PROSPECTUS SUMMARY

THIS SUMMARY HIGHLIGHTS INFORMATION CONTAINED ELSEWHERE IN THIS PROSPECTUS. BECAUSE IT IS A SUMMARY, IT DOES NOT CONTAIN ALL OF THE INFORMATION THAT YOU SHOULD CONSIDER BEFORE

INVESTING IN OUR COMMON STOCK. YOU SHOULD READ THE ENTIRE PROSPECTUS CAREFULLY, INCLUDING THE "RISK FACTORS" AND OUR FINANCIAL STATEMENTS AND RELATED NOTES APPEARING ELSEWHERE IN THIS PROSPECTUS, TO UNDERSTAND THIS OFFERING FULLY. References herein to "we", "us", "our", "Company" or "Stockgroup" refer to Stockgroup Information Systems Inc. and its subsidiaries.

Company Overview

Stockgroup is a financial media and technology company which provides a wide range of financial information services including Financial Software and Content Systems, and Public Company Disclosure and Awareness Products.

We were incorporated under the laws of the State of Colorado in 1994 and have a December 31st financial year end.

In addition to our corporate headquarters at Suite 500 - 750 West Pender Street, Vancouver, British Columbia, Canada V6C 2T7, we have offices in Toronto, Ontario. Our telephone number at our corporate head office is (604) 331-0995.

A full description of our company may be found elsewhere in this prospectus under the heading "Business".

Selling Security Holders

This prospectus relates to the registration for resale of 7,146,550 shares of our common stock and 4,284,695 shares of our common stock issuable upon the exercise of outstanding warrants and agent options, by certain selling security holders. The selling security holders will offer and sell their shares of outstanding common stock and shares of common stock underlying outstanding warrants at prevailing market prices or privately negotiated prices. We will not receive any proceeds from the sale of the securities by the selling security holders, other than through the exercise, if any, of their outstanding warrants.

SUMMARY FINANCIAL INFORMATION

Set forth below are summary statements of operations data for the ~~quarters~~ three month and nine month periods ended ~~June~~ September 30, 2003 and 2002 and years ended December 31, 2002 and 2001, and summary balance sheet data as of ~~June~~ September 30, 2003, December 31, 2002 and December 31, 2001. This information should be read in conjunction with our quarterly consolidated financial statements for the quarters ended ~~June~~ September 30, 2003 and our annual consolidated financial statements for the years ended December 31, 2002 and 2001 and notes thereto and Management's Discussion and Analysis , appearing elsewhere in this prospectus.

1 On January 28, May 12, and May 28, 2003 the holders of our 8% convertible notes converted their principal balance into common shares at a discounted conversion rate, which produced an expense on the induced conversion and accelerated the accretion of the unamortized debt discount, for a total non-cash interest expense of \$860,351.

2 The gain on restructuring of convertible notes arose in February 2002. The note holders agreed to waive accrued interest of \$315,000 and prepayment premiums of \$288,600, and to make the notes interest free until December 31, 2003. The interest free period was a benefit to us and produced a gain of \$237,764. As well, the removal of the discount-to-market conversion calculation produced a benefit to us called a "repurchase of beneficial conversion feature," of \$247,222. A full description of this restructuring may be found in Note 7 to the 2002 annual financial statements found elsewhere in this prospectus.

RISK FACTORS

The following factors should be considered carefully in evaluating Stockgroup and its business.

Our limited operating history makes it difficult for you to judge our prospects.

We have a limited operating history upon which an evaluation of our current business and prospects can be based. We have reported losses for each fiscal year since we became a public company. You should consider any purchase of our shares in light of the risks, expenses and problems frequently encountered by all companies in the early stages of its corporate development, such as lack of capital, difficulty attracting high quality personnel, lack of market exposure, and uncertainty about the viability of our business plan.

Liquidity and capital resources are uncertain.

Our cash used in operations for the first ~~six~~ nine months of 2003 was ~~\$552,048,720.167~~, our net losses for the same period were ~~\$1,637,817~~, and our accumulated deficit at ~~June~~ September 30, 2003 was ~~\$14,803,305~~ 15,079,199. ~~We repaid \$35,332 of our convertible notes, and \$47,000 in notes payable. Another use of cash was repayment of capital leases, totaling \$55,619. Sources of cash included \$95,745 for proceeds from exercise of warrants and stock options, and \$625,281 from issuance of shares and warrants under a Short Form Offering.~~

You should be cautioned that there can be no assurance that revenue, margins, and profitability will increase. We have ~~\$79,430,905~~ of capital lease obligations due within the next 12 months. There can be no assurance that we will be successful in raising a sufficient amount of additional capital or in internally generating a sufficient amount of capital to meet our operational requirements.

Our ability to continue as a going concern is uncertain

In view of our liquidity conditions described above, our ability to continue as a going concern is uncertain and dependent upon achieving a profitable level of operations and, if necessary, on our ability to obtain necessary financing to fund ongoing operations. As well, our ability to absorb a large unforeseen expenditure or other disaster is limited by our current lack of capital resources. Our auditors' report and Note 1 to our 2002 consolidated financial statements also discuss substantial doubt about our ability to continue as a going concern.

Computer equipment problems and failures could adversely affect our business.

Problems or failures in Internet-related equipment, including file servers, computers and software, could result in interruptions or slower response times for our Web-based services, which could reduce the attractiveness of our Web site, financial tools or investor relations services to advertisers and users. Should such interruptions continue for an extended period we could lose significant business and reputation. Equipment

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

problems and failures could result from a number of causes, including an increase in the number of users of our Web site, computer viruses, outside programmers penetrating and disrupting software systems, human error, fires, floods, power and telecommunications failures and internal breakdowns. In addition, any disruption in Internet access and data feeds provided by third parties could have a material and adverse effect on our businesses. Our limited resources do not currently permit us to maintain an off-site disaster recovery facility. As a result, if we experience a major disaster such as a fire, theft, or intentional destruction of our computer equipment, it could have catastrophic results for our business.

We may not be able to compete successfully against current and future competitors.

We currently compete with several other companies offering similar services. Many of these companies have significantly greater financial resources, name recognition, and technical and marketing resources, and virtually all of them are seeking to improve their technology, products and services. We can not assure you that we will have the financial resources or the technological expertise to successfully meet this competition.

We are significantly influenced by our officers, directors and entities affiliated with them.

In the aggregate, ownership of Stockgroup shares by management represents approximately 17% of our present issued and outstanding shares of common stock. These shareholders, if acting together, will be able to significantly influence all matters requiring approval by shareholders, including the election of directors and the approval of mergers or other business combinations.

We may be unable to protect the intellectual property rights upon which our business relies.

We have or may pursue certain trademarks, and we have brand names, Internet domain names, Web site designs, programs and certain subscriber lists which make up the intellectual property we view as important to our business. It may be possible for a third party to copy or otherwise obtain or use our intellectual

Page 9

property without authorization or to develop similar technology independently. There can also be no assurance that our business activities will not infringe upon the proprietary rights of others, nor that other parties will not assert infringement claims against us, including claims that by, directly or indirectly, providing hyperlink text links to Web sites operated by third parties, we have infringed upon the proprietary rights of other third parties. Due to the global nature of the Internet, there can be no assurance that obtaining trademark protection in the United States will prevent infringements on our trademarks by parties in other countries. We have not sought or obtained any patents on our proprietary software and data processing applications.

We may be held liable for online information or services provided by us or third parties.

Because materials may be downloaded by the public on Internet services offered by us or the Internet access providers with whom we have relationships, and because third party information may be posted by third parties on our Web site through discussion forums and otherwise, there is the potential that claims will be made against us for defamation, negligence, copyright or trademark infringement or other theories. Such claims have been brought against providers of online services in the past. We have been named in two lawsuits in which defamation is alleged to have occurred on our Internet discussion forum called Bull Boards. The imposition of liability based on such claims could materially and adversely affect us.

Even to the extent such claims do not result in liability, we could incur significant costs in investigating and defending against such claims. The imposition on us of potential liability for information or services carried on or disseminated through our Web site could require implementation of measures to reduce exposure to such liability, which may require the expenditure of substantial resources and limit the attractiveness of services to members and users.

We post news clippings from other news Web sites on the Stockhouse and SmallCapCenter Web sites with links to the source site. Most publishers currently encourage this practice, although certain publishers have requested that we cease posting their stories. We have complied with their request in each case. To the extent that a large majority of news publishers prohibit posting of their stories on our Web sites or begin charging royalty fees for such stories, our Web site traffic could decrease or our costs could increase, thereby adversely impacting our profitability.

Our general liability insurance will not cover all potential claims to which we are exposed or may not be adequate to indemnify us for all liability that may be imposed. Any imposition of liability that is not covered by insurance or is in excess of insurance coverage could have a material adverse effect on our business, results of operations and financial condition.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

The Securities and Exchange Commission has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors". The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability

of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

Future issuances of shares may adversely impact the value of our stock.

We may attempt to raise additional capital through the sale of common stock in the near future. Future issuances of common stock may dilute your position in us.

Our stock price is vulnerable to buying and selling pressures

Page 10

As there is a limited market for our common stock, there may be considerable volatility in our stock price due to selling and buying pressures. Future sales of shares by our existing or future shareholders could cause the market price of our common stock to decline. There are currently 20,842,696 outstanding shares of our common stock which may be traded without restriction in any market. In addition, there are 8,520,300 outstanding shares which may be traded outside the United States and which will become free trading in the United States upon effectiveness of this registration statement.

There are 2,326,000 shares underlying stock options which are exercisable within 60 days of this prospectus, and which if exercised may be traded without restriction in any market. Of these options, 1,768,600 of them have exercise prices at or below the market price as of the date of this prospectus.

There are also 3,514,638 shares underlying warrants which are exercisable as of the date of this prospectus, of which 800,000 are covered by a registration statement filed July 7, 2003 and accordingly are eligible for sale by the holders thereof in the public market subject to restrictions included in our agreements with the holders. Of the aforementioned 800,000 shares, 500,000 underlie warrants which have exercise prices at or below the market price as of the date of this prospectus.

Our board of directors may authorize and issue preferred shares

Our board of directors has the authority to issue preferred shares with rights, preferences and/or privileges senior to or on parity with the rights of the holders of common stock. The potential consequences to our investors include a loss of perceived value of the stock in the market and a loss of future earnings and dividends, if and when dividends are declared.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains "forward-looking statements." In some cases you can identify forward-looking statements by terminology such as "may", "will", "should", "could", "expects", "plans", "intends", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of such terms and other comparable terminology.

These forward-looking statements include, without limitation, statements about:

- our market opportunity;
- our strategies;
- competition;
- expected activities and expenditures as we pursue our business plan; and
- the adequacy of our available cash resources.

These statements appear in a number of places in this registration statement and include statements regarding the intent, belief or current expectations of the Company, its directors or its officers with respect to, among other things: (i) trends affecting our financial condition or results of operations, (ii) our business and growth strategies, (iii) the Internet and Internet commerce and (iv) our financing plans. Although we believe that the expectations reflected in the forward-looking statement are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

The accompanying information contained in this prospectus including, without limitation, the information set forth under the headings "Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations", and "Business" identify important factors that could adversely affect actual results and performance. All forward-looking statements attributable to us are expressly qualified in their entirety by the foregoing cautionary statement.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the securities by the selling security holders.

SELLING SECURITY HOLDERS

This prospectus relates to the offering by the selling security holders of shares of our common stock acquired by them in an equity investment and exercise of warrants that the selling security holders received in certain private placements. 11,431,245 shares of common stock offered by this prospectus are being offered by the selling security holders for their own accounts.

Page 11

A. 28 SECURITY HOLDERS PARTICIPATING IN THE DECEMBER 31, 2002 PRIVATE PLACEMENT

We are registering the resale of 5,255,625 shares for this group of security holders.

Higgs, Panorama Public and Industrial Communications Ltd., Konstantinos Tsirigotis, Les Enterprises de Richard Atkinson Ltee., Peter Krag Hansen and Thomas O'Neill (collectively, the "selling security holders") purchased an aggregate 3,403,750 units, each unit consisting of one common share and one non-transferable warrant, at a price of \$0.16 per unit for total gross proceeds of \$544,600 from us in a private placement transaction which completed on December 31, 2002. Each two warrants entitle the holder to acquire one common share at an exercise price of \$0.22 until

December 31, 2003. We also issued 150,000 agent's warrants to Bolder Investment Partners as a placement fee in the transaction. Each one agent's warrant is exercisable for one common share at \$0.16.

As of the date of this prospectus 1,223,750 common shares had been issued pursuant to the exercise of warrants, and 150,000 common shares had been exercised pursuant to the exercise of agent's warrants. The remaining warrants have expired. We relied on an exemption under Regulation S for the issuance of the shares underlying the warrants.

The following table sets forth information with respect to the common stock beneficially owned by the selling security holders as of the date of this prospectus. Beneficial ownership is determined in accordance with Securities and Exchange Commission rules and includes voting or investment power with respect to the securities.

The percentage interest of each selling security holder is based on the beneficial ownership of that selling security holder divided by the sum of the current outstanding shares of common stock plus the additional shares, if any, which would be issued to that selling security holder (but not any other selling security holder) when exercising warrants in the future.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

To our knowledge, each of the selling security holders has sole voting and investment power over the shares of common stock listed in the table below. No selling security holder has had a material relationship with us during the last three years, other than as an owner of our common stock or other securities. To our knowledge, none of these investors is affiliated with the others.

B. 215 SECURITY HOLDERS PARTICIPATING IN THE APRIL 2003 SHORT FORM OFFERING

We are registering the resale of 6,175,620 shares for this group of security holders.

