MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization, Description of Business and Basis of Presentation

Organization

Unless indicated otherwise, the terms "our," "we," "us" and similar language refer to Magellan Midstream Partners, L.P. together with its subsidiaries. We are a Delaware limited partnership and our limited partner units are traded on the New York Stock Exchange under the ticker symbol "MMP." Magellan GP, LLC, a wholly-owned Delaware limited liability company, serves as our general partner.

Description of Business

We are principally engaged in the transportation, storage and distribution of refined petroleum products and crude oil. As of March 31, 2016, our asset portfolio, including the assets of our joint ventures, consisted of:

- our refined products segment, comprised of our 9,700-mile refined products pipeline system with 54 terminals as well as 26 independent terminals not connected to our pipeline system and our 1,100-mile ammonia pipeline system;
- our crude oil segment, comprised of approximately 1,600 miles of crude oil pipelines and storage facilities with an aggregate storage capacity of approximately 22 million barrels, of which 14 million barrels are used for leased storage; and
- our marine storage segment, consisting of five marine terminals located along coastal waterways with an aggregate storage capacity of approximately 26 million barrels.

Terminology common in our industry includes the following terms, which describe products that we transport, store and distribute through our pipelines and terminals:

- refined products are the output from refineries and are primarily used as fuels by consumers. Refined products include gasoline, diesel fuel, aviation fuel, kerosene and heating oil. Collectively, diesel fuel and heating oil are referred to as distillates;
- liquefied petroleum gases, or LPGs, are produced as by-products of the crude oil refining process and in connection with natural gas production. LPGs include butane and propane;
- blendstocks are blended with refined products to change or enhance their characteristics such as increasing a gasoline's octane or oxygen content. Blendstocks include alkylates, oxygenates and natural gasoline;
- heavy oils and feedstocks are used as burner fuels or feedstocks for further processing by refineries and petrochemical facilities. Heavy oils and feedstocks include No. 6 fuel oil and vacuum gas oil;
- crude oil and condensate are used as feedstocks by refineries and petrochemical facilities;
- biofuels, such as ethanol and biodiesel, are increasingly required by government mandates; and

- ammonia is primarily used as a nitrogen fertilizer.

Except for ammonia, we use the term petroleum products to describe any, or a combination, of the above-noted products.

6

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Basis of Presentation

In the opinion of management, our accompanying consolidated financial statements which are unaudited, except for the consolidated balance sheet as of December 31, 2015 which is derived from our audited financial statements, include all normal and recurring adjustments necessary to present fairly our financial position as of March 31, 2016, the results of operations for the three months ended March 31, 2015 and 2016 and cash flows for the three months ended March 31, 2015 and 2016. The results of operations for the three months ended March 31, 2016 are not necessarily indicative of the results to be expected for the full year ending December 31, 2016 as profits from our blending activities are realized largely during the first and fourth quarters of each year. Additionally, gasoline demand, which drives transportation volumes and revenues on our pipeline systems, generally trends higher during the summer driving months. Further, the volatility of commodity prices impact the profits from our commodity activities and, to a lesser extent, the volume of petroleum products we ship on our pipelines.

Pursuant to the rules and regulations of the Securities and Exchange Commission, the financial statements in this report do not include all of the information and notes normally included with financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities that exist at the date of our consolidated financial statements, as well as their impact on the reported amounts of revenue and expense during the reporting periods. Actual results could differ from those estimates.

New Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which is part of the FASB’s initiative to simplify accounting standards. The guidance requires an entity to make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest or account for forfeitures when they occur, and allows equity classification for awards where employees elect to withhold the maximum statutory tax rates in the applicable jurisdictions. The new standard also requires cash paid by employers when directly withholding shares for tax withholding purposes to be classified as a financing activity in the statement of cash flows.

We elected to early adopt ASU 2016-09 during the first quarter of 2016, and this adoption did not have a material impact on our consolidated financial statements. In conjunction with our adoption of this new accounting standard, we have elected to account for stock based compensation forfeitures as they occur. Additionally, and consistent with our prior accounting policy, we continue to show cash paid when directly withholding shares for tax withholding purposes

as a financing activity in our statements of cash flows.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This standard requires companies that lease valuable assets like aircraft, real estate, and heavy equipment to recognize on their balance sheets the assets and liabilities generated by contracts longer than a year. The new accounting model for lessors remains largely the same, although some changes have been made to align the lessor accounting model with the new lessee model and to align it with the new revenue recognition guidance. This update also requires companies to disclose in the footnotes to their financial statements information about the amount, timing and uncertainty for the payments they

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

make for the lease arrangements. Public companies will have to begin applying the standard for fiscal years and quarters that start after December 15, 2018, although early adoption is permitted. We are currently in the process of evaluating the impact this new standard will have on our financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which eliminates the industry-specific guidance in U.S. GAAP and produces a single, principles-based method for companies to report revenue in their financial statements. This standard requires companies to make more estimates and use more judgment than under current guidance. In addition, all companies must compile more extensive footnote disclosures about how the revenue numbers were derived. This ASU requires full retrospective, modified retrospective, or use of the cumulative effect method during the period of adoption. We have not yet determined which adoption method we will employ. In July 2015, the FASB extended the effective date of this standard from January 1, 2017 to January 1, 2018. We are currently in the process of evaluating the impact this new standard will have on our financial statements.

