for larger quantity purchases, higher margins for certain new products and decreased cost of goods sold from partial outsourcing of certain products.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

General and administrative expenses for 2003 increased to \$4,492,238 from \$2,468,565 in 2002, primarily as a result of increased expenses for consulting and investor relation services. In 2003, we spent an aggregate of \$3,104,153 for such services, \$1,799,248 of which was non-cash charges related to the issuance of stock or stock options for such services. In 2002, we spent an aggregate of \$1,303,770 for such services, \$1,074,229 of which was non-cash charges related to the issuance of stock for such services. Services rendered included promotional services, assistance with product promotion and distribution, business development services, marketing services, merger and acquisition services, public relations, investor relations, and capital raising. Excluding such consulting and investor relations services, our general and administrative expenses increased by \$223,290 in 2003. This increase is attributed to increases in advertising expenses, accounting and legal expenses, property lease expenses, equipment lease expenses, and additional employees, partially offset by a decrease in bad debt expense.

In 2003, primarily as a result of the increased general and administrative expense, which was partially offset by increased revenue and an improved gross profit percentage, we reported an increased net loss of \$3,979,341 as compared to a net loss of \$2,242,325 in 2002.

Other income (expense) increased to \$145,864 in other income in 2003, compared to other expense of \$27,099 in 2002, due primarily to write-offs of accounts payable, a change in reserves for doubtful accounts, and income received from accounts receivable that were previously written off.

FINANCIAL CONDITION

On December 31, 2004, our current assets exceeded current liabilities by \$12,229,108 as compared to December 31, 2003 when our current assets exceeded current liabilities by \$1,945,227. On December 31, 2004, net assets exceeded total liabilities by \$12,645,461 compared to December 31, 2003 when net assets exceeded total liabilities by \$2,249,489. The improvement in working capital was due primarily to increases in cash resulting from the closing of our private placement of Series B Preferred Stock in July 2004 and a deposit on a private placement of Series C Preferred Stock, which sale of Series C Preferred Stock closed in January 2005, as further discussed below. We also increased our inventory, purchased equipment and made leasehold improvements, all of which resulted in an improved working capital position, partially offset by an increase in accrued liabilities.

We have experienced operating losses and negative cash flows from operating activities in all recent years. The losses have been incurred due to the development time and costs in bringing our products through engineering and to the marketplace. In addition we have not paid notes payable and accounts payable on due dates. However, the private placements in 2004 and January 2005 improved our working capital position sufficiently so that the reports of our accountants on our 2004 financial statements did not contain any qualifications.

In 2004, 2003 and 2002, we entered into consulting agreements that required us to issue an aggregate of 3,815,452 shares of common stock, options to purchase 100,000 shares of Class A Preferred Stock (each such share of preferred stock converts into 10 shares of common stock), and options to purchase 2,500,000 shares of our common stock. Total expenses accrued under such agreements were \$3,807,030, \$2,443,056 of which has been amortized through December 31, 2004, and the remainder of which is to be amortized in subsequent periods over the respective terms of such agreements. The difference between such total expenses and the amount amortized is reflected as unamortized cost of stock issued for services on the balance sheet.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

Accounts receivable decreased slightly to \$271,429 on December 31, 2004, compared to \$277,665 on December 31, 2003.

Net fixed assets increased to \$427,304 on December 31, 2004, from \$320,193 a year earlier, due primarily to leasehold improvements for additional office space and new equipment, including office furniture and computers.

23

Accrued liabilities increased to \$630,503 on December 31, 2004 from \$26,138 on December 31, 2003, because we accrued \$600,000 of finder's fees payable in connection with the deposits on sales of Series C Preferred Stock, which closed in January 2005, as described below.

Compared to year-end 2003, we are currently experiencing a significantly improved cash position, as we had \$10,712,858 in cash on December 31, 2004. Nevertheless, in order to continue to expand operations and fulfill our business plan, we will likely be required to raise additional funds.

In 2004 we privately sold our Series B Preferred Stock for total net proceeds of \$5,102,250 in a private placement that commenced in March 2004 and closed in July 2004. We received funds from time to time upon sale of the preferred stock and placed the proceeds into our working capital upon receipt. Each share of Series B Preferred Stock is convertible into ten shares of our common stock six months after purchase. Prior to conversion, the shares have no voting rights. Attached to each preferred share are ten of our class C warrants. Each Class C Warrant has a term of three years and provides the right to purchase one share of our common stock at \$7.00 per share. The Class C Warrants are immediately exercisable and detachable from the preferred share. If the average closing market price for our common stock is equal to or greater than \$10.50 per share for a period of 30 days, then we are entitled to repurchase such warrants, with 30 days notice, at a price of \$.001 per warrant.

