PROXY STATEMENT

General

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the “Board”) of BioCryst Pharmaceuticals, Inc. (“BioCryst” or the “Company”) for the Annual Meeting of Stockholders of the Company to be held at our corporate offices at 4505 Emperor Blvd., Suite 200, Durham, NC 27703 on Wednesday, May 20, 2015 at 10:00 a.m., Eastern Daylight Time, and any adjournment thereof (the “Meeting”) and for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders.

In this document, the words “BioCryst,” “the Company,” “we,” “our,” “ours,” and “us” refer only to BioCryst Pharmaceuticals, Inc. and not any other person or entity.

We are taking advantage of Securities and Exchange Commission (“SEC”) rules that allow us to deliver proxy materials to our stockholders on the Internet. Under these rules, we are sending our stockholders a one-page notice regarding the Internet availability of proxy materials instead of a full printed set of proxy materials. Our stockholders will not receive printed copies of the proxy materials unless specifically requested. Instead, the one-page notice that our stockholders receive will tell them how to access and review on the Internet all of the important information contained in the proxy materials. This notice also tells our stockholders how to submit their proxy card on the Internet and how to request to receive a printed copy of our proxy materials. We expect to provide notice and electronic delivery of this proxy statement to such stockholders on or about April 10, 2015.

Purpose of the Meeting

The matters to be considered at the Meeting are:

1. To elect the one director nominated in this proxy statement to serve for a term of three years and until a successor is duly elected and qualified;
2. To ratify the selection of Ernst & Young LLP as our independent registered public accountants; and
3. To transact such other business as may properly come before the stockholders at the Meeting or any adjournment or postponement thereof.

Revocation and Voting of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time prior to the voting thereof, by giving written notice to our Corporate Secretary at our principal executive offices, 4505 Emperor Blvd., Suite 200 Durham, NC 27703 or by voting in person at the Meeting. Attendance at the Meeting will not, by itself, revoke a proxy. All valid, unrevoked proxies will be voted as directed. In the absence of any contrary directions, proxies received by the Board will be voted as follows:

- FOR the election of the nominee named in this proxy statement for director of the Company; and
- FOR ratification of the selection of Ernst & Young LLP as the Company’s independent registered public accountants for 2015.

With respect to such other matters as may properly come before the Meeting, votes will be cast in the discretion of the appointed proxies.

Voting and Quorum

Only holders of record (the “Stockholders”) of our common stock (the “Common Stock”) as of the close of business on March 27, 2015 (the “Record Date”) will be entitled to notice of and to vote at the Meeting. At March 27, 2015 there were 72,458,424 shares of Common Stock outstanding. Stockholders are entitled to vote in any one of the following ways:

1. In Person. Stockholders who choose to attend the Meeting can vote in person at the Meeting by presenting a form of photo identification acceptable to the Company.

2. By Internet. Stockholders can vote on the Internet by following the instructions provided in the one-page notice regarding the Internet availability of proxy materials.
3. By Mail. Stockholders can vote by mail after requesting a paper copy of the proxy materials, including a proxy card, by following the instructions provided in the one-page notice regarding the Internet availability of proxy materials.
4. By Telephone: Stockholders can vote over the telephone using the toll-free telephone number obtained by accessing the website set forth in the instructions provided in the one-page notice regarding the Internet availability of proxy materials.

Each share of Common Stock is entitled to one vote on all matters on which Stockholders may vote. There is no cumulative voting in the election of directors. The presence, in person or by proxy, of a majority of the outstanding shares of Common Stock is necessary to constitute a quorum at the Meeting. Shares of Common Stock represented by a properly executed and returned proxy will be treated as present at the Meeting for purposes of determining the presence of a quorum without regard to whether the proxy is marked as casting a vote for or against, or withholding authority or abstaining with respect to a particular matter. In addition, shares of Common Stock represented by “broker non-votes” generally will be treated as present for purposes of determining the presence of a quorum. Broker non-votes are shares of Common Stock held in record name by brokers, banks or other nominees as to which a proxy is received and (i) instructions have not been received from the beneficial owners or persons entitled to vote, (ii) the broker or nominee does not have discretionary power and (iii) the record holder had indicated that it does not have authority to vote such shares on that matter.