The list of security holders in the table below purchased an aggregate of 3,742,800 units, each unit consisting of one common share and one non-transferable warrant, at a price of C\$0.37 (US\$0.27) per unit, for total gross proceeds of C\$1,384,836 (US\$1,010,556), from us in a short form offering which completed in two parts on June 4, 2003 and July 16, 2003. Each two warrants entitle the holder to acquire one share of us at an exercise price of C\$0.75 (US\$0.55) for 12 months from the respective completion date. In addition, a group of agents led by First Associates Investments Inc. and including Bolder Investment Partners Ltd., Canaccord Capital Corp., Haywood Securities Inc., Penson Financial Services Canada, Wolverton Securities Ltd., and Union Securities Ltd. received an aggregate of 374,280 agent options, with each agent option entitling the holder to acquire one unit as described above for 24 months from the respective completion date at C\$0.37 (US\$0.27) per unit.

As of the date of this prospectus none of the warrants or agent options had been exercised. Upon exercise of the warrants, we plan to rely on an exemption under Regulation S for the issuance of the shares underlying the warrants.

The following table sets forth information with respect to the common stock beneficially owned by the selling security holders as of the date of this prospectus. Beneficial ownership is determined in accordance with Securities and Exchange Commission rules and includes voting or investment power with respect to the securities.

The percentage interest of each selling security holder is based on the beneficial ownership of that selling security holder divided by the sum of the current outstanding shares of common stock plus the additional shares, if any, which would be issued to that selling security holder (but not any other selling security holder) when exercising warrants in the future.

To our knowledge, each of the selling security holders has sole voting and investment power over the shares of common stock listed in the table below. No selling security holder has had a material relationship with us during the last three years, other than as an owner of our common stock or other securities. To our knowledge, none of these investors is affiliated with the others.

PLAN OF DISTRIBUTION

SELLING SECURITY HOLDERS

The selling security holders and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling security holders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;

Page 17

- privately negotiated transactions;
- short sales;
- broker-dealers may agree with the selling security holders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such method of sale; or
- any other method permitted pursuant to applicable law.

The selling security holders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

The selling security holders may also engage in short sales against the box, puts and calls and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades. The selling security holders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling security holder defaults on a margin loan, the broker may, from time to time, offer and sell pledged shares.

Broker-dealers engaged by the selling security holders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling security holders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling security holders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

The selling security holders and any broker-dealers or agents that are involved in selling the shares may be deemed to be

"underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

We are required to pay all fees and expenses incident to the registration of the shares. We have agreed to indemnify the selling security holders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

LEGAL PROCEEDINGS

We are currently involved in litigation in British Columbia Provincial Court with a former customer, Pacific Capital Markets Inc. or PCMI, to collect amounts owing pursuant to a contract entered into in September, 2000. The defendant provided a \$100,000 deposit and contracted us to provide certain lead generation services. We delivered the requested services throughout October and November, 2000, however, the defendant defaulted on all additional payments. We are suing the defendant for the \$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the \$100,000 deposit. As of the date of this prospectus no further action had been taken by either party and no court date has been set. Although we currently believe the outcome of the litigation will be in our favor, we have not elected to aggressively pursue the litigation at this time. We have made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in our statement of operations as the litigation is resolved.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

We have been named in two lawsuits involving members of our Bull Boards investment discussion forum on www.stockhouse.com/ca. Both suits allege defamation by unknown parties on our discussion forum. One lawsuit was in Alberta Provincial Court and the plaintiff was Bearcat Explorations. We have since been released from the litigation by the plaintiff. In the second lawsuit, which is in Saskatchewan Provincial Court, the plaintiff is Blackstrap Hospitality, and we have responded to the action by offering to provide information on the defendant on the condition that we receive a court order to do so. We expect to be released from this litigation without incurring further expenses.

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

The following table sets forth, as of the date of this prospectus, the name, age and position of our directors, executive officers and other significant employees:

Lee deBoer has served as a director of Stockgroup since August 1999. Since May of 1998, he has served as President of

MediaFutures, Inc., which provides consulting services to clients in the Internet and cable broadcasting industries. From July 2000 through June 2001, he also served as CEO of Automatic Media Incorporated, an Internet media and software firm based in New York City. Mr. deBoer is also a director of Click TV, a television production company in the United Kingdom and Priva Technologies, both of which are non-reporting private companies.

Jeffrey D. Berwick, Director

Page 19

Jeff Berwick has served as a director from July 2002 to present. Mr. Berwick has been Chief Executive Officer of StockHouse Media Corporation, a non-reporting private company, since 1995. In 2003 Mr. Berwick helped found Covenant Corporation, which engages in anti-piracy solutions in the entertainment industry, and retains an active role with it. Covenant Corporation is also a non-reporting private company.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of the date of this prospectus, the beneficial ownership of common stock of each person known to us who owns, or has the right to acquire within the next 60 days, more than 5% of our issued and outstanding common stock.

Name and address* of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class

On March 11, 1999, we entered into a Share Exchange and Share Purchase Agreement with 579818 B.C. Limited, a British Columbia corporation, Stock Research Group, Inc., a British Columbia corporation, and all of the shareholders of Stock Research Group. Under that agreement we acquired all of the issued and outstanding shares of Stock Research Group in consideration of which 579818 B.C. Limited issued to the Stock Research Group shareholders 3,900,000 Class A Exchangeable Shares. We also issued to Stock Trans, Inc., our transfer agent, 3,900,000 shares of common stock, to hold as trustee for the benefit of the Stock Research Group shareholders. The exchangeable shares may be converted, at the option of the holder, into an equal number of shares of common stock held by the trustee. Pending any such conversion, each holder of the exchangeable shares may direct the trustee to vote an equivalent number of shares of common stock. The trustee has no discretion as to the voting or disposition of such common stock.

As a result of these transactions each of the former Stock Research Group shareholders has the right to vote, or to direct the trustee to vote on their behalf, a number of shares of common stock equal to the number of exchangeable shares held of record by them. In the aggregate, as of the date of this prospectus, the 2,491,000 shares of common stock held by the trustee represent approximately ~~9.55~~**7.66**% of our issued and outstanding shares of common stock.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The trust created by these transactions will continue until the earliest to occur of the following events:

- no outstanding exchangeable shares are held by any former Stock Research Group shareholder;
- each of 579818 B.C. Limited and Stockgroup acts in writing to terminate the trust and such termination is approved by the holders of the exchangeable shares; and no outstanding exchangeable shares are held by any former Stock Research Group shareholder; and
- December 31, 2098.

Marcus New directly owns 169,500 exchangeable shares and his wife, Yvonne New, owns directly 19,500 exchangeable shares. They both indirectly own, through 518464 B.C. Ltd., a British Columbia company owned by Mr. New as to 50% and by Mrs. New as to 50%, 1,945,000 exchangeable shares. Accordingly, Marcus and Yvonne New beneficially own 2,134,000 exchangeable shares of common stock, which represent approximately 6.57% of our issued and outstanding common stock.

Mr. New also owns 2,000 shares of common stock which were purchased in the open market. On September 18, 2001, Mr. New was granted options to purchase 100,000 shares of common stock at an exercise price of \$0.12 per share. These options fully vested on March 18, 2002 and expire on September 17, 2007. On March 5, 2002, Mr. New was granted options to purchase 400,000 shares of common stock at an exercise price of \$0.22 per share, fully vesting on the grant date and with an expiry date of March 4, 2008. On May 13, 2002, Mr. New was granted options to purchase 300,000 shares of common stock at an exercise price of \$0.17 per share,

Page 20

fully vesting on grant date and with an expiry date of May 12, 2008. In combination with Mr. New's 2,134,000 exchangeable shares, his wife's 80,500 common shares, his 800,000 vested options and 2,000 shares of common stock, Mr. New holds a beneficial ownership position in us of 3,016,500 shares, representing approximately 9.06% of issued and outstanding common stock.

Yvonne New owns directly 80,500 common shares. Her direct shares in combination with her beneficial ownership of 2,134,000 exchangeable shares give her a beneficial ownership position in us of 2,214,500 shares, representing approximately 6.81% of issued and outstanding common stock.

U.S. Global Funds owns 2,400,000 shares, representing approximately 7.38% of issued and outstanding common stock. The natural persons who hold voting power over the securities held by U.S. Global Funds are Frank Holmes and Ralph Aldis.

On October 22, 2002, Mr. de Boer was granted options to purchase 50,000 shares of common stock at an exercise price of \$0.15 per share, fully vesting on the grant date and with an expiry date of October 21, 2008. Mr. de Boer's vested options provide him with a beneficial ownership of 100,000 shares representing less than 1% of issued and outstanding common stock.

Jeffrey Berwick owns 437,225 common shares representing approximately 1.35% of our issued and outstanding common stock.

Employment and severance agreement

We have an employment agreement with our President, Leslie A. Landes. The initial term of this agreement is 5 years and expires August 4, 2003, with two possible renewal terms of two years each. By virtue of neither party giving 90 days' termination notice before August 4, 2003, the management agreement had been renewed until August 4, 2005. Under the agreement Mr. Landes is scheduled to receive a minimum compensation of C\$150,000 (approximately US\$108,000) per annum. The agreement may be terminated by us or Mr. Landes on 30 days notice, and if early termination is initiated by Stockgroup without cause, Mr. Landes is to receive a severance payment equal to 12 months compensation.

DESCRIPTION OF SECURITIES

The following description of our securities and various provisions of our Articles of Incorporation and our bylaws are summaries. Statements contained in this prospectus relating to such provisions are not necessarily complete, and reference is made to our Articles of Incorporation and bylaws, copies of which have been filed with the Securities and Exchange Commission as exhibits to our registration statement of which this prospectus constitutes a part, and provisions of applicable law. Our authorized capital stock consists of 75,000,000 shares of common stock, no par value, of which 32,498,721 shares were issued and outstanding as of the date of this prospectus, and 5,000,000 shares of preferred stock, no par value, of which no shares were issued and outstanding as of the date of this filing. As of the date of this prospectus there were, to our knowledge after consultation with our transfer agent, 99 registered and approximately 2,000 other holders of record of our common stock.

COMMON STOCK

Each share of our common stock is entitled to share pro rata in dividends and distributions with respect to our common stock when, as and if declared by the Board of Directors from funds legally available therefor. No holder of any shares of common stock has any preemptive right to subscribe for any of our securities. Upon dissolution, liquidation or winding up of Stockgroup, the assets will be divided pro rata on a share-for-share basis among holders of the shares of common stock after any required distribution to the holders of preferred stock, if any. All shares of common stock outstanding are fully paid and non-assessable.

Page 22

Each shareholder of common stock is entitled to one vote per share with respect to all matters that are required by law to be submitted to shareholders. The shareholders are not entitled to cumulative voting in the election of directors. Accordingly, the holders of more than 50% of the shares voting in the election of directors will be able to elect all the directors if they choose to do so.

Currently, our bylaws provide that shareholder action may be taken at a meeting of shareholders and may be affected by a consent in writing if such consent is signed by the holders of the majority of outstanding shares, unless Colorado law requires a greater percentage. Our Articles of Incorporation provide that our bylaws may be amended by the affirmative vote of a majority of the shares entitled to vote on such an amendment. These are the only provisions of our bylaws or Articles of Incorporation that specify the vote required by security holders to take action.

PREFERRED STOCK

The Board of Directors is authorized, without further shareholder approval, to issue from time to time up to an aggregate of 5,000,000 shares of preferred stock. The preferred stock may be issued in one or more series and the Board of Directors may fix the rights, preferences and designations thereof. No shares of preferred stock are currently outstanding and we have no present plans to issue any shares of preferred stock. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from acquiring, a majority of our outstanding voting stock.

CONVERTIBLE DEBENTURES, NOTES AND WARRANTS

A. WARRANTS ISSUED WITH 3% CONVERTIBLE DEBENTURES

On January 19, 2001, we entered into a Securities Purchase Agreement with seven unaffiliated investors to issue \$500,000 of unsecured 3% convertible debentures and 800,000 non-transferable share purchase warrants.

By March 15, 2002 all of the principal of the convertible debentures had been converted into common stock.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The warrants remain outstanding and were issued on a pro-rata basis, with each debenture holder receiving one Series A warrant for each dollar of debentures purchased and three Series B warrants for each five dollars of debentures purchased. The exercise price of the warrants is \$0.25 per share for the Series A warrants and \$0.50 per share for the Series B warrants. The warrants are all currently exercisable and permit the holders to acquire up to an aggregate of 800,000 common shares at any time up to July 31, 2005.

B. WARRANTS ISSUED WITH 8% CONVERTIBLE NOTES

On April 3, 2000, we entered into a Convertible Note Purchase Agreement with two unaffiliated investors to issue unsecured 8% convertible notes and 5-year callable warrants for gross proceeds of \$3 million. As of the date of this filing the principal balance of the notes had been fully extinguished or converted into common shares. The agreement included non-transferable share purchase warrants.

The warrants are all currently exercisable and permit the holders to acquire up to 281,818 common shares at an exercise price of \$3.00 at any time up to March 31, 2005.

C. WARRANTS ISSUED WITH A JUNE/JULY 2003 SHORT FORM OFFERING

On June 4, 2003 and July 16, 2003, a group of investors purchased an aggregate of 3,742,800 units, each unit consisting of one common share and one non-transferable warrant, at a price of C\$0.37 (US\$0.27) per unit for total gross proceeds of C\$1,384,836 (US\$1,010,556) from us under a Short Form Offering. Each two warrants entitle the holder to acquire one common share at an exercise price of C\$0.75 (US\$0.55) for one year following the respective issue date. We also

Page 23

issued 374,280 agent's options, with each option allowing the agent to purchase one unit as described above for C\$0.37 (US\$0.27) for up to 24 months following the respective issue date.

As of the date of this prospectus none of the warrants or agent's options had been exercised, but they are all currently exercisable at any time.

STOCK OPTIONS

1999 Incentive Stock Option Plan

The purposes of our 1999 Incentive Stock Option Plan are to enhance our profitability and shareholder value by enabling us to offer stock based incentives to employees, directors and consultants. The 1999 Stock Option Plan authorizes the grant to our, and our respective subsidiaries, employees, directors, consultants and advisors, of:

- stock options;
- restricted shares (which would generally provide for a substantial risk of forfeiture for a period of time);
- deferred shares, which would generally provide for shares to be issued upon services being rendered; and
- performance shares, which would generally provide for shares to be issued upon the attainment of specified performance goals.

