Sterling Financial Corporation of Spokane, Wash. Reports First-Quarter 2011 Earnings and Operating Results

SPOKANE, Wash.--(BUSINESS WIRE)--April 19, 2011--Sterling Financial Corporation (NASDAQ:STSA), the bank holding company of Sterling Savings Bank, today announced results for the quarter ended March 31, 2011. For the quarter, Sterling recorded net income attributable to common shareholders of \$5.4 million, or \$0.09 per common share, compared to a net loss of \$88.8 million, or \$112.70 per common share for the first quarter of 2010 (per share amounts adjusted for a 1-for-66 reverse stock split in November 2010).

For the first quarter, Sterling reported a lower provision for credit losses of \$10.0 million, compared to \$88.6 million for the first quarter of 2010. Net charge-offs for the reporting period were \$24.1 million, compared to \$136.5 million for the same period a year ago. Non-interest income increased \$4.7 million and non-interest expense decreased by \$7.7 million from the same period last year. Improvements in asset quality metrics included notable decreases in delinquent loans, classified assets and nonperforming assets.

“The first quarter financial results and the return to profitability reflect the efforts to reposition Sterling that were initiated over a year ago,” said Greg Seibly, Sterling president and chief executive officer. “While we still have work to do towards the resolution of our remaining troubled assets, Sterling gained significant momentum and we believe we are on the right track for growth in loans and core deposits, and improved earnings.”

Following are selected financial metrics for the first quarter of 2011:

Net interest margin expanded to 3.22 percent, improving 42 basis points during the quarter, and 37 basis points from the first quarter of 2010.

Total funding costs were reduced by 38 basis points from the same period last year.

Nonperforming assets decreased \$187.4 million, or 23 percent, to \$628.8 million during the first quarter of 2011, and are down 41 percent from the same period in 2010.

The loan loss allowance at March 31, 2011 was \$232.9 million, or 4.19 percent of total loans, compared to \$294.8 million, or 4.19 percent of total loans at March 31, 2010.

Tier 1 leverage ratio increased to 10.6 percent at March 31, 2011, from 2.6 percent a year ago, and tangible common equity to tangible assets increased to 8.1 percent at March 31, 2011.

Balance Sheet Management

Seibly said, “During the quarter, Sterling continued to focus on its primary goals: improving the mix of deposits, resolving problem assets, managing operating expenses, and increasing loan production to qualified borrowers, with the expectation that this focus will ultimately drive sustainable profits. Our special assets team has reduced Sterling’s exposure to problem assets, and our deposit shift has resulted in lower funding costs at the bank. We have attracted new loan production talent to expand our reach to customers within our footprint, and are pursuing lending relationships that are consistent with our business plan.”

	Mar 31, 2011		Dec 31, 2010		Mar 31, 2010		Annual % Change
	Amount	% of Loans	Amount	% of Loans	Amount	% of Loans	
	(in thousands)						
Total assets	\$ 9,352,469		\$ 9,493,169		\$ 10,554,567		-11%

Loans receivable:							
Residential real estate	719,458	13%	758,410	14%	812,517	12%	-11%
Multifamily real estate	638,250	12%	517,022	9%	496,368	7%	29%
Commercial real estate	1,400,867	25%	1,314,657	23%	1,380,955	20%	1%
Construction	396,300	7%	525,668	9%	1,282,585	18%	-69%
Consumer	715,206	13%	744,068	13%	858,486	12%	-17%
Commercial banking	1,686,573	30%	1,770,426	32%	2,215,241	31%	-24%
Gross loans receivable	\$ 5,556,654	100%	\$ 5,630,251	100%	\$ 7,046,152	100%	-21%

During the first quarter, gross loan balances declined \$73.6 million, including anticipated reductions in construction loans that totaled \$129.4 million. Multifamily real estate originations increased \$92.2 million from the linked quarter, reflecting Sterling’s strategic focus on multifamily lending, principally within its footprint. Loan purchases included \$100.8 million of seasoned commercial real estate loans for both owner-occupied and non-owner-occupied properties within Sterling’s footprint.

	Mar 31, 2011	Dec 31, 2010	Mar 31, 2010	Annual % Change
Deposits:		(in thousands)		
Retail	\$ 5,701,174	\$ 5,865,954	\$ 6,037,527	-6%
Brokered	331,726	249,029	722,957	-54%
Public	691,527	796,024	864,655	-20%
Total deposits	\$ 6,724,427	\$ 6,911,007	\$ 7,625,139	-12%
Net loans to deposits	79%	78%	88%	-9%
				Annual Basis Point Change
Funding costs:				
Cost of deposits	1.01%	1.13%	1.45%	(44)
Total funding liabilities	1.39%	1.56%	1.77%	(38)

Sterling's total deposits were \$6.72 billion at March 31, 2011, down from \$6.91 billion at the end of 2010 and from \$7.63 billion a year ago. The decrease during the first quarter reflects the expected reduction in retail CDs, as Sterling allowed some higher-rate CDs to run off, thereby improving the deposit mix and reducing funding costs. This run-off was partially offset by the increase in transaction, savings and MMDA accounts. Also contributing to the reduction of funding costs was a prepayment of \$295.0 million in FHLB borrowings during the fourth quarter of 2010. Total funding costs declined to 1.39 percent for the first quarter of 2011, compared to 1.56 percent for the linked quarter and 1.77 percent for the same period a year ago.

As of March 31, 2011, Sterling had total shareholders' equity of \$774.5 million, compared to \$770.8 million as of Dec. 31, 2010, and \$245.5 million as of March 31, 2010. Sterling's ratio of shareholders' equity to total assets was 8.28 percent at the end of the first quarter of 2011, compared to 8.12 percent at the end of the fourth quarter of 2010 and 2.33 percent at the end of the first quarter 2010. The increase from a year ago in both total shareholders' equity and the ratio of shareholders' equity to total assets was primarily due to the \$730.0 million capital raise completed in August 2010.

