Investor Meetings Investor Meetings December December 2006 2006 Many of the statements made in this presentation with respect to our business outlook, including comparable sales increases, costs, earnings per share growth, and new restaurant development are forward looking and based on current expectations. There are several risks and uncertainties that could cause actual results to differ materially from those described, including but not limited to the ability of the company and our franchisees to open and operate additional restaurants profitably, the continued growth of our franchisees and our ability to attract and retain qualified franchisees, the impact of intense competition in the casual dining segment of the restaurant industry and our ability to control restaurant operating costs which are impacted by market changes, minimum wage and other employment laws, food costs and inflation. Please review our Form 10-K for the fiscal year ended December 25, 2005, for important information about factors that could cause actual results or events to be materially different. Safe Harbor Statement