Attending the Meeting

Stockholders as of the Record Date are invited to attend the Meeting. Stockholders must present a form of photo identification acceptable to the Company, such as a valid driver’s license or passport. Registered holders may vote upon presentation of identification. Beneficial owners must obtain a proxy from their broker, bank or other holder of record and present it to the inspector of election with their ballot. Each stockholder may appoint only one proxy holder or representative to attend the meeting on his or her behalf. The Meeting will begin promptly at 10 a.m., Eastern Daylight Time. Please allow ample time for the check-in procedures. Media may attend the Meeting by invitation only.

Required Votes, Abstentions, and Broker Non-Votes

Directors will be elected by a plurality of the votes cast. This means that the nominee with the most votes will be elected. Votes may be cast for or withheld from the nominee, but a withheld vote or a broker non-vote will not affect the outcome of the election of directors at the Meeting.

The affirmative vote of the holders of a majority of the Shares of Common Stock represented in person or by proxy at the Annual Meeting and entitled to vote on this proposal is required for approval of the ratification of our selection of Ernst & Young LLP as our independent registered public accountants. Abstentions with respect to this proposal will have the same effect as a vote against this proposal, and broker non-votes will have no effect upon this proposal.

Proxy Solicitation

We are making this proxy solicitation both through the mail and Internet, although proxies may be solicited by personal interview, telephone, facsimile, letter, e-mail or otherwise. Certain of our directors, officers and other employees, without additional compensation, may participate in the solicitation of proxies. We will pay the cost of this solicitation, including the reasonable charges and expenses of brokerage firms and others who forward solicitation

materials to beneficial owners of the Common Stock. We have retained Morrow & Co., LLC, 470 West Ave, Stamford, CT 06902 to act as proxy solicitor in conjunction with the meeting. We have agreed to pay that firm approximately \$10,000 plus reasonable out of pocket expenses for their services.

ITEMS TO BE VOTED ON

1. ELECTION OF DIRECTORS

It is proposed to elect the one director nominated in this proxy statement to serve until the annual meeting of stockholders in 2018, and until a successor shall have been duly elected and qualified. Proxies cannot be voted for more than one person. Unless otherwise specified in the accompanying proxy, the shares voted by proxy will be voted FOR the election of the person listed for a term expiring in 2018. The Board expects that the nominee will be available for election but, if the nominee is not available, proxies received will be voted for a substitute nominee to be designated by the Board.

CORPORATE GOVERNANCE

Code of Business Conduct

We have a code of business conduct that applies to all of our employees as well as to each member of the Board. The code of business conduct is available on our website at www.biocryst.com under the Corporate Governance

section. The Company intends to post on its website any amendments to, or waivers from, its code of business conduct. To date, there have not been any waivers by us under the code of business conduct.

Board of Directors

The Company is governed by a Board of Directors, which currently consists of eight directors as determined by resolution of the Board in accordance with the Company's Certificate of Incorporation. The Board has determined that six of the eight current members of the Board (Abercrombie, Erck, Hutson, Jensen, Lee, and Sanders), are independent as defined by the Nasdaq Global Select Market, or Nasdaq. There are no family relationships among any of our directors or executive officers.

The Board has established the Audit, Compensation, and Corporate Governance and Nominating committees to assist in the oversight of the Company. The Board has adopted charters for each of these committees, which are posted on the Company's website at www.biocryst.com. The Company also makes available at its website its code of business conduct. Printed copies of these charters or the code of business conduct may be obtained, without charge, by contacting the Corporate Secretary, BioCryst Pharmaceuticals, Inc., 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703.

Board Leadership Structure

Mr. Abercrombie currently serves as the Chairman of the Board. The Chairman of the Board presides over the Board meetings and any executive session of the non-management directors. An executive session is held at every regularly scheduled Board meeting.

The Company's CEO is responsible for setting the Company's strategic direction and for the day-to-day leadership performance of the Company. The Company's independent Chairman provides input to the CEO and is responsible for presiding over the meetings of the Board and executive sessions of non-management directors. The Company believes that separating the roles of Chairman and CEO is the most appropriate leadership structure for the Company at this time, based on the current circumstances and direction of the Company and the membership of the Board, including the vast experience of our current Chairman of the Board in the pharmaceutical industry. This leadership structure permits the CEO to focus his attention on managing our business and allows the Chairman to function as an important liaison between management and the Board, enhancing the ability of the Board to provide oversight of the Company's management and affairs.

