**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION**

Certain statements in this report contain or may contain forward-looking statements. These statements, identified by words such as “plan”, “anticipate”, “believe”, “estimate”, “should”, “expect” and similar expressions include our expectations and objectives regarding our future financial position, operating results and business strategy. These statements are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward - looking statements. These forward-looking statements were based on various factors and were derived utilizing numerous assumptions and other factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, our ability to secure suitable financing to continue with our existing business or change our business and conclude a merger, acquisition or combination with a business prospect, economic, political and market conditions and fluctuations, government and industry regulation, interest rate risk, U.S. and global competition, and other factors. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described in connection with any forward-looking statements that may be made herein. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Readers should carefully review this report in its entirety, including but not limited to our financial statements and the notes thereto and the risks described in our Annual Report on Form 10-K for the fiscal year ended January 31, 2011. We advise you to carefully review the reports and documents we file from time to time with the Securities and Exchange Commission (the “SEC”), particularly our quarterly reports on Form 10-Q and our current reports on Form 8-K. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events.

#### **OTHER PERTINENT INFORMATION**

When used in this report, the terms, “we,” the “Company,” “our,” and “us” refers to Neutra Corp. a Florida corporation.

**Neutra Corp.**

**(A Development Stage Company)**

**NOTES TO UNAUDITED FINANCIAL STATEMENTS**

**April 30, 2013**

**NOTE 1. GENERAL ORGANIZATION AND BUSINESS**

We are a development stage company and were incorporated in the State of Florida on January 11, 2011, as a for-profit company, and an established fiscal year end of January 31. We intend to market and participate in the Nutraceutical space by bringing products derived from all natural and organic origins. Along with participating in the actual nutraceutical products, we plan to research and bring new technology to the Nutraceutical space. Nutraceutical natural medicine is an alternative system that focuses on natural remedies and the body's vital ability to heal and maintain itself. One of the nutraceutical sub-markets is the new thriving medical cannabis market which we will be doing our due diligence and participating in. We intend to entrust the manufacturing to a nutraceutical contractor to private label all of our products and to sell them under our unique brand. To date, we have not approached a contractor to have any of our intended private label brand supplement products.

We have narrowed our product focus to research and development in the following areas: weight-loss, detox, men's health, acid-alkali pH balance, anti-aging, sleep disorders, autism, pain management with the use of the new thriving medical cannabis products, and air space sanitation derived by nutraceutical technology. We are continuously testing different ingredients and suppliers for purity and quality of transportation and storage of ingredients to preserve their potency. This will ensure that we are always at the top of the technology and purity of our products. In addition, we have contracted with a company that has the ability to infuse our formulations with a bio-energy infusion which enhances the efficacy of the ingredients on a sub-molecular level. For the time being we are in negotiations with veterans in the medical cannabis space in California for further involvement. We see many barriers to enter this market, which are: technology of delivery, which include: oral - baked, oral - capsule, topical, injections or microinjections, and inhalation.

We have not generated any revenue to date and our activities have been limited to developing the business plan, launching our website, hiring consultants and advisors, establishing an office and beginning research and development of products. We will not have the necessary capital to develop our business plan until we are able to secure additional financing.

Neutra Corp. is in the early stage of implementing its business plan. The Company does not have any products, customers and has not generated any revenues. The Company must complete the business plan, develop the product and attract customers before it can start generating revenues.

On January 11, 2013, the Company executed an Option Agreement with Purlife Distributors Inc., and authorized distributor of DrivePur and Purteq products in Canada, (hereafter referred to as "Purlife". Purlife owns rights to market, in Canada, environmentally-friendly, sustainable and long-lasting antimicrobial solutions for indoor and outdoor surfaces. The Option Agreement shall be for a period of ninety (90) days beginning from the date of the agreement.

The Company will pay Purlife a \$5,000 non-refundable payment. Under the option agreement, the Company, will have the right to conduct a due diligence review of Purlife with complete access to data, patent applications, financial statements and other pertinent information. From the Option Agreement, the Company was able to form a Joint Venture with Purlife on February 1, 2013.

