PROTECT YOUR INVESTMENT IGT Summary Overview International Game Technology has historically been the industry - leading player in the Casino Gaming Equipment space. We believe the Company has suffered as it has shifted its attention away from its core business. IGT's core business has historically been relatively straightforward — it designs, manufactures and distributes slot machines and systems to casino operators. IGT was incorporated in Nevada in 1980. IGT's headquarters are located in Las Vegas, NV. IGT has seen significant declines in stock price and market share. We believe the market share erosion has been compounded by a lack of focus on key high - growth markets like Asia. Management has evolved from having deep roots in the Casino Gaming industry to its present state, where no member of the executive management team is a Casino Gaming Industry "insider". IGT's Equity Market Capitalization is approximately \$4.1 billion and its Enterprise Value is approximately \$5.7 billion. IGT is listed on the New York Stock Exchange under the Ticker "IGT". Key Competitors include: Bally Technologies (BYI), WMS Industries (WMS), Aristocrat Leisure (ALL.AX) and SHFL entertainment (SHFL). IGT has approximately 4,800 employees — 3,900 in North American segment — primarily in Las Vegas, Reno, San Francisco and Seattle — 900 in International segment — primarily in Beijing and Sydney 3

PROTECT YOUR INVESTMENT Who is Ader Investment Management Ader Investment Management manages investment funds and accounts. Ader Investment Management (AIM) was formed in 2011, a New York City - based asset manager, named one of Inc. Magazine's 500 Fastest Growing Private Companies in America for 2011. AIM specializes in investments in gaming - and hospitality - related industries, across a range of market capitalizations. AIM focuses on value while working closely with management in the companies in which it invests. AIM's management team is led by: Jason N. Ader – CEO and Managing Principal Daniel B. Silvers – President Predecessor was Hayground Cove Asset Management which was founded by Jason Ader in 2003 and grew to \$ 1.3 B in peak AUM. Jason Ader's Background: Senior Managing Director at Bear, Stearns & Co., Inc. for nine years and named one of the youngest Senior Managing Directors in its firm's history. Lead the firm's Gaming, Lodging and Leisure Research franchise in both Equity and High Yield. Joined Las Vegas Sands Corp's (LVS) Board of Directors in March 2009. Currently chair of the LVS Governance committee and member of the Audit committee and Compensation committee. Principal of a founding shareholder of Western Liberty Bancorp, which operated under the Service 1st Bank of Nevada name. Served on the holding company's Board of Directors. A founding shareholder of Reputation.com, a leader in online reputation management, which raised \$ 41 mm in a Series D financing in July 2011. Founding investor of Prize Central Network, Inc. which was sold to Havas Interactive for \$ 100 mm in March 2000. In December 1999, The Prize Central Network was the most popular game network on the internet, according to PC Data Online, with over 2 million unique visitors per month. 4

PROTECT YOUR INVESTMENT Change is Needed Now IGT's current management and board have overseen value destruction: Significant deterioration in share price Shift of focus away from core business Erosion in market-leading, highly - profitable gaming operations and product sales Costly acquisitions of non - core businesses that we believe have diverted management's attention and alienated key customers Board and management team lack sufficient expertise to overcome current market challenges Incumbent board has a track record of poorly timed stock buybacks and overpriced acquisitions Executive management team has no prior gaming industry experience Board appears to be unwavering in its support of management despite deterioration in shareholder value 5

PROTECT YOUR INVESTMENT Shareholder Representation is Needed We believe that IGT requires new directors who are willing to, and have the passion to, become actively involved in helping management to change its focus and who are willing to hold management accountable for performance. Each of the Ader Group's nominees brings a diverse array of critical skills, forward - looking fresh perspectives and proven track records to the Boardroom. Each of our nominees intends to work closely with management to refocus the strategic direction of IGT and, likewise, intends to work with the rest of the Board to help ensure successful implementation of the plan. We believe that IGT needs new Board members with significant casino gaming and financial markets (both capital markets and corporate finance) expertise who understand the issues that IGT is facing and who are prepared to help management make informed decisions and execute its plans. 6

