EXCHANGE ACT OF 1934 Date of event requiring this shell company report**

For the fiscal year ended March 31, 2006

Commission file number 001-15190

Satyam Computer Services Limited

(Exact Name of Registrant as Specified in Its Charter)

N/A

(Translation of Registrant's Name Into English)

Republic of India

(Jurisdiction of Incorporation or Organization)

Satyam Technology Center
Bahadurpally Village
Qutbullapur Mandal, R.R. District- 500855
Hyderabad, Andhra Pradesh
India

(91) 40-5523 3505

(Address and Telephone Number of Principal Executive Offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act: None
Securities registered or to be registered pursuant to Section 12(g) of the Act:
American Depositary Shares, each represented by two Equity Shares, par value Rs.2 per share.
(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:
None

(Title of Class)

Indicate by checkmark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report: 324,449,539 equity shares, including 64,680,600 underlying equity shares for 32,340,300 ADSs, were issued and outstanding as of March 31, 2006.

If this report is an annual or transition report, indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligation under those Sections. Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes No

CURRENCY OF PRESENTATION AND CERTAIN DEFINED TERMS

Unless otherwise stated in this Annual Report or unless the context otherwise requires, references in this Annual Report on Form 20-F, or Annual Report , to we, our, us, Satyam and our company are to Satyam Computer Services Limited and its consolidated subsidiaries and other consolidated entities.

In this Annual Report, references to US , Dollars or the United States are to the United States of America, its territories and its possessions. References to India are to the Republic of India. References to \$, Dollars or U.S. dollars are to the legal currency of the United States, and references to Rs., rupees or Indian rupees are to the legal currency of India. References to a particular fiscal year are to our fiscal year ended March 31 of such year.

For your convenience, this Annual Report contains translations of some Indian rupee amounts into U.S. dollars which should not be construed as a representation that those Indian rupee or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or Indian rupees, as the case may be, at any particular rate, the rate stated below, or at all.

Except as otherwise stated in this Annual Report, all translations from Indian rupees to U.S. dollars contained in this Annual Report have been based on the noon buying rate in the City of New York on March 31, 2006 for cable transfers in Indian rupees as certified for customs purposes by the Federal Reserve Bank of New York. The noon buying rate on March 31, 2006 was Rs. 44.48 per \$1.00.

Information contained in our websites, including our corporate website, www.satyam.com, is not part of this Annual Report.

FORWARD-LOOKING STATEMENTS MAY PROVE INACCURATE

IN ADDITION TO HISTORICAL INFORMATION, THIS ANNUAL REPORT CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933, AS AMENDED, AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED. THE FORWARD-LOOKING STATEMENTS CONTAINED HEREIN ARE SUBJECT TO RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE REFLECTED IN THE FORWARD-LOOKING STATEMENTS. FACTORS THAT MIGHT CAUSE SUCH A DIFFERENCE INCLUDE, BUT ARE NOT LIMITED TO, THOSE DISCUSSED IN THE SECTION ENTITLED ITEM 3. KEY INFORMATION RISK FACTORS , ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS AND ELSEWHERE IN THIS ANNUAL REPORT. YOU ARE CAUTIONED NOT TO PLACE UNDUE RELIANCE ON THESE FORWARD-LOOKING STATEMENTS, WHICH REFLECT MANAGEMENT'S ANALYSIS ONLY AS OF THE DATE OF THIS ANNUAL REPORT. IN ADDITION, YOU SHOULD CAREFULLY REVIEW THE OTHER INFORMATION IN THIS ANNUAL REPORT AND IN OUR QUARTERLY REPORTS AND OTHER DOCUMENTS FILED WITH THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION, OR SEC, FROM TIME TO TIME. OUR FILINGS WITH THE SEC ARE AVAILABLE ON ITS WEBSITE, WWW.SEC.GOV.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION**Selected Financial Data**

You should read the following selected consolidated historical financial data in conjunction with our financial statements and the related notes and Item 5. Operating and Financial Review and Prospects included elsewhere in this Annual Report. The statement of operations data for the five years ended March 31, 2006 and the balance sheet data as of March 31, 2006, 2005, 2004, 2003 and 2002 are derived from our consolidated audited financial statements including the notes, which have been prepared and presented in accordance with U.S. GAAP. As of December 9, 2002, we ceased to hold a controlling interest in Sify Limited, or Sify, and subsequently changed the method of accounting for our interest in Sify from the consolidated accounting method to the equity method. Consequently, financial data as of March 31, 2005, 2004 and 2003 and for the year ended March 31, 2006, 2005 and 2004 reflect our interest in Sify accounted for under the equity method and are not comparable to the financial data as of March 31, 2002 and for the years ended March 31, 2003, and 2002 which reflect our interest in Sify accounted for on a consolidated basis. On May 12, 2005, we acquired a 75% interest in Citisoft Plc and on October 1, 2005, we acquired 100% of the shares of Knowledge Dynamics Pte Ltd. On November 9, 2005, we sold our entire 31.6% stake in Sify as a result of which Sify ceased to be our associate company. As a result of the above, financial data as of March 31, 2006 and for the year ended March 31, 2006 are not comparable to financial data as of March 31, 2005, 2004, 2003 and 2002 and for the years ended March 31, 2005, 2004, 2003 and 2002.

SFAS 142 pro forma disclosure

Effective April 1, 2002, Satyam adopted Statement of Financial Accounting Standards No. 142 (SFAS 142), *Goodwill and Other Intangible Assets*. Due to the adoption of SFAS 142, Satyam ceased amortizing goodwill. The effect of this accounting change is reflected prospectively. The following pro forma disclosure presents the impact of SFAS 142 on net income, net income per share, and the related tax effect had the standard been in effect for the year ended March 31, 2002:

	Year Ended March 31, 2002
	(dollars in millions except per share amount)
Reported net income	\$ 42.4
Add:	
Goodwill amortization	17.0
Amortization of excess of cost of investment over equity in net assets of associated companies	3.6
Adjusted net income	\$ 63.0
Basic and diluted earnings per share:	
As reported	\$ 0.14
As adjusted	0.21

Table of Contents**Risk Factors**

Any investment in our ADSs involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information contained in this Annual Report, before you decide to buy our ADSs. If any of the following risks actually occur, our company could be seriously harmed. In any such case, the market price of our ADSs could decline, and you may lose all or part of the money you paid to buy our ADSs.

Risks Related to Our Overall Operations

Our revenues and profitability are difficult to predict and can vary significantly from period to period which could cause our share price to decline significantly.

Our revenues and profitability have grown rapidly in recent years and may fluctuate significantly in the future from period to period. Therefore, we believe that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as an indication of our future performance. The quarterly fluctuation of revenues is primarily because we derive our revenues from fees for services generated on a project-by-project basis. Our projects vary in size, scope and duration. For example, we have some projects that employ several people for only a few weeks and we have other projects that employ over 100 people for six months or more. A customer that accounts for a significant portion of our revenue in a particular period may not account for a similar portion of our revenue in future periods. In addition, customers may cancel contracts or defer projects at any time for a number of different reasons. Furthermore, increasing wage pressures, employee attrition, pressure on billing rates, the time and expense needed to train and productively utilize new employees and changes in the proportion of services rendered offshore can affect our profitability in any period. There are also a number of factors, other than our performance, that are not within our control that could cause fluctuations in our operating results from period to period. These include (i) the duration of tax holidays or tax exemptions and the availability of other Government of India incentives; (ii) currency fluctuations, particularly when the rupee appreciates in value against the U.S. dollar, since the majority of our revenues are in U.S. dollars and a significant part of our costs are in rupees; and (iii) other general economic and political factors. As a result, our revenues and our operating results in a particular period are difficult to predict, may decline in comparison to corresponding prior periods regardless of the strength of our business. If this were to occur, the share price of our equity shares and our ADSs would likely decline significantly.

Any inability to manage our rapid growth could disrupt our business and reduce our profitability.

We have experienced significant growth in recent periods. In fiscal 2006 our total revenues increased by 38.1% as compared to fiscal 2005, and in fiscal 2005 our total revenues increased by 40.1% as compared to fiscal 2004. As of March 31, 2006, we had 28,624 employees, whom we refer to as associates, worldwide as compared to 20,690 associates as of March 31, 2005. In addition, we are continuing our geographical expansion. We have offshore facilities in India and overseas facilities located in Australia, Canada, China, Hungary, Japan, Malaysia, Singapore, United Arab Emirates, United Kingdom and United States. In addition, we have sales and marketing offices located in Canada, Germany, Italy, the Netherlands, Spain, Sweden, United Kingdom and United States and sales and marketing offices located in the rest of the world.

We expect our growth to place significant demands on our management and other resources and to require us to continue to develop and improve our operational, financial and other internal controls, both in India and elsewhere. In particular, continued growth increases the challenges involved in:

recruiting and retaining sufficiently skilled technical, marketing and management personnel;

providing adequate training and supervision to maintain our high quality standards;

preserving our culture and values and our entrepreneurial environment; and

developing and improving our internal administrative infrastructure, particularly our financial, operational, communications and other internal systems.

Table of Contents

Our inability to manage our growth effectively could disrupt our business and reduce our profitability.

The current economic environment, pricing pressure and rising wages in India have negatively impacted our revenues and operating results.

Spending on IT in most parts of the world has recently increased after a two-year decreasing trend due to a challenging global economic environment. We do experience pricing pressures from our customers, which can negatively impact our operating results. If economic growth slows, our utilization and billing rates for our associates could be adversely affected which may result in lower gross and operating profits.

Wage costs in India, including in the IT services industry, have historically been significantly lower than wage costs in the United States and Europe for comparably skilled professionals, which has been one of our competitive advantages. However, large companies are establishing offshore operations in India, resulting in wage pressures for Indian companies, which may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Wages in India are increasing at a faster rate than in the United States, which could result in increased cost of IT professionals, particularly project managers and other mid-level professionals. We may need to increase the levels of our employee compensation more rapidly than in the past to remain competitive with other employers, or seek to recruit in other low labor cost jurisdictions to keep our wage costs low. Compensation increases may result in a material adverse effect on our financial performance.

Our business will suffer if we fail to anticipate and develop new services and enhance existing services in order to keep pace with rapid changes in technology and the industries on which we focus.

The IT services market is characterized by rapid technological change, evolving industry standards, changing customer preferences and new product and service introductions. Our future success will depend on our ability to anticipate these advances and develop new product and service offerings to meet customer needs and complement our offerings of end-to-end IT services. For example, we have invested significant resources in research and development efforts, such as in our enterprise business solution laboratory and grid computing laboratory, in order to continually develop capabilities to provide new services to our customers. Should we fail to develop such capabilities on a timely basis to keep pace with the rapidly changing IT market or if the services or technologies that we develop are not successful in the marketplace, our business and profitability will suffer and it is unlikely that we would be able to recover our research and development costs. Moreover, products, services or technologies that are developed by our competitors may render our services non-competitive or obsolete.

Our revenues are highly dependent on customers primarily located in the United States and customers concentrated in certain industries, and economic slowdowns or factors that affect the economic health of the United States and our customers industries may affect our business.

In fiscal 2006, 2005 and 2004, approximately 64.9%, 68.3% and 73.3%, respectively, of our total revenues were derived from the United States. For the same periods, we earned 28.6%, 29.2% and 32.0% of our IT revenues from the manufacturing industry and 18.5%, 17.8% and 18.3%, of our IT revenues from the banking and finance industry respectively. If the current economic recovery in the United States does not continue, our customers may reduce or postpone their technology spending significantly, which may in turn lower the demand for our services and negatively affect our revenues and profitability. Further, any significant decrease in the growth of the manufacturing or banking and finance industries, or significant consolidation in these industries, or other industry segments on which we focus, may reduce the demand for our services and negatively affect our revenues and profitability.

Recently, some countries and organizations have expressed concerns about a perceived association between offshore outsourcing and the loss of jobs. In the United States, in particular, there has been increasing political and media attention on these issues following the growth of offshore outsourcing. Any changes in existing laws or the enactment of new legislation restricting offshore outsourcing may adversely impact our ability to do business in the United States, which is the largest market for our services. In the recent past, some U.S. states have proposed legislation restricting government agencies from outsourcing their back office processes and IT solutions work

Table of Contents

to companies outside the United States or have enacted laws that limit or to discourage such outsourcing. Such laws restrict our ability to do business with U.S. government- related entities. It is also possible that U.S. private sector companies working with these governmental entities may be restricted from outsourcing projects related to government contracts or may face disincentives if they outsource certain projects. Any of these events could adversely affect our revenues and profitability. Similarly, recent legislation has come into effect in the United Kingdom in April 2006 requiring in certain circumstances offshore outsourcing providers have to compensate U.K. employees for loss of jobs arising from the offshore migration of business processes.

We face intense competition in the IT services and BPO markets which could prevent us from attracting and retaining customers and could reduce our revenues.

The markets for IT services and BPO are rapidly evolving and highly competitive, and we expect that competition will continue to intensify. We face competition in India and elsewhere from a number of companies, including:

consulting firms such as Accenture, BearingPoint, Capgemini and Deloitte Consulting;

divisions of large multinational technology firms such as Hewlett-Packard and IBM;

IT outsourcing firms such as Computer Sciences Corporation, Electronic Data Systems and IBM Global Services; and

offshore IT services firms such as Infosys Technologies Limited, Tata Consultancy Services Limited and Wipro Limited.

We also compete with software firms such as Oracle and SAP, service groups of computer equipment companies, in-house IT departments of large corporations, programming companies and temporary staffing firms. Nipuna, through which we provide BPO services, faces competition from firms like Progeon Limited and Wipro BPO, formerly known as Wipro Spectramind.

In addition, we have agreed not to compete with Nipuna as part of the investor rights and securities subscription agreements which we have entered into with Nipuna's two other investors. Pursuant to these agreements, we and our affiliates are restricted from engaging in activities that are or could directly or indirectly be competitive with the business of Nipuna. Such activities include among others providing BPO, soliciting existing or prospective customers of Nipuna to obtain the services offered by Nipuna from other service providers and investing in companies engaged in the same or similar business as Nipuna. These non-compete restrictions apply until the investors redeem all of their preference shares in Nipuna or their equity interest in Nipuna falls below 5% after an initial public offering. As a consequence, we currently offer and plan to continue to offer BPO services only through Nipuna. We cannot assure you that these non-compete restrictions will not adversely affect our ability to attract and retain customers in this competitive market or that they will not adversely affect our revenues.

A significant part of our competitive advantage has historically been the cost advantage relative to service providers in the United States and Europe. Since wage costs in this industry in India are presently increasing at a faster rate than those in the United States and Europe, our ability to compete effectively will become increasingly dependent on our reputation, the quality of our services and our expertise in specific markets. Many of our competitors have significantly greater financial, technical and marketing resources and generate greater revenues than us, and we cannot assure you that we will be able to compete successfully with such competitors and will not lose existing customers to such competitors. We believe that our ability to compete also depends in part on a number of factors outside our control, including the ability of our competitors to attract, train, motivate and retain highly skilled technical associates, the price at which our competitors offer comparable services and the extent of our competitors' responsiveness to customer needs.

Our revenues are highly dependent upon a small number of customers.

We derive a significant portion of our revenues from a limited number of corporate customers. In fiscal 2006, 2005 and 2004, our largest customer together with its affiliates, accounted for 8.8%, 10.8% and 14.3%, respectively, of our total revenues. In fiscal 2006, 2005 and 2004, our second largest customer accounted for 5.1%, 7.4% and 9.9%, respectively, of our total revenues. In fiscal 2006, 2005 and 2004, our five largest customers accounted for 24.2%,

29.2% and 36.4%

Table of Contents

respectively, of our total revenues. The volume of work performed for specific customers is likely to vary from year to year, particularly since we are usually not the exclusive outside service provider for our customers.

There are a number of factors other than our performance that could cause the loss of a customer and that may not be predictable. In certain cases, we have significantly reduced the services provided to a customer when the customer either changed its outsourcing strategy by moving more work in-house or replaced its existing software with packaged software supported by the licensor. Some customers could also potentially develop competing offshore IT centers in India and as a result, work that may otherwise be outsourced to us may instead be performed in-house. Reduced technology spending in response to a challenging economic or competitive environment may also result in lower revenues or loss of a customer. If we lose one of our major customers or one of our major customers significantly reduces its volume of business with us, our revenues and profitability could be reduced.

Our fixed-price contracts expose us to additional risks, many of which are beyond our control, which may reduce the profitability of these contracts.

As a core element of our business strategy, we offer a portion of our services on a fixed-price basis, along-with a time-and-materials basis. In fiscal 2006, 2005 and 2004, we derived 35.1%, 34.2% and 31.7%, respectively, of our IT services revenues from fixed-price contracts. Although we use our software engineering processes and past project experience to reduce the risks associated with estimating, planning and performing fixed-price projects, we bear the risk of cost overruns, completion delays and wage inflation in connection with these projects. We may also have to pay damages to our customers for completion delays. Many of these project risks may be beyond our control. Our failure to accurately estimate the resources and time required for a project, future wage inflation and currency exchange rates, or our failure to complete our contractual obligations within the time frame committed could reduce the profitability of our fixed-price contracts.

Our customers may terminate projects before completion or choose not to renew contracts, many of which are terminable at will, which could adversely affect our profitability.

Our contracts with customers do not commit our customers to provide us with a specific volume of business and can typically be terminated by our customers with or without cause, with little or no advance notice and without penalty. Any failure to meet a customer's expectations could result in a cancellation or non-renewal of a contract. Additionally, our contracts with customers are typically limited to a specific project and not any future work. Our multi-year contracts will be due for renewal from time to time, and we cannot assure you that our customers will choose to renew such contracts for a similar or longer duration, on terms as favorable as their current terms or at all. Other than our performance, there are also a number of factors not within our control that could cause the loss of a customer. Our customers may demand price reductions, change their outsourcing strategy by moving more work in-house or to one of our competitors, or replace their existing software with packaged software supported by licensors, any of which could reduce our revenue and profitability.

A number of our customer contracts are conditioned upon our performance, which, if unsatisfactory, could result in less revenues than previously anticipated.

We continue to consider the viability of introducing performance-based or variable-pricing contracts. Should we increase our use of value-based pricing terms, it will become more difficult for us to predict the revenues we will receive from our customer contracts, as such contracts would likely contain a higher number of contingent terms for payment of our fees by our customers. Our failure to meet contract goals or a customer's expectations in such performance-based contracts may result in lower revenues, and a less profitable or an unprofitable engagement.

Table of Contents***Some of our multi-year customer contracts contain certain provisions which, if triggered, could result in lower future revenues and profitability under the contract.***

Some of our multi-year customer contracts contain benchmarking provisions, most favored customer clause and/or provisions restricting personnel from working on projects of our customers' competitors. Benchmarking provisions allow a customer in certain circumstances to request a benchmark study prepared by an agreed upon third-party comparing our pricing, performance and efficiency gains for delivered contract services with that of an agreed list of other service providers for comparable services. Based on the results of the benchmarking study and depending on the reasons for any unfavorable variance, we may be required to make improvements in the services we provide or to reduce the pricing for services to be performed under the balance term of the contract, which may result in lower future revenues and profitability under the contract.

Most favored customer clauses generally provide that if, during the term of the contract, we were to offer similar services to any other customers on terms and conditions more favorable than those provided in such contract, we would be obligated to offer equally favorable terms and conditions to the customer. As pricing pressures increase, some customers may demand price reductions or other pricing incentives. Any pricing reduction agreed to in a subsequent contract may require us to offer equally favorable terms to other customers with whom we have a most favored contract under the remaining term of contracts with those customers which may result in lower future revenues and profitability.

A number of our customer contracts provide that, during the term of the contract and for a certain period thereafter ranging from six to twelve months, we may not provide similar services to any of their competitors using the same personnel. This restriction may hamper our ability to compete for and provide services to customers in the same industry, which may result in lower future revenues and profitability.

We may be unable to attract skilled professionals in the competitive labor market.

Our ability to execute projects and to obtain new customers depends largely on our ability to attract, train, motivate and retain highly skilled technical associates, particularly project managers, project leaders and other senior technical personnel. We believe that there is significant competition for technical associates who possess the skills needed to perform the services that we offer. An inability to hire and retain additional qualified personnel will impair our ability to bid for or obtain new projects and to continue to expand our business. Also, we cannot assure you that we will be able to assimilate and manage new technical associates effectively. In fiscal 2006, 2005 and 2004, we experienced associate attrition in the IT services segment at a rate of 19.2%, 16.5% and 17.5%, respectively. Any increase in our attrition rates, particularly the attrition rate of experienced software engineers, project managers and project leaders, could harm our growth strategy. We cannot assure you that we will be successful in recruiting and retaining a sufficient number of replacement technical associates with the requisite skills to replace those technical associates who leave. Further, we cannot assure you that we will be able to redeploy and retrain our technical associates to keep pace with continuing changes in evolving technologies and changing customer preferences. Should we be unable to successfully recruit, retain, redeploy or retrain our technical associates, we may become less attractive to potential customers and may fail to satisfy the demands of existing customers, which would result in a decrease in revenues and profitability.

We dedicate significant resources to develop international operations which may be more difficult to manage and operate.

In addition to our offshore IT centers in India, we have established IT centers in Australia, Canada, China, Hungary, Japan, Malaysia, Singapore, United Arab Emirates, United Kingdom and United States and plan to open additional international facilities. Because of our limited experience in managing and operating facilities outside of India, we are subject to additional risks related to our international expansion strategy, including risks related to complying with a wide variety of national and local laws, restrictions on the import and export of certain technologies and multiple and possibly overlapping tax structures. In addition, we may face competition in other countries from companies that may have more experience with local conditions or with international operations generally. We may also face difficulties integrating new facilities in different countries into our existing operations, as well as integrating employees that we hire in different countries into our existing corporate culture.

Table of Contents***We are investing substantial cash assets in new facilities and physical infrastructure and our profitability could be reduced if our business does not grow proportionately.***

As of March 31, 2006, we had contractual commitments of approximately \$26.7 million for capital expenditures, and we estimate spending a further \$75.0 million until March 2007. We may encounter cost overruns or project delays in connection with new facilities. These expansions will significantly increase our fixed costs. If we are unable to grow our business and revenues proportionately, our profitability will be reduced.

Restrictions on immigration may affect our ability to compete for and provide services to customers in the United States and in other countries, which could hamper our growth and cause our revenues to decline.

The vast majority of our employees are Indian nationals. Most of our projects require a portion of the work to be completed at the customer's location which is typically outside India. The ability of our associates to work in the United States, Europe and in other countries outside India depends on the ability to obtain the necessary visas and work permits. As of March 31, 2006, the majority of our associates located outside India were in the United States and held either H-1B visas, allowing the employee to remain in the United States during the term of the work permit and work as long as he or she remains an employee of the sponsoring firm, or L-1 visas, allowing the employee to stay in the United States only temporarily. Although there is no limit to new L-1 visas, there is a limit to the aggregate number of new H-1B visas that the U.S. Citizenship and Immigration Services, or CIS, may approve in any government fiscal year. The recent 2005 Appropriations Bill further precludes foreign companies from obtaining L-1 visas for employees with specialized knowledge: (1) if such employees will be stationed primarily at the worksite of another company in the U.S. and the employee will not be controlled and supervised by his employer, or (2) if the placement is essentially an arrangement to provide labor for hire rather than in connection with the employee's specialized knowledge. The CIS has also issued new guidelines to more closely verify the qualifying criteria to restrict the liberal usage of L1 visas. Immigration laws in the United States may also require us to meet certain levels of compensation and to comply with other legal requirements including labor certifications as a condition to obtaining or maintaining work visas for our associates working in the United States. The CIS announced on August 10, 2005 that it had received sufficient applications to fill up all 65,000 visas that were available for the year. In November 2005, the CIS announced that it was considering increasing the H1B by adding another 30,000 visas; however this has not yet happened.

Immigration laws in the United States and in other countries are subject to legislative change, as well as to variations in standards of application and enforcement due to political forces and economic conditions. It is difficult to predict the political and economic events that could affect immigration laws, or the restrictive impact they could have on obtaining or monitoring work visas for our employees. Our reliance on work visas for a significant number of employees makes us particularly vulnerable to such changes and variations as it affects our ability to staff projects with associates who are not citizens of the country where the work is to be performed. As a result, we may not be able to obtain a sufficient number of visas for our employees or may encounter delays or additional costs in obtaining or maintaining the condition of such visas.

We may engage in acquisitions, strategic investments, strategic partnerships or alliances or other ventures that may or may not be successful.

We may acquire or make strategic investments in complementary businesses, technologies, services or products, or enter into strategic partnerships or alliances with third parties in order to enhance our business. It is possible that we may not be able to identify suitable acquisitions targets and candidates for strategic investments or partnerships, or if we do identify such targets or candidates, we may not be able to complete those transactions on terms commercially acceptable to us, or at all. The inability to identify suitable acquisition targets or investments or the inability to complete such transactions may affect our competitiveness and our growth prospects. As of the date of this document, we have no agreements or understanding to enter into any material acquisition, investment, partnership, joint venture or alliance.

If we acquire a company, we could have difficulty in assimilating that company's personnel, operations, technology and software. In addition, the key personnel of the acquired company may decide not to work for us. In some cases, we could have difficulty in integrating the acquired products, services or technologies into our operations. These difficulties could disrupt our ongoing

Table of Contents

business, distract our management and employees and increase our expenses.

We may make strategic investments in early-stage technology start-up companies in order to gain experience in or exploit niche technologies. However, our investments may not be successful. The lack of profitability of any of our investments could have a material adverse effect on our operating results.

System failure could disrupt our business.

To deliver our services to our customers, we must maintain a high speed network of satellite, fiber optic and land lines and an active voice and data communications 24 hours a day between our main offices in Hyderabad, our other IT centers in India and globally and the offices of our customers worldwide. Any systems failure or a significant lapse in our ability to transmit voice and data through satellite and telephone communications could result in lost customers and curtailed operations which would reduce our revenue and profitability.

We may be liable to our customers for damages caused by disclosure of confidential information or system failure.

We are often required to collect and store sensitive or confidential customer and consumer data. Many of our customer agreements do not limit our potential liability for breaches of confidentiality. If any person, including any of our employees, penetrates our network security or misappropriates sensitive data, we could be subject to significant liability from our customers or from our customers' clients for breaching contractual confidentiality provisions or privacy laws. Unauthorized disclosure of sensitive or confidential customer and consumer data, whether through breach of our computer systems, system failure or otherwise, could damage our reputation and cause us to lose customers. Many of our contracts involve projects that are critical to the operations of our customers' businesses and provide benefits which may be difficult to quantify. Any failure in a customer's system or breaches of security could result in a claim for substantial damages against us, regardless of our alleged responsibility for such failure. Generally, we attempt to limit our contractual liability for consequential damages in rendering our services; however these limitations on liability may be unenforceable in some cases, or may be insufficient to protect us from liability for damages. In respect of some of our contracts, we sub-contract a part of the work to certain sub-contractors. We are liable to our customers for any breach or non-performance by our sub-contractors under the sub-contracts. We maintain general liability insurance coverage, including coverage for errors and omissions; however this coverage may not continue to be available on reasonable terms and may be unavailable in sufficient amounts to cover one or more large claims. Further, an insurer might disclaim coverage as to any future claim. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a large deductible or co-insurance requirement, could adversely affect our operating results and profitability.

Our success depends in large part upon our management team and key personnel and our ability to attract and retain them.

We are highly dependent on the senior members of our management team. Our future performance will be affected by any disruptions in the continued service of these persons. We do not maintain key man life insurance for any of the senior members of our management team or other key personnel, except for our chief executive officer. Competition for senior management in our industry is intense, and we may not be able to retain such senior management personnel or attract and retain new senior management personnel in the future. The loss of any member of our senior management team or other key personnel may have a material adverse effect on our business, results of operations and financial condition.

Our insiders are significant shareholders, are able to control the election of our board and may have interests which conflict with those of our shareholders or holders of our ADSs.

Our executive officers and directors, together with members of their immediate families, beneficially owned, in the aggregate approximately 8.59% of our outstanding equity shares as of March 31, 2006. As a result, acting together, this group has the ability to exercise significant control over most matters requiring our shareholders' approval, including the election and removal of directors and significant corporate transactions. These insider shareholders may exercise control even if they are opposed by our other shareholders. Without the consent of these insider

Table of Contents

shareholders, we could be delayed or prevented from entering into transactions (including the acquisition of our company by third parties) that may be viewed as beneficial to the Company and all of the shareholders.

Our financial results are impacted by the financial results of entities that we do not control.

As of March 31, 2006, we have a significant, non-controlling interests in Satyam Venture Engineering Services Private Limited, or Satyam Venture, and CA Satyam ASP Private Limited, or CA Satyam, that are accounted for under U.S. GAAP using the equity method of accounting. Under this method, we are obligated to report as Equity in earnings (losses) of associated companies, net of taxes a pro-rata portion of the financial results of any such company in our statement of operations even though we do not control such company but have the ability to exercise certain influence over their operating and financial policies. Thus, our reported results of operations can be significantly higher or lower depending on the results of Satyam Venture and CA Satyam or other companies in which we may make similar investments even though we may have only a limited ability to influence their activities. We may also be required to record additional impairment charges in their carrying value if we deem the investment to be impaired due to adverse events, many of which are outside of our control, on their business, results of operations and financial condition in future periods. Currently, we make estimates in the preparation of financial statements including the utility of goodwill. Changes in such estimates resulting from events, many of which are outside of our control, may result in the impairment of goodwill which would negatively impact our net income under U.S. GAAP. Such impact on net income may result in a reduction of the market value of our shares.

The value of our interest in our subsidiaries may decline.

Nipuna, our subsidiary, has experienced losses during each year since its inception and it is likely that it will continue to experience such losses in the future. Our recently acquired subsidiaries, Citisoft and Knowledge Dynamics have also experienced losses since our acquisition and they may also incur losses that might have an adverse effect on our operating results in future periods.

Stock-based compensation expenses may significantly reduce our net income under U.S. GAAP.

Although Satyam has suspended, except in certain cases, new grants of stock options as of April 1, 2005, our reported income under U.S. GAAP has been and will continue to be affected by the grant of warrants or options under our various employee benefit plans. Under the terms of our existing plans, some of which have outstanding obligations to grant options in future, employees are typically granted warrants or options to purchase equity shares at a substantial discount to the current market value. These grants require us to record non-cash compensation expenses under currently applicable U.S. GAAP, amortized over the vesting period of the warrants or options. Depending on the market value or fair value of our equity shares on the dates the outstanding grants were made and future grants are made, amortization of deferred stock-based compensation may contribute to reducing our operating income and net income under U.S. GAAP. Our subsidiaries also have stock option schemes which have and will continue to generate stock-based compensation expenses and have and will reduce our operating income and net income.

Table of Contents***Our earnings will be adversely affected once we change our accounting policies with respect to the expensing of stock options.***

Currently we account for share-based compensation transactions using the intrinsic value method as prescribed by Accounting Principles Board, or APB, Opinion No. 25, *Accounting for Stock Issued to Employees*, and have adopted the pro forma disclosure provisions of the Statement of Financial Accounting Standard, or SFAS No. 123, *Accounting for Stock-Based Compensation*. On December 16, 2004, the FASB issued FAS 123R, *Share-Based Payment, an amendment of FASB Statements No. 123 and 95*, which requires that such transactions be accounted for using a fair-value-based method and recognized as expenses in our consolidated statement of operations. As of the required effective date, the standard requires that the modified prospective method be used, which requires that the fair value of new awards granted from the beginning of the year of adoption (plus unvested awards at the date of adoption) be expensed over the vesting period. In addition, the statement encourages the use of the binomial approach to value stock options, which differs from the Black-Scholes option pricing model that we currently use in the footnotes to our consolidated financial statements. Many companies have or are in the process of changing their accounting policies to expense the fair value of stock options. This change in the accounting policy with respect to the treatment of employee stock option grants will adversely affect our earnings and will have a significant impact on our consolidated statement of operations as we will be required to expense the fair value of our stock option grants rather than expensing the intrinsic value of stock options as is our current practice. FAS 123R has become applicable to Satyam for annual periods beginning after June 15, 2005. Management estimates the likely impact of SFAS 123R to be similar to the amounts disclosed as pro forma disclosures in accordance with SFAS 123.

Compliance with new and changing corporate governance and public disclosure requirements adds uncertainty to our compliance policies and increases our costs of compliance.

Changing laws, regulations and standards relating to accounting, corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new U.S. Securities and Exchange Commission, or SEC, regulations, the NYSE, rules, Securities and Exchange Board of India, or SEBI, rules, and Indian stock market listing regulations are creating uncertainty for companies like ours. These new or changed laws, regulations and standards may lack specificity and are subject to varying interpretations. Their application in practice may evolve over time, as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs of compliance as a result of ongoing revisions to such corporate governance standards.

In particular, our efforts to comply with Section 404 of the Sarbanes-Oxley Act of 2002 and the related regulations regarding our required assessment of our internal controls over financial reporting and our external auditors' audit of that assessment requires the commitment of significant financial and managerial resources. We consistently assess the adequacy of our internal controls over financial reporting, remediate any control deficiencies that may be identified, and validate through testing that our controls are functioning as documented. While we do not anticipate any material weaknesses or significant deficiencies, our independent auditors may be unable to issue unqualified attestation reports on management's assessment on the operating effectiveness of our internal controls over financial reporting.

Additionally, under revised corporate governance standards adopted by The Stock Exchange, Mumbai, or the BSE, and The National Stock Exchange of India Limited, or the NSE, which we collectively refer to as the Indian Stock Exchanges, we have been required to comply with additional standards from December 31, 2005. These standards include a certification by our chief executive officer and chief financial officer that they have evaluated the effectiveness of our internal control systems and that they have disclosed to our auditors and our audit committee any deficiencies in the design or operation of our internal controls of which they may become aware, as well as any steps taken or proposed to resolve the deficiencies.

We are committed to maintaining high standards of corporate governance and public disclosure, and our efforts to comply with evolving laws, regulations and standards in this regard have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities. In addition, the new laws, regulations and standards regarding corporate governance may make it more difficult for us to obtain director and officer liability insurance. Further, our board members, chief executive officer and chief financial officer could face an increased risk of personal

Table of Contents

liability in connection with their performance of duties. As a result, we may face difficulties attracting and retaining qualified board members and executive officers, which could harm our business. If we fail to comply with new or changed laws, regulations or standards of corporate governance, our business and reputation may be harmed.

As a foreign private issuer, we are subject to different U.S. securities laws and rules than a domestic issuer, which may, among other things, limit the information available to holders of our securities.

As a foreign private issuer, we are subject to requirements under the Securities Act of 1933, as amended, or Securities Act, and the Securities Exchange Act of 1934, as amended, or Exchange Act, which are different from the requirements applicable to domestic U.S. issuers. For example, our officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act and the rules there under with respect to their purchases and sales of our ordinary shares and/or ADSs. The periodic disclosure required of foreign private issuers is more limited than the periodic disclosure required of domestic U.S. issuers and therefore there may be less publicly available information about us than is regularly published by or about U.S. public companies in the United States.

Terrorist attacks or a war could adversely affect our business, results of operations and financial condition.

Terrorist attacks, such as the attacks of September 11, 2001 in the United States, and other acts of violence or war, such as the continuing conflict in Iraq, have the potential to have a direct impact on our customers. To the extent that such attacks affect or involve the United States, our business may be significantly impacted, as the majority of our revenues are derived from customers located in the United States. In addition, such attacks may make travel more difficult, may make it more difficult to obtain work visas for many of our associates who are required to work in the United States, and may effectively curtail our ability to deliver our services to our customers. Such obstacles to operate our business may increase our expenses and negatively affect the results of our operations. Many of our customers visit several IT services firms, including their offshore facilities, prior to reaching a decision on vendor selection. Terrorist threats, attacks or war could make travel to our facilities more difficult for our customers and may delay, postpone or cancel decisions to use our services.

Risks Related to Investments in Indian Companies

We are incorporated in India, and a substantial portion of our assets and our employees are located in India. Consequently, our financial performance and the market price of our ADSs will be affected by changes in exchange rates and controls, interest rates, Government of India policies, including taxation policies, as well as political, social and economic developments affecting India.

The Government of India has recently taken actions to curtail or eliminate tax benefits that we have historically benefited from.

The statutory corporate income tax rate in India is currently 30.0%. This tax rate is presently subject to a 10.0% surcharge. The amount of tax and surcharge payable is further subject to a 2.0% education cess, resulting in an effective tax rate of 33.66%. We benefit from tax incentives provided to software entities such as an exemption from payment of Indian corporate income taxes until the earlier of fiscal 2009 or 10 consecutive years of operations for software development facilities designated as Software Technology Parks, or STP units. The benefits of this tax incentive have historically resulted in our effective tax rate being well below statutory rates. The exemption for our STP units was reduced from 100% to 90% for the fiscal 2003, and is expected to expire between fiscal 2006 and fiscal 2010. Exemption for two of our STP units in Hyderabad expired during fiscal 2006. We also earn certain other foreign income and domestic income, which is taxable irrespective of the above tax exemption.

All facilities registered in the exemption program before March 31, 2001, which include all of our existing facilities in India and registrations for two new facilities which have not yet been constructed, will continue to benefit from this program under present law. Over time, as we construct additional facilities, however, the overall benefits of this tax program to our company will decrease with a consequential increase in our effective tax rate. When our tax holidays expire or terminate, our tax expense will materially increase, reducing our profitability. We cannot assure you

Table of Contents

as to what action the present or future governments of India will take regarding tax incentives for the IT industry. ***Foreign investment restrictions under Indian law may adversely impact the value of our ADSs, including, for example, restrictions that limit your ability to reconvert equity shares into ADSs, which may cause our equity shares to trade at a discount or premium to the market price of our ADSs.***

Our equity shares are listed and traded on the Indian Stock Exchanges, and they may trade on these stock exchanges at a discount or premium to the ADSs traded on the NYSE, in part because of restrictions on foreign ownership of the underlying shares.

Our ADSs are freely convertible into our equity shares under the deposit agreement governing their issuance, or the Deposit Agreement. The Reserve Bank of India, or RBI, prescribes fungibility regulations permitting, subject to compliance with certain terms and conditions, the reconversion of equity shares to ADSs provided that such equity shares are purchased from an Indian Stock Exchange through stock brokers and the actual number of ADSs outstanding after such reconversion is not greater than the original number of ADSs outstanding. If you elect to surrender your ADSs and receive equity shares, you will only be able to trade those equity shares on an Indian Stock Exchange and, under present law, it is unlikely you will be permitted to reconvert those equity shares to ADSs. Additionally, investors who exchange ADSs for the underlying equity shares and are not holders of record will be required to declare to us details of the holder of record, and the holder of record will be required to disclose the details of the beneficial owner. Any investor who fails to comply with this requirement may be liable for a fine of up to Rs.1,000 for each day such failure continues. Such restrictions on fungibility of the underlying equity shares to ADSs may cause our equity shares to trade at a discount or premium to the ADSs.