In addition, we had outstanding warrants that, upon exercise, provided additional proceeds of \$179,200 in 2004. The shares of common stock were issued pursuant to a registration statement declared effective by the U.S. Securities and Exchange Commission in 2001, registration statement number 333-43770. However, from May 1, 2002 through May 10, 2004, such registration statement may not have been "current" because the registration statement had not been amended to include our most recent audited financial statements. As a result, the former warrant holders may be entitled to demand a rescission of their previous exercises of common stock. We intend to make a rescission offer to all warrant holders who exercised warrants during the period from May 1, 2002 through May 10, 2004. Once made, the rescission offer is expected to remain open for 30 days. The rescission offer would require us to repurchase the shares of common stock issued upon exercise of the warrants at their original exercise price, \$.50 for the Class A Warrants and \$3.00 for the Class B Warrants, at each warrant holder's option. If all warrant holders accepted the rescission offer, we would be required to pay \$1,340,700 plus interest, which amount would be reduced to the extent of the proceeds from any sales of the underlying common stock by the former warrant holders. Acceptance of the rescission offer by all former warrant holders could have a material adverse effect. The current market price is over the \$.50 exercise price of the Class A Warrants, and if that remains true, we would expect no former holders of Class A Warrants to accept the rescission offer. The current market price is below the \$3.00 exercise price of the Class B Warrants. Only 22,600 Class B Warrants were exercised during the rescission offer period, making our potential rescission liability to the former Class B Warrant holders equal to \$67,800 plus interest, which amount would be reduced to the extent of any sales of the underlying common stock by the former

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

warrant holders.

On January 4, 2005, we completed a private placement of our Series C Convertible Preferred Stock for an aggregate purchase price of \$15 million. The investors also received five-year warrants to purchase an aggregate of 6,000,000 shares of our common stock at an exercise price of \$6.00 per share, subject to certain adjustments. The preferred stock is initially convertible, at the holder's option, into an aggregate of 6,000,000 shares of our common stock, at a conversion price of \$2.50 per share, subject to certain adjustments, and accrues a 6% premium to the stated value of the shares of preferred stock, which would be convertible into additional shares of common stock. We may redeem the warrants (or require the holder to exercise them) and may require holders to convert the preferred stock to common stock if certain conditions are met. On December 31, 2004, we were holding a deposit of \$8,849,420, reflected on the consolidated balance sheet as "Deposits on Preferred Stock, Series C," which was applied to the purchase of Series C Preferred Stock on January 4, 2005.

There is intense competition in the speaker business with other companies that are much larger and national in scope and have greater financial resources than we have. We will require additional capital to continue our growth in the wholesale speaker market. We are relying upon our ability to obtain the necessary financing through the issuance of equity and upon our relationships with our lenders to sustain our viability.

24

In the past, we have been able to privately borrow money from individuals by the issuance of notes and have sold our stock to raise capital. We intend to continue to do so as needed. However, we cannot be certain that we will continue to be able to successfully obtain such financing. If we fail to do so, we may be unable to continue as a viable business.

FORWARD-LOOKING INFORMATION

This report, as well as our other reports filed with the SEC and our press releases and other communications, contain forward-looking statements made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. Forward-looking statements include all statements regarding our expected financial position, results of operations, cash flows, dividends, financing plans, strategy, budgets, capital and other expenditures, competitive positions, growth opportunities, benefits from new technology, plans and objectives of management, and markets for stock. These forward-looking statements are based largely on our expectations and, like any other business, are subject to a number of risks and uncertainties, many of which are beyond our control. The risks include those stated in the "Risk Factors" section of this report and economic, competitive and other factors affecting our operations, markets, products and services, expansion strategies and other factors discussed elsewhere in this report and the other documents we have filed with the Securities and Exchange Commission. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained in this report will in fact prove accurate, and our actual results may differ materially from the forward-looking statements.

This item is inapplicable, as no such changes or disagreements have occurred.

ITEM 8A. CONTROLS AND PROCEDURES.

As of March 1, 2005, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2004 for purposes of preparation of this Annual Report on Form 10-KSB. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to December 31, 2004. However, as a result of the continuing expansion of our business, we are currently considering enhancements to our controls and procedures, particularly with respect to the preparation of our quarterly unaudited financial statements.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS;

 COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT.

The following table sets forth the names, ages and offices of the Company's executive officers and directors:

NAME	AGE	OFFICE
-----	-----	-----
John M. Gott	54	President, CEO, CFO and Director
Dell Furano	55	Director
R. Steven Hicks	55	Director
Robert H. Luke, Ph.D.	62	Director
Michael L. Maples	55	Director

JOHN M. GOTT, our President, Chief Executive Officer, Chief Financial Officer and Director, founded SLS in July 2000 in connection with the merger

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

between SLS and its predecessor. He was also founder and Chief Executive Officer of Sound and Lighting Specialists, Inc., the predecessor of SLS International, Inc., which was founded in October 1994. The predecessor engaged in the sale and installation of sound and lighting systems. In that capacity he spearheaded our growth with respect to the sale and installation of sound and lighting systems across the world, including in Carnegie Hall and Disney World in Tokyo. He was our primary salesman through August 2001, when we hired another salesman. Mr. Gott has also been instrumental in the conceptual design and marketing of most of our products. Mr. Gott has acted in his current capacities since our inception.