Risk Oversight

The Company does not view risk in isolation, but considers risk as part of its regular consideration of business strategy and business decisions. The Board oversees the Company's risk management function, directly and through its committees. BioCryst approaches risk management by integrating its strategic planning, operational decision making and risk oversight and communicating risks and opportunities to the Board. The Board commits extensive time and effort every year to discussing and agreeing upon the Company's strategic plan, and it reconsiders key elements of the strategic plan as significant events and opportunities arise during the year. As part of the review of the strategic plan, as well as in evaluating events and opportunities that occur during the year, the Board and management also consider the risks relating to the strategic plan.

While the Board has primary responsibility for oversight of the Company's risk management, the Board's standing committees support the Board by regularly addressing various risks in their respective areas of oversight. Specifically, the Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with public reporting requirements. The Compensation Committee assists the Board in fulfilling its risk management oversight responsibilities with respect to risks arising from compensation policies and programs. The Governance Committee assists the Board in fulfilling its risk management oversight responsibilities with respect to risks related to corporate governance matters. The Audit Committee is also responsible for reviewing, discussing and advising the Board with respect to our corporate compliance program and code of business conduct. For additional information related to the Compensation Committee's role in evaluating risks related to our executive compensation program, see "Compensation Discussion and Analysis" below.

The Board has adopted an Audit Committee Charter, available on the Company's website, that meets all applicable rules of Nasdaq and the SEC. The Audit Committee members are "independent" directors as defined by Nasdaq and the SEC and meet the heightened independence standards applicable to Audit Committee members under Nasdaq and SEC rules and meet Nasdaq's financial literacy requirements for audit committee members. The Board has determined that Mr. Lee qualifies as an "audit committee financial expert," as such term is defined by the SEC. The Audit Committee met 6 times during 2014.

Compensation Committee

The Company has a Compensation Committee, currently consisting of Mr. Erck, as its Chairman, Mr. Abercrombie, Dr. Jensen and Dr. Sanders. The Board has adopted a Compensation Committee Charter, available on the Company's website, that meets all applicable rules of Nasdaq and the SEC. The Compensation Committee members are "independent" directors as defined by Nasdaq and meet the heightened independence standards applicable to Compensation Committee members under Nasdaq rules. The Compensation Committee held 7 meetings during 2014. Corporate Governance and Nominating Committee

The Company has a Corporate Governance and Nominating Committee consisting of Dr. Hutson, as its Chairwoman, Dr. Jensen and Mr. Abercrombie. The Corporate Governance and Nominating Committee selects persons for election or re-election as directors and provides oversight of the corporate governance affairs and policies of the Board of Directors and the Company. The Board has adopted a Corporate Governance and Nominating Committee Charter, available on the Company's website, that meets all applicable rules of Nasdaq and the SEC. The Corporate Governance and Nominating Committee members are "independent" directors as defined by Nasdaq. The Corporate Governance and Nominating Committee met 4 times during 2014.

Other Committees

The Company also has a Science Committee and a Finance Committee, each of which convenes from time to time, as needed, to assist the Company and the Board on significant scientific and financial matters. No compensation, in addition to the Board fees already received for serving on the Board, is currently paid to those Board members participating in these committees.

Selection of Board Nominees

The Corporate Governance and Nominating Committee will consider candidates for Board membership suggested by its members and other Board members, as well as management and stockholders. The Committee has established a procedure for submission of suggestions by stockholders and will consider candidates recommended in writing, including biographical information and personal references. All submissions by stockholders should be sent directly to the Chairman of the Board, George B. Abercrombie, at 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703. The Chairman will provide copies of all submissions to the Committee for their consideration.

The Committee reviews all submissions and evaluates them based on predetermined selection criteria to identify prospective nominees. Once the Committee has identified a prospective nominee, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is based on whatever information is provided to the Committee with the recommendation of the prospective candidate, as well as the Committee's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or to others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. If the Committee determines, in consultation with the Chairman of the Board and other Board members as appropriate, that additional consideration is warranted, it may request additional information about the prospective nominee's background and experience. The Committee then evaluates the prospective nominee against our director selection criteria, including:

- the ability of the prospective nominee to represent the interests of the stockholders of the Company;
- the prospective nominee's standards of integrity, commitment and independence of thought and judgment;

the prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including the prospective nominee's service on other public company boards; and

the extent to which the prospective nominee contributes to the range of talent, skill and expertise appropriate for the Board.