The sale of equity shares underlying the ADSs by a person not resident in India to a resident of India does not require the prior approval of the RBI, provided such sales are effected through the Indian Stock Exchanges. Any sale of such underlying equity shares by a person not resident in India to a resident of India outside of the Indian Stock Exchanges can, however, be completed without prior RBI approval, provided such equity shares are transferred based on a pricing formula established by the Indian foreign exchange laws which set a maximum price requirement for sale of such equity shares.

Regional conflicts or natural disasters in South Asia and elsewhere could adversely affect the Indian economy, disrupt our operations and cause our business to suffer.

South Asia has from time to time experienced instances of civil unrest and hostilities among neighboring countries, including between India and Pakistan. In recent years there have been military confrontations between India and Pakistan that have occurred in the region of Kashmir and along the India-Pakistan border. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a perception that investments in Indian companies involve higher degrees of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our equity shares and our ADSs, and on the market for our services. In addition, as an international company, our offshore and onsite operations may be impacted by natural disasters such as earthquakes, tsunamis, floods, disease and health epidemics. In December 2004, certain parts of India were severely affected by a tsunami triggered by an earthquake in the Indian Ocean, and in October 2005, certain parts of northern India, Pakistan and Afghanistan were severely devastated by a major earthquake. Though our operations were not affected by these disasters, we cannot guarantee that in the future our operations will not be affected by the effect such natural disasters may have on the economies of India and other countries in the region.

Political instability could seriously harm business and economic conditions in India generally and our business in particular.

During the past decade, the Government of India has pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector. Nevertheless, the role of the Indian central and state governments in the Indian economy as producers, consumers and regulators has remained significant. The general elections in 2004 for the lower house of the Indian Parliament resulted in no party winning an absolute majority and a coalition government has been formed. We cannot assure you that these liberalization policies will continue in the future. Government

Table of Contents

corruption scandals and protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting technology companies, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and our business in particular.

Currency exchange rate fluctuations may affect the value of our ADSs and our financial condition.

Our functional currency is the Indian rupee, although we transact a major portion of our business in U.S. dollars and several other currencies and accordingly face foreign currency exposure through our sales in the United States and elsewhere and purchases from overseas suppliers in U.S. dollars and other currencies. Historically, we have held a substantial majority of our cash funds in rupees. Accordingly, changes in exchange rates may have a material adverse effect on our revenues, other income, cost of services sold, gross margin and net income, which may in turn have a negative impact on our business, operating results and financial condition.

The exchange rate between the rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future. In fiscal 2006, 2005 and 2004, our U.S. dollar-denominated revenues represented 77.6%, 81.8% and 84.5%, respectively, of our total revenues. We expect that a majority of our revenues will continue to be generated in U.S. dollars for the foreseeable future and that a significant portion of our expenses, including personnel costs as well as capital and operating expenditures, will continue to be denominated in rupees. Consequently, our results of operations will be adversely affected to the extent that the rupee appreciates against the U.S. dollar. Depreciation of the rupee will result in foreign currency translation losses in respect of foreign currency borrowings, if any.

We have sought to reduce the effect of exchange rate fluctuations on our operating results by entering into foreign exchange forward and options contracts to cover a portion of outstanding accounts receivable of Satyam Computer Services. As of March 31, 2006 and 2005, we had outstanding forward and options contracts in the amount of \$216.0 million and \$301.5 million, respectively. We may not be able to purchase contracts adequate to insulate ourselves from foreign exchange currency risks. Additionally, the policies of the RBI may change from time to time which may limit our ability to hedge our foreign currency exposures adequately.

Fluctuations in the exchange rate between the rupee and the U.S. dollar will also affect the U.S. dollar conversion by our Depositary of any cash dividends paid in rupees on the equity shares represented by the ADSs. In addition, fluctuations in the exchange rate between the Indian rupee and the U.S. dollar will affect the U.S. dollar equivalent of the Indian rupee price of our equity shares on the Indian Stock Exchanges. As a result, these fluctuations are likely to affect the prices of our ADSs. These fluctuations will also affect the dollar value of the proceeds a holder would receive upon the sale in India of any equity shares withdrawn from our Depositary under the deposit agreement. We cannot assure you that holders of ADSs will be able to convert rupee proceeds into U.S. dollars or any other currency or with respect to the rate at which any such conversion could occur. In addition, our market valuation could be seriously harmed by the devaluation of the rupee if U.S. investors analyze our value based on the U.S. dollar equivalent of our financial condition and results of operations.

Our ability to acquire companies organized outside India as part of our growth strategy depends on the approval of the Government of India and/or the RBI and failure to obtain this approval could negatively impact our business.

We have developed a growth strategy based on, among other things, expanding our presence in existing and new markets and selectively pursuing joint venture and acquisition opportunities. Foreign exchange laws in India presently permit Indian companies to acquire or invest in foreign companies without any prior governmental approval if the transaction amount does not exceed 200% of the net worth of the foreign company as of the date of its most recent audited balance sheet. If consideration for the transaction is paid out of the proceeds of an American Depositary Receipt, or ADR, or Global Depositary Receipt, or GDR, sale, Indian exchange control laws do not impose any investment limits. Acquisitions in excess of the 200% net worth threshold require prior RBI approval. It is possible that any required approval from the RBI may not be obtained. Our failure to obtain approvals for acquisitions of companies organized outside India may restrict our international

Table of Contents

growth, which could negatively affect our business and prospects.

If we are unable to protect our intellectual property rights, or if we infringe on the intellectual property rights of others, our business may be harmed.

The laws of India do not protect intellectual property rights to the same extent as the laws in the United States. Further, the global nature of our business makes it difficult for us to control the ultimate destination of our products and services. The misappropriation or duplication of our intellectual property could curtail our operations or reduce our profitability.

We rely upon a combination of non-disclosure and other contractual arrangements and copyright, trade secret and trademark laws to protect our intellectual property rights. Ownership of software and associated deliverables created for customers is generally retained by or assigned to our customers, and we do not retain an interest in such software and deliverables.

We have applied for the registration of Satyam and other related marks as trademarks in India, the United States and in other jurisdictions where we carry on business. We currently require our technical associates to enter into non-disclosure and assignment of rights agreements to limit use of, access to and distribution of confidential and proprietary information. We cannot assure you that the steps taken by us in this regard will be adequate to prevent misappropriation of confidential and proprietary information or that we will be able to detect unauthorized use and take appropriate steps to enforce our intellectual property rights.

Although we believe that our services and products do not infringe upon the intellectual property rights of others, we cannot assure you that such a claim will not be asserted against us in the future. Assertion of such claims against us could result in litigation, and we cannot assure you that we would prevail in such litigation or be able to obtain a license for the use of any infringed intellectual property from a third party on reasonable commercial terms.

We expect that the risk of infringement claims against us will increase if more of our competitors are able to obtain patents for software products and processes. Any such claims, regardless of their outcome, could result in substantial cost to us and divert management's attention from our operations. In the future, litigation may be necessary to enforce our intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any infringement claim or litigation against us could therefore result in substantial costs and diversion of resources.

Indian laws limit our ability to raise capital outside India and may limit the ability of others to acquire us, which could prevent us from operating our business or entering into a transaction that is in the best interests of our shareholders.

Presently, Indian technology companies such as ours are able to raise capital outside of India without the prior approval of any Indian governmental authority through an ADR or GDR issuance or an issuance of convertible debt securities, subject with respect to convertible debt issuances to a limit of \$500 million in any fiscal year. Changes to Indian foreign exchange laws may create restrictions on our capital raising abilities. For example, a limit on the foreign equity ownership of Indian technology companies may constrain our ability to seek and obtain additional equity investment by foreign investors. In addition, these restrictions, if applied to us, may prevent us from entering into certain transactions, such as an acquisition by a non-Indian company, which might otherwise be beneficial for us and the holders of our equity shares and ADSs.

Table of Contents***Conditions in the Indian securities market may affect the price or liquidity of our equity shares and our ADSs.***

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities and the price of our equity shares has been especially volatile. The high and low prices of our shares on the BSE from fiscal 2001 until the latest practicable date are set forth in the table below.

Fiscal Year	High		Low	
	Rs	\$ equivalent	Rs.	\$ equivalent
2001	902.0	19.3	179.0	3.8
2002	331.2	6.8	111.0	2.3
2003	291.9	6.1	175.1	3.7
2004	391.0	9.0	127.3	2.9
2005	442.0	10.1	250.0	5.7
2006	862.0	19.4	364.4	8.4
2007 (Through April 21, 2006)	890.0	20.0	755.1	17.0

On April 21, 2006, the closing price of our shares on the BSE was Rs. 808.15 (\$ 18.2). For comparison purposes, these prices have been adjusted to give effect to our August 25, 2000 five-for-one stock split. The prices of our shares have been translated into U.S. dollars based on the noon-buying rate as certified by the Federal Reserve Bank of New York on the last date of each period presented.

The Indian Stock Exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies. These problems have included temporary exchange closures, the suspension of stock exchange administration, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian Stock Exchanges have, from time to time, restricted securities from trading, limited price movements and restricted margin requirements. Moreover, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment. Similar problems could occur in the future and, if they do, they could harm the market price and liquidity of our equity shares and our ADSs.

It may be difficult for you to enforce any judgment obtained in the United States against us or our affiliates.

We are incorporated under the laws of the Republic of India. Many of our directors and key managerial personnel and some of the experts named in this document reside outside the United States. In addition, virtually all of our assets and the assets of many of these persons are located outside the United States. As a result, you may be unable to:

- (i) effect service of process upon us outside India or these persons outside the jurisdiction of their residence; or
- (ii) enforce against us in courts outside of India or these persons outside the jurisdiction of their residence, judgments obtained in United States courts, including judgments predicated solely upon the federal securities laws of the United States.

We have been advised by our Indian counsel, that the United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments (other than arbitration awards) in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favor such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment which has been obtained in the United States. If and to the extent Indian courts were of the opinion that fairness and good faith so required, it would, under current practice, give binding effect to the final judgment which had been rendered in the United States unless such a judgment was founded on a claim which breached the laws of India.

You may be subject to Indian taxes arising out of capital gains on the sale of the underlying equity shares.

Table of Contents

Generally, capital gains, whether short-term or long-term, arising from the sale of the underlying equity shares in India are subject to Indian capital gains tax. For the purpose of computing the amount of capital gains subject to tax, Indian law specifies that the cost of acquisition of the equity shares will be deemed to be the share price prevailing on the BSE or the NSE on the date the Depository advises the custodian to redeem receipts in exchange for underlying equity shares. The period of holding of such equity shares, for determining whether the gain is long-term or short-term, commences on the date of the giving of such notice by our Depository to the custodian. With effect from October 1, 2004, any gains realized on the sale of listed equity shares held for more than 12 months to an Indian resident, or a non-resident investor in India, will not be subject to Indian capital gains tax if the securities transaction tax has been paid on the transaction. Investors are advised to consult their own tax advisors and to consider carefully the potential tax consequences of an investment in our ADSs.

There may be less company information available in Indian securities markets than securities markets in other countries.

There is a difference between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants and that of markets in the United States and other developed economies. SEBI is responsible for improving disclosure and other regulatory standards for the Indian securities markets. SEBI has issued regulations and guidelines on disclosure requirements, insider trading and other matters. There may, however, be less publicly available information about Indian companies than is regularly made available by public companies in developed economies.

Risk Related to our ADSs and our Trading Market

Historically, our ADSs have traded at a significant premium to the trading prices of our underlying equity shares, a situation which may not continue.

Historically, our ADSs have traded on the NYSE at a substantial premium to the trading prices of our underlying equity shares on the Indian Stock Exchanges. We believe that this price premium has resulted from the relatively small portion of our market capitalization represented by ADSs, restrictions imposed by Indian law on the conversion of equity shares into ADSs, and an apparent preference for some investors to trade U.S. dollar-denominated securities. Further, over time, some of the restrictions on the issuance of the ADSs imposed by Indian law have been relaxed and we expect that other restrictions may be relaxed in the future. As a result, the historical premium enjoyed by ADSs as compared to equity shares may be reduced or eliminated due to our sponsored ADS offering or similar transactions in the future, a change in Indian law permitting further conversion of equity shares into ADSs or changes in investor preferences.

You may be restricted in your ability to exercise preemptive rights under Indian law and thereby may suffer future dilution of your ownership position.

Under the Companies Act, 1956 of India, or the Companies Act, a company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the preemptive rights have been waived by adopting a special resolution by holders of three-fourths of the shares which are voted on the resolution. As U.S. holders of ADSs represent 19.94% of our outstanding equity shares as at March 31, 2006, you may be unable to exercise preemptive rights for equity shares underlying ADSs unless a registration statement under the Securities Act of 1933, as amended, or the Securities Act, is effective with respect to the rights or an exemption from the registration requirements of the Securities Act is available. Our decision to file a registration statement will depend on the costs and potential liabilities associated with any given registration statement as well as the perceived benefits of enabling the holders of our ADSs to exercise their preemptive rights and any other factors that we deem appropriate to consider at the time the decision must be made. We may elect not to file a registration statement relating to preemptive rights otherwise available by law to you. In the case of future issuances, the new securities may be issued to our Depository, which may sell the securities for your benefit. The value, if any, our Depository would receive upon the sale of such securities cannot be predicted. To the extent that you are unable to exercise preemptive rights granted in respect of the equity shares represented by your ADSs, your proportional interests in our company

Table of Contents

would be reduced.

Holders of ADSs may be restricted in their ability to exercise voting rights.

At our request, our Depositary will mail to you any notice of shareholders meeting received from us together with information explaining how to instruct our Depositary to exercise the voting rights of the securities represented by ADSs. If our Depositary timely receives voting instructions from you, it will endeavor to vote the securities represented by your ADSs in accordance with such voting instructions. However, the ability of our Depositary to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot assure you that you will receive voting materials in time to enable you to return voting instructions to our Depositary in a timely manner. Securities for which no voting instructions have been received will not be voted.

Under Indian law, subject to the presence in person at a shareholder meeting of persons holding equity shares representing a quorum, all resolutions proposed to be approved at that meeting are voted on by a show of hands unless a shareholder present in person and holding at least 10% of the total voting power or on which an aggregate sum of not less than Rs.50,000 has been paid-up, at the meeting demands that a poll be taken. Equity shares not represented in person at the meeting, including equity shares underlying ADSs for which a holder has provided voting instructions to our Depositary, are not counted in a vote by show of hands. As a result, only in the event that a shareholder present at the meeting demands that a poll be taken will the votes of ADS holders be counted. Securities for which no voting instructions have been received will not be voted on a poll.

As a foreign private issuer, we are not subject to the SEC's proxy rules, which regulate the form and content of solicitations by U.S.-based issuers of proxies from their shareholders. To-date, our practice has been to provide advance notice to our ADS holders of all shareholder meetings and to solicit their vote on such matters through our Depositary, and we expect to continue this practice. The form of notice and proxy statement that we have been using does not include all of the information that would be provided under the SEC's proxy rules.

An active or liquid trading market for our ADSs is not assured.

We cannot predict the extent to which an active, liquid public trading market for our ADSs will exist. Active, liquid trading markets generally result in lower price volatility and more efficient execution of buy and sell orders for investors. The lack of an active, liquid trading market could result in the loss of market makers, media attention and analyst coverage. If there is no longer a market for our equity shares, or if we fail to continue to meet eligibility requirements, we may be required to delist from the NYSE and this may cause our share prices to decrease significantly. In addition, if there is a prolonged decline in the price of our equity shares, we may not be able to issue equity securities to fund our growth, which would cause us to limit our growth or to incur higher cost funding, such as short-term or long-term debt.

Liquidity of a securities market is often a function of the volume of the underlying shares that are publicly held by unrelated parties. Although you are entitled to withdraw the equity shares underlying the ADSs from our Depositary at any time, there is no public market for our equity shares in the United States.

Table of Contents

The future sales of securities by our company or existing shareholders may harm the price of our ADSs or our equity shares.

The market price of our ADSs or our equity shares could decline as a result of sales of a large number of ADSs or equity shares or the perception that such sales could occur. Such sales also might make it more difficult for us to sell ADSs or equity securities in the future at a time and at a price that we deem appropriate. As of March 31, 2006, we had an aggregate of equity shares outstanding of 323,256,399 (excluding 1,193,140 equity shares held by the Satyam Associate Trust), which includes underlying equity shares of 64,680,600 represented by 32,340,300 ADSs. In addition, as of March 31, 2006 we had outstanding options to purchase approximately 6,057,286 of our equity shares. All ADSs are freely tradable, other than ADSs purchased by our affiliates. The remaining equity shares outstanding may be sold in the United States only pursuant to a registration statement under the Securities Act or an exemption from the registration requirements of the Securities Act, including Regulation S.

Forward-looking statements contained in this Annual Report may not be realized.

We have included statements in this Annual Report which contain words or phrases such as may, will, will likely result, believe, expect, will continue, anticipate, estimate, intend, plan, contemplate, seek to, future project, should and similar expressions or variations of such expressions, that are forward-looking statements. Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, our ability to implement our strategy and our growth and expansion.

In addition, other factors that could cause results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to, general economic and political conditions in India, Southeast Asia, and other countries which have an impact on our business activities, changes in Indian and foreign laws, regulations and taxes, changes in competition and other factors beyond our control, including the factors described in this Risk Factors section.

We do not intend to update any of the forward-looking statements after the date of this Annual Report to conform such statements to actual results.

Table of Contents**ITEM 4. INFORMATION ON THE COMPANY****Business Overview**

We are a global IT solutions provider, offering a comprehensive range of IT services to our customers including, application development and maintenance services, consulting and enterprise business solutions, extended engineering solutions and infrastructure management services. We also offer BPO services through our majority-owned subsidiary company, Nipuna. Our headquarters are located in Hyderabad, India.

We began providing IT services to businesses in 1988 and are currently the fourth largest Indian IT software and services company, based on the amount of export revenues generated during fiscal 2005. Our revenues grew to \$1,096.3 million in fiscal 2006 from \$459.2 million in fiscal 2003, representing a compound annual growth rate of 33.7%. For the same period, our net income grew from \$82.3 million to \$249.4 million. The number of our employees, whom we refer to as associates, grew from 9,838 as of March 31, 2003 to 28,624 as of March 31, 2006.

We provide services to customers from various industries including manufacturing, banking and financial services, insurance, telecommunications, infrastructure media and entertainment and semiconductors or TIMES, healthcare, retail and transportation. We believe we have the ability to develop large, long-term customer relationships, by demonstrating an understanding of our customers' business requirements through our industry expertise and by continually providing high quality services in a cost effective manner. As of March 31, 2006, we had 506 active customers, including 156 Fortune Global 500 or Fortune U.S. 500 companies and 45 companies that generated more than \$5 million in annual revenues in fiscal 2006. 90.6% of our revenues for fiscal 2006 and 92.1% of our revenues for fiscal 2005 were from repeat business given by our existing customers.

In June 2002, we established our majority-owned BPO subsidiary, Nipuna, which offers back-office transaction processing services, customer care services and product support and technical help desk services in the areas of finance and accounting, human resources, claims administration and document management. Nipuna has recently added services such as research, analytics and animation to its portfolio of service offerings. As of March 31, 2006, Nipuna had 1,765 associates and 25 customers, of which 9 were Fortune Global 500 and Fortune U.S. 500 companies.

On November 7, 2005, Satyam Computer Services offered to sell an aggregate of 11,182,600 equity shares, representing its entire investment of 31.61% of the outstanding equity shares of Sify. The sale transaction was consummated on November 9, 2005 at a sale price of US\$5.60 per equity share aggregating to US\$62.3 million. Satyam Computer Services accounted for its share of equity in earnings/(losses) of Sify under equity method of accounting upto November 9, 2005. The excess of sale proceeds (net of transaction costs) over the carrying value of investment in Sify as on the date of sale amounting to US\$43.6 million has been recognized as gain in the statement of income during the year ended March 31, 2006.

Satyam Computer Services had filed a request for arbitration with the London Court of International Arbitration (LCIA) naming Venture Global Engineering LLC, USA (VGE) as respondent. The Arbitration concerned a dispute between Satyam Computer Services and VGE in connection with their joint venture Satyam Venture Engineering Services Private Limited (SVES). The LCIA Arbitrator issued his Final Award on April 3, 2006 in favour of Satyam Computer Services. Satyam Computer Services has filed a petition to recognize and enforce the Award in the United States District Court in Michigan. VGE has separately filed a declaratory judgment action seeking to refuse enforcement of the Award in the United States District Court in Illinois.

At our Board meeting held on April 21, 2006, our board of directors recommended the issuance of bonus shares in the ratio of 1:1 (one equity share for every one share held) for all existing shares including American Depository Shares. This proposed bonus issue is subject to approval by our shareholders at the upcoming annual general meeting of shareholders, expected to be held in August 2006.

Table of Contents**Industry Overview*****Global IT Services Overview***

Global IT services spending has been estimated to total \$441.0 billion in 2005, representing an increase of approximately 5.5 % over 2004, and is projected to grow at a compound annual growth rate of 5.9% to reach \$556 billion by 2009, according to International Data Corporation.

We believe the growth of global IT services spending is driven by the following factors and trends:

Increased importance of IT to businesses. In today's increasingly competitive business environment, companies have become dependent on information technology not only to conduct day-to-day operations, but also as a strategic tool to enable them to re-engineer business processes, restructure organizations and react quickly to competitive, regulatory and technological changes. As information systems continually become more complex with the use of multiple applications and rapidly changing technologies, companies are increasingly turning to external IT service providers to develop and implement new technologies and integrate them with existing applications in which they may have already made considerable investments.

Impact of the Internet and other new technologies on business. Businesses are increasingly using the Internet to interact with new and existing customers and create new revenue opportunities. Businesses conducted electronically over the Internet extend beyond Internet-based applications to include packaged software tools, such as customer and supply chain management software, that need to be integrated with a company's enterprise systems. These initiatives are often large and difficult to manage in-house and need to keep pace with constantly evolving business processes and technological innovations leading to demand for IT services companies.

Managing and upgrading existing systems. Managing and upgrading existing systems has become critical given the importance of IT and related systems to new business initiatives. Internal IT departments often do not have the appropriate resources or breadth of skills necessary to manage or upgrade existing systems. As a result, companies are increasingly looking to external service providers to design, integrate, implement and maintain their applications based on new technologies.

Increasing trend towards offshore outsourcing. The increasing complexities and costs of IT services, together with an increasing need for highly skilled technology professionals and tightening IT budgets for companies, are driving demand for professional IT services companies who are able to provide a cost effective, high quality, comprehensive range of services. The offshore delivery model is enabling companies to increasingly outsource complex assignments and generate not only cost savings in IT services but also greater efficiencies in their business processes. In addition, companies are increasingly using the utility computing or pay for what you use model for infrastructure, data- warehousing and IT system usage, which is further fueling growth in infrastructure, network outsourcing and network management services.

Indian IT Services Industry Overview

As organizations realize the cost effectiveness of offshoring their outsourced services, they are increasingly making offshoring a part of their business strategy.

India is considered to be the most favored destination for offshore IT service delivery. The NASSCOM-McKinsey Report of 2002 estimates that export revenue generated from the software and service industry in India was approximately \$15.5 billion in 2004 and is expected to reach \$50.0 billion by 2008 representing a compound annual growth rate of 34.0%. The key factors that are expected to contribute to this growth are:

High quality delivery record. Indian companies have developed high quality delivery processes. A 2004 NASSCOM survey of international quality standards of the top 275 Indian IT services companies reported that 195 companies had acquired International Standards

Table of Contents

Organization, or ISO, 9000 quality certification. According to NASSCOM, during 2004, 74 Indian companies received a level five assessment under SEI-CMM, developed by the Carnegie Mellon University. Level five is the highest level attainable under the SEI-CMM standards, which assess an organization's quality management system and systems engineering processes and methodologies.

Large supply of English-speaking IT professionals. We believe that India ranks second only to the United States as the country with the largest population of English-speaking IT professionals. According to the NASSCOM Strategic Review 2004, educational institutes in India produce approximately 290,000 engineering students and 139,000 computer software engineers each year. Given the shortage of technical labor in the United States and other developed economies, the availability of technically skilled personnel is proving to be a competitive advantage for Indian IT service companies.

Significant cost advantage. We believe that the cost of employing IT professionals in India is significantly lower than in developed countries such as the United States. The use of high quality, low cost resources provides a significant opportunity for companies to realize cost savings by offshoring IT services to India.

Trends

The Indian IT services industry has been witnessing changes in customer demands and we believe that service providers who are best able to adapt to these changes will succeed in the long run. Some key emerging industry trends are described below:

Enhanced expectations. Increasingly, companies are expecting more value from their IT service providers than just the traditional cost advantages derived by offshoring the delivery of IT services. Companies increasingly prefer service providers that can provide strategic advice related to designing and increasing efficiencies of business processes and also assist in implementing their recommendations. Also, service providers with strong industry expertise are favored over those who can only provide strong technical skills.

Large, multi-year, end-to-end contracts. Companies are increasingly looking for IT service providers that can provide end-to-end solutions over a long period of time. In addition, companies, which have a presence across various geographies, need IT support on a global scale and often seek a single service provider that can offer a comprehensive range of services on a long-term basis across the world, and understand and integrate a wide spectrum of emerging technologies with existing systems.

Relationships with customers – key senior management. As outsourcing contracts increasingly gain strategic importance to businesses, customers' senior management teams have become more involved in outsourcing contract negotiation and monitoring. As a result, IT service providers need to ensure that their senior account managers develop strong and lasting working relationships with customers' senior management.

Performance measurement. Companies are increasingly demanding transparency in performance measurement. IT service providers with their own well developed benchmarks, frameworks and models to measure performance or demonstrate potential benefits are likely to have significant advantage over their competitors who offer more generic IT services.

Our Competitive Strengths

We believe that we are strongly placed to consolidate our market position as a leading IT service provider due to our competitive strengths which include:

Comprehensive range of services combined with specialized industry expertise. Our comprehensive range of end-to-end technology-based services encompasses application development and maintenance services, consulting and enterprise business solutions, extended engineering solutions, infrastructure management services and BPO services. Our comprehensive range of services enables us to broaden our dialogue with potential customers, deepen our relationships with existing customers and diversify our revenue base. Our services are built on a foundation of a rich understanding of the industries in which our customers operate and

the underlying technologies that drive those industries. Our industry-

Table of Contents

focused business units such as manufacturing, banking and financial services, insurance, TIMES, healthcare, retail and transportation, allow us to understand the strategic issues facing our customers. At the Gartner Global Sourcing Summit 2004, we were adjudged the winner of the Risk Management Award, a prestigious award that recognizes effectiveness in managing risk and were also declared a joint winner of the Solution Delivery Award which recognizes creativity in enhancing customers' business competitiveness. The voting for these awards was done solely by the business executives attending the summit. Our dedicated technology competency centers, which we refer to as centers of excellence, track trends in key technologies, which facilitates creation of solutions based on these technologies. Our centers of excellence work closely with the industry-focused business units in areas such as business intelligence, data warehousing, customer relationship management, product life cycle management and supply chain management to ensure that our services fulfill our customers' business objectives and IT requirements.

Flexible, highly evolved delivery model. We provide our services through 20 centers located in Australia, Canada, China, Hungary, India, Japan, Malaysia, Singapore, United Arab Emirates, United Kingdom and United States and our onsite teams operating at our customers' premises. Over the past decade, we have made substantial investments in our infrastructure, processes and systems allowing us to evolve our global delivery model to effectively integrate offshore, offsite, nearshore and onsite services and perform a greater volume of work at our offshore development centers. This delivery model seeks to provide customers with seamless solutions in reduced timeframes, enabling them to achieve operating efficiencies and realize significant cost savings. It also enables us to deliver the most appropriate mix of resources and services on a 24/7 basis. Furthermore, our robust delivery model is flexible, so that it can be adapted to respond to customer objectives relating to critical issues such as scalability and security. We continue to evolve our delivery model and believe that our customer-oriented approach and ongoing refinements represent an important competitive advantage.

Established leadership position in consulting and enterprise business solutions. Our consulting and enterprise business solutions help customers optimize their operating costs, enhance the efficiency of their business processes and improve their overall competitiveness. These solutions span the development, implementation, integration and maintenance of various enterprise-wide applications. Our solutions are enhanced by our strategic alliances with more than 60 leading technology providers such as SAP and Oracle. Our highly evolved delivery model, coupled with our industry expertise and center of excellence-driven technology competencies, allows us to provide customers with a value proposition in consulting and enterprise solutions. Over the past few years, we have made strategic investments to augment our capabilities in this area which is reflected in the growing revenues from this business. During fiscal 2006 and fiscal 2005, 39.2% and 34.3% respectively, of our revenues, was generated from consulting and enterprise business solutions.

Strong relationships with blue chip customers. We have long-standing relationships with large multinational corporations built on our successful execution of prior engagements. We believe we have significantly more Fortune Global 500 or Fortune U.S. 500 corporations as customers, relative to scale of revenue, as compared to other leading Indian IT services companies. As of March 31, 2006, 156 of our 506 customers were Fortune Global 500 or Fortune U.S. 500 corporations. Our track record of delivering comprehensive solutions based on demonstrated industry and technology expertise has helped in forging strong relationships with our major customers and gaining increased business from them. We have a history of high customer retention and derive a significant proportion of our revenue from repeat business. During fiscal 2006 and fiscal 2005, 90.6% and 92.1% respectively, of our revenues, was generated from existing customers.

Track record of high quality execution. We are committed to achieving operational excellence in our processes, people and infrastructure. Our quality assurance programs form an integral part of our project management methodology and seek to ensure that we consistently deliver high quality services to our customers. For instance, we have a company-wide quality management system, which satisfies the ISO

9001:2000 TickIT standard. We have been assessed at CMMI Level 5, the highest level possible, and have implemented the Six Sigma processes for application development and

Table of Contents

maintenance. We have also achieved domain specific certifications like AS9100/EN9100 for ES group Aerospace domain, PCMM Level 5 Assessment for Pune Location, S15000/ISO20000 certification for N&S across India and BS15000 Global Certification for IMS business.

We have a large pool of highly skilled, well-trained technical associates spanning 60 nationalities. As of March 31, 2006, we employed 26,711 technical associates in the IT services area, of which 51% had bachelor's degrees in engineering and 4% had master's degrees in engineering, technology or computer applications. Each new technical associate participates in an intensive 12 week initial training program and a minimum of 40 hours training each year on development and leadership. We continue to develop our infrastructure to make it more resilient. For instance, we have implemented ISO 27001, the internationally recognized global upgrade from BS7799 standard, which delivers a high level of information security to protect our customers' intellectual property. We have also established a comprehensive disaster recovery and business continuity model to ensure uninterrupted service availability from our global delivery network. We constantly benchmark our processes, people and infrastructure against globally recognized standards.

Culture of innovation. We have a history of innovation that is facilitated by our entrepreneurial culture and our management's willingness to make strategic investments in growth markets. We believe we were one of the pioneers in the delivery of India-based IT services. For example, we believe that we were among the earliest Indian IT service companies to set up in 1992 a dedicated satellite link between a customer's facilities and our India operations. Our technology laboratories continue to develop and bring to market new solutions based on new technologies. For instance, we are one of the few companies in India to offer utility and grid computing services to customers. We have also been innovative in our internal organization and have introduced industry leading practices in hiring, resource planning and knowledge sharing. These accomplishments and initiatives have further enhanced our brand and reputation in the marketplace.

Our Growth Strategy

Our goal is to be a leading global provider of comprehensive IT solutions and services. We intend to accomplish our goal by:

Building on our long-standing customer relationships to cross-sell our comprehensive range of services. Our goal is to build long-term sustainable business relationships with our customers to generate consistent revenues. We plan to continue to expand the scope and range of services provided to our existing customers by continuing to build our expertise in major industries and extending our capabilities into new and emerging technologies. For example, we intend to capitalize on the BPO services offered by Nipuna by cross-selling these services to our existing customers, which will enable us to secure a higher share of our customers' spending. To further strengthen our relationships and broaden the scope and range of services we provide to existing customers, our senior corporate executives have specific account management and relationship responsibilities. We have successfully established strong relationships with our customers' chief information officers and are continuing to strengthen our relationships with other key members of our customers' management teams. These strong relationships have helped us to better understand our customers' business needs and enabled us to provide effective solutions to meet these needs.

Continuing to focus on enterprise-wide business solutions and high quality value-added services. To better serve our customers in key industry segments, we intend to continue to focus on providing end-to-end enterprise-wide business solutions and increasing our share of value-added services, such as data warehousing and business intelligence, application portfolio management, process and quality consulting, business performance management, industry and regulatory specific solutions and grid computing solutions. To continue to differentiate our services and achieve recognition as a leading global provider of comprehensive IT services, we intend to continually invest in research and development and broaden our range of solution offerings as new technologies become available.

Expanding our presence in existing markets and penetrating new geographic markets. We plan to expand our presence in our existing markets and establish a presence in new geographic markets throughout North America, Europe, Latin America, and the Asia-Pacific

Table of Contents

region. We intend to accomplish this by increasing our brand visibility and leveraging our global development centers to extend our services to customers located in these geographies. We also plan to continue to hire local associates to staff and manage our global development centers and to strengthen our sales and marketing functions to facilitate building strong relationships. We believe that the use of locally hired technical associates and managers working from our global development centers will enable us to increase our market share in the local markets and compete effectively by combining local expertise with our global delivery capabilities. We expect that a wider geographical presence will also facilitate revenue generation in multiple currencies, reduce our exposure to volatility in a particular currency, and help hedge against margin erosion due to currency fluctuations.

Continuing to enhance our industry expertise. We aim to have an in-depth understanding of targeted industries including manufacturing, banking and financial services, insurance, TIMES, healthcare, retail and transportation, which will help us identify and understand customer needs and proactively design and offer customized IT solutions to address those needs. By focusing on targeted industries, we believe we can develop industry-specific solutions and services that can be leveraged effectively to deliver services within the same industry, thereby lowering our cost of delivering those services. We intend to enhance our business knowledge and competencies in the various industries that we service by hiring additional specialists with deep industry knowledge and expertise.

Attracting and retaining quality technical associates and augmenting their training. To attract, retain and motivate our technical associates, we plan to continue to provide an environment that rewards entrepreneurial initiative and performance, including competitive salaries and benefits as well as performance-linked incentives. We also intend to continue to devote significant resources to train our technical associates in a variety of software languages and computer platforms through our Satyam Learning Center.

Enhancing our capabilities through technology alliances and acquisitions. We intend to continue to explore the formation of new alliances as well as strengthen existing partnerships with key technology vendors to enable us to leverage our partners' strengths. We will also consider acquisitions to gain access to specific technologies and exploit synergies with our existing business. We regularly engage in discussions and negotiations in the ordinary course of our business relating to potential investment, technology alliances and acquisitions that would achieve these objectives.

IT Service Offerings

We offer a comprehensive range of IT services based on existing and emerging technologies that are tailored to meet the specific needs of our customers. Our IT services include:

Application development and maintenance services***Application development***

We design, develop and implement customized IT solutions software for a variety of business processes and requirements. Our solution implementations range from single-platform, single-site systems to multi-platform, multiple-site systems. A project may involve the development of a new application, customizing packaged software, enhancing the capabilities of existing software applications, upgrading a legacy solution both to suit the newer technology environments and to enhance the lifetime of such applications. Each development project typically involves the full life-cycle of software development, including, definition, prototyping, architecting, designing, piloting, programming, testing, installing and subsequent maintenance.

Application maintenance

We provide maintenance services for large software systems, including modifications and enhancements to the business functionality as well as providing production support to facilitate around the clock availability of applications spread across multiple geographies encompassing diverse technologies. We interact with the business users to map new functionalities and enhance the application systems to cater to new set of business rules. We also assist customers in migration or re-hosting to new technologies, such as Microsoft and Open systems, to extend the useful life of

existing systems. We perform most of the maintenance work at our offshore global development

Table of Contents

centers using satellite links to our customers' systems. In addition, we maintain a small team on our customers' premises to coordinate support functions. In certain instances, we utilize our offsite and nearshore development centers to coordinate these support functions with either no or minimal work at the customer's site.

Consulting and enterprise business solutions

Leveraging our alliances with independent software vendors such as Oracle, SAP and Informatica, we offer an extensive portfolio of consulting and enterprise business solutions to enhance our customers' business competitiveness. We provide solutions and services in the areas of enterprise resource planning, customer relationship management and supply chain management, data warehousing and business intelligence, knowledge management, document management and enterprise application integration to address the customer's needs and to integrate systems and processes across the organization for optimized business performance. These solutions enable our customers to strengthen relationships with their customers and business partners, create new revenue opportunities, enhance operating efficiencies and improve communication.

Extended engineering solutions

We provide extended engineering solutions to industries such as the automotive, aerospace, industrial equipment, consumer appliances and telecommunications, using computer aided design, modeling and engineering tools. Our services include mechanical designing, embedded and electronic designing, product and process analysis, product life-cycle management and range from handling basic drawing changes to delivering complex designs. Our focus is to enable our customers to realize significant cost benefits and to enable them to compete effectively in their product design and development functions.

Infrastructure management services

To address our customers' specific requests to provide infrastructure and technology support, we provide solutions and services which range from routine maintenance of hardware and software to complex security solutions. Our services include administration, infrastructure management, migration, upgrades, configuration, backup, security management, performance management, operations monitoring and consolidation services for a variety of operating systems and platforms, data, voice and video networks and mail servers. We offer services which cover a range of hardware platforms (IBM, HP and Sun) and environments (UNIX, AIX, Solaris, HP-UX and Windows). We have also built alliances with over seven infrastructure and technology product vendors to enhance our capabilities. We leverage our data center facility in Columbus, Ohio, in the United States to provide various hosting services to our customers.

Delivery of IT Services

We leverage our integrated global delivery model, which we refer to as the RightSourcing Model, to provide flexible service delivery alternatives to our customers through our offshore centers located in India, offsite centers established in our major markets, nearshore centers located geographically near our customers' premises and through our onsite teams operating at our customers' premises. Our offshore, offsite and nearshore centers are linked to our customer's onsite system through a high performance communication network, enabling us to provide integrated services from each delivery location. Our global delivery model allows us the flexibility to transition onsite IT services seamlessly to our offsite, nearshore or offshore centers, which benefits our customers and provides us with greater returns.

Offshore centers

We typically assign a team of technical associates to visit a customer's premises to determine the scope and requirements of a particular project. Some members of the initial team remain onsite to facilitate direct liaison with the customer, while others return to India to establish and supervise a larger project team of suitably qualified technical associates to implement the project. Typically, approximately 20% of a project team is onsite but the ratio can vary based on the nature and complexity of the project.

We have also entered into arrangements with several customers where an entire project team is assigned to a single customer. Such teams, called dedicated offshore centers, work from our

Table of Contents

facilities in India and are staffed and managed by us. Once the project priorities are established by the customer, we, in conjunction with the customer's IT department, manage the execution of the project. When needed, such offshore centers have equipment specific to the customer, or have a designated work area with its own security protocols. In such cases, the customer agrees to regular periodic billing regardless of the work performed.