DELL FURANO has served as a Director since January 2005. He is currently the founder and CEO of Signatures Network, a merchandising and promotional company that has the rights to market products for over 125 of the world's leading entertainers, including U2, The Beatles, Jessica Simpson, Alan Jackson and Jennifer Lopez. Prior to forming Signatures Network, Mr. Furano was the founding CEO of Sony Signatures, Sony Corp.'s entertainment, merchandising,

26

licensing and consumer products division. Before joining Sony Pictures Entertainment, Mr. Furano co-founded Winterland Productions, a music merchandising company, with legendary music producer Bill Graham. In the mid-1980's he sold Winterland to CBS Inc. Mr. Furano is a graduate of Stanford University.

R. STEVEN HICKS has served as a Director since January 2005. He is currently Chairman of Capstar Partners, LLC., which specializes in assisting early-stage technology companies with growth strategies and investments. Prior to forming Capstar Partners, Mr. Hicks was Vice Chairman of AMFM Inc., the nation's largest owner and operator of radio stations across the U.S. AMFM merged in August 2000 with Clear Channel Communications, Inc. In 1996 Mr. Hicks founded Capstar Broadcasting Corporation, and by 1998, Capstar Broadcasting was the nation's largest holding company with 350 stations. In 1998, Mr. Hicks led Capstar Broadcasting to an initial public offering and a listing on the New York Stock Exchange. In 1999, Capstar Broadcasting merged with Chancellor Media Corp. in a stock swap valued at \$4.1 billion. Mr. Hicks has been a member of the Board of Directors of XM Satellite Radio and numerous private companies, is currently a member of the Board of Directors of HealthTronics, Inc., and is a past Director of the National Radio Broadcasters Association. Over the past 33 years, he has developed extensive relationships throughout the broadcast and entertainment industry. Mr. Hicks is a graduate of the University of Texas.

ROBERT H. (ROBIN) LUKE, PH.D., has served as a Director since 2001. He is Professor of Marketing and the Department Head of the Marketing Department at Missouri State University. He has served as the first Department Head of two Marketing Departments and directed the development of the MBA/MPA programs for the University of the Virgin Islands. Dr. Luke has owned and developed several businesses and regularly consults with major U.S. corporations and institutions on marketing issues as a Senior Consultant with R.H. Luke & Associates. He served the Academy of Marketing Science as a member of its Board of Governors from 1992 to 1996 and as Vice President of Development, Vice President and Vice President for Academic Affairs. He presently serves as a Board Member of the Marketing Management Association. He has given or continues to give service commitments to the Boards of Directors or Boards of Advisors of the following organizations: Missouri Partnership for Outstanding Schools, Ozark Greenways, Community Investment Alliance, Sports Directories International, the Community Foundation of the Ozarks, Vision 20/20, the Downtown Springfield Association, Ozarks Chapter of the Boy Scouts of America, A+ Advisory Board of Glendale High School, and Lake County Youth Soccer.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

Dr. Luke has presented numerous papers at international, national and regional marketing conferences. He serves on the Editorial Review Board of the Journal of the Academy of Marketing Science, Journal of Marketing Management. His writings have appeared in over 14 publications. He is the author of Business Careers, an informational source on career opportunities for students, counselors and advisors wishing to know more about business professions. At the age of sixteen, under the name Robin Luke, he wrote and performed "Susie Darling," a song that sold over two million copies from 1958 to 1960 and became number one around the world. His career as a recording artist spanned five years and 14 records. He has received numerous awards, including "Distinguished Fellow of the Academy of Marketing Science," the Marketing Management Association's Firooz Hekmat Award in Consumer Behavior and their prestigious Marketing Excellence Award, "best paper awards" from national and international organizations, and the Gift of Time Award from his home city of Springfield Missouri.

27

MICHAEL L. MAPLES has served as a Director since 2001. He is Chief Financial Officer, Chief Administrative Officer, Vice President, Treasurer and Corporate Secretary of TranSystems Corporation, an engineering, planning, and consulting firm for the transportation industry. From 1994 to 1996, he was Senior Financial Consultant for Glass & Associates, a consultant to businesses in critical stages of development. From 1991 to 1994, Mr. Maples was Senior Vice President and Controller for Franklin Savings Association, a publicly held group of financial companies. From 1987 to 1991, he was Vice President of Finance & Information Systems for McNally Wellman Company. From 1987 to 1989 he was Treasurer and Corporate Secretary for McNally Pittsburgh, Inc., a group of privately owned engineering and manufacturing companies supplying equipment, systems, parts, and service to the international and domestic material handling industry. From 1983 to 1987, he was Controller and Staff CPA for Gage & Tucker, a multi-office law firm specializing in corporate representation. From 1976 to 1983, he was a Certified Public Accountant, first at Touche Ross & Co., then with a regional firm, and finally as a sole practitioner.

Each director is elected at the annual meeting of stockholders and each director is elected to serve until his successor shall be elected and shall qualify. Executive officers may be removed from office at any time by the Board of Directors.

We presently have no audit, compensation or nominating committee. However, Mr. Maples qualifies as an audit committee financial expert. Mr. Maples is not "independent" as defined in Rule 4200(a)(15) of the NASD's listing standards. Mr. Luke is, and we believe that each of Messrs. Furano and Hicks is, "independent" under Rule 4200(a)(15) of the NASD's listing standards, although the number of options issued to Messrs. Furano and Hicks in connection with their nominations may disqualify them from being deemed independent.