Through April 30, 2013, the Company was in the development stage and has not generated revenues. The Company has incurred losses since inception aggregating \$668,502. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. These matters, among others, raise substantial doubt about the ability of the Company to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern.

## **NOTE 2. GOING CONCERN**

For the three months ended April 30, 2013, the Company had a net loss of \$218,932 and negative cash flow from operations of \$127,137. As of April 30, 2013, the Company has negative working capital of \$341,211. The Company has not emerged from the development stage.

These factors raise a substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the possible inability of the Company to continue as a going concern.

The Company does not have the resources at this time to repay its credit and debt obligations, make any payments in the form of dividends to its shareholders or fully implement its business plan. Without additional capital, the Company will not be able to remain in business.

Management has plans to address the Company's financial situation as follows:

In the near term, management plans to continue to focus on raising the funds necessary to fully implement the Company's business plan. Management will continue to seek out debt financing to obtain the capital required to meet the Company's financial obligations. There is no assurance, however, that lenders will continue to advance capital to the Company or that the new business operations will be profitable. The possibility of failure in obtaining additional funding and the potential inability to achieve profitability raises doubts about the Company's ability to continue as a going concern.

In the long term, management believes that the Company's projects and initiatives will be successful and will provide cash flow to the Company which will be used to finance the Company's future growth. However, there can be no assurances that the Company's planned activities will be successful, or that the Company will ultimately attain profitability. The Company's long term viability depends on its ability to obtain adequate sources of debt or equity funding to meet current commitments and fund the continuation of its business operations, and the ability of the Company to ultimately achieve adequate profitability and cash flows from operations to sustain its operations.

### **NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES**

The significant accounting policies followed are:

**Development Stage Entity** - The Company is a development stage company as defined by FASB ASC 915, *Development Stage Entities*. The Company is still devoting substantially all of its efforts on establishing the business and its planned principal operations have not commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

**Interim Financial Statements** – The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and such statements are of a normal recurring nature. These financial statements should be read in conjunction with the

financial statements for the year ended January 31, 2013 and notes thereto and other pertinent information contained in our Form 10-K the Company has filed with the Securities and Exchange Commission (the "SEC"). The results of operations for the period ended April 30, 2013 are not necessarily indicative of the results for the full fiscal year ending January 31, 2014.

**Use of estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Cash and cash equivalents** - All cash, other than held in escrow, is maintained with a major financial institution in the United States. Deposits with this bank may exceed the amount of insurance provided on such deposits. Temporary cash investments with an original maturity of three months or less are considered to be cash equivalents. Cash and cash equivalents were \$138,943 and \$7,100 at April 30, 2013 and January 31, 2013, respectively.

**Common stock** - The Company records common stock issuances when all of the legal requirements for the issuance of such common stock have been satisfied.

**Income Taxes** - The Company accounts for income taxes under ASC 740 *Income Taxes*. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. No deferred tax assets or liabilities were recognized as of April 30, 2013 or January 31, 2013.

**Earnings (Loss) Per Share** - Basic loss per share is computed in accordance with ASC Topic 260, *Earnings per Share*, by dividing net loss attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted loss per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and the conversion of notes payable to common stock. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered antidilutive and thus are excluded from the calculation. At April 30, 2013 and 2012, the Company did not have any potentially dilutive common shares.

**Related Parties** - The Company follows ASC 850, *Related Party Disclosures*, for the identification of related parties and disclosure of related party transactions. Related party transactions for the periods ending April 30, 2013 and 2012 totaled \$0.

**Financial instruments** - The Company's balance sheet includes certain financial instruments. The carrying amounts of current assets and current liabilities approximate their fair value because of the relatively short period of time between the origination of these instruments and their expected realization.

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs that are both significant to the fair value measurement and unobservable.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of January 31, 2013. The respective carrying value of certain on-balance-sheet financial instruments

approximated their fair values due to the short-term nature of these instruments. These financial instruments include accounts receivable, other current assets, accounts payable, accrued compensation and accrued expenses. The fair value of the Company's notes payable is estimated based on current rates that would be available for debt of similar terms which is not significantly different from its stated value.

### **Recent Accounting Pronouncements**

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the *FASB Accounting Standards Codification*<sup>TM</sup> ("ASC") is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company.