Offsite centers

We believe that a key success factor in meeting our customers' needs is our physical proximity to the customer. Accordingly, we have expanded and improved our offshore development model by establishing offsite centers in our major markets. We have 15 offsite centers in locations in Australia, Canada, China, Hungary, Japan, Malaysia, Singapore, United Arab Emirates, the United Kingdom and United States. In addition, many of our existing customers are expanding into new geographic markets and are requiring us to serve them in these new locations. This trend has led us to increase the number of offsite centers as a part of our Follow the Customer strategy. We believe that these offsite centers, apart from serving our existing customers, also help us generate new business in these geographic locations. We believe our offsite centers allow us to respond quickly to customer requests, to interact closely with the customer to develop IT services where the customer's specifications are not clearly defined and to market services tailored to meet the needs of specific geographic markets. We staff our offsite centers with locally-hired managers, marketers and technical associates which we believe enables us to compete more effectively with local IT service providers.

Nearshore centers

For some of our customers, especially in the United States, we have leveraged Canada as a nearshore center because of its proximity to the customer and the advantages of providing services from centers in the same time zone as the customer. Instead of using only our offshore and onsite locations for the solution delivery, we utilize these nearshore centers to perform a variety of life cycle activities. For example, for certain development projects, we have created prototypes of the solution in these nearshore centers. Since the development of prototypes typically involve a high level of interaction with the customer and our onsite teams, the nearshore centers facilitate quick turnaround times.

We use our China development center as a nearshore center for the Asia-Pacific region to leverage the language capability and also multi-byte data for Asian languages. Similarly, we intend to use our Hungary development center for the European and North and South American markets.

Onsite teams

Some customers require the presence of our project teams at their premises, particularly for mission critical or higher involvement projects. The customer's team and our project team collaborate to develop IT services that meet the customer's specifications.

Quality and Project Management

Critical elements for the success of our global delivery model are well established quality management systems and sophisticated project management techniques. As an integral part of our processes, we have established a strict quality assurance and control program. We are certified under the ISO 9001 TickIT standard. Each of our business units that qualify for an assessment on the CMMI model have been assessed at CMMI Level 5 resulting in Satyam being a CMMI Level 5 company. We have also achieved domain specific certifications like AS9100/EN9100 for ES group Aerospace domain, PCMM Level 5 Assessment for Pune Location, BS15000/ISO20000 certification for N&S across India and BS15000 Global Certification for IMS business. We have also adopted Six Sigma as a way of improving our processes and providing the highest levels of quality to our customers. Our quality management system involves, among other things, a rigorous review of software development processes, review and testing of work product and regular internal quality audits.

We have also been certified under ISO 27001 Information Security Management model. This model governs our information security activities and helps us manage security, business continuity and disaster recovery requirements of our customers. Maintaining a high level of customer satisfaction requires sophisticated project management techniques to deliver services seamlessly

Table of Contents

across multiple locations and time zones. We have developed and applied a sophisticated global project management methodology to help ensure timely, consistent and accurate delivery of our IT services to our customers. XCEED Optima (Operational Projects Real Time Management), the enterprise wide project management solution for our Company is a joint initiative of IIS and Quality. Optima is based on cProjects, a new Enterprise Project Management solution from SAP, the world leaders in ERP and is customized to meet our specific needs.

Customers

We market our services primarily to companies in the North America, Europe, the Middle East and the Asia-Pacific region. We have a global customer base which, as of March 31, 2006, consisted of 506 customers including 156 Fortune Global 500 and Fortune U.S. 500 companies.

While we derive a significant proportion of our revenues from a limited number of customers, our strategy is to seek new customers and at the same time secure additional engagements from existing customers by providing high quality services and cross-selling new services. The strength of our relationships has resulted in significant recurring revenue from existing customers. Our business from existing customers in fiscal 2006, 2005 and 2004 accounted for 90.6%, 92.1% and 90.7% of IT services revenues, respectively. In fiscal 2006, 2005 and 2004, our largest customer, together with its affiliates, accounted for 8.8%, 10.8% and 14.3%, respectively, of our total revenues. In fiscal 2006, 2005 and 2004, our second largest customer accounted for 5.1%, 7.4% and 9.9% respectively, of our total revenues. Our top five customers accounted for 24.2%, 29.2% and 36.5% of our total revenues in fiscal 2006, 2005 and 2004 respectively.

The following is a distribution of our customers by our revenues on a trailing 12-month basis or for the fiscal indicated:

	2006	Fiscal 2005	2004
No. of \$1+ million customers	101	109	81
No. of \$5+ million customers	22	30	24
No. of \$10+ million customers	23	19	9

Our customers are from diverse industry segments, including from the manufacturing, banking and finance, insurance, and telecom segments. The manufacturing segment accounts for the highest contribution of our revenues followed by the banking and finance segment. We continue to witness accelerated growth in the healthcare segment, while customers have been increasing in newer segments such as retail, energy and utilities.

The following is a distribution of our IT revenues across our industry segments for the three most recent fiscal years:

	2006	Fiscal 2005	2004
Manufacturing	28.6%	29.2%	32.0%
Banking and Finance	18.5	17.8	18.3
Insurance	8.8	11.4	13.7
TIMES	18.4	17.3	13.5
Healthcare	6.1	6.0	6.0
Retail	3.1	2.8	1.9
Transportation	2.6	2.7	2.1
Others	13.9	12.8	12.5
Total	100.0%	100.0%	100.0%

Sales and Marketing

Our sales operations comprise a Sales team, Account management team, Pre-Sales support team, and our Strategic Deals Group. Sales associates work solely on acquiring new customers. The second group consists of relationship managers who cross-sell services to existing customers and are responsible for building long-term relationships with such customers. The Pre-Sales group supports the business development efforts for prospects and existing accounts.

Satyam has also invested in a strategic deals group, which focuses on acquiring large strategic deals.

Table of Contents

In markets such as the United States and the United Kingdom, we have an industry-focused sales operation, while in other markets we have regional heads who oversee the sales activity.

In order to create greater visibility and recognition of our Satyam brand, we continue to invest in focused programs to enhance customer intimacy. These programs include holding annual customer summits to facilitate customer interaction, organizing forums, and participating in and sponsoring industry events to position Satyam as a thought leader.

As of March 31, 2006, we employed 243 marketing and sales associates.

BPO Services and Nipuna

Nipuna Services Limited, our majority-owned subsidiary, offers BPO services including product support, technical help desk, back-office transaction processing and customer care services in the areas of finance and accounting, human resources, claims administration and document management. Nipuna has recently added services such as research, analytics and animation to its portfolio of service offerings. Nipuna also offers industry specific services to customers in the manufacturing, banking and financial services, insurance, TIMES, healthcare, retail and transportation industries.

Nipuna was established in fiscal 2002. To promote Nipuna's business, we entered into an agreement with two investors, Olympus BPO Holdings Limited and Intel Capital Corporation Services Limited, which restricts Satyam from engaging in activities that are or could directly or indirectly be competitive with the business of Nipuna. Such activities include among others providing BPO, soliciting existing or prospective customers of Nipuna to obtain the services offered by Nipuna from other service providers and investing in companies engaged in the same or similar business as Nipuna. These non-compete restrictions apply until the investors redeem all of their preference shares in Nipuna or their equity interest in Nipuna falls below 5% after an initial public offering. See Item 3. Key Information Risk Factors – Risks Related to Our Overall Operations – We face intense competition in the IT services and BPO markets which could prevent us from attracting and retaining customers and could reduce our revenues.

As of March 31, 2006, Nipuna had 25 customers including 9 Fortune Global 500 and Fortune U.S. 500 companies. For fiscal 2006, 2005 and 2004, Nipuna had revenues of \$20.0 million, \$10.0 million and \$2.4 million respectively. Nipuna handles more than 71 business processes for its customers, a majority of which are also customers of Satyam. Majority of Nipuna's customers are Fortune Global 500 and Fortune U.S. 500 companies, who have offshored their critical business processes to Nipuna. Some of Nipuna's arrangements with its customers have Service Level Agreements, or SLAs, as defined, which if Nipuna were to fail to meet, would result in loss of revenue.

The services offered by Nipuna include:

Claims administration and transaction processing services

Nipuna offers transaction processing services such as data management and claims administration to its customers. For example, Nipuna provides dental and medical claims administration support by facilitating data entry of the claims received, for one of the largest insurance companies in the United States. Its services have resulted in significant costs savings for the customer besides providing the customer with increased flexibility to manage workload during the peak and off-peak periods.

Customer care services

Nipuna provides customer care services to customers in different industries. For example, it provides inbound and outbound support for dial-up and digital subscriber line or DSL customers of a Fortune 100 communications services company.

Nipuna also provides IT help desk support to its customers.

Engineering services

Table of Contents

Nipuna handles assembly plant management for one of the world's largest engine manufacturers. It also manages other processes such as quality compliance and management, engineering change management, AIS documentation, new product introduction and warranty claims processing. Nipuna also manages data entry of contact information for potential customers into a single database for one of the world's largest automobile manufacturers.

Strategic Alliances

We have in the past entered into, and plan to continue to enter into, strategic alliances with leading technology vendors and system integrators to deliver IT solutions across a wide array of technologies and platforms. We have partnered with some of the leading names in key application areas such as ERP (SAP & Oracle), CRM, Integration Middleware, Business Intelligence (Business Objects and Informatica) and Collaborative Commerce. Some of our other prominent alliance partners include 4S, Matrix One, Documentum, Hummingbird and Hyperion. We believe that our existing alliances with over 60 leading technology vendors spanning distinct parts of our customers' value chain have enhanced our ability to offer packaged solutions across a wide array of technologies and platforms to our customers. We work closely with our alliance partners who provide assistance in technology evaluation and selection, product support and product enhancements. None of these alliances are exclusive in nature and some of the alliance agreements need to be renewed each year.

Our joint venture with Venture Engineering Global LLC, Satyam Venture, is engaged in providing engineering solutions, software development and customization services specifically for the automotive industries worldwide. See Item 8 Financial information Legal Proceedings. See also note 23 to our fiscal 2006 financial statements. Also our joint venture with Computer Associates International, Inc., or CA Satyam, is engaged in the business of hosting, delivering and administering selective applications consisting of software products licensed by Computer Associates International, Inc.

Employees

We refer to our employees as associates. Our success depends in large part on our ability to attract, develop, motivate and retain highly skilled technical associates. Besides competitive salaries and incentive pay, we also offer extensive training, an entrepreneurial work environment and opportunities to work overseas. Since May 1998, we have offered stock options to our associates but, subject to certain exceptions, have decided to stop all stock based compensation with effect from October 1, 2004. As of March 31, 2006, we had 28,624 associates including Nipuna's 1,765 associates representing a compound annual growth rate in the number of our associates of 33.5% since fiscal 2000. None of our associates are represented by a union. We believe that our relationship with our associates is good.

Our growth has been driven by our ability to attract top quality talent and effectively engage them. We strongly believe in caring for our associates' welfare and were selected as one of the Top 10 Best Employers in India by BT-TNS-Mercer & CNBC-Hewitt in 2004.

Recruiting

We recruit graduates from the engineering departments of India's leading universities, engineering and technical colleges and management institutes. India has over 1,500 such institutions and, with the rapid growth of the IT services industry in India, the number of students pursuing education in software engineering has increased in recent years. This has allowed us to recruit from a large pool of qualified applicants who undergo our rigorous selection process involving a series of tests and interviews. We also hire professionals who have relevant prior experience from working in India and outside India.

Learning and Developmental Training

We devote significant resources for training our associates. We established the Satyam Learning Center, which promotes our culture of learning and serves as a catalyst for us to sustain our technological and managerial edge. We require our technical associates to undergo a minimum of 40 hours of learning per year. We have qualified full-time faculty at our learning center that provides ongoing training to our associates at all levels, through which we build competencies in emerging

Table of Contents

disciplines necessary to meet our customers' needs. Our training initiatives provide us with a pool of qualified associates which in turn provides us the flexibility to ramp up resources to meet the demands of particular projects and to redeploy our personnel across projects according to our business needs. Apart from technical oriented learning, we also provide leadership training, language training and training on cultural sensitization. Trainers for our leadership training include professors from the Harvard Business School. Our leadership training is aimed at broadening our leadership bandwidth and developing our associates into business leaders for critical business areas such as program management and relationship management.

We also recruit managers in non-software engineering fields for positions as project leaders and project managers and provide them with extensive training, usually over a six-month period, in software engineering and project management skills.

Retention

To attract, retain and motivate our associates, we seek to provide an environment that rewards entrepreneurial initiative and performance. We also provide competitive salaries and benefits as well as incentives in the form of cash bonuses. In fiscal 2006, 2005 and 2004, we experienced associate attrition in IT services at a rate of 19.2%, 16.5% and 17.5%, respectively, which included involuntary attrition ranging from 4% to 5% as part of our systematic quality campaign.

Our human resources policies and practices are oriented towards enhancing associate engagement levels by proactively addressing the factors that impact retention. Several learning and development opportunities are provided to ensure that associates not only upgrade their skills and competencies but are also able to keep pace with cutting edge technologies and prepare themselves to take up challenging roles. Through our comprehensive rewards and recognitions programs and opportunities for job rotation across technologies, industries and locations, we ensure that our associates are motivated and performance oriented.

Our professionals who work onsite at customers' premises in the United States on temporary and extended assignments are typically required to obtain visas. H-1B visas are generally used for deploying personnel to the United States for onsite work, and L-1 visas are typically used for intra-company transfers of employees. Although there is no limit to new L-1 petitions, there is a limit to the number of new H-1B petitions that the United States Immigration and Naturalization Service may approve in any government fiscal year and in recent years this limit has been reached well before the end of the fiscal year. We are generally able to obtain H-1B and L-1 visas within two to four months of applying for such visas, which remain valid for three years and can be extended for a further three years. We plan for our visa requirements by forecasting our annual needs for such visas in advance and applying for such visas as soon as practicable. Our internal processes enable us to anticipate the amount and type of visas we need for our associates and to plan our resources in advance to meet our project needs.

Competition

We operate in a highly competitive and rapidly changing market and compete primarily with:
consulting firms such as Accenture, BearingPoint, Capgemini and Deloitte Consulting;

divisions of large multinational technology firms such as Hewlett-Packard and IBM;

IT outsourcing firms such as Computer Sciences Corporation, Electronic Data Systems and IBM Global Services; and

offshore IT services firms such as Infosys Technologies Limited, Tata Consultancy Services Limited and Wipro Limited.

We also compete with software firms such as Oracle and SAP, service groups of computer equipment companies, in-house IT departments of large corporations and programming companies and temporary staffing firms. In addition, Nipuna faces competition from firms like Progeon and Wipro BPO, formerly known as Wipro Spectramind.

In the future, we expect competition from firms establishing and building their offshore presence and firms in countries with lower personnel costs than those prevailing in India. However, we

Table of Contents

recognize that price advantage alone cannot be a sustainable competitive advantage. We believe that the principal competitive factors in our business include our range of services offered, our level of technical expertise and industry knowledge, our responsiveness to customers' business needs and the perceived value added. We believe we compete favorably with respect to these factors.

Communications Infrastructure

A key component of our IT services delivery model is our ability to connect the customer's system with our offsite and offshore centers through a robust and high performance communications network. Our data and voice network, SatyamNet, connects our facilities worldwide through a high speed network with a backbone of satellite, fiber optic and land lines. SatyamNet provides flexibility for the projects to operate from any of the development facilities inside Satyam providing for seamless integration.

We have dedicated telecommunication leased lines from reputed service providers such as AT&T, Sprint, MCI, Telstra, VSNL, Bharti and Software Technology Park of India which permit data communication between our facilities in India and our customers' facilities abroad. In the United States, we have communication hubs in Vienna, Virginia and Parsippany, New Jersey to connect to our customers' sites.

We monitor the network performance and continually upgrade SatyamNet to enhance and optimize network efficiency across all operating locations. We currently have 20Mbps International Private Leased Circuits (IPLC) and 30Mbps Internet bandwidth in India. In addition, we have 12Mbps high speed links connecting various cities in India, with our intra-city links being connected by multiple 2 Mbps lines totaling to 130Mbps across the country. We upgrade the bandwidth based on our requirements.

Our network has surplus capacity available to service new customers in the immediate future and to permit sudden bursts of data transfer and other contingent uses. We use voice over Internet protocols (VoIP) for our voice communication. We have created a resilient network through redundancy in the network and keep adequate stock of spares to ensure high availability and reliability of our networks.

SatyamNet has extensive security and virus protection capability built to conform to stringent customer and international standards to protect Satyam from virus attacks and provide the necessary security to customers' data. We have created plans for business continuity and disaster recovery by defining multiple sites across India and other development centers as backup centers for continuity of work.

Facilities

Our corporate headquarters, the Satyam Technology Center, is located in Hyderabad, India. We own this facility, which provides a modern workspace for approximately 1,400 software associates in two buildings covering an aggregate area of approximately 173,000 square feet, which are linked to our other facilities through SatyamNet. The Satyam Technology Center also has recreational facilities and housing for up to 500 associates which covers an area of approximately 140,000 square feet.

We also have additional offshore software technology centers located in Bangalore, Bhubaneswar, Chennai, Hyderabad and Pune in India with facilities aggregating approximately 570,000 square feet. We own some of the facilities while others are leased by us on a long-term basis ranging from six to nine years.

Each facility is equipped with computers, servers, telecommunications lines and back-up electricity generation facilities sufficient to ensure an uninterrupted power supply.

In addition to the offshore centers in India, we operate offsite and nearshore centers in major markets to establish a local presence closer to our customers. We lease all of our offsite and nearshore centers for durations ranging from two years to seven years.

The delivery centers of Nipuna are located in Hyderabad and Bangalore and cover an area of 75,000 square feet and 52,000 square feet, respectively.

Table of Contents**Intellectual Property**

Ownership of software and associated deliverables created for customers is generally retained by or assigned to the customer, and we do not usually retain an interest in such software or deliverables. We also develop software products and software tools which are licensed to customers and remain our property. We rely upon a combination of non-disclosure and other contractual arrangements and copyright, trade secret, patent and trademark laws to protect our proprietary rights in technology. We currently require our technical associates to enter into non-disclosure and assignment of rights agreements to limit use of, access to and distribution of our proprietary information. The source code for our proprietary software is generally protected as trade secrets and as unpublished copyright works. We have applied for the registration of Satyam as trademarks in India and United States. We generally apply for trademarks and service marks to identify our various service and product offerings. Although we believe that our services and products do not infringe the intellectual property rights of others, we cannot assure you that such a claim will not be asserted against us in the future.

Seasonality

Our IT services business is not affected by seasonality.

Government Regulation

Regulation of our business by the Indian government affects our business in several ways. We benefit from certain tax incentives promulgated by the Government of India, including a ten-year tax holiday from Indian corporate income taxes for the operation of most of our Indian facilities and a partial taxable income deduction for profits derived from exported IT services under Indian tax laws. As a result of these incentives, our operations have been subject to relatively insignificant Indian tax liabilities. We have also benefited from the liberalization and deregulation of the Indian economy by the successive Indian governments since 1991. Further, there are restrictive parts of Indian law that effect our business, including the fact that we are generally required to obtain approval from the Reserve Bank of India and/or the Ministry of Finance of the Government of India to acquire companies organized outside India, and we are generally required, subject to some exceptions, to obtain approval from relevant government authorities in India in order to raise capital outside India. Finally, the conversion of our equity shares into ADSs is governed by guidelines issued by the Reserve Bank of India.

Please see Item 10. Additional Information, as well as Item 3. Key Information Risk Factors for additional information on the effects of governmental regulation of our business.

Research and Development

Our research and development efforts are focused on developing services required by our existing customers, to attract new customers and developing competencies and leadership in our service offerings. We have established close alliances with U.S. and Indian institutions such as Carnegie Mellon University and Indian Institute of Technology, Madras to strengthen our technology competencies. We have set up an enterprise business solution laboratory where latest versions of products are evaluated, business solution scenarios are created and validated. We have set up a grid computing laboratory which simulates a live grid environment for testing sample applications on the grid. We have also established a datawarehousing and business intelligence center which has developed proprietary business intelligence architectural platform which enables us to build large scale data warehousing and business intelligence solutions. We are also working with major technology providers in the areas of technology architectures for .NET for solutions for various industries. In the embedded systems space, we have created an environment to simulate various operating conditions and validate the solutions we build. We have an applied research group which focuses on creating IP in the areas of competition, communication, networking and information processing algorithms. In addition to presenting papers at international conferences and publishing in referenced journals, this group has over 16 United States patent applications in various stages of registration. In fiscal 2006 and 2005, we spent 0.05%, and 0.08% of our total revenues on R&D activities.

Table of Contents**ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS**

The following discussion of the financial condition and results of operations of our company should be read in conjunction with the financial statements and the related notes included elsewhere in this document. This discussion contains forward-looking statements that involve risks and uncertainties. For additional information regarding these risks and uncertainties, please see Item 3. Key Information Risk Factors.

Overview

We are a global IT solutions provider, offering a comprehensive range of IT services to our customers, including application development and maintenance services, consulting and enterprise business solutions extended engineering solutions, infrastructure management services. We also offer BPO services through our wholly-owned subsidiary, Nipuna. We are the fourth largest Indian IT software and services company, based on the amount of export revenues generated during our fiscal year ended March 31, 2005. Our total revenues for fiscal 2006 were \$1,096.3 million and over the past three fiscal years our revenues have grown at a compound annual growth rate of 33.7%.

On May 12, 2005, we acquired a 75% interest in Citisoft Plc or Citisoft, a specialist business and systems consulting firm that has focused on the investment management industry since 1986. Citisoft is a UK-based firm, with operating presences in London, Boston and New York. The operating results of Citisoft are evaluated by the management under IT services segment.

In May 2005, we completed a sponsored ADS offering of 15,000,000 ADSs representing 30,000,000 equity shares including the green-shoe option. The offering was priced at \$21.5 per ADS. The net proceeds after expenses of the offering were returned to all the selling shareholders. We did not receive any proceeds of the offering.

On October 1, 2005, we acquired 100% of the shares of Knowledge Dynamics, a leading data warehousing and business intelligence solutions provider. The operating results of Knowledge dynamics are evaluated by the management under IT service segment.

On November 7, 2005, we offered to sell an aggregate of 11,182,600 equity shares, representing our entire investment of 31.6% of the outstanding equity shares of Sify. The sale transaction was consummated on November 9, 2005 at a sale price of US\$5.60 per equity share aggregating to US\$62.3 million.

We believe customers are increasingly demanding full-service IT providers that have expertise in both existing systems and new technologies, access to a large pool of highly-skilled technical personnel and the ability to service customers globally at competitive rates. To meet these requirements, we offer our customers an integrated global delivery model, which we refer to as the Right Sourcing Model, to provide flexible delivery alternatives to our customers through our offshore centers located in India, offsite centers which we have established in our major markets, nearshore centers located geographically near our customers premises and through our onsite teams operating at our customers premises. In addition, we use the expertise resident in our focused industry groups to provide specialized services and solutions to our customers in the manufacturing, banking and financial services, insurance, TIMES, healthcare, retail and transportation industries.

Our revenues and profitability have grown rapidly in recent years. In fiscal 2006, our total revenues increased by 38.1% as compared to fiscal 2005. Our revenues grew to \$1,096.3 million in fiscal 2006 from \$793.6 million in fiscal 2005. Our revenue and profitability growth is attributable to a number of factors related to the expansion of our business, including increase in the volume of projects completed for our widening customer base, increase in our associate numbers, increased growth in our consulting and enterprise business solutions business and a strengthening of our customer base in North America and Europe. Our growth has continued despite increasing pressure for higher wages for our associates coupled with pressure for lower prices for our customers. In fiscal 2006, 2005 and 2004, our five largest customers accounted for 24.2%, 29.2% and 36.4%, respectively, of our total revenues. As of March 31, 2006, we had 28,624 employees (including employees of Nipuna), whom we refer to as associates, worldwide as compared to 20,690 associates as of March 31, 2005. With our continuing geographical expansion we now have offshore facilities in India and overseas facilities located in Australia, Canada, China, Hungary, Japan, Malaysia, Singapore, United Arab Emirates, United Kingdom and United States. We also have sales and marketing offices located in Canada, Germany, Italy, the Netherlands, Spain, Sweden, United Kingdom and United States and sales and marketing offices in the rest of the world.

Upto March 31, 2005, Satyam provided segmental disclosures based on three business groups: IT services, Business Process Outsourcing, and Software Products. Subsequent to March 31, 2005,

Table of Contents

executive management evaluates Satyam's operating segments based on the following two-business groups, since the revenues from Software Product segment are no longer meaningful and management does not evaluate this segment any longer:

IT services: We provide a comprehensive range of IT services, including application development and maintenance, consulting and enterprise business solutions, extended engineering solutions, and infrastructure management services. We seek to be the single service provider capable of servicing all of our customers' IT requirements. Our consulting and enterprise business solutions includes services in the area of enterprise resource planning, customer relationship management and supply chain management, data warehousing and business intelligence, knowledge management, document management and enterprise application integration. We also assist our customers in making their existing computing systems accessible over the Internet. The segment information for the year ended March 31, 2006 includes the results of Citisoft and Knowledge Dynamics which were acquired during the year.

BPO: We provide outsourced BPO services in areas such as human resources, finance and accounting, customer care (such as voice, email and chat) besides also providing industry-specific transaction processing services. We target our BPO services at the insurance, healthcare, banking and financial services, transportation, tourism, manufacturing, automotive, telecommunications, media, utilities and retail industries. Revenues from this business segment currently do not constitute a significant proportion of our total revenues; however, we anticipate that this proportion will increase over time. Our BPO services are offered through our majority-owned subsidiary, Nipuna. As part of the investor rights and securities subscription agreements which we have entered into with Nipuna's two other investors, we have agreed not to compete with Nipuna. Pursuant to these agreements, we and our affiliates are restricted from engaging in activities that are or could directly or indirectly be competitive with the business of Nipuna. Such activities include among others providing BPO, soliciting existing or prospective customers of Nipuna to obtain the services offered by Nipuna from other service providers and investing in companies engaged in the same or similar business as Nipuna. These non-compete restrictions apply until the investors redeem all of their preference shares in Nipuna or their equity interest in Nipuna falls below 5% after an initial public offering.

Revenues

We generate revenues through fees for professional services rendered in our two segments, namely, IT services and BPO services.

The following table sets forth the total revenues (excluding inter-segment revenues) for our business segments for fiscal 2006, 2005 and 2004:

Segment	2006		Year ended March 31, 2005		2004	
	Amount	%	Amount	%	Amount	%
	(in millions, except percentages)					
IT services	\$ 1,082.7	98.8%	\$ 786.7	99.1%	\$ 565.1	99.8%
BPO	13.6	1.2%	6.9	0.9	1.3	0.2
Total	\$ 1,096.3	100.0%	\$ 793.6	100.0%	\$ 566.4	100.0%

Table of Contents

We discuss below the components of our IT services revenues by technology type, contract type, offshore or onshore designation, top customers and customer geography:

Revenues by technology

The vast majority of our revenues are generated from our various IT service offerings. The following table presents our IT services revenues (excluding inter-segment revenues) by type of service offering for the periods indicated:

Technology type	2006		Year ended March 31, 2005		2004	
	Amount	%	Amount	%	Amount	%
	(in millions, except percentages)					
Application development and maintenance services	\$ 541.4	50.0%	\$ 429.5	54.6%	\$ 339.2	60.1%
Consulting and enterprise business solutions	429.5	39.7	269.7	34.3	179.9	31.8
Extended engineering solutions	70.2	6.5	55.2	7.0	20.9	3.7
Infrastructure management services	41.6	3.8	32.3	4.1	25.1	4.4
Total	\$ 1,082.7	100.0%	\$ 786.7	100.0%	\$ 565.1	100.0%

Revenues by contract type

Our IT services are provided on a time-and-material basis or on a fixed-price basis. Revenues from IT services provided on a time-and-material basis are recognized in the period that the services are performed. Revenues from IT services provided on a fixed-price basis are recognized under the percentage of completion method of accounting and are recorded when we can reasonably estimate the time period to complete the work. The percentage of completion estimates are subject to periodic revisions and the cumulative impact of any revision in the estimates of the percentage of completion is reflected in the period in which the changes become known to us. Although we have revised our project completion estimates from time to time, such revisions have not materially affected our reported revenues to date. In recent years, we have experienced some pricing pressure from our customers, which has had a negative impact on margins. In response to current market trends, we are considering the viability of introducing performance-based or variable-pricing contracts. In the near term, we expect that revenue from fixed-price contracts will continue to increase as current market trends indicate a customer preference towards fixed-price contracts.

The following table presents our IT services revenues (excluding inter-segment revenues) by type of contract for the years indicated:

Contract type	2006		Year ended March 31, 2005		2004	
	Amount	%	Amount	%	Amount	%
	(in millions, except percentages)					
Time-and-material basis	\$ 702.8	64.9%	\$ 517.3	65.8%	\$ 386.2	68.3%
Fixed-price basis	379.9	35.1	269.4	34.2	178.9	31.7
Total	\$ 1,082.7	100.0%	\$ 786.7	100.0%	\$ 565.1	100.0%

Revenues based on offshore and onsite/offsite

We provide our IT services through a combination of (i) offshore centers located throughout India, (ii) teams working onsite at a customer's location, (iii) nearshore centers located in Canada, China and Hungary to service U.S.-based, Asia Pacific based and Europe based customers, respectively, and (iv) offsite centers located in Australia,

Canada, China, Hungary, Japan, Malaysia, Singapore, United Arab Emirates, United Kingdom and United States. Offshore IT services revenues consist of revenues earned both from IT services work conducted at our offshore centers in India as well as onsite work conducted at customers' premises which is related to offshore work. Offshore IT services revenues do not include revenues from our offsite or nearshore centers located outside of India or revenues from onsite work which is not related to any offshore work. These latter revenues are included in onsite/offsite revenues.

We generally charge higher rates and incur higher compensation expenses for work performed by our onsite teams at our customer's premises or at our offsite and nearshore centers, as compared to work performed at our offshore centers in India. Services performed by our onsite teams or at our offsite centers typically generate higher revenues per capita, but at a lower gross margin, than the same amount of services performed at our offshore centers in India.

The following table presents our IT services revenues (excluding inter-segment revenues) based

40

Table of Contents

on the location where services are performed for the years indicated:

Location	2006		Year ended March 31, 2005		2004	
	Amount	%	Amount	%	Amount	%
	(in millions, except percentages)					
Offshore	\$ 496.0	45.8%	\$ 327.1	41.6%	\$ 248.3	43.9%
Onsite /Offsite	586.7	54.2	459.6	58.4	316.8	56.1
Total	\$ 1,082.7	100.0%	\$ 786.7	100.0%	\$ 565.1	100.0%

Revenues by top customers

Our top two customers accounted for 14.1 % of our IT services revenues in fiscal 2006, as compared to 18.3% and 24.2% of IT services revenues in fiscal 2005 and 2004 respectively. Our top five customers accounted for 24.5% of IT services revenues in fiscal 2006 as compared to 29.5% and 36.5% of IT services revenues in fiscal 2005 and 2004 respectively.

Revenues based on customer location

We have experienced increasing volumes of business from customers located in North America and Europe, attributable to both new customers and additional business from existing customers. We expect that most of our revenues will be generated in North America followed by Europe in fiscal 2007.

The following table gives the composition of our IT services revenues (excluding inter-segment revenues) based on the location of our customers for the years indicated:

Geographic location	2006		Year ended March 31, 2005		2004	
	Amount	%	Amount	%	Amount	%
	(in millions, except percentages)					
North America	\$ 699.0	64.6%	\$ 538.2	68.4%	\$ 414.0	73.3%
Europe	204.8	18.9	130.7	16.6	77.5	13.7
Japan	15.5	1.4	13.9	1.8	11.1	2.0
India	45.1	4.2	25.5	3.2	16.0	2.8
Rest of the world	118.3	10.9	78.4	10.0	46.5	8.2
Total	\$ 1,082.7	100.0%	\$ 786.7	100.0%	\$ 565.1	100.0%

Expenses**Cost of revenues**

Our cost of revenues consists primarily of salary and other compensation and benefits, stock-based compensation expense, depreciation, data communication expenses, computer maintenance, cost of software, sub-contracting charges, expenses relating to the opening of new onsite, offsite, nearshore and offshore centers, and foreign travel expenses.

The principal component of our cost of revenues is the wage cost of our technical associates. Wage cost in India, including in the IT services industry, have historically been significantly lower than wage cost in the United States and Europe for comparably skilled professionals. However, as wages in India increase at a faster rate than in the United States, we may experience increase in our costs of personnel, particularly project managers and other mid-level professionals.

The utilization levels of our technical associates also affect our revenue and gross profits. We calculate utilization levels on a monthly basis, based on the ratio of the actual number of hours billed by technical associates in such

month to the total number of billable hours. For purposes of such calculation, we assume that an associate is 100.0% utilized if he or she works 157 hours per month. We manage utilization by monitoring project requirements and timetables. The number of associates assigned to a project will vary according to size, complexity, duration, and demands of the project. Associate utilization levels for IT services were 85.0%, 82.1% and 81.4% in fiscal 2006, 2005 and 2004 respectively. The utilization levels for our technical associates have been increasing in recent periods, mainly on account of new business and an increase in business from existing customers, and we expect this trend to continue in the near future.

Selling, general and administrative expenses

Selling, general and administrative expenses generally include compensation costs of sales, management and administrative personnel, travel costs, advertising, business promotion,

Table of Contents

depreciation on assets, rent, repairs, electricity and other general expenses not attributable to cost of revenues.

Subsidiaries

As of March 31, 2006, we have four wholly-owned subsidiaries, Nipuna Services Ltd., or Nipuna, Satyam Technologies Inc., or STI, Satyam Computer Services (Shanghai) Company Limited, or Satyam Shanghai and Knowledge Dynamics Pte Ltd, or Knowledge Dynamics as well as one majority-owned subsidiary, Citisoft Plc, or Citisoft. These five subsidiaries have been consolidated in our consolidated financial statements as of March 31, 2006. The results of Citisoft's operations have been consolidated by us from the acquisition date of May 12, 2005 and the results of Knowledge Dynamics Pte Ltd have been consolidated by Satyam Computer Services from the acquisition date of October 1, 2005.

Citisoft

On May 12, 2005, Satyam acquired a 75% interest in Citisoft Plc or Citisoft, a specialist business and systems consulting firm located in the United Kingdom that has focused on the investment management industry since 1986. The acquisition has been accounted for by following the purchase method of accounting.

The consideration for the 75% equity interest in Citisoft amounted to US\$17.4 million comprising of an initial consideration of US\$14.3 million (including direct acquisition costs of US\$0.9 million) and deferred consideration (non-contingent) of US\$3.1 million payable on April 30, 2006. Satyam Computer Services is also required to pay a maximum earn out consideration amounting to US\$ 3.9 million on April 30, 2006 based on achievement of targeted revenues and profits. The deferred consideration for the acquisition of the 75% equity interest has been accounted for as part of the purchase consideration and shown as a current liability in the balance sheet. The earn-out consideration will be accounted for as purchase consideration when the contingency is resolved.

Satyam Computer Services has a call option and the minority shareholders have a put option to acquire or sell (as applicable) the balance 25% equity shares in two tranches 12.5% on April 30, 2007 and 12.5% on April 30, 2008. The consideration payable for the first tranche of 12.5% equity shares on April 30, 2007 would amount to US\$2.8 million and a maximum earn-out consideration amounting to US\$2.4 million based on achievement of targeted revenues and profits. The consideration payable for the second tranche of 12.5% equity shares on April 30, 2008 would amount to US\$2.9 million and a maximum earn-out consideration amounting to US\$3.7 million based on achievement of targeted revenues and profits. Satyam Computer Services records the put option at fair value at each balance sheet date, with the initial fair value of the put option included as part of the consideration for its 75.0% interest in Citisoft. The difference between the fair values at each valuation date is charged to selling, general and administration expenses in statement of income. On the basis of an independent valuation, the value of put option was US\$ Nil and US\$1.1 million as of May 12, 2005 and March 31, 2006 respectively..

Satyam Computer Services is also required to fund an Employee Benefit Trust (EBT) formed by Citisoft for the purpose of providing additional incentive to employees to contribute to the success of Citisoft. Satyam is required to fund US\$1.6 million on April 30, 2006 and a maximum of US\$1.6 million each on April 30, 2007 and 2008 based on achievement of targeted revenues and profits. As of March 31, 2006 Satyam Computer Services has accrued US\$1.4 million as a current liability and charged US\$1.4 million to the statement of income as part of cost of revenues.

The purchase consideration has been allocated to the assets acquired and liabilities assumed as of the date of acquisition based on management's estimates and a valuation done by an independent valuer in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. The goodwill has been allocated to the IT services segment. The purchase price allocation is as follows:

Table of Contents

	US\$ in millions
Purchase price	\$ 17.4
Allocated to:	
Net current assets	\$ 2.2
Tangible assets	0.3
Customer Contracts related intangibles	0.8
Customer relationship related intangibles	5.4
Trade name	0.7
Goodwill	10.3
Deferred tax liability	(2.3)
Total	\$ 17.4

Pro forma disclosure regarding this acquisition has not been provided because it is not material to the operations of the Company.

Knowledge Dynamics

On July 21 2005, Satyam Computer Services announced its intention to acquire 100% of the shares of Knowledge Dynamics Pte Ltd, Singapore, (Knowledge Dynamics), a leading Data Warehousing and Business Intelligence Solutions provider. The transaction was consummated on October 1, 2005, the date of transfer of shares to Satyam Computer Services. The acquisition has been accounted for by following the purchase method of accounting.

The consideration for this acquisition amounted to US\$3.3 million comprising of initial consideration of US\$1.8 million (including direct acquisition costs of \$11 thousand) and deferred consideration (non-contingent) of US\$0.8 million and US\$0.7 million payable on April 30, 2006 and 2007 respectively. Satyam Computer Services is also required to pay a maximum earn-out consideration amounting to US\$0.3 million, US\$0.8 million and US\$1.1 million on April 30, 2006, 2007 and 2008 respectively based on the achievement of targeted revenues and profits. The total deferred consideration for the acquisition of US\$1.5 million has been accounted for as part of the purchase consideration out of which US\$0.8 million has been shown as a current liability and US\$0.7 million as non current liability in the balance sheet. The earn-out consideration will be accounted for as purchase consideration when the contingency is resolved.

The purchase consideration has been allocated to the assets acquired and liabilities assumed as of the date of acquisition based on management's estimates and a valuation done by an independent valuer in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. The goodwill has been allocated to the IT services segment. The purchase price allocation is as follows:

	US\$ in millions
Purchase price	\$ 3.3
Allocated to:	
Net current assets	\$ 0.5
Customer Contracts and Related Relationships	1.0
Trade name	0.1
Goodwill	2.1
Deferred tax liability	(0.4)
Total	\$ 3.3

Associate Sify

In addition to our subsidiaries, during fiscal 2006, we also owned 31.6% of the equity shares of Sify. On November 7, 2005, we offered to sell an aggregate of 11,182,600 equity shares, representing our entire investment of 31.6% of the outstanding equity shares of Sify. The sale transaction was consummated on November 9, 2005 at a sale price of US\$5.60 per equity share aggregating to US\$62.3 million.