As disclosed above, we currently have only one executive officer, who is also a director, and four other directors. Due to the number of other demands on their limited time, we have not yet dedicated the time necessary to formulate and adopt a code of ethics. However, we intend to adopt a code of ethics in 2005.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE.

No reports have been required under Section 16(a) of the Securities Exchange Act of 1934, as amended, because our common stock is not registered under Section 12 of such act.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

ITEM 10. EXECUTIVE COMPENSATION.

The following summarizes the principal compensation received by our sole executive officer for the fiscal years indicated:

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

We entered into a lease agreement with Bull Creek Ranch LLC on December 4, 2004. Pursuant to the agreement, we agreed to lease approximately 150,000 square feet of property in Ozark, Missouri through February 28, 2010 at a base rent of \$18,750 per month for the first twelve months and \$28,125 thereafter, with adjustments and additional charges set forth in the agreement. The lease agreement also provided us with an option to purchase the property for \$3,500,000, increasing by 5% for each year after the first year of the lease term. On February 3, 2004, we purchased the property for \$3,500,000, pursuant to the option to purchase. As a result, the lease agreement terminated. John Gott, our President, Chief Executive Officer and a Director, is a manager of, and a member owning a 50% interest in, Bull Creek Ranch LLC. As a result, Mr. Gott had a material interest in the lease agreement and in our purchase of the property.

Beginning in 2004, we have been paying \$2,500 per month to Michael Maples, a member of our board of directors, to oversee the work by outside consultants performed in connection with our Sarbanes-Oxley Act compliance efforts.

During 1999, certain receivables totaling \$80,000 due to us from Mr. Gott and Richard Norton were paid by them through an assignment of certain equipment rental fees. The assigned fees had been due them individually for equipment owned by them and leased to non-affiliated third parties. We also received a commission from Messrs. Gott and Norton for handling the rentals and income over a period of three years on their behalf. As of December 31, 2004, Mr. Gott owed \$512 to us.

NOTES TO FINANCIAL STATEMENTS

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

STOCKHOLDERS AND DIRECTORS
SLS INTERNATIONAL, INC.

We have audited the accompanying consolidated balance sheet of SLS International, Inc. as of December 31, 2004 and 2003 and the related consolidated statements of operations, shareholders' deficit, cash flows, and valuation and qualifying accounts for each of the three years in the period ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SLS International, Inc. as of December 31, 2004 and 2003 and the results of its operations, cash flows, and valuation and qualifying accounts for each of the three years in the period ended December 31, 2004 in conformity with U.S. generally accepted accounting principles.

SLS INTERNATIONAL, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

1. SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS:

Prior to June 1999, the Company's one business segment was designing, selling and installing sound and lighting systems in churches, schools, theatres, and clubs and developing a proprietary loudspeaker line called SLS Loudspeakers.

In June 1999, the Company ceased marketing, selling, and installing sound and lighting systems directly and began focusing all efforts towards being a loudspeaker manufacturer only and selling to dealers and contractors.

INVENTORIES:

Inventories are stated at the lower of cost (first-in, first-out method) or market. Inventory consists of finished goods, raw materials and parts. Included in inventory at December 31, 2004 is \$116,987 of finished goods consigned to sales representatives and dealers.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

FIXED ASSETS:

Fixed assets are recorded at cost and depreciated over their estimated useful lives. Depreciation is provided on a straight-line basis. The lives used for items within each property classification range from 5 to 10 years.

Maintenance and repairs are charged to expense as incurred.

Depreciation expense was \$51,183, \$24,755, and \$15,018 in the years ended December 31, 2004, 2003, and 2002.

CONCENTRATION OF CREDIT RISK:

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash equivalents and trade receivables. The Company's cash equivalents are in major banks and financial institutions. From time to time, the Company's cash deposited with banks exceeded the FDIC insurance limit of \$100,000. Concentrations of credit risk with respect to receivables are limited due to the large number of customers and their dispersion across geographic areas, however most are in the same industry; therefore, customers may be similarly affected by changes in economic and other conditions within the industry. The Company performs periodic credit evaluations of its customers' financial condition and generally does not require collateral. As of December 31, 2004 and 2003, approximately 30% and 26%, respectively, of the Company's net accounts receivable balance was due from three customers.

RESEARCH AND DEVELOPMENT:

Research and development costs relating to both present and future products are expensed when incurred and included in operating expenses. Research and development costs were \$77,065, \$31,435 and \$22,095 for the years ended December 31, 2004, 2003 and 2002.

F-7

SLS INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

ADVERTISING AND PROMOTIONAL EXPENSES:

Advertising and promotional expenses are charged to operations in the period incurred. Advertising and promotion expenses were \$414,337, \$150,713, and \$42,209 for the years ended December 31, 2004, 2003, and 2002.

USE OF ESTIMATES:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and notes. Actual results could differ from those estimates, but management does not believe such differences will materially affect the Company's financial position, results of operations, or cash flows.