In evaluating candidates for Board membership, consideration is given to obtaining a diversity of experience and perspective within the Board. In considering diversity, we look at the entirety of the Board. Although we do not seek constituent or representational directors, the Committee considers the diversity of the Board whenever we are looking for a new director. The Committee and the Board evaluate the Board's diversity on a periodic basis as part of their review of the Board as a whole. For example, our Board conducts annual self-evaluations, which the Committee oversees, designed to solicit directors' views on a variety of topics, including whether directors as a whole have the appropriate mix of characteristics, business experience, background and tenure.

The Committee also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee expertise and the evaluations of other prospective nominees. In connection with this evaluation, the Committee determines whether to interview the prospective nominee, and if warranted, one or more members of the Committee, and others as appropriate, interview prospective nominees in person or by telephone. After completing this evaluation and interview, the Committee selects the director nominees for the next annual meeting of shareholders. The Committee recommended the nomination of the incumbent director whose term was expiring at the Annual Meeting for re-election to the Board of Directors.

Stockholder or Other Interested Party Communications

Stockholders or other parties interested in communicating directly with the Board, or specified individual directors, may do so by writing the Corporate Secretary, 4505 Emperor Blvd., Suite 200, Durham, North Carolina 27703. The Secretary will review all such correspondence and will regularly forward to the Board copies of all such correspondence that, in the opinion of the Secretary, relates to the functions of the Board or its committees or that the Secretary otherwise determines requires their attention. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board and request copies of such correspondence. Concerns relating to accounting, internal controls or auditing matters will immediately be brought to the attention of the Chairman of the Audit Committee and handled in accordance with procedures established by the Audit Committee with respect to such matters.

Stock Ownership Guidelines

We have adopted stock ownership guidelines for our directors to help ensure that they each maintain an equity stake in the Company and, by doing so, appropriately link their interests with those of stockholders. The guideline for non-employee directors is for each director to hold 10,000 shares of BioCryst stock. Non-employee directors are expected to achieve this ownership level within the later of three years of joining the Board or February 28, 2016.

Director Attendance

During 2014, the Board held nine meetings. Each member of the Board attended at least 75% of the meetings of the Board and committees of the Board of which he or she is a member. COMPENSATION DISCUSSION AND ANALYSIS

Philosophy and Overview of Compensation

The Compensation Committee (referred to in this section as the Committee) of the Board of Directors has the responsibility for establishing, implementing and monitoring adherence with the Company’s compensation philosophy. Our goal is to provide a compensation package that attracts, motivates and retains employees’ talent and is designed to align employees’ interests with the Company’s corporate strategies, business objectives and the interests of the stockholders. We refer to the individuals who served as our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, during 2014, as well as the other individuals included in the Summary Compensation Table, as our “Named Executive Officers” or “NEOs.” Those individuals are as follows:

- Jon P. Stonehouse, who joined the Company in January 2007 as Chief Executive Officer and Director. He was also named President in July 2007.
- Thomas R. Staab, II, who joined the Company in July 2011 as its Chief Financial Officer and Treasurer. He was also named Principal Accounting Officer in January 2013.
- Yarlagadda S. Babu, Ph.D., who joined the Company in 1988 and was BioCryst’s first full-time employee. Dr. Babu has served as the Company’s Vice President — Drug Discovery since 1992. In October 2013, Dr. Babu’s title was changed to Senior Vice President of Drug Discovery.
- William P. Sheridan, who joined the Company in July 2008 as its Senior Vice President and Chief Medical Officer.
 - Alane P. Barnes, who joined the Company in 2006 as its General Counsel, was made its Corporate Secretary in 2007 and Vice President in 2011. She was designated an executive officer in 2013.

The Committee’s primary objectives for our executive compensation program are as follows:

- to have a substantial portion of each officer’s compensation contingent upon the Company’s performance as well as upon his or her own level of performance and contribution towards the Company’s performance and long-term strategic goals;
- to align the interests of our executives with the Company’s corporate strategies, business objectives and the long-term interests of our stockholders; and
 - to attract, motivate and retain our executive talent.