2. Product Sales Revenue

The amounts reported as product sales revenue on our consolidated statements of income include revenue from the physical sale of petroleum products and from mark-to-market adjustments from New York Mercantile Exchange (“NYMEX”) contracts. See Note 8 – Derivative Financial Instruments for a discussion of our commodity hedging strategies and how our NYMEX contracts impact product sales revenue. All of the petroleum products inventory we physically sell associated with our butane blending and fractionation activities, as well as the barrels from product gains we obtain from our operations, are reported as product sales revenue on our consolidated statements of income. For the three months ended March 31, 2015 and 2016, product sales revenue included the following (in thousands):

	Three Months Ended March 31,	
	2015	2016
Physical sale of petroleum products	$169,247	$130,580
Change in value of NYMEX contracts	3,880	15,982
Total product sales revenue	$173,127	$146,562

3. Segment Disclosures

Our reportable segments are strategic business units that offer different products and services. Our segments are managed separately as each segment requires different marketing strategies and business knowledge. Management evaluates performance based on segment operating margin, which includes revenue from affiliates and external customers, operating expenses, cost of product sales and earnings of non-controlled entities.

We believe that investors benefit from having access to the same financial measures used by management. Operating margin, which is presented in the following tables, is an important measure used by management to evaluate the economic performance of our core operations. Operating margin is not a GAAP measure, but the components of operating margin are computed using amounts that are determined in accordance with GAAP. A reconciliation of operating margin to operating profit, which is its nearest comparable GAAP financial measure, is included in the

tables below. Operating profit includes depreciation and amortization expense and general and administrative ("G&A") expense that management does not consider when evaluating the core profitability of our separate operating segments.

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. Investments in Non-Controlled Entities

Our investments in non-controlled entities at March 31, 2016 were comprised of:

Entity	Ownership Interest
BridgeTex Pipeline Company, LLC (“BridgeTex”)	50%
Double Eagle Pipeline LLC (“Double Eagle”)	50%
HoustonLink Pipeline Company, LLC (“HoustonLink”)	50%
Powder Springs Logistics, LLC (“Powder Springs”)	50%
Saddlehorn Pipeline Company, LLC (“Saddlehorn”)	40%
Seabrook Logistics, LLC (“Seabrook”)	50%
Texas Frontera, LLC (“Texas Frontera”)	50%

In February 2016, we transferred our 50% membership interest in Osage Pipe Line Company, LLC (“Osage”) to an affiliate of HollyFrontier Corporation. In conjunction with this transaction, we entered into several commercial agreements with affiliates of HollyFrontier Corporation. We recorded these commercial agreements as $43.7 million of intangible assets and $8.3 million of other receivables in our consolidated balance sheets. The intangible assets will be amortized over the 20-year life of the contracts received. We recognized a $26.9 million non-cash gain in relation to this transaction.

The fixed management fees we have recognized from BridgeTex, Osage, Powder Springs, Saddlehorn and Texas Frontera are reported as affiliate management fee revenue on our consolidated statements of income. In addition, we receive reimbursement from certain of our joint ventures for costs incurred during construction. During the first quarter of 2016, we received construction cost reimbursements of $0.4 million and $0.1 million from Saddlehorn and Seabrook, respectively, which were recorded as reductions to costs and expenses on our consolidated statements of income.

For the three months ended March 31, 2015 and 2016, we recognized pipeline capacity lease revenue from BridgeTex of $8.4 million and $8.9 million, respectively, which we included in transportation and terminals revenue on our consolidated statements of income.

We recognized throughput revenue from Double Eagle for the three months ended March 31, 2015 and 2016 of $0.9 million and $0.7 million, respectively, which we included in transportation and terminals revenue. At December 31, 2015 and March 31, 2016, respectively, we recognized a $0.2 million and $0.3 million trade accounts receivable from Double Eagle.

The financial results from Texas Frontera are included in our marine storage segment, the financial results from BridgeTex, Double Eagle, HoustonLink, Osage, Saddlehorn and Seabrook are included in our crude oil segment and the financial results from Powder Springs are included in our refined products segment, each as earnings/losses of non-controlled entities.