REVENUE RECOGNITION:

Revenue is recognized when the products are shipped to customers. Installation revenues are recognized when the projects (all less than one month) are completed.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

ACCOUNTS RECEIVABLE:

Accounts receivable are carried on a gross basis, with no discounting, less the allowance for doubtful accounts. No allowance for doubtful accounts is recognized at the time the revenue, which generates the accounts receivable, is recognized. Management estimates the allowance for doubtful accounts based on existing economic conditions, the financial conditions of the customers, and the amount and the age of past due accounts. Receivables are considered past due if full payment is not received by the contractual due date. Past due accounts are generally written off against the allowance for doubtful accounts only after all collection attempts have been exhausted.

CASH EQUIVALENTS:

The Company's cash equivalents consist principally of any financial instruments with maturities of generally three months or less and cash investments. The carrying values of these assets approximate their fair market values.

LONG-LIVED ASSETS:

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Impairment is measured by comparing the carrying value of the long-lived asset to the estimated undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. The Company determined that as of December 31, 2004, there had been no impairment in the carrying value of long-lived assets.

GOODWILL AND OTHER INTANGIBLE ASSETS:

Goodwill and indefinite life intangible assets are recorded at fair value and not amortized, but are reviewed for impairment at least annually or more frequently if

F-8

impairment indicators arise, as required by SFAS No. 142. As of December 31, 2004 and 2003 the Company had no goodwill or other intangible assets. See Note 7, Acquisitions, for goodwill impairment expense during 2004. There was no goodwill impairment expense recorded during 2003.

FINANCIAL INSTRUMENTS:

The carrying value of the Company's cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term maturity of these instruments. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risk. Based upon borrowing rates currently available to the Company with similar terms, the carrying value of notes payable and long-term debt approximates fair value.

NET LOSS PER SHARE:

The Company computes loss per share in accordance with SFAS No. 128, Earnings Per Share. This standard requires dual presentation of basic and diluted earnings per share on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the diluted loss per share computation.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

The Company's potentially issuable shares of common stock pursuant to outstanding stock options and convertible preferred stock are excluded from the Company's diluted computation, as their effect would be anti-dilutive.

RECENTLY ISSUED ACCOUNTING STANDARDS:

In January 2003, the Financial Accounting Standards Board (FASB) issued Interpretation No. 46, "Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51" (the Interpretation). The Interpretation requires the consolidation of variable interest entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. Currently, entities are generally consolidated by an enterprise that has a controlling financial interest through ownership of a majority voting interest in the entity. The Interpretation was originally immediately effective for variable interest entities created after January 31, 2003, and effective in the fourth quarter of the Company's fiscal 2003 for those created prior to February 1, 2003. However, in October 2003, the FASB deferred the effective date for those variable interest entities created prior to February 1, 2003, until the Company's first quarter of fiscal 2004. The Company has completed the process of evaluating the Interpretation and believes its adoption will not have a material impact on its financial position or results of operations.

F-9

SLS INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS.

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123(R), Share-Based Payment, which revised SFAS No. 123 and superseded APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123(R) requires that companies recognize compensation expense associated with grants of stock options and other equity instruments to employees in the financial statements. Compensation cost will be measured based on the fair value of the instrument on the grant date and will be recognized over the vesting period. This pronouncement applies to all grants after the effective date and to the unvested portion of stock options outstanding as of the effective date. The Company anticipates that the effect of adopting this statement will not have a material effect on the financial statements.

STOCK-BASED COMPENSATION:

The Company accounts for its stock and options issued for services by non-employees based on the market value of the stock at the date of the agreement and the market value of the options as determined by the Black-Scholes pricing model. The cost is amortized to expense over the life of the agreement to provide services. The Company accounts for its stock option plan in accordance with the provisions of SFAS No. 123, "Accounting for Stock Based Compensation". SFAS No. 123 permits entities to recognize as expense over the vesting period the fair value of all stock-based awards on the date of the grant. Alternatively, SFAS No. 123 also allows entities to apply the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations and provides pro forma net income and pro forma earnings per share disclosures for employee

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

stock option grants as if the fair-value-based method defined in SFAS No. 123 had been applied. During 2003, the Company adopted the fair value recognition provisions of SFAS No. 123, effective as of the beginning of the year. There had been no previous granting of options to employees and therefore this adoption had no effect on previous financial statements. See Note 12 for details of employee stock options issued during the years ended December 31, 2004 and 2003.

INCOME TAXES:

Amounts provided for income tax expense are based on income reported for financial statement purposes and do not necessarily represent amounts currently payable under tax laws. Deferred taxes, which arise principally from temporary differences between the period in which certain income and expense items are recognized for financial reporting purposes and the period in which they affect taxable income, are included in the amounts provided for income taxes. Under this method, the computation of deferred tax assets and liabilities give recognition to the enacted tax rates in effect in the year the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to amounts that the Company expects to realize.

other than patents, valued at \$12,498, and has not shown any revenue for the two years previous to the merger. The excess of the purchase price over the cost of the patents was recorded as goodwill in the first quarter of 2004. Simultaneously, the Company recorded a charge for impairment of goodwill of the same amount. Impairment charges relating to this merger were \$1,148,502 for the year ended December 31, 2004.