Role of the Compensation Committee and Executive Officers

The Committee has the primary authority to determine the Company's compensation philosophy, assess overall Corporate performance for the year end and its impact on the bonus pool, options pool and base salary adjustment pool, and to establish compensation for the Company's executive officers. Prior to 2012, all employees in the Company were generally expected to participate in an annual performance review, which provided an assessment of the individual employee's performance and contributions toward the achievement of Company objectives. Since the restructuring of the Company in December 2012, the Company has not conducted annual individual performance reviews; rather, compensation decisions for each individual employee, including the CEO and the other Named Executive Officers, have been determined by the Committee based on its assessment of the performance of the Company. Management recommended this approach as a mechanism to align the incentives of every employee with those of the Company's shareholders and to reinforce the highly focused corporate strategy of the Company.

Role of Compensation Consultants

It is the practice of the Company to use a compensation consultant to perform an annual competitive compensation analysis of the Company's overall compensation practices. The overall analysis is conducted by LCG Group, and is focused on evaluating all positions within BioCryst, establishing appropriate organizational levels within the Company and determining the competitive range of compensation, including both cash and stock, for each of the organizational levels.

For executive positions, LCG Group conducted an updated analysis of competitive base salary, annual incentive targets and stock option grant levels based on the Radford Biotechnology Survey, a survey of the majority of the biotechnology companies across the country, focusing on comparable positions at approximately 125 comparably-sized companies with 50 to 149 employees. The results of this analysis were reviewed by the Committee in connection with its 2014 compensation decisions.

Role of the 2014 Advisory Vote on Executive Compensation

At our annual meeting in May 2014, our stockholders approved our "say-on-pay" proposal with more than 61% of the votes cast approving our executive compensation policies as described in our 2014 Proxy Statement filed on March 21, 2014. The Committee believes that this vote reflected stockholder agreement with the Committee's overall compensation philosophy and actions, and therefore, the Committee continued to apply similar principles in determining the amounts and types of executive compensation for fiscal 2014, with specific compensation decisions to be made each year in consideration of these principles and the Company's results and performance. In order to align employee incentives to shareholder interests, the performance of each employee, including that of the CEO and other Named Executive Officers, is evaluated based on the Committee's assessment of the overall performance of the Company. The Committee will continue to consider the outcome of stockholder say-on-pay votes in making future executive compensation decisions. Our next say-on-pay vote will take place at the 2017 Annual Shareholders Meeting.

2014 Elements of Executive Compensation

The Company's 2014 compensation program for executive officers was primarily comprised of the following elements:

- base salary;
- annual incentive compensation;
- stock option grants;
- long-term equity incentive awards; and
- other employee benefits.

Base Salary

The Company provides our employees with base salary to compensate them for services rendered during the fiscal year. In determining the base salary amount for each Named Executive Officer, the Committee primarily considers:

- industry experience, knowledge and qualifications;

• salary levels in effect for comparable positions within the Company's industry obtained from the Radford Biotechnology Survey; and

- individual performance of the executive and the general performance of the Company.

The Company's compensation practice is to generally target the competitive 50th percentile for base salary, annual incentive and stock option grants. Base salary levels for our Named Executive Officers may fluctuate from the 50th percentile based on each Named Executive Officer's particular experience, performance and value to the Company. For example, high-performing, experienced Named Executive Officers may be paid at or above the 75th percentile, while newer Named Executive Officers may be paid at a lower percentile. Base salary amounts are typically reviewed annually as part of the Company's performance review process as well as upon a promotion or other change in responsibility. To assist the Committee in determining appropriate base salary increases, LCG Group provided competitive base salary levels by analyzing the competitive data provided by the Radford Biotechnology Survey described in more detail above.

In setting 2014 salaries, given the small number of employees of the Company and the highly focused strategy of the Company, the Committee did not consider individual performance reviews but continued the approach of assessing all employees based on corporate performance. For base salary, this resulted in all employees, including the Named Executive Officers, receiving a 3% increase. In addition, Ms. Barnes' base salary was increased an additional 11% in line with the benchmark analysis resulting from her designation as a Named Executive Officer in 2013. For Ms. Barnes, who was designated an executive officer prior to the determination of her 2014 base salary, LCG Group's analysis of the Radford Biotechnology Survey comparative data showed that she was paid less than the 25th percentile. This was due to her comparative group changing as a result of her new responsibilities as an executive officer. In order to establish her base salary at the 25th percentile, management recommended and the Committee determined it was advisable to increase her salary by \$33,291.

