NOTE A - SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Basis of Presentation

The accompanying unaudited consolidated financial statements as of January 31, 2006 and for the nine month periods ended January 31, 2006 and 2005 have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission, including Form 10-QSB and Regulation S-B. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally present in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. The company believes that the disclosures provided are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited financial statements and explanatory notes for the year ended April 30, 2005 as disclosed in the company's 10-KSB for that year as filed with the SEC, as it may be amended.

The results of the nine months ended January 31, 2006 are not necessarily indicative of the results to be expected for the full year ending April 30, 2006.

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Sparta Commercial Services, LLC. All significant intercompany transactions and balances have been eliminated in the consolidated financial statements.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

The Company originates leases on new and used motorcycles and other powersports vehicles from motorcycle dealers throughout the United States. The Company's leases are accounted for as either operating leases or direct financing leases. At the inception of operating leases, no lease revenue is recognized and the leased motorcycles, together with the initial direct costs of originating the lease, which are capitalized, appear on the balance sheet as "motorcycles under operating leases-net." The capitalized cost of each motorcycle is depreciated over the lease term, on a straight-line basis, down to the Company's original estimate of the projected value of the motorcycle at the end of the scheduled lease term (the "Residual"). Monthly lease payments are recognized as rental income. Direct financing leases are recorded at the gross amount of the lease receivable, and unearned income at lease inception is amortized over the lease term.

(UNAUDITED)

NOTE A - SUMMARY OF ACCOUNTING POLICIES (continued)

Revenue Recognition (continued)

The Company realizes gains and losses as the result of the termination of leases, both at and prior to their scheduled termination, and the disposition of the related motorcycle. The disposal of motorcycles, which reach scheduled termination of a lease, results in a gain or loss equal to the difference between proceeds received from the disposition of the motorcycle and its net book value. Net book value represents the residual value at scheduled lease termination. Lease terminations that occur prior to scheduled maturity as a result of the lessee's voluntary request to purchase the vehicle have resulted in net gains, equal to the excess of the price received over the motorcycle's net book value.

Early lease terminations also occur because of (i) a default by the lessee, (ii) the physical loss of the motorcycle, or (iii) the exercise of the lessee's early termination. In those instances, the Company receives the proceeds from either the resale or release of the repossessed motorcycle, or the payment by the lessee's insurer. The Company records a gain or loss for the difference between the proceeds received and the net book value of the motorcycle.

The Company charges fees to manufacturers and other customers related to creating a private label version of the Company's financing program including web access, processing credit applications, consumer contracts and other related documents and processes. Fees received are amortized and booked as income over the length of the contract. At January 31, 2006, the Company had recorded deferred revenue related to these contracts of \$13,200.

Net Loss Per Share

The Company uses SFAS No. 128, "Earnings Per Share" for calculating the basic and diluted loss per share. We compute basic loss per share by dividing net loss and net loss attributable to common shareholders by the weighted average number of common shares outstanding. Diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential shares had been issued and if the additional shares were dilutive. Common equivalent shares are excluded from the computation of net loss per share if their effect is anti-dilutive.

Per share basic and diluted net loss attributable to common stockholders amounted to \$0.04 and \$0.02 for the three months ended January 31, 2006 and 2005, respectively, and \$0.10 and \$0.03 for the nine months ended January 31, 2006 and 2005, respectively. For the nine months ended January 31, 2006 and 2005, 29,685,131 and 7,932,486 potential shares, respectively, were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

Reclassifications

Certain reclassifications have been made to conform to prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

NOTE A - SUMMARY OF ACCOUNTING POLICIES (continued)

Stock Based Compensation

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the fourth quarter of 2006. Management has elected to apply Statement 123R in the third quarter of fiscal year 2006.

Recent Accounting Pronouncement

In February 2006, the FASB issued SFAS 155, which applies to certain "hybrid financial instruments," which are instruments that contain embedded derivatives. The new standard establishes a requirement to evaluate beneficial interests in securitized financial assets to determine if the interests represent freestanding derivatives or are hybrid financial instruments containing embedded derivatives requiring bifurcation. This new standard also permits an election for fair value remeasurement of any hybrid financial instrument containing an embedded derivative that otherwise would require bifurcation under SFAS 133. The fair value election can be applied on an instrument-by-instrument basis to existing instruments at the date of adoption and can be applied to new instruments on a prospective basis. Management is assessing the implications of this standard, which may materially impact the Company's results of operations in the fourth quarter of fiscal year 2006 and thereafter.

In February 2006, the FASB issued FASB Staff Position ("FSP") No. FAS 123(R)-4, "Classification of Options and Similar Instruments Issued as Employee Compensation That Allow for Cash Settlement upon the Occurrence of a Contingent Event," which amends SFAS No. 123(R) to require that options issued with a cash settlement feature that can be exercised upon the occurrence of a contingent event that is outside the employee's control should not be classified as liabilities until it becomes probable that the event will occur. For companies that adopted SFAS No. 123(R) prior to the issuance of the FSP, application is required in the first reporting period beginning after February 3, 2006. Currently, the Company has no stock options outstanding with contingent cash settlement features, and as a result, the FSP will not impact the Company's consolidated financial statements.