A summary of our investments in non-controlled entities follows (in thousands):

	BridgeTex	All Others	Consolidated
Investments at December 31, 2015	$495,267	$270,361	$ 765,628
Additional investment	6,336	55,402	61,738
Exchange of investment in non-controlled entity	—	(25,105)	(25,105)
Earnings of non-controlled entities:			
Proportionate share of earnings	15,624	2,631	18,255
Amortization of excess investment and capitalized interest	(510)	(117)	(627)
Earnings of non-controlled entities	15,114	2,514	17,628
Less:			
Distributions of earnings from investments in non-controlled entities	15,114	2,183	17,297
Distributions in excess of earnings of non-controlled entities	1,291	921	2,212
Investments at March 31, 2016	$500,312	$300,068	$ 800,380

Summarized financial information of our non-controlled entities for the three months ended March 31, 2015 and 2016 follows (in thousands):

	Three Months Ended March 31, 2015			Three Months Ended March 31, 2016		
	BridgeTex	All Others	Consolidated	BridgeTex	All Others	Consolidated
Revenue	$37,136	$9,520	$ 46,656	$50,798	$11,409	$ 62,207
Net income	$18,037	$2,581	$ 20,618	$31,248	$5,266	$ 36,514

5. Inventory

Inventory at December 31, 2015 and March 31, 2016 was as follows (in thousands):

	December 31, 2015	March 31, 2016
Refined products	$ 57,455	$55,193
Liquefied petroleum gases	17,954	15,742
Transmix	21,297	22,355
Crude oil	28,385	32,921
Additives	5,777	5,877
Total inventory	$ 130,868	$132,088

6. Employee Benefit Plans

We sponsor two pension plans for certain union employees and a pension plan primarily for non-union employees, a postretirement benefit plan for selected employees and a defined contribution plan. The following tables present our consolidated net periodic benefit costs related to the pension and postretirement benefit plans for the three months ended March 31, 2015 and 2016 (in thousands):

	Three Months Ended March 31, 2015		Three Months Ended March 31, 2016	
	Pension Benefits	Other Postretirement Benefits	Pension Benefits	Other Postretirement Benefits
Components of net periodic benefit costs:				
Service cost	$4,470	$ 66	$4,688	$ 61
Interest cost	1,869	110	2,045	110
Expected return on plan assets	(1,896)	—	(2,128)	—
Amortization of prior service credit	—	(928)	(45)	(928)
Amortization of actuarial loss	1,347	225	1,217	184
Net periodic benefit cost (credit)	$5,790	$ (527)	$5,777	$ (573)

Contributions estimated to be paid into the plans in 2016 are $22.9 million and $0.5 million for the pension and other postretirement benefit plans, respectively.

We match our employees' qualifying contributions to our defined contribution plan, resulting in expense to us. Expenses related to the defined contribution plan were $2.8 million and $3.0 million, respectively, for the three months ended March 31, 2015 and 2016.

Amounts Included in AOCL

The changes in AOCL related to employee benefit plan assets and benefit obligations for the three months ended March 31, 2015 and 2016 were as follows (in thousands):

	Three Months Ended March 31, 2015		Three Months Ended March 31, 2016	
Gains (Losses) Included in AOCL	Pension Benefits	Other Postretirement Benefits	Pension Benefits	Other Postretirement Benefits
Beginning balance	$(63,257)	$ (1,696)	$(62,279)	$ (3,945)
Amortization of prior service credit	—	(928)	(45)	(928)
Amortization of actuarial loss	1,347	225	1,217	184
Ending balance	$(61,910)	$ (2,399)	$(61,107)	$ (4,689)

7. Debt

Consolidated debt at December 31, 2015 and March 31, 2016 was as follows (in thousands, except as otherwise noted):

	December 31, 2015	March 31, 2016	Weighted-Average Interest Rate for the Three Months Ended March 31, 2016 [1]
Commercial paper[2]	$ 279,961	$—	0.7%
$250.0 million of 5.65% Notes due 2016[3]	250,335	250,229	5.7%
$250.0 million of 6.40% Notes due 2018	255,215	254,698	5.5%
$550.0 million of 6.55% Notes due 2019	564,116	563,161	5.7%
$550.0 million of 4.25% Notes due 2021	555,362	555,121	4.0%
$250.0 million of 3.20% Notes due 2025	249,700	249,707	3.2%
$650.0 million of 5.00% Notes due 2026[2]	—	649,193	5.0%
$250.0 million of 6.40% Notes due 2037	249,036	249,042	6.4%
$250.0 million of 4.20% Notes due 2042	248,437	248,445	4.2%
$550.0 million of 5.15% Notes due 2043	556,218	556,192	5.1%
$250.0 million of 4.20% Notes due 2045	249,914	249,914	4.6%
Total debt, excluding unamortized debt issuance costs	3,458,294	3,825,702	4.6%
Unamortized debt issuance costs	(18,672)	(23,441)	
Less: current portion of long-term debt	250,335	250,229	
Total long-term debt	$ 3,189,287	$ 3,552,032	

(1) Weighted-average interest rate includes the amortization/accretion of discounts, premiums and gains/losses realized on historical cash flow and fair value hedges recognized as interest expense.