The results of the 2014 base salary increases for the Named Executive Officers are as follows:

For Mr. Stonehouse, the increase resulted in a base salary of \$489,990, between the 50th and 75th percentile.

For Dr. Babu, the increase resulted in a base salary of \$351,740, approximating the 75th percentile.

For Dr. Sheridan, the increase resulted in a base salary of \$431,430, above the 75th percentile.

For Mr. Staab, the increase resulted in a base salary of \$399,120, above the 75th percentile.

For Ms. Barnes, the increase resulted in a base salary of \$265,000, between the 25th and 50th percentile.

In setting 2015 salaries, consistent with its philosophy for 2014 salaries and given the small number of employees of the Company and the highly focused strategy of the Company, the Committee did not consider individual performance reviews but continued the approach of assessing all employees based on corporate performance. For base salary, this resulted in all employees, including the Named Executive Officers, receiving a 3% increase. In addition, Ms. Barnes' base salary was increased an additional 10% in line with the benchmark analysis resulting from her experience and position as a Named Executive Officer in 2013. For Ms. Barnes, management recommended and the Committee determined it was advisable to increase her salary by \$35,000 to establish her base salary at the 50th percentile, consistent with the Company's general target for base salaries. For Lynne Powell, who joined the Company as its Senior Vice President and Chief Commercial officer in January 2015, to establish her base salary between the 50th and 75th percentile, management recommended and the Committee determined it was advisable to set her base salary at \$350,000.

The results of the 2015 base salary increases for the Named Executive Officers are as follows:

For Mr. Stonehouse, the increase resulted in a base salary of \$504,687, between the 50th and 75th percentile.

For Dr. Babu, the increase resulted in a base salary of \$362,283, approximating the 75th percentile.

For Dr. Sheridan, the increase resulted in a base salary of \$444,369, above the 75th percentile.

For Mr. Staab, the increase resulted in a base salary of \$411,084, above the 75th percentile.

For Ms. Barnes, the increase resulted in a base salary of \$300,000, approximating the 50th percentile.

Annual Incentive Compensation (AIP)

It is the Committee's objective to have a substantial portion of each officer's compensation contingent upon the Company's performance. In order to reinforce the highly focused strategy of the Company, when determining the 2014 AIP payouts, the Committee did not consider individual performance reviews but rather assessed all officers based solely on its assessment of corporate performance against established corporate objectives.

The AIP is designed to achieve the objective of basing a substantial portion of compensation on the achievement of Company performance objectives. The AIP provides an incentive target and maximum (each expressed as a percentage of annual base salary) for employees of the Company who are Executive Directors and above, and is stratified by organization level of responsibility. For 2014, the Committee conducted an overall evaluation of Company performance in light of Company performance objectives.

The target and maximum percentages for each Named Executive Officer were set based on benchmark data described below. Based on performance, the actual payout can range from 0 to the maximum percentage of annual base salary and varies by level in the Company. The overall amount of the AIP pool each performance year is determined by the Committee and based on their assessment of Company performance against the current year corporate objectives multiplied by the sum of all participants at target performance. The AIP plan allows the Committee to use its discretion in setting the size of the AIP pool. The Committee may decide that the pool is as low as 0 for a year of poor Company performance and may establish a pool that exceeds target for a year of exceptional Company performance.

Based on benchmark data provided by the LCG Group based upon the Radford Biotechnology Survey, the Committee adjusted the AIP and incentive targets and maximums in line with benchmark data starting in the 2010 performance plan year for all participants other than the CEO, who was already at benchmark. The LCG Group reassessed the benchmark data based upon the Radford Biotechnology Survey for 2014 and adjusted the targets for the Named Executive Officers in accordance with such data. The targets and maximums for the Named Executive Officers in the 2014 plan year were: CEO Jon Stonehouse: target 50% and maximum 75%; Dr. Sheridan, Dr. Babu, Mr. Staab and Ms. Barnes: target 30% and maximum 36%. At the time these ranges were set, the Committee believed that payout at the target performance level was challenging but achievable and that payout at the maximum performance level represented a "stretch" performance target, but was nevertheless achievable. In order to further tie individual compensation to Company performance, payout to individuals under the AIP relative to the incentive ranges in 2014 were based on Company performance and awards under the plan are typically settled in cash. All awards are reviewed and approved by the Committee.