We accounted for our share of equity in earnings/(losses) of Sify under the equity method of accounting up to November 9, 2005. The excess of sale proceeds (net of transaction costs) over the carrying value of investment in Sify as on the date of sale amounting to US\$43.6 million has been recognized as gain in the statement of income during year ended March 31, 2006.

Table of Contents

Income Taxes

The statutory corporate income tax rate in India is currently 30.0%. This tax rate is presently subject to a 10.0% surcharge. The amount of tax and surcharge payable is further subject to a 2.0% education cess, resulting in an effective tax rate of 33.66%. The provision for foreign taxes is due to income taxes payable in overseas tax jurisdictions by our offsite, nearshore and onsite centers, principally in the United States. We benefit from tax incentives provided to software entities as an exemption from payment of Indian corporate income taxes until the earlier of fiscal 2009 or 10 consecutive years of operations of software development facilities designated as Software Technology Parks, or STP units. The benefits of this tax incentive have historically resulted in our effective tax rate being well below statutory rates. The exemption is expected to expire between fiscal 2006 and fiscal 2010. Exemption for two of our STP units in Hyderabad expired during the year ended March 31, 2006. We also earn certain other foreign income and domestic income, which are taxable irrespective of the tax holiday as stated above.

Our subsidiaries are subject to income taxes of the countries in which they operate. Our subsidiaries' operating loss carried forward for tax purposes amounted to approximately \$24.0 million as March 31, 2006, which is available as an offset against future taxable income of such entities. These carried forward amounts expire at various dates primarily over eight to twenty years. Realization is dependent on such subsidiaries generating sufficient taxable income prior to expiration of the loss carried forward. A valuation allowance is established attributable to deferred tax assets and losses carried forward in subsidiaries where, based on available evidence, it is more likely than not that they will not be realized. Currently, a full valuation allowance has been made for such losses.

Table of Contents**Results of Operations**

(1) Inclusive of stock-based compensation expenses of \$Nil, \$0.8 million and \$0.9 million during the years ended March 31, 2006, 2005 and 2004, respectively, in the IT services segments.

(2) Inclusive of stock-based compensation expenses of \$0.8 million, \$1.1 million and \$0.8 million during the years ended March 31, 2006, 2005 and 2004, respectively, in the IT services segments.

Table of Contents**Comparison of results for fiscal 2006 and fiscal 2005**

Revenues. Our revenues increased by 38.1% to \$1,096.3 million in fiscal 2006 from \$793.6 million in fiscal 2005. This revenue growth of \$302.7 million in fiscal 2006 was primarily the result of an increase in business both from existing customers and new customers. Revenues from existing customers increased by 35.8% to \$993.0 million in fiscal 2006 from \$731.2 million in fiscal 2005. Revenues from new customers increased by 65.9% to \$103.5 million in fiscal 2006 from \$62.4 million in fiscal 2005. We added 120 and 108 customers including 12 and 17 from the Fortune Global 500 and Fortune U.S. 500 list in fiscal 2006 and 2005, respectively.

During fiscal 2006, revenues (IT services excluding inter-segment revenues) from consulting and enterprise business solutions has grown by \$159.8 million, revenues from application development and maintenance has increased by \$111.9 million, followed by extended engineering solutions and infrastructure management services, which grew by \$15.0 million and \$9.3 million respectively. In terms of percentage growth in fiscal 2006 over fiscal 2005, revenues from consulting and enterprise solutions has grown by 59.3%, application development and maintenance services has grown by 26.1%, extended engineering solutions and infrastructure management services have grown by 27.2% and 28.8% respectively.

Revenues from IT services (excluding inter-segment revenues) provided on a time-and-materials basis decreased to 64.9% in fiscal 2006 from 65.8% in fiscal 2005. Revenues from IT services provided on a fixed-price basis increased to 35.1% in fiscal 2006 from 34.2% in fiscal 2005. The increase in fiscal 2006 for fixed-price contracts is primarily due to the shift in customer preference regarding type of contracts from time-and-material to fixed-price.

The onsite revenues increased as a result of new engagements in consulting and enterprise business solutions in fiscal 2006 and the need for extensive interactions with customers in the early stages of new engagements to understand their business needs and create the relevant processes before we move the appropriate portion of the work offshore.

Of the total increase of \$302.7 million in total revenue in fiscal 2006, \$168.9 million increased in North America followed by \$74.6 million in Europe, \$39.7 million in rest of the world \$17.9 million in India and \$1.6 million in Japan. Our increased business in North America and Europe was due to new customers and additional business from existing customers.

Cost of Revenues. Cost of revenues increased by 35.9% to \$689.0 million in fiscal 2006 from \$506.8 million in fiscal 2005. Cost of revenues represented 62.8% of revenues in fiscal 2006 and 63.9% in fiscal 2005. This increase by \$182.2 million was attributable primarily to increases in associate compensation and benefits expenses, traveling expenses, communication expenses, depreciation and other expenses, attributable largely to an overall increase in our business during this period. Associate compensation and benefits expenses increased by 35.7% to \$544.4 million, or 49.7% of revenues in fiscal 2006 from \$401.2 million, or 50.6% of revenues in fiscal 2005. The increase in the associate compensation and benefits is due to: (i) increase in the total number of technical associates by 7,471 to 26,711 in fiscal 2006 from 19,240 in fiscal 2005; (ii) increase in number of onsite technical associates by 1,026 to 5,327 in fiscal 2006 from 4,301 in fiscal 2005 for which we pay a higher compensation; (iii) salary incentives amounting to \$20.9 million given to technical associates in fiscal 2006 as compared to \$7.9 million in fiscal 2005. Salary incentives increased primarily due to introduction of new incentive scheme by the company in fiscal 2006, and (iv) increase of approximately \$1.5 million of the funding to Citisoft Employee Benefit Trust accounted as compensation expense relating to employees of Citisoft. Traveling expenses increased by 21.7% to \$47.6 million, or 4.3% of revenues, in fiscal 2006 from \$39.1 million, or 4.9% of revenues, in fiscal 2005. This increase was primarily due to increase in the number of travels resulting from increase in the number of technical associates. Communication expenses increased by 110.0% to \$14.7 million or 1.3% of revenues in fiscal 2006 from \$7.0 million, or 0.9% of revenues in fiscal 2005. This increase was primarily due to increase in number of locations of operations, both in India and abroad. Other expenses comprised mainly of rent, power and fuel and maintenance expenses. Other expenses increased by 47.5% to \$56.2 million, or 5.1% of revenues, in fiscal 2006 from \$38.1 million, or 4.8% of revenues in fiscal 2005. Depreciation expense increased 26.7% to \$26.1 million, or 2.4% of revenues, in fiscal 2006 from \$20.6 million, or 2.6% of revenues in fiscal 2005.

Selling, general and administrative expenses. Selling, general and administrative expenses increased 50.9% to \$187.6 million in fiscal 2006 from \$124.3 million in fiscal 2005. Selling, general and administrative expenses

represented 17.1% of revenues in fiscal 2006 and 15.7% of revenues in fiscal 2005. This increase of \$63.3 million in fiscal 2006 was a result primarily of increase in associate compensation and benefits for non-technical associates, communication

Table of Contents

expenses, traveling expenses and sales and marketing expenses. Associate compensation and benefits increased by 91.1% to \$100.9 million, or 9.2% of revenues, in fiscal 2006 as compared to \$52.8 million or 6.7% of revenues in fiscal 2005 primarily on account of increase in number of non-technical associates by 463 to 1,913 as of March 31, 2006 from 1,450 as of March 31, 2005, and salary incentives amounting to \$21.0 million given to non-technical associates in fiscal 2006 as compared to \$3.9 million in fiscal 2005. Salary incentives increased primarily due to introduction of new incentive scheme by the company in fiscal 2006. Communication expenses decreased by 22.2% to \$6.3 million or 0.6% of revenues in fiscal 2006 as compared to \$8.1 million or 1.0% of revenue in fiscal 2005. Traveling expenses increased by 103.3% to \$18.7 million or 1.7% of revenues in fiscal 2006 from \$9.2 million or 1.2% of revenue in fiscal 2005. Traveling expenses increased primarily due to increase in travels by our non-technical associates. Depreciation expenses increased by 4.5% to \$4.6 million or 0.4% of revenues in fiscal 2006 from \$4.4 million or 0.6% of revenue in fiscal 2005. Professional charges increased by 27.7% to \$12.0 million or 1.1% of revenues in fiscal 2006 from \$9.4 million or 1.2% of revenues in fiscal 2005. Stock-based compensation expense decreased by 27.3% to \$0.8 million in fiscal 2006 from \$1.1 million in fiscal 2005. Other expenses comprised primarily of marketing expense, rent, power and fuel and maintenance expenses. Other expenses increased by 12.7% to \$44.3 million or 4.0% of revenue in fiscal 2006 from \$39.3 million, or 5.0% of revenues in fiscal 2005.

Operating income. Our operating income was \$219.7 million in fiscal 2006, representing an increase of 35.2% over the operating income of \$162.5 million for fiscal 2005. As a percentage of revenues, operating income decreased to 20.0% in fiscal 2006, from 20.5% in fiscal 2005. This decrease in operating income as a percentage of revenue was due to (i) increase in the associate compensation and benefits expenses by \$191.3 million to \$645.3 million or 58.9% of revenue in fiscal 2006 from \$454.0 million, or 57.2% of revenues, in fiscal 2005 and (ii) offset by decrease in the traveling, depreciation and other expenses.

Interest income. Interest income increased to \$26.3 million in fiscal 2006 representing an increase of 17.9% from \$22.3 million in fiscal 2005, primarily due to additional bank deposits during the period.

Gain on sale of investments. In fiscal 2006, gain on sale of investments was \$43.6 million as compared to \$Nil in fiscal 2005. The gain of \$43.6 million in fiscal 2006 was on account of the gain on sale of 11,182,600 Indian equity shares of Sify.

Gain/(loss) on foreign exchange transactions. In fiscal 2006 and fiscal 2005, 77.6% and 81.8% respectively, of our revenues were generated in U.S. dollars. The average exchange rate of Indian rupee to U.S. dollar in fiscal 2006 was Rs. 44.18 against Rs. 44.85 in fiscal 2005. As at March 31, 2006, the Indian rupee depreciated to Rs. 44.48 against 43.62 at March 31, 2005. As at March 31, 2005, the Indian rupee depreciated to Rs. 43.62 against Rs. 43.40 as at March 31, 2004. As a result of these fluctuations in exchange rates during fiscal 2006 and fiscal 2005, gain on foreign exchange transactions was \$0.3 million in fiscal 2006 as compared to a loss of \$4.6 million in fiscal 2005.

Other income/(expenses), net. Other income/ (expenses), net were \$(0.8) million in fiscal 2006, as compared to other income/(expenses), net were \$0.4 million in fiscal 2005. The decrease in the other income is primarily on account of loss on forward and options contracts amounting to \$0.8 million in fiscal 2006 as compared to a loss of \$0.3 million in fiscal 2005.

Income taxes. Income taxes were \$37.7 million in fiscal 2006, representing an increase of 49.0% from \$25.3 million in fiscal 2005. This increase was primarily due to increase in tax of \$7.7 million relating to sale of shares in Sify. The expiry of tax exemption benefit for two of our STP units in Hyderabad resulted in increase in income taxes by \$2.8 million in fiscal 2006.

Equity in earnings/(losses) of associated companies, net of taxes. Equity in losses of associated companies was \$0.8 million in fiscal 2006 as compared to \$1.1 million in fiscal 2005. Equity in losses of Sify and CA Satyam amounted to \$1.3 million and \$15 thousand respectively in fiscal 2006 as compared to \$1.7 million and \$63 thousand respectively in fiscal 2005. These losses were partially offset by equity in profit of Satyam Venture amounting to \$0.5 million in fiscal 2006 as compared to equity in loss of \$0.7 million in fiscal 2005.

Net income. As a result of the foregoing, our net income was \$249.4 million in fiscal 2006, representing an increase of 62.2% over net income of \$153.8 million in fiscal 2005. As a percentage of total revenues, net income increased to 22.7% in fiscal 2006 from 19.4% in fiscal 2005.

Table of Contents***Comparison of results for fiscal 2005 and fiscal 2004***

Revenues. Our revenues increased by 40.1% to \$793.6 million in fiscal 2005 from \$566.4 million in fiscal 2004. This revenue growth of \$227.2 million in fiscal 2005 was primarily the result of an increase in business both from existing customers and new customers. Revenues from existing customers increased by 42.4% to \$731.2 million in fiscal 2005 from \$513.6 million in fiscal 2004. Revenues from new customers increased by 18.2% to \$62.4 million in fiscal 2005 from \$52.8 million in fiscal 2004. We added 108 customers both in fiscal 2005 and 2004 including 17 and 25 from the Fortune Global 500 and Fortune U.S. 500 list in fiscal 2005 and 2004, respectively.

During fiscal 2005, revenues (IT services excluding inter-segment revenues) from application development and maintenance has grown by \$90.4 million or 26.7%, revenues from consulting and enterprise business solutions has increased by \$89.8 million or 49.9%, followed by revenues in extended engineering solutions and infrastructure management services, which grew by \$34.3 million and \$7.2 million or 164.1% and 28.7% respectively.

Revenues from IT services (excluding inter-segment revenues) provided on a time-and-materials basis decreased to 65.8% in fiscal 2005 from 68.3% in fiscal 2004. Revenues from IT services provided on a fixed-price basis increased to 34.2% in fiscal 2005 from 31.7% in fiscal 2004. The increase in fiscal 2005 for fixed-price contracts is primarily due to the shift in customer preference regarding type of contracts from time-and-material to fixed-price.

The onsite revenues in fiscal 2005 increased as a result of new engagements in consulting and enterprise business solutions, and the need for extensive interactions with customers in the early stages of new engagements to understand their business needs and create the relevant processes before we move the appropriate portion of the work offshore. Revenues from new customers increased by 18.2% to \$62.4 million in fiscal 2005 from \$52.8 million in fiscal 2004.

Of the total increase of \$227.2 million in total revenue in fiscal 2005, \$127.5 million was on account of increase in revenues from North America followed by \$53.9 million increase in revenue from Europe and \$31.8 million in rest of the world; revenues in India increased by \$11.2 million and in Japan by \$2.8 million. Our increased business in North America and Europe was due to new customers and additional business from existing customers.

Cost of Revenues. Cost of revenues increased by 47.5% to \$506.8 million in fiscal 2005 from \$343.6 million in fiscal 2004. Cost of revenues represented 63.9% of revenues in fiscal 2005 and 60.7% in fiscal 2004. This increase by \$163.2 million was attributable primarily to increases in associate compensation and benefits expenses, traveling expenses, communication expenses, depreciation and other expenses, attributable largely to an overall increase in our business during this period. Associate utilization levels for IT services were 82.1% and 81.4% in fiscal 2005 and 2004, respectively. Associate compensation and benefits expenses increased by 56.7% to \$401.2 million, or 50.6% of revenues in fiscal 2005 from \$256.0 million, or 45.2% of revenues in fiscal 2004. The increase in the associate compensation and benefits is due to: (i) increase in the total number of technical associates by 5,790 to 19,240 in fiscal 2005 from 13,450 in fiscal 2004; (ii) increase in number of onsite technical associates by 845 to 4,301 in fiscal 2005 from 3,456 in fiscal 2004 for which we pay a higher compensation; and (iii) an increase of existing salaries (approximately 17%) during the period. Traveling expenses increased 23.3% to \$39.1 million, or 4.9% of revenues, in fiscal 2005 from \$31.7 million, or 5.6% of revenues, in fiscal 2004. Communication expenses increased 37.3% to \$7.0 million or 0.9% of revenues in fiscal 2005 from \$5.1 million in fiscal 2004. Other expenses comprised mainly of rent, power and fuel and maintenance expenses. Other expenses increased by 27.9% to \$38.1 million, or 4.8% of revenues, in fiscal 2005 from \$29.8 million in fiscal 2004. Depreciation expense increased 2.5% to \$20.6 million, or 2.6% of revenues, in fiscal 2005 from \$20.1 million in fiscal 2004. Stock-based compensation expense decreased by 8.8% to \$775 thousand in fiscal 2005 from \$850 thousand in fiscal 2004.

Selling, general and administrative expenses. Selling, general and administrative expenses increased 22.3% to \$124.3 million in fiscal 2005 from \$101.6 million in fiscal 2004. Selling, general and administrative expenses represented 15.7% of revenues in fiscal 2005 and 17.9% of revenues in fiscal 2004. This increase of \$22.7 million in fiscal 2005 was a result primarily of increase in associate compensation and benefits for non-technical associates, communication expenses, traveling expenses and sales and marketing expenses. Associate compensation and benefits increased 40.8% to \$52.8 million, or 6.7% of revenues, in fiscal 2005 as compared to \$37.5 million or 6.6% of revenues in fiscal 2004 primarily on account of increase in number of non-technical associates to 1,450 from 1,006, incentives amounting to \$3.7 million and salary increments

Table of Contents

(approximately 17%) given to associates during the year. Communication expenses increased 35.0% to \$8.1 million or 1.0% of revenues in fiscal 2005 as compared to \$6.0 million or 1.1% of revenue in fiscal 2004. Traveling expenses increased 5.7% to \$9.2 million or 1.2% of revenues in fiscal 2005 from \$8.7 million or 1.5% of revenue in fiscal 2004. Traveling expenses increased primarily due to increase in travels by our non-technical associates. Stock-based compensation expense increased 54.7% to \$1.2 million in fiscal 2005 from \$771 thousand in fiscal 2004. Other expenses comprised primarily of depreciation, professional charges, marketing expense, rent, power and fuel and maintenance expenses. Other expenses increased 9.0% to \$53.1 million or 6.7% of revenue in fiscal 2005 from \$48.7 million, or 8.6% of revenues in fiscal 2004.

Operating income. Our operating income was \$162.5 million in fiscal 2005, representing an increase of 34.2% over the operating income of \$121.1 million for fiscal 2004. As a percentage of revenues, operating income decreased to 20.5% in fiscal 2005, from 21.4% in fiscal 2004. This decrease in operating income as a percentage of revenue was due to (i) increase in the associate compensation and benefits expenses by \$160.5 million to \$454.0 million or 57.2% of revenue in fiscal 2005 from \$293.5 million, or 51.8% of revenues, in fiscal 2004 and (ii) offset by decrease in the traveling, communication, depreciation and other expenses.

Interest income. Interest income increased to \$22.3 million in fiscal 2005 representing an increase of 9.9% from \$20.3 million in fiscal 2004. This increase was due to increase in deposits with banks by \$79.5 million to \$411.6 million in fiscal 2005 from \$332.1 million in fiscal 2004.

Gain on sale of shares in associated company/others. In fiscal 2005, gain on sale of investments was \$Nil as compared to \$2.7 million in fiscal 2004. The gain of \$2.7 million in fiscal 2004 was on account of the gain on sale of 1,000,000 Indian equity shares of Sify amounting to \$2.6 million.

Gain/(loss) on foreign exchange transactions. In fiscal 2005 and fiscal 2004, 81.8% and 84.5% respectively, of our revenues were generated in U.S. dollars. The average exchange rate of Indian rupee to U.S. dollar in fiscal 2005 was Rs. 44.85 against Rs. 45.96 in fiscal 2004. As at March 31, 2005, the Indian rupee depreciated to Rs. 43.62 against 43.40 at March 31, 2004. As at March 31, 2004, the Indian rupee appreciated to Rs. 43.40 against Rs. 47.53 as at March 31, 2003. As a result of the average exchange rate during fiscal 2005 being lower than during fiscal 2004, loss on foreign exchange transactions was \$4.6 million in fiscal 2005 as compared to a loss of \$8.9 million in fiscal 2004.

Other income/(expenses), net. Other income was \$326 thousand in fiscal 2005, representing a decrease of 85.6 % from \$2.3 million in fiscal 2004. The decrease in the other income is primarily on account of loss on forward and options contracts amounting to \$339 thousand in fiscal 2005 as compared to a gain of \$2.4 million in fiscal 2004. This decrease was partly offset by increase in other income, net of other expenses to \$665 thousand in fiscal 2005 as compared to a loss of \$91 thousand in fiscal 2004.

Income taxes. Income taxes were \$25.3 million in fiscal 2005, representing an increase of 12.4% from \$22.5 million in fiscal 2004.

Equity in earnings/(losses) of associated companies, net of taxes. Equity in losses of associated companies was \$1.1 million in fiscal 2005 as compared to \$2.6 million in fiscal 2004. Equity in losses of Sify and CA Satyam amounted to \$1.7 million and \$63 thousand respectively in fiscal 2005 as compared to \$2.2 million and \$398 thousand respectively in fiscal 2004. These losses were partially offset by equity in profit of Satyam Venture amounting to \$706 thousand in fiscal 2005 as compared to equity in loss of \$3 thousand in fiscal 2004.

Net income. As a result of the foregoing, our net income was \$153.8 million in fiscal 2005, representing an increase of 37.4% over net income of \$111.9 million in fiscal 2004. As a percentage of total revenues, net income decreased to 19.4% in fiscal 2005 from 19.8% in fiscal 2004.

Liquidity and Capital Resources**Net cash provided by operating activities**

Net cash provided by operating activities was \$162.7 million, \$171.3 million and \$89.2 million in fiscal 2006, 2005 and 2004, respectively.

In fiscal 2006, non-cash adjustments to reconcile the \$249.4 million net income to net cash used in operating activities consisted primarily of depreciation and amortization expense of \$31.5 million

Table of Contents

and increase in net accounts receivable and unbilled revenues. Net accounts receivable and unbilled revenues increased by \$81.9 million primarily as a result of an increase in our revenues and increase in collection period. Accounts payable and accrued expenses increased by \$38.1 million primarily on account of accrued compensation and benefits of \$7.7 million, increase in sub-contracting charges payable by \$1.6 million, and increase in provision for gratuity and unutilized leave by \$5.7 million.

In fiscal 2005, non-cash adjustments to reconcile the \$153.8 million net income to net cash provided by operating activities consisted primarily of depreciation expense of \$25.0 million and increase in net accounts receivable and unbilled revenues. Net accounts receivable and unbilled revenues increased by \$40.7 million primarily as a result of an increase in our revenues. Accounts payable and accrued expenses increased by \$19.6 million primarily on account of an increase in taxes by \$2.1 million and an increase in sub-contracting charges payable by \$5.0 million.

In fiscal 2004, non-cash adjustments to reconcile the \$111.9 million net income to net cash used in operating activities consisted primarily of depreciation expense of \$24.4 million. Net accounts receivable and unbilled revenues increased by \$22.5 million primarily as a result of an increase in our revenues. Increase in other working capital assets of \$25.4 million was primarily on account of interest accrued on deposits placed with banks. Unearned and deferred revenues increased because of advance billing on customers for services to be rendered in future.

Net cash used in investing activities

Net cash used in investing activities was \$5.2 million in fiscal 2006 against net cash used in investing activities of \$115.5 million and \$60.0 million in fiscal 2005 and 2004 respectively.

This decrease in net cash used in investing activities was primarily due to sale of shares in Sify amounting to \$62.3 million, offset by (i) payment of consideration for the acquisition of Citisoft Plc amounting to \$12.1 million net of cash acquired, (ii) payment for acquisition of Knowledge Dynamics amounting to \$1.6 million net of cash acquired and (iii) increase in purchases of premises, plant and equipment to \$54.1 million in fiscal 2006 due to purchase of premises and equipment, primarily infrastructure, computers and other equipment associated with the expansion of new facilities at Bangalore, Chennai, Hyderabad and Visakhapatnam.

Net cash used in investing activities in fiscal 2005 increased by \$55.5 million to \$115.5 million from \$60.0 million in fiscal 2004. This increase was primarily due to increase in investments in bank deposits by \$33.9 million to \$79.3 million in fiscal 2005 as compared to \$45.4 million in fiscal 2004, increase in purchases of premises, plant and equipment by \$22.2 million to \$39.0 million in fiscal 2005 from \$16.8 million in fiscal 2004 due to the purchase of land by Nipuna and purchase of equipment, primarily infrastructure, computers and other equipment associated with the expansion of new facilities at Hyderabad, Bangalore and Chennai.

Net cash used in investing activities in fiscal 2004 decreased by \$212.0 million to \$60.0 million from \$272.0 million in fiscal 2003. This decrease was primarily related to a decrease in investments in bank deposits and acquisitions and investments in associate companies. Investments made in bank deposits in fiscal 2004 were \$45.4 million as compared to \$259.3 million in fiscal 2003. Net cash used for acquisitions and investment in associate companies decreased from \$5.1 million in fiscal 2003 to zero in fiscal 2004. These decreases were partially offset by an increase in purchase of premises and equipment by \$5.8 million in fiscal 2004.

Net cash provided by/ (used in) financing activities

Net cash provided by financing activities was \$6.1 million in fiscal 2006 against net cash used in financing activities was \$12.9 million and \$11.6 million in fiscal 2005 and 2004 respectively.

In fiscal 2006, \$6.1 million is used in financing activities. We received cash from issuance of associate stock options of \$31.0 million, \$3.6 million from short term debt by our subsidiary and \$16.3 million from long term debts by Nipuna. We used cash in repayment of loans amounting to \$3.9 million. Cash dividends paid amounted to \$41.3 million in fiscal 2006.

In fiscal 2005, \$26.8 million was raised from financing activities, primarily from issuance of preferred stock (net of issuance costs) of \$9.5 million by our subsidiary, \$15.3 million by associate stock options and \$1.7 million from short-term debt by our subsidiary. Cash dividends paid amounted to \$37.6 million in fiscal 2005 as compared to \$26.2 million in fiscal 2004.

Table of Contents

During fiscal 2004, \$20.5 million was raised from financing activities, primarily from the issuance of preferred stock (net of issuance costs) of \$9.4 million by our subsidiary and \$9.3 million by associate stock options. We used cash to repay loans amounting to \$2.5 million and to pay of dividend amounting to \$26.2 million in fiscal 2004.

As of March 31, 2006, we had cash and cash equivalents of \$292.8 million, rupee denominated loans from the Satyam Associate Trust of \$1.3 million secured by our shares held by the Satyam Associate Trust, U.S. dollar denominated loans of Nipuna amounting to \$16.1 million and other outstanding loans of \$7.0 million with maturities ranging from one to three years. As of March 31, 2006, we had an unused working capital line of credit of \$7.7 million from banks and unused non-funded lines of credit of \$4.4 million from banks.

The following table describes our outstanding credit facilities as of March 31, 2006

Loan Type	Lenders	Amount outstanding (dollars in millions)	Interest (per annum)	Computation method
Rupee loan of Satyam Associates Trust	Cholamandalam	\$ 1.3	10.25%	Fixed
Working capital term loan	BNP Paribas	5.6	6 month LIBOR +0.95%	Floating
External commercial borrowing	BNP Paribas	10.5	6 month LIBOR +0.95%	Floating
Export packing credit	BNP Paribas	4.1	6 month LIBOR +0.25%	Floating
Other loans	Various other parties	2.9	3.0%-14.5%	Fixed
Total		\$ 24.4		

We anticipate capital expenditures of approximately \$75.0 million in fiscal 2007, principally to finance construction of new facilities in our offshore centers, expand facilities in offshore centers in India and establish offsite centers outside India. We believe that existing cash and cash equivalents and funds generated from operations will be sufficient to meet these requirements. However, we may significantly alter our proposed capital expenditures plans and accordingly, may require additional financing to meet our requirements. In either case, we cannot assure you that additional financing will be available at all or, if available, that such financing will be obtained on terms favorable to us or that any additional financing will not be dilutive to our shareholders.

We have guaranteed payment of all sums payable by Nipuna to its two strategic investors, Olympus Capital and Intel Capital, upon redemption of the \$20 million preference shares in Nipuna held by them. These preference shares are to be mandatorily redeemed or converted into equity shares no later than June 2006, if Nipuna achieves certain targets for revenues and profits by March 31, 2006. If these targeted revenues and profits are not achieved along with other triggering events, the investors have an option to either redeem the preference shares or convert them. Although certain triggering events for early redemption as per the agreement have occurred during the period January 2004 to December 2004, the investors waived their right of early redemption. Further Nipuna has not achieved the targeted revenues and profits upto March 2006. If not earlier converted, these preference shares are redeemable on maturity in June 2007 at a redemption premium, which could range between 7.5% to 13.5% per annum.

In addition, depending upon certain triggering events, we may be required to subscribe to US\$20 million in convertible debentures of Nipuna which would be convertible upon the election of Nipuna into ordinary shares at any time. On January 6, 2005, Nipuna obtained approval from a bank for long-term borrowings up to US\$20 million with an interest of 0.95% above a six-month LIBOR. Satyam Computer Services has given a corporate guarantee to the bank for this borrowing. As per the terms of the facility, Nipuna was required to draw the funds prior to September 30, 2005 and Nipuna has got a further extension upto June 30, 2006. The borrowing is repayable in 3 years from each draw down of the borrowing. As of March 31, 2006, Nipuna has availed \$16.1 million under the above arrangement. We expect that we will not be required to subscribe to the convertible debenture described above

The following table sets forth our contractual obligations and commitments to make future payments as of March 31, 2006. The following table excludes our accounts payable, accrued operating expenses and other current liabilities which are payable in normal course of operations. We believe that the conversion of the Nipuna preference

shares is more probable than redemption and therefore have not included such redemption and the redemption premium payable, if redeemed as per the terms of the agreement, in the following table.

granted to associates is required to be recognized as a non-cash compensation charge and amortized over the vesting period of the equity shares underlying the warrants. Under U.S. GAAP, in fiscal 2006 and 2005, we recognized deferred stock-based compensation of \$0.4 million and \$2.2 million, and amortized and charged to earnings \$0.4 million, \$1.9 million during the same periods, respectively.

ASOP B

The ASOP B is substantially similar to the ASOP and is administered by the compensation committee of our board of directors. The SEBI guidelines define the exercise price as the price payable by the employee for exercising the option granted to him in pursuance of the stock option plan. In determining the exercise price, we opted for the higher of (a) the closing price of the shares on the date of the meeting of the compensation committee convened to grant the stock options, on the stock exchange where highest volumes are traded, or (b) the average of the two weeks high and low price of the share preceding the date of grant of option on the stock exchange on which the shares of the company are listed. Under U.S. GAAP, in fiscal 2006 and 2005, we recognized deferred stock-based compensation of \$0.5 million and \$(28) thousand and amortized and charged to earnings \$0.4 million and \$(27) thousand during the same periods, respectively.

ASOP ADS

Under ASOP ADS, we periodically issue grants to eligible associates to purchase ADSs. We account for the ASOP ADS as a fixed option plan.

Nipuna ESOP

Under the Nipuna ESOP options are granted at fair value to associates as determined by an independent valuer as of the date of grant. We account for the Nipuna ESOP as a fixed option plan. We expect that the exercise prices of options granted in the future under the plan will not be less than the fair market value and therefore we do not expect to incur compensation expense with

Table of Contents

respect to those future grants under current accounting rules.

Effect of recently issued accounting pronouncements

On December 16, 2004, the FASB issued FAS 123R, Share-Based Payment, an amendment of FASB Statements No. 123 and 95, that addressed the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for either equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. This statement eliminates the ability to account for share-based compensation transactions using the intrinsic value method as prescribed by Accounting Principles Board, or APB, Opinion No. 25, Accounting for Stock Issued to Employees, and requires that such transactions be accounted for using a fair-value-based method and recognized as expenses in our consolidated statement of operations. As of the required effective date, the standard requires that the modified prospective method be used, which requires that the fair value of new awards granted from the beginning of the year of adoption (plus unvested awards as of the effective date) be expensed over the vesting period. In addition, the statement encourages the use of the binomial approach to value stock options, which differs from the Black-Scholes option pricing model that we currently use in the footnotes to our consolidated financial statements.

The revised FAS 123R as issued by FASB will have a significant impact on our consolidated statement of income as Satyam Computer Services, our subsidiaries and our associated companies will be required to expense the fair value of our stock option grants rather than expensing the intrinsic value of stock options as is our current practice. FAS 123R is applicable to Satyam for annual periods beginning after June 15, 2005. Management estimates the likely impact of SFAS 123R to be similar to the amounts disclosed as pro forma disclosures in accordance with SFAS 123.

In May 2005, FASB Issued FAS No. 154, Accounting Changes and Error Corrections a replacement of APB No. 20 and FAS No. 3. FAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. FAS 154 also provides guidance for determining whether retrospective application of a change in accounting principle is impracticable and for reporting a change when retrospective application is impracticable. The correction of an error in previously issued financial statements is not an accounting change. However, the reporting of an error correction involves adjustments to previously issued financial statements similar to those generally applicable to reporting an accounting change retrospectively. Therefore, the reporting of a correction of an error by restating previously issued financial statements is also addressed by FAS 154. FAS 154 shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of this standard is not expected to have a material impact on Satyam's consolidated financial statements.

Critical Accounting Policies

The following is a brief discussion of the more significant accounting policies and methods used by us. We have identified the policies below as critical to our business operations and the understanding of our results of operations. The impact and any associated risks related to these policies on our business operations is discussed throughout this section where such policies affect our reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see Note 1 in the Notes to the Consolidated Financial Statements included elsewhere in this Annual Report on Form 20-F.

Our preparation of this Annual Report on Form 20-F requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting period. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. There can be no assurance that actual results will not differ from those estimates.

Management believes the following critical accounting policies, among others, affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Table of Contents***Revenue recognition***

Our revenue recognition policy is significant because our revenue is a key component of our results of operations. We follow very specific and detailed guidelines in measuring revenue; however, certain judgments affect the application of our revenue policy. Revenue results are difficult to predict, and any shortfall in revenue or delay in recognizing revenue could cause our operating results to vary significantly from quarter to quarter and could result in future operating losses.

We derive our revenues primarily from IT services, which includes application development and maintenance services, consulting and enterprise business solutions, extended engineering solutions, and infrastructure management services.

Revenues earned from services performed on a time-and-material basis are recognized as the services are performed. IT services performed on time bound fixed-price engagements require accurate estimation of the costs which include salaries and related expenses of technical associates, related communication expenses, travel costs, scope and duration of each engagement. Revenue and the related costs for these projects are recognized on percentage of completion, with revisions to estimates reflected in the period in which changes become known. Provisions for estimated losses on such engagements are made during the period in which a loss becomes probable and can be reasonably estimated. We recognize revenue based on the completed-contract method where the work to complete cannot be reasonably estimated.

We provide our customers with one to three months warranty as post-sale support for our fixed-price engagements. Historically, we have not incurred any material expenditure on account of warranties and since the customer is required to formally sign off on the work performed, any subsequent work is usually covered by an additional contract.

Impairment of Goodwill

We assess the impairment of goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of our use of the acquired assets or the strategy for our overall business;
- significant negative industry or economic trends;
- significant decline in our stock price for a sustained period; and
- our market capitalization relative to net book value.

When we determine that the carrying value of goodwill may not be recoverable based upon the existence of one or more of the above indicators of impairment, we measure any impairment based on a projected discounted cash flow method using a discount rate determined by our management to be commensurate with the risk inherent in our current business model.

Effective April 1, 2002, we adopted SFAS 142 which requires, among other things, the discontinuance of amortization related to goodwill and indefinite lived intangible assets. These assets will then be subject to an impairment test at least annually. We are required to perform goodwill impairment tests on an annual basis and between annual tests in certain circumstances. We performed an initial impairment review of goodwill on the adoption of SFAS 142 and also carried out an annual impairment review in 2006. Based on these tests there is no impairment of goodwill during the year ended March 31, 2006.

Future events could cause us to conclude that impairment indicators exist and that goodwill associated with our acquired businesses is impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

Accounts Receivable

We estimate the amount of uncollectible receivables each period and establish an allowance for uncollectible amounts. The amount of the allowance is based on the age of unpaid amounts, information about the creditworthiness of customers, and other relevant information. Estimates of

Table of Contents

uncollectible amounts are revised each period, and changes are recorded in the period they become known. A significant change in the level of uncollectible amounts would have a significant effect on our results of operations.

Accounting for income taxes

As part of the process of preparing our consolidated financial statements we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves us estimating our actual current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheet. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income and to the extent we believe that recovery is not likely, we must establish a valuation allowance. To the extent we establish a valuation allowance or increase this allowance in a period, we must include an expense within the tax provision in the statement of operations.

Significant management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. The valuation allowance is based on our estimates of taxable income by jurisdiction in which we operate and the period over which our deferred tax assets will be recoverable. In the event that actual results differ from these estimates or we adjust these estimates in future periods we may need to establish an additional valuation allowance which could materially impact our financial position and results of operations.

Effects of Inflation

India has experienced relatively high rates of inflation in the past however it has not had a significant effect on our results of operations and financial condition to date.

Exchange Rates

The following table sets forth, for each of the months indicated, information concerning the number of Indian rupees for which one U.S. dollar could be exchanged based on the average of the noon buying rate in the City of New York on the last day of each month during each of such months for cable transfers in Indian rupees as certified for customs purposes by the Federal Reserve Bank of New York:

Month	Month end	Average	High	Low
		(Rupees)		
April-04	44.52	43.89	44.52	43.40
May-04	45.42	45.18	45.57	44.55
June-04	45.99	45.50	46.21	44.94
July-04	46.40	46.06	46.45	45.66
August-04	46.35	46.32	46.40	46.21

March-06	44.48	44.34	44.58	44.09

Risk Management Policy

55

Table of Contents

Our functional currency is the Indian rupee, however we transact a major portion of our business in U.S. dollars and other currencies and accordingly face foreign currency exposure from our sales in the United States and elsewhere and from our purchases from overseas suppliers in U.S. dollars and other currencies. Accordingly, we are exposed to substantial risk on account of adverse currency movements in global foreign exchange markets. The exchange rate between the rupee and the U.S. dollar has changed substantially in recent years and may fluctuate substantially in the future.

We manage risk on account of foreign currency fluctuations through treasury operations. Our risk management strategy is to identify risks we are exposed to, evaluate and measure those risks, decide on managing those risks, regular monitoring and reporting to management. The objective of our risk management policy is to minimize risk arising from adverse currency movements by managing the uncertainty and volatility of foreign exchange fluctuations by hedging the risk to achieve greater predictability and stability. Our risk management policies are approved by senior management and include implementing hedging strategies for foreign currency exposures, specification of transaction limits; specifying authority and responsibility of the personnel involved in executing, monitoring and controlling such transactions.

We enter into foreign exchange forward and options contracts to mitigate the risk of changes in foreign exchange rates on cash flows denominated in U.S. dollars. We enter into foreign exchange forward and options contracts where the counter party is generally a bank. We consider the risks of non-performance by the counter party as non-material. These contracts mature between one and nine months. These contracts do not qualify for hedge accounting under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended. Any derivative that is either not a designated hedge, or is so designated but is ineffective per SFAS No. 133, is marked to market and recognized in earnings.