(2) These borrowings were outstanding for only a portion of the three-month period ending March 31, 2016. The weighted-average interest rate for these borrowings was calculated based on the number of days the borrowings were outstanding during the noted period.

(3) These borrowings will mature in October 2016 and are included with current debt on our consolidated balance sheets at December 31, 2015 and March 31, 2016.

All of the instruments detailed in the table above are senior indebtedness.

The face value of our debt at December 31, 2015 and March 31, 2016 was $3.4 billion and $3.8 billion, respectively. The difference between the face value and carrying value of our debt outstanding is the unamortized portion of terminated fair value hedges and the unamortized discounts and premiums on debt issuances. Realized gains and

losses on fair value hedges and note discounts and premiums are being amortized or accreted to the applicable notes over the respective lives of those notes.

2016 Debt Offering

In February 2016, we issued $650.0 million of our 5.00% notes due 2026 in an underwritten public offering. The notes were issued at 99.875% of par. Net proceeds from this offering were approximately $644.0 million, after underwriting discounts and offering expenses of $5.3 million. The net proceeds from this offering were or will be used to repay borrowings outstanding under our commercial paper program and for general partnership purposes, including expansion capital.

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Other Debt

Revolving Credit Facilities. At March 31, 2016, the total borrowing capacity under our revolving credit facility with a maturity date of October 27, 2020 was $1.0 billion. Any borrowings outstanding under this facility are classified as long-term debt on our consolidated balance sheets. Borrowings under this facility are unsecured and bear interest at LIBOR plus a spread ranging from 1.000% to 1.625% based on our credit ratings. Additionally, an unused commitment fee is assessed at a rate between 0.100% and 0.275% depending on our credit ratings. The unused commitment fee was 0.125% at March 31, 2016. Borrowings under this facility may be used for general partnership purposes, including capital expenditures. As of March 31, 2016, there were no borrowings outstanding under this facility with $6.3 million obligated for letters of credit. Amounts obligated for letters of credit are not reflected as debt on our consolidated balance sheets, but decrease our borrowing capacity under this facility.

At March 31, 2016, the total borrowing capacity under our 364-day credit facility was $250.0 million. This credit facility matures on October 25, 2016, subject to a term-out option. We may exercise the term-out option no later than 30 days prior to October 25, 2016 and elect to have all outstanding borrowings converted into a term loan due and payable on October 25, 2018, subject to the payment of a term-out fee. Any borrowings under this credit facility are classified as current debt on our consolidated balance sheets. Borrowings under this facility are unsecured and bear interest at LIBOR plus a spread ranging from 1.000% to 1.625% based on our credit ratings. Additionally, an unused commitment fee is assessed at a rate between 0.080% and 0.225% depending on our credit ratings. The unused commitment fee was 0.100% at March 31, 2016. Borrowings under this facility may be used for general partnership purposes, including capital expenditures. As of March 31, 2016, there were no borrowings outstanding under this facility.

Commercial Paper Program. The maturities of our commercial paper notes vary, but may not exceed 397 days from the date of issuance. The commercial paper notes are sold under customary terms in the commercial paper market and are issued at a discount from par, or alternatively, are sold at par and bear varying interest rates on a fixed or floating basis. The commercial paper we can issue is limited by the amounts available under our revolving credit facility up to an aggregate principal amount of $1.0 billion and is classified as long-term debt.

8. Derivative Financial Instruments

Interest Rate Derivatives

We periodically enter into interest rate derivatives to hedge the fair value of our debt or interest on expected debt issuances, and we have historically designated these derivatives as cash flow or fair value hedges for accounting purposes. Adjustments resulting from discontinued hedges continue to be recognized in accordance with their historic hedging relationships.

As of March 31, 2016, we had entered into $250.0 million of forward-starting interest rate swap agreements to hedge against the risk of variability of future interest payments on a portion of debt we anticipate issuing in 2016. The fair

value of these contracts at March 31, 2016 was recorded on our consolidated balance sheets as an other current liability of $11.0 million, with the offset recorded to other comprehensive income. We account for these agreements as cash flow hedges.

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Commodity Derivatives

Hedging Strategies

Our butane blending activities produce gasoline products, and we can reasonably estimate the timing and quantities of sales of these products. We use a combination of NYMEX and forward purchase and sale contracts to help manage commodity price changes, which is intended to mitigate the risk of decline in the product margin realized from our butane blending activities that we choose to hedge. Further, certain of our other commercial operations generate petroleum products. We use NYMEX contracts to hedge against future price changes for some of these commodities.