NOTE B - RELATED PARTY TRANSACTIONS

The Company entered into a purchase option agreement with American Motorcycle Leasing Corp., an entity controlled by the Company's President and a significant shareholder, on November 2, 2004 at a cost to Sparta Commercial Services of \$250,000. This agreement granted Sparta Commercial Services the right, for a two year period, to purchase portions of a certain portfolio of equipment leases that American Motorcycle Leasing Corp. owns. The portfolio is secured by a first priority security interest in favor of Citibank, N.A. or its assigns. The cost of \$250,000 has been charged to operations in fiscal 2005. As of January 31, 2006 this amount has been paid in full.

In January 2005, the Company received a loan of \$25,000 from an officer. This loan is non-interest bearing and is payable on demand. The loan was repaid as of January 31, 2006.

NOTE C - STOCKHOLDERS' EQUITY

On December 27, 2004, the Company effected a one-for-two hundred reverse stock split followed by a forward split of twenty five-for-one of its authorized and outstanding shares of common stock, \$.001 par value. All references in the financial statements and notes to financial statements, numbers of shares and share amounts have been retroactively restated to reflect the reverse split.

Common Stock

During the nine months ended January 31, 2006, the Company issued 464,745 shares of common stock, valued at \$243,270, as additional costs related to loans received by the Company. This amount has been charged to financing cost. Additionally, as consideration for loans received during the third quarter of fiscal 2006, the Company will issue 70,000 shares of common stock. The value of these shares has been recorded at \$38,500 and this amount is included in accrued expenses at January 31, 2006 and has been charged to financing cost.

During August 2005, the Company issued 651,124 shares of common stock in payment of \$150,000 of principal amount of notes payable and \$12,781 of related accrued interest. The shares were issued at a value below market price and the Company has recorded a financing cost of \$323,672 related to this discount.

During September and October 2005, the Company issued an aggregate of 600,000 shares of common stock, pursuant to a consulting agreement. The shares have been valued at \$474,000 and this amount is being amortized over the one year term of the agreement, commencing August 1, 2005.

During October 2005, the Company issued 113,637 shares of common stock, valued at \$85,228, for services.

During October and November 2005, the Company received \$330,000 pursuant to subscription agreements for units, at \$0.60 per unit, of the Company's securities, with each unit consisting of one share of common stock and one warrant.

The Company will issue 250,000 shares of common stock as payment of consulting fees. These fees have been accrued in the financial statements at a value of \$85,000 as of January 31, 2006.

During December 2005, the Company entered into an agreement pursuant to which it agreed to issue 2,650,000 shares of common stock for consulting and advisory services rendered and to be rendered. The shares have been valued at \$1,590,000,

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

based on the fair value of the Company's common stock on the date of the agreement. This amount has been charged to expense in the third quarter and, since the shares have not been issued as of January 31, 2006, this amount is included in accrued expenses in the financial statements.

NOTE C - STOCKHOLDERS' EQUITY (continued)

Common Stock (continued)

During December 2005 and January 2006, the Company sold 10,151,400 shares of common stock through a private placement. The Company received net proceeds of \$1,726,980 from the sale. Costs of \$212,952 were deducted from the gross proceeds and additional costs of \$39,590 were paid by the Company.

In connection with the private placement described above, the Company granted 1,015,140 common stock purchase warrants to the placement agent. The warrants are exercisable immediately, have an exercise price of \$0.215 per share and expire in five years. The warrants were valued at \$577,929 using the Black-Scholes pricing model. The assumptions used in the Black-Scholes model are as follows: (1) dividend yield of 0%; (2) expected volatility of 177%, (3) risk-free interest rate of 3.65%, and (4) expected life of 2 years.

Since the warrants contain registration rights for the underlying shares and since the delivery of such registered shares was not deemed controllable by the Company, we recorded the net value of the warrants at the date of issuance as a warrant liability on the balance sheet (\$577,929) and included the change in fair value from the date of issuance to January 31, 2006 in other income (expense), in accordance with EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock". The fair value of the warrants was \$451,752 at January 31, 2006.

During December 2005, the Company granted options to purchase an aggregate of 160,000 shares of common stock to two employees. The options have been valued at \$75,795 using the Black-Scholes option pricing model with the following assumptions: (1) dividend yield of 0%; (2) expected volatility of 177%, (3) risk-free interest rate of 4.38%, and (4) expected life of 3 years. The options have an exercise price of \$0.59, vest over a 38 month period and expire if unexercised in ten years.

During January 2006, the Company issued 8,958,333 shares of common stock upon conversion of 13,975 shares of preferred stock.

Preferred Stock Series A

In December 2004, the Company commenced a private placement to raise up to \$3,000,000 through the sale of up to 30 units of our securities at \$100,000 per unit. Each unit consists of (i) 1,000 shares of series A convertible, redeemable preferred stock and (ii) warrants to purchase 320,513 shares of common stock, exercisable for three years at \$0.195 per share. The preferred stock has a stated value of \$100 per share, carries a 6% annual cumulative dividend, payable semi-annually in arrears, and is convertible into shares of common stock at the rate of one preferred share into 641 shares of common stock.