Under the 1999 Stock Option Plan we may grant incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, and non-qualified stock options. Incentive stock options may only be granted to our employees.

The number of shares authorized and reserved for grants under our 1999 Stock Option Plan is 2,000,000. The 1999 Stock Option Plan is administered by the Board of Directors, although the Board has the right to appoint a committee of two or more non-employee directors to administer the plan. Subject to the provisions of the plan, the Board and the committee have authority to determine the employees, directors, consultants and advisors who are to receive awards and the terms of such awards, including:

- the number of shares subject to the award;
- the fair market value of the shares subject to options;
- the exercise price per share;
- the terms of vesting, including whether vesting accelerates upon a change of control, which may also be granted to participants at any time after an award has been granted; and
- other terms.

Grants of options may consist of incentive stock options, non-qualified stock options or a combination of both. Incentive stock options must have an exercise price equal to at least 100% of the fair market value of a share on the date of the award and non-qualified stock options must

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

have an exercise price at least equal to 75% of the fair market value of a share on the date of the award. If the grant of an incentive stock option is to a shareholder holding more than 10% of our voting stock, the exercise price must be at least 110% of the fair market value on the date of grant. Terms and conditions of awards are set forth in written agreements between the respective option holders and us. Awards under the 1999 Stock Option Plan may not be made after March 11, 2009, and stock options granted before that date may not have a term beyond that date.

If the employment with us of the holder of a stock option is terminated for any reason, other than as a result of a voluntary termination with the consent of the Board or the holder's death or disability, the holder's stock option terminates on the same date. If the termination is due to such a voluntary termination the holder may exercise the option, to the extent exercisable on the date of termination of employment, until three months after the date of termination. If an option holder dies or becomes disabled, stock options may generally be exercised, to the extent exercisable on the date of death or disability, by the option holder or the option holder's survivors until six months after the date of death or disability.

As of the date of this prospectus options to purchase 450,000 common shares are issued and outstanding. Of the issued and outstanding options, 420,000 options are vested and exercisable immediately and 30,000 options are unvested and not exercisable until vested. We have registered the shares subject to issuance under our 1999 Stock Option Plan pursuant to our registration statement on Form S-8 filed with the Securities and Exchange Commission on November 16, 1999.

As part of our listing agreement with the TSX Venture Exchange, we are not permitted to issue further options under this stock option plan, however the 450,000 outstanding options under the 1999 Stock Option Plan may be exercised at any time prior to their expiration or cancellation.

Page 24

2000 Incentive Stock Option Plan

The purposes and description of our 2000 Incentive Stock Option Plan are identical to our 1999 Stock Option Plan in all respects, save that the amount of shares authorized and reserved for issuance under the 2000 Stock Option Plan is 500,000 shares. As of the date of this prospectus 135,000 options are issued and outstanding and exercisable immediately. We have registered the shares subject to issuance under our 2000 Stock Option Plan pursuant to our registration statement on Form S-8 filed with the Securities and Exchange Commission on May 15, 2001.

As part of our listing agreement with the TSX Venture Exchange, we are not permitted to issue further options under this stock option plan, however the 135,000 outstanding options under the 2000 Stock Option Plan may be exercised at any time prior to their expiration or cancellation.

The purposes and description of our 2001 Incentive Stock Option Plan are identical to our 1999 and 2000 Stock Option Plans in all respects, save that the amount of shares authorized and reserved for issuance under the 2001 Stock Option Plan is 1,000,000 shares. As of the date of this prospectus 833,200 options are outstanding and exercisable immediately. We registered the shares subject to issuance under our 2001 Stock Option Plan pursuant to our registration statement on Form S-8 filed with the Securities and Exchange Commission on May 13, 2002.

As part of our listing agreement with the TSX Venture Exchange, we are not permitted to issue further options under this stock option plan, however the 833,200 outstanding options under the 2001 Stock Option Plan may be exercised at any time prior to their expiration or cancellation.

2002 Incentive Stock Option Plan

The purposes and description of our 2002 Incentive Stock Option Plan are identical to our 1999, 2000, and 2001 Stock Option Plans in all respects, save that the amount of shares authorized and reserved for issuance under the 2002 Stock Option Plan is 1,500,000 shares. As of the date of this prospectus 962,400 options issued and outstanding. Of the issued and outstanding options, 937,800 options are vested and exercisable immediately and 24,600 options are unvested and not exercisable until vested. We registered the shares subject to issuance under our 2002 Stock Option Plan pursuant to our registration statement on Form S-8 filed with the Securities and Exchange Commission on May 13, 2002.

As part of our listing agreement with the TSX Venture Exchange, we are not permitted to issue further options under this stock option plan, however the 962,400 outstanding options under the 2002 Stock Option Plan may be exercised at any time prior to their expiration or cancellation.

2003 Stock Option Plan

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The purpose and description of our 2003 Incentive Stock Option Plan are very similar to our 1999, 2000, 2001, and 2002 Stock Option Plans in all respects, save that there are certain additional restrictions on issuance of options to affiliates and persons performing investor relations activities, and certain vesting provisions. The number of shares authorized and reserved for issuance under the 2003 Stock Option Plan is 3,300,000 shares. As of the date of this prospectus no options have been issued under the 2003 Stock Option Plan. We have not registered the shares subject to issuance under our 2003 Stock Option Plan with the Securities and Exchange Commission. We have received approval from the TSX Venture Exchange for the 2003 Stock Option Plan.

EXPERTS

The consolidated financial statements of Stockgroup at December 31, 2002 and 2001, and for each of the two years in the period ended December 31, 2002, appearing in this prospectus and registration statement have been audited by Ernst & Young LLP, independent chartered accountants, as set forth in their report thereon (which contains an explanatory paragraph describing conditions that raise substantial doubt about our ability to continue as a going concern as described in Note 1 to the consolidated financial statements) appearing elsewhere herein, and are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

LEGAL MATTERS

The validity of the issuance of the common stock offered hereby has been passed upon for us by Faegre & Benson LLP.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Articles of Incorporation and bylaws authorize indemnification of every person who is or was a director of us or is or was serving at our request as a director of another corporation of which we are or were a shareholder. The Board of Directors may determine whether or not to indemnify any person who is or was an officer, employee, agent or person working to the benefit of us against all costs, charges and expenses actually incurred by that person.

The directors may cause us to purchase and maintain insurance for the benefit of any person who is or may be entitled to indemnification as mentioned above against any expense or liability from which the person is or may be so entitled to be indemnified and may secure such right of indemnification by mortgage or other charge upon all or any part of our real and personal property, and any action taken by the Board will not require approval or confirmation by our shareholders.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Securities Act") may be permitted to directors, officers or controlling persons of us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than our payment of expenses incurred or paid by a director, officer or controlling person of us in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of competent jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

ORGANIZATION WITHIN LAST FIVE YEARS

As set forth hereinabove, we have an employment agreement with our President, Leslie A. Landes. This agreement was signed on August 4, 1998, and has a term of 5 years, with two possible renewal periods of two years each. Under the agreement Mr. Landes is scheduled to receive a minimum compensation of C\$150,000 (approximately US\$108,000) per annum. The agreement may be terminated by Mr. Landes or us on 30 days notice, and if early termination is initiated by Stockgroup without cause, Mr. Landes is to receive a severance payment equal to 12 months compensation.

Other than our employment agreement with Mr. Landes, the ongoing employment salary which is being paid by us to our CEO,

Marcus New and the stock options which have been granted to Mr. Landes and Mr. New, there are no other transactions or proposed transactions during the last two years to which we were a party, in which any director, executive officer or a family member of any director or executive officer had or is to have a direct or indirect material interest exceeding \$60,000.

DESCRIPTION OF BUSINESS

GENERAL

Stockgroup is a financial media and technology company. Our revenue streams can be categorized into two service divisions:

- Financial Software and Content Systems
- Public Company Disclosure & Awareness Products

PRODUCTS AND SERVICES

Our understanding of Internet based financial technology and media has enabled us to leverage our products and services to enter new markets and secure new clients. Using a common integrated technology platform, we have developed two main revenue sources: Financial Content and Software Applications and Public Company Disclosure & Awareness Products and Advertising.

Financial Software and Contents Systems

We have developed proprietary financial applications and tools we license to clients. The clients for Financial Software and Content Systems come from many different industries, such as news media, banks and credit unions, stock brokerages, leasing, insurance and others. We provide the tools on a private-labeled

Page 26

basis, and they are typically sold in licensing contracts of 24 months. These long-term contracts generate stable, recurring revenue streams.

Many of the tools are data-feed driven. We either feed data from our own aggregated databases or from third parties. The advantage of using the Stockgroup tools is that the customer is able to receive data and information from a variety of different feeds all from point of contact and at a fraction of the cost of purchasing all feeds individually. Also, in most cases we add value by customizing, filtering and sorting data in the configuration the customer wants. We are able to use our economies of scale and automation to give a service that is efficiently delivered and customized, and at a substantial costs savings to having the customer build and manage it internally.

Examples of some of the providers of third-party data feeds include Marketguide, Comtex, Multex and North American Quotations.

We distribute financial tools through content and application syndicates, such as Yellowbrix, through channel resellers such as The Associated Press, The Canadian Press, Comtex News Network, and through our own direct sales team. These financial tools, applications and content systems cover the entire North American market including mutual funds, commodities and equities.

We have built and maintain our proprietary data processing solution that aggregates the multiple feeds, translates and builds a common database infrastructure. Our system then cleans, filters and maintains the data for use by our various data-driven services. We have a sophisticated server and security system which runs this content/data management system. The data is streamed continuously in real time to our proprietary software applications and our client Web sites.

The following are just a few of our over 25 Financial Software and Content Systems services:

- Real-time stock quotes on major U.S. exchanges;
- North American 20-minute delayed stock quotes and indices;
- Portfolio management, live portfolio updates and wireless portfolio updates;
- Most active stock updates;
- Stock watch lists;
- Company fundamentals, regulatory filings;
- Daily stock market winners/losers, most actives;
- Company profiles, stock screening (investment data) and technical stock analysis; and
- Employee stock option calculations.

The Financial Software and Content Systems applications are delivered to customers in four different formats:

- On a hosted basis where the content and private-labeled interface is hosted by Stockgroup and streamed to the customers' Internet or Intranet site;

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

- Through our proprietary software objects residing on the customers' servers which use a proprietary interface to retrieve data from our servers;
- Through a secured Internet channel to a client's proprietary interface; or
- Through different wireless devices and modes including handheld devices, pagers and portals which have been built and maintained by us.

Public Company Disclosure and Awareness Products

We have developed and own a large array of Public Company Disclosure and Awareness Products. These services are used by clients to either (a) manage their investor relations and shareholder communications through their Web site, (b) generate awareness for their company and their stock, (c) improve their U.S. and Canadian public disclosure compliance by automatically posting press releases and other disclosure items on their Web site or (d) advertise their products and services.

Products and services offered in this service area include the *IntegrateIR* software system, *Investor Marketplace*, *E-Mail News Blasts*, *Sector Supplements*, *Stockhouse @ The Bell* sponsorship, *Smallcap Express* sponsorship, Web site advertising and other online investor marketing services. These services are either sold individually or as bundled comprehensive programs.

Public companies are increasingly outsourcing these activities because they lack the internal skills and resources or because it is more effective and cost efficient than in-house development and maintenance. We offer a 'one-stop shopping' package for corporate clients and provide everything from news release tracking and postings to quarterly streaming conference calls. Our understanding of this market segment and focus has resulted in a highly specialized bundle of services including: private label quotes, charts and database tools for building relationships with shareholders and traffic reports to track investor usage of Web sites and inquiries.

Page 27

Our IntegrateIR system represents a whole new way to manage shareholder communications and reach new investors. The IntegrateIR is an investor relations Web page and email management system that functions as a software application - giving the Investor Relations Officer and Chief Financial Officer desktop control over the investor relations portion of their Web site. In addition to standard features, such as dynamic quotes and charts, the IntegrateIR provides powerful new tools that automate the client's online disclosure activities including publishing their press releases, publishing of regulatory filings and distributing information requested by shareholders, all on a real-time, automated basis.

Other awareness services for public companies include the following:

Investor Marketplace (IMP), a Web page which is actively marketed through advertising to draw readers, where companies can be featured online to prospective investors. Being featured on the IMP enables customers to get their name, profile and Internet link in front of a large investor audience that they may not otherwise be able to attain.

E-mail Services sold under the names *Stockhouse News Blast*, *Special Situation Alert*, and *NewsHotline*, which are e-mail services used by our clients to disseminate their news releases and other client-supplied information to a select list of investors. Our e-mail address lists consist of subscribers who have opted to receive our mailings and confirmed their subscription a second time, a process known as "double opt-in". We take great care to ensure that recipients actually want the e-mails we send them. Our policies regarding e-mail exceed the requirements of U.S. and Canadian unsolicited e-mail laws and other private agencies who attempt to regulate, filter, and prevent the use of unsolicited e-mail.

Sector Supplements, which are a spotlight feature on a certain industry sector, such as energy, mining, biotech or technology, are an effective exposure tool for companies. In a Sector Supplement investors are drawn to a Web site that features up to 15 companies and contains industry-specific news and information. Investors who visit this Web site can view each of the featured companies' profiles, request information or link directly to the client's own Web site.

Sponsorship of the *Stockhouse @ The Bell/Smallcap Express* daily market recap mailings that goes to a large audience of e-mail readers who have signed up to receive it through Stockhouse.com and Smallcapcenter.com. A client who sponsors Stockgroup @ The Bell/Smallcap Express gets an advertising banner at the top of each flight. This can be an effective way for the client to get their name in front of a large number of investors.