We account for the forward physical purchase and sale contracts we use in our butane blending and fractionation activities as normal purchases and sales. Forward contracts that qualify for and are elected as normal purchases and sales are accounted for using traditional accrual accounting.

The NYMEX contracts that we enter into fall into one of three hedge categories:

Hedge Category	Hedge Purpose	Accounting Treatment
Qualifies For Hedge Accounting Treatment		
Cash Flow Hedge	To hedge the variability in cash flows related to a forecasted transaction.	The effective portion of changes in the fair value of the hedge is recorded to accumulated other comprehensive income/loss and reclassified to earnings when the forecasted transaction occurs. Any ineffectiveness is recognized currently in earnings.
Fair Value Hedge	To hedge against changes in the fair value of a recognized asset or liability.	The effective portion of changes in the fair value of the hedge is recorded as adjustments to the asset or liability being hedged. Any ineffectiveness and amounts excluded from the assessment of hedge effectiveness is recognized currently in earnings.
Does Not Qualify For Hedge Accounting Treatment		
Economic Hedge	To effectively serve as either a fair value or a cash flow hedge; however, the derivative agreement does not qualify for hedge accounting treatment under ASC 815, Derivatives and Hedging.	Changes in the fair value of these agreements are recognized currently in earnings.

During the three months ended March 31, 2015 and 2016, none of the commodity hedging contracts we entered into qualified for or were designated as cash flow hedges.

Period changes in the fair value of NYMEX agreements that are accounted for as economic hedges (other than those economic hedges of our butane purchases and our pipeline product overages as discussed below), the effective portion of changes in the fair value of cash flow hedges that are reclassified from AOCL and any ineffectiveness associated

with hedges related to our commodity activities are recognized currently in earnings as adjustments to product sales.

We also use NYMEX contracts, which are not designated as hedges for accounting purposes, to hedge against changes in the price of butane we expect to purchase in the future. Period changes in the fair value of these agreements are recognized currently in earnings as adjustments to cost of product sales.

We hold petroleum product inventories that we obtained from overages on our pipeline systems. We use NYMEX contracts that are not designated as hedges for accounting purposes to help manage price changes related to these inventory barrels. Period changes in the fair value of these agreements are recognized currently in earnings as adjustments to operating expense.

Table of Contents

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Additionally, we hold crude oil barrels that we use for operational purposes, which we classify as a long-term asset on our consolidated balance sheets as tank bottoms. We use NYMEX contracts to hedge against changes in the price of these crude oil barrels. We record the effective portion of the gains or losses for those contracts that qualify as fair value hedges as adjustments to the assets being hedged and the ineffective portions as well as amounts excluded from the assessment of hedge effectiveness as adjustments to other income or expense.

As outlined in the table below, our open NYMEX contracts at March 31, 2016 were as follows:

Type of Contract/Accounting Methodology	Product Represented by the Contract and Associated Barrels	Maturity Dates
NYMEX - Fair Value Hedges	0.7 million barrels of crude oil	Between April 2016 and November 2017
NYMEX - Economic Hedges	3.6 million barrels of refined products and crude oil	Between April 2016 and December 2016
NYMEX - Economic Hedges	0.3 million barrels of future purchases of butane	Between April 2016 and December 2016

Energy Commodity Derivatives Contracts and Deposits Offsets

At March 31, 2016, we had received margin deposits of $6.9 million for our NYMEX contracts with one of our counterparties, which were recorded as a current liability under energy commodity derivatives deposits on our consolidated balance sheets. Additionally, we made margin deposits of $2.9 million with a second counterparty, which were recorded as a current asset under energy commodity derivatives deposits on our consolidated balance sheets. We have the right to offset the combined fair values of our open NYMEX contracts against our margin deposits under a master netting arrangement for each counterparty; however, we have elected to present the combined fair values of our open NYMEX contracts separately from the related margin deposits on our consolidated balance sheets. Additionally, we have the right to offset the fair values of our NYMEX agreements together for each counterparty, which we have elected to do, and we report the combined net balances on our consolidated balance sheets. A schedule of the derivative amounts we have offset and the deposit amounts we could offset under a master netting arrangement are provided below as of December 31, 2015 and March 31, 2016 (in thousands):

	December 31, 2015				
Description	Gross Amounts of Recognized Assets	Gross Amounts of Liabilities Offset in the Consolidated Balance Sheets	Net Amounts of Assets Presented in the Consolidated Balance Sheets[1]	Margin Deposit Amounts Not Offset in the Consolidated Balance Sheets	Net Asset Amount[3]
Energy commodity derivatives	$48,367	$ (5,646)	$ 42,721	$ (24,252)	$ 18,469

March 31, 2016

Description	Gross Amounts of Recognized Assets	Gross Amounts of Liabilities Offset in the Consolidated Balance Sheets	Net Amounts of Assets Presented in the Consolidated Balance Sheets[(2)]	Margin Deposit Amounts Not Offset in the Consolidated Balance Sheets	Net Asset Amount[(3)]
Energy commodity derivatives	$24,081	$ (1,489)	$ 22,592	$ (3,991)	$ 18,601

(1) Net amount includes energy commodity derivative contracts classified as current assets, net, of $39,243 and noncurrent assets of $3,478.