The following tables give details in respect of our outstanding foreign exchange forward and options contracts:

	2006	As at March 31,	
	Amount	2005	2004
		Amount	Amount
		(dollars in millions)	
Aggregate contracted principal amounts of contracts outstanding:			
Forward contracts	\$ 79.0	\$ 160.0	\$ 44.5
Options contracts	137.0	141.5	
Total	\$ 216.0	\$ 301.5	\$ 44.5
Gains/(loss) on outstanding contracts:			
Forward contracts	\$ 0.4	\$ 1.0	\$ 0.4
Options contracts	(1.8)	0.1	
Total	\$ (1.4)	\$ 1.1	\$ 0.4

The outstanding foreign exchange forward and options contracts as of March 31, 2006 mature between one to eleven months.

Gains/(losses) on foreign exchange forward and options contracts included under the head other income/(expense) in the statement of income are as stated below:

	Year ended March 31,		
	2006	2005	2004
	Amount	Amount	Amount
		(dollars in millions)	
Forward contracts	\$ 0.8	\$ (0.5)	\$ 2.4

Options contracts	(1.6)	0.2		
Total	(0.8)	\$ 0.3	\$	2.4

Off-Balance Sheet Arrangements

We currently do not engage in any off-balance sheet arrangements.

56

Table of Contents

Foreign Currency Transactions/ Translation

During the fiscal 2006, 2005 and 2004, 77.6%, 81.8% and 84.5%, respectively, of our total revenues were generated in U.S. dollars. A significant amount of our expenses were incurred in Indian rupees and the balance was primarily incurred in U.S. dollars, European currencies and Japanese yen. Our functional currency and the functional currency for our subsidiaries located in India is the Indian rupee; however, U.S. dollar, Pound Sterling, Singapore Dollar and Renminbi are the functional currencies of our foreign subsidiaries located in the United States, United Kingdom, Singapore and China respectively. The translation of such foreign currencies into U.S. dollars (our reporting currency) is performed for balance sheet accounts using current exchange rates in effect at the balance sheet date and for revenue and expense accounts using monthly simple average exchange rates prevailing during the reporting periods. Adjustments resulting from the translation of functional currency financial statements to reporting currency are accumulated and reported as other comprehensive income, a separate component of shareholders' equity.

We expect that a majority of our revenues will continue to be generated in U.S. dollars for the foreseeable future and that a significant portion of our expenses, including personnel costs as well as capital and operating expenditures, will continue to be denominated in Indian rupees. Consequently, our results of operations will be affected to the extent the rupee appreciates/ depreciates against the U.S. dollar.

The average exchange rate of rupee to U.S. dollar in fiscal 2006 was Rs. 44.18 against Rs. 44.85 in fiscal 2005. As at March 31, 2006, the rupee depreciated to Rs. 44.48 against Rs. 43.62 as at March 31, 2005. As at March 31, 2005, the rupee depreciated to Rs. 43.62 against Rs.43.40 as at March 31, 2004. As a result, gain on foreign exchange transactions was \$0.3 million in fiscal 2006 as compared to a loss of \$4.6 million in fiscal 2005.

Table of Contents**ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**

The following table sets forth the name, age, and position of each of our directors and key management personnel of Satyam, as of March 31, 2006:

Directors

Name	Age	Position
B. Ramalinga Raju	50	Chairman
B. Rama Raju	46	Managing Director and Chief Executive Officer(3)
V.P. Rama Rao	72	Director(1),(2),(3)
Dr. Mangalam Srinivasan	67	Director(1),(2)
Krishna G. Palepu	51	Director
Vinod K. Dham	55	Director(2)
M.Rammohan Rao	64	Director(1), (2)

Key Management Personnel (4)

Name	Age	Position
Anand T. R	50	Director and Senior Vice President, Vertical Business Unit TIMES
Jayaraman G	50	Sr. Vice President, Corporate Governance and Company Secretary
Joseph Abraham	53	Director and Senior Vice President, Vertical Business Unit Retail

B. Ramalinga Raju has been on our board of directors since our inception in 1987. Prior to becoming the Chairman in 1995, he was the Vice Chairman of the Satyam Corporate Group. Mr. Ramalinga Raju also sits on the board of directors of Nipuna. Mr. Raju founded Satyam Computer Services in 1987 and has been instrumental in developing Satyam into one of the top Indian IT

Table of Contents

services company. Among the many awards received by him, Mr. Raju was awarded the Corporate Citizen of the Year award during the Asian Business Leadership Summit held in Hong Kong in 2002. He was also named as the IT Man of the Year by Dataquest in 2001 and was conferred the Entrepreneur of the Year Award (Services) by Ernst & Young, India in 2000. Mr. Ramalinga Raju holds a Master of Business Administration degree from Ohio University and has attended the Advanced Management Program conducted by Harvard Business School.

B. Rama Raju has been on our board of directors since our inception in 1987. He became the Managing Director and Chief Executive Officer in 1991. Prior to joining our company, he was a director of Maytas Infra Limited. Mr. Rama Raju also sits on the board of directors of Nipuna, Maytas Infra Limited and Satyam Venture Engineering Services Private Limited. Mr. Rama Raju holds a Master of Economics degree from Loyola College, Chennai and a Master of Business Administration degree from Loreda State University, Texas. He has also attended the Advanced Management Program conducted by Harvard Business School. Mr. Rama Raju is the younger brother of Mr. Ramalinga Raju, the Chairman of the company.

V. P. Rama Rao was appointed to our board of directors in July 1991 as an independent director. Before joining our company, he was with the Indian Government's Administrative Service and was the Chief Secretary to the government of Andhra Pradesh. He was closely involved with the industrial development of Andhra Pradesh for over two decades. He also worked as the Chief of Industrial Infrastructure Corporation. Mr. Rama Rao holds a Post-Graduate degree in Arts, a Bachelor degree in Civil Law and a Post-Graduate diploma in Technical Science and Industrial Administration, from Manchester University, England. Mr. Rama Rao also sits on the board of directors of VBC Ferro Alloys Limited, NCC Finance Limited and Konaseema EPS Oakwell Power Limited.

Dr. Mangalam Srinivasan was appointed to our board of directors in July 1991 as an independent director. She is a management consultant and a visiting professor at several U.S. universities. Dr. Mangalam Srinivasan holds a Ph.D. in technology from George Washington University, a Master of Business Administration degree (international finance and organization) from the University of Hawaii, a Master of Arts degree (English) from Presidency College, Madras University and was an Advanced Special Scholar (astronomy and physics) at the University of Maryland. Currently, Dr. Mangalam Srinivasan is an advisor to the Kennedy School of Government, Harvard University, Massachusetts where she is a distinguished fellow.

Professor Krishna G. Palepu was appointed to our board of directors on January 23, 2003 as an independent director. Professor Palepu is the Ross Graham Walker Professor of Business Administration at the Harvard Business School, where he also holds the title of Senior Associate Dean, Director of Research. Professor Palepu joined the Harvard Business School faculty in 1983. He graduated with a Masters degree in Physics from Andhra University and holds a Master of Business Administration degree from the Indian Institute of Management, and a Ph.D. from the Massachusetts Institute of Technology. Professor Palepu serves as consultant to a wide variety of businesses, and is on the boards of Dr. Reddy's Laboratories Limited in India and Brooks Automation.

Vinod K. Dham was appointed to our board of directors on January 23, 2003 as an independent director. Mr. Dham is Vice President and General Manager, Carrier Access Business Unit, of Broadcom Corporation. Prior to this, he was the Chairman, President and Chief Executive Officer of Silicon Spice Inc., which was acquired by Broadcom Corporation. Mr. Dham obtained his Bachelor's degree in Electrical Engineering (electronics) from the University of Delhi and received his Master degree in Electrical Engineering (solid state) from the University of Cincinnati. He held the positions of Vice President of Intel Corporation's Microprocessor Products Group and General Manager of the Pentium Processor Division. Mr. Dham is also a director of NewPath Ventures LLC, Hellosoft Inc., Sasken Communication Technologies Limited, Nevis Networks Inc., Telsima Inc, Insilica and Montalvo Systems.

M Rammohan Rao, Dean, Indian School of Business was appointed to our board of directors on July 29, 2005 as an independent director. Mr. Rao is recognized internationally for his research and teaching capabilities. As a Research Fellow, Mr. Rao was associated with the International Institute of Management, Science Center, Berlin, Germany, and the International Center for Management Sciences, Center for Operations Research and Econometrics, University Catholique de Louvain, Belgium. He has also conducted research at the Operations Research Group, United States Steel Corporation, Applied Research Laboratory, Monroeville, Pennsylvania. Mr. Rao has a PhD in

Table of Contents

Industrial Administration from the Graduate School of Industrial Administration, Carnegie-Mellon University, Pittsburgh, Pennsylvania, USA. He has completed two Masters Degrees - Master of Science in Industrial Administration, Carnegie-Mellon University, Pittsburgh, Pennsylvania, and Master of Engineering (Industrial), Cornell University, New York. Mr. Rao has won several prestigious awards conferred on him by leading institutions across the world. Mr. Rao also sits on the Boards of Krishna Fabrications Pvt. Ltd., MosChip Semiconductor Technology Ltd. and APIDC Venture Capital.

Anand T.R. has been our Director and Senior Vice President of the Telecom, Infrastructure, Media & Entertainment, and Semiconductors (TIMES) business unit since April 2004. Prior to this, he was the Chief Operating Officer of the Telecom Business Unit. During 2001 – 2002 he was the chairperson of Satyam, Japan. Prior to joining our company, he was the Country General Manager - e-Business and Cross Industry Solutions at IBM Global Services, India. He started his career at Tata Consultancy Services and later worked at the Groupe Bull subsidiary in India for eleven years. Mr. Anand holds a bachelor degree in electronics engineering from the University Visvesvaraya College of Engineering, Bangalore, and a post-graduate diploma in Business Management (with specialization in Information Systems) from the Indian Institute of Management, Ahmedabad.

Jayaraman G. has been our Sr. Vice President, Corporate Governance and Company Secretary since April 2005. From March 2000 to September 2000 he was Assistant Vice President and Company Secretary and from October 2000 to April 2005 he was Vice President – Corporate Affairs and Company Secretary. Prior to joining our company, he was with Samrat Spinner Limited as Director (Finance) and Company Secretary. Mr. Jayaraman holds a Bachelor of Science degree from University of Madras, is a fellow member of the Institute of Chartered Accountants of India and the Institute of Cost and Works Accountants of India. He is also an associate member of the Institute of Company Secretaries of India.

Joseph Abraham was appointed as our Director and Senior Vice President, Vertical Business Unit – Retail in November 2000 after being the Senior Vice President, Strategic Business Unit 7 since 1998. Prior to joining our company, he was with Tata Consultancy Services Limited as Executive Vice President, Human Resources. Mr. Abraham holds a Master of Personnel Management and Industrial Relations degree from Tata Institute of Social Services and a Differential Test Battery Certificate from Morrisby Institute, United Kingdom.

Keshab Panda has been our Director and Senior Vice President – Head of Satyam Europe Operations since April 2004. He is also the Chief Executive Officer of Satyam Technologies Inc, a wholly owned subsidiary of Satyam and additionally manages multiple strategic relationships with our key customers as well. Prior to this, as a veteran of the Indian Space Research Organization (ISRO) Satellite Centre, he played an important role with the design of India's indigenous communications satellite, INSAT II Satellite and the Defence Research Development Organization (DRDO) in various capacities. He is also a director of Satyam Technologies, Inc.

Manish Sukhlal Mehta has been our Director and Senior Vice President – Horizontal Competency Unit – SAP, Engineering & Spatial Services, since April 2004. Prior to his current role, he was responsible for building our automotive practice. Mr. Mehta also played a key role in establishing the Manufacturing Business Unit in Satyam. He also established a Strategic Business Unit for Banking & Finance and managed it successfully as a profit center. Prior to joining our company, Mr. Mehta was heading the business operations of Datamatics in Chennai. He began his career with Tata Consultancy Services Limited, where he served for 15 years in various positions. Mr. Mehta holds a Masters in Science (Hons.) – Chemistry, and a Masters in Engineering – Industrial Development from the Birla Institute of Technology & Science (BITS), Pilani. He is also a director of Satyam Computer Services (Shanghai) Co. Limited.

Mohan Eddy F. S. has been our Director, Internal Information Systems and Platinum Processes Group since 2003. He was the Director, Horizontal Business Unit – Collaborative Enterprise Solutions since November 2000 and a Director, Strategic Business Unit of Satyam Renaissance Consulting from 1995. Mr. Mohan Eddy holds a Bachelor of Engineering degree and a Post-Graduate diploma in Management from the Indian Institute of Management, Calcutta.

Murty A. S. has been our Director and Senior Vice President, Global Human Resources since November 2000. He was Senior Vice President, Human Resources in 1999 and Senior Vice President of Strategic Business Unit I since 1994. Before joining our company, Mr. Murty was with

Table of Contents

Tata Consulting Services Limited for over 12 years. Mr. Murty holds a Master of Engineering degree from the Indian Institute of Science, Bangalore.

Prabhat G. B. has been our Director, Horizontal Business Unit – Business Solution since November 2000. He is responsible for leading our business into the higher-end consulting service offerings. He was co-founder and Director, Strategic Business Unit of Satyam Renaissance Consulting from 1995, prior to which he worked for nearly 10 years for the TVS Group. Mr. Prabhat holds a Master of Science (Computer Sciences) degree from the Indian Institute of Technology, Chennai.

Ram Mynampati has been our President, Commercial and Healthcare Businesses since October 2002. He was our Executive Vice President and Chief Operating Officer, Vertical Business Unit – Insurance, Banking and Financial Services, Healthcare since November 2000 and Executive Vice President, Strategic Business Units 1, 2 and 4 in 1999. He also provides executive leadership to our customer relationship with General Electric and oversees our industry groups which service the U.S. Government. Prior to joining Satyam, Mr. Mynampati has held key positions in large, multinational organizations, such as UNISYS and Southern California Gas Company. Mr. Mynampati holds a Master of Computer Science degree from California State University. He is the Chairman of Citisoft Plc. and Satyam Technologies, Inc. and also a director of Satyam Venture Engineering Services Pvt. Ltd.

Ravi Shanker Bommakanti has been our Director and Senior Vice President of Insurance Business Unit since April, 2004. Prior to this, he was responsible for the GE Strategic Relationship unit of Satyam for five years. Mr. Bommakanti was also responsible for managing the Dun and Bradstreet relationship for Satyam and in developing client-server competencies in Satyam. Prior to joining our company, Mr. Bommakanti worked with Citicorp in United States and India and Bankers Trust in Australia. Mr. Bommakanti is a Chartered Accountant with experience in Financial Services and Accounting.

Shailesh Shah has been our Director and Senior Vice President – Corporate Strategy since September, 2004. Mr. Shah's last employment was with Watson Wyatt (India), as its Managing Director. Spanning his 20 year career, Mr. Shah has worked with organizations like Price Waterhouse, The Strategy Consulting Group and the Hay Group. Mr. Shah holds a Bachelors degree in Mechanical Engineering from Bangalore University, a Masters in Science Industrial Engineering & Operations Research from Syracuse University and a Master of Business Administration degree from Drexel University, United States. He is also a director of Citisoft Plc.

Srinivas V. has been our Director, Senior Vice President and Chief Financial Officer since October 2002. He was our Senior Vice President and Chief Financial Officer since November 2000 and as Vice President and Chief Financial Officer from 1998. Mr. Srinivas is a fellow member of the Institute of Chartered Accountants of India and the Institute of Company Secretaries of India. He is also an associate member of the Institute of Cost and Works Accountants of India. In addition, he holds a Bachelor of Law degree and a Master of Commerce degree from Osmania University, Hyderabad. He is also a director of Nipuna and Satyam Computer Services (Shanghai) Co. Limited..

Subramanian D. has been our Director since October 2002. He is also Director and Senior Vice President Manufacturing, Automotive, Energy, Oil and Gas and Utilities since April 2004. He was Senior Vice President – SAP Manufacturing and Engineering practices since October 2002 and Vice President – SAP since joining our company in 1999. Mr. Subramanian graduated with a Master of Business Administration degree from Annamalai University, Tamil Nadu and is an associate member of the Institute of Cost and Works Accountants of India. He is also a director of CA Satyam ASP Pvt Ltd.

Vijay Prasad Boddupalli has been our Director and Senior Vice President – EABIS (Enterprise Applications and Business Intelligence Solutions) business unit since April 2004. Prior to joining our company in 1996 Mr. Boddupalli worked in the United States and Australia. He started his career with Tata Consulting Services Limited, during which time he worked with American Express in the United Kingdom, Slavenburg's bank in the Netherlands, New Zealand Post Office in New Zealand. Mr. Boddupalli has a Bachelor degree of Technology in Electronics & Communications Engineering, from Regional Engineering College, Warangal and a Masters degree of Technology in Computer Science from Indian Institute of Technology, Bombay. He is also a director of CA Satyam ASP Pvt Ltd and Knowledge Dynamics Pvt. Ltd.

Table of Contents

Virender Aggarwal is our Director and Senior Vice President APAC-MEIA territories (Asia Pacific, Middle East, India and Africa) since April, 2004. He is responsible for management of business and delivery operations, which include the development centers across China, Australia, Malaysia, Singapore, Middle East and Japan. Prior to joining Satyam, Mr. Aggarwal was the head of a large Indian Software and Training Company operating out of Singapore. Mr. Aggarwal has completed his Masters in Management from BITS, Pilani and has more than 18 years experience, including eight years in general management positions. Mr. Aggarwal's other assignments included working for management consultancy firm AF Ferguson and Co in India, and various positions of responsibility in other organizations in the field of IT consulting. He is also a director of Satyam Computer Services (Shanghai) Co. Limited and Knowledge Dynamics Pvt. Ltd.

V Murali is our Director and Senior Vice President Commercial and Contract Management. He is responsible for creating and maintaining world-class facilities both in terms of physical and IT infrastructure that meets the growing demand of Satyam's global operations. Mr. Murali joined Satyam in May 1998 as Head of Finance for one of the then Subsidiary companies of Satyam, and moved to Satyam Computer Services Limited in 2000. Mr. Murali has a total experience of 20 years in the industry handled various roles and responsibilities during his tenure. Mr. Murali is also Director of Satyam Venture Engineering Services Private Limited and CA Satyam ASP Pvt. Ltd. He is a member of Infrastructure Panel constituted by Confederation of Indian Industry's A.P. Council. Mr. Murali is a Chartered Accountant, Cost and Works Accountant and Company Secretary and holds a Post Graduate Diploma in Business Management.

Compensation**Executive Compensation**

Under the Companies Act, our shareholders must approve the salary, bonus and benefits of all associate directors at an annual general meeting of shareholders. At our general meeting held on July 23, 2004, our shareholders approved the employment terms and conditions for each of our associate directors including the monthly salary, benefits, medical reimbursement and pension fund contributions. These terms are made for a five-year period. The employment terms of Mr. B. Ramalinga Raju, the chairman of our board of directors, and Mr. Rama Raju, our managing director and chief executive officer, were renewed for a period of five years with effect from April 1, 2004.

At our general meeting held on July 25, 2003, our shareholders approved the payment of remuneration to our non-executive directors by way of commission. There are no loans to, or guarantees in favor of, directors or key management personnel other than interest-bearing housing loans provided to certain key management personnel which have not been made, modified or renewed after July 30, 2002.

The following table sets forth all compensation awarded to, earned by or paid to Mr. B. Rama Raju, our managing director and chief executive officer, during fiscal 2006 for services rendered in all capacities to us. Mr. Raju was appointed as managing director and chief executive officer of our company in 1991. With the exception of four executive officers who are serving overseas, none of our other executive officers earned a combined salary and bonus in excess of \$100,000 during any of the last three fiscal years. With respect to the four key managerial personnel, we have not provided individual compensation information because their compensation is attributed predominantly to their overseas assignments, and if they were based in India, their individual compensation would not have exceeded \$100,000. In addition, none of our non-executive officers received compensation from us of greater than \$100,000 during fiscal 2006, other than Mr. Krishna G Palepu who received payments towards professional fees by us of \$155,000 during fiscal 2006. The total remuneration received by our executive officers and directors for their services to us for the fiscal year ended March 31, 2006 was \$4.3 million. The total remuneration and the amounts in the following table are in dollars based on the noon buying rate of Rs. 44.48 per dollar on March 31, 2006.

Annual Compensation

Name and Principal Position	Salary	Bonus	Others ⁽¹⁾
B. Rama Raju, Managing Director and Chief Executive Officer	\$83,849		\$9,856

Table of Contents

- (1) Includes membership fees and housing allowance.

Option Grants

During the fiscal year ended March 31, 2006, we granted options to our key managerial personnel to purchase 326,541 shares under our ASOP B plan and 103,340 ADSs under our ASOP ADS plan. The expiration dates for these options granted under ASOP B and ASOP ADS ranged from April 23, 2010 to April 01, 2013. The exercise prices for the options granted under ASOP B, ranged from Rs512.10 to Rs. 587.45 and the exercise price for the options granted under ASOP ADS was \$22.52 to \$31.60.

Employee Benefit Plans

We have instituted an incentive plan to reward associates' performance through cash payments and, since September 1999, stock options. Associate performance is measured by reference to the associate's contribution to (1) profits and his or her tenure of service, (2) organizational development and (3) customer satisfaction. An associate must score a minimum number of points in each performance criterion to be eligible for a reward. Since the introduction of stock options, cash bonuses have decreased.

Our ASOP and ESOP Plans

We have three associate stock option plans: our Associate Stock Option Plan, or ASOP, established in May 1998; our Associated Stock Option Plan B, or ASOP B, established in May 1999; and our Associated Stock Option Plan ADS, or ASOP ADS, established in May 1999. We also have the Employee Stock Option Plan, or ESOP, established by Nipuna in April 2004.

ASOP

The aspects of the ASOP differ significantly from typical U.S. stock option plans. We established a controlled associate welfare trust called the Satyam Associate Trust to administer the ASOP and issued warrants to purchase 13.0 million equity shares of Satyam. To give our associates the benefit of our stock split in September 1999, the Trust exercised its warrants to acquire our shares before the split using the proceeds from bank loans. The Trust periodically grants eligible associates warrants to purchase equity shares held by or reserved for issuance by the Trust. The warrants may vest immediately or may vest over a period ranging from two to three years, depending on the associate's length of service and performance. Upon vesting, employees have 30 days in which to exercise their warrants. Each warrant issued by the Trust currently entitles the associate holding the warrant to purchase 10 equity shares of our company at a price of Rs.450 (\$10.4), plus an interest component associated with the loan the Trust assumed, for the conversion of the warrants it held. The interest component is computed based on a fixed vesting period and a fixed interest rate. This exercise price has been substantially below the market price of our shares at the time the warrants have been granted by the Trust. Neither we nor the Trust may increase the exercise price of the warrants. As of March 31, 2006, warrants (net of forfeited and cancelled) to purchase 11,849,860 equity shares have been granted to associates pursuant to ASOP, and warrants to purchase 11,796,560 equity shares have been exercised.

ASOP B

The ASOP B is substantially similar to the ASOP and is administered by a committee of our board of directors. The SEBI guidelines define the exercise price as the price payable by the employee for exercising the option granted to him in pursuance of the stock option plan. In determining the exercise price, we opted for the higher of the following: (a) the closing price of the shares on the date of the meeting of the Compensation Committee convened to grant the stock options, on the stock exchange where highest volumes are traded; or (b) the average of the two weeks high and low price of the share preceding the date of grant of option on the stock exchange on which the shares of the company are listed. As of March 31, 2006, options (net of forfeited and cancelled) to purchase 31,381,633 equity shares have been granted to associates under this plan and warrants to purchase 8,578,939 equity shares have been exercised.

ASOP ADS

Under ASOP ADS, we periodically issue grants to eligible associates to purchase ADSs. The

Table of Contents

warrants issued under ASOP ADS can be granted at a price per option which is not less than 90% of the value of one ADS as reported on NYSE (fair market value) on the date of grant converted into Indian Rupees at the rate of exchange prevalent on the day of grant. As of March 31, 2006, warrants (net of forfeited and cancelled) for 1,660,971 ADSs representing 3,321,942 equity shares have been granted to associates under the ASOP ADS, and warrants to purchase 665,300 ADSs representing 1,330,600 equity shares have been exercised.

In October 2005, our compensation committee approved amendments to our associate stock option plans (ASOP B and ASOP ADS) to allow for continuation of vesting of options upon retirement and accelerated vesting upon death. These amendments are applicable retrospectively for ASOP-B and prospectively for ASOP-ADS. Refer to Exhibits 4.2 and 4.3 to this Annual Report for a copy of the amended and restated plans.

Nipuna ESOP

Under the Nipuna ESOP options are granted at fair value to associates as determined by an independent valuer as of the date of grant. The options granted under the Nipuna ESOP vest in three equal tranches at the end of the second, third and fourth year from the date of grant. As of March 31, 2006, options (net of forfeited and cancelled) for 1,215,506 equity shares have been granted to associates under the Nipuna ESOP, and no options to purchase equity shares have been exercised.

Board Practices**Board Composition**

Our Articles of Association set the minimum number of directors at three and the maximum number of directors at 12. We currently have seven directors. The Companies Act and our Articles of Association require the following:

§ at least two-thirds of our directors shall be subject to retirement; and

§ in any given year, at least one-third of these directors who are subject to retirement shall retire and be eligible for re-election at the annual meeting of our shareholders.

B. Ramalinga Raju and B. Rama Raju are permanent directors and are not subject to retirement by rotation. Dr. Mangalam Srinivasan, Krishna G. Palepu, Vinod K. Dham, V.P. Rama Rao and M Rammohan Rao are the directors who are scheduled to retire by rotation.

Board Committees

The audit committee of board of directors reviews, acts on and reports to the board of directors with respect to various auditing and accounting matters, including the recommendation of our independent registered public accounting firm, the scope of the annual audits, fees to be paid to the independent registered public accounting firm, the adequacy and effectiveness of the accounting and financial controls of our company and our accounting practices. The members of the audit committee are V.P. Rama Rao, Dr. Mangalam Srinivasan and M Rammohan Rao each of whom is an independent director.

The compensation committee of the board of directors determines the salaries and benefits for our executive directors and the stock options for all associates. The members of the compensation committee are V.P. Rama Rao, Dr. Mangalam Srinivasan, Vinod K Dham and M. Rammohan Rao each of whom is an independent director.

The investors grievance committee of the board of directors formed in January 2001 focuses on strengthening investor relations and addressing investors concerns. The members of the committee are V.P. Rama Rao, who is an independent director, and B. Rama Raju, Managing Director and CEO.

Director Compensation

Our Articles of Association provides that each of our directors shall receive a sitting fee not exceeding the maximum amount allowed under the Companies Act. Currently, our directors receive Rs.10,000 for every board or committee meeting. In addition, Independent directors receive compensation by way of commission for their service on our board of directors. Directors are reimbursed for travel and out-of-pocket expenses in connection with their attendance at board and committee meetings. In addition, special remuneration was paid to Mr.Krishna G Palepu for his professional services in his capacity as a non-executive director of our company in the amount of \$155,000 in fiscal 2006.

Table of Contents**Employment, Severance and Other Agreements**

Our Articles of Association provides that directors are appointed by the shareholders by resolutions passed at general meetings; however, the board of directors has the power to appoint additional directors for a period up to the date of the next annual general meeting. Key managerial personnel are appointed by the management. There are no severance agreements with our key managerial personnel.

Employees

For a description of our employees, see Item 4. Information on the Company Employees.

Share Ownership

The following table sets forth information with respect to the beneficial ownership of our equity shares as of March 31, 2006 by each of our directors and our chief executive officer and all of our directors and executive officers as a group. The table gives effect to equity shares issuable within 60 days of March 31, 2006 upon the exercise of all options and other rights beneficially owned by the indicated shareholders on that date. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and includes voting and investment power with respect to equity shares. Unless otherwise indicated, the persons named in the table have sole voting and sole investment control with respect to all equity shares beneficially owned.

Beneficial Owner	Equity Shares Beneficially Owned	
	Number	Percent
B. Rama Raju	14,593,000(1)	4.49
B. Ramalinga Raju	13,272,000(2)	4.09
V.P. Rama Rao		
Dr. Mangalam Srinivasan		
Krishna G. Palepu		
Vinod K Dham		
M Rammohan Rao		
All directors and executive officers as a group	28,593,231	8.88

(1) Includes 3,874,000 equity shares held by B. Rama Raju s wife, B. Radha Raju. B. Rama Raju disclaims beneficial ownership of any equity shares held by B. Radha Raju.

(2) Includes 4,047,000 equity shares held by B. Ramalinga Raju s wife, B. Nandini Raju.

B. Ramalinga
Raju disclaims
beneficial
ownership of
any equity
shares held by
B. Nandini
Raju.

Other than B. Rama Raju and B Ramalinga Raju, none of our directors or executive officers beneficially owned more than 1% of our equity shares as of March 31, 2006.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

Share Ownership

No person or group of affiliated persons who is known to us to beneficially own 5% or more of our equity shares as of March 31, 2006.

As of March 31, 2006, 575,231 of our equity shares, representing 0.18% of our outstanding shares, were held by a total of 243 holders of record with addresses in the United States. As of March 31, 2006, we have issued 32,340,300 ADSs (representing 64,680,600 equity shares) and which represent 19.9% of our outstanding equity shares and which are held by approximately 13 beneficial holders.

Related Party Transactions

In October, 1999, we entered into a joint venture with Venture Global Engineering LLC, USA. The joint venture company, called Satyam Venture Engineering Services Private Limited or Satyam Venture, formed in January 2000, provides engineering services and computer services to the automotive industry. We hold a 50% stake in the joint venture company. For fiscal 2006, 2005 and

Table of Contents

fiscal 2004, we provided infrastructure and other services to Satyam Venture, which amounted to \$0.5 million, \$0.3 million and \$1.2 million respectively. For fiscal 2006, 2005 and fiscal 2004, we received services from Satyam Venture, which amounted to \$8.6 million, \$7.1 million and \$5.4 million respectively. As of March 31, 2006 and 2005, we owe \$1.8 million and \$3.1 million to Satyam Venture.

During fiscal 2006 and 2005, Sify rendered services to us aggregating to \$2.9 million and \$1.4 million, on terms which were no less favorable to us than could have been obtained from independent third parties. During fiscal 2006, Satyam sold its entire 31.61% stake in Sify

ITEM 8. FINANCIAL INFORMATION

Financial Statements

We have elected to provide financial statements pursuant to Item 18 of Form 20-F. No significant change has occurred since the date of our annual financial statements for fiscal 2006.

Legal Proceedings

As of the date of this document, we are not a party to any legal proceedings that could reasonably be expected to seriously harm our company.

Satyam Computer Services had filed a request for arbitration with the London Court of International Arbitration (LCIA) naming Venture Global Engineering LLC, USA (VGE) as respondent. The Arbitration concerned a dispute between Satyam Computer Services and VGE in connection with their joint venture Satyam Venture Engineering Services Private Limited (SVES). The LCIA Arbitrator issued his Final Award on April 3, 2006 in favour of Satyam Computer Services. Satyam Computer Services has filed a petition to recognize and enforce the Award in the United States District Court in Michigan. VGE has separately filed a declaratory judgment action seeking to refuse enforcement of the Award in the United States District Court in Illinois. See note 23 to our fiscal 2006 financial statements included in this Annual Report.

Dividends

Although the amount varies, it is customary for public companies in India to pay cash dividends. Under Indian law, a corporation pays dividends upon a recommendation by the board of directors and approval by a majority of the shareholders, who have the right to decrease but not increase the amount of the dividend recommended, by the board of directors. However, approval of shareholders is not required for distribution of Interim dividend. Under the Companies Act, dividends may be paid out of profits of a company in the year in which the dividend is declared or out of the undistributed profits of previous fiscal years. We paid out dividends of Rs1,820.5 million (\$ 41.3 million), Rs. 1,722.7 million (\$37.6 million) and Rs. 1,207.0 million (\$26.2 million) in fiscal 2006, fiscal 2005 and fiscal 2004 respectively. These dividends include interim dividends for the current fiscal year and dividends paid with respect to previous fiscal year. Under Indian law, dividends are declared with respect to the shares outstanding during the prior fiscal year and are paid in the subsequent fiscal year after approval by shareholders in the Annual General Meeting. The dividend is paid on the outstanding shares as at the end of fiscal year and is prorated for shares issued during the fiscal year to take into account the amount of time such shares have been issued. Although, we have no current intention to discontinue dividend payments, we cannot assure you that any future dividends will be declared or paid or that the amount thereof will not be decreased.

Owners of ADSs will be entitled to receive dividends payable in respect of the equity shares represented by such ADSs. Cash dividends in respect of the equity shares represented by the ADSs will be paid to the depositary in rupees and, will generally be converted by the depositary into U.S. dollars and distributed, net of depositary fees and expenses, to the holders of such ADSs.

ITEM 9. THE OFFER AND LISTING

Trading Markets

Our equity shares are traded in India on Bombay Stock Exchange Limited and the National Stock Exchange. Our ADSs evidenced by American Depositary Receipts, or ADRs, are traded in the United States on the New York Stock Exchange. Each ADS represents two equity shares. The ADRs evidencing ADSs were issued by our depositary, Citibank, N.A., pursuant to a Deposit Agreement.

The number of our outstanding equity shares (including the underlying shares for ADSs) as of

Table of Contents

March, 31, 2006 was 324,449,539. As of March 31, 2006, there were 32,340,300 ADSs outstanding (representing 64,680,600 equity shares).

Price History

The information presented in the table below represents, for the periods indicated: (1) the reported high and low sales prices quoted in Indian rupees for the equity shares on the BSE; and (2) the imputed high and low sales prices for the equity shares based on such high and low sales prices, translated into U.S. dollars based on the noon buying rate on the last date of each period presented.

ITEM 10. ADDITIONAL INFORMATION

Corporate Governance

We are subject to the NYSE listing standards, although, because we are a foreign private issuer, those standards are considerably different from those applied to U.S. companies. Under the NYSE rules, we need only (i) establish an independent audit committee that has specified responsibilities as described in the following table; (ii) provide prompt certification by its chief executive officer of any material non-compliance with any corporate governance rules; (iii) provide periodic written affirmations to the NYSE with respect to our corporate governance practices; and (iv) provide a brief description of significant differences between our corporate governance practices and those followed by U.S. companies.

The following table compares our principal corporate governance practices to those required of U.S. companies.

Standard for U.S. Listed Companies	Satyam Computer Services Limited's Practice
Director Independence	
<p>A majority of the board must consist of independent directors.</p> <p>Independence is defined by various criteria including the absence of a material relationship between the director and the listed company. For example, directors who are employees, are immediate family of the chief executive officer or receive over \$100,000 per year in direct compensation from the listed company are not independent. Directors who are employees of or otherwise affiliated through immediate family with the listed company's independent auditor are also not independent.</p> <p>The non-management directors of each company must meet at regularly scheduled executive sessions without management.</p>	<p>Four of our seven directors, namely Mr. VP Rama Rao, Dr. Mangalam Srinivasan, Mr. Vinod K Dham and Mr. M Rammohan Rao, are independent within the meaning of the NYSE standards.</p> <p>However, at our April 21, 2006 meeting of our Board of Directors, our directors have proposed that Mr. Ram Mynampati, one of our key management personnel, to be nominated to the board of directors, subject to shareholder approval at the forthcoming annual general meeting. Mr. Ram Mynampati would not qualify as an independent director as he is an employee of our Company. If this appointment is approved, our Board will comprise eight directors, four of them will be independent and four will be non-independent. This 50:50 split is permitted under corporate governance in India.</p> <p>Our non-management directors do not meet periodically without management directors.</p>

Audit Committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Securities Exchange Act. The rule requires that the audit committee (i) be comprised entirely of independent directors; (ii) be directly responsible for the appointment, compensation and oversight of the independent auditor; (iii) adopt procedures for the receipt and treatment of complaints with respect to accounting

We have an audit committee which meets all of the requirements of Rule 10A-3.

Table of Contents

**Standard for U.S. Listed
Companies**

and auditing issues; (iv) be authorized to engage independent counsel and other advisors it deems necessary in performing its duties; and (v) be given sufficient funding by the board of directors to compensate the independent auditors and other advisors as well as for the payment of ordinary administrative expenses incurred by the committee.

The audit committee must consist of at least three members, and each member must be independent within the meaning established by the NYSE.

The audit committee must have a written charter that addresses the committee's purpose and responsibilities.

At a minimum, the committee's purpose must be to assist the board in the oversight of the integrity of the company's financial statements, the company's compliance with legal and regulatory requirements, the independent auditor's qualifications and independence and the performance of the company's internal audit function and independent auditors.

The audit committee is also required to review the independent auditing firm's annual report, describing the firm's internal quality control procedures, any material issues raised by the most recent internal quality control review or peer review of the firm and any steps taken to address such issues. The audit committee is also to assess the auditor's independence by reviewing all relationships between the company and its auditor. It must establish the company's hiring guidelines for employees and former employees of the independent auditor.

The committee must also discuss the company's annual audited financial statements and quarterly financial statements with management and the independent auditors, the company's earnings press releases, as well as financial information and earnings guidance provided to analysts and rating agencies, and policies with respect to risk assessment and risk management. It must also meet periodically with the internal auditors and the board of directors.

**Satyam Computer Services
Limited's Practice**

Our audit committee consists of three members and all the members are independent under the NYSE's rules.

Our audit committee has a charter outlining the committee's purpose and responsibilities.

Table of Contents

**Standard for U.S. Listed
Companies**

Each listed company must have disclosed whether their board of directors has identified an Audit Committee Financial Expert, and if not the reasons why the board has not done so.

Each listed company must have an internal audit function.

Compensation Committee

Listed companies must have a compensation committee composed entirely of independent board members as defined by the NYSE listing standards.

The committee must have a written charter that addresses its purpose and responsibilities.

These responsibilities include (i) reviewing and approving corporate goals and objectives relevant to CEO compensation; (ii) evaluating CEO performance and compensation in light of such goals and objectives for the CEO; (iii) based on such evaluation, reviewing and approving CEO compensation levels; (iv) recommending to the board non-CEO compensation, incentive compensation plans and equity-based plans; and (v) producing a report on executive compensation as required by the Securities and Exchange Commission to be included in the company's annual proxy statement or annual report. The committee must also conduct an annual performance self-evaluation.

**Nominating/Corporate
Governance Committee**

Listed companies must have a nominating/corporate governance committee composed entirely of independent board members.

The committee must have a written charter that addresses its purpose and responsibilities, which include (i) identifying qualified individuals to become board

**Satyam Computer Services
Limited's Practice**

We do not have an individual serving on its audit committee as an Audit Committee Financial Expert, as defined in applicable rules of the Securities and Exchange Commission. This is because our board of directors has determined that no individual audit committee member possesses all of the attributes required by the definition of Audit Committee Financial Expert.

We have a separate department for its internal audit function.

