PROXY STATEMENT
FARMERS & MERCHANTS BANCORP
111 West Pine Street, Lodi, CA 95240-2184

I- INTRODUCTION

This proxy statement is furnished to the stockholders of Farmers & Merchants Bancorp (the “Company”) in connection with the solicitation of proxies by the Board of Directors of the Company to be used in voting at the annual meeting of stockholders to be held on May 19, 2008 in the Ole Mettler Pavilion at the Lodi Grape Festival, 413 E. Lockeford Street, Lodi, CA at 4:00 p.m., and at any adjournment or postponement thereof. All expenses incidental to the preparation and mailing, or otherwise making available to all stockholders of the notice, proxy statement and form of proxy will be paid by the Company. This proxy statement and the enclosed proxy are being mailed to the Company’s stockholders on or about April 18, 2008.

For information on how to vote your shares, see the instructions included on the enclosed proxy card and under “Information About Voting and the Annual Meeting”.

II - INFORMATION ABOUT VOTING AND THE ANNUAL MEETING

Voting Rights and Vote Required

Only stockholders of record at the close of business on March 26, 2008 (the “record date”), will be entitled to vote in person at the meeting or by proxy. On the record date, there were 796,690 shares of common stock outstanding and entitled to vote.

Holders of common stock of the Company are entitled to one vote for each share held.

However, with respect to the election of Directors, each stockholder may be eligible to exercise cumulative voting rights and may be entitled to as many votes as shall equal the number of shares of common stock held by such stockholder multiplied by the number of Directors to be elected, and such stockholder may cast all of such votes for a single nominee or may distribute them among two or more nominees. For example, if you own 10 shares of common stock of the Company and 9 Directors are being elected, you have 90 votes – you can cast all of them for one nominee, or two or more nominees if you so choose. No stockholder shall be entitled to cumulate votes (i.e., cast for any one or more nominees a number of votes greater than the number of shares of common stock of the Company held by such stockholder) unless the name(s) of the nominee(s) has (have) been placed in nomination prior to the commencement of the voting in accordance with Article III, Section 3.4 of the Company’s by-laws and, in accordance with Article II, Section 2.9 of the Company’s by-laws, a stockholder has given at least two days written notice to the Secretary of the Company of an intention to cumulate votes prior to the vote. Since the Company’s Annual Meeting of Stockholders is expected to be held on May 19, 2008, any stockholder nomination for election to the Board of Directors for the 2008 Annual Meeting of Stockholders, to be timely, would need to have been received by the Company not later than April 19, 2008 and not earlier than March 20, 2008. As of the printing of this proxy statement, no stockholder has given such notice. Discretionary authority to cumulate votes in the event of such a nomination is solicited in this proxy statement.

In the election of Directors, the 9 nominees receiving the highest number of votes will be elected. Approval of such other matters which properly come before the meeting, if any, will require the affirmative vote of a majority of the shares represented and voting at the meeting provided the quorum requirements of Article II, Section 2.7 of the by-laws are met (see “Voting of Proxies – Quorum”). Abstentions will not count as votes in favor of the election of Directors or any other proposals.

Voting of Proxies

The shares represented by all properly executed proxies received in time for the meeting will be voted in accordance with the stockholders’ choices specified therein; provided, however, that where no choices have been specified, the shares will be voted “FOR” the election of the 9 nominees for Director recommended by the Board of Directors, and voted at the discretion of the proxy holders on such other matters, if any, which may properly come before the meeting (including any proposal to adjourn the meeting).

A stockholder using the enclosed proxy may revoke the authority conferred by the proxy at any time before it is exercised (i.e., before the vote pursuant to that proxy) by delivering written notice of revocation or a duly executed proxy bearing a later date to the Secretary of the Company, or by appearing and voting by ballot in person at the meeting.

A majority of the shares entitled to vote represented either in person or by properly executed proxies, will constitute a quorum at the meeting. Abstentions and broker “non-votes” are each included in the determination of the number of shares present and voting for purposes of determining the presence of a quorum. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

Abstentions will be included in tabulations of the votes cast on proposals presented to the stockholders and therefore will have the effect of a negative vote. Broker “non-votes” will not be counted for purposes of determining the number of votes cast for a proposal.