Advertising, which is shown in various positions on Stockhouse.com and Smallcapcenter.com on a prescribed rotation, is another way for clients to get the attention of a targeted investor audience. Potential investors who see the advertisement can 'click through' the ad to get to a jump page which can include the client's own description of their company or product.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The StockHouse network (StockHouse.com/.ca/.com.au) offers content aggregation from hundreds of sources, a comprehensive equities database and the Internet's first syndicated message forums, the BullBoards™. The three Web sites attract investors in a number of global markets, including the USA, Canada and Australia.

COMPETITION

The market for our Internet products and services is relatively new and has been highly fragmented, but we have seen a trend toward consolidation of the market in recent months. We compete intensely with other companies providing similar services to us. Many of those services are commodity-like and not easily differentiated. Our competition includes direct competitors such as Big Charts and Pinnacor, as well as general-purpose Internet portals such as Yahoo! and AOL, who provide financial and investment research information. We also compete with companies such as CCBN and Shareholder.com for the sale of our IntegrateIR disclosure and awareness services. Our competition in the advertising market includes other financial and business related Web sites such as TheStreet.com and Globeandmail.com. We expect our competitors to remain strong as the Internet industry further consolidates.

CORPORATE BACKGROUND

We are a United States reporting public company incorporated in 1994 and registered in Colorado. Our shares are quoted on the OTCBB under the symbol "SWEB" and our head office is in Vancouver, British Columbia, Canada.

We operated from 1995 to 1997 as a profitable financial Internet technology and media company that offered proprietary financial news and tools to investors and companies.

We used our experience and the funds from a public offering in spring of 1999 to provide the foundation for the development and initial marketing of our services. In October 1999 we launched Smallcapcenter.com. At that time we believed that a subscription/ advertising model centering around Smallcapcenter was

Page 28

viable. While parts of this business model did not prove to be profitable, the exercise of building Smallcapcenter and its related investment tools gave us certain experience and skills, and a suite of service products to sell commercially. Smallcapcenter is still a portal for the investment community, and its drawing power is a driver to many of our investor awareness services. It also serves as a development and testing ground for new financial software tools being developed by us on a day-to-day basis.

From late 1999 to early 2001 we were hired to create enterprise Web sites for eStockAnalyst, AsiaXis, eDepositCenter, and OnMark on a contract basis. These contracts produced revenue of between \$150K and \$800K each, which was a significant amount of revenue for us, but they also took between three and six months each to complete and added instability in our cost structure. In early 2001 we decided that this E-Business Solutions division would be de-emphasized in favor of other areas with more profit potential, namely Financial Content and Software Applications and Public Company Disclosure and Awareness Products.

From 2000 to 2001 we expanded our awareness and disclosure service line to include Sector Supplements and automated investor relations Web page tools such as the IntegrateIR. We already had a public company customer base, so the transition into this area was a natural extension of our core competencies.

We entered the Financial Content and Software Applications market late in 2000 by licensing our proprietary financial software tools, content and applications to customers who need to offer financial information to their customers or improve their content offering. We had access to an array of customers through our internal sales team as well as our reseller channels. Our content and software application model is attractive to customers because it is a comprehensive and cost effective alternative to in-house development.

Early in 2001, as the market for our products and services evolved, it became apparent to us where the most profitable and sustainable areas of the business were. They were Financial Content and Software Applications and Public Company Disclosure and Awareness Products (including IntegrateIR and other awareness and disclosure services). Once these were identified, a more streamlined and stable cost structure was introduced and our profitability and cash flow began to improve.

On June 24, 2002, under an agreement with StockHouse Media Corporation, we acquired a 65% interest in the Web site and certain related assets to run the StockHouse brand Web sites. We issued 2,080,000 common shares in exchange for the interest in the Stockhouse Media Corporation assets and we control and manage the operations of the assets and receive the net revenue to our account. Due to certain provisions in the agreement, we have the option of acquiring the remaining 35% of the assets for between 920,000 and 1,120,000 of our common shares based on a revenue/profit formula. The transaction was completed with an arms length party, although one of the principals of StockHouse Media Corporation has since become one of our directors.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

Prior to that agreement StockHouse Media Corporation spent approximately \$30 million on its technology, brand and business development, ultimately becoming established as one of the leading online financial communities.

That transaction provided several key benefits to us including the addition of the Stockhouse brand product line to our service offering and the integration of assets into our business. The assets include Web site software systems, databases and programs needed to run Stockhouse.com.

On July 23, 2002 we became a reporting issuer in Canada and on December 17, 2002, we were listed and began trading on the TSX Venture Exchange in Canada.

Our corporate Web site is www.stockgroup.com.

EMPLOYEES

As of the date of this prospectus we employed 38 people on a full-time basis and 1 person on a part-time basis.

None of our employees are subject to collective bargaining agreements. We have never had a work stoppage. We believe relations with employees are good.

REGULATORY ISSUES

We are not subject to governmental regulation in our Internet publishing efforts, nor to we know of any pending legislation or regulation which may impose regulatory requirements on our Internet activities. We believe that we are in compliance in all material respects with all laws, rule, regulations and requirements that affect our business, and that compliance with such laws, rule, regulations and requirements does not impose a material impediment on our ability to conduct our business.

SUBSIDIARIES

We own 100% of the issued and outstanding voting common shares of 579818 B.C. Ltd., which is an intermediary holding company with no activity and which wholly owns Stockgroup Media Inc., a British Columbia corporation. Stockgroup Media Inc. is our Canadian operating company, and is the company where

Page 29

significantly all of our current and future planned operations reside. Stockgroup Media Inc. owns 50% of Stockscores Analytics Corp., a British Columbia corporation with limited activity at this time and no material impact on us. In addition, we wholly own Stockgroup Systems Ltd., a Nevada Corporation, which is our U.S. operating company, and Stockgroup Australia Pty Ltd, an Australia Corporation, which is our Australia operating company. Both Stockgroup Systems Ltd. and Stockgroup Australia Pty Ltd. have very limited operation, no salaried employees, and no material assets.

RESEARCH AND DEVELOPMENT

We do not conduct research. During 2001 and 2002 we invested approximately \$241,392 and \$78,792, respectively, on development activities related to new services. Our development consists of programming and design hours related to new services for later marketing and sale. During 2001 and 2002 the major service products we built were the IntegrateIR and our initial line of Financial Software and Content Systems services. We continue to perform development on new Financial Software and Content Systems services, albeit at a slower pace than in previous years as we already have a core set of services in place.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion of the financial condition and results of operations of Stockgroup should be read in conjunction with the unaudited financial statements for the quarters ended ~~March 31~~ **September 30**, 2003 and 2002 and the audited financial statements for the years ended December 31, 2002 and 2001 and the notes thereto included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors including, but not limited to, those set forth under **Risk Factors** and elsewhere in this prospectus.

[RESULTS OF OPERATIONS - THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2003 AND SEPTEMBER 30, 2002](#)

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The results of the first nine months of 2003 are a product of our continued focus on improving the balance sheet and obtaining high quality sales customers and partners for our Financial Software and Content Systems. We continued to acquire additional twelve and twenty-four month customers for our Financial Software and Content Systems, which will continue to grow our recurring revenue stream.

Overall sales are up from Q3 2002 on both a three-month and nine-month basis. We continue to adapt to the changes in the markets.

Breakdown of major categories:				
Public Company Disclosure	444	360	84	+23%
Financial Software and Content	302	203	99	+49%

Our Public Company Disclosure and Awareness Products (PCDAP) revenue stream contains the revenue generated by the Stockhouse Web sites. Due to complex weaving of our existing services in with the new Stockhouse services, we are not able to ascertain the revenue which can be directly attributable to Stockhouse, even on an approximate basis. We believe that the Stockhouse asset gives us an overall benefit because it gives our existing services added credibility and exposure, and gives us an alternative outlet for promoting and selling certain of our services. We acquired the Stockhouse web property late June 2002. Aggregate monthly revenue for the nine-month period ended September 30, 2003 was \$528K, compared with \$313K for the same period 2002, an increase of \$215K. In addition to the increase in revenue from monthly agreements, we had an increase in one-off services of \$107K, for a total increase year over year of \$322K. The increase from one-off services was not from any one customer or industry, but rather, we

Page 30

believe from a combination of the attention we gained from the acquisition of Stockhouse, a general market improvement, repeat business, increased selling efforts by our existing sales team and the addition of 4 new members to our sales team.

Financial Software and Content Systems revenue has grown at a steady rate due to its long-term contractual nature. As new clients are added, the effect on revenue is felt incrementally over time rather than immediately. This gives us a good base of revenue, which will recur for the life of the contract. Aggregate monthly revenue for the nine-month period ended September 30, 2003 was \$715K, compared with \$511K for the same period in 2002, an increase of \$204K. In addition to the increase in revenue from monthly agreements, we had an increase in setup fee amortization and other development fees of \$97K. The combined increase from our monthly revenues, setup fee amortization and other development was \$301K year over year.

Gross profit	595	341	254	+74%
Gross margin %	80%	61%	+19%	

Our cost of revenues consists of bandwidth, data feeds, advertising purchased for resale, and direct production labor. With the acquisition of Stockhouse, a high traffic Website, our bandwidth and data costs have risen, but our decreased emphasis on highly labor-intensive revenue such as programming and web site design has caused our direct labor costs to decrease.

Because our cost of revenues have decreased while sales have increased, our gross profit has increased, both in dollar value and percentage of sales.

General and administrative	631	432	142	+46%

Sales and marketing expenses increased by \$181K for the nine month period ended September 30, 2003 when comparing with 2002 due primarily to an increase in the number of sales staff from 10 to 14 full time members. The compensation and training expense arising from this increase in sales staff accounts for the increase in sales and marketing expense year over year.

General and administrative expense increased by a total of \$517K for the nine-month period ended September 30, 2003 compared to the same period 2002. This increase is due to several factors, most notably an increase in payroll expense, which is our largest expense category. The increase in payroll of \$196K is attributable to upgrades to our skill level and not an increase in number of staff, and is partly offset by a decrease in consulting expense of (\$125K). We have also had an increase in amortization of \$147K as the

Stockhouse Web site asset is being amortized over three years on a straight line basis, and the related server equipment leased concurrently with the Stockhouse acquisition is being amortized over two years straight line. Filing, regulatory, and investor relations

expenses combined for a \$19K increase, due to our inter-listing on the TSX Venture Exchange in Canada. Bad debts expense increased by \$101K, due to increased risk on our accounts receivable from PCDAP. Foreign exchange rate changes have caused an increase in our expenses by \$170K, as the Canadian dollar has gained value relative to the United States dollar, and the majority of our expenses, including payroll, are in Canadian dollars. Various other general and administrative expenses not mentioned above increased year over year by a combined \$9K. The Stockhouse acquisition in June 2002 did not have a material impact on our general and administrative expenses.

Breakdown:		
Cash interest expense	(9)	(9)
Non-cash interest expense on conversion of 8% convertible notes		(34)
Other income	(1)	(15)

Cash interest, either already paid or payable after the quarter end, consists of interest on notes payable and capital leases. The remaining \$860K of interest for the first nine months of 2003 is non-cash interest arising out of the conversion of our 8% convertible notes and the related acceleration of the amortization of the debt discount. The conversions in January and May, 2003 were done at discounted conversion rates, producing a deemed interest expense equal to the difference between the fair value of the shares that could be acquired at the original conversion price of \$0.50 and the fair value of the shares that could be acquired at the discounted conversion rate in each event of conversion. The total of the deemed interest expense arising from the discounted conversion rate for the first three quarters of 2003 was \$724K. After the restructuring of the notes in February 2002, we had a debt discount that was subject to accretion over the period ended December 31, 2003. At the time of each conversion the pro-rata portion of the unamortized debt discount was immediately expensed according to the portion of the principal of the notes converted. The acceleration of the amortization of the debt discount produced a total interest expense over the first three quarters 2003 of \$136K.

Income taxes were nil in both the first nine months 2003 and the same nine months 2002. Due to our net loss position, we did not accrue tax in the first nine months of 2003. As at the most recent year end, we had tax loss carry forwards of \$5.324 million in Canada which expire in 2006, 2007, and 2008, and tax loss carry forwards of \$3.144 million in the U.S. which expire in 2019, 2020, 2021, and 2022.

Net Income

The net loss for the first nine months of 2003 was \$1.638 million compared to a loss of \$0.024 million in the first nine months 2002, a decrease of \$1.614 million. The decrease is due largely to the non-cash interest expense as described above, in 2003 combined with the large non-cash gain on restructuring of our convertible notes in 2002. The removal of the convertible notes from our balance sheet, which was completed in January and May 2003, should reduce the net income volatility in the future.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The results of the first six months of 2003 are a product of our continued focus on improving the balance sheet and obtaining high quality customers and resellers for our Financial Software and Content Systems. We continued to acquire additional twelve and twenty four month customers for our Financial Software and Content Systems, which will continue to grow our recurring revenue stream.

Overall sales are up from Q2 2002 on both a three month and six month basis. We continue to adapt to the changes in the markets.

Our Public Company Disclosure and Awareness Products (PCDAP) revenue stream contains the revenue generated by the Stockhouse

Web sites. Due to the complex weaving of our existing services in with the new Stockhouse services, we are not able to ascertain the revenue which can be directly attributable to Stockhouse, even on an approximate basis. We believe that the Stockhouse asset gives us an overall benefit because it gives our existing services added credibility and exposure, and gives us an alternative outlet for promoting and selling certain of our services. We acquired the Stockhouse web property late June 2002. Our monthly revenue from the PCDAP monthly agreements was \$74K per month in June, 2003, compared with \$33K per month in June, 2002. Aggregate monthly revenue for the six month period ended June 30, 2003 was \$357K, compared with \$202K for the same period 2002, an increase of \$155K. In addition to the increase in revenue from monthly agreements, we had an increase in one off services of \$84K, for a total increase year over year of \$239K. The increase from one off services was not from any one customer or industry, but rather, we believe, from a combination of the attention we gained from the acquisition from Stockhouse, a general market improvement, repeat business, increased selling efforts by our existing sales team and the addition of 4 new members to our sales team.