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

During the three months ended July 31, 2005, the Company issued 17,750 preferred shares at a stated value of \$100 per share and warrants to purchase 5,689,108 shares of common stock, exercisable for three years at \$0.195 per share, for aggregate gross proceeds of \$1,775,000 received from investors. Costs of \$182,484 were deducted from the proceeds. In connection with the private placement, during the three months ended July 31, 2005, the Company issued as compensation to the placement agent warrants to purchase 1,137,822 shares of common stock, exercisable for five years at \$0.172 per share. The warrants, which were valued at \$406,665 using the Black-Scholes option pricing model, were recognized as an expense during the quarter. The assumptions used in the Black Scholes model are as follows: (1) dividend yield of 0%; (2) expected volatility of 188%, (3) weighted average risk-free interest rate of 3.65%, and (4) expected life of 2 years.

NOTE C - STOCKHOLDERS' EQUITY (continued)

Preferred Stock Series A (continued)

In accordance with EITF 00-27, a portion of the proceeds were allocated to the class 'C' warrants based on their relative fair value, which totaled \$931,800 using the Black Scholes option pricing model. Further, the Company attributed a beneficial conversion feature of \$843,200 to the series 'A' preferred shares based upon the difference between the conversion price of those shares and the closing price of the Company's common shares on the date of issuance. The assumptions used in the Black Scholes model are as follows: (1) dividend yield of 0%; (2) expected volatility of 188%, (3) weighted average risk-free interest rate of 3.65%, and (4) expected life of 2 years as the conversion feature and warrants are immediately exercisable. Both the fair value of the class 'C' warrants and the beneficial conversion feature were recorded as a dividend and are included in the accompanying financial statements.

In the event that a registration statement covering all of the securities issued pursuant to the private placement of preferred shares is not declared effective by the Securities and Exchange Commission by July 31, 2005, the number of shares issuable upon conversion of the preferred stock and the exercise of the warrants will be increased by 0.75% for each 30 day period during a six month term following July 31, 2005 that a registration statement has not been declared effective. Following this initial six month term, the number of shares issuable upon conversion of the preferred stock and the exercise of the warrants will be increased by 1.50% for each 30 day period during a six month term following January 31, 2006 that a registration statement has not been declared effective. There was not an effective registration statement as of July 31, 2005, nor is there one as of January 31, 2006. Additionally, if a registration statement has not been filed as of October 27, 2005, the number of shares issuable upon conversion of the preferred stock and the exercise of the warrants will be increased by 1% for each 30 day period until a registration statement is filed. A registration statement was not filed as of October 27, 2005, and one has not been filed as of January 31, 2006. As a result, the Company has accrued an expense of \$1,440,000 and \$2,040,000 during the three and nine months ended January 31, 2006, respectively, related to these penalty provisions. This amount will be settled through the issuance of equity securities. As of January 31,

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

2006, an aggregate of 1,953,290 penalty shares and 1,140,146 penalty warrants has accrued. As of March 16, 2006, the Company has obtained waivers covering approximately 775,000 penalty shares and 388,000 penalty warrants. These waivers aggregate approximately \$761,000 of the accrued expense. The waivers are contingent upon the company filing a registration statement covering the original shares and warrants within 30 days of the final closing of the Company's current private placement offering.

During the three months ended January 31, 2005, the Company issued 2,250 preferred shares at a stated value of \$100 per share and warrants to purchase 721,154 shares of common stock, exercisable for three years at \$0.195 per share, for aggregate gross proceeds of \$225,000 received from investors. In connection with the private placement, during the nine months ended January 31, 2005, the Company issued as compensation to the placement agent warrants to 144,231 shares of common stock, exercisable for five years at \$0.172 per share. The warrants, which were valued at approximately \$105,303 using the Black-Scholes option pricing model, were recognized as a cost of issuance of the Series A Preferred shares.

In accordance with EITF 98-5, the Company recognized an imbedded beneficial conversion feature present in the Preferred Stock. The Company recognized and measured an aggregate of \$810,000, which equals to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a return to the Preferred Stock holders. Since the preferred shares were convertible at the date of issuance, the return to the preferred shareholders attributed to the beneficial conversion feature has been recognized in full at the date the Preferred Stock was issued.

NOTE C - STOCKHOLDERS' EQUITY (continued)

Preferred Stock Series A (continued)

During the nine months ended January 31, 2005, the Company sold rights to acquire securities of the Company to investors for aggregate gross proceeds of \$585,000. Pursuant to the terms of the rights, as the Company conducted a closing to a private placement transaction in 2004 utilizing a designated registered broker-dealer as a placement agent, on January 1, 2005, the rights have automatically converted into 5,850 preferred shares at a stated value of \$100 per share and warrants to purchase 1,875,001 shares of common stock, exercisable for three years at \$0.195 per share.

NOTE D - GOING CONCERN MATTERS

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying consolidated financial statements the Company has realized minimal revenue from operations and has incurred significant operating losses since inception. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

profitable operations. Management is devoting substantially all of its efforts to developing its business and raising capital and there can be no assurance that the Company's efforts will be successful. However, the planned principal operations have not commenced and no assurance can be given that management's actions will result in profitable operations or the resolution of its liquidity problems. The accompanying statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

In order to improve the Company's liquidity, the Company's management is actively pursuing additional equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION, RESULTS OF OPERATIONS AND PLAN OF OPERATION

GENERAL

The following discussion of our financial condition and results of operations should be read in conjunction with (1) our interim unaudited financial statements and their explanatory notes included as part of this quarterly report, and (2) our annual audited financial statements and explanatory notes for the year ended April 30, 2005 as disclosed in our annual report on Form 10-KSB for that year as filed with the SEC.