(2) Net amount includes energy commodity derivative contracts classified as current assets, net, of $17,761 and noncurrent assets of $4,831.

(3) Amount represents the maximum loss we would incur if all of our counterparties failed to perform on their derivative contracts.

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Impact of Derivatives on Our Financial Statements

Comprehensive Income

The changes in derivative activity included in AOCL for the three months ended March 31, 2015 and 2016 were as follows (in thousands):

	Three Months Ended March 31,	
Derivative Losses Included in AOCL	2015	2016
Beginning balance	$(16,587)	$(30,126)
Net loss on interest rate contract cash flow hedges	(15,465)	(12,478)
Reclassification of net loss on cash flow hedges to income	200	388
Ending balance	$(31,852)	$(42,216)

Income Statements

The following tables provide a summary of the effect on our consolidated statements of income for the three months ended March 31, 2015 and 2016 of derivatives accounted for under ASC 815-30, Derivatives and Hedging—Cash Flow Hedges, that were designated as hedging instruments (in thousands):

	Three Months Ended March 31, 2015			
			Amount of Loss Reclassified from AOCL into Income	
Derivative Instrument	Amount of Loss Recognized in AOCL on Derivative	Location of Loss Reclassified from AOCL into Income	Effective Portion	Ineffective Portion
Interest rate contracts	$(15,465)	Interest expense	$ (200)	$ —

	Three Months Ended March 31, 2016			
			Amount of Loss Reclassified from AOCL into Income	
Derivative Instrument	Amount of Loss Recognized in AOCL on Derivative	Location of Loss Reclassified from AOCL into Income	Effective Portion	Ineffective Portion
Interest rate contracts	$(12,478)	Interest expense	$ (388)	$ —

As of March 31, 2016, the net loss estimated to be classified to interest expense over the next twelve months from AOCL is approximately $1.3 million.

During 2015 and 2016, we had open NYMEX contracts on 0.7 million barrels of crude oil that were designated as fair value hedges. Because there was no ineffectiveness recognized on these hedges, the cumulative gains at December 31, 2015 and March 31, 2016 of $27.9 million and $27.1 million, respectively, from these agreements were offset by a cumulative decrease to tank bottoms and linefill. The differential between the current spot price and forward price is

excluded from the assessment of hedge effectiveness for these fair value hedges. For the three months ended March 31, 2015 and 2016, we recognized a (gain) loss of $0.3 million and $(2.3) million, respectively, for the amounts we excluded from the assessment of effectiveness of these fair value hedges, which we reported as other expense (income) on our consolidated statements of income.

9. Commitments and Contingencies

Environmental Liabilities

Liabilities recognized for estimated environmental costs were $31.4 million and $32.4 million at December 31, 2015 and March 31, 2016, respectively. We have classified environmental liabilities as current or noncurrent based on management’s estimates regarding the timing of actual payments. Management estimates that expenditures associated with these environmental liabilities will be paid over the next 9 years. Environmental expenditures recognized as a result of changes in our environmental liabilities are generally included in operating expenses on our consolidated statements of income. Environmental expenses for the three months ended March 31, 2015 and 2016 were $1.4 million and $3.5 million, respectively.

Environmental Receivables

Receivables from insurance carriers and other third parties related to environmental matters were $2.6 million at December 31, 2015, of which $0.7 million and $1.9 million were recorded to other accounts receivable and long-term receivables, respectively, on our consolidated balance sheets. Receivables from insurance carriers and other third parties related to environmental matters were $2.1 million at March 31, 2016, of which $0.8 million and $1.3 million were recorded to other accounts receivable and long-term receivables, respectively, on our consolidated balance sheets.

Other

We are a party to various other claims, legal actions and complaints arising in the ordinary course of business, including without limitation those disclosed in Item 1, Legal Proceedings of Part II of this report on Form 10-Q. While

the results cannot be predicted with certainty, management believes the ultimate resolution of these claims, legal actions and complaints after consideration of amounts accrued, insurance coverage or other indemnification arrangements will not have a material adverse effect on our results of operations, financial position or cash flows.

Table of Contents

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10. Long-Term Incentive Plan

We have a long-term incentive plan ("LTIP") for certain of our employees and directors of our general partner. The LTIP primarily consists of phantom units and permits the grant of awards covering an aggregate payout of 9.4 million of our limited partner units as of March 31, 2016. The compensation committee of our general partner's board of directors administers our LTIP. The estimated units available under the LTIP at March 31, 2016 total 0.5 million. On April 21, 2016, our unitholders approved the compensation committee's amended plan, which increased the number of limited partner units available to be issued pursuant to the LTIP to 11.9 million.