Financial Software and Content Systems (FSCS) revenue has grown at a steady rate due to its long term contractual nature. As new clients are added, the effect on revenue is felt incrementally over time rather than immediately. This gives us a good base of revenue which will recur for the life of the contract. Our monthly revenue from the FSCS monthly agreements was \$88K per month in June,

2003, compared with \$57K per month in June, 2002. Aggregate monthly revenue for the six month period ended June 30, 2003 was

\$448K, compared with \$351K for the same period 2002, an increase of \$97K. In addition to the increase in revenue from monthly agreements, we had an increase in setup fee amortization and other development fees of \$104K. The combined increase from our monthly revenues, setup fee amortization and other development was \$201K year over year.

Our cost of revenues consists of bandwidth, data feeds, advertising purchased for resale, and direct production labor. Cost of revenues has remained relatively flat when comparing year over year numbers, partly a reflection of the fixed nature of our direct costs. With the acquisition of Stockhouse, a high traffic Web site, our bandwidth and data costs have risen, but our decreased emphasis on highly labor intensive revenue has caused our direct labor costs to decrease. Examples of such labor intensive revenue are custom programming billed by the hour and Web site design. We have chosen to de-emphasize these services because the gross margins from such activities have been, on average, much lower than for many of our other services. Our bandwidth and data costs have risen by

\$116K, primarily due to the Stockhouse acquisition, and our direct labor costs have decreased by (\$94K) for the six month period ended June 30, 2003 compared to the same period 2002. Other direct purchases decreased by (\$22K) year over year as well, resulting in no overall change in cost of revenues year over year.

Because our cost of revenues have remained relatively flat while sales have increased, our gross profit has increased, both in dollar value and percentage of sales.

We are continuing to provide innovative services in our Public Company Disclosure and Awareness Products line, and the IntegrateIR sales remain strong, delivering high value to customers. Historically, many of our Public Company Disclosure and Awareness

Products customers have come from the technology sector, and the slowdown in this sector has caused considerable attrition. As well, part of the service line has been affected adversely as public companies reduced or eliminated spending on their awareness services.

However, we continue to sign new agreements for our disclosure services with major corporations. We have been diversifying our target market for some time in order to be less dependent on any one sector.

Financial Software and Content Systems continues to be a strong contributor to our overall revenue and gross profits. Our process has matured over the past year, and we are able to efficiently deliver high quality services to customers for a fraction of the cost to customers of having it done internally. We have established relationships with major sales channels, media networks, and financial companies, and have already seen significant results. Financial Software and Content Systems revenue was up this three month period

86% over the same period a year ago, and up 43% quarter over quarter from the first quarter 2003. All of this revenue is contractual, typically in 24 month terms, so we have a solid base of revenue in this area to grow from.

Sales and marketing expenses increased by \$95K for the six month period ended June 30, 2003 when comparing with 2002 due primarily to an increase in our number of sales staff from 7 to 11 full time members. The compensation and training expense arising from this increase in sales staff accounts for the increase in sales and marketing expense year over year.

General and administrative expenses increased by a total of \$298K for the six month period ended June 30, 2003 compared to the same period 2002. This increase is due to several factors, most notably an increase in payroll expense, which is our largest expense category. The increase in payroll of \$0116K is attributable to upgrades to our skill level and not an increase in number of staff, and is partly offset by a decrease in consulting expense of (\$62K). We have also had an increase in amortization of \$118K as the

Stockhouse Web site asset is being amortized over three years on a straight line basis, and the related server equipment leased concurrently with the Stockhouse acquisition is being amortized over two years straight line. Filing, regulatory, and investor relations expenses combined for a \$39K increase, due to our inter listing on the TSX Venture Exchange in Canada. Foreign exchange rate changes have caused an increase in our expenses of \$109K, as the Canadian dollar has gained value relative to the United States dollar, and the majority of our expenses, including payroll, are in Canadian dollars. Various other general and administrative expenses not mentioned above decreased year over year by a combined (\$22K). The Stockhouse acquisition in June 2002 did not have a material impact on our general and administrative expenses.

~~Other income~~ 3 (2)
~~Cash interest, either already paid or payable after the quarter end, consists of interest on notes payable and capital leases. The remaining \$860K of interest for the first six months of 2003 is non-cash interest arising out of the conversion of our 8% convertible notes and the related acceleration of the amortization of the debt discount. The conversions in January and May, 2003 were done at discounted conversion rates, producing a deemed interest expense equal to the difference between the fair value of the shares that could be acquired at the original conversion price of \$0.50 and the fair value of the shares that could be acquired at the discounted conversion rate in each event of conversion. The total of the deemed interest expense arising from the discounted conversion rate for the first two quarters of 2003 was \$724K. After the restructuring of the notes in February 2002 as described in our 2002 consolidated financial statements and notes thereto included elsewhere in this prospectus, we had a debt discount which was subject to accretion over the period ended December 31, 2003. At the time of each conversion the pro rata portion of the unamortized debt discount was immediately expensed according to the portion of the principal of the notes converted. This acceleration of the amortization of the debt discount produced a total interest expense over the first two quarters of 2003 of \$136K.~~

~~Income taxes were nil in both the first six months 2003 and the same six months 2002. Due to our net loss position, we did not accrue tax in the first six months of 2003. As at the most recent year end, we had tax loss carry forwards of \$5.324 million in Canada which expire in 2006, 2007, and 2008, and tax loss carry forwards of \$3.144 million in the U.S. which expire in 2019, 2020, 2021, and 2022.~~

Net Income

~~The net loss for the first six months of 2003 was \$1.362 million compared to a gain of \$0.286 million in the first six months 2002, a decrease of \$1.648 million. The decrease is due largely to the non-cash interest expense as described above, in 2003 combined with the large non-cash gain on restructuring of our convertible notes in 2002. The removal of the convertible notes from our balance sheet, which was completed in January and May 2003, should reduce the net income volatility in the future.~~

RESULTS OF OPERATIONS - FOR THE YEARS ENDED DECEMBER 31, 2002 AND DECEMBER 31, 2001

We are in a business in which sales are strongly influenced by public interest in the North American stock markets. Nearly all aspects of our business, including financial tools, investor marketing and Stockhouse advertising are affected by ups and downs of the markets.

The results for the year 2002 were mixed, as we made a number of significant improvements during the year, but revenue was down from 2001, primarily due to the discontinuation of our E-Business consulting. In our first quarter we improved our balance sheet by restructuring and converting a portion of our convertible debt, and in the process decreased our net loss dramatically through a gain of \$1.089 million. In our second quarter we acquired a valuable Web site asset, software and technology by acquiring a majority interest in certain assets of Stockhouse Media Inc. without expending any cash. We expect the Stockhouse Media Inc. assets will yield positive returns in 2003. In the fourth quarter we raised \$0.490 million net in a private placement which improved our balance sheet, and we were accepted for listing on the TSX Venture Exchange in Canada. We emerged from 2002 stronger and more experienced, with a strong management team in place.

Revenue and gross profits

Total revenues for 2002 were \$1.965 million compared to \$2.857 million in 2001, a decrease of \$0.893 million or 31%. The drop in revenue was primarily the result of the discontinuation of our E-Business consulting.

Our revenue from Public Company Disclosure and Awareness Products decreased compared to last year, from \$1.643 million in 2001 to \$1.209 million in 2002, a decrease of \$0.434 million or 26%. Much of this decrease was attributed to the decrease in public company corporate communications spending caused by the continued downturn in financial markets. Nevertheless, we continued to direct a significant portion of our sales efforts in this area because we feel that, strategically, this business will be profitable for us in the future.

Financial Software and Content Systems revenue increased from \$0.580 million in 2001 to \$0.756 million in 2002, an increase of

30%, which was a result of a gradual buildup of recurring monthly fees. The revenue from Financial Software and Content represented 38% of our total sales in 2002, an increase over the 20% of sales it represented in 2001. This is a growing source of revenue that is expected to continue increasing. We continue to acquire high quality clients, both through new relationship building and referrals from existing clients.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

E-Business revenue was nil in 2002, compared to \$0.634 million in 2001. The decision was made in 2001 to focus on our scalable recurring service lines in place of consulting revenue.

Gross profits in 2002 were \$1.258 million compared to \$1.812 million in 2001, a decrease of \$0.554 million or 30%. Gross profit margin percentage increased slightly from 63% to 64%. Direct costs include direct payroll, bandwidth, data feeds and job-specific advertising purchases.

Operating expenses

Total operating expenses for 2002 were \$2.266 million compared to \$2.485 million in 2001, a decrease of \$0.219 million or 9%. Most of the decrease in costs was in service product development, which dropped off significantly due to the fact that most of our service products were in place by the beginning of the year.

Sales and Marketing expenses were \$0.475 million compared to \$0.467 million in 2001, an increase of \$0.008 million or 2%.

Product Development expenses in 2002 were \$0.079 million compared to \$0.241 million in 2001, a decrease of \$0.163 million or

67%. Our services were fully developed by the end of 2001, and our strategy for 2002 was to only develop new services if there was a known demand or request for them. This led to a sharp decrease in product development costs.

General and Administrative expenses in 2002 were \$1.712 million compared to \$1.777 million in 2001, a decrease of \$0.065 million or 4%. Payroll is our largest cost item in this category. Our payroll costs remained relatively stable throughout the year, with only moderate increases and a three-month period after we acquired the Stockhouse Web site when our employee base temporarily increased by about 10 people. In 2001, for comparison, we had higher payroll at the beginning of the year than at the end, so overall the payrolls were similar in both years. Our emphasis in all other cost areas for both 2002 and 2001 has been toward cost reduction, with measured expansion in conjunction with expanded sales only.

Operating losses were \$1.008 million and \$0.673 million for 2002 and 2001 respectively. The increase of operating loss year over year was due mainly to the decrease in total sales.

Other income (expense) and income taxes

Page 36

Interest expense in 2002 was \$0.320 million compared to \$0.596 million in 2001, a decrease of \$0.276 million or 46%. Interest on our 8% convertible notes was \$0.120 million in 2002, compared to \$0.193 million in 2001, a decrease of \$0.073 million caused by lower principal balances in 2002 and put premiums being avoided in 2002 due to the restructuring of the notes that took place on February 6, 2002. Interest on our 3% convertible debentures was \$0.160 million in 2002, compared to \$0.375 million in 2001, a decrease of \$0.215 million caused by the conversion of the full amount of principal in March 2002. Other interest was \$0.040 million in 2002, compared to \$0.028 million in 2001, an increase of \$0.012 million caused by the addition of a 17% note in July 2002, a 25% note in October 2002 and a new capital lease in June 2002. Of the \$0.320 million in interest expense in 2002, \$0.040 million was paid in cash. The remaining \$0.280 million was a combination of amortized debt discount on the 8% convertible notes and deemed interest expense on the induced conversion of the 3% convertible debentures.

The gain on warrants liability of \$0.055 million results from the restructuring of the warrants from the 3% convertible debentures, as described in Note 10 of the financial statements.

The gain of \$1.089 million is the result of the restructuring of our 8% convertible notes. On February 6, 2002 the Company and the two lenders reached an agreement to restructure the terms and conditions of the existing convertible notes and callable warrants. The note holders agreed to waive the 15% prepayment premium of \$0.289 million and the accrued interest to date of \$0.315 million and immediately converted \$0.100 million of the principal balance due into 666,700 of our common shares at a conversion price of \$0.15.

In addition to the \$0.604 million for the waived prepayment premium and accrued interest, we recorded a gain of \$0.247 million for the repurchase of the beneficial conversion feature and \$0.238 million for the debt discount representing the difference between the fair value of the notes at a market interest rate of 8% and the face value of the notes which are non-interest bearing through to December 31, 2003.

Full details of the \$1.089 million gain can be found in Note 7 to the financial statements included herein.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

Other expense in 2002 was \$0.013 million, which consists of net losses on market value of short term marketable securities.

Due to our net loss position we did not incur income tax in 2002 or 2001.

Net income

The net loss for 2002 was \$0.307 million compared to \$0.542 million in 2001, a decrease in losses of \$0.235 million or 43%. This reduction in net loss was due to the gain of \$1.089 million, which offset the increase in ordinary net loss of \$0.326 million.

CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with accounting policies generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe the following critical accounting policies require significant judgments, estimates and assumptions used in the preparation of the consolidated financial statements.

Revenue

Public Company Disclosure and Awareness Products consist of investor relations Web page tools, client profiling on our investment-oriented Web sites, e-mail services, sponsorships and Internet advertising services. These services are sold either individually or bundled together into comprehensive programs.

Investor relations Web page tools, sold under the name IntegrateIR, are delivered to the client's investor relations page of their Web site via an Internet data feed, in real time and on a continuous basis for an agreed period of time, normally 12 months. Revenue is recognized evenly, according to the agreed fixed rate, on a monthly basis once the IntegrateIR data feed has been activated. Setup fees, if any, are recognized ratably over the initial term of the agreement, on a monthly basis.

Client profiling on our investment-oriented Web sites consists of continuous or rotating client profiles on various specialized Web pages within Stockhouse.com, Smallcapcenter.com and Investormarketplace.com. Delivery of these profiles is based either on a certain number of days appearing on the Web pages or a certain quantity of page views, profile view or click-throughs, depending on the agreement. A page view is a single instance of an Internet user viewing the page which contains the client's name and/or logo. A

Page 37

profile view is a single instance of an Internet user clicking on the client's profile link. A click-through is a single instance of an

Internet user clicking on the client's profile and being redirected to the client's Web site. Revenue is recognized on such client profile programs based on delivery, and delivery is organized and measured to equal the agreed monthly fee in each month the client is profiled on the Web pages.

E-mail services are mailings to a targeted list of e-mail addresses, with delivery consisting solely of transmitting the mailing to the e-mail targets. Each transmittal is called a flight. E-mail services may be bought on a per-flight basis, for which revenue is recorded when the flight occurs, or on a fixed-fee monthly basis in which the client receives access to a fixed number of flights per month. We record the revenue on the fixed-fee monthly e-mail services on a pro rata basis over the term of the agreement.