Our compensation committee has four members, each of whom is independent within the meaning of the NYSE standards.

Our compensation committee reviews among other things our general compensation structure, and reviews and recommends the compensation and benefits of directors and the chief executive officer, subject to ratification by the Board of Directors.

We do not have a nominating/corporate governance committee.

member; (ii) selecting, or recommending that the board
select, the

Companies**

director nominees for the next annual meeting of shareholders; (iii) developing and recommending to the board a set of corporate governance principles applicable to the company; (iv) overseeing the evaluation of the board and management; and (v) conducting an annual performance evaluation of the committee.

**Satyam Computer Services
Limited's Practice**

Equity-Compensation Plans

Shareholders must be given the opportunity to vote on all equity-compensation plans and material revisions thereto, with limited exceptions.

The Company is in compliance with this requirement.

Corporate Governance Guidelines

Listed companies must adopt and disclose corporate governance guidelines.

We are fully compliant with Clause 49 of the listing agreement of Indian Stock Exchanges, with regard to corporate governance guidelines. We publish a report on corporate governance in annual report which is distributed to our domestic shareholders and ADS holders annually.

Code of Business Conduct and Ethics

All listed companies, U.S. and foreign, must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.

We have adopted a Code of Business Conduct and Ethics Policy, which is available at www.satyam.com.

Memorandum and Articles of Association

The following are summaries of our Articles of Association and Memorandum of Association and the Companies Act which govern our affairs. Our Articles of Association provides that the regulations contained in Table A of the Companies Act apply to our company, so long as the regulations do not conflict with the provisions of our Articles of Association. We have filed complete copies of our Memorandum of Association and Articles of Association, as well as Table A of the Companies Act, as exhibits to our registration statement on Form F-1 filed with the Securities and Exchange Commission on May 7, 2001 (Registration No. 333-13464).

Objects and Purposes

Under our Memorandum of Association, the main objectives of our company include, but are not limited to:

Table of Contents

- § manufacturing and selling computer systems, peripherals, accessories, consumables and other computer products;
- § designing and developing computer systems and applications software for our own use and for sale and designing and developing systems and applications software for or on behalf of manufacturers, owners and users of computer systems and digital or electronic equipment; and
- § providing electronic data processing centers, word processing, software consultancy, system studies, management consultancy, feasibility studies and computer training.

Board of Directors

At each annual general meeting at least, one-third of our directors must retire from office by rotation. A retiring director is eligible for re-election and the directors to retire every year are those who have been longest in office since their last re-election or appointment. No shares are required to be held by a director for qualification as a director. In addition, save in respect of the following managerial personnel, there are no age-limit requirements for serving on our board of directors. Under the Companies Act, no person under the age of 25 or over the age of 70 is eligible for appointment as a managing director or a whole-time director or a manager of our Company, provided that persons under the age of 25 or over age 70 may be appointed with either the approval of our shareholders by a special resolution or with the approval of the Central Government. Under the Companies Act, our directors must refrain from participating in discussions and voting on any matters in which they are interested party. In addition, directors are also required to disclose such interests, if any, at meetings of the board of directors.

Managerial Remuneration

Under the Companies Act, the remuneration payable to our directors is to be determined either by the articles of the company or by an ordinary resolution passed by the company in the general meeting, unless the articles require a special resolution for the same.

As a public company, the total managerial remuneration in any year cannot exceed 11 per cent of our profits in that year. In addition, the remuneration payable to a managing or any whole-time director in any year cannot exceed 5 per cent of our net profits in that year. If there is more than one managing or whole-time director, then the aggregate remuneration to all of them cannot exceed 10 per cent of our net profits.

In addition, where a company has made no or inadequate profits, there are additional limits on the maximum remuneration payable to the directors. Approval of the Central Government would be required for payment of remuneration in excess of the limits prescribed.

Under our Articles of Association, our board of directors may, at its discretion and by means of a resolution, borrow funds on behalf of the company, create mortgages or liens on the company's property or uncalled capital and issue debentures. However, the Companies Act imposes some restrictions on the powers of the board to act without the consent of the shareholders including, for example, the ability to borrow money beyond the aggregate of our paid up capital and free reserves.

Equity Shares

Our authorized share capital is 375,000,000 equity shares, par value Rs. 2 per share. The equity shares are our only class of share capital. However, our Articles of Association and the Companies Act permit us to issue preference shares in addition to the equity shares. The rights attached to a class of shares may, subject to the provisions of the Companies Act, be varied only with either the written consent of the holders of 75% of the issued shares of that class or by special resolution passed at a separate meeting of the holders of that class.

Our equity shares are under the control of our board of directors, who may, with prior approval from the shareholders at a general meeting, allot or otherwise dispose of new equity shares in its discretion, including allotments of shares at a premium or discount in accordance with the provisions of the Companies Act. Our Articles of Association permit our board of directors to make calls on our equity shares, but only in respect of unpaid amounts on equity shares which are not fully paid-up. All of our issued and outstanding equity shares are fully paid-up.

Table of Contents**Dividends**

We paid out dividends of Rs\$41.3 million (\$1,820.5) Rs. 1,722.7 million (\$37.6 million) and Rs. 1,207.0 million (\$26.2 million) in fiscal 2006, fiscal 2005 and fiscal 2004 respectively.

Under the Indian Companies Act, unless our board of directors recommends the payment of a dividend, we may not declare a dividend. Similarly, under our Articles of Association, although the shareholders may, at the annual general meeting, approve a dividend in an amount less than that recommended by the board, they cannot increase the amount of the dividend. In India, dividends generally are declared as a percentage of the par value of a company's equity shares. The dividend recommended by the board, if any, and subject to the limitations described above, is distributed and paid to shareholders in proportion to the paid up value of their shares within 30 days of the approval by the shareholders at the annual general meeting. Pursuant to our Articles of Association and the Companies Act, our board has discretion to declare and pay interim dividends without shareholder approval. With respect to equity shares issued during a particular fiscal year (including any equity shares underlying ADSs issued to the depositary), cash dividends declared and paid for such fiscal year generally will be prorated from the date of issuance to the end of such fiscal year. Under the Companies Act, dividends can only be paid in cash to the registered shareholder at a record date fixed during or before the annual general meeting or to his order or his banker's order.

Under the Indian Companies Act, dividends and interim dividends may be paid out of profits of a company in the year in which the dividend and/or interim dividend is declared or out of the undistributed profits of previous fiscal years. Before declaring a dividend and/or interim dividend greater than 10.0% of the par value of its equity shares, a company is required under the Companies Act to transfer to its reserves a minimum percentage of its profits for that year, ranging from 2.5% to 10.0% depending upon the dividend percentage to be declared in such year. The Companies Act further provides that, in the event of an inadequacy or absence of profits in any year, a dividend and/or interim dividend may be declared for such year out of the accumulated profits, subject to the following conditions:

- § the rate of dividend to be declared may not exceed 10.0% of its paid up capital or the average of the rate at which dividends were declared by the company in the prior five years, whichever is less;
- § the total amount to be drawn from the accumulated profits earned in the previous years and transferred to the reserves may not exceed an amount equivalent to 10.0% of its paid up capital and free reserves, and the amount so drawn is to be used first to set off the losses incurred in the fiscal year before any dividends in respect of preference or equity shares are declared; and
- § the balance of reserves after withdrawals shall not fall below 5.0% of its paid up capital.

For additional information regarding dividends, please see Item 8. Financial Information

Bonus Shares

In addition to permitting dividends to be paid out of current or retained earnings as described above, the Companies Act permits us to distribute an amount transferred from the general reserve or surplus in our profit and loss account to our shareholders in the form of bonus shares, which are similar to a stock dividend. The Companies Act also permits the issuance of bonus shares from a share premium account. Bonus shares are distributed to shareholders in the proportion recommended by the board. Shareholders of record on a fixed record date are entitled to receive such bonus shares. The last bonus share issued by us was in September 1999. However, at our Board meeting held on April 21, 2006, our board of directors recommended the issuance of bonus shares in the ratio of 1:1 (one equity share for every one share held) for all existing shares including American Depository Shares. This proposed bonus issue is subject to approval by our shareholders at the upcoming annual general meeting of shareholders, expected to be held in August 2006.

Preemptive Rights and Issue of Additional Shares

The Companies Act gives shareholders the right to subscribe for new shares in proportion to their respective existing shareholding unless otherwise determined by a special resolution passed by a general meeting of the shareholders. For approval, a special resolution must be approved by a number of votes which is not less than three times the number of votes against the special resolution.

Table of Contents

If we issue equity shares and a special resolution is not approved by our shareholders, the new shares must first be offered to the existing shareholders as of a fixed record date. The offer must include: (1) the right, exercisable by the shareholders of record, to renounce the shares offered in favor of any other person; and (2) the number of shares offered and the period of the offer, which may not be less than 15 days from the date of offer. If the offer is not accepted it is deemed to have been declined. Our board is authorized under the Companies Act to distribute any new shares not purchased by the preemptive rights holders in the manner that it deems most beneficial to our company.

Annual General Meetings of Shareholders

We must convene an annual general meeting of shareholders within six months after the end of each fiscal year to adopt the accounts for such fiscal year and to transact other businesses and may convene an extraordinary general meeting of shareholders when necessary or at the request of a shareholder or shareholders holding at least 10.0% of our paid up capital carrying voting rights. The annual general meeting of the shareholders is generally convened by our Company Secretary pursuant to a resolution of the board. Written notice setting out the agenda of the meeting must be given at least 21 days (excluding the day of mailing) before the date of the general meeting to the shareholders on record. Shareholders who are registered as shareholders on the date of the general meeting are entitled to attend or vote at such meeting. Our Articles of Association provides that a quorum for a general meeting is the presence of at least five shareholders in person.

The annual general meeting of shareholders must be held at our registered office or at such other place within the city in which the registered office is located; meetings other than the annual general meeting may be held at any other place if so determined by the board. Our registered office is located at Mayfair Centre, S P Road, Secunderabad 500 003, Andhra Pradesh, India.

Voting Rights

At any general meeting, voting is by show of hands unless a poll is demanded by a shareholder or shareholders present in person or by proxy holding at least 10.0% of the total shares entitled to vote on the resolution or by those holding shares with an aggregate paid up value of at least Rs.50,000. Upon a show of hands, every shareholder entitled to vote and present in person has one vote and, on a poll, every shareholder entitled to vote and present in person or by proxy has voting rights in proportion to the paid up capital held by such shareholder. The chairman of our board has a deciding vote in the case of any tie.

Any shareholder may appoint a proxy. The instrument appointing a proxy must be delivered to us at least 48 hours before the meeting. A proxy may not vote except on a poll. A corporate shareholder may appoint an authorized representative who can vote on behalf of the shareholder, both upon a show of hands and upon a poll.

Ordinary resolutions may be passed by simple majority of those present and voting at any general meeting for which the required period of notice has been given. However, special resolutions such as amendments to our Articles of Association and the object clause of the Memorandum of Association, commencement of a new line of business, the waiver of preemptive rights for the issuance of any new shares and a reduction of share capital, require that votes cast in favor of the resolution (whether by show of hands or poll) are not less than three times the number of votes, if any, cast against the resolution. Under a recent amendment to the Indian Companies Act, certain resolutions may and certain resolutions must be passed by means of a postal ballot instead of a vote at a meeting of shareholders.

Audit and Annual Report

At least 21 days before the date of the annual general meeting of shareholders (excluding the day of mailing), we must distribute to our shareholders a detailed version of our audited balance sheet and profit and loss account and the related reports of the board and the auditors, together with a notice convening the annual general meeting. Under the Companies Act, we must file the balance sheet and annual profit and loss account presented to the shareholders within 30 days of the conclusion of the annual general meeting with the Registrar of Companies in Andhra Pradesh, India, which is the state in which our registered office is located. We must also file an annual return containing a list of our shareholders and other information, within 60 days of the conclusion of the meeting.

Table of Contents**Register of Shareholders; Record Dates; Transfer of Shares**

We maintain a register of shareholders. For the purpose of determining the shares entitled to annual dividends, the register is closed for a specified period before the annual general meeting. The date on which this period begins is the record date.

To determine which shareholders are entitled to specified shareholder rights, we may close the register of shareholders. The Companies Act and our listing agreements with the Indian stock exchanges require us to give at least seven days and fifteen days prior notice respectively to the public before such closure. We may not close the register of shareholders for more than 30 consecutive days, and in no event for more than 45 days in a year.

Following the introduction of the Depositories Act, 1996, and the repeal of Section 22A of the Securities Contracts (Regulation) Act, 1956, which enabled companies to refuse to register transfers of shares in some circumstances, the equity shares of a public company are freely transferable, subject only to the provisions of Section 111A of the Companies Act. Because we are a public company, the provisions of Section 111A apply to us. Our Articles currently contain provisions which give our directors discretion to refuse to register a transfer of shares in some circumstances. According to our Articles, our directors are required to exercise this right in the best interests of our company. While our directors are not required to provide a reason for any such refusal in writing, they must give notice of the refusal to the transferee within one month after receipt of the application for registration of transfer by our company. In accordance with the provisions of Section 111A (2) of the Companies Act, our directors may exercise this discretion if they have sufficient cause to do so. If our directors refuse to register a transfer of shares, the shareholder wishing to transfer his, her or its shares may file a civil suit or an appeal with the Company Law Board, or CLB. Pursuant to Section 111A (3), if a transfer of shares contravenes any of the provisions of the Securities and Exchange Board of India Act, 1992 or the regulations issued thereunder or the Sick Industrial Companies (Special Provisions) Act, 1985 or any other Indian laws, the CLB may, on application made by the company, a depository incorporated in India, an investor, the Securities and Exchange Board of India or other parties, direct the rectification of the register of records. The CLB may, in its discretion, issue an interim order suspending the voting rights attached to the relevant shares before making or completing its investigation into the alleged contravention. Notwithstanding such investigation, the rights of a shareholder to transfer the shares will not be restricted.

There are no maximum limits on foreign direct equity participation in the business in which our Company is engaged. With regard to share transfers, if a person resident outside India were to sell its shares to a person resident in India, approval of the RBI would be required unless the sale is made on a stock exchange or in connection with an offer made under the regulations regarding takeovers. For additional information regarding ownership restrictions, please see *Investment by Foreign Institutional Investors* below.

Under the Companies Act, unless the shares of a company are held in a dematerialized form, a transfer of shares is effected by a duly stamped instrument of transfer in the form prescribed by the Companies Act and the rules there under together with delivery of the share certificates.

We have entered into listing agreements with two of the Indian stock exchanges: Bombay Stock Exchange Limited and the National Stock Exchange of India Limited. Clause 40A of each of the listing agreements provides that if an acquisition of a listed company's shares results in the acquirer and its associates holding 5.0% or more of the company's outstanding equity shares or voting rights, the acquirer must report its holding to the company and the relevant stock exchanges. If an acquisition results in the acquirer and its associates holding equity shares that have 15.0% or more of the voting rights, then the acquirer must, before acquiring such equity shares, make an offer, in accordance with clause 40B of the listing agreements, on a uniform basis to all remaining shareholders of the company to acquire equity shares that have at least an additional 20.0% of the voting rights of the total equity shares of the company at a prescribed price. The acquisition of shares of a company listed on an Indian stock exchange may be subject to regulations governing takeovers of Indian companies. Although clauses 40A and 40B and such regulations will not apply to the equity shares so long as they are represented by ADSs, holders of ADSs may be required to comply with such notification and disclosure obligations pursuant to the provisions of the deposit agreements.

Disclosure of Ownership Interest

Section 187C of the Companies Act requires beneficial owners of shares of Indian companies who are not holders of record to declare to us details of the holder of record and the nature and details of the beneficial owner's interest in the shares. Any person who fails to make the required

Table of Contents

declaration within 30 days may be liable for a fine of up to Rs. 1,000 for each day the declaration is not made. Any lien, promissory note or other collateral agreement created, executed or entered into with respect to any equity share by its registered owner, or any hypothecation by the registered owner of any equity share, shall not be enforceable by the beneficial owner or any person claiming through the beneficial owner if such declaration is not made. Failure to comply with Section 187C will not affect our obligation to register a transfer of shares or to pay any dividends to the registered holder of any shares pursuant to which the declaration has not been made. While it is unclear under Indian law whether Section 187C applies to holders of ADSs, investors who exchange ADSs for the underlying equity shares will be subject to the restrictions of Section 187C. Additionally, holders of ADSs may be required to comply with the notification and disclosure obligations pursuant to the provisions of the deposit agreement covering the ADSs.

Company Acquisition of Equity Shares

Under the Companies Act, approval of at least 75.0% of our shareholders voting on the matter and approval of the High Court of Andhra Pradesh is required to reduce our share capital. We may, under some circumstances, acquire our own equity shares without seeking the approval of the High Court. However, we would have to extinguish any shares we have so acquired within the prescribed time period. Generally, a company is not permitted to acquire its own shares for treasury operations. An acquisition of our own shares (without having to obtain the approval of the High Court) must comply with prescribed rules, regulations and conditions as laid down in the Companies Act and the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 1998, or Buy-back Regulations.

Liquidation Rights

Subject to the rights of creditors, employees and the holders of any shares entitled by their terms to preferential repayment over the equity shares, if any, in the event of our winding-up the holders of the equity shares are entitled to be repaid the amounts of paid up capital or credited as paid up on those equity shares. All surplus assets after payments due to the holders of any preference shares at the commencement of the winding-up shall be paid to holders of equity shares in proportion to their shareholding.

Takeover Code

Under the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 1997, or Takeover Code, upon the acquisition of more than 5% or 10% or 14% or 54% or 74% of the outstanding shares or voting rights of a publicly-listed Indian company, a purchaser is required to notify the company, and the company and the purchaser are required to notify all the stock exchanges on which the shares of such company are listed. Further, the Takeover Code requires that any person holding more than 15% and less than 55% of the shares or voting rights in a company, upon the sale or purchase of 2% or more of the shares or voting rights of the company, is required to notify the company and all the stock exchanges where the shares are listed. A holder of ADSs would be subject to these notification requirements.

Upon the acquisition of 15% or more of such shares or voting rights, or a change in control of the company, the purchaser is required to make an open offer to the other shareholders, offering to purchase at least 20% of all the outstanding shares of the company at a minimum offer price determined pursuant to the Takeover Code. Since we are a listed company in India, the provisions of the Takeover Code will apply to us and to any person acquiring our equity shares or voting rights in our company. However, the Takeover Code provides for a specific exemption from this provision to a holder of ADSs and states that this provision will apply to a holder of ADSs only once he or she converts the ADSs into the underlying equity shares.

Material Contracts

Except as described herein, we have not entered into any material contracts in the two years preceding the date of this Annual Report, other than contracts entered into in the ordinary course of business.

Exchange Controls**General**

Prior to June 1, 2000, investment in Indian securities was regulated by the Indian Foreign

Table of Contents

Exchange Regulation Act, 1973. Under Section 29(1)(b) of the Indian Foreign Exchange Regulation Act, 1973, no person or company resident outside India that is not incorporated in India (other than a banking company) could purchase the shares of any company carrying on any trading, commercial or industrial activity in India without the permission of the Reserve Bank of India. Also, under Section 19(1)(d) of the Indian Foreign Exchange Regulation Act, 1973, the transfer and issuance of any security of any Indian company to a person resident outside India required the permission of the Reserve Bank of India. Under Section 19(5) of the Indian Foreign Exchange Regulation Act, 1973, no transfer of shares in a company registered in India by a non-resident to a resident of India was valid unless the transfer was confirmed by the Reserve Bank of India upon application filed by the transferor or the transferee. Furthermore, the issuance of rights and other distributions of securities to a non-resident also requires the prior consent of the Reserve Bank of India. However, the Reserve Bank of India has issued notifications over the past few years relaxing the restrictions on foreign investment in Indian companies.

As of June 1, 2000, the Indian Foreign Exchange Regulation Act, 1973 was replaced by the Indian Foreign Exchange Management Act, 1999. The Indian Foreign Exchange Management Act, 1999 contains provisions regarding current account convertibility and amendments to the definition of a resident of India. However, some of the preexisting controls and restrictions on capital account transactions remain in force. While many of the restrictions imposed by the Indian Foreign Exchange Regulation Act, 1973 have been relaxed under this new legislation, the Notifications and Guidelines issued by the Reserve Bank of India which are not inconsistent with the Indian Foreign Exchange Management Act, 1999 continue to be in force. The purchase and the transfer of shares of Indian companies continues to be regulated by the RBI. Therefore, transaction involving foreign investment in Indian securities is regulated by the provisions of the Indian Foreign Exchange Management Act, 1999 and continues to be regulated by the Reserve Bank of India.

ADR Guidelines

Shares of Indian companies represented by ADSs are no longer required to be approved for issuance to foreign investors by either Ministry of Finance or the Reserve Bank of India under the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (Through Depository Receipt Mechanism) Scheme, 1993, as modified from time to time, notified by the Government of India. This change was effected through the guidelines for ADR and GDR issues by Indian companies issued by the Ministry of Finance on January 19, 2000 and a notification issued by the Reserve Bank of India. Hence we do not require the approval of the Ministry of Finance and the Reserve Bank of India under the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (Through Depository Receipt Mechanism) Scheme, 1993. However, we will be required to furnish full particulars of the issue, including the underlying equity shares representing the ADRs, to the Ministry of Finance and the Reserve Bank of India within 30 days of the completion of an offering.

The Issue of Foreign Currency Convertible Bonds and Ordinary Shares Scheme is distinct from other policies or facilities, as described below, relating to investments in Indian companies by foreign investors. The issuance of ADSs pursuant to the Issue of Foreign Currency Convertible Bonds and Ordinary Shares Scheme also affords to owners of ADSs the benefits of Section 115AC of the Indian Income-tax Act, 1961 for purposes of the application of Indian tax law. The Government of India does not restrict the payment of dividends to the holders of our ADSs or equity shares, whether or not such holders reside in India. For additional information, please see [Taxation Indian Taxation](#) below.

Foreign Direct Investment

Currently, due to recent changes in Indian policy, subject to certain exceptions, foreign direct investment and investment by individuals of Indian nationality or origin residing outside India and non-resident Indians in Indian companies do not require the approval of the Foreign Investment Promotion Board, or FIPB, a body formed by the Government of India to negotiate with large foreign companies interested in making long-term investments in India. Furthermore, henceforth no prior approval of the Reserve Bank of India is required although a post-investment declaration in giving details of the foreign investment in the company pursuant to the ADR issue must be filed with the Reserve Bank of India within thirty days of an ADR offering.

In cases where FIPB approval is obtained, no prior approval of the Reserve Bank of India is required, although a declaration in the prescribed form as mentioned above must be filed with the Reserve Bank of India once the foreign investment is made in the Indian company. In cases where no prior approval of the FIPB is required, prior approval of

the Reserve Bank of India would also not be required. However, a declaration in the prescribed form giving details of the foreign

Table of Contents

investment must be filed with the Reserve Bank of India once the foreign investment is made in the Indian company.

In May 1994, the Government of India announced that purchases by foreign investors of ADSs and foreign currency convertible bonds of Indian companies will be treated as foreign direct investment in the equity issued by Indian companies for such offerings.

In November 1998, the Reserve Bank of India issued a notification to the effect that foreign investment in preferred shares will be considered as part of the share capital of a company and the provisions relating to foreign direct investment in the equity shares of a company discussed above would apply. Investments in preferred shares are included as foreign direct investment for the purposes of sectoral caps on foreign equity, if such preferred shares carry a conversion option. If the preferred shares are structured without a conversion option, they would fall outside the foreign direct investment limit.

The discussion on the foreign direct investment regime in India set forth above applies only to a new issuance of shares made by Indian companies, not to a transfer of shares.

Investment by Non-Resident Indians

A variety of special facilities for making investments in India in shares of Indian companies is available to individuals of Indian nationality or origin residing outside India and non-resident Indians. These facilities permit non-resident Indians to make portfolio investments in shares and other securities of Indian companies on a basis not generally available to other foreign investors. These facilities are different and distinct from investments by foreign direct investors described above.

Apart from portfolio investments in Indian companies, non-resident Indians may also invest in Indian companies through foreign direct investments. For additional information, see Foreign Direct Investment . Under the foreign direct investment rules, non-resident Indians may invest up to 100% in high-priority industries in which other foreign investors are permitted to invest only up to 50%, 51%, 74% or 100%, depending on the industry category.

Investment by Foreign Institutional Investors

In September 1992, the Government of India issued guidelines which enable Foreign Institutional Investors, or FIIs, including institutions such as pension funds, investment trusts, asset management companies, nominee companies and incorporated/institutional portfolio managers, to invest in all the securities traded on the primary and secondary markets in India. Under the guidelines, FIIs are required to obtain an initial registration from the Securities and Exchange Board of India, or SEBI, and a general permission from the Reserve Bank of India to engage in transactions regulated under the Foreign Exchange Management Act. FIIs must also comply with the provisions of the SEBI Foreign Institutional Investors Regulations, 1995. When it receives the initial registration, the FII also obtains general permission from the Reserve Bank of India to engage in transactions regulated under the Foreign Exchange Management Act. Together, the initial registration and the Reserve Bank of India's general permission enable the registered FII to: (i) buy (subject to the ownership restrictions discussed below) and sell unrestricted securities issued by Indian companies; (ii) realize capital gains on investments made through the initial amount invested in India; (iii) participate in rights offerings for shares; (iv) appoint a domestic custodian for custody of investments held; and (v) repatriate the capital, capital gains, dividends, interest income and any other compensation received pursuant to rights offerings of shares. The current policy with respect to purchase/sale of securities of an Indian company by an FII is enshrined in Schedule 2 and Regulation 5(2) of the Foreign Exchange Management (Transfer or Issue of Securities by a Person Resident Outside India) Regulations, 2000.

Apart from making portfolio investments in Indian Companies as described above, foreign institutional investors may direct foreign investments in Indian Companies. For additional information, please see Foreign Director Investment.

Ownership Restrictions

The Securities and Exchange Board of India and Reserve Bank of India regulations, restrict investments in Indian companies by FIIs and NRIs or collectively, Foreign Direct Investors. Under the current SEBI regulations applicable to us, subject to the requisite approvals of the shareholders in a general meeting, Foreign Direct Investors in aggregate may hold no more than 49% of a company's equity shares, excluding the equity shares underlying the ADSs. Pursuant to Notification

Table of Contents

No. FEMA.45/2001-RB dated September 20, 2001 under Foreign Exchange Management (Transfer or Issue of Securities by a Person Resident Outside India) (Amendment) Regulations, 2001, upon obtaining the approval of the shareholders by a special resolution, the limit of FII investment in a company may be increased to 100% for companies in the IT industry. Furthermore, SEBI regulations provide that no single FII may hold more than 10% of a company's total equity shares.

There is uncertainty under Indian law about the tax regime applicable to foreign institutional investors that hold and trade ADSs. Foreign institutional investors are urged to consult with their Indian legal and tax advisers about the relationship between the foreign institutional investor regulations and the ADSs and any equity shares withdrawn upon surrender of ADSs.

Detailed provisions relating to FII investment have been introduced by the SEBI with the introduction of the SEBI Foreign Institutional Investors Regulations, 1995. These provisions relate to the registration of FIIs, their general obligations and responsibilities, and certain investment conditions and restrictions. One such restriction is that the total investment in equity and equity-related instruments should not be less than 70% of the aggregate of all investments of an FII in India. The SEBI has also permitted private placements of shares by listed companies with FIIs, subject to the prior approval of the Reserve Bank of India under the Foreign Exchange Management Act. Such private placements must be made at the average of the weekly highs and lows of the closing price over the preceding six months or the preceding two weeks, whichever is higher.

Under the Takeover Code, which replaced the 1994 Takeover Code (as defined herein), upon the acquisition of more than 5% or 10% or 14% or 54% or 74% of the outstanding shares of a public Indian company, a purchaser is required to notify the company and the company and the purchasers are required to notify to all the stock exchanges on which the shares of the company are listed. Upon the acquisition of 15% or more of such shares or a change in control of the company, the purchaser is required to make an open offer to the other shareholders offering to purchase at least 20% of all the outstanding shares of the company at a minimum offer price as determined pursuant to the rules of the Takeover Code. Upon conversion of ADSs into equity shares, a holder of ADSs will be subject to the Takeover Code.

Open market purchases of securities of Indian companies in India by Foreign Direct Investors above the ownership levels set forth above require Government of India approval on a case-by-case basis.

Voting Rights of Deposited Equity Shares Represented by ADSs

Holders of ADSs generally have the right under the deposit agreement to instruct the depositary bank to exercise the voting rights for the equity shares represented by the related ADSs.

At our request, the depositary bank will mail to the holders of ADSs any notice of stockholders' meeting received from us together with information explaining how to instruct the depositary bank to exercise the voting rights of the securities represented by ADSs.

If the depositary bank timely receives voting instructions from a holder of ADSs, it will endeavor to vote the securities represented by the holder's ADSs in accordance with such voting instructions. In the event that voting takes place by a show of hands, the depositary bank will cause the custodian to vote all deposited securities in accordance with the instructions received by holders of a majority of the ADSs for which the depositary bank receives voting instructions.

Please note that the ability of the depositary bank to carry out voting instructions may be limited by practical and legal limitations and the terms of the securities on deposit. We cannot assure you that ADS holders will receive voting materials in time to enable them to return voting instructions to the depositary bank in a timely manner. Securities for which no voting instructions have been received will not be voted.

Taxation

The following summary of the material Indian and United States federal income and estate tax consequences of an investment in our ADSs is based upon laws and relevant interpretations thereof in effect as of the date of this document, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our equity stock, such as the tax consequences under state, local and other tax laws.

Table of Contents**Indian Taxation**

General. The following is a summary of the principal Indian tax consequences for holders of ADSs and equity shares received upon withdrawal of such equity shares who are not resident in India, whether of Indian origin or not. The following is based on the provisions of the Income-tax Act, 1961, including the special tax regime contained in Section 115AC and 115ACA of the Income-tax Act and the 1993 Regulations as amended on January 19, 2000. The Income-tax Act is amended every year by the Finance Act of the relevant year. Some or all of the tax consequences of Section 115AC and 115ACA may be amended or changed by future amendments of the Income-tax Act.

We believe this information is materially complete as of the date hereof. However, this summary is not intended to constitute a complete analysis of the individual tax consequences to non-resident holders under Indian law for the acquisition, ownership and sale of ADSs and equity shares. Personal tax consequences of an investment may vary for non-resident holders in various circumstances, and potential investors should therefore consult their own tax advisors on the tax consequences of such acquisition, ownership and sale, including specifically the tax consequences under the law of the jurisdiction of their residence and any tax treaty between India and their country of residence.

Residence. For purposes of the Income-tax Act, an individual is considered to be a resident of India during any fiscal year if he or she is in India in that year for:

a period or periods amounting to 182 days or more; or

60 days or more if within the four preceding years he/she has been in India for a period or periods amounting to 365 days or more; or

182 days or more, in the case of a citizen of India or a person of Indian origin living abroad who visits India and within the four preceding years has been in India for a period or periods amounting to 365 days or more; or

182 days or more, in the case of a citizen of India who leaves India for the purposes of employment outside India in any previous year and has within the four preceding years been in India for a period or periods amounting to 365 days or more.

A company is a resident of India if it is registered in India or the control and the management of its affairs is situated wholly in India. A firm or other association of persons is resident in India except where the control and management of its affairs is situated wholly outside India. Individuals, companies, firms and other associations of persons that are not resident of India would be treated as non-residents for purposes of the Income-tax Act.

Taxation of Distributions. There is no withholding tax on dividends paid to shareholders. However, the company paying the dividend would be subject to a dividend distribution tax of 13.75% including the presently applicable surcharge of 10%, of the total amount it distributes, declares or pays as a dividend. Additionally, an education cess at the rate of 2.0% of such tax and surcharge after which the effective dividend distribution tax payable would be 14.025%.

Any distributions of additional ADSs, equity shares or rights to subscribe for equity shares made to non-resident holders with respect to ADSs or equity shares will not be subject to Indian tax. Similarly, the acquisition by a non-resident holder of equity shares upon redemption of ADSs will not constitute a taxable event for Indian income tax purposes. Such acquisition will, however, give rise to a stamp duty as described below under Stamp Duty and Transfer Tax.

Taxation of Capital Gains. Any gain realized on the sale of ADSs or equity shares by a non-resident holder to any non-resident outside India is not subject to Indian capital gains tax.

The following is a brief summary of capital gains taxation of non-resident holders and resident employees relating to the sale of ADSs and equity shares received upon conversion of ADSs. The relevant provisions are contained mainly in sections 45, 47(vii)(a), 115AC and 115ACA, of the Income-tax Act, in conjunction with the Scheme. Effective April 1, 2002, the Finance Act, 2001 introduced a new section 115AC in place of the prevailing section 115AC of the Income-tax Act. You should consult your own tax advisor concerning the tax consequences of your particular situation.

Table of Contents

Capital gains arising to the non-resident investor on the transfer of the equity shares received upon conversion of the ADSs (whether in India or outside India to a non-resident investor) will be liable for income tax under the provisions of the Income-tax Act.

With effect from October 1, 2004 any gain realized on the sale of listed equity shares held for more than 12 months to an Indian resident or to a non-resident investor in India will not be subject to Indian capital gains tax if the STT has been paid on the transaction. With effect from June 1, 2005, the STT levied on delivery-based transactions on both buyer and seller is at the rate of 0.1 per cent and on non-delivery based transactions it is 0.02 per cent. Further, consequent to the Finance Act, 2006, with effect from June 1, 2006, the new rate of STT on delivery-based transactions (for both buyer and seller) will be 0.125% and on non-delivery based transactions it will be 0.025%.

Any gain realized on the sale of equity shares to an Indian resident, whether in India or outside India, or to a non-resident in India, on which no STT has been paid will be subject to Indian capital gains tax at the rate of 10% plus applicable surcharge on income tax and education cess at the rate of 2.0% of sale of shares on which no STT is paid. For the purpose of computing capital gains tax on the sale of the equity shares under section 115AC, the cost of acquisition of equity shares received in exchange for ADSs will be determined on the basis of the prevailing price of the equity shares on the BSE or NSE as on the date on which the relevant depository gives notice to its custodian for the delivery of such equity shares upon redemption of the ADSs, while the cost of acquisition of shares directly converted from the ADSs will be determined on the basis of the price prevailing on the BSE or the NSE on the date of conversion into shares. A non-resident holder's holding period (for purpose of determining the applicable Indian capital gains tax rate) in respect of equity shares received in exchange for ADSs commences on the date of the advice of withdrawal of such equity shares by the relevant depository to its custodian.

Capital gain realized in respect of equity shares held (calculated in the manner set forth in the prior paragraph) for 12 months or less (short-term gain) on which STT is paid in the manner and rates set out above, is subject to tax at the rate of 10% plus applicable surcharge on income tax and an education cess at the rate of 2.0%. In the event that no STT is paid, short-term gain is subject to tax at variable rates with the maximum rate of 40% plus applicable rate of surcharge on income tax and education cess at the rate of 2.0%. The actual rate of tax on short-term gains depends on a number of factors, including the legal status of the non-resident holder and the type of income chargeable in India. The provisions of the Agreement for Avoidance of Double Taxation entered into by the Government of India, or India Double Taxation Avoidance Agreement, with the country of residence of the non-resident investor will be applicable to the extent they are more beneficial to the non-resident investor.

The capital gains tax is computed by applying the appropriate tax rates to the difference between the sale price and the purchase price of the ADSs or equity shares.

It is unclear as to whether section 115AC and the Scheme are applicable to a non-resident who acquires equity shares outside India from a non-resident holder of equity shares after receipt of the equity shares upon conversion of the ADSs.

It is unclear as to whether capital gains derived from the sale of subscription rights or other rights by a non-resident holder not entitled to an exemption under a tax treaty will be subject to Indian capital gains tax. If such subscription rights or other rights are deemed by the Indian tax authorities to be situated within India, the gains realized on the sale of such subscription rights or other rights will be subject to Indian taxation. The capital gains realized on the sale of such subscription rights or other rights, which will generally be in the nature of short-term capital gains, will be subject to tax at variable rates with a maximum rate of 40% excluding the applicable surcharge and education cess, in case of a foreign company, and 30% excluding the applicable surcharge and education cess, in case of resident employees, and non-resident individuals with taxable income over Rs.150,000.

Capital Losses. Neither section 115AC nor the 1993 Regulations deals with capital losses arising on a transfer of equity shares in India. In general terms, losses arising from a transfer of a capital asset in India can only be set off against capital gains. A long-term capital loss can be set off only against a long-term capital gain. To the extent that the losses are not absorbed in the year of transfer, they may be carried forward for a period of eight assessment years immediately succeeding the assessment year for which the loss was first determined by the assessing authority and may be set off against the capital gains assessable for such subsequent assessment years. In order to set off capital losses as above, the non-resident investor would be required to file appropriate and timely

Table of Contents

tax returns in India and undergo the usual assessment procedures.

Withholding Tax on Capital Gains. Any taxable gain realized by a non-resident on the sale of ADSs or equity shares is to be withheld at the source by the buyer. However, as per the provisions of Section 196D(2) of the Income-tax Act, no withholding tax is required to be deducted from any income by way of capital gains arising to Foreign Institutional Investors as defined in Section 115AD of the Income-tax Act on the transfer of securities defined in Section 115AD of the Income-tax Act.

Buy-back of Securities. Indian companies are not subject to any tax on the buy-back of their shares. However, the shareholders will be taxed on any resulting gains. We would be required to deduct tax at source according to the capital gains tax liability of a non-resident shareholder.

Tax Treaties. Currently divided income is not subject to tax in India in the hands of the holder of the equity shares. If any equity shares are held by a non-resident investor following withdrawal thereof from the depository facility under the deposit agreements, the double taxation treaty, if any, entered into by India with the country of residence of such non-resident investor will be applicable to taxation with respect to any capital gain arising from transfer of such equity shares or the ADSs. However, during the period of fiduciary ownership of equity shares in the hands of the Depository, the provisions of the India Double Taxation Avoidance Agreement entered into by the Government of India with the country of residence of the Depository will be applicable in the matter of taxation of capital gains, if any, on ADSs.

Stamp Duty and Transfer Tax. Our equity shares are compulsorily deliverable in dematerialized form (except for trades of up to 500 equity shares which may be delivered in physical form), and accordingly, there would be no stamp duty in India on transfer of these equity shares in dematerialized form. Upon issuance of the equity shares underlying our ADSs, we are required to pay a stamp duty of Rs. 0.30 per share certificate or per share. A transfer of ADSs is not subject to Indian stamp duty. However, upon the acquisition of equity shares in physical form from the depository in exchange for ADSs, the non-resident holder will be liable for Indian stamp duty at the rate of 0.25% of the market value of the equity shares on the redemption date. Similarly upon a sale of shares in physical form, stamp duty at the rate of 0.25% of the market value of the equity shares on the trade date is payable, although customarily such duty is borne by the purchaser. Blocks of 500 or less of our equity shares may be issued and traded in physical form, and are thus subject to Indian stamp duty.