In April of 2004, the Company entered into a strategic alliance agreement with Bohlender-Graebener Corporation (BG). The Company paid BG \$100,000 on April 2, 2004 for this agreement. This amount is recorded on the financial statements as deposits - merger. The agreement term is for one year and can be extended for any length of time after the first year by mutual agreement between BG and the Company. During the term of the agreement BG is required to work with the Company, diligently and in good faith, to consummate a merger. During the first six months of the agreement, BG was not permitted to solicit any offer to purchase BG, and was not permitted to respond to any unsolicited offer. In addition to the above, BG granted the Company exclusive sales and marketing rights to certain BG products and the Company has committed to purchase certain minimum quantities of various BG products at agreed-upon prices. In the event no agreement to merge the companies on mutually acceptable terms can be reached before termination of the agreement, BG will be entitled to keep the \$100,000 cash payment as consideration for its performance under the agreement. In October of 2004, the Company agreed to pay BG an additional \$100,000 as prepayment of future inventory purchases and BG agreed to extend certain terms of the agreement by six months. As of December 31, 2004, the Company has paid BG \$50,000 of this amount and it is recorded in these financial statements as deposits - inventory.

8. STOCKHOLDERS' EQUITY

In 2001, the Company sold 4,000,000 shares of common stock for \$1,000,000 in a public offering. Included with the purchase of the shares was a Class A warrant and a Class B warrant. The Class A warrants expired on August 5, 2004 and were exercisable at a price of \$0.50 per share. The Class B warrants had an initial term of 2 years after exercise of the attached Class A warrant and were exercisable at a price of \$3.00 per share. The B warrants expired on August 5, 2004. The warrants were detachable from the common stock but were not separable from each other until the Class A warrant was exercised.

Year ended December 31, 2002:

In 2002, 101,000 Class A warrants were exercised for 101,000 shares of

outstanding as of December 31, 2002. No Class B warrants have been exercised as of December 31, 2002.

In 2002, the Company sold 315,000 shares of preferred stock, series A, for \$787,500. The shares were issued in the year ended December 31, 2003. This preferred stock contained a beneficial conversion feature. The feature allows the holder to convert the preferred to 10 shares of common stock one year after buying the shares. A discount on preferred shares of \$618,700 relating to the beneficial conversion feature was recorded which is amortized over a one year period beginning with the date the shareholders purchased their shares. As of December 31, 2002, \$576,806 has been amortized to retained earnings. At December 31, 2002, the unamortized discount on preferred shares was \$233,294.

In the fourth quarter of 2002, 102,000 shares of preferred stock, series A, were converted to 1,020,000 shares of common stock.

In January of 2002, an agreement was signed with Office Radio Network for consulting services to be performed from January 5, 2002 to January 5, 2003. As compensation for consulting services, the Company gave Office Radio Network \$15,000 and issued 150,000 shares of common stock. The shares of common stock were issued on November 19, 2002. Using the market value on the date the agreement was signed, the shares were valued at \$111,000 and recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The expense was amortized over the one-year period of the agreement. Consulting expense relating to this agreement was \$109,612 and \$1,388 for the years ended December 31, 2002 and 2003.

In January of 2002, three agreements were signed for consulting services to be performed. The agreements paid 300,000 shares to the consultants in exchange for \$3,000, an executed note receivable for \$27,000, and services to be rendered. Using the market value on the date the agreements were signed, the shares were valued at \$237,000. Value of the shares over consideration given was \$207,000 and was recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. In 2003, \$18,000 on the note receivable was received and a valuation allowance of \$9,000 has been used to offset the resulting note receivable from the transaction and therefore \$0 was reflected in the asset section of the balance sheet for the note receivables as of December 31, 2003. The expense was amortized over a one-year period. Consulting expense relating to these agreements was \$198,210 and \$8,790 for the years ended December 31, 2002 and 2003. In 2004, one of the consultants filed suit against the Company. The suit was settled whereby the former consultant returned 100,000 shares of common stock for cancellation in exchange for forgiveness of the \$9,000 note receivable and \$250,000 paid in March and April of 2004. This settlement was expensed as consulting expense in the year ended December 31, 2004.

Using the market value on the date the agreement was signed, the shares were valued at \$4,774 and recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The cost will be amortized over the two-year period of the agreement. Consulting expense relating to this agreement was \$2,388 and \$360 for the years ended December 31, 2004 and 2003. On December 31, 2004 there was \$2,027 remaining in unamortized stock issued for services for this agreement.

In November 2003, an agreement was signed with William Fischbach for consulting services to be performed November 10, 2003 to November 10, 2006. As compensation for consulting services the Company agreed to issue 400,000 shares of common stock. Using the market value on the date the agreement was signed, the shares were valued at \$780,000 and recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The cost will be amortized over the three-year period of the agreement. Consulting expense relating to this agreement was \$260,000 and \$36,329 for the years ended December 31, 2004 and 2003. On December 31, 2004 there was \$483,671 remaining in unamortized stock issued for services for this agreement. The agreement also calls for the issuance of options, not to exceed an aggregate of 800,000, to Mr. Fischbach on January 1 of each year based on the previous year's performance levels. No options were issued on January 1, 2004 or 2005 under this agreement. The agreement also calls for additional compensation to Mr. Fischbach in the form of a cash fee of 2% of the dollar amount of value provided in a merger, acquisition, or other transaction resulting directly from Mr. Fischbach's services. As of December 31, 2004, no cash fee has been earned, paid, or accrued.