Sponsorships consist of special mention or other information about a client which is attached prominently to the header section of our daily news recap e-mail mailings. Sponsorships are sold either on a per-day basis, for which revenue is recorded on the day the client's sponsorship message is attached to the daily news recap mailing, or on a fixed-fee monthly basis in which the client receives access to a fixed number of days' sponsorship per month.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

Internet advertising services on our Web sites are delivered and revenue earned on a page-view basis, as this term is defined above.

Advertising insertion orders are obtained from clients and advertisements are delivered in a set rotation on www.stockhouse.com, www.smallcapcenter.com, and others. At the end of certain specified period, usually monthly, the client is given a page-view delivery report and billed according to the number of page-views delivered.

Financial Software and Content Systems consists of real time, time delayed and wireless quotes and charts, company profiles, investment data and technical analysis. Revenue from set up fees, periodic maintenance fees and contractual monthly licensing fees for ongoing use of financial tools and content is recognized ratably over the contract term, which is typically 24 months.

All Financial Software and Content Systems services are delivered via an Internet data feed from our Web servers to the clients' sites on a continuous real time basis. Revenue begins to be earned on the day the data feed is activated and begins to deliver content to the client site. Revenue is earned on a fixed monthly fee, with some clients paying a page-view overage fee over a certain number of page-views. The page-view overages, if any, are billed to the client and recorded on a monthly basis as they occur and usually represent a small portion of the overall monthly fee from each customer.

All sources of revenue is recorded pursuant to SAB 101 Revenue Recognition in Financial Statements, when persuasive evidence of an arrangement exists, delivery of services has occurred, the fee is fixed or determinable and collectibility is reasonably assured.

Pursuant to EITF 00-21 Revenue Arrangements with Multiple Deliverables, when the services are provided in a multiple elements arrangement, revenue is allocated to each respective deliverable based on its relative fair value and recognized when the criteria under

SAB 101 have been met.

We are not subject to specific performance criteria that would give rise to refund rights for services we provide.

Payments received in advance of services provided are recorded as deferred revenue.

Cost of Revenues

Cost of revenues are recorded if the cost relates directly to the services we sell or to our revenue-generating Web sites, namely

Stockhouse.com/ca/au, Smallcapcenter.com, and InvestorMarketPlace.com. Cost of revenues consist of subscription fees for access to data feeds of financial and business databases, Internet bandwidth, direct advertising purchases, and direct labor. Data feeds are a key component of many of our Financial Software and Content Systems services, as well as a key input into our revenue-generating Web sites. Bandwidth is consumed by our revenue-generating Web sites, by our Financial Software and Content Systems services, by our

IntegrateIR service, and by our e-mail mailing services. Direct advertising purchases relate to Internet advertising purchases for the purpose of promoting a client or clients' feature on one of our Web sites. Direct labor is the hourly labor cost of certain programmers and designers who implement or maintain licensed client feeds, design advertising for clients, and produce e-mail mailings for clients.

Direct labor costs are fully recognized as cost of revenues in the period in which the associated revenue is recognized. All other costs of revenues are recognized in the period incurred.

Property and Equipment

We evaluate, on a periodic basis, our property and equipment, to determine whether any events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. We base our evaluation on certain impairment indicators, such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements, as well as other

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

external market conditions or factors that may be present. If these impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, we then use an estimate of the undiscounted value of expected future operating cash flows to determine whether the asset is recoverable and measure the amount of any impairment as the difference between the carrying amount of the asset and its estimated fair value. The fair value is estimated using valuation techniques such as market prices for similar assets or discounted future operating cash flows.

Amortization of property and equipment is on a straight-line basis over the asset's estimated useful life.

Contingencies

From time to time, we are subject to proceedings, lawsuits and other claims related to labor and other matters. We are required to assess the likelihood of any adverse judgments or outcomes to these contingencies as well as potential ranges of probable losses and establish reserves accordingly. We use professional judgement, legal advice, and estimates in the assessment of outcomes of contingencies. The amounts of reserve required, if any, may change in future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.

LIQUIDITY AND CAPITAL RESOURCES

We ended the third quarter of 2003 with cash and cash equivalents of \$860,064, an increase of \$306,706 from June 30, 2003. This compares with a net cash decrease of \$74,935 in Q3 2002, a net cash increase of \$468,598 in Q4 2002, a net cash decrease of

\$361,894 in Q1 2003, and a net cash increase of \$375,282 in Q2 2003. Although we expect to generate positive cash flow from operations, we are pursuing financing to improve our working capital position and to grow the business to the greatest possible extent.

Our cash used in operations for the first nine months of 2003 was \$720,167. We repaid \$35,332 of our convertible notes, and \$270,994 in notes payable. Another use of cash was repayment of capital leases, totaling \$76,144. Sources of cash included \$594,195 for proceeds from exercise of warrants and stock options, and \$840,559 from issuance of shares and warrants under a Short Form

Offering

You should be cautioned that there can be no assurance that revenue, margins, and profitability will increase. We have \$58,905 of capital lease obligations due within the next 12 months. As certain of these capital leases, as well as certain other current liabilities are denominated in Canadian dollars, fluctuations in exchange rates with the United States can have an effect on the USD equivalent liabilities. There can be no assurance that we will be successful in raising a sufficient amount of additional capital or in internally generating a sufficient amount of capital to meet long-term requirements.

CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with accounting policies generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. We believe the following critical accounting policies affect significant judgments, estimates and assumptions used in the preparation of the consolidated financial statements:

Revenue

Public Company Disclosure and Awareness Products consist of investor relations Web page tools, client profiling on our investment-oriented Web sites, e-mail services, sponsorships and Internet advertising services. These services are sold either individually or bundled together into comprehensive programs:

Investor relations Web page tools, sold under the name IntegrateIR, are delivered to the client's investor relations page of their Web site via an Internet data feed, in real time and on a continuous basis for an agreed period of time, normally 12 months. Revenue is recognized evenly, according to the agreed fixed rate, on a monthly basis once the IntegrateIR data feed has been activated. Setup fees, if any, are recognized ratably over the initial term of the agreement, on a monthly basis.

Client profiling on our investment-oriented Web sites consists of continuous or rotating client profiles on various specialized Web pages within Stockhouse.com, Smalleapcenter.com and Investormarketplace.com. Delivery of these profiles is based either on a certain number of days

appearing on the Web pages or a certain quantity of page views, profile view or click-throughs, depending on the agreement. A page view is a single instance of an Internet user viewing the page which contains the client's name and/or logo. A

Page 39

profile view is a single instance of an Internet user clicking on the client's profile link. A click-through is a single instance of an

Internet user clicking on the client's profile and being redirected to the client's Web site. Revenue is recognized on such client profile programs based on delivery, and delivery is organized and metered to equal the agreed monthly fee in each month the client is profiled on the Web pages.

E-mail services are mailings to a targeted list of e-mail addresses, with delivery consisting solely of transmitting the mailing to the e-mail targets. Each transmittal is called a flight. E-mail services may be bought on a per flight basis, for which revenue is recorded when the flight occurs, or on a fixed-fee monthly basis in which the client receives access to a fixed number of flights per month. We record the revenue on the fixed-fee monthly e-mail services on a pro-rata basis over the term of the agreement.

Sponsorships are sold either on a per day basis, for which revenue is recorded on the day the client's sponsorship message is attached to the daily news recap mailing, or on a fixed-fee monthly basis in which the client receives access to a fixed number of days' sponsorship per month.

Internet advertising services on our Web sites are delivered and revenue earned on a page-view basis, as this term is defined above.

Advertising insertion orders are obtained from clients and advertisements are delivered in a set rotation on www.stockhouse.com, www.smallcapcenter.com, and others. At the end of certain specified period, usually monthly, the client is given a page-view delivery report and billed according to the number of page-views delivered.

Financial Software and Content Systems consists of real time, time delayed and wireless quotes and charts, company profiles, investment data and technical analysis. Revenue from set-up fees, periodic maintenance fees and contractual monthly licensing fees for ongoing use of financial tools and content is recognized ratably over the contract term, which is typically 24 months.

All Financial Software and Content Systems services are delivered via an Internet data feed from our Web servers to the clients' sites on a continuous real time basis. Revenue begins to be earned on the day the data feed is activated and begins to deliver content to the client site. Revenue is earned on a fixed monthly fee, with some clients paying a page-view overage fee over a certain number of page-views. The page-view overages, if any, are billed to the client and recorded on a monthly basis as they occur and usually represent a small portion of the overall monthly fee from each customer.

All sources of revenue is recorded pursuant to SAB 101 Revenue Recognition in Financial Statements, when persuasive evidence of an arrangement exists, delivery of services has occurred, the fee is fixed or determinable and collectibility is reasonably assured.

Pursuant to EITF 00-21 Revenue Arrangements with Multiple Deliverables, when the services are provided in a multiple elements arrangement, revenue is allocated to each respective deliverable based on its relative fair value and recognized when the criteria under SAB 101 have been met.

We are not subject to specific performance criteria that would give rise to refund rights for services we provide.

Payments received in advance of services provided are recorded as deferred revenue.

Cost of Revenues

Cost of revenues are recorded if the cost relates directly to the services we sell or to our revenue-generating Web sites, namely

Stockhouse.com/ea/au, Smallcapcenter.com, and InvestorMarketPlace.com. Cost of revenues consist of subscription fees for access to data feeds of financial and business databases, Internet bandwidth, direct advertising purchases, and direct labor. Data feeds are a key component of many of our Financial Software and Content Systems services, as well as a key input into our revenue-generating Web sites. Bandwidth is consumed by our revenue-generating Web sites, by our Financial Software and Content Systems services, by our

~~Integrate IR service, and by our e-mail mailing services. Direct advertising purchases relate to Internet advertising purchases for the purpose of promoting a client or clients' feature on one of our Web sites. Direct labor is the hourly labor cost of certain programmers and designers who implement or maintain licensed client feeds, design advertising for clients, and produce e-mail mailings for clients.~~

~~Direct labor costs are fully recognized as cost of revenues in the period in which the associated revenue is recognized. All other costs of revenues are recognized in the period incurred.~~

~~Property and equipment~~

~~We evaluate, on a periodic basis, our property and equipment, to determine whether any events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. We base our evaluation on certain impairment indicators, such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements as well as other~~

Page 40

~~external market conditions or factors that may be present. If these impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, we then use an estimate of the undiscounted value of expected future operating cash flows to determine whether the asset is recoverable and measure the amount of any impairment as the difference between the carrying amount of the asset and its estimated fair value. The fair value is estimated using valuation techniques such as market prices for similar assets or discounted future operating cash flows.~~

~~Amortization of property and equipment is on a straight line basis over the asset's estimated useful life.~~

~~Contingencies~~

~~From time to time we are subject to proceedings, lawsuits and other claims related to labor and other matters. We are required to assess the likelihood of any adverse judgments or outcomes to these contingencies as well as potential ranges of probable losses and establish reserves accordingly. We use professional judgment, legal advice and estimates in the assessment of outcomes of contingencies. The amounts of reserve required, if any, may change in future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.~~

~~LIQUIDITY AND CAPITAL RESOURCES~~

~~We ended the second quarter of 2003 with cash and cash equivalents of \$553,358, an increase of \$375,282 from March 31, 2003.~~

~~There is no identifiable trend in cash usage. Although we expect to generate positive cash flow from operations, we may pursue financing to improve our working capital position and to grow the business to the greatest possible extent. Possible sources of financing could include equity financing, debt, or a combination thereof, but we have no plans to undertake financing in the foreseeable future.~~

~~Our cash used in operations for the first six months of 2003 was \$552,048 and our accumulated deficit at June 30, 2003 was \$14,803,305. We repaid \$35,332 of our convertible notes, and \$47,000 in notes payable. Another use of cash was repayment of capital leases, totaling \$55,619. Sources of cash included \$95,745 for proceeds from exercise of warrants and stock options, and \$ 625,281 from issuance of shares and warrants under a Short Form Offering.~~

~~Since the end of Q2 we have repaid \$223,994 in 17% notes payable and accrued interest and received additional net proceeds of \$ 222,058 from a Short Form Offering.~~

~~You should be cautioned that there can be no assurance that revenue, margins, and profitability will increase. We have \$79,430 of capital lease obligations due within the next 12 months. There can be no assurance that we will be successful in raising a sufficient amount of additional capital or in internally generating a sufficient amount of capital to meet our operational requirements. If we are unable to generate the required amount of additional capital, our ability to continue as a going concern is in substantial doubt.~~

~~CORPORATE DEVELOPMENTS DURING THE YEAR~~

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

A synopsis of corporate highlights for 2002 is as follows.

On February 6, 2002, we restructured the 8% convertible notes with Deeplaven Private Placement Trading Ltd. and Amro International, S.A. Under the restructuring the interest rate and prepayment penalties were reduced to zero, accrued interest has been waived, the conversion price is fixed at \$0.50 and a total of up to \$300,000 cash is required to be paid to the noteholders over 10 quarterly installments starting June 30, 2002. The new notes have a two-year term with renewal provisions for another two years. We filed a form 8-K on February 20, 2002 which fully described the restructured notes.

On February 11, 2002, we announced an agreement with Freedom Communications, a large private media company with publications and Web sites throughout the U.S., to provide our Financial Software and Content Systems to its Web sites.

On February 21, 2002, we announced the signing of a market exclusive agreement with The Canadian Press, Canada's national news agency, to resell our financial content management and software system in Canada.

On March 15, 2002, we and the remaining noteholders from the January 19, 2001 3% convertible debenture reached an agreement whereby they would convert the \$0.2M balance of the debt into common shares at \$0.50 per share. The exercise price of the Series 3A warrants has been reduced from \$1.00 to \$0.25. The exercise price of the Series 3B warrants has been reduced from \$2.00 to \$0.50. The expiry date for both the Series 3A and 3B warrants has been extended to July 31, 2005.