Wealth Tax. The holding of the ADSs in the hands of non-resident holders and the holding of the underlying equity shares by the depository as a fiduciary will be exempt from Indian wealth tax. Non-resident holders are advised to consult their own tax advisors in this context.

Gift Tax and Estate Duty. Indian gift tax was abolished in October 1998. In India, there is no estate duty law. As a result, no estate duty would be applicable to non-resident holders. Non-resident holders are advised to consult their own tax advisors in this context.

Service Tax. Brokerage or commission paid to stock brokers in connection with the sale or purchase of shares listed on a recognized stock exchange in India is subject to a service tax of 10%, excluding surcharges and education cess. There is an additional add on tax at the rate of 2.0%. The stock broker is responsible for collecting the service tax from the shareholder and paying it to the relevant authority.

Recent Developments Budget. The Finance Bill (No. 2) 2006 (Finance Bill), had proposed, among others, the following:

No change in the tax rates for companies or individuals is introduced: the effective corporate tax rate for domestic companies stays at 33.66% and for foreign companies at 41.82%

Increase in Rate of Minimum Alternate Tax (MAT) that is levied on companies from 7.5% to 10%; however, the carryforward period for MAT credit shall be increased from 5 years to 7 years

Long-term capital gains on the sale of listed securities, which is otherwise tax exempt, will now have to be considered for MAT purposes

Increase in Securities Transaction Tax (STT) by 25% for all categories w.e.f. from June 1, 2006

Table of Contents

The Finance Bill received the assent of the President on April 18, 2006 and has been enacted. Consequently, the above proposed provisions have come into effect.

U.S. Taxation

The following discussion describes the material U.S. federal income tax consequences under present law of an investment in the ADSs or equity shares. This summary applies only to investors that hold the ADSs or equity shares as capital assets and that have the U.S. dollar as their functional currency. This discussion is based on the tax laws of the United States as in effect on the date of this document and on U.S. Treasury regulations in effect or, in some cases, proposed, as of the date of this document, as well as judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which change could apply retroactively and could affect the tax consequences described below.

The following discussion does not deal with the tax consequences to any particular investor or to persons in special tax situations such as:

banks;

financial institutions;

insurance companies;

broker dealers;

traders that elect to mark to market;

tax-exempt entities;

persons liable for alternative minimum tax;

U.S. expatriates;

persons holding an ADS or equity share as part of a straddle, hedging, conversion or integrated transaction;

persons that actually or constructively own 10% or more of our voting stock; or

persons holding ADSs or equity shares through partnerships or other pass-through entities.

PROSPECTIVE PURCHASERS ARE URGED TO CONSULT THEIR TAX ADVISORS ABOUT THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES AS WELL AS THE STATE AND LOCAL AND FOREIGN TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ADSs OR EQUITY SHARES.

The discussion below of the U.S. federal income tax consequences to U.S. Holders will apply if you are the beneficial owner of ADSs or equity shares and you are, for U.S. federal income tax purposes, a citizen or resident of the U.S.;

a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized under the laws of the U.S., any State or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

a trust that (1) is subject to the supervision of a court within the United States and the control of one or more U.S. persons or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

Table of Contents

If a partnership holds ADSs or equity shares, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of the partnership. Partners of partnerships holding ADSs or equity shares should consult their own tax advisors regarding the U.S. federal income tax consequences to them of the acquisition, ownership and disposition of ADSs or equity shares.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement will be complied with in accordance with the terms. If you hold ADSs, you should be treated as the holder of the underlying equity shares represented by those ADSs for U.S. federal income tax purposes.

The U.S. Treasury has expressed concerns that parties to whom ADSs are pre-released may be taking actions that are inconsistent with the claiming, by U.S. Holders of ADSs, of foreign tax credits for U.S. federal income tax purposes. Such actions would also be inconsistent with the claiming of the reduced rate of tax applicable to dividends received by certain non-corporate U.S. Holders, as described below. Accordingly, the availability of the reduced tax rate for dividends received by certain non-corporate U.S. Holders could be affected by future actions that may be taken by the U.S. Treasury.

Dividends

Subject to the passive foreign investment company rules discussed below, the gross amount of distributions made by us with respect to the ADSs or the equity shares will generally be includable in your gross income in the year received as foreign source dividend income to the extent that such distributions are paid out of our current or accumulated earnings and profits as determined under U.S. federal income tax principles. To the extent, if any, that the amount of any such distribution exceeds our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, it will be treated first as a tax-free return of your tax basis in the ADSs or the equity shares (thereby increasing the amount of any gain or decreasing the amount of any loss realized on the subsequent sale or disposition of such ADSs or equity shares) and thereafter as capital gain. No dividends received deduction will be allowed for U.S. federal income tax purposes with respect to dividends paid by us. With respect to non-corporate U.S. Holders, including individuals, for taxable years beginning before January 1, 2009, dividends may be qualified dividend income which is taxed at the lower applicable capital gains rate provided that (1) either (a) we are eligible for the benefits of the income tax treaty between the United States and India or (b) the ADSs or equity shares, as applicable, are readily tradable on an established securities market in the United States, (2) we are not a passive foreign investment company (as discussed below) for either our taxable year in which the dividend was paid or the preceding taxable year and (3) certain holding period requirements are met. Under Internal Revenue Service authority, common shares, or ADSs representing such shares, are considered to be readily tradable on an established securities market in the United States if they are listed on the New York Stock Exchange, as our ADSs are. You should consult your own tax advisors regarding the availability of the lower rate for dividends paid with respect to ADSs or equity shares.

The amount of any distribution paid in Indian rupees will be equal to the U.S. dollar value of such Indian rupees on the date such distribution is received by the depository, in the case of ADSs, or by you, in the case of equity shares, regardless of whether the payment is in fact converted into U.S. dollars at that time. Gain or loss, if any, realized on the sale or other disposition of such Indian rupees will generally be U.S. source ordinary income or loss. The amount of any distribution of property other than cash will be the fair market value of such property on the date of distribution.

For foreign tax credit purposes, dividends distributed by us with respect to ADSs or equity shares will generally constitute passive income or, in the case of certain U.S. Holders, financial services income. For taxable years beginning after December 31, 2006; dividends distributed by us with respect to ADSs or equity shares would generally constitute passive category income but could, in the case of certain U.S. Holders, constitute general category income. A U.S. Holder will not be able to claim a U.S. foreign tax credit for any Indian taxes imposed with respect to distributions on equity shares or ADSs (as discussed under Indian Taxation Taxation of Distributions.).

Sale or Other Disposition of ADSs or Equity Shares

Subject to the passive foreign investment company rules discussed below, upon a sale or other

Table of Contents

disposition of ADSs or equity shares, you will recognize a capital gain or loss for U.S. federal income tax purposes in an amount equal to the difference between the amount realized and your tax basis in such ADSs or equity shares. Your tax basis in your ADSs or equity shares will generally equal the cost of such ADSs or equity shares, as applicable. Any such gain or loss will generally be U.S. source gain or loss and will be treated as long-term capital gain or loss if your holding period in the ADSs or the equity shares exceeds one year. If you are a non-corporate U.S. Holder, including an individual, any capital gain generally will be subject to U.S. federal income tax at preferential rates if specified minimum holding periods are met. The deductibility of capital losses is subject to significant limitations.

Because capital gains generally will be treated as U.S. source gain, as a result of the U.S. foreign tax credit limitation, any Indian income tax imposed upon capital gains in respect of equity shares or ADSs (as discussed under Indian Taxation Taxation of Capital Gains) may not be currently creditable unless a U.S. Holder has other foreign source income for the year in the appropriate U.S. foreign tax credit limitation basket.

Stamp Duty and Transfer Tax

A U.S. Holder generally will not be able to claim a U.S. foreign tax credit for any Indian stamp duty for which such U.S. Holder is liable (as discussed under Indian Taxation Stamp Duty and Transfer Tax) and which is paid by such U.S. Holder. You should consult your tax advisor regarding the effect of payment of any Indian stamp duty.

Passive Foreign Investment Company

A non-U.S. corporation is considered a passive foreign investment company (a PFIC) for any taxable year if either at least 75% of its gross income is passive income, or

at least 50% of the value of its assets (determined on the basis of a quarterly average) is attributable to assets that produce or are held for the production of passive income.

We will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock.

We do not believe that we were a PFIC for the taxable year ended March 31, 2006, and we do not anticipate that we will be a PFIC for future taxable years. This is a factual determination, however, that must be made annually at the end of the taxable year. Therefore there can be no assurance that we will not be classified as a PFIC for the current taxable year or for any future taxable year. If we were classified as a PFIC for any taxable year during which you held our ADSs or equity shares, you could be subject to materially adverse tax consequences with respect to certain distributions on, and gain realized from a disposition of, ADSs or equity shares.

You should consult your own tax advisors regarding the potential application of the PFIC rules to your ownership of ADSs or equity shares.

U.S. Information Reporting and Backup Withholding

Dividend payments with respect to ADSs or equity shares and proceeds from the sale, exchange or redemption of ADSs or equity shares may be subject to information reporting to the Internal Revenue Service and possible U.S. backup withholding at a current rate of 28%. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes any other required certification or who is otherwise exempt from backup withholding. U.S. Holders who are required to establish their exempt status generally must provide such certification on Internal Revenue Service Form W-9. U.S. Holders should consult their tax advisors regarding the application of the U.S. information reporting and backup withholding rules.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with

Table of Contents

the Internal Revenue Service and furnishing any required information.

The above summary is not intended to constitute a complete analysis of all tax consequences relating to ownership of equity shares or ADSs. You should consult your own tax advisor concerning the tax consequences of your particular situation.

Documents On Display

Publicly filed documents concerning our company which are referred to in this document may be inspected and copied at the public reference facilities maintained by the SEC at:

Judiciary Plaza
450 Fifth Street, N.W.
Room 1024
Washington, D.C. 20549

Copies of these materials can also be obtained from the Public Reference Section of the SEC, 450 Fifth Street, N.W., Washington D.C. 20549, at prescribed rates.

The SEC maintains a website at www.sec.gov that contains reports, proxy and information statements and other information regarding registrants that make electronic filings with the SEC using its EDGAR system.

Subsidiary Information

Not applicable.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our currency, maturity and interest rate information relative to our short-term and long-term debt are disclosed in Note. 12 Borrowings to our consolidated financial statements.

The table below provides information about our financial instruments that are sensitive to changes in interest rates and foreign currencies as of the dates shown. Weighted average variable rates were based on average interest rates applicable to the loans. The information is presented in U.S. dollars, which is our reporting currency, based on the applicable exchange rates as of the relevant period end. Actual cash flows are denominated in various currencies, including U.S. dollars and Indian rupees.

	2006		As at March 31, 2005		2004	
	Total Recorded Amount	Fair Value	Total Recorded Amount	Fair Value	Total Recorded Amount	Fair Value
Debt:						
Variable rate short-term debt	\$ 4.1	\$ 4.1	\$ 1.7	\$ 1.7		
Average interest rate		5.33%		3.61%		
Variable rate long termdebt	\$ 16.1	\$ 16.1				
Average interest rate		5.58%				
Fixed rate long-term debt	\$ 4.2	\$ 4.2	\$ 4.3	\$ 4.3	\$ 4.1	\$ 4.1
Average interest rate		7.78%		9.49%		10.93%

Limitations: Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

We also face market risk relating to foreign exchange rate fluctuations, principally relating to the fluctuation of U.S. dollar to Indian rupee exchange rate. Our foreign exchange risk principally

Table of Contents

arises from accounts payable to overseas vendors. This risk is partially mitigated as we have receipts in foreign currency from overseas customers and hold balances in foreign currency with overseas banks.

During fiscal 2006 and 2005, 98.6% and 96.6 %, respectively, of our revenues were generated outside of India. Using sensitivity analysis, a hypothetical 10% increase in the value of the Indian rupee against all other currencies would decrease revenue by 2.3 %, or \$24.9 million, in fiscal 2006, 1.8 %, or \$14.5 million, in fiscal 2005 while a hypothetical 10% decrease in the value of the Indian rupee against all other currency would increase revenue by 2.3% or \$24.9 million in fiscal 2006 and 1.8 % or \$14.5 million in fiscal 2005.

We had outstanding forward and options contract amounting to \$216.0 million and \$301.5 million as at March 31, 2006 and 2005, respectively. Gains/ (losses) on outstanding forward and options contracts amounted to \$(1.4) million and \$1.1 million during fiscal 2006 and 2005 respectively. Using sensitivity analysis, a hypothetical 1% increase in the value of the Indian rupee against all other currencies would decrease these gains by \$0.8 million in fiscal 2006 and by \$1.6 million in fiscal 2005 while a hypothetical 1% decrease in the value of the Indian rupee against all other currency would increase these gains by \$0.8 million in fiscal 2006 and \$1.6 million in fiscal 2005.

In the opinion of management, a substantial portion of this fluctuation would be offset by expenses incurred in local currencies. As a result, the aggregate of the hypothetical movement described above of the value of the Indian rupee against all other currencies in either direction would have impacted our earnings before interest and taxes by \$25.7 million in fiscal 2006 and \$16.1 million in fiscal 2005. This amount would be offset, in part, from the impacts of local income taxes and local currency interest expense. As of March 31, 2006, we had approximately \$277.3 million of non-Indian rupee denominated cash and cash equivalents.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not applicable.

Table of Contents

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

Not applicable.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

In May 2001, we completed an offering of 16,675,000 ADSs (representing 33,350,000 equity shares) at a price of \$9.71 per ADS. We received approximately \$150.6 million in cash, net of underwriting discounts, commissions and other offering costs. Our Securities Act registration statement on Form F-1 with respect to the offering was declared effective by the Securities and Exchange Commission on May 14, 2001 (Registration No. 333-13464). As of March 31, 2006, approximately \$106.4 million of these proceeds has been used for prepayment of loans (\$26.9 million); strategic investments in our subsidiaries (\$32.7 million); development of facilities and infrastructure (\$21.2 million) and working capital and general corporate purposes (\$25.6 million). We intend to use the balance of the net proceeds to fund expansion of our existing facilities and communication network in different locations in India and outside India; to develop new facilities within and outside India; to investment in joint ventures and other strategic investments; and for working capital and general corporate purposes. None of the net proceeds from our ADS offering were paid, directly or indirectly, to any of our directors, officers or general partners or any of their associates, or to any persons owning ten percent or more of any class of our equity securities, or any affiliates.

ITEM 15. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and, in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. As we do not control or manage these entities, our disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those we maintain with respect to our consolidated subsidiaries.

We have carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer, Chief Financial Officer and other management, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded with a reasonable level of assurance that our disclosure controls and procedures were effective as of March 31, 2006.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our Audit Committee members (as of March 31, 2006) are V.P. Rama Rao, Mangalam Srinivasan and M Rammohan Rao, each of whom is an independent director pursuant to the applicable rules of the Securities Exchange Commission and the NYSE. Mr. Krishna G Palepu stepped down from the Audit Committee in fiscal 2006 and was replaced by Mr. M Rammohan Rao See Item 6. Directors, Senior Management and Employees for the experience and qualifications of the members of the Audit Committee. We do not have an individual serving on our audit committee as an Audit Committee Financial Experts, as defined in applicable rules of the Securities and Exchange Commission. This is because although our audit committee members have certain financial expertise, our board of directors has determined that no individual audit committee member possesses all of the attributes required by the definition of Audit Committee Financial Expert.

Table of Contents**ITEM 16B. CODE OF ETHICS**

We have adopted a written Code of Ethics that is applicable to all of our directors, senior management and employees. We will make available a copy of the Code of Ethics to any person, without charge, if a written request is made to our Company Secretary at Mayfair Center, SP Road, Secunderabad 500 003, Andhra Pradesh, India.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The following table sets forth the remuneration that we paid to our Independent Auditors and its associated entities in each of our previous two fiscal years:

(Amounts in \$)

Fiscal Year Ended	Audit Services	Audit Related Services	Tax Services	Other Services	Total
March 31, 2006	\$493,120	\$206,010	\$109,717	\$10,245	\$819,092
2005	\$273,437	\$148,036	\$117,007	\$95,707	\$634,187

Audit Services

Audit of the standalone financial statements, consolidated financial statements of the Company and its subsidiaries prepared in accordance with Indian GAAP, US GAAP and other local GAAPs of the subsidiaries and attest services that generally only the auditor can provide.

Audit Related Services

Audit Related Services represent assurance and related services that are related to the performance of the audit of the Company's financial statements.

Tax Services

Tax audit, tax returns, tax processing, tax filing and advisory services pertaining to withholding taxes, double tax avoidance agreements, indirect tax matters, etc.

Other Services

Work permit related services and other advisory services

During fiscal 2006, the Audit Committee pre-approved a list of services that could be rendered by the principal accountant in fiscal 2006 pursuant to pre-approval policies and procedures established by the Audit Committee. For services other than those specified, approval would need to be obtained from the Audit Committee prior to the performance of such services. Services provided by the principal accountant in fiscal 2005 were allowable services that were approved by the Audit Committee.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Satyam Computer Services Limited:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of shareholders equity and comprehensive income and of cash flows present fairly, in all material respects, the financial position of Satyam Computer Services Limited and its subsidiaries at March 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three year period ended March 31, 2006 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

1. Description of Business

Satyam Computer Services Limited, its consolidated subsidiaries and associated companies (hereinafter referred to as *Satyam*) are engaged in providing Information Technology (IT) services and Business Process Outsourcing (BPO) services. Satyam Computer Services Limited (hereinafter referred to as *Satyam Computer Services*) is an IT services provider that uses global infrastructure to deliver value-added services to its customers, to address IT needs in specific industries and to facilitate electronic business, or eBusiness, initiatives. Satyam Computer Services was incorporated on June 24, 1987 in Hyderabad, Andhra Pradesh, India. Satyam Computer Services has offshore development centers located throughout India that enable it to provide high quality and cost-effective solutions to clients. It also has offsite centers located in the United States, United Kingdom, Japan, Australia, Singapore, Malaysia, Dubai, Germany, Canada, China and Hungary. Satyam offers a comprehensive range of IT services, including application development and maintenance, consulting and enterprise business solutions, extended engineering solutions and infrastructure management services. Satyam Computer Services has established a diversified base of corporate customers in a wide range of industries including insurance, banking and financial services, manufacturing, telecommunications, transportation and engineering services.

Nipuna Services Limited (Nipuna) a wholly owned subsidiary of Satyam Computer Services is engaged in providing BPO services covering HR, Finance & Accounting, Customer Care (Voice, Mail and Chat), and Transaction Processing (industry-specific offerings).

2. Summary of Significant Accounting Policies**a) Principles of Consolidation and Basis of Presentation**

The consolidated financial statements of Satyam Computer Services and its majority owned domestic and foreign subsidiaries are prepared in accordance with generally accepted accounting principles applicable in the United States (U.S. GAAP). All significant inter-company balances and transactions are eliminated.

Minority interest in subsidiaries represents the minority shareholders' proportionate share of the net assets and the results of operations of Satyam's majority owned subsidiaries.

Satyam's investments in business entities in which it does not have control, but have the ability to exercise significant influence over operating and financial policies (generally 20-50 percent ownership), are referred to as associated companies and are accounted for by the equity method.

On occasion, a subsidiary or associated company accounted for by the equity method (offering company) may issue its shares to third parties as either a public offering or private placement at per share amounts in excess of or less than Satyam's average per share carrying value. With respect to such transactions, the resulting gains or losses arising from the change in interest are recorded in additional paid-in capital. Gains or losses arising on the direct sales by Satyam of its investment in its subsidiaries or associated companies to third parties are recognized as income/(loss) in the statement of income. Such gains or losses are the difference between the sale proceeds and net carrying value of investments.

The excess of the cost over the underlying net equity of investments in subsidiaries and associated companies accounted for on equity basis is allocated to identifiable assets based on fair values at the date of acquisition. The unassigned residual value of the excess of the cost over the underlying net equity is recognized as goodwill.

b) Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as of the date of the financial statements and the reported amount of revenues and expenses during the reported period. Examples of such estimates include: estimates of expected contract costs to be incurred to complete software development, allowance for doubtful debts, and future obligations under employee benefit plans, valuation allowances for deferred taxes, impairment of goodwill and useful lives of premises and equipment (fixed assets). Actual results could differ materially from those estimates.

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

c) Foreign Currency Translation

The accompanying consolidated financial statements are reported in U.S. dollars. The Indian rupee is the functional currency for Satyam Computer Services, its domestic subsidiaries and associated companies. However, the U.S. Dollar, Pound Sterling, Singapore Dollar and Renminbi are the functional currencies for its foreign subsidiaries located in U.S., UK, Singapore and China respectively. The translation of the functional currencies into U.S. dollars is performed for assets and liabilities using the current exchange rates in effect at the balance sheet date and for revenues, costs and expenses using average exchange rates prevailing during the reporting periods. Adjustments resulting from the translation of functional currency financial statements to reporting currency are accumulated and reported as other comprehensive income/(loss), a separate component of shareholders' equity.

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are expressed in the functional currency at the exchange rates in effect at the balance sheet date. Revenues, costs and expenses are recorded using exchange rates prevailing on the date of transaction. Gains or losses resulting from foreign currency transactions are included in the statement of income.

d) Revenue Recognition

Revenues from IT services, which includes software development, system maintenance, package software implementation, engineering design services and e-Business consist of revenues earned from services performed either on a time-and-material basis or time bound fixed price engagements.

Revenues earned from services performed on a time-and-material basis are recognized as the services are performed. IT services performed on time bound fixed-price engagements; require accurate estimation of the costs which include salaries and related expenses of technical associates, related communication expenses, travel costs, scope and duration of each engagement. Revenue and the related costs for these projects are recognized on percentage of completion basis, with revisions to estimates reflected in the period in which changes become known. Provisions for estimated losses on such engagements are made during the period in which a loss becomes probable and can be reasonably estimated.

Revenues from BPO services consist of revenues from time-and-material services or time bound fixed price engagements. Revenues from time-and-material services are recognized as the services are performed. Revenues from BPO services are also on time bound fixed-price engagements, under which revenue is recognized using the percentage completion method of accounting. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the period in which the change becomes known. Provisions for estimated losses are made during the year in which a loss becomes probable and can be reasonably estimated.

Amounts included in the financial statements, which relate to recoverable costs and accrued profits not yet billed on contracts, are classified in current assets as Unbilled revenue on contracts. Billings on uncompleted contracts in excess of accrued cost and accrued profit are classified in current liabilities under the heading Unearned and deferred revenue. Satyam provides its clients with one to three months warranty as post-sale support for its fixed price engagements. Satyam has not provided for any warranty costs for the for the years ended March 31, 2006, 2005 and 2004 as historically Satyam has not incurred any expenditure on account of warranties and since the customer is required to formally sign off on the work performed, any subsequent work is usually covered by an additional contract.

In accordance with Emerging Issues Task Force (EITF) 01-14 (formerly Topic D-103), Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred, Satyam has accounted for reimbursements received for out-of-pocket expenses incurred as revenues in the statement of income.

e) Cash and Cash Equivalents

Satyam considers all highly liquid investments with an original maturity or remaining maturity of three months or less at the date of purchase to be cash equivalents. Cash equivalents are stated at cost, which approximates their fair value due to the short maturity of the investments. Cash and claims to cash that are restricted as to withdrawal or use in the ordinary course of business are classified as other receivables under current assets, unless they are to be utilized for

other than current operations in which case they are classified as other assets, non-current.

f) Premises, Equipment and Depreciation

Premises and equipment are stated at actual cost less accumulated depreciation. Assets under capital leases are stated at the present value of minimum lease payments. Depreciation is computed using the straight-line method over the estimated useful lives. Assets under capital leases and leasehold improvements are amortized straight-line over their estimated useful life or the lease term, as appropriate. Costs of application software for internal use are

F-10

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

generally charged to income as incurred due to its estimated useful lives being relatively short, usually less than one year.

The cost and the accumulated depreciation for premises and equipment sold, retired or otherwise disposed off are removed from the stated values and the resulting gains and losses are included in the statement of income. Interest related to the construction of qualifying assets is capitalized. Advances paid towards the acquisition of premises and equipment outstanding at each balance sheet date and the cost of premises and equipment not put to use before such date are disclosed as Assets under Construction.

g) Software Development Costs

Satyam capitalizes internally generated software development costs under the provisions of Statement of Financial Accounting (SFAS) 86, *Accounting for Costs of Computer Software to be Sold, Leased or Otherwise Marketed*. Capitalization of computer software development cost begins upon the establishment of technological feasibility, which Satyam has defined as the completion of a prototype. Costs incurred prior to establishment of technological feasibility and other research and development expenses are charged to income as incurred. Costs incurred by Satyam between completion of the prototype and the point at which the product is ready for general release have been insignificant.

Research and development expenses charged to income amounted to US\$0.5 million and US\$0.6 million and US\$0.6 million for the years ended March 31, 2006, 2005 and 2004 respectively.

h) Goodwill and Other Intangible Assets

Goodwill represents the difference between either a) the purchase price and the fair value of assets and liabilities acquired and/or b) the purchase price and additional interest in subsidiaries acquired from minority shareholders. Upto March 31, 2002, goodwill and other intangible assets including license fees were amortized over the useful lives principally over a period of 5 years based on management's estimate. Goodwill is tested for impairment annually and reviewed for triggering events when circumstances indicate that the carrying amount may not be recoverable, and written down when impaired, rather than being amortized as required by previous standards. Further in accordance with SFAS 142 purchased intangible assets other than goodwill are amortized over their useful lives unless these lives are determined to be indefinite.

i) Impairment of Long-lived Assets

Satyam accounts for impairment of long-lived assets in accordance with the provisions of SFAS 144 *Accounting for the Impairment or Disposal of Long-Lived Assets* on April 1, 2002. Satyam reviews long-lived assets, for impairment whenever events or changes in business circumstances indicate the carrying amount of assets may not be fully recoverable. Each impairment test is based on a comparison of the undiscounted cash flows expected to be generated from the use of the asset to its recorded value. If impairment is indicated, the asset is written down to its fair value. Assets to be disposed are reported at the lower of the carrying value or the fair value less cost to sell.

j) Investments

Satyam has evaluated its investment policies consistent with the provisions of SFAS 115, *Accounting for Certain Investments in Debt and Equity Securities*, and determined that all of its marketable investment securities are to be classified as available-for-sale. Accordingly, such securities are carried at fair value with unrealized gains and losses, net of taxes, reported as a separate component of other comprehensive income/(loss) until realized. Realized gains and losses and decline in value judged to be other-than-temporary are included in other income. The cost of securities sold is based on the first-in-first-out (FIFO) method. Interest and dividends on securities classified as available-for-sale are recognized when earned and included in other income. Other investments that are not marketable are carried at cost, subject to tests of other than temporary impairment.

k) Cost of Revenues and Selling, General and Administrative Expenses

Cost of revenues primarily include the compensation cost of technical staff, depreciation on dedicated assets and system and application software costs, amortization of intangibles, travel costs, data communication expenses and other expenses incurred that are related to the generation of revenue.

Selling, general and administrative expenses generally include the compensation costs of sales, management and administrative personnel, travel costs, advertising, business promotion, depreciation on assets, rent, repairs, electricity and other general expenses not attributable to cost of revenues.

l) Advertising Costs

Satyam expenses all advertising costs as incurred. Advertising costs charged to income amounted to US\$2.2 million and US\$1.1 million and US\$1.0 million for the years ended March 31, 2006, 2005 and 2004 respectively.

F-11

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

m) Employee Benefits*i) Provident Fund*

In accordance with Indian law, employees are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (presently 12.0%) of the employees' basic salary. Satyam has no further obligations under the plan beyond its monthly contributions. These contributions are made to the fund administered and managed by the Government of India. Satyam's monthly contributions are charged to income in the period they are incurred.

ii) Gratuity Plan

Satyam has a defined benefit retirement plan (the Gratuity Plan) covering all its employees in India. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and years of employment with Satyam.

Satyam provides for the Gratuity Plan on the basis of actuarial valuation. The entire Gratuity Plan of Satyam Computer Services and Nipuna is unfunded.

iii) Superannuation Plan

In addition to the above benefits, the senior employees of Satyam Computer Services in India are entitled to receive benefits under the Superannuation Plan, a defined contribution plan. Satyam Computer Services makes yearly contributions under the Superannuation plan administered and managed by LIC, based on a specified percentage (presently 10.0%) of each covered employee's basic salary. Satyam Computer Services has no further obligations under the plan beyond its contributions.

iv) Other Benefit Plans

Satyam maintains a 401(k) retirement plan (the 401(k) Plan) covering all its employees in the United States. Each participant in the 401(k) Plan may elect to contribute up to 15.0% of his or her annual compensation to the 401(k) Plan. Satyam matches 50.0% of employee contributions, subject to a maximum of 3.0% of gross salary for all employees participating in the 401(k) plan. Effective October 1, 2003, Satyam Computer Services has discontinued its matching contribution under this plan.

n) Income Taxes

In accordance with the provisions of SFAS 109, *Accounting for Income Taxes*, income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statement of income in the period of enactment. Based on management's judgment, the measurement of deferred tax assets is reduced, if necessary, by a valuation allowance for any tax benefits for which it is more likely than not that some portion or all of such benefits will not be realized.

o) Earnings Per Share

In accordance with the provisions of SFAS 128, *Earnings Per Share*, basic earnings per share is computed on the basis of the weighted average number of shares outstanding during the period. Diluted earnings per share is computed on the basis of the weighted average number of common and dilutive common equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results will be anti-dilutive.

p) Stock-Based Compensation

Satyam uses the intrinsic value-based method of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations including Financial Accounting Standards Board (FASB) Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation an interpretation of APB Opinion No. 25*, issued in March 2000 to account for its employee stock-based compensation plan. Satyam has therefore adopted the pro-forma disclosure requirements of SFAS No. 123, *Accounting for Stock-Based Compensation* and SFAS 148, *Accounting for Stock-Based Compensation Transition and Disclosure, an*

amendment of FASB Statement No. 123. Pursuant to SFAS No. 123, all equity instruments issued to non-employees are accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable.

F-12

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

Pro forma disclosure

Had deferred stock-based compensation cost been recognized based on the fair value at the date of grant in accordance with SFAS 123, the pro forma amounts of Satyam's net income and earnings per share would have been as follows for the years ended March 31, 2006, 2005 and 2004 respectively.

(US\$ in millions except per share data)

	2006	Year ended March 31,	
		2005	2004
Net Income			
As reported	\$ 249.4	\$ 153.8	\$ 111.9
Add: Charge under APB25	0.8	1.9	1.6
Less: Charge under FAS123	(22.2)	(22.6)	(25.2)
 Pro forma	 \$ 228.0	 \$ 133.1	 \$ 88.3
 Earnings Per Share:			
Basic			
As reported	\$ 0.78	\$ 0.49	\$ 0.36
Pro forma	\$ 0.71	\$ 0.42	\$ 0.28
Diluted			
As reported	\$ 0.75	\$ 0.48	\$ 0.35
Pro forma	\$ 0.69	\$ 0.41	\$ 0.28

Note: The pro forma disclosures shown above are not representative of the effects on net income and earnings per share in future years.

The fair value of Satyam Computer Services' stock options used to compute pro forma net income and earnings per share disclosures is the estimated present value at grant date using the Black-Scholes option-pricing model.

The following weighted average assumptions were used:

	2006	Year ended March 31,	
		2005	2004
Dividend yield	0.75%	0.75%	0.61%
Expected volatility	57.22%	61%	69%
Risk-free interest rate	7%	7%	7%
Expected term (in years)	1.26	2.03	2.69

q) Derivative financial instruments

Satyam has adopted the provisions of SFAS 133, *Accounting for Derivative Instruments and Hedging Activities* as amended. Satyam enters into foreign exchange forward and options contracts where the counter party is generally a bank. Satyam purchases foreign exchange forward and options contracts to mitigate the risk of changes in foreign exchange rates on cash flows denominated in certain foreign currencies. These contracts do not qualify for hedge accounting under SFAS 133, as amended. Any derivative that is either not a designated hedge, or is so designated but is ineffective per SFAS 133, as amended is marked to market and recognized in earnings immediately.

r) Recently issued accounting pronouncements

Share-Based Payments

On December 16, 2004, the FASB issued FAS 123R, *Share-Based Payment, an amendment of FASB Statements No. 123 and 95*, that addressed the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for either equity instruments of the enterprise or liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. This statement eliminates the ability to account for share-based compensation transactions using the intrinsic value method as prescribed by Accounting Principles Board, or APB, Opinion No. 25, *Accounting for Stock Issued to Employees*, and require that such transactions be accounted for using a fair-value-based method and recognized as expenses in our consolidated statement of income. The standard requires that the modified prospective method be used, which requires that the fair value of new awards granted from the beginning of the year of adoption (plus unvested awards at the date of adoption) be expensed over the vesting period. In addition,

F-13

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

the statement encourages the use of the binomial approach to value stock options, which differs from the Black-Scholes option pricing model that we currently use in the footnotes to our consolidated financial statements. The revised FAS 123R as issued by FASB will have a significant impact on our consolidated statement of income as Satyam Computer Services, our subsidiaries and our associated companies will be required to expense the fair value of our stock option grants rather than expensing the intrinsic value of stock options as is our current practice. FAS 123R will be applicable to Satyam for annual periods beginning after June 15, 2005. Management estimates the likely impact of SFAS 123R to be similar to the amounts disclosed as pro forma disclosures in accordance with SFAS 123.

Accounting Changes and Error Corrections

In May 2005, FASB Issued FAS No. 154, *Accounting Changes and Error Corrections* a replacement of APB No. 20 and FAS No. 3. FAS 154 provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. FAS 154 also provides guidance for determining whether retrospective application of a change in accounting principle is impracticable and for reporting a change when retrospective application is impracticable. The correction of an error in previously issued financial statements is not an accounting change. However, the reporting of an error correction involves adjustments to previously issued financial statements similar to those generally applicable to reporting an accounting change retrospectively. Therefore, the reporting of a correction of an error by restating previously issued financial statements is also addressed by FAS 154. FAS 154 shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of this standard is not expected to have a material impact on Satyam's consolidated financial statements.

s) Reclassifications

Certain items previously reported in specific financial statement captions have been reclassified to conform to the current period's presentation.

3. Acquisitions**a) Citisoft Plc.**

On May 12, 2005, Satyam acquired a 75% interest in Citisoft Plc or Citisoft, a specialist business and systems consulting firm located in the United Kingdom that has focused on the investment management industry since 1986. The results of Citisoft's operations have been consolidated by Satyam Computer Services from the consummation date of May 12, 2005. The acquisition has been accounted for by following the purchase method of accounting. The consideration for the 75% equity interest in Citisoft amounted to US\$17.4 million comprising of an initial consideration of US\$14.3 million (including direct acquisition costs of US\$0.9 million) and deferred consideration (non-contingent) of US\$3.1 million payable on April 30, 2006. Satyam Computer Services is also required to pay a maximum earn out consideration amounting to US\$3.9 million on April 30, 2006 based on achievement of targeted revenues and profits. The deferred consideration for the acquisition of the 75% equity interest has been accounted for as part of the purchase consideration and shown as a current liability in the balance sheet. The earn-out consideration will be accounted for as purchase consideration when the contingency is resolved.

Satyam Computer Services has a call option and the minority shareholders have a put option to acquire / sell the balance 25% equity shares in two tranches 12.5% on April 30, 2007 and 12.5% on April 30, 2008. The consideration payable for the first tranche of 12.5% equity shares on April 30, 2007 would amount to US\$2.8 million and a maximum earn-out consideration amounting to US\$2.4 million based on achievement of targeted revenues and profits. The consideration payable for the second tranche of 12.5% equity shares on April 30, 2008 would amount to US\$2.9 million and a maximum earn-out consideration amounting to US\$3.7 million based on achievement of targeted revenues and profits. Satyam Computer Services records the put option at fair value at each balance sheet date, with the initial fair value of the put option included as part of the consideration for its 75.0% interest in Citisoft. The difference between the fair values at each valuation date is charged to selling, general and administration expenses in statement of income. On the basis of an independent valuation, the value of put option was US\$ Nil and US\$1.1 million as of May 12, 2005 and March 31, 2006 respectively.

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

Satyam Computer Services is also required to fund an Employee Benefit Trust (EBT) formed by Citisoft for the purpose of providing additional incentive to employees to contribute to the success of Citisoft. Satyam is required to fund US\$1.6 million on April 30, 2006 and a maximum of US\$1.6 million each on April 30, 2007 and 2008 based on achievement of targeted revenues and profits. As of March 31, 2006 Satyam Computer Services has accrued US\$1.4 million as a current liability and charged US\$1.4 million to the statement of income as part of cost of revenues.

The purchase consideration has been allocated to the assets acquired and liabilities assumed as of the date of acquisition based on management's estimates and a valuation done by an independent valuer in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. The goodwill has been allocated to the IT services segment. The purchase price allocation is as follows:

	US\$ in millions
Purchase price	\$ 17.4
Allocated to:	
Net current assets	\$ 2.2
Tangible assets	0.3
Customer Contracts related intangibles	0.8
Customer relationship related intangibles	5.4
Trade name	0.7
Goodwill	10.3
Deferred tax liability	(2.3)
Total	\$ 17.4

Pro forma disclosure regarding this acquisition has not been provided because it is not material to the operations of the Company.

b) Knowledge Dynamics Pte Ltd (Knowledge Dynamics).

On July 21 2005, Satyam Computer Services announced its intention to acquire 100% of the shares of Knowledge Dynamics Pte Ltd, Singapore, (Knowledge Dynamics), a leading Data Warehousing and Business Intelligence Solutions provider. The transaction was consummated on October 1, 2005, the date of transfer of shares to Satyam Computer Services and Satyam Computer Services has consolidated Knowledge Dynamics Pte Ltd, Singapore, from October 1, 2005. The acquisition has been accounted for by following the purchase method of accounting.

The consideration for this acquisition amounted to US\$3.3 million comprising of initial consideration of US\$1.8 million (including direct acquisition costs of \$11 thousand) and deferred consideration (non-contingent) of US\$0.8 million and US\$0.7 million payable on April 30, 2006 and 2007 respectively. Satyam Computer Services is also required to pay a maximum earn out consideration amounting to US\$0.3 million, US\$0.8 million and US\$1.1 million on April 30, 2006, 2007 and 2008 respectively based on the achievement of targeted revenues and profits. The total deferred consideration for the acquisition of US\$1.5 million has been accounted for as part of the purchase consideration out of which US\$0.8 million has been shown as a current liability and US\$0.7 million as non current liability in the balance sheet. The earn-out consideration will be accounted for as purchase consideration when the contingency is resolved.

The purchase consideration has been allocated to the assets acquired and liabilities assumed as of the date of acquisition based on management's estimates and a valuation done by an independent valuer in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. The goodwill has been allocated to the

IT services segment. The purchase price allocation is as follows:

4. Preferred Stock of Subsidiary

Nipuna issued 45,669,999 and 45,340,000 0.05% convertible redeemable cumulative preference shares of par value Rs 10 (US\$0.22) per share in October 2003 and June 2004 respectively to the investors at an issue price of Rs.10 (US\$0.22) per share, in exchange for an aggregate consideration of US\$20 million.