"FORWARD-LOOKING" INFORMATION

This report on Form 10-QSB contains certain "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, which represent our expectations and beliefs, including, but not limited to statements concerning the Company's expected growth. The words "believe," "expect," "anticipate," "estimate," "project," and similar expressions identify forward-looking statements, which speak only as of the date such statement was made. These statements by their nature involve substantial risks and uncertainties, certain of which are beyond our control, and actual results may differ materially depending on a variety of important factors.

INTRODUCTORY STATEMENT

Unless otherwise stated, the discussion and analysis refers to the business of Sparta Commercial Services, Inc. and does not refer to the operations for our former business which was essentially a non-operating shell company.

The period from inception through April 30, 2005 was a developmental period for us, setting up credit procedures, setting our arrangements with vehicle distributors, obtaining personnel, seeking financing to support our developmental efforts, and seeking credit facilities. Consequently, our operations are subject to all the risks inherent in the establishment of a new business enterprise. In fiscal year 2005, we began to obtain regulatory approval

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

in several states, where required, prior to commencing active operations. In February 2006, we attended our first national motorcycle industry dealer only trade show "Dealer EXPO 2006" and over 200 dealers visited our booth during the show. We are actively signing up dealers to participate in our financing programs, including our private label financing programs. As of March 15, 2006, 1,016 (compared to 478 at March 15, 2005) dealers have logged onto our web site and downloaded dealer applications and of that number, 254 have been approved as Sparta or private label authorized dealers. We believe this trend will continue over the foreseeable future. We have signed up four manufacturers to our private label programs, and are in negotiations with other manufacturers who have indicated an interest in a private label program. Additionally, we have signed three third party marketing arrangements with industry recognized consulting firms who will introduce our programs to their dealer clients and train them how to effectively use them. We have increased our marketing staff from 1 at January 31, 2005 to 2 at January 31, 2006 and to 4 at March 15, 2006. As of the date of this filing, we have more than sufficient operating capital to fulfill our planned business operations for the next twelve months for a credit line reserve and for our general operating expenses. Although the Company obtained a senior credit facility in July 2005, which allowed us to commence our initial active operations, we will need to obtain additional credit facilities to fully implement our business plan as this current credit facility only allows for origination across three out of five credit profiles. We need the additional credit facilities so that we have the funding sources to originate leases and finance contracts across all credit profiles of our business model. We are presently seeking additional credit facilities and long term debt.

14

RESULTS OF OPERATIONS

COMPARISON OF THE THREE MONTHS ENDED JANUARY 31, 2006 TO THE THREE MONTHS ENDED JANUARY 31, 2005

For the three months ended January 31, 2006 and 2005, we have generated limited, but increasing, sales revenues, have incurred significant expenses, and have sustained significant losses. We believe we will continue to earn increasing revenues from operations during the remainder of fiscal 2006 and in the upcoming fiscal year.

REVENUES

Revenues totaled \$43,008 during the three months ended January 31, 2006 as compared to \$26,416 during the three months ended January 31, 2005. Current period revenue was comprised primarily of \$38,460 in lease revenue and \$3,300 in private label fees. Prior period revenue was comprised primarily of \$21,865 in lease revenue and \$4,550 in private label fees.

COSTS AND EXPENSES

General and administrative expenses were \$2,322,057 during the three months ended January 31, 2006, compared to \$739,320 during the three months ended January 31, 2005, an increase of \$1,582,737, or 214%. Expenses incurred during the current three month period consisted primarily of the following expenses: Compensation and related costs, \$291,147; Accounting, audit and professional fees, \$46,636; Consulting fees, \$1,780,890; Rent, \$41,590 and Travel and entertainment, \$23,126. Expenses incurred during the comparative three month period in 2005 consisted primarily of the following expenses: Compensation and related costs, \$301,038; Accounting, audit and professional fees, \$78,861; Consulting fees, \$71,030; and the value of warrants issued to the private placement agent of \$105,303. Of the current quarter consulting expense,

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

\$1,590,000 will be paid through the issuance of 2,650,000 shares of common stock.

We incurred a non-cash charge of \$38,500 during the three months ended January 31, 2006 related to shares of common stock to be issued in connection with debt financing. Additionally, we recorded an expense of \$1,440,000 related to the failure to file a registration statement or have an effective registration statement covering the underlying shares of common stock issuable upon conversion of our preferred stock and the related warrants. This expense will be settled through the issuance of shares and warrants or the cancellation of the obligation through negotiation with shareholders. There were no comparable expenses during the nine months ended January 31, 2005. We have also recorded non-cash income of \$126,177 related to the decrease in value of warrants issued with registration rights. The fair value of these warrants is classified as a liability on the balance sheet.