Our equity-based incentive compensation expense was as follows (in thousands):

	Three Months Ended March 31, 2015		
	Equity Method	Liability Method	Total
Performance-based awards:			
2013 awards	$1,519	$ 215	$1,734
2014 awards	1,623	—	1,623
2015 awards	1,019	—	1,019
Time-based awards	375	—	375
Total	$4,536	$ 215	$4,751
Allocation of LTIP expense on our consolidated statements of income:			
G&A expense			$4,689
Operating expense			62
Total			$4,751

	Three Months Ended March 31, 2016		
	Equity Method	Liability Method	Total
Performance-based awards:			
2014 awards	$3,409	$ —	$3,409
2015 awards	1,545	—	1,545
2016 awards	1,120	—	1,120
Time-based awards	576	—	576
Total	$6,650	$ —	$6,650
Allocation of LTIP expense on our consolidated statements of income:			
G&A expense			$6,608
Operating expense			42
Total			$6,650

In February 2016, 218,046 phantom unit awards were issued pursuant to our LTIP. These grants included both performance-based and time-based phantom unit awards and have a three-year vesting period that will end on December 31, 2018.

MAGELLAN MIDSTREAM PARTNERS, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In February 2016, we issued 350,552 limited partner units to settle unit award grants to certain employees that vested on December 31, 2015. Further, 3,234 limited partner units were issued during 2016 to settle the equity-based retainers paid to the directors of our general partner.

Basic and Diluted Net Income Per Limited Partner Unit

The difference between our actual limited partner units outstanding and our weighted-average number of limited partner units outstanding used to calculate earnings per unit is due to the impact of: (i) the phantom units issued to non-employee directors which are included in the calculation of basic and diluted weighted average units outstanding, and (ii) the weighted average effect of units actually issued during a period. The difference between the weighted-average number of limited partner units outstanding used for basic and diluted net income per unit calculations on our consolidated statements of income is primarily the dilutive effect of phantom unit grants associated with our LTIP that have not yet vested.

11. Distributions

Distributions we paid during 2015 and 2016 were as follows (in thousands, except per unit amounts):

Payment Date	Per Unit Cash Distribution Amount	Total Cash Distribution to Limited Partners
02/13/2015	$ 0.6950	$ 158,061
05/15/2015	0.7175	163,178
08/14/2015	0.7400	168,296
11/13/2015	0.7625	173,413
Total	$ 2.9150	$ 662,948
2/12/2016	$ 0.7850	$ 178,808
5/13/2016(1)	0.8025	182,797
Total	$ 1.5875	$ 361,605

(1) Our general partner’s board of directors declared this cash distribution in April 2016 to be paid on May 13, 2016 to unitholders of record at the close of business on May 2, 2016.

12. Fair Value

Recurring

Fair Value Methods and Assumptions - Financial Assets and Liabilities.

We used the following methods and assumptions in estimating fair value of our financial assets and liabilities:

- Energy commodity derivatives contracts. These include NYMEX futures agreements related to petroleum products. These contracts are carried at fair value on our consolidated balance sheets and are valued based on quoted prices in active markets. See Note 8 – Derivative Financial Instruments for further disclosures regarding these contracts.

- Interest rate contracts. These include forward-starting interest rate swap agreements to hedge against the risk of variability of interest payments on future debt. These contracts are carried at fair

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

value on our consolidated balance sheets and are valued based on an assumed exchange, at the end of each period, in an orderly transaction with a market participant in the market in which the financial instrument is traded. The exchange value was calculated using present value techniques on estimated future cash flows based on forward interest rate curves. See Note 8 – Derivative Financial Instruments for further disclosures regarding these contracts.

- Long-term receivables. These include primarily lease payments receivable under a direct-financing leasing arrangement. Fair value was determined by estimating the present value of future cash flows using current market rates.

- Debt. The fair value of our publicly traded notes was based on the prices of those notes at December 31, 2015 and March 31, 2016; however, where recent observable market trades were not available, prices were determined using adjustments to the last traded value for that debt issuance or by adjustments to the prices of similar debt instruments of peer entities that are actively traded. The carrying amount of borrowings, if any, under our revolving credit facility and our commercial paper program approximates fair value due to the frequent repricing of these obligations.