Security Ownership of Certain Beneficial Owners and Management

To the knowledge of the Company, as of the record date, no person or entity was the beneficial owner of more than five percent (5%) of the outstanding shares of the Company’s common stock except as set forth in the following tables. For the purpose of this disclosure and the disclosure of ownership shares by management, shares are considered to be “beneficially” owned if the person has or shares the power to vote or direct the voting of the shares, the power to dispose of or direct the disposition of the shares, or the right to acquire beneficial ownership (as so defined) within 60 days of the record date.

None of the Directors of the Company were selected pursuant to arrangements or understandings other than with the Directors and stockholders of the Company acting within their capacity as such. There are no family relationships among the Directors and executive officers of the Company, and none of the Directors serves as a Director of any company which has a class of securities registered under, or subject to periodic reporting requirements of, the Securities Exchange Act of 1934, as amended, or any company registered as an investment company under the Investment Company Act of 1940.

The proxy holders reserve the right to cumulate votes for the election of Directors and cast all of such votes for any one or more of the nominees, to the exclusion of the others, and in such order of preference as the proxy holders may determine in their discretion, based upon the recommendation of the Board of Directors.

Each of the Directors serving on the Personnel Committee has been determined by the Board of Directors to be “independent” as such term is defined by Rule 4200(a)(15) of the Nasdaq’s current listing standards.

Certain Relationships and Related Person Transactions

Certain Directors and Named Executive Officers of the Bank and the Company and corporations and other organizations associated with them and members of their immediate families were customers of and engaged in banking transactions, including loans, with the Bank in the ordinary course of business in 2007. Such loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with borrowers not related to the Company or Bank. These loans did not involve more than the normal risk of collection or have other unfavorable features. All Director and Named Executive Officer loans must be approved by the Board of Directors. With the exception of the previous banking transactions, the Company had no Related Person Transactions as defined by Item 407(a) of Regulation S-K with its Directors or Named Executive Officers.

Indemnification

The Company's Certificate of Incorporation and By-Laws provide for indemnification of officers, Directors, employees and agents to the fullest extent permitted by Delaware law. Delaware law generally provides for the payment of expenses, including attorneys' fees, judgments, fines and amounts paid in settlement reasonably incurred by the indemnitees provided such person acted in good faith and in a manner he or she reasonably believed not to be opposed to the best interests of the corporation and with respect to any criminal action or proceeding if he or she had no reasonable cause to believe his or her conduct was unlawful. However, in derivative suits, if the suit is lost, no indemnification is permitted in respect of any claim as to which the prospective indemnitee is adjudged to be liable for misconduct in the performance of his or her duty to the Company and then only if, and only to the extent that, a court of competent jurisdiction determines the prospective indemnitee is fairly and reasonably entitled to indemnity for such expenses as the court deems proper. Finally, no indemnification may be provided in any action or suit in which the only liability asserted against a Director is pursuant to a statutory provision proscribing the making of loans, dividends, and distribution of assets under certain circumstances.

The provisions regarding indemnification may not be applicable under certain federal banking and securities laws and regulations.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's Executive Officers and Directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission. Executive Officers, Directors and greater than ten percent stockholders are required by regulation to furnish the Company with copies of all Forms 3, 4 and 5 they file. Based solely on the Company's review of the copies of such forms it has received, the Company believes that all of its Executive Officers and Directors complied with all filing requirements applicable to them with respect to transactions during 2007. The Company has no greater than ten percent stockholders.

Communications with Board of Directors

Any person, including any stockholder, desiring to communicate with, or make any concerns known to, the Company, directors generally, non-management Directors or an individual Director only may do so by submitting them in writing to Stephen W. Haley, Secretary of Farmers & Merchants Bancorp, 111 W. Pine Street, Lodi, CA 95240-2184. 3. results of the Company's and Bank's regulatory examinations; and
4. current economic and industry conditions.

