analysis of our performance because it believes these measures are material and will be used as a measure of our performance by investors. These disclosures should not be considered in isolation or a substitute for results determined in accordance with GAAP, and are not necessarily comparable to non-GAAP performance measures which may be presented by other bank holding companies. Management compensates for these limitations by providing detailed reconciliations between GAAP information and the non-GAAP financial measures. A reconciliation of these non-GAAP measures to the most comparable GAAP measure is set forth below.