Fair Value Measurements - Financial Assets and Liabilities

The following tables summarize the carrying amounts, fair values and recurring fair value measurements recorded or disclosed as of December 31, 2015 and March 31, 2016, based on the three levels established by ASC 820, Fair Value Measurements and Disclosures (in thousands):

	As of December 31, 2015				
			Fair Value Measurements using:		
Assets (Liabilities)	Carrying Amount	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Energy commodity derivatives contracts	$42,721	$42,721	$42,721	$—	$ —
Interest rate contracts	$1,526	$1,526	$—	$1,526	$ —
Long-term receivables	$20,374	$20,021	$—	$—	$ 20,021
Debt	$(3,439,622)	$(3,284,791)	$—	$(3,284,791)	$ —

	As of March 31, 2016				
Assets (Liabilities)			Fair Value Measurements using:		
	Carrying Amount	Fair Value	Quoted Prices in	Significant Other Observable	Significant Unobservable Inputs

			Active Markets for Identical Assets (Level 1)	Inputs (Level 2)	(Level 3)
Energy commodity derivatives contracts	$22,592	$22,592	$22,592	$—	$ —
Interest rate contracts	$(10,951)	$(10,951)	$—	$(10,951)	$ —
Long-term receivables	$20,726	$21,272	$—	$—	$ 21,272
Debt	$(3,802,261)	$(3,884,960)	$—	$(3,884,960)	$ —

13. Related Party Transactions

Barry R. Pearl is an independent member of our general partner's board of directors and was also a director of the general partner of Targa Resources Partners, L.P. ("Targa") through February 29, 2016. In the normal course of business, we purchase butane from subsidiaries of Targa. For the three-month period ended March 31, 2015 and the two-month period ended February 29, 2016, we made purchases of butane from subsidiaries of Targa of $8.8 million and $4.7 million, respectively. These purchases were based on the then-current index prices. We had recognized payables to Targa of $2.0 million at December 31, 2015.

Stacy P. Methvin was elected as an independent member of our general partner's board of directors on April 23, 2015 and is also a director of one of our customers. We received tariff revenue of $3.0 million for the three-month period ended March 31, 2016 and recorded receivables of $1.3 million and $1.5 million from this customer at December 31, 2015 and March 31, 2016, respectively. The tariff revenue we recognized from this customer was in the normal course of business, with rates determined in accordance with published tariffs.

See Note 4 – Investments in Non-Controlled Entities for a discussion of affiliate joint venture transactions we account for under the equity method.

14. Subsequent Events

Recognizable events

No recognizable events occurred subsequent to March 31, 2016.

Non-recognizable events

Cash Distribution. In April 2016, our general partner's board of directors declared a quarterly distribution of $0.8025 per unit to be paid on May 13, 2016 to unitholders of record at the close of business on May 2, 2016. The total cash distributions expected to be paid under this declaration are approximately $182.8 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Introduction

We are a publicly traded limited partnership principally engaged in the transportation, storage and distribution of refined petroleum products and crude oil. As of March 31, 2016, our asset portfolio, including the assets of our joint ventures, consisted of:

- our refined products segment, comprised of our 9,700-mile refined products pipeline system with 54 terminals as well as 26 independent terminals not connected to our pipeline system and our 1,100-mile ammonia pipeline system;
- our crude oil segment, comprised of approximately 1,600 miles of crude oil pipelines and storage facilities with an aggregate storage capacity of approximately 22 million barrels, of which 14 million barrels are used for leased storage; and
- our marine storage segment, consisting of five marine terminals located along coastal waterways with an aggregate storage capacity of approximately 26 million barrels.

The following discussion provides an analysis of the results for each of our operating segments, an overview of our liquidity and capital resources and other items related to our partnership. The following discussion and analysis should be read in conjunction with (i) our accompanying interim consolidated financial statements and related notes and (ii) our consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations included in our Annual Report on Form 10-K for the year ended December 31, 2015.

Recent Developments

Cash Distribution. In April 2016, the board of directors of our general partner declared a quarterly cash distribution of $0.8025 per unit for the period of January 1, 2016 through March 31, 2016. This quarterly cash distribution will be paid on May 13, 2016 to unitholders of record on May 2, 2016. Total distributions expected to be paid under this declaration are approximately $182.8 million.

Results of Operations

We believe that investors benefit from having access to the same financial measures utilized by management. Operating margin, which is presented in the following table, is an important measure used by management to evaluate the economic performance of our core operations. Operating margin is not a generally accepted accounting principles ("GAAP") measure, but the components of operating margin are computed using amounts that are determined in accordance with GAAP. A reconciliation of operating margin to operating profit, which is its nearest comparable GAAP financial measure, is included in the following table. Operating profit includes expense items, such as depreciation and amortization expense and general and administrative ("G&A") expense, which management does not focus on when evaluating the core profitability of our separate operating segments. Additionally, product margin, which management primarily uses to evaluate the profitability of our commodity-related activities, is provided in this table. Product margin is a non-GAAP measure; however, its components of product sales revenue and cost of product sales are determined in accordance with GAAP. Our butane blending, fractionation and other commodity-related activities generate significant product revenue. We believe the product margin from these activities, which takes into

account the related cost of product sales, better represents its importance to our results of operations.