Operating Results

Net Interest Income

Sterling reported net interest income of \$73.7 million for the quarter ending March 31, 2011, compared to \$68.6 million in the linked quarter and \$74.9 million for the quarter ended March 31, 2010.

	Mar 31, 2011	Three Months Ended Dec 31, 2010 (in thousands)	Mar 31, 2010
Net interest income	\$ 73,743	\$ 68,607	\$ 74,890
Net interest margin (tax equivalent)	3.22%	2.80%	2.85%

Improvements in both net interest income and net interest margin during the quarter as compared to the linked quarter primarily reflect the decline in nonperforming assets and reduced deposit and borrowing funding costs. The reversal of interest income from nonperforming loans reduced the net interest margin by 53 basis points for the first quarter of 2011, and 63 basis points for the fourth quarter of 2010.

Non-interest Income

Non-interest income includes income from mortgage banking operations, fee and service-charges income, and other items such as net gains on sales of securities and loan servicing fees. For the first quarter of 2011, non-interest income was \$30.0 million, compared to \$30.8 million for the linked quarter and \$25.3 million for the same period a year ago.

Income from mortgage banking operations during the reporting period totaled \$10.3 million, down from \$20.2 million during the prior quarter, and \$11.2 million from the year-ago period, reflecting a lower level of refinancing activity due to higher mortgage rates. The decrease from the linked quarter is a result of lower residential loan originations, compounded by lower margins on loan sales. The table below highlights residential loan originations and sales for the periods indicated.

	Mar 31, 2011	Three Months Ended Dec 31, 2010 (in thousands)	Mar 31, 2010	Annual % Change
Loan originations - residential real estate for sale	\$ 363,118	\$ 715,843	\$ 414,443	-12%
Loan sales - residential	498,310	757,558	486,605	2%
Margin - residential loan sales	2.48%	2.80%	2.07%	Annual Basis Point Change 41

For the quarter ended March 31, 2011, fees and service charges income contributed \$12.6 million to non-interest income, compared to \$13.6 million in the linked quarter and \$13.0 million in the same period last year. The reduction in fees and service charges income in the first quarter is primarily related to lower non-sufficient funds fees and loan fees.

For the quarter ended March 31, 2011, Sterling recorded a gain on sales of securities of \$6.0 million, compared to \$1.5 million for the linked quarter and \$1.9 million for the same period a year ago. During the fourth quarter of 2010, Sterling took a charge on the prepayment of FHLB borrowings of \$11.3 million, which reduced non-interest income; no such charge was taken during the first quarters of 2011 or 2010.

Non-interest Expense

Non-interest expense was \$88.3 million for the first quarter of 2011, compared to \$107.5 million in the linked quarter and \$96.0 million for the first quarter of 2010. The decline compared to the linked quarter was principally the result of lower other-real-estate-owned (OREO) expenses, which declined by \$12.6 million, or 52 percent compared to the fourth quarter of 2010. The \$7.7 million reduction of non-interest expense compared to the first quarter of last year reflects lower Federal Deposit Insurance Corporation deposit insurance premiums and lower professional fees.

Income Taxes

During the first quarter, Sterling did not recognize any federal or state tax expense, as the income tax expense for the quarter was offset by a reduction in the deferred tax valuation allowance.

Sterling uses an estimate of future earnings and an evaluation of its loss carryback ability and tax planning strategies to determine whether it is more likely than not that it will realize the benefit of its net deferred tax asset. Sterling has determined that it does not at this time meet the required threshold, and accordingly, has a valuation against its deferred tax asset. As of March 31, 2011, the reserved deferred tax asset was approximately \$358 million, including approximately \$271 million of net operating loss carry-forwards.

With regard to the deferred tax asset, the benefits of Sterling's accumulated tax losses would be reduced in the event of an "ownership change," as determined under Section 382 of the Internal Revenue Code. During 2010, in order to preserve the benefits of these tax losses, Sterling's shareholders approved a protective amendment to Sterling's restated articles of incorporation and Sterling's board has adopted a shareholder rights plan, both of which restrict certain transfers of stock that would result in investors acquiring more than 4.95 percent of Sterling's total outstanding common stock.

Credit Quality

For the first quarter of 2011, Sterling recorded a \$10.0 million provision for credit losses, compared to \$30.0 million for the linked quarter, and \$88.6 million for the first quarter of 2010. The reduced level of credit loss provisioning reflects improvement in asset quality as evidenced by the decline in nonperforming loans and charge-offs.

Nonperforming assets were \$628.8 million at March 31, 2011, compared to \$816.3 million at Dec. 31, 2010, and \$1.06 billion at March 31, 2010. At March 31, 2011, nonperforming assets as a percentage of total assets was 6.72 percent, compared to 8.60 percent at Dec. 31, 2010, and 10.07 percent at March 31, 2010. During the first quarter, Sterling returned to performing status \$92.2 million of previously impaired loans; the loans had been current for at least six months and were expected to continue to perform in accordance with original loan terms. Seibly said, "Our asset quality metrics continue to improve throughout the portfolio, and we remain focused on maintaining this favorable trend. We have been consistent at marking our nonperforming portfolio to reflect current market collateral values, which has facilitated timely resolutions. We continue to closely monitor our portfolio and the key economic factors in the markets we serve. We expect that the trends in our markets will continue to recover and that our asset quality metrics will continue to improve."

The following table shows an analysis of Sterling's nonperforming assets by loan category and geographic region as of the dates indicated.