NET LOSS

We incurred a net loss before preferred dividends of \$3,658,551 for our three months ended January 31, 2006 as compared to \$723,035 for the corresponding interim period in 2005. The \$2,935,516 or 406% increase in our net loss before preferred dividends for our three month interim period ended January 31, 2006 was attributable primarily to a \$1,351,981 net increase in non-cash financing costs, and an increase of \$1,582,737 in general and administrative expense.

We also incurred non-cash preferred dividend expense of \$29,191 for our three month period ended January 31, 2006 with an expense of \$810,000 in the corresponding interim period of 2005. The decrease in preferred dividend expense was attributable to the sale of convertible preferred stock that commenced in December, 2004 for which we incurred a non cash charge of \$810,000 which equals the intrinsic value of the imbedded beneficial conversion feature for the Preferred Stock holders for the three months ended January 31, 2005.

Our net loss attributable to common stockholders increased to \$3,687,742 for our three month period ended January 31, 2006 as compared to \$1,533,035 for the corresponding period in 2005. The \$2,154,707 increase in net loss attributable to common stockholders for our three month period ended January 31, 2006 was due to the \$2,935,516 increase in our net loss before preferred dividends, offset by the aforesaid \$780,809 decrease in preferred dividend expense.

15

COMPARISON OF THE NINE MONTHS ENDED JANUARY 31, 2006 TO THE NINE MONTHS ENDED JANUARY 31, 2005

For the nine months ended January 31, 2006 and 2005, we have generated limited, but increasing sales revenues, have incurred significant expenses, and have sustained significant losses. We believe we will begin to earn increasing revenues from operations during the remainder of fiscal 2006 and in the upcoming fiscal year.

REVENUES

Revenues totaled \$90,629 during the nine months ended January 31, 2006 as compared to \$47,879 during the nine months ended January 31, 2005. Current period revenue was comprised primarily of \$62,806 in lease revenue, \$6,747 in dealer fees, and \$9,900 in private label fees. Prior period revenue was comprised primarily of \$16,607 in lease revenue, \$20,300 in dealer fees and \$9,517 in private label fees.

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

COSTS AND EXPENSES

General and administrative expenses were \$3,819,526 during the nine months ended January 31, 2006, compared to \$1,523,941 during the nine months ended January 31, 2005, an increase of \$2,295,585, or 151%. Expenses incurred during the current nine month period consisted primarily of the following expenses: Compensation and related costs, \$947,440; Accounting, audit and professional fees, \$219,785; Consulting fees, \$2,142,477; Rent, \$114,404; and Travel and entertainment, \$58,457. Expenses incurred during the comparative nine month period consisted primarily of the following expenses: Compensation and related costs, \$623,400; Accounting, audit and professional fees, \$143,038; Consulting fees, \$164,068; Rent, \$50,364; Travel and entertainment, \$58,480 License fees, \$150,633, and the value of warrants issued to the private placement agent of \$105,303. Of the current nine months consulting expense, \$1,590,000 will be paid through the issuance of 2,650,000 shares of common stock.

In connection with its private placement transactions, the Company has expensed non-cash costs of \$406,665 during the nine months ended January 31, 2006 related to warrants granted to the private placement agent, with no related expense during the comparative period. The Company also incurred a non-cash charge of \$605,442 during the nine months ended January 31, 2006 related to shares of common stock issued or to be issued in connection with debt financing and has recorded an expense of \$2,040,000 related to the failure to file a registration statement or have an effective registration statement covering the underlying shares of common stock issuable upon conversion of its preferred stock and the related warrants. This expense will be settled through the issuance of shares and warrants. There were no comparable expenses during the nine months ended January 31, 2005. We have also recorded non-cash income of \$126,177 related to the decrease in value of warrants issued with registration rights. The fair value of these warrants is classified as a liability on the balance sheet.

NET LOSS

We incurred a net loss before preferred dividends of \$6,734,000 for our nine months ended January 31, 2006 as compared to \$1,493,850 for the corresponding interim period in 2005. The \$5,240,150 or 351% increase in our net loss before preferred dividends for our nine month interim period ended January 31, 2006 was attributable primarily to a \$2,295,585 increase in general and administrative expense and a net increase of \$2,924,771 in non-cash financing costs.

We also incurred preferred dividend expense of \$1,886,683 for our nine month period ended January 31, 2006 with an expense of \$810,000 in the corresponding interim period of 2005. The increase in preferred dividend expense was attributable to the sale of convertible preferred stock that commenced in December, 2004 and concluded in July 2005. In addition to dividends payable on the outstanding preferred stock, preferred dividend expense for 2006 and 2005 includes an aggregate charge of \$1,775,000 and \$810,000, respectively, related to warrants issued with the convertible preferred stock and a beneficial conversion feature associated with the preferred stock.

Our net loss attributable to common stockholders increased to \$8,620,683 for our nine month period ended January 31, 2006 as compared to \$2,303,850 for the corresponding period in 2005. The \$6,316,833 increase in net loss attributable to common stockholders for our nine month period ended January 31, 2006 was due to the \$5,240,150 increase in our net loss before preferred dividends, increased by the aforesaid \$1,076,683 increase in preferred dividend expense.

