Item 8.01 Other Events

As previously reported, in conjunction with a series of proposed transactions between Firstgold Corp. and the Xi'an, China headquartered Northwest Non-Ferrous International Investment Company Limited (Northwest), the parties sought to obtain necessary regulatory approvals including the filing of a joint application by Northwest and Firstgold with the Committee on Foreign Investment in the United States (CFIUS) on October 6, 2009 relating to the proposed acquisition of Firstgold control shares by Northwest and the acquisition of \$11,500,000 of Secured Notes. On November 6, 2009 Firstgold and Northwest were informed by CFIUS that additional time was required to complete their review of the Application pursuant to applicable authority and invoked an additional 45-day period in which to perform a full investigation of the Application. Pursuant to discussions between CFIUS and representatives of the Applicants culminating late last week, CFIUS made its determination to disapprove the Application. CFIUS officials based this decision on serious, significant and consequential national security issues they had identified including the fact that Firstgold s properties were adjacent to or in proximity to a military air base. In further discussions CFIUS officials determined that no mitigation scenarios could sufficiently resolve the identified national security issues.

In light of the above, the Applicants have the option of either withdrawing the Application or allowing the CFIUS recommendation of disapproval to be forwarded to the President for his action to: (i) acceptance of the CFIUS action, (ii) allow the transaction to proceed despite the CFIUS objection or (iii) allow the transaction to proceed but with an appropriate mitigation plan that addresses the national security issues. The Applicants have until December 21, 2009 (the expiration of the CFIUS review period) to decide whether to withdraw the Application or allow the Application to be forwarded to the President who must then act upon the matter within 15 days.

In light of these recent and unexpected developments, all parties to the transactions are assessing their positions and future courses of action.