PROTECT YOUR INVESTMENT Demand Better Stock Performance from Your Directors IGT's stock has declined 68.7% from its all - time high of \$49.06 on February 25, 2008. IGT has missed the rally in the equity markets and significantly underperformed its two closest competitors, Bally Technologies and WMS Industries. PROTECT YOUR INVESTMENT Equipment Sector Recent Operating Overview Since 2007, IGT and its Peer Group have operated in an environment where customers have reduced capital spending. Yet, only IGT and Aristocrat saw EBITDA declines for the period 2007 - 2012E (A) Aristocrat has seen weak sales results in each of its geographic segments and can be distinguished because the company has undergone a restructuring While the post-recessionary environment has not been favorable as a result of decreased capital spending by casino operators, IGT's core competitors have achieved better results in preparing for a turnaround in market conditions, unlike IGT. (A) In 2007, WMS was still recovering from technological challenges that negatively impacted its sales. In 2011 and currently, WMS has been challenged in rolling out new games. 9 Historical EBITDA (\$ in millions) Twelve Months Ending December 31, CAGR 2007-2012E IGT \$1,063 \$877 \$702 \$699 \$726 \$813 (5.2%) Bally Technologies \$178 \$274 \$264 \$248 \$246 \$300 11.0% WMS Industries 162 214 243 249 210 209 5.3% Aristocrat Leisure 289 211 166 147 147 182 (8.9%) SHFL entertainment 39 49 57 67 77 83 16.3% Source: Company Filings and Wall Street consensus estimates for 2012E. PROTECT YOUR INVESTMENT Demand Better Stock Performance from Your Board IGT's share price has also declined in the short term: over the past two years, the stock has declined from \$17.17 to \$15.37, representing a 10.5% decline. The decline was 30.8% if measured to September 6, 2012 when AIM first expressed concern to IGT regarding its performance. Between September 6, 2012 – when we first voiced our concerns to the company – and January 31, 2013, ALL shareholders have enjoyed a 22.8% increase in stock price.

PROTECT YOUR INVESTMENT IGT's Core Slot Machines and Systems Business is the Lever to Drive Shareholder Value

Leading Innovation: Being the industry's innovation leader in game content and functionality

Lack of recent "breakthrough" products

Inability to convince customers that new central server technology should spur replacement

Slot managers indicate IGT would get about 39% of a new casino's slot floor vs. 48% installed base currently (1)

Focus on "new technology" businesses

Focusing on the Core Business : Relentlessly focus on its core business

\$625M invested to - date in businesses that distract focus from core business of supplying casino customers

Intentions to directly compete with customers are unclear

Focusing on Providing a Strong Value Proposition: Understanding casino operators' needs and providing differentiated content to their players

Since 2009, only 35% - 46% of casino operators believed that IGT machines deliver the highest win per machine (1)

Social gaming and online strategy may be viewed as competitive by major customers

Capitalizing on Internal Opportunities and Improvements in the Replacement Cycle: Utilize IGT's core strengths to position itself for an upturn – when it comes

The Company must address current deficiencies to reposition itself as the market leader in the industry through: (1): Goldman Sachs' "2012 Slot Managers Survey" (2): JP Morgan research report dated January 2012 14

REPLACEMENT CYCLE Replacement Cycles have historically been driven by “incremental” technology as opposed
to wholesale changes in business models. IGT has been historically focused on driving the replacement cycle as the
innovator of this “incremental” technology. As an innovator, IGT has spurred replacement cycles: • 1984: Pioneered
computerized player tracking (now IGT Advantage) • 1986: Debuts the first wide - area progressive slot, Nevada
Megabucks • 1993: Introduces electronic bill acceptors • 1996: Pioneers multi - denomination technology • 2000: Debuts