These performance measurement factors are evaluated at least annually. Both the annual budget and strategic plan are approved in advance by the Board of Directors and reevaluated during the year. The Board periodically contracts the services of an independent executive compensation consultant to survey similar banking institutions in California and in similar markets nationally, and make recommendations regarding changes to compensation programs.

Annual Compensation Program

Each Named Executive Officer receives a monthly base salary. Salaries are determined largely based upon comparative industry data for: (1) positions of similar responsibility in similar banking institutions in California; and (2) individuals with similar experience and expertise. Base salary levels are intended to take into consideration that the Company is relatively unique in not offering its executives and employees a stock option or restricted stock long-term compensation program. Merit salary adjustments are evaluated periodically based on Company and individual performance. Goals and objectives are established annually for each officer with performance measured and evaluated at least annually.

Annual bonus compensation is paid according to the Company's Senior Management Incentive Compensation Plan. Bonus compensation is awarded based primarily on actual results against budgeted goals for the particular year including performance ratios and net income. Award guidelines are established annually for each level of Senior Management. The Board reserves some discretion with regard to these guidelines when: (1) the Company's profit performance exceeds budget; (2) the Company's profit performance exceeds other similar banking institutions in California; and/or (3) an individual's performance in a given year was beyond expectation.

All base salaries and annual bonuses are paid in cash and fully expensed in the current year, although the Named Executive Officer does have the option of electively deferring to a specified future date up to 100% of these amounts (see "Deferred Compensation Plan"). Annual bonuses are paid in the year following the year in which they are earned. Accordingly, compensation tables in this proxy statement include bonuses earned for performance in 2006.

Given that the Company does not offer stock options or restricted stock compensation (see "Long-Term Deferred Compensation Program"), total levels of Annual Compensation for each Named Executive Officer are targeted at the very top range of similar banking institutions (assuming performance objectives are met).

The current base salary for each Named Executive Officer is set forth in "Employment Contracts". Each Named Executive Officer's "Salary" and "Bonus" amounts for the last three years are disclosed in the "Summary Compensation

Table”.

Long-Term Deferred Compensation Program

In developing the various components of a longer-term compensation program, the Board has determined that at the present time it will not seek shareholder approval to offer stock options or restricted stock as part of the compensation package. This decision has been made because the Board believes that it is important that all compensation should be (1) fully transparent; (2) expensed in the year incurred; and (3) not have the potential for future dilution of stockholder value. However, recognizing that stock based incentives are a major compensation component of many of the Company's competitors, the Board has developed what it believes is an effective and competitive complement of long-term deferred compensation programs. The objectives of the Company's deferred compensation programs are to: (1) successfully attract and retain talented individuals; and (2) align long-term compensation directly with stockholder interests by rewarding creation of long-term stockholder value.

The Company's long-term deferred compensation program provides:

1. retirement incentives including both qualified ("Profit Sharing Plan") and supplemental non-qualified retirement benefits ("Indexed Retirement Plan");
2. performance incentives ("Deferred Bonus Program") based upon the Company's long-term growth in net income and market capitalization; and
3. retention incentives ("Executive Retention Program") based upon the tenure of executive management.

In addition, the Company offers each Named Executive Officer the election of tax deferring, to a specified future date, portions of their annual salary and bonus ("Deferred Compensation Plan").

All of the Company's qualified and non-qualified plans are structured as defined contribution plans to avoid the uncertain future financial liabilities that can exist under defined benefit plans. The entire cost of these plans is expensed annually.

All non-qualified deferred compensation plans are intended to be compliant with the provisions of Section 409A of the Internal Revenue Code, and contributions are held in an irrevocable Master Trust. Vested balances are invested by each participant according to their own investment risk profile, and the Company provides no guarantees with respect to either annual returns or maintenance of principal value.

