AMARIN CORPORATION ANNOUNCES PURCHASE BY CHAIRMAN OF EQUITY AND DEBT INTERESTS IN AMARIN FROM ELAN

LONDON, United Kingdom, October 1, 2004 - Amarin Corporation plc (NASDAQSC: AMRN) today announced that Mr Thomas Lynch, its non-executive chairman, has signed an agreement to purchase the following securities in Amarin from Elan Corporation, plc and its subsidiaries:

- 4,653,819 Amarin American Depositary Shares representing an approximate 25.9% shareholding on an undiluted basis;
- Warrants to subscribe for 500,000 Amarin Ordinary Shares at an exercise price of US\$1.90 per share; and

Edgar Filing: AMARIN CORP PLC\UK - Form 6-K

- US\$5 million in principal amount of Amarin Secured 8% Loan Note, issued pursuant to a loan note instrument dated February 25, 2004.

The board of Amarin has reviewed and approved the transaction after consultation with its advisers.

Thomas Lynch has agreed to convert \$3 million of the Loan Note into Amarin ordinary shares, with an option to convert the remaining \$2 million at the offering price of any future equity financing. The conversion of \$3 million of the Loan Note into equity will remove a significant amount of debt from Amarin's balance sheet. This includes a principal repayment of \$1.5 million, which would otherwise fall due in January 2006, and it reduces the annual cash interest expense to Amarin in respect of the Loan Notes from US\$400,000 to US\$160,000.

Rick Stewart, Chief Executive Officer of Amarin commented, "The purchase of the Elan debt and equity has removed a significant uncertainty for Amarin in the market as Elan has publicly stated an intention to liquidate their portfolio of equity investments in biotech and specialty pharmaceutical companies. Additionally, we view the acquisition of this stake as a significant vote of confidence in the company by our chairman."

About Amarin Corporation

Amarin Corporation plc is a neuroscience company focused on the development and commercialisation of novel drugs for the treatment of central nervous system disorders. Miraxion is in phase III development for Huntington's disease and is in phase II development for treatment unresponsive depression.