LIQUIDITY AND CAPITAL RESOURCES

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

As of January 31, 2006, the Company had a working capital deficit of \$3,023,127. The Company generated a deficit in cash flow from operations of \$2,172,063 for the nine months ended January 31, 2006. This deficit is primarily attributable to the Company's net loss from operations of \$6,734,000, partially offset by depreciation and amortization of \$58,045 and the fair value attributed to stock and warrants issued of \$1,172,910, and to changes in the balances of current assets and liabilities. Accounts payable and accrued expenses increased by \$3,458,030, deferred revenue increased by 91,860 and prepaid expenses and deposits increased by \$184,675. Included in accounts payable and accrued expenses at January 31, 2006 are accrued penalties of \$2,040,000 related to the failure to file a registration statement or have an effective registration statement covering the underlying shares of common stock issuable upon conversion of it preferred stock and the related warrants. This expense will be settled through the issuance of shares and warrants or the cancellation of the obligation through negotiation with shareholders. Also included in accounts payable and accrued expenses at January 31, 2006 are accrued consulting and advisory fees of \$1,590,000, which will be paid through the issuance of 2,650,000 shares of common stock.

The Company, pursuant to the terms of the private placement of Series A Convertible Preferred Stock with Warrants (the "Units"), which placement had its final closing on July 27, 2005, is required to issue to the holders of such Units and the Placement Agent penalty shares such that the number of shares of Common Stock issuable upon conversion of the Series A Preferred Stock and the exercise of the Warrants and the Placement Agent Warrants shall be increased each month until the Company files with the Securities and Exchange Commission (the "SEC"), a registration statement registering the common shares underlying the Units. As of January 31, 2006, the aggregate number of penalty shares accrued for the shares issuable upon conversion of the Series A Convertible Preferred Stock is 1,953,290 and the fair value expensed for these shares at January 31, 2006 is \$1,332,000. The aggregate number of penalty shares accrued upon exercise of the Warrants and Placement Agent Warrants is 1,140,146 and the fair value expense for these shares at January 31, 2006 is \$708,000. Additionally, for each month, or fraction thereof, subsequent to January 2006 and until such registration statement is filed, the Company will be required to issue an additional 574,498 penalty shares for the shares issuable upon conversion of the Series A Convertible Preferred Stock and 335,537 penalty shares upon exercise of the Warrants and Placement Agent Warrants. Pursuant to the terms of the \$3 million private placement of the Company's common stock which commenced in December 2005 (the "PPM"), the Company is required to file with the SEC a registration statement registering the common shares sold pursuant to the PPM. If such registration statement is not filed within thirty days of the final closing of the PPM, and for each month or fraction thereof until such registration is filed, the Company will be required to issue up to 179,487 additional penalty shares to the purchasers of the PPM and the Placement Agent. The Company intends to file, within 30 days of the final closing of the PPM, a registration statement with the SEC registering all required shares pursuant to the Unit and PPM offerings. As of March 16, 2006, the Company has obtained, from Unit holders, conditional waivers which cancel the Companies obligation to issue a total of approximately 775,000 penalty shares representing valuation expense of approximately \$524,000 at January 31, 2006. Assuming the condition is met the \$524,000 will be recognized as a reduction of non-cash financing cost with a like reduction in accrued accounts payable. Such waivers are conditioned upon the Company filing with the SEC a registration statement registering the common shares underlying the Units within 30 days of the final closing of the Company's current private placement offering. The Company is seeking to obtain penalty waivers from the remaining Unit holders and Placement Agent. There is no assurance that such additional waivers can or will be obtained.

Cash flows used in investing activities for the nine months ended January 31,

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

2006 was \$592,976, primarily due to the purchase of property and equipment of \$32,390, payments for motorcycles and vehicles of \$200,524 and investments in leases of \$353,562.

The Company met its cash requirements during the nine month period through net proceeds from the issuance of equity of \$3,319,497, debt financing of \$372,675 and subscriptions for units of our securities, consisting of one share of common stock and a warrant to purchase one share of common stock exercisable for three years at \$0.80 per share, of \$330,000, all partially offset by payments on bridge loans and other financing of \$357,244. Additionally, the Company has received limited revenues from leasing and financing motorcycles and other vehicles, its recently launched private label programs and from dealer sign-up fees.

17

While we have raised capital to meet our working capital and financing needs in the past, additional financing is required in order to meet our current and projected cash flow deficits from operations and development. We are seeking financing, which may take the form of debt, convertible debt or equity, in order to provide the necessary working capital. There is no guarantee that we will be successful in raising the funds required.

We estimate that we will need approximately \$1,750,000 in additional funds to fully implement our business plan during the next twelve months for a credit line reserve and for our general operating expenses. As of the date of this filing, we have more than sufficient operating capital to continue our planned business operations for the next twelve months and for our general operating expenses. Although the Company obtained a senior credit facility in July 2005, which allowed us to commence our initial active operations, this facility finances only three of our five credit tiers, thus we will need to obtain additional credit facilities to fully implement our business plan. We are presently seeking those additional credit facilities and long term debt. This additional, debt financing, if available, will require payment of interest and may involve restrictive covenants that could impose limitations on the operating flexibility of the Company. If we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources to finance our growth, on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition, and we will have to adjust our planned operations and development on a more limited scale.