In November 2003, an agreement was signed with Edward Decker for consulting services to be performed November 20, 2003 to November 20, 2005. As compensation for consulting services the Company agreed to issue 7,000 shares of common stock. Using the market value on the date the agreement was signed, the shares were valued at \$15,050 and recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The cost will be amortized over the two-year period of the agreement. Consulting expense relating to this agreement was \$7,524 and \$845 for the years ended December 31, 2004 and 2003. On December 31, 2004 there was \$6,681 remaining in unamortized stock issued for services for this agreement.

for services for this agreement.

Year ended December 31, 2004:

In 2004, 322,400 Class A warrants were exercised for 322,400 shares of common stock for a total of \$161,200. All of the remaining Class A warrants expired on August 5, 2004.

In 2004, 6,000 Class B warrants were exercised for 6,000 shares of common stock for a total of \$18,000. All of the remaining Class B warrants expired on August 5, 2004.

In 2004, no Class C warrants were exercised. As of December 31, 2004, 3,721,000 Class C warrants are outstanding.

In 2004, no options were exercised for shares of common stock.

In 2004, 1,200,600 shares of preferred stock, series A, were converted to 12,006,000 shares of common stock.

In 2004, 100,000 shares of common stock were returned to the Company and cancelled as part of a lawsuit settlement.

In 2004, 300,000 shares of common stock were issued for the merger with Evenstar, Inc. See Note 7.

In 2004, the Company commenced an offering of Series B preferred stock and sold 272,100 shares of preferred stock, series B, for \$5,102,250, net of expenses. This preferred stock contains a beneficial conversion feature. The feature allows the holder to convert the preferred to 10 shares of common stock six months after buying the shares. Attached to each preferred share is ten Class C warrants. Each Class C warrant has a term of three years and provides the right to purchase one share of our common stock at \$7.00 per share. If the average closing market price for our common stock is equal to or greater than \$10.50 for a period of 30 days, then such warrants are capable of being repurchased with a 30-day notice, at a price of \$.001 per warrant. A discount on preferred shares of \$2,211,300 relating to the beneficial conversion feature was recorded and was amortized over the six-month period beginning with the date the

shareholders purchased their shares. As of December 31, 2004, \$2,211,300 has been amortized to retained earnings. At December 31, 2004, the unamortized discount on preferred shares was \$0.

In 2004, 76,050 shares of preferred stock, series B, were converted to 760,500 shares of common stock.

In February of 2004, an agreement was signed with Ryan Schinman for consulting services to be performed indefinitely. As compensation for consulting services the Company agreed to issue 50,000 options on the date of signing and 10,000 options per month thereafter. The options have a term of ten years and a strike price equal to the market price on their grant date. The strike price for the options granted in 2004 ranges from \$1.45 to \$3.10. Using the Black-Scholes pricing model, the options were valued at \$215,600 and recorded as a consulting expense for the year ended December 31, 2004.

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

In June 2004, the Company entered into an endorsement / consulting agreement with the recording artist Quincy Jones through Global Drumz, Inc. The Company made a cash payment of \$250,000 to Global Drumz, Inc. on the date of the agreement. Pursuant to the agreement, the Company granted options to purchase 1,000,000 shares of its common stock in exchange for future endorsements of its products and various other consulting services. The option has a strike price of \$2.00 and is exercisable for a period of five years. The Company also issued 1,000,000 Class C warrants, with a five-year term, for 1,000,000 additional shares of common stock at an exercise price of \$7.00 per share. In the event that the closing price of its common stock does not exceed \$7.00 per share for a period of five consecutive business days during the period commencing on June 2, 2004 and ending on the expiration of the term of the options, the Company shall pay additional compensation of \$250,000. Expense associated with the options was recorded over the six-month vesting period of the agreement. The options and warrants automatically vest as to 50% of the stock covered thereby upon the effective date of the agreement and as to one-sixth of the remaining stock covered thereby monthly thereafter. Expense was recorded at fair market value, using the Black-Scholes pricing model, on an accelerated method, thereby recording a larger portion of the costs in the earlier months of the six-month period. Consulting expense relating to this agreement was \$1,658,888 for the year ended December 31, 2004.

In October of 2004, an agreement was signed with Atlantic Services, Ltd., a foreign corporation based in Costa Rica, for consulting services to be performed October 15, 2004 to January 15, 2005. As compensation for consulting services the Company agreed to issue 300,000 shares of common stock. As of December 31, 2004 these shares have not been issued and are therefore listed in these financial statements as common stock not issued but owed to buyers. Using the market value on the date the agreement was signed, the shares were valued at \$480,000 and recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The expense is amortized over the three-month period of the agreement. Consulting

13. SUBSEQUENT EVENTS

From January 1 to February 24, 2005, 104,173 shares of preferred stock, series A, were converted into 1,041,730 shares of common stock.