Profit Sharing Plan

Substantially all full-time employees of the Company, including each Named Executive Officer, participate in the Company's qualified Profit Sharing Plan. Two levels of contributions are made to the Profit Sharing Plan: (1) mandatory contributions of 5% of eligible salaries (subject to IRS limits) calculated according to criteria set forth in the Plan; and (2) discretionary contributions authorized by the Board of Directors. None of these contributions are dependent upon the employee contributing to the Plan (i.e., the Plan does not require "matching"). Benefits pursuant to the Profit Sharing Plan vest 0% during the first year of participation, 25% per full year thereafter and after five years such benefits are fully vested. Benefits under the Profit Sharing Plan are disclosed in the participant's Company Contributions to Qualified Retirement and 401(k) Plans in the "All Other Compensation Table".

Upon a Change in Control, each participant receives only those balances in their account, including any net earnings or losses thereon.

Indexed Retirement Plan and Bank-Owned Life Insurance

The Company has developed an Indexed Retirement Plan for the benefit of each Named Executive Officer as well as certain other senior officers of the Company. The Indexed Retirement Plan is a defined contribution non-qualified executive retirement plan developed to supplement the Company's Profit Sharing Plan which, as a qualified plan, has a ceiling on benefits as set by the Internal Revenue Service. Individuals whose compensation exceeded this ceiling did not receive a retirement benefit on these earnings. The Indexed Retirement Plan was designed to adjust for these limits and provide levels of total retirement compensation that are competitive in the banking industry.

The Board has structured the Indexed Retirement Plan as a defined contribution plan to avoid the uncertain future financial liabilities that can exist under a defined benefit plan. An account is established for each participant that is credited annually with an amount based on the taxable equivalent earnings on the cash surrender value balances of the single premium life insurance policies purchased, net of: (1) the mortality charges associated with the policies; and (2) a minimum required return (defined under the Plan as the return on five year treasuries) to the Company on these cash surrender value balances. The initial cash surrender value of the life insurance policies purchased for each participant was determined based upon the individual's compensation at the time they became a participant in the plan and the number of years of service remaining to age 65 so as to provide a supplemental retirement benefit equal to a portion of the participant's projected final pay with the Company. The balance in each participant's account is 0% vested during the first five years of employment and becomes fully vested after five years of employment. Benefits under the Indexed Retirement Plan are disclosed in the participant's Company Contributions to Non-Qualified Plans in the "All Other Compensation Table" as well as Registrant Contributions in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

The Company has a Bank-Owned Life Insurance ("BOLI") program under which it has purchased single premium life insurance policies on the lives of the Named Executive Officers as well as certain other senior officers of the Company. These policies provide: (1) financial protection to the Company in the event of the death of an officer and; (2) since the interest earned on the cash surrender value of the policies is tax free as long as the policies are used to finance employee benefits, significant income to the Company to offset the expense associated with the Indexed Retirement Plan.

As compensation to each participant for agreeing to allow the Company to purchase an insurance policy on his or her life, split dollar agreements have been entered into with each participant. These agreements provide for a partial division of the life insurance death proceeds between the Company and each participant's designated beneficiary or beneficiaries. Participants fully vest in their split dollar agreements after eight years of service or upon a Change in Control. If the participant leaves the employ of the Company after vesting occurs (other than as part of a Change in Control) they cannot become employed by another financial institution and retain their vesting. The dollar value of premiums relating to that portion of the death proceeds that would be payable to the participant's beneficiary or beneficiaries in the event of his or her death, as well as the tax gross-up payments related thereto, are disclosed in the participant's Tax Reimbursements in the "All Other Compensation Table".

Benefits under the Indexed Retirement Plan become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a "Change in Control" as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already contributed for past years of service including any net earnings or losses thereon; and (2) the present value (using a discount factor equal to the treasury rate for the remaining years to participant's age 65) of forecasted contributions over the remaining years to participant's age 65, which as of December 31, 2007 would be as follows: Mr. Steinwert \$2.37 million, Mr. Haley \$1.39 million, Mr. Erichson \$664,000; Ms. Hodkin \$1.93 million and Mr. Smith \$1.28 million. Payments are made in accordance

with prior participant elections made in compliance with IRC Section 409A.