Page 41

On March 19, 2002, we signed a licensing agreement with Credential Group for financial software tools and content. Credential Group is partnered with more than 450 credit unions across Canada. We will provide Credential Group with mutual fund information, stock quotes, interactive charts, indexes and other financial information.

On March 25, 2002, we completed a \$0.410M financing with 22 unaffiliated investors. The funding included 2,000,000 units consisting of one common share and one warrant each, at a price of \$0.20 per unit, plus 51,000 common shares at a price of \$0.20 per share. The warrants have an exercise price of \$0.25 and an expiry date of March 31, 2003. The full details of this financing, including all relevant documents, were filed in a Form 8-K on March 26, 2002 and can be viewed therein.

On May 30, 2002, we announced that Profit Magazine had recognized our Canadian subsidiary as one of Canada's fastest growing companies. The 2001 Profit 100 list awards companies based on their five-year revenue growth.

On June 24, 2002, we acquired a 65% interest in certain of the assets of StockHouse Media Corporation. We purchased the StockHouse assets, including its financial communities, StockHouse.com, StockHouse.ca and StockHouse.au, its software applications and its infrastructure, with an initial 65% ownership interest for 2,080,000 shares of unregistered common stock of Stockgroup and with an additional option to acquire the remaining 35% interest based on a formula for between 920,000 and 1,120,000 shares. We filed a form 8-K on July 11, 2002 which fully describes the agreement.

On September 25, 2002, we retained an independent investment dealer, Canaccord Capital Corporation, to act as sponsor for the inter-listing of our shares on the TSX Venture Exchange.

On October 1, 2002, we announced that Intrawest will license our IntegrateIR Software System. Our IntegrateIR tool allows Intrawest complete control of the individual elements of their IR site and enables Intrawest to quickly update and change their site anytime from anywhere they have Internet access.

On October 8, 2002, we announced a licensing agreement with National Bank Financial to build a customized solution to provide online market data to their clients. National Bank Financial is one of the leading securities dealers in Canada.

On December 17, 2002, we were accepted for listing in Canada on the TSX Venture Exchange.

On December 31, 2002, we closed a private equity placement of 3,403,750 units, each unit consisting of one share and one warrant, to a group of unaffiliated investors, for gross proceeds of \$544,600.

CORPORATE DEVELOPMENTS SINCE YEAR END

On January 22, 2003, we reached an agreement with AP Digital, a division of The Associated Press that distributes news and information to interactive applications, to market and resell our market information and financial content management and software system to AP's worldwide

network of members and customers.

On January 26, 2003, we announced a licensing agreement with Global Securities Information Inc. (GSI) to provide GSI's clients with financial information powered by the software tools and content in our proprietary Financial Content Management System. Global Securities Information Inc. is an award-winning specialty provider of public-record business transaction information to law and accounting firms, investment banks, corporations and the business press.

On January 31, 2003, we announced that Amro International had converted its remaining balance of \$0.4 million of its convertible debenture. The debt was converted into stock at US\$0.32 per share as part of a negotiation between Amro and Stockgroup to eliminate Amro's debt. Our outstanding long-term debt has been reduced from \$1.7 million to \$1.3 million.

On February 5, 2003, we announced an agreement with UnionBanCal Corporation's primary subsidiary, Union Bank of California, N.A., pursuant to which Union Bank will license our cutting-edge XML suite of financial content and software applications. We will customize a scrolling ticker and provide secure XML-based quotes, charts and other banking-specific financial content for Union Bank's customers and internal applications.

On February 18, 2003, we announced that our popular StockHouse financial Web portals, StockHouse.com and StockHouse.ca had recorded over 6 million postings within their BullBoards(TM) message forums.

On March 18, 2003, we launched a financial resource portal for one of Canada's leading securities dealers, National Bank Financial. National Bank Financial's newly launched customized financial solution will provide online market data services for their clients. The complete suite of market data tools will benefit their clients by providing them with market data research tools such as Stock Screeners, Mutual Fund Screeners, Technical stock analysis, Market Indices, Stock Charts, Stock Watch Lists, Portfolio Managers, Market Movers, Scrolling Tickers and much more.

Page 42

On April 11, 2003, we announced a C\$2.0MM (US\$1.4MM) short form financing. First Associates Investments Inc. will act as our Agent and has signed an agency agreement for the underwriting of a C\$2.0MM (US\$1.4MM) best efforts offering. Each unit will consist of one share and one share purchase warrant and the unit has been priced at C\$0.37 (US\$0.27). Two warrants entitle the investor to purchase one additional common share at a price of C\$0.75 (US\$0.55) for 12 months.

On April 15, 2003, Stockgroup and one of its resellers, AP digital, a division of the Associated Press, signed a licensing agreement with Netster.com. As a result of the agreement Netster.com, one of the fastest growing search engines on the Web, will use AP Financial Tools, a suite of news, market data and financial applications powered by Stockgroup's Financial Content Software System and provided by AP Digital. Netster.com is now able to offer its audience these turnkey solutions that present and manage quotes, charts, user portfolios, technical analysis, watch lists and more, through its portal site www.netster.com.

On April 30, 2003, we announced that we will provide Richard Ivey School of Business financial market content, data and applications for the use of faculty, students and alumni as a gift to the school. Ivey's students, faculty and alumni will be able to access a suite of news, market data, financial applications and turnkey solutions that present and manage quotes, charts, user portfolios, technical analysis, watch lists and much more, powered by Stockgroup's Financial Content Software System for at least the next five years.

On May 23, 2003, we announced that Deephaven converted the entire remaining balance of its convertible notes into common shares. The principal balance of \$1.2MM was converted at a negotiated conversion price of \$0.28 into 4.4MM common shares. This conversion removes all the convertible debt from our balance sheet.

On June 4, 2003 and July 16, 2003, we completed our Short Form Offering equity placement in two parts. The lead underwriter was First Associates Investments Inc. The offering yielded C\$1.4MM (US\$1.0MM) in gross proceeds and aggregate net proceeds to us of approximately \$0.9MM USD, and was composed of 3.7MM units at C\$0.37, each unit consisting of one common share and one warrant. Each two warrants may be used to purchase one common share for C\$0.75 (US\$0.55) until 12 months after the respective completion date. We also issued as an underwriting fee agent's options to purchase 0.4MM of the same units at C\$0.37 (US\$0.27) for 24 months from the completion date, and we paid 8% underwriting commissions plus we reimbursed certain expenses of the underwriter.

On September 5, 2003, we repaid our 17% notes payable in full plus accrued interest to date. The notes matured on January 31, 2004, but the noteholders agreed to early payment without penalty.

[On September 18, 2003, we announced with The Canadian Press that they have signed licensing agreements with five new clients. CP has added two new Mutual Fund companies, MacKenzie Financial and Altamira. Also added were Research Capital, a leading brokerage firm and two](#)

publishers, Quebec City's Le Soleil and Canada's largest publisher, Sun Media Group. Stockgroup's Financial Content Software System will provide in depth equity information for all of these customers, such as Quotes, Exchange information, Money Markets and much more.

On September 24, 2003, we announced with The Associated Press that they have signed a licensing agreement with its first Major Member Newspaper, the St Petersburg Times. As a result of the agreement, the Times will license a suite of news, market data and financial applications powered by Stockgroup's Financial Content Software System.

On September 30, 2003, we announced a licensing agreement with Path 1 Network Technologies Inc. Path 1 will license Stockgroup's IntegrateIR Software system. Path 1 Network Technologies Inc. is the pioneer and industry leader in providing broadcast quality video-over-IP networks.

Directors' compensation

Stockgroup compensates its outside directors with cash and options. Each director receives an annual fee of \$1,000, plus \$300 per meeting attended, or \$750 for certain meetings which, in our discretion, involve unusual amounts of time or work. In addition, each director receives 100,000 options to acquire shares of common stock, with the exercise price being the market price of our common stock on the date of grant. Directors who are re-elected and continue to serve for more than one year will receive an additional 50,000 options after each annual general meeting. David Caddey and Lee de Boer were each granted 50,000 options on August 10, 2001 that have an exercise price of \$0.22 per share and fully vested on August 10, 2002. On October 22, 2002, Mr. Caddey and Mr. De Boer were each granted a further 50,000 options with an exercise price of \$0.15 fully vesting immediately. Craig Faulkner was also granted 50,000 options on October 22, 2002 with an exercise price of \$0.15 fully vesting immediately, as director compensation to go with his 100,000 options, exercisable at \$0.15, which were granted September 18, 2001 while he was still an employee.

Compensation committee

We have formed a compensation committee made up of our three outside directors, Craig Faulkner, David Caddey, and Lee deBoer. The compensation committee reviews executive compensation and makes recommendations to the board of directors. Their criteria for determining recommended compensation are achievement of financial targets, experience and time of employment with us. Other factors such as the external employment market are considered, as well as our internal forecast and budget models.

Stockgroup Information Systems Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the nine Months Ended September 30, 2003

(UNAUDITED)

1. NATURE OF BUSINESS AND BASIS OF PRESENTATION

Stockgroup Information Systems Inc. (the Company) is a financial media and technology company that provides various financial software solutions, tools, content and services to media, corporate, and financial services companies. The Company employs proprietary technologies that enable its clients to provide financial data streams and news combined with fundamental, technical, productivity, and disclosure tools to their customers, shareholders, and employees in a cost effective manner. The Company also provides Internet communications products for publicly traded companies and an online research center for the investment community through its

Stockhouse and Smallcapcenter financial web sites.

The Company was incorporated under the laws of Colorado on December 6, 1994.

The accompanying interim unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine-month period ended September 30, 2003 are not necessarily indicative of the results that may be expected for the year ended December 31, 2003.

The balance sheet at December 31, 2002 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements.

These interim financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2002.

Certain of the comparative figures have been reclassified to conform to the presentation adopted in the current period.

These financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future.

The Company incurred an operating loss of \$745,670 for the nine months ended September 30, 2003, and had working capital of \$559,103 as at September 30, 2003. We have accumulated a deficit of 15,079,199 as at September 30, 2003. Management has been able, thus far, to finance the losses, as well as the growth of the business, through a series of equity and debt private placements. The Company is continuing to seek other sources of financing in order to grow the business to the greatest possible extent. There are no assurances that the Company will be successful in achieving its goals.

In view of these conditions, the ability of the Company to continue as a going concern is uncertain and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. Management believes that its current and future plans provide an opportunity to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than

the normal course of business and at amounts different from those reflected in the accompanying financial statements.

2. CONVERTIBLE NOTES

 September 30, 2003 December 31, 2002

8% Convertible notes, maturing December 31, 2005

Principal	\$	-	\$	1,704,000

Subtotal	\$	-	\$	1,568,134
Current portion		-		81,328
Long Term Portion		-		1,486,806

On January 28, 2003, one of the noteholders converted its entire principal balance of \$392,984 into 1,228,075 common shares at a negotiated conversion price of \$0.32. The discount on the conversion price was deemed an inducement to convert, resulting in an interest expense of \$145,895 representing the excess of the fair value of the notes after inducement over the fair value before inducement. The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$31,711.

On May 12 and May 28, 2003, the remaining noteholder converted its entire principal balance of \$1,225,684 into 4,380,000 common shares at a negotiated conversion price of \$0.28. The discount on the conversion price was deemed an inducement to convert, resulting in an interest expense of \$578,590 representing the excess of the fair value of the notes after inducement over the fair value before inducement. The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$69,437.

3. SHARE CAPITAL

The Company is authorized to issue up to 75,000,000 shares of common stock and 5,000,000 shares of preferred stock.

At September 30, 2003, in addition to the 31,081,371 common shares outstanding, there were also 2,491,700 stock options and 9,126,928 warrants outstanding, exercisable for 5,366,513 common shares.

Issues of common shares for the nine-month period ended September 30, 2003 are summarized as follows:

On January 28, 2003, 1,228,075 common shares were issued pursuant to a conversion of \$392,984 of principal of convertible notes at \$0.32.

On February 3, 2003 100,000 common shares were issued pursuant to a conversion of \$50,000 of principal of convertible notes at \$0.50.

During Q1 2003, 335,100 common shares were issued pursuant to exercises of warrants at \$0.25 for gross proceeds of \$83,775.

On March 28, 2003, 4,800 common shares were issued to an employee pursuant to an exercise of options at \$0.15, for gross proceeds of \$720.

On April 24, 2003, 75,000 common shares were issued to an employee pursuant to an exercise of options at \$0.15, for gross proceeds of \$11,250.

On May 12 and May 28, 2003, a total of 4,380,000 common shares were issued pursuant to a conversion of \$1,225,684 of principal of convertible notes at \$0.28.

On June 4, 2003, 2,746,800 units at C\$0.37 were issued (approximately \$0.27), for gross proceeds of C\$1,016,316 (approximately \$748,723) under a Short Form Offering. Each unit consists of one

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

common share and one non-transferable share purchase warrant. Each two warrants are exercisable at C\$0.75 (approximately \$0.55) until June 4, 2004. We also issued Agent Options to acquire 274,680 units, exercisable at C\$0.37 until June 4, 2005.

On July 16, 2003, 996,000 units at C\$0.37 were issued (approximately \$0.27), for gross proceeds of C\$368,520 (approximately \$268,920) under a Short Form Offering. Each unit consists of one common share and one half of one non-transferable share purchase warrant. Each whole Warrant is exercisable at C\$0.75 (approximately \$0.55) until July 16, 2004.

On August 11, 2003, 3,000 common shares were issued to an employee pursuant to an exercise of options at \$0.15, for gross proceeds of \$450.

On September 30, 2003, 1,660,000 common shares were issued pursuant to the exercise of warrants at \$0.30, for gross proceeds of \$498,000.

Stock Options

The Company's 1999, 2000, 2001, and 2002 Stock Option Plans (collectively the "Plans") authorize a total of 3,389,978 common shares for issuance. Activity under the Plans is set forth below.