From January 1 to February 24, 2005, 3,000 shares of preferred stock, series B, were converted into 30,000 shares of common stock.

In January of 2005, the Company appointed two new directors to its board of directors.

In January of 2005, the Company issued 830,000 options to two new directors of the Company. The options have a term of five years and a

strike price of \$2.50.

In January of 2005, an agreement was signed with New AV Ventures, LLC (AV) for consulting services to be performed January 31, 2005 to January 31, 2010. As compensation for consulting services the Company agreed to issue 300,000 shares of common stock. As of February 24, 2005 no stock had been issued in relation to this agreement. The Company also agreed to give AV a percentage of future sales to certain vendors and one option to purchase one share of common stock for each \$100 of sales to vendors generated by AV provided that AV shall not be entitled to receive in excess of 700,000 options. The options will have a term of five years and have a strike

price equal to the average price of the Company's common stock for the five trading days immediately prior to January 1 of the following year.

In December of 2004, the Company entered into a lease with a company 50% owned by the President of the Company. The lease contained an option to purchase the building for \$3,500,000. In February of 2005, the Company exercised the option and purchased the building. The Company paid rent of \$18,750 for January of 2005 before the purchase was finalized.

In January of 2005, the Company completed a private placement of 15,000 shares of its Series C Preferred stock for an aggregate purchase price of \$15,000,000. This preferred stock contained a beneficial conversion feature. The feature allows the holder to convert each share of preferred to 400 shares of common stock one year after buying the shares and accrues a 6% premium to the stated value of the shares of preferred stock, which would be convertible into additional shares of common stock. Attached to each preferred share are 400 Class D warrants. Each Class D warrant has a term of five years and provides the right to purchase one share of our common stock at \$6.00 per share, subject to certain adjustments. The Company may redeem the warrants and may require the holders to convert the preferred stock to common stock if certain conditions are met. The Company received \$10,000,000 of the aggregate purchase price in December of 2004 prior to the closing of the placement. The remaining \$5,000,000 was received in January of 2005. Expenses related to the placement were \$1,150,581 in December of 2004 and \$446,271 in January of 2005. The amount received in 2004 has been offset by the expenses incurred in 2004 and recorded on these financial statements as deposits on Series C preferred stock in the amount of \$8,849,420 as of December 31, 2004. Expenses in 2004, associated with the offering, are legal costs of \$132,558 and expenses related to a finder's fee. The finder was compensated 6% of the gross offering funds received, \$600,000, and 40,000 warrants for every \$1,000,000 raised in the offering. For 2004, the finder received 400,000 warrants, which were valued at \$418,023. Expenses in 2005, associated with the offering, are legal costs of \$37,260, a finder's fee of \$300,000, and 200,000 warrants for the finder valued at \$209,011.

In 2005, the Company intends to make a rescission offer to all warrant holders who exercised warrants during the period from May 1, 2002 through May 10, 2004. During such period, the registration statement that the Company filed with the US Securities and Exchange Commission to register the common stock issuable upon exercise of the warrants may not

Edgar Filing: SLS INTERNATIONAL INC - Form 10KSB

have been "current" because it had not been amended to include the Company's most recent audited financial statements. As a result, the former warrant holders may be entitled to rescind their purchases and the Company has decided to make the rescission offer. Once made, the rescission offer is open for 30 days. The rescission offer would require the Company to purchase warrants back at their original exercise price, \$.50 for the Class A warrants and \$3.00 for the Class B warrants, at each warrant holder's option. The current market price is well above the \$.50 exercise price of the Class A warrants so no adjustment to the financial statements for the years ended December 31, 2004 and 2003 has been made for the rescission offer. The

F-28

SLS INTERNATIONAL, INC.

current market price is below the \$3.00 exercise price of the Class B warrants. Only 16,600 Class B warrants were issued in the period, so any effect of the rescission offer would be immaterial to these financial statements, therefore, no adjustment has been made. If all warrant holders accepted the rescission offer, the Company would be required to pay \$1,340,700 plus interest, which amount would be reduced to the extent of the proceeds from any sales of the underlying common stock by the former warrant holders. Acceptance of the rescission offer by all former warrant holders could have a material adverse effect on these financial statements.

From 2001 to 2003, we sold shares of our Convertible Preferred Stock, which is reflected in these financial statements as our Series A Preferred Stock. The Company recently discovered that the certificate of designation for the Convertible Preferred Stock had not been filed, and the Company made such filing in December of 2004. The delay in filing the certificate of designation may have resulted in the shares of Convertible Preferred Stock not being validly issued. The Company is making an assessment of the effects of the delay and will determine what actions it will take, if any, to remedy the effects of the delay. As of December 31, 2004, there were 346,873 shares outstanding. All other convertible preferred stock has been converted to common stock on a 10-to-1 basis, at a conversion price of \$0.25 per share. Because the current stock price is well above the conversion price, no adjustments to these financial statements have been recorded for this.