Deferred Bonus Plan

To compensate for the lack of a stock option or restricted stock program, the Board has developed a Deferred Bonus Plan to reward participants based upon the Company's long-term growth in net income and market capitalization. Each Named Executive Officer is a participant in the plan and is entitled to receive benefits based on the Company's long-term cumulative profitability and the resulting impact on the increase in market capitalization in excess of the increase in book value. Participants do not receive compensation for increases in market capitalization above a P/E ratio of 20 times EPS.

Plan contributions are calculated using a bonus factor or "carry" determined by the Personnel Committee for each participant (currently 1.00% for the President and C.E.O. and 0.16% for each Executive Vice President). The total "carry" for all current Deferred Bonus Plan participants is 1.7%, a level that the Personnel Committee believes is conservative when compared to a typical range of 5-10% of outstanding shares authorized in employee stock options by other similar banking institutions in California.

Benefits pursuant to the Deferred Bonus Plan vest 0% during the first year of participation, 25% per full year thereafter and after five years such benefits are fully vested. Benefits under the Deferred Bonus Plan are disclosed in the participant's Non-Equity Incentive Plan Compensation in the "Summary Compensation Table" as well as Registrant Contributions in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

Benefits become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a "Change in Control" as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already contributed for past years of service including net earnings or losses thereon; and (2) an amount equal to the difference (if any) between the purchase price and twenty times EPS which as of December 31, 2007 would be zero for all Named Executive Officers. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Executive Retention Plan

Each Named Executive Officer who was employed by the Company on January 1, 2005 is a participant in the Executive Retention Plan. This program was developed based upon the Board's assessment that: (1) the Named Executive Officers had delivered significant stockholder value appreciation in the past; (2) current total compensation levels were below market resulting in executive officer retention problems; and (3) structuring an incentive for long-term executive retention would mitigate retention problems and assist in providing the management stability to drive future stockholder value appreciation.

Between the third quarter of 1997 (when the President and C.E.O. joined the Company and began recruiting his team) and December 31, 2004 (when the Deferred Bonus Plan was established) the market value of the Company increased \$255 million or over 300%. Since no stock option plan was in place, the management team did not benefit from any of this increase in stockholder value. Accordingly, the Executive Retention Plan was created in order to retain the services of the management team and partially compensate for the historical lack of a stock option plan. Should each participant in the Executive Retention Plan remain with the Company for the full ten years of the Plan, the total payout, on a present value basis, would represent approximately 1.0% of the \$255 million increase in market value, a level that the Personnel Committee believes is conservative when compared to a typical range of 5-10% of outstanding shares authorized in employee stock options by other similar banking institutions in California.

Benefits under the Executive Retention Plan are disclosed in the participant's Non-Equity Incentive Plan Compensation in the "Summary Compensation Table" as well as Registrant Contributions in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

Benefits become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a "Change in Control" as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already earned for past years of service including any net earnings or losses thereon; and (2) any remaining amounts that would have been earned through Year 10 of the Plan which as of December 31, 2007 would be as follows: Mr. Steinwert \$1.02 million and Mr. Haley, Mr. Erichson, Ms. Hodkin and Mr. Smith \$243,000 each. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Deferred Compensation Plan

Each Named Executive Officer is eligible to participate in the Company's Deferred Compensation Plan. This type of plan allows the executive to best manage their long term tax position and is seen as an important component of any overall compensation strategy for attracting and retaining key executives. Under the Plan, participants may voluntarily elect to defer a maximum amount of one hundred percent (100%) of their base salary and annual bonus. Benefits become payable after either: (1) a participant's in service distribution election period is reached; (2) the participant's employment at the Company terminates; or (3) there has been a "Change in Control" as defined in the Plan. The Plan also allows for hardship distributions upon the occurrence of an "unforeseen financial emergency" as defined in Treasury Regulations Section 1.457-2(h) (4). Voluntary deferrals under the Deferred Compensation Plan are disclosed in the participant's Executive Voluntary Deferrals of Salary and Bonus in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

Upon a Change in Control, each participant receives only those balances in their account including any net earnings or losses thereon. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Post-Termination Compensation

The Company's approach to post-termination compensation depends upon the circumstances surrounding the Named Executive Officer's termination and have been designed by the Board to be competitive with industry-wide practices in order to attract and retain key executives.