Options Outstanding

	Shares available for grant	Number of shares	Price per share	Weighted Average Exercise Price
Balance at December 31, 2002	898,278	2,602,700	\$ 0.12 - 0.59	\$ 0.20

Balance at September 30, 2003	898,278	2,491,700	\$ 0.12 - 0.59	\$ 0.20

The Company has discontinued the issuance of options under the 1999, 2000, 2001 and 2002 Stock Option Plans and is in the process of replacing them with a new 2003 Stock Option Plan. Options outstanding in the old Plans continue to be exercisable as vested until exercised or forfeited, however if forfeited they are no longer available for future issuance. The 2003 Plan contains 3,300,000 options has been approved by shareholder vote and is pending approval by the TSX Venture Exchange. No options have been issued under the 2003 Plan as of September 30, 2003.

(1) On March 30, 2003 the expiry date on the Series 4 warrants was extended from March 30, 2003 to September 30, 2003, and the exercise price was changed from \$0.25 to \$0.30.

4. ACCOUNTING FOR STOCK-BASED COMPENSATION

The Company measures compensation expense for all of its Stock Option Plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25) and related interpretations and complies with the disclosure provisions of Statement of Accounting Standards No. 123 Accounting for Stock-Based Compensation (SFAS 123), as amended by Statement of Accounting Standards No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FASB Statement No. 123 (SFAS 148).

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

The following table provides pro forma disclosures of the effect on net income and earnings per share as if the fair value-based method had been applied in measuring compensation expense:

Page 53

	For the three months ended		For the nine months ended

For purposes of the pro forma disclosures, the estimated fair value of the stock options is amortized over the stock options' vesting period.

The pro forma effects of applying SFAS 123 for the periods presented are not likely to be representative of the pro forma effects of future periods as the number of stock options and the vesting schedules thereof vary widely from quarter to quarter. No options were granted during the nine months ended September 30, 2003.

The weighted average assumptions used and the resulting estimates of weighted average fair value of stock options granted are as follows:

	For the three and nine months ended	
	September 30, 2003	September 30, 2002
Dividend yield	0%	0%

5. SEGMENTED INFORMATION

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form SB-2/A

SFAS No. 131, Disclosure about Segments of an Enterprise and Related Information, requires a public business enterprise to report financial and descriptive information about its reportable operating segments. The Company has concluded that its business activities fall into one identifiable business segment with the following sources of revenue:

Page 54

	For the three months ended		For the nine months ended

	=====	=====	=====	=====

During the first nine months of 2003 and 2002 the Company had no customers from whom revenue received by the Company represented greater than 10% of total revenue.

6. COMMITMENTS AND CONTINGENCIES

The Company is currently involved in litigation with a customer to collect amounts owing pursuant to a contract entered into in September 2000. The defendant provided a \$100,000 deposit and contracted the Company to provide certain advertising services. The Company delivered the requested services throughout October and November 2000; however, the defendant defaulted on all additional payments. The Company is suing the defendant for the \$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the \$100,000 deposit. No court date has been set at this time. Although management currently believes the outcome of the litigation will be in the Company's favour, they have not elected to aggressively pursue the litigation at this time. The Company has made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in the statement of operations as the litigation is resolved.

In addition, the company is subject to various other legal matters in the ordinary course of business. It is not possible at this time to predict with any certainty the outcome of such litigation. Management believes that the ultimate resolution of these matters would not have a material effect on the Company's financial position or results of operations.

7. RECENT ACCOUNTING PRONOUNCEMENTS

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45"). FIN 45 requires that a liability be recorded in the guarantor's balance sheet upon issuance of a guarantee. In addition, FIN 45 requires disclosures about the guarantees, including indemnifications, that an entity has issued. The disclosure provisions of FIN 45 are effective for financial statements of interim periods ending after December 15, 2002; however, the provisions for initial recognition and measurement are effective on a prospective basis for guarantees that are issued or modified after December 31, 2002. The initial adoption of FIN 45 did not have a material impact on the Company's financial position, results of operations or cash flows.

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). FIN 46 requires an investor with a majority of the variable interests in a

variable interest entity to consolidate the entity and also requires majority and significant variable interest investors to provide certain disclosures. A variable interest entity is an entity that has (1) equity investment at risk that is insufficient to finance the entity's activities without receiving additional subordinated financial support from the other parties, (2) a group of equity owners that are unable to make substantive decision's about the entity's activities, or (3) equity that does not absorb the entity's losses or receive the benefits of the entity. FIN 46 is effective for all new variable interest entities created or acquired after January 31, 2003. For existing variable interest entities created or acquired prior to February 1,

Page 55

2003, FIN 46 is effective for the first interim or annual period beginning after June 15, 2003. The Company is currently evaluating the effect that the adoption of FIN 46 will have on its results of operations and financial condition; however, it does not expect the adoption of FIN 46 will have a significant impact on its consolidated financial statements.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity (SFAS 150). SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). SFAS No. 150 does not apply to features embedded in a financial instrument that is not a derivative in its entirety. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise will be effective at the beginning of the first interim period beginning after June 15, 2003. For existing financial instruments created before the effective date, any impact upon the adoption of SFAS 150 shall be reported as a cumulative effect of a change in an accounting principle. The Company has not yet completed its analysis of SFAS 150; however, it believes that the adoption of this pronouncement will not have a material effect on the Company's consolidated financial statement.

~~NOTES TO CONSOLIDATED FINANCIAL STATEMENTS~~

~~For the Six Months Ended June 30, 2003 (UNAUDITED)~~

~~1. NATURE OF BUSINESS AND BASIS OF PRESENTATION~~

~~Stockgroup Information Systems Inc. (the "Company") is a financial media and technology company that provides various financial software solutions, tools, content and services to media, corporate, and financial services companies. The Company employs proprietary technologies that enable its clients to provide financial data streams and news combined with fundamental, technical, productivity, and disclosure tools to their customers, shareholders, and employees in a cost effective manner. The Company also provides Internet communications services for publicly traded companies and an online research center for the investment community through its~~

~~Stockhouse and Smallecapecenter financial Web sites.~~

~~The Company was incorporated under the laws of Colorado on December 6, 1994.~~

~~The accompanying interim unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10 QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month period ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ended December 31, 2003.~~

~~The balance sheet at December 31, 2002 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements.~~

~~These interim financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10 KSB for the year ended December 31, 2002.~~

~~Certain of the comparative figures have been reclassified to conform to the presentation adopted in the current period.~~

~~These financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future.~~

~~The Company incurred an operating loss of \$480,049 for the six months ended June 30, 2003, and had working capital of \$34,990 as at June 30, 2003. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management has been able, thus far, to finance the losses, as well as the growth of the business, through a series of equity and debt private placements. The Company is continuing to seek other sources of financing in order to grow the business to the greatest possible extent. There are no assurances that the Company will be successful in achieving its goals.~~

~~In view of these conditions, the ability of the Company to continue as a going concern is uncertain and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. Management believes that its current and future plans provide an opportunity to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than~~

~~the normal course of business and at amounts different from those reflected in the accompanying financial statements.~~

The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$31,711.~~

~~On May 12 and May 28, 2003, the remaining noteholder converted its entire principal balance of \$1,225,684 into 4,380,000 common shares at a negotiated conversion price of \$0.28. The discount on the conversion price was deemed an inducement to convert, resulting in an interest expense of \$578,590 representing the excess of the fair value of the notes after inducement over the fair value before inducement. The unamortized debt discount on the portion of the total principal was fully expensed on the conversion date, resulting in an interest expense of \$69,437.~~

~~3. SHARE CAPITAL~~

~~The Company is authorized to issue up to 75,000,000 shares of common stock and 5,000,000 shares of preferred stock.~~

~~At June 30, 2003, in addition to the 28,422,371 common shares outstanding, there were also 2,504,200 stock options and 6,634,013 warrants outstanding.~~

~~Issues of common shares and common share equivalents for the six month period ended June 30, 2003 are summarized as follows:~~

~~On January 28, 2003, we issued 1,228,075 common shares pursuant to a conversion of \$392,984 of principal of convertible notes at \$0.32.~~

~~On February 3, 2003 we issued 100,000 common shares pursuant to a conversion of \$50,000 of principal of convertible notes at \$0.50.~~

~~During Q1 2003, 335,100 common shares were issued pursuant to exercises of warrants at \$0.25 for gross proceeds of \$83,775.~~

~~On March 28, 2003, 4,800 common shares were issued to an employee pursuant to an exercise of options at \$0.15, for gross proceeds of \$720.~~

~~On April 24, 2003, we issued 75,000 common shares to an employee pursuant to an exercise of options at \$0.15, for gross proceeds of \$11,250.~~

Page 61

~~On May 12 and May 28, 2003, we issued a total of 4,380,000 common shares pursuant to a conversion of \$1,225,684 of principal of convertible notes at \$0.28.~~

~~On June 4, 2003 we issued 2,746,800 units at C\$0.37 (approximately \$0.27), for gross proceeds of C\$1,016,316 (approximately \$748,723) under a Short Form Offering. Each unit consists of one common share and one non transferable share purchase warrant. Each two warrants are exercisable at C\$0.75 (approximately \$0.55) until June 4, 2004. We also issued Agent Options to acquire 274,680 units, exercisable at C\$0.37 until June 4, 2005.~~

~~Stock Options~~

~~The Company's 1999, 2000, 2001, and 2002 Stock Option Plans (collectively the "Plans") authorize a total of 5,000,000 common shares for issuance. Activity under the Plans is set forth below.~~

~~4. ACCOUNTING FOR STOCK BASED COMPENSATION~~

~~The Company measures compensation expense for all of its Stock Option Plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and related interpretations and complies with the disclosure provisions of Statement of Accounting Standards No. 123 "Accounting for Stock Based Compensation" ("SFAS 123"), as amended by Statement of Accounting Standards No. 148, "Accounting for Stock Based Compensation Transition and Disclosure" an amendment of FASB Statement No. 123 ("SFAS 148").~~

~~The following table provides pro forma disclosures of the effect on net income and earnings per share as if the fair value based method had been applied in measuring compensation expense:~~

~~5. SEGMENTED INFORMATION~~

~~SFAS No. 131, Disclosure about Segments of an Enterprise and Related Information, requires a public business enterprise to report financial and descriptive information about its reportable operating segments. ~~6. COMMITMENTS AND CONTINGENCIES~~

~~The Company is currently involved in litigation with a customer to collect amounts owing pursuant to a contract entered into in September 2000. The defendant provided a \$100,000 deposit and contracted the Company to provide certain advertising services. The Company delivered the requested services throughout October and November 2000; however, the defendant defaulted on all additional payments. The Company is suing the defendant for the \$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover~~

~~the \$100,000 deposit. No court date has been set at this time. Although management currently believes the outcome of the litigation will be in the Company's favour, they have not elected to aggressively pursue the litigation at this time. The Company has made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in the statement of operations as the litigation is resolved.~~

~~In addition, the company is subject to various other legal matters in the ordinary course of business. It is not possible at this time to predict with any certainty the outcome of such litigation. Management believes that the ultimate resolution of these matters would not have a material effect on the Company's financial position or results of operations.~~

~~7. RECENT ACCOUNTING PRONOUNCEMENTS~~

~~In November 2002, the FASB issued FASB Interpretation No. 45 "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" ("FIN 45"). FIN 45 requires that a liability be recorded in the guarantor's balance sheet upon issuance of a guarantee. In addition, FIN 45 requires disclosures about the guarantees, including indemnifications, that an entity has issued. The disclosure provisions of FIN 45 are effective for financial statements of interim periods ending after December 15, 2002, however, the provisions for initial recognition and measurement are effective on a prospective basis for guarantees that are issued or modified after December 31, 2002. The initial adoption of FIN 45 did not have a material impact on the Company's financial position, results of operations or cash flows.~~

~~In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities ("FIN 46"). FIN 46 requires an investor with a majority of the variable interests in a variable interest entity to consolidate the entity and also requires majority and significant variable interest investors to provide certain disclosures. A variable interest entity is an entity that has (1) equity investment at~~

~~risk that is insufficient to finance the entity's activities without receiving additional subordinated financial support from the other parties, (2) a group of equity owners that are unable to make substantive decision's about the entity's activities, or (3) equity that does not absorb the entity's losses or receive the benefits of the entity. FIN 46 is effective for all new variable interest entities created or acquired after January 31, 2003. For existing variable interest entities created or acquired prior to February 1, 2003, FIN 46 is effective for the first interim or annual period beginning after June 15, 2003. The Company is currently evaluating the effect that the adoption of FIN 46 will have on its results of operations and financial condition; however, it does not expect the adoption of FIN 46 will have a significant impact on its consolidated financial statements.~~

~~In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity ("SFAS 150"). SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). SFAS No. 150 does not apply to features embedded in a financial instrument that is not a derivative in its entirety. SFAS 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise will be effective at the beginning of the first interim period beginning after June 15, 2003. For existing financial instruments created before the effective date, any impact upon the adoption of SFAS 150 shall be reported as a cumulative effect of a change in an accounting principle. The Company has not yet completed its analysis of SFAS 150, however, it believes that the adoption of this pronouncement will not have a material effect on the Company's consolidated financial statement.~~

~~8. SUBSEQUENT EVENTS~~

~~a) On July 4, 2003 Stockgroup notified Stockhouse Media Corporation that, in accordance with the terms of the Joint Venture Development and Operating Agreement dated June 19, 2002, it would be purchasing their remaining 35% interest in the assets contemplated in the agreement for 920,000 common shares of Stockgroup. AUDITORS' REPORT

To the Shareholders of

Stockgroup Information Systems Inc.

We have audited the accompanying consolidated balance sheets of **Stockgroup Information Systems Inc.** as of December 31, 2002 and 2001 and the related consolidated statements of operations, shareholders' equity (deficiency), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Stockgroup Information Systems Inc. at December 31, 2002 and 2001 and the consolidated results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that Stockgroup Information Systems Inc. will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has incurred recurring net losses and has a working capital deficiency. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this

uncertainty.

As discussed in Note 10 to the financial statements, in 2001, the Company changed its method of accounting for callable warrants.