AUDITOR'S OPINION EXPRESSES DOUBT ABOUT THE COMPANY'S ABILITY TO CONTINUE AS A "GOING CONCERN"

The independent auditors report on our April 30, 2005 and 2004 financial statements included in the Company's Annual Report states that the Company's historical losses and the lack of revenues raise substantial doubts about the Company's ability to continue as a going concern, due to the losses incurred and its lack of significant operations. If we are unable to develop our business, we have to discontinue operations or cease to exist, which would be detrimental to the value of the Company's common stock. We can make no assurances that our business operations will develop and provide us with significant cash to continue operations.

PLAN OF OPERATIONS

ADDRESSING THE GOING CONCERN ISSUES

In order to improve the Company's liquidity, the Company's management is

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

actively pursuing additional financing through discussions with investment bankers, financial institutions and private investors. There can be no assurance the Company will be successful in its effort to secure additional financing.

We continue to experience net operating losses. Our ability to continue as a going concern is subject to our ability to develop profitable operations. We are devoting substantially all of our efforts to developing our business and raising capital. Our net operating losses increase the difficulty in meeting such goals and there can be no assurances that such methods will prove successful.

The primary issues management will focus on in the immediate future to address this matter include:

- o seeking additional credit lines from institutional lenders;
- o seeking institutional investors for debt or equity investments in our company; and
- o initiating negotiations to secure short term financing through promissory notes or other debt instruments on an as needed basis.

To address these issues, we are negotiating the potential sale of securities with investment banking companies to assist us in raising capital. We are also presently in discussions with several institutions about obtaining additional credit facilities.

PRODUCT RESEARCH AND DEVELOPMENT

We do not anticipate incurring significant research and development expenditures during the next twelve months.

18

ACQUISITION OR DISPOSITION OF PLANT AND EQUIPMENT

We do not anticipate the sale or acquisition of any significant property, plant or equipment during the next twelve months.

NUMBER OF EMPLOYEES

From our inception through the period ended January 31, 2006, we have relied on the services of outside consultants for services and currently have nine employees. In order for us to attract and retain quality personnel, we anticipate we will have to offer competitive salaries to future employees. If we fully implement our business plan, we anticipate our employment base may increase by approximately 50% during the next twelve months. As we continue to expand, we will incur additional cost for personnel. This projected increase in personnel is dependent upon our generating revenues and obtaining sources of financing. There is no guarantee that we will be successful in raising the funds required or generating revenues sufficient to fund the projected increase in the number of employees.

INFLATION

The impact of inflation on the costs of the Company, and the ability to pass on cost increases to its customers over time is dependent upon market conditions. The Company is not aware of any inflationary pressures that have had any significant impact on the Company's operations over the past quarter, and the Company does not anticipate that inflationary factors will have a significant impact on future operations.

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

CRITICAL ACCOUNTING POLICIES

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect our reported assets, liabilities, revenues, and expenses, and the disclosure of contingent assets and liabilities. We base our estimates and judgments on historical experience and on various other assumptions we believe to be reasonable under the circumstances. Future events, however, may differ markedly from our current expectations and assumptions. While there are a number of significant accounting policies affecting our consolidated financial statements; we believe the following critical accounting policy involves the most complex, difficult and subjective estimates and judgments.

REVENUE RECOGNITION

We originate leases on new and used motorcycles and other powersports vehicles from motorcycle dealers throughout the United States. Our leases are accounted for as either operating leases or direct financing leases. At the inception of operating leases, no lease revenue is recognized and the leased motorcycles, together with the initial direct costs of originating the lease, which are capitalized, appear on the balance sheet as "motorcycles under operating leases-net". The capitalized cost of each motorcycle is depreciated over the lease term, on a straight-line basis, down to the original estimate of the projected value of the motorcycle at the end of the scheduled lease term (the "Residual"). Monthly lease payments are recognized as rental income. An acquisition fee classified as fee income on the financial statements is received and recognized in income at the inception of the lease. Direct financing leases are recorded at the gross amount of the lease receivable, and unearned income at lease inception is amortized over the lease term.

We realize gains and losses as the result of the termination of leases, both at and prior to their scheduled termination, and the disposition of the related motorcycle. The disposal of motorcycles, which reach scheduled termination of a lease, results in a gain or loss equal to the difference between proceeds received from the disposition of the motorcycle and its net book value. Net book value represents the residual value at scheduled lease termination. Lease terminations that occur prior to scheduled maturity as a result of the lessee's voluntary request to purchase the vehicle have resulted in net gains, equal to the excess of the price received over the motorcycle's net book value.

Early lease terminations also occur because of (i) a default by the lessee, (ii) the physical loss of the motorcycle, or (iii) the exercise of the lessee's early termination. In those instances, the Company receives the proceeds from either the resale or release of the repossessed motorcycle, or the payment by the lessee's insurer. We record a gain or loss for the difference between the proceeds received and the net book value of the motorcycle.

19

We charge fees to manufacturers and other customers related to creating a private label version of our financing program including web access, processing credit applications, consumer contracts and other related documents and processes. Fees received are amortized and booked as income over the length of the contract.

STOCK-BASED COMPENSATION

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the fourth quarter of 2006. Management has elected to apply Statement 123R in the third quarter of fiscal year 2006.