- 1.If the Named Executive Officer takes normal or early retirement, or their employment is terminated due to death or disability, no supplemental payments are made. They are entitled to all vested balances in qualified and non-qualified plans (see "Deferred Compensation Table"), and in the case of death their heirs are entitled to their split dollar life insurance benefits.
- 2.If the Named Executive Officer is terminated for cause, all benefits in the Company's non-qualified plans, whether vested or not, are forfeited in their entirety. No other payments are made, but the Named Executive Officer is entitled to all vested balances in qualified plans.
- 3.If the Named Executive Officer is terminated without cause, the terms of each individual's employment contract call for the Company to provide lump sum payments of up to two years' salary and bonus (see "Summary Compensation Table"). In addition they are entitled to all vested balances in qualified and non-qualified plans (see "Deferred Compensation Table").

4. In the case of a Change in Control (as defined by the Treasury Department pursuant to the requirements of IRC Section 409A), the Company has “single trigger” clauses in each Named Executive Officer’s employment contract. This means that termination payments are made regardless of whether the Named Executive Officer remains in the employ of the buyer. In addition to all vested balances in qualified and non-qualified plans (see “Deferred Compensation Table”), each Named Executive Officer receives: (1) lump sum payment of two years’ salary and bonus (see “Summary Compensation Table”); (2) acceleration of benefits under non-qualified plans as more fully described under “Deferred Compensation Program”; (3) lump sum payment of three years’ Cobra medical premiums (which range between \$28,000 and \$83,000 per Named Executive Officer); and (4) lump sum tax gross-up payments to cover excise taxes under IRC Section 280G which as of December 31, 2007 would be as follows: Mr. Steinwert \$2.64 million; Mr. Haley \$1.19 million; Mr. Erichson \$607,000; Ms. Hodkin \$1.18 million; Mr. Smith \$914,000. None of these payments are subject to any material contractual conditions such as non-compete, non-solicitation or other types of agreements.

AUDIT RELATED MATTERS

Report of the Audit Committee of the Board of Directors

The Audit Committee oversees relevant accounting, risk assessment, risk management and regulatory matters. It meets with the Bank's and the Company's internal auditors and the independent auditors to review the scope of their work as well as to review quarterly and annual financial statements and regulatory and public disclosures with the officers in charge of financial reporting, control and disclosure functions. After reviewing the independent auditor's qualifications, partner rotation and independence, the Audit Committee also makes an annual decision regarding selection of the independent auditors. In addition, the Audit Committee reviews reports of examination conducted by regulatory agencies and follows up with management concerning recommendations and required corrective action.

The Audit Committee reports regularly to the Boards of Directors of the Bank and the Company and has the authority to select, retain, terminate and approve the fees and other retention terms of special counsel or other experts or consultants as it deems appropriate and necessary to perform its duties.

In performing its functions, the Audit Committee acts in an oversight capacity and necessarily relies on the work and assurances of management, which has the primary responsibility for financial statements and reports, and of the independent auditors, who, in their report, express an opinion on the conformity of the Company's annual financial statements to generally accepted accounting principles.

In connection with the December 31, 2007 financial statements of the Company, the Audit Committee: (1) reviewed and discussed the audited financial statements with management and the independent auditors; (2) discussed with the independent auditors the matters required by Statement on Auditing Standards No. 61; and (3) received and discussed with the independent auditors the matters required by Independence Standards Board Statement No. 1. The Audit Committee has also considered whether the independent auditors' provision of non-audit services to the Company is compatible with maintaining the auditors' independence. Based upon these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2007.

The Board of Directors has approved a written charter of the Audit Committee which was included in the 2007 proxy statement.

Respectfully submitted,

/s/ Kevin Sanguinetti