We have reviewed the FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

#### **NOTE 4. JOINT VENTURE**

On February 1, 2013, the Company entered into a Joint Venture Agreement with Purlife. The Joint Venture was created towards developing and marketing the brands represented by Purlife. Purlife will execute the business plan or other programs as agreed to as well as make any necessary disbursements on behalf of the Joint Venture, and collect and distribute profits in accordance with the ownership percentages. The Joint Venture will allocate profits for a period of 3 years with the Company receiving 10% and the Joint Venture receiving 90%. All loss and disbursements incurred by Purlife in acquiring, holding and protecting the business interest and the net profits shall, during the period of the venture be paid by Purlife. All losses incurred by the Parties will be limited to their financial contribution to the Joint Venture. The Company will provide consulting to the Joint Venture and participate in strategic and operation decisions as required.

The Company will be a way of providing start up and operating expenses such as to facilitate the completion of the undertaking of the Business.

The Company committed to fund \$70,000 of the cash flow requirements as set forth in an approved budget prepared by Purlife in regular contributions of \$5,000. The Company's obligation to continue funding is solely at the discretion of the Company. At April 30, 2013, the Company's remaining commitment totaled \$5,000.

#### **NOTE 5. CONVERTIBLE NOTES PAYABLE**

On February 28, 2013, the Company signed a Convertible Promissory Note which refinanced non-interest bearing advances in the amount of \$104,650 into a convertible note payable. The Convertible Promissory Note bears interest at 10% per annum and is payable along with accrued interest on February 28, 2013. The Convertible Promissory Note is convertible into common stock at the option of the holder at the rate of \$0.10 per share.

The Company evaluated the application of ASC 470-50-40/55, *Debtor's Accounting for a Modification or Exchange of Debt Instrument* as it applies to the note listed above and concluded that the revised terms constituted a debt modification rather than a debt extinguishment because the present value of the cash flow under the terms of the new instrument was less than 10% from the present value of the remaining cash flows under the terms of the original note. No gain or loss on the modifications was required to be recognized.

The Company evaluated the terms of the new note in accordance with ASC Topic No. 815 - 40, *Derivatives and Hedging - Contracts in Entity's Own Stock* and determined that the underlying common stock is indexed to the Company's common stock. The Company determined that the conversion features did not meet the definition of a

liability and therefore did not bifurcate the conversion feature and account for it as a separate derivative liability. The Company evaluated the conversion feature for a beneficial conversion feature. The effective conversion price was compared to the market price on the date of the note and was deemed to be less than the market value of underlying common stock at the inception of the note. Therefore, the Company recognized a beneficial conversion feature in the amount of \$104,650 on February 28, 2013. The beneficial conversion feature was recorded as an increase in additional paid-in capital and a discount to the Convertible Notes Payable. The discount to the Convertible Notes Payable will be amortized to interest expense over the life of the note.

On February 6, 2013, the holder of the convertible note payable dated May 1, 2012, elected to convert principal in the amount of \$4,900 into 490,000 shares of common stock in accordance with the terms of the note payable. As a result of the conversion, unamortized discount associated with the converted principal in the amount of \$3,920 was immediately amortized to interest expense. There was no gain or loss recognized on the conversion as it was effected in accordance with the terms of the convertible note payable.

On March 12, 2013, the holder of the convertible note payable dated May 1, 2012, elected to convert principal in the amount of \$4,900 into 490,000 shares of common stock in accordance with the terms of the note payable. As a result of the conversion, unamortized discount associated with the converted principal in the amount of \$3,802 was immediately amortized to interest expense. There was no gain or loss recognized on the conversion as it was effected in accordance with the terms of the convertible note payable.

On March 20, 2013, the holder of the convertible note payable dated May 1, 2012, elected to convert principal in the amount of \$5,900 into 590,000 shares of common stock in accordance with the terms of the note payable. As a result of the conversion, unamortized discount associated with the converted principal in the amount of \$4,503 was immediately amortized to interest expense. There was no gain or loss recognized on the conversion as it was effected in accordance with the terms of the convertible note payable.