RECENT ACCOUNTING PRONOUNCEMENT

In February 2006, the FASB issued SFAS 155, which applies to certain "hybrid financial instruments," which are instruments that contain embedded derivatives. The new standard establishes a requirement to evaluate beneficial interests in securitized financial assets to determine if the interests represent freestanding derivatives or are hybrid financial instruments containing embedded derivatives requiring bifurcation. This new standard also permits an election for fair value remeasurement of any hybrid financial instrument containing an embedded derivative that otherwise would require bifurcation under SFAS 133. The fair value election can be applied on an instrument-by-instrument basis to existing instruments at the date of adoption and can be applied to new instruments on a prospective basis. Management is assessing the implications of this standard, which may materially impact the Company's results of operations in the fourth quarter of fiscal year 2006 and thereafter.

In February 2006, the FASB issued FASB Staff Position ("FSP") No. FAS 123(R)-4, "Classification of Options and Similar Instruments Issued as Employee Compensation That Allow for Cash Settlement upon the Occurrence of a Contingent Event," which amends SFAS No. 123(R) to require that options issued with a cash settlement feature that can be exercised upon the occurrence of a contingent event that is outside the employee's control should not be classified as liabilities until it becomes probable that the event will occur. For companies that adopted SFAS No. 123(R) prior to the issuance of the FSP, application is required in the first reporting period beginning after February 3, 2006. Currently, the Company has no stock options outstanding with contingent cash settlement features, and as a result, the FSP will not impact the Company's consolidated financial statements.

WEBSITE DEVELOPMENT COSTS

We have incurred costs to develop a proprietary web-based private label financing program for processing including web access, processing credit applications, consumer contracts and other related documents and processes. The Company has elected to recognize the costs of developing its website and related intellectual property the website development costs in accordance with Emerging Issue Task Force ("EITF") No. 00-02, "Accounting for Website Development Costs." As such, the Company expenses all costs incurred that relate to the planning and post implementation phases of development of its website. Direct costs incurred in the development phase are capitalized and recognized over the estimated useful life. Costs associated with repair or maintenance for the website are included in cost of net revenues in the current period expenses.

OFF-BALANCE SHEET ARRANGEMENTS

Edgar Filing: SPARTA COMMERCIAL SERVICES, INC. - Form 10QSB

The Company does not maintain off-balance sheet arrangements nor does it participate in non-exchange traded contracts requiring fair value accounting treatment.

TRENDS, RISKS AND UNCERTAINTIES

We have sought to identify what we believe to be the most significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our Common Stock.

CAUTIONARY FACTORS THAT MAY AFFECT FUTURE RESULTS

We have sought to identify what we believe are significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise.

POTENTIAL FLUCTUATIONS IN ANNUAL OPERATING RESULTS

Our annual operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside our control, including: the demand for our products and services; seasonal trends in purchasing, the amount and timing of capital expenditures and other costs relating to the commercial and consumer financing; price competition or pricing changes in the market; technical difficulties or system downtime; general economic conditions and economic conditions specific to the consumer financing sector.

Our annual results may also be significantly impacted by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results may fall below our expectations or those of investors in some future quarter.

DEPENDENCE UPON MANAGEMENT

Our future performance and success is dependant upon the efforts and abilities of our Management. To a very significant degree, we are dependent upon the continued services of Anthony L. Havens, our President and Chief Executive Officer and member of our Board of Directors. If we lost the services of either Mr. Havens, or other key employees before we could get qualified replacements, that loss could materially adversely affect our business. We do not maintain key man life insurance on any of our Management.

Our officers and directors are required to exercise good faith and high integrity in our Management affairs. Our bylaws provide, however, that our directors shall have no liability to us or to our shareholders for monetary damages for breach of fiduciary duty as a director except with respect to (1) a breach of the director's duty of loyalty to the corporation or its stockholders, (2) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (3) liability which may be specifically defined by law or (4) a transaction from which the director derived an improper personal benefit.

CONTINUED CONTROL OF CURRENT OFFICERS AND DIRECTORS

The present officers and directors own approximately 62% of the outstanding shares of common stock, without giving effect to shares underlying convertible securities, and therefore are in a position to elect all of our Directors and otherwise control the Company, including, without limitation, authorizing the sale of equity or debt securities of Sparta, the appointment of officers, and the determination of officers' salaries. Shareholders have no cumulative voting rights.

MANAGEMENT OF GROWTH

We may experience growth, which will place a strain on our managerial, operational and financial systems resources. To accommodate our current size and manage growth if it occurs, we must devote management attention and resources to improve our financial strength and our operational systems. Further, we will need to expand, train and manage our sales and distribution base. There is no guarantee that we will be able to effectively manage our existing operations or the growth of our operations, or that our facilities, systems, procedures or controls will be adequate to support any future growth. Our ability to manage our operations and any future growth will have a material effect on our stockholders.

If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board which would limit the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

Companies trading on the OTC Bulletin Board, such as us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended, and must be current in their reports under Section 13, in order to maintain price quotation privileges on the OTC Bulletin Board. If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

ITEM 3. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer, who is also presently serving as our Principal Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective.

There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