As per the agreement, these preference shares are mandatorily convertible into equity shares of Nipuna no later than June 2006, if Nipuna achieves certain targets for revenues and profits earned up to March 31, 2006. If these targeted revenues and profits are not achieved by Nipuna along with other triggering events, the investors have an option to either redeem these preference shares or convert them. Although certain triggering events for early redemption as per the agreement have occurred during the period January 2004 to December 2004 the investors waived the right of early redemption. Further Nipuna has not achieved the targeted revenues and profits upto March 2006..

If not converted, early converted or redeemed, these convertible preference shares are redeemable on maturity in June 2007 at a redemption premium, which could range between 7.5% to 13.5% p.a. The Investors are entitled to receive dividends at the rate of 0.05% per cent per annum, on the face value of Rs. 10 (US\$0.22) from the date of issuance of such Preference Shares. The dividends are cumulative and payable in cash at the rate indicated above, whether or not they have been declared and whether or not there are profits, surplus or other funds of Nipuna legally available for the payment of dividends. These preference shares rank senior to all classes of Nipuna's currently existing capital stock or established subsequently with respect to dividend distributions and repayment of capital and premium upon a Bankruptcy Event or Change in Control with respect to Nipuna, unless the terms and conditions of such class expressly provide that such class will rank senior to or on parity with the convertible redeemable cumulative preference shares. The dividend on the preference shares for the period ended March 31, 2006 is payable.

5. Investments

Investments of Satyam consist of available-for-sale securities (AFS) and other non-marketable securities.

(US\$ in millions)

**As of March 31,
2006 2005**

Available-for-sale securities

Cost and fair value

Other investments, at cost

Less: Provision for impairment

\$ 3.7	\$ 3.6
(3.7)	(3.6)

Investments Non current

Satyam records an investment impairment charge on other non-marketable investments, which are carried at cost, when management believes an investment has experienced a decline in value that is judged to be other than temporary. Satyam monitors its investments for impairment by considering current factors including economic environment, market conditions and the operational performance and other specific factors relating to the business underlying the investment. Based on its assessment of its carrying values of investments, Satyam impaired the

F-16

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

entire carrying value of other non-marketable investments as of March 31, 2003 due to adverse changes in the above factors.

6. Investments in bank deposits

Investments in bank deposits represents term deposits placed with banks earning fixed rate of interest and amounted to US\$403.7 million and US\$411.6 million as of March 31, 2006 and 2005 respectively with maturities from more than three months to two years. Interest on investments in bank deposits is recognized on accrual basis.

7. Investments in associated companies

The carrying values of investments in various associated companies of Satyam are as follows:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Sify		\$ 20.4
Satyam Venture	2.7	2.0
CA Satyam	0.8	0.8
Total	\$ 3.5	\$ 23.2

Sify

During the year ended March 31, 2004, due to the sale of new shares by Sify to VentureTech and sale of 1 million Indian equity shares by Satyam Computer Services as per the sponsored ADS program of Sify, Satyam Computer Services' ownership interest in Sify was reduced from 37.15% as at March 31, 2003 to 32.04% as at March 31, 2004. Further, due to the issue of shares by Sify to its employees under Sify's ESOP plan the ownership interest of Satyam Computer Services in Sify reduced from 32.04% as at March 31, 2004 to 31.61% as at September 30, 2005.

On November 7, 2005, Satyam Computer Services offered to sell an aggregate of 11,182,600 equity shares, representing its entire investment of 31.61% of the outstanding equity shares of Sify. The sale transaction was consummated on November 9, 2005 at a sale price of US\$5.60 per equity share aggregating to US\$62.3 million. Satyam Computer Services accounted for its share of equity in earnings/(losses) of Sify under equity method of accounting upto November 9, 2005. The excess of sale proceeds (net of transaction costs) over the carrying value of investment in Sify as on the date of sale amounting to US\$43.6 million has been recognized as gain in the statement of income during the year ended March 31, 2006.

The summarized financial information as to assets, liabilities and results of operations of Sify is presented below:

	<i>(US\$ in millions)</i>	
	As of March 31,	
Balance sheet	2005	2004
Current assets	\$ 51.9	\$ 49.3
Non-current assets	40.2	38.2
Current liabilities	33.3	23.6
Net current asset	18.6	25.7
Shareholders' equity	57.3	62.6

(US\$ in millions)

	Period ended	Year ended March 31,	
Statement of operations	November 9, 2005	2005	2004
Revenues	\$ 60.2	\$ 82.8	\$ 61.1
Gross profit	25.7	36.4	28.9
Operating loss	7.2	10.4	12.9
Net loss	5.3	7.1	8.0

Satyam Computer Services' equity in loss of Sify, net of taxes amounted to US\$1.3 million, US\$1.7 million and US\$2.2 million for the years ended March 31, 2006, 2005 and 2004 respectively.

F-17

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

Satyam Venture

On October 28, 1999, Satyam Computer Services entered into an agreement with Venture Industries, USA (Venture) to form an equally held joint venture company Satyam Venture Engineering Services Private Limited. (Satyam Venture). Satyam Computer Services holds 50% in Satyam Venture. The joint venture was formed on January 3, 2000 at Hyderabad, India. Satyam Venture is engaged in providing engineering solutions, software development and customization services specifically for the automotive industries worldwide. Satyam Computer Services equity in the profit of Satyam Venture, net of taxes amounted to US\$0.5 million, US\$0.7 million and US\$3 thousand for the years ended March 31, 2006, 2005 and 2004 respectively.

CA Satyam

On December 29, 2000, Satyam Computer Services entered into an agreement with Computer Associates International, Inc. (CA) to form an equally held joint venture company CA Satyam ASP Private Limited (CA Satyam). Satyam Computer Services holds 50% in CA Satyam. The joint venture was formed in January 2001, at Mumbai, India. As per the agreement, both Satyam Computer Services and CA have invested US\$1.5 million each in the joint venture. Satyam Computer Services equity in the loss of CA Satyam, net of taxes amounted to US\$15 thousand, US\$0.1 million and US\$0.4 million for the years ended March 31, 2006, 2005 and 2004 respectively.

8. Premises, Equipment and Depreciation

Premises and equipment at cost less accumulated depreciation consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Freehold land	\$ 7.0	\$ 6.1
Leasehold land	1.8	1.9
Premises	23.6	14.3
Computers including servers	109.7	99.8
System software	21.0	15.8
Office equipment	61.6	51.0
Furniture and fixtures	40.1	31.9
Vehicles	7.0	5.6
Assets under construction	19.9	16.1
Total	291.7	242.5
Less: Accumulated depreciation	(185.1)	(158.4)
Premises and equipment, net	\$ 106.6	\$ 84.1

Satyam has established the estimated useful lives of assets for depreciation purposes as follows:

Premises	28 years
Computers including servers	2 - 5 years
System Software	3 years
Office equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years

Depreciation expense amounted to US\$30.6 million, US\$25.0 million and US\$24.4 million for the years ended March 31, 2006, 2005 and 2004 respectively.

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

9. Goodwill

Goodwill consists of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Goodwill		
Acquisition of Citisoft Plc	\$ 10.5	
Acquisition of Knowledge Dynamics Pte Ltd	2.0	
Acquisition of minority interest in Satyam Enterprise Solutions Limited	23.1	\$ 23.6
Satyam Technologies Inc.	3.6	3.7
Total	39.2	27.3
Less: Accumulated amortization	(11.6)	(11.8)
Goodwill, net	\$ 27.6	\$ 15.5

The following table presents the reconciliation of changes in carrying values of goodwill:

	<i>(US\$ in millions)</i>		
	Year ended March 31,		
	2006	2005	2004
Goodwill at the beginning of the year	\$ 15.5	\$ 15.5	\$ 14.2
Acquisitions during the year	12.4		
Impairment during the year			
Change due to foreign exchange	(0.3)		1.3
Goodwill at the end of the year	\$ 27.6	\$ 15.5	\$ 15.5

Goodwill represents the excess of amount paid towards purchase price and non-refundable deposit over the fair value of assets acquired, and relates to the acquisition of the minority interest in Satyam Enterprise Solutions Limited and Satyam Technologies Inc., and majority interest in Citisoft Plc. and Knowledge Dynamics Pte Ltd., by Satyam Computer Services. Goodwill is tested for impairment annually and when circumstances indicate that the carrying amount may not be recoverable as provided under FAS 142. Currently there is no impairment of goodwill; however, there can be no assurance that future goodwill impairment tests will not result in a charge to earnings.

10. Intangible assets, net

Intangible assets consist of:

	<i>(US\$ in millions)</i>	
	As of March 31, 2006	As of March 31, 2005

Acquired and amortized intangible assets	Weighted Gross average life carrying (in years) amount	Accumulated amortization intangible carrying mortization amount	Net intangible assets	Gross amount	Accumulated amortization amount	Net intangible assets
Citisoft Plc						
a) Customer Relationship	8	\$ 4.9	\$ (0.6)	\$ 4.3		
b) Customer Contracts	6	0.8	(0.1)	0.7		
c) Trade name	5	0.6	(0.1)	0.5		
Total		\$ 6.3	\$ (0.8)	\$ 5.5		
Knowledge Dynamics Pte Ltd						
a) Customer Contracts and Related Relationships	9	\$ 1.0	\$ (0.1)	\$ 0.9		
b) Non-Compete agreements	5	0.1		0.1		
c.) Trade name	3					
d.) Internally developed technology	3	0.1		0.1		
Total		\$ 1.2	\$ (0.1)	\$ 1.1		

During the year the Company has not recognized any impairment of other intangible assets. The Company has adopted the provisions of SFAS No. 141 and 142, and has accordingly assessed the remaining useful lives of identified intangibles with definite useful lives and provides for amortization over the determined useful life of the asset. The Company does not have any intangible assets with indefinite useful life.

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

The following table presents the reconciliation of changes in carrying values of other intangible assets:

	(US\$ in millions)		
	Year ended March 31,		
	2006	2005	2004
Identifiable intangibles at the beginning of the year			
Acquisitions during the year	\$ 8.0		
Amortization during the year	(0.9)		
Change due to foreign exchange	(0.5)		
Identifiable intangibles at the end of the year	\$ 6.6		

The following table gives details of Satyam's total other intangible assets

The expected future annual amortization expense of other intangible assets is as follows:

	US\$ in millions
Estimated amortization expense:	
For the year ended March 31,	
2007	1.1
2008	1.1
2009	1.0
2010	1.0
2011	0.9
Beyond 2011	1.5

11. Income Taxes

The income tax expense consists of:

	(US\$ in millions)		
	Year ended March 31,		
	2006	2005	2004
Foreign taxes			
Current	\$ 15.4	\$ 18.1	\$ 20.2
Deferred	(0.8)	(0.6)	0.3
Domestic taxes			
Current	27.4	9.1	3.3
Deferred	(4.3)	(1.3)	(1.3)
Aggregate taxes	\$ 37.7	\$ 25.3	\$ 22.5

A reconciliation of the income tax expense to the amount computed by applying the statutory income tax rate to income before income tax expense is summarized below:

(US\$ in millions)

	2006	Year ended March 31,	
		2005	2004
Net income before taxes	\$ 287.8	\$ 180.2	\$ 137.0
Enacted tax rates in India	33.66%	36.59%	35.88%
Computed tax expense	\$ 96.9	\$ 65.9	\$ 49.2
Tax effect due to non-taxable export income	(75.3)	(52.7)	(38.2)
Difference arising from different tax rates in other tax jurisdictions	10.2	5.5	7.0
Difference arising from different tax rates on gain on sale of investment	(7.0)		(0.6)
Stock- based compensation (non-deductible)	0.3	0.7	0.6
Changes in valuation allowance, including losses of subsidiaries	5.4	3.5	0.8
Effect of tax rate change	0.1		
Others	7.1	2.4	3.7
Income taxes recognized in the statement of income	\$ 37.7	\$ 25.3	\$ 22.5

The current provision for income taxes, net of payments, were US\$8.5 million and US\$10.7 million as of March 31, 2006 and 2005 respectively. The foreign taxes are due to income taxes payable in overseas tax jurisdictions by its offsite and onsite centers, principally in the United States. Satyam Computer Services benefits from tax incentive provided to software entities as an exemption from payment of Indian corporate income taxes for a

F-20

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

period of ten consecutive years of operations of software development facilities designated as Software Technology Parks (STP units). The benefit of this tax incentive has historically resulted in an effective tax rate for Satyam Computer Services well below statutory rates. In case of Satyam Computer Services for various registered STP units these exemptions expire starting from fiscal 2006 through fiscal 2010. Satyam Computer Services subsidiaries are subject to income taxes of the countries in which they operate.

Satyam has not recognized deferred income taxes arising on income of Satyam Computer Services due to the tax benefit available to it in the form of a exemption from taxable income, except to the extent of timing differences which reverse after the tax holiday period or unless they reverse under foreign taxes. However, Satyam Computer Services earns certain other income and domestic income, which are taxable irrespective of the tax holiday as stated above.

Significant components of activities that gave rise to deferred tax assets and liabilities included in the financial statements are as follows:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Deferred tax assets:		
Operating loss carry forwards	\$ 24.0	\$ 21.1
Provision for accounts receivable, advances and investments	5.7	5.3
Premises and equipment	0.5	0.4
Provision for gratuity and unutilized leaves	6.5	3.8
Gross deferred tax assets	36.6	30.6
Less: Valuation allowance	(24.0)	(21.1)
Total deferred tax assets	12.7	9.5
Deferred tax liabilities:		
Premises and equipment	(6.4)	(3.5)
Provision for accounts receivable and advances	(2.8)	(2.6)
Intangibles	(2.2)	
Investments in associated companies and gain on dilution	(0.3)	(5.4)
Total deferred tax liabilities	(11.7)	(11.5)
Net deferred tax assets/ (liabilities)	\$ 1.0	\$ (2.0)

Satyam has not provided for any deferred income taxes on undistributed earnings of foreign subsidiaries due to the losses incurred by them since their inception. These losses aggregated to approximately US\$37.8 million and US\$36.4 million as of March 31, 2006 and 2005 respectively.

Operating loss carry forwards for tax purposes of Satyam amounts to approximately US\$24.0 million and US\$21.1 million as of March 31, 2006 and 2005 respectively and are available as an offset against future taxable income of such entities. These carry forwards expire at various dates primarily over 8 to 20 years. Realization is dependent on such subsidiaries generating sufficient taxable income prior to expiration of the loss carry forwards. A valuation allowance is established attributable to deferred tax assets and loss carry forwards in subsidiaries where,

based on available evidence, it is more likely than not that they will not be realized.

F-21

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

Net deferred tax asset/ (liabilities) included in the consolidated balance sheets are as follows:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Current assets – deferred income taxes	\$ 12.2	\$ 9.1
Non-current assets – other assets*	0.5	0.4
Current liabilities – accrued expenses and other liabilities*	(2.8)	(2.6)
Long-term liabilities – deferred income taxes	(8.9)	(8.9)
Net deferred tax asset/ (liabilities)	\$ 1.0	\$(2.0)

* Included in other assets and accrued expenses and other liabilities respectively.

12. Borrowings**Short-term debt**

Short-term debt amounted to US\$4.1 million and US\$1.7 million as of March 31, 2006 and 2005 respectively.

Short-term debt represents export packing credit facility of Nipuna at floating rate of interest of LIBOR+0.25% which is secured by a charge on book debts, accounts receivable and other moveable assets. The weighted-average interest rate on this borrowing was 5.33% and 3.61% for the years ended March 31, 2006 and 2005 respectively.

Long-term debt

Long-term debt outstanding comprise of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Secured debts , representing obligation principally to banks and financial institutions		
10.25% Rupee loans of SC-Trust, maturing serially through fiscal 2008	\$ 1.3	\$ 1.9
0.95% above 6 month LIBOR working capital term loan maturing serially through fiscal 2009	5.6	
0.95% above 6 month LIBOR external commercial borrowing maturing serially through fiscal 2009	10.5	
Hire Purchase Loans	2.9	2.4
Total Debt	20.3	4.3
Less: Current portion of long-term debt	(2.4)	(3.1)
Long-term debt, net of current portion	\$ 17.9	\$ 1.2

Rupee loans are secured by equity shares of Satyam Computer Services held by the SC-Trust. In 2003, SC-Trust has repaid its rupee loans maturing in January 2004 and March 2004, amounting to US\$1.2 million and US\$1.4 million, respectively, with an interest rate of 13% p.a. and has replaced them with new rupee loans in same principal amounts with a fixed interest rate of 10.75% p.a. maturing in July 2005. The SC-Trust has further renewed these upto

September 2007 with a revised interest rate of 10.25%.

Aggregate maturities of long-term debt subsequent to March 31, 2006, are US\$2.4 million in fiscal 2007, US\$1.6 million in fiscal 2008 and US\$16.3 million in fiscal 2009.

Unused lines of credit

Unused lines of credit comprise of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Short-term debt	\$ 3.8	\$ 3.4
Long-term debt	3.9	20.0
Non-fund facilities	4.4	14.1
Total Unused lines of credit	\$ 12.1	\$ 37.5

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

On January 6, 2005, Nipuna obtained a credit facility from a bank for long term borrowings to the extent of US\$20 million with an interest rate of 0.95% above 6 month LIBOR. Satyam Computer Services has given a corporate guarantee to the bank for the borrowing. As per the terms of the facility, Nipuna was required to draw the funds prior to September 30, 2005 and Nipuna has got a further extension upto June 30, 2006. The borrowing is repayable in 3 years from each draw down of the borrowing. As of March 31, 2006, Nipuna has availed US\$16.1 million under the above arrangement.

13. Employee Benefits**The Gratuity Plan**

The following table sets forth the status of the Gratuity Plan of Satyam, and the amounts recognized in Satyam's consolidated balance sheets and statements of income.

	<i>(US\$ in millions)</i>		
	2006	Year ended March 31,	
		2005	2004
Accumulated benefit obligation	\$ 5.7	\$ 2.6	\$ 1.9
Change in projected benefit obligation			
Projected benefit obligation at beginning of the period	\$ 5.2	\$ 4.0	\$ 2.5
Service cost	1.9	1.5	0.9
Interest cost	0.4	0.3	0.2
Actuarial loss/(gain)	0.9	(0.3)	0.3
Benefits paid	(0.5)	(0.3)	(0.2)

Funded status of the plans	(7.8)	(5.2)	(4.0)
Unrecognized net actuarial loss	1.3	0.4	1.2
Amount recognized during the period			
Accrued benefit cost	\$ (6.5)	\$ (4.8)	\$ (2.8)
The components of net gratuity costs are reflected below:			
Service cost	1.9	\$ 1.5	\$ 0.9
Interest cost	0.4	0.3	0.2
Amortization			
Amount recognized during the period			

Net gratuity costs	\$ 2.3	\$ 1.8	\$ 1.1
---------------------------	---------------	---------------	---------------

F-23

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

The assumptions used in accounting for the gratuity plan for the years ended March 31, 2006, 2005 and 2004 are set out below:

Weighted-average assumptions used to determine benefit obligations:

	Year ended March 31,		
	2006	2005	2004
Discount rate	8%	8.0%	7.0%
Long-term rate of compensation increase	7%	7.0%	7.0%

Weighted-average assumptions used to determine net periodic benefit cost:

	Year ended March 31,		
	2006	2005	2004
Discount rate	8%	7.0%	7.0%
Long-term rate of compensation increase	7%	7.0%	7.0%

Cash Flows

Satyam expects to contribute US\$1.5 million to its Gratuity plan during the year ending March 31, 2007. The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

(US\$ in millions)

For the financial year ended March 31,	Expected contribution
2008	\$ 1.7
2009	2.0
2010	2.5
2011	3.1
2012 - 2015	13.0

Provident Fund

Satyam's contribution towards the Provident Fund amounted to US\$10.7 million, US\$6.8 million and US\$3.4 million for the years ended March 31, 2006, 2005 and 2004 respectively.

Superannuation Plan

Satyam Computer Services' contribution towards the Superannuation Plan maintained by LIC amounted to US\$1.2 million, US\$0.9 million and US\$0.4 million for the years ended March 31, 2006, 2005 and 2004 respectively.

14. Earnings per Share

Basic earnings per share is computed on the basis of the weighted average number of shares outstanding (weighted average number of shares issued less unallocated, unvested and unexercised shares held by the SC Trust). Allocated but unvested or unexercised shares not included in the calculation of weighted-average shares outstanding for basic earnings per share were 53,300 and 240,500 as of March 31, 2006 and 2005 respectively. Diluted earnings per share is computed on the basis of the weighted average number of shares outstanding plus the effect of outstanding stock options using the treasury stock method.

In addition to the above, the unallocated shares held by SC Trust, which are by definition unvested, have been excluded from all earnings per share calculations. Such shares amounted to 1,139,840 and 1,183,840 as of March 31, 2006 and 2005 respectively.

F-24

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

The components of basic and diluted earnings per share were as follows:

(US\$ in millions except per share data)

	2006	Year ended March 31,	
		2005	2004
Net income	\$ 249.4	\$ 153.8	\$ 111.9
Equity Shares:			
Average outstanding shares (in millions)	320.6	316.2	313.2
Dilutive effect of Associate Stock Options (in millions)	10.8	7.4	3.9
Share and share equivalents (in millions)	331.4	323.6	317.1
Earnings per share			
Basic	\$ 0.78	\$ 0.49	\$ 0.36
Diluted	\$ 0.75	\$ 0.48	\$ 0.35

15. Stock-based Compensation Plans**ASOP plan**

In May 1998, Satyam Computer Services established its Associate Stock Option Plan (the ASOP plan), which provided for the issue of 13,000,000 shares, as adjusted to eligible associates. Satyam Computer Services issued warrants to purchase these shares to a controlled associate welfare trust called the Satyam Associate Trust (the SC-Trust). In December 1999 the SC-Trust exercised all its warrants to purchase Satyam Computer Services shares prior to the stock split using the proceeds obtained from bank loans. As and when the SC-Trust issues warrants to eligible associates, the difference between the market price and the exercise price is accounted as deferred stock based compensation and amortized over the vesting period. The warrants vest immediately or vest over a period ranging from two to three years, depending on the associate's length of service and performance. Upon vesting, associates have 30 days in which to exercise these warrants. As of March 31, 2006, warrants (net of lapsed and cancelled) to purchase 11,849,860 equity shares have been granted to associates pursuant to ASOP since inception.

ASOP B plan

In April 2000, Satyam Computer Services established its Associate Stock Option Plan B (the ASOP B) and reserved warrants for 41,727,140 shares to be issued to eligible associates with the intention to issue the warrants at the market price of the underlying equity shares on the date of the grant. These warrants vest over a period ranging from two to four years, starting with 20% in second year, 30% in the third year and 50% in the fourth year. Upon vesting, associates have 5 years to exercise these warrants. As of March 31, 2006, options (net of lapsed and cancelled) to purchase 31,381,633 equity shares have been granted to associates under this plan since inception.

ASOP ADS plan

In May 2000, Satyam Computer Services established its Associate Stock Option Plan (ADS) (the ASOP (ADS)) to be administered by the Administrator of the ASOP (ADS) which is a committee appointed by the Board of Directors of Satyam Computer Services and reserved 2,574,665 ADSs (5,149,330 shares) to be issued to eligible associates with the intention to issue the warrants at a price per option which is not less than 90% of the value of one ADS as reported on NYSE on the date of grant converted into Indian Rupees at the rate of exchange prevalent on the grant date. These warrants vest over a period of 1-10 years from the grant date. As of March 31, 2006, warrants (net of lapsed and cancelled) for 1,660,971 ADSs representing 3,321,942 equity shares have been granted to associates under the ASOP ADS since inception.

Warrant grants

During the year ended March 31, 2006, the SC-Trust issued immediately vesting warrants for 13,200 shares and warrants for 30,800 (net of Nil warrants cancelled) shares with longer vesting periods to the associates under the ASOP plan. Further, during the year ended March 31, 2006, under the ASOP B plan, Satyam Computer Services issued warrants for 492,181 (net of 2,797,595 warrants cancelled) shares to the associates. During the same period, under the ASOP (ADS), Satyam Computer Services issued warrants for 69,993 ADS representing 139,986 (net of warrants for 90,222 ADS representing 180,444 shares cancelled) shares to associates under the ASOP (ADS) plan.

F-25

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

During the year ended March 31, 2005, the SC-Trust issued immediately vesting warrants for 50,840 and warrants for 384,500 (net of nil warrants cancelled) shares with longer vesting periods to the associates under the ASOP plan.

Further, during the year, under the ASOP B plan, Satyam Computer Services issued warrants for 11,957,233 (net of 2,248,524 warrants cancelled) shares to the associates. During the year, under the ASOP (ADS), Satyam Computer Services issued warrants for 2,64,560 ADS representing 529,120 (net of warrants for 102,164 ADS representing 204,328 shares cancelled) shares to associates under the ASOP (ADS) plan.

During the year ended March 31, 2004, the SC-Trust issued immediately vesting warrants for 92,500 and warrants for 89,500 (net of 11,700 warrants cancelled) shares with longer vesting periods to the associates under the ASOP plan.

Further, during the year, under the ASOP B plan, Satyam Computer Services issued warrants for 4,465,271 (net of 645,528 shares cancelled) shares to the associates. During the year, under the ASOP (ADS), Satyam Computer Services issued warrants for 63,143 ADS representing 126,286 (net of warrants for 64,200 ADS representing 128,400 shares cancelled) shares to associates under the ASOP (ADS) plan.

Stock based compensation plan of Nipuna

In April 2004, Nipuna established its Employee Stock Option Plan (the ESOP). As per the ESOP, the options were granted at fair value as determined by an independent valuer as on the date of the grant and hence no compensation cost has been recognized. These options vest starting with 33.33% at the end of the second year, 33.33% at the end of the third year and remaining 33.34% at the end of the fourth year from the date of grant.

During the year ended March 31, 2006 Nipuna issued options for 1,215,506 equity shares at weighted average exercise price of Rs.80 (US\$1.78) being the fair market value per share. No options were exercised during the period.

Deferred Stock-based compensation

Satyam Computer Services recognized deferred stock-based compensation of US\$0.9 million, US\$2.2 million and US\$0.8 million for the years ended March 31, 2006, 2005 and 2004 respectively. Satyam Computer Services amortized and charged to income US\$0.8 million, US\$1.9 million and US\$1.7 million for the years ended March 31, 2006, 2005 and 2004 respectively.

Pursuant to APB 25, deferred stock-based compensation has been computed as of grant date based on the difference between the exercise price of the warrants and the market price of underlying shares of Satyam Computer Services. Deferred stock compensation is amortized on a graded vesting basis over the vesting period of the warrants.

16. Segmental Reporting

Satyam has adopted SFAS 131; *Disclosures about Segments of an Enterprise and Related Information* which requires disclosure of financial and descriptive information about Satyam's reportable operating segments. The operating segments reported below are the segments of Satyam for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by executive management in deciding how to allocate resources and in assessing performance. Management evaluates performance based on stand-alone revenues and net income for the companies in Satyam. Upto March 31, 2005, Satyam provided segmental disclosures based on three business groups: IT services, Business Process Outsourcing, and Software Products. Subsequent to March 31, 2005, executive management evaluates Satyam's operating segments based on the following two-business groups, since the revenues from Software Product segment are no longer meaningful and management does not evaluate this segment any longer:

IT services, providing a comprehensive range of services, including application development and maintenance, consulting and enterprise business solutions, extended engineering solutions, infrastructure management services. Satyam provides its customers the ability to meet all of their information technology needs from one service provider. Satyam's eBusiness services include designing, developing integrating and maintaining Internet-based applications, such as eCommerce websites, and implementing packaged software applications, such as customer or supply chain management software applications. Satyam also assists its customers in making their existing computing systems accessible over the Internet. The segment information for the year ended March 31, 2006 includes the results of Citisoft and Knowledge Dynamics which were acquired during the year.

Business Process Outsourcing, providing BPO services covering HR, Finance & Accounting, Customer Contact (Voice, Mail and Chat), and Transaction Processing (industry-specific offerings).

Satyam's operating segment information for the years ended March 31, 2006, 2005 and 2004 are as follows:

Business Segments

	IT Services	BPO	Elimination	Consolidated totals
	<i>(US\$ in millions)</i>			
For the year ended March 31, 2006				
Revenue External customers	\$ 1,082.7	\$ 13.6		\$ 1,096.3
Revenue Inter-segment	0.8	6.4	(7.2)	
Total Revenues	1,083.5	20.0	(7.2)	1096.3
Operating income / (loss)	228.5	(8.8)		219.7
Equity in earnings/(losses) of associated companies, net of taxes	(0.8)			(0.8)
Net income / (loss)	259.0	(9.6)		249.4
Segment assets	1,170.8	27.7	(17.3)	1,181.2
Depreciation and amortization	29.0	2.5		31.5
Capital expenditures for long-lived assets	53.4	3.2		56.6
For the year ended March 31, 2005				
Revenue External customers	\$ 786.7	\$ 6.9		\$ 793.6
Revenue Inter-segment	0.7	3.1	\$ (3.8)	

Total Revenues	787.4	10.0	(3.8)	793.6
Operating income / (loss)	171.8	(9.3)		162.5
Equity in earnings/(losses) of associated companies, net of taxes	(1.1)			(1.1)
Net income / (loss)	163.7	(9.9)		153.8
Segment assets	885.2	16.1	(17.2)	884.1

Notes to the Consolidated Financial Statements

The balances receivable from and payable to related parties are as follows:

	<i>(US\$ in millions)</i>	
	As of March 31,	
Amount due from/(to) associated companies	2006	2005
Satyam Venture	\$ (1.8)	\$ (3.1)
CA Satyam	0.1	
Total	\$ (1.7)	\$ (3.1)

18. Shareholders Equity-Dividends

Final dividends proposed by the Board of Directors are payable when formally declared by the shareholders, who have the right to decrease but not increase the amount of the dividend recommended by the Board of Directors. The Board of Directors declares interim dividends without the need for shareholders' approval.

Dividends payable to equity shareholders are based on the net income available for distribution as reported in Satyam Computer Services unconsolidated financial statements prepared in accordance with Indian GAAP. As such, dividends are declared and paid in Indian Rupees. The net income in accordance with U.S. GAAP may, in certain years, either not be fully available or will be additionally available for distribution to equity shareholders. Under Indian GAAP the retained earnings available for distribution to equity shareholders was US\$786.9 million, US\$559.8 million and US\$422.7 million for the years ended March 31, 2006, 2005 and 2004 respectively.

Under the Indian Companies Act, dividends may be paid out of the profits of a company in the year in which the dividend is declared or out of the undistributed profits of previous fiscal years. Before declaring a dividend greater than 10.0% of the par value of its equity shares, a company is required to transfer to its reserves a minimum percentage of its profits for that year, ranging from 2.5% to 10.0%, depending on the dividend percentage to be declared in such year.

19. Contingencies and Commitments**a) Funding and Warrant commitments Nipuna**

Satyam Computer Services has guaranteed payment of all sums payable by Nipuna to the Investors on redemption of the 0.05% cumulative convertible redeemable preference shares. Further Satyam Computer Services is required to subscribe to convertible debentures amounting to US\$20 million based on certain provisions in the agreement. These convertible debentures shall bear an interest rate equal to the prime lending rate of the State Bank of India prevailing at that time and are convertible upon the election of Nipuna into Ordinary Shares at any time after issuance.

Satyam Computer Services, Nipuna and the investors have also entered into a warrant agreement whereby Nipuna agrees to issue to the Investors, one warrant in consideration of and based upon every US\$0.1 million referral revenues received by Nipuna or its subsidiaries at any time during the period commencing from the date of initial closing and ending in June 2007 from business referred to Nipuna or its subsidiaries by an investor or its affiliates. These warrants are convertible into ordinary equity shares of Nipuna subject to a maximum of 7.5% of the then outstanding equity share capital of Nipuna on a fully diluted basis during the exercise period at the price per share then in effect and subject to other terms and conditions set forth in the agreement. As of March 31, 2006, there were no referral revenues and hence no warrants have been issued.

b) Citisoft Plc and Knowledge Dynamics Pte Ltd.

For commitments relating to Citisoft and Knowledge Dynamics refer note 3.

c) Bank guarantees

Bank guarantees outstanding are US\$13.4 million and US\$8.2 million as of March 31, 2006 and 2005 respectively. Bank guarantees are generally provided to government agencies, excise and customs authorities for the purposes of

maintaining a bonded warehouse. These guarantees may be revoked by the governmental agencies if they suffer any losses or damage through the breach of any of the covenants contained in the agreements.

d) Capital commitments

Contractual commitments for capital expenditure pending execution were US\$26.7 million and US\$8.8 million as of March 31, 2006 and 2005 respectively. Contractual commitments for capital expenditures are relating to acquisition of premises and equipment.

F-30

Table of Contents**Satyam Computer Services Limited**

Notes to the Consolidated Financial Statements

e) Operating leases

Satyam has certain operating leases for land, office premises and guesthouses. Rental expenses for operating leases are accounted for on a straight line method. Rental expense amounted to US\$17.5 million, US\$12.5 million and US\$9.1 million for the years ended March 31, 2006, 2005 and 2004 respectively.

Future minimum annual lease commitments for non-cancelable lease arrangements, including those leases for which renewal options may be exercised as of March 31, 2006 are US\$4.1 million in fiscal 2007, US\$2.4 million in fiscal 2008, US\$0.6 million in fiscal 2009, US\$1.0 million in fiscal 2010 and thereafter.

20. Concentration of Credit Risk

Accounts receivable balances are typically unsecured and are derived from revenues earned from customers primarily located in the United States. Satyam monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The following table gives details in respect of percentage of revenues generated from top two and top five customers:

	2006	Year ended March 31,	
		2005	2004
Revenues generated from top two customers			
Customer I	8.80%	10.81%	14.28%
Customer II	5.14%	7.35%	9.92%
Total revenues from top five customers	24.21%	29.21%	36.45%

21. Financial Instruments**Forward and options contracts**

Satyam Computer Services enters into foreign exchange forward and options contracts where the counter party is generally a bank. Satyam Computer Services considers the risks of non-performance by the counter party as not material.

The following tables give details in respect of our outstanding foreign exchange forward and options contracts:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Aggregate contracted principal amounts of contracts outstanding:		
Forward contracts	\$ 79.0	\$ 160.0
Options contracts	137.0	141.5
Total	\$ 216.0	\$ 301.5
Balance sheet exposure:		
Forward contracts	\$ 0.4	\$ 1.0
Options contracts	(1.8)	0.1
Total	\$ (1.4)	\$ 1.1

The outstanding foreign exchange forward and options contracts as of March 31, 2006 mature between one to eleven months.

Gains/(losses) on foreign exchange forward and options contracts included under the head other income/(expense) in the statement of income are as stated below:

(US\$ in millions)

	2006	Year ended March 31,	
		2005	2004
Forward contracts	\$ 0.8	\$ (0.5)	\$ 2.4
Options contracts	(1.6)	0.2	
Total	\$ (0.8)	\$ (0.3)	\$ 2.4

Notes to the Consolidated Financial Statements

Fair value

The carrying amounts reported in the balance sheets for cash and cash equivalents, trade and other receivables, investments, amounts due to or from related parties, short-term debts, accounts payable and other liabilities approximate their respective fair values due to their short maturity and due to no change in the interest rates for bank deposits. The approximate fair value of long-term debts, as determined by using current interest rates was US\$20.3 million and US\$4.3 million as of March 31, 2006 and 2005 respectively as compared to the carrying amounts of US\$20.3 million and US\$4.3 million as of March 31, 2006 and 2005 respectively.

22. Schedules of Balance sheet**a) Cash and Cash Equivalents**

The cash and cash equivalents consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Cash and bank balances	\$ 258.9	\$ 128.1
Cash equivalents	33.9	1.7
Cash and cash equivalents	\$ 292.8	\$ 129.8

b) Accounts receivable and allowance for doubtful debts

Accounts receivable consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Customers (trade)	\$ 238.1	\$ 178.3
Related parties	1.0	0.1
Less: Allowance for doubtful debts	(19.1)	(17.5)
Accounts receivable	\$ 220.0	\$ 160.9

The allowance for doubtful debt is established at amounts considered to be appropriate based primarily upon Satyam's past credit loss experience and an evaluation of potential losses on the outstanding receivable balances.

c) Prepaid Expenses and Other Receivables

Prepaid expenses and other receivables consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Interest accrued on bank deposits	\$ 24.9	
Prepaid expenses	5.3	\$ 4.4

Directors liability insurance	0.4	0.4
Advance for expenses	12.0	5.6
Loans and advance to employees	6.2	4.7
Other advances and receivables	2.4	2.7
Less: Allowance for doubtful advances	(2.3)	(1.7)
Prepaid expenses and other receivables	\$ 48.9	\$ 16.1

Prepaid expenses principally include the un-expired portion of annual rentals paid for use of leased telecommunication lines, satellite link charges, and insurance premiums.

Others advances and receivables include the current portion of the restricted cash in the form of deposits placed with banks to obtain bank guarantees amounted to US\$0.4 million and US\$30 thousand as of March 31, 2006 and 2005 respectively.

Notes to the Consolidated Financial Statements

d) Other Assets

Other assets consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Interest accrued on bank deposits		\$ 5.6
Deposits	\$ 17.0	9.6
Loans and advances to employees due after one year	0.8	0.9
Deferred taxes on income	0.5	0.4
Others	1.4	1.8
Less: Allowance for doubtful advances	(1.5)	(1.5)
Other Assets	\$ 18.2	\$ 16.8

Others include the non-current portion of the restricted cash in the form of deposits placed with banks to obtain bank guarantees amounted to US\$0.7 million and US\$0.3 million as of March 31, 2006 and 2005 respectively. Telephone and other deposits are primarily attributable to deposits with government organizations principally to obtain leased telephone lines and electricity supplies and advance payments to vendors for the supply of goods and rendering of services.

e) Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consist of:

	<i>(US\$ in millions)</i>	
	As of March 31,	
	2006	2005
Accrued expenses	\$ 56.3	\$ 28.3
Unclaimed dividend	1.1	1.0
Provision for taxation, net of payments	8.5	10.7
Provision for gratuity and unutilised leave	16.9	9.5
Deferred taxes on income	2.8	2.6
Others	23.3	12.7
Accrued expenses and other current liabilities	\$ 108.9	\$ 64.8

23. Subsequent event:

Satyam Computer Services had filed a request for arbitration with the London Court of International Arbitration (LCIA) naming Venture Global Engineering LLC, USA (VGE) as respondent. The Arbitration concerned a dispute between Satyam Computer Services and VGE in connection with their joint venture Satyam Venture Engineering Services Private Limited (SVES).

The LCIA Arbitrator issued his Final Award on April 3, 2006 in favour of Satyam Computer Services. Satyam Computer Services has filed a petition to recognize and enforce the Award in the United States District Court in Michigan. VGE has separately filed a declaratory judgment action seeking to refuse enforcement of the Award in the