On April 15, 2013, the holder of the convertible note payable dated May 1, 2012, elected to convert principal in the amount of \$6,500 into 650,000 shares of common stock in accordance with the terms of the note payable. As a result of the conversion, unamortized discount associated with the converted principal in the amount of \$4,822 was immediately amortized to interest expense. There was no gain or loss recognized on the conversion as it was effected in accordance with the terms of the convertible note payable.

#### **NOTE 6. COMMON STOCK**

On January 11, 2011, The Company issued 450,000 shares of common stock to the founder for cash proceeds of \$9,000.

On June 1, 2011, the Company issued 150,011 shares of common stock for cash proceeds of \$41,000.

On August 8, 2012, the Company effected a one-for-20 reverse stock split. All share and per share amounts have been restated to reflect the reverse split.

On September 7, 2012, the holder of the convertible note payable dated August 31, 2012 elected to convert the entire principal balance of \$43,495 into 4,349,500 shares of common stock.

On February 6, 2013, the Company issued 490,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$4,900.

On March 12, 2013, the Company issued 490,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$4,900.

On March 20, 2013, the Company issued 590,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$5,900.

On April 15, 2013, the Company issued 650,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$6,500.

**NOTE 7. SUBSEQUENT EVENTS**

On May 3, 2013, the Company issued 325,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$3,250.

On May 17, 2013, the Company issued 370,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$3,700.

On May 22, 2013, the Company issued 370,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$3,700.

On June 14, 2013, the Company issued 400,000 shares of common stock as a result of the conversion of a convertible note payable in the amount of \$4,000.

## ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

### Overview

Neutra Corp. (the “Company”, “we”, “us” or “our”) is a development stage company incorporated in Florida on January 11, 2011 to market and participate in the Nutraceutical space by bringing products derived from all natural and organic origins. Along with participating in the actual nutraceutical products, we plan to research and bring new technology to the Nutraceutical space. Nutraceutical natural medicine is an alternative system that focuses on natural remedies and the body’s vital ability to heal and maintain itself. One of the nutraceutical sub-market is the new thriving medical cannabis market which we will be doing our due diligence and participating in. We intend to entrust the manufacturing to a nutraceutical contractor to private label all of our products and to sell them under our unique brand. In accordance with ASC 915, *Development Stage Entities* we are considered to be in the development stage. We have established a fiscal year end of January 31.

On October 11, 2011, the Company launched its website. The website will be used initially to build brand recognition by providing the healthcare practitioners with education and support. We intend to accomplish this education and support process providing regular and frequent access to educational tools, such as webinars and live seminars. The website will continue to be developed to be used directly to market and sell nutraceutical products and support products to health practitioners, companies in production, and possibly the end user. We intend to entrust the manufacturing to a nutraceutical contractor to private label all of our intended products and to sell them under our brand. Although we plan to contract out and private label our products, we will not be adverse to partnerships and joint ventures with innovators in this market. We have not yet selected our intended products or the manufacturer.

We have narrowed our product focus to research and development in the following areas: weight-loss, detox, men’s health, acid-alkali pH balance, anti-aging, sleep disorders, autism, pain management with the use of the new thriving medical cannabis products, and air space sanitation derived by nutraceutical technology. We are continuously testing different ingredients and suppliers for purity and quality of transportation and storage of ingredients to preserve their potency. This will ensure that we are always at the top of the technology and purity of our products. In addition, we have contracted with a company that has the ability to infuse our formulations with a bio-energy infusion which enhances the efficacy of the ingredients on a sub-molecular level. For the time being we are in negotiations with veterans in the medical cannabis space in California for further involvement. We see many barriers to enter this market, which are: technology of delivery, which include: oral – baked, oral – capsule, topical, injections or microinjections, and inhalation.

Based upon the launch of our website, the Company is no longer a shell company (as defined in Rule 12b-2 of the Exchange Act) effective October 11, 2011.

On January 11, 2013, the Company executed an Option Agreement with Purlife Distributors Inc., an authorized distributor of DrivePur and Purteq products in Canada, (hereafter referred to as "Purlife"). Purlife owns rights to market, in Canada, environmentally-friendly, sustainable and long-lasting antimicrobial solutions for indoor and outdoor surfaces. The Option Agreement shall be for a period of ninety (90) days beginning from the date of the agreement. The Company will pay Purlife a \$70,000 non-refundable payment. Under the option agreement, the Company, will have the right to conduct a due diligence review of Purlife with complete access to data, patent applications, financial statements and other pertinent information. From the Option Agreement, the Company was able to form a Joint Venture with Purlife on February 1, 2013.

In their audit report dated May 1, 2013; our auditors have expressed an opinion that substantial doubt exists as to whether we can continue as an outgoing business. If we do not raise additional capital within 12 months, we may be required to suspend or cease the implementation of our business plan.

We have not generated any revenues to date and our activities have been limited to developing our business plan, developing and launching our website, research and development of products and trial testing of our initial formulations. We will not have the necessary capital to fully develop or execute our business plan until we are able to secure additional financing. There can be no assurance that such financing will be available on suitable terms. We need to raise an additional \$400,000 to implement our business plan over the next 12 months. Our current cash on hand is insufficient to commercialize our products or fully develop our business strategy. If we are unable to raise adequate additional funds or if those funds are not available on terms that are acceptable to us, we will not be able to execute our business plan and we may cease operations.

We have no revenues; have incurred losses since inception, have been issued a going concern opinion from our auditors and rely upon the sale of our securities and borrowing to fund operations.

### Critical Accounting Policies

We prepare our condensed financial statements in conformity with GAAP, which requires management to make certain estimates and apply judgments. We base our estimates and judgments on historical experience, current trends and other factors that management believes to be important at the time the condensed financial statements are prepared. Due to the need to make estimates about the effect of matters that are inherently uncertain, materially different amounts could be reported under different conditions or using different assumptions. On a regular basis, we review our critical accounting policies and how they are applied in the preparation of our condensed financial statements.

While we believe that the historical experience, current trends and other factors considered support the preparation of our condensed financial statements in conformity with GAAP, actual results could differ from our estimates and such differences could be material.

For a full description of our critical accounting policies, please refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our January 31, 2013 Annual Report on Form 10-K.

### Results of Operations

The following discussion should be read in conjunction with the condensed financial statements and in conjunction with the Company's annual report on Form 10-K for the year ended January 31, 2013. Results or interim periods may not be indicative of results for the full year.

#### Three months ended April 30, 2013 compared to the three months ended April 30, 2013

The Company did not generate any revenue during the three months ended April 30, 2013 or 2012.

General and administrative expenses during the three months ended April 30, 2013 were \$187,340 compared to \$81,099 for the three months ended April 30, 2012. The increase in general and administrative expenses was the result of the Company's increased operations in the areas of working with private label contractors to evaluate and test colon cleanse, weight loss and prostate support formulas. The increased general and administrative expense resulted in increased operating loss and net loss for the three months ended April 30, 2013 compared to the three months ended April 30, 2012.

Liquidity and Capital Resources

At April 30, 2013, we had cash on hand of \$138,943. Net cash used in operating activities for the three months ended April 30, 2013 was \$127,137. We believe that our cash on hand will be adequate to support our operations for less than one month. In order to continue implementing our business plan, we will have to obtain additional funding, either through the sale of common stock or by borrowing. There is no guarantee that funds will be available to the Company when needed or that, if available, the debt financing would be on terms that are acceptable to the Company. If we are not able to obtain additional funding, we will not be able to fully implement our business plan.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Not applicable to a smaller reporting company.

**ITEM 4. CONTROLS AND PROCEDURES**

Management's Report On Internal Control Over Financial Reporting

**Evaluation of disclosure controls and procedures:** The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15 (f) and 15d-15(f)) as of April 30, 2013, have concluded that as of such date the Company's disclosure controls and procedures were inadequate and ineffective and not designed to ensure that material information relating to the Company and its subsidiaries would be made known to such officers on a timely basis.

**Changes in internal control over financial reporting:** There have been no changes in our internal controls over financial reporting identified in connection with the evaluation required by paragraph (d) of Securities Exchange Act Rule 13a-15 or Rule 15d-15 that occurred in the three months ended April 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

For a full discussion of internal control over financial reporting, please refer to Item 9,A "Controls and Procedures" in our January 31, 2013 Annual Report on Form 10-K.