The corporate objectives established for 2014 were: (i) advancing our oral kallikrein inhibitor program, (ii) obtaining FDA approval of Rapivab™ (intravenous peramivir) and making the product commercially available, (iii) advancing the broad spectrum antiviral ("BSAV") program, (iv) beginning drug discovery efforts on new target(s) as agreed upon with the Board, and (v) maintaining our financial strength and discipline. In assessing the Company's performance against each objective, the Committee considered: (i) the completion of OPuS-1 and the positive momentum of the HAE program overall, including the development of second generation compounds as well as the initiation of OPuS-2, (ii) the FDA approval of peramivir and the delivery of the first shipments of RAPIVAB™ (intravenous peramivir) to wholesalers by year-end, (iii) the filing of an initial new drug application ("IND") for BCX4430, the successful completion of a proof-of-concept study in non-human primates of BCX4430, and the initiation of a Phase 1 study for BCX4430, (iv) identifying and initiating the discovery efforts on new chemical entities for two new targets, and (v) the successful registered offering of \$115 million of our common stock and controlling operating cash and operating expenses at or below guidance. Based on these outstanding accomplishments, the Committee established AIP payments at 95% of the target percentage for each executive. This resulted in the following AIP payments:

To Mr. Stonehouse: \$232,744.

To Mr. Staab: \$113,747.

To Dr. Babu: \$100,243.

To Dr. Sheridan: \$122,956.

To Ms. Barnes: \$75,525.

Ms. Powell, who joined the Company in January 2015, did not receive an AIP payment.

The AIP provides that if the employment of a participating employee is terminated as a result of death, retirement or permanent disability, the employee is eligible to receive a pro rata award based on his or her base salary on the date of separation during the plan year in which the employee was considered an active employee and the number of whole months actually worked. In all other circumstances, absent provisions to the contrary in an employment agreement, all awards are forfeited if an employee voluntarily or involuntarily terminates employment with the Company before the annual incentive awards are paid.

Long-Term Equity Incentive Awards

All of the Company's employees, including the executive officers, are eligible to participate in the Company's periodic awards of stock options and other stock grants under the Company's Stock Incentive Plan. These awards are designed to:

- create a greater sense of employee ownership;
- enhance the link between creation of stockholder value and long-term employee compensation;
- provide an opportunity for increased equity ownership by employees, which increases the alignment of the financial interests of our employees and our stockholders; and
- maintain competitive levels of total compensation.

The Committee has historically granted equity awards to all employees, including the executive officers, on an annual basis. The overall grant pool is established based, in part, on the Committee's assessment of competitive stock option grant levels by organizational level and the number of employees at each level using competitive data provided by LCG Group based on its analysis of the Radford Biotechnology Survey. The Committee also considers the current value of the Company's stock, assessed in December of each year. A grant range is established for each organizational level, with target grants set at roughly the 50th percentile based on the Radford Biotechnology Survey data, to ensure competitive compensation and promote employee retention and recruitment and grant opportunities varying based on individual performance.

2014 Annual Award

In January 2014, the Committee determined long-term equity incentive awards for 2013 performance. The Committee reviewed analysis presented by LCG Group based on competitive data provided by the Radford Biotechnology Survey, the assessment of the overall performance of the Company in 2013, which is described in detail under the heading "Annual Incentive Compensation" in the Company's 2014 Proxy Statement, the number of shares of common stock available for grant under the Company's Stock Incentive Plan, existing levels of stock ownership among executives, the vesting schedules of previously granted long-term equity incentive awards, changes in and the volatility of the Company's stock price, the financial impact to the Company of the awards for 2013 performance, and the perceived impact of previously issued long-term equity incentive awards in retaining and motivating employees. In light of these factors, the Committee determined to grant long-term equity incentive awards at a level representing the 75th percentile of comparative companies based on the Radford Biotechnology Survey and using a 30-day average trailing stock price to determine the grant values. The Committee further determined that in keeping with current market trends and based on the limitations of the available equity pool, the long-term equity incentive awards for 2013 performance should consist of a mix of 25% stock options and 75% restricted stock units. Additionally, the Committee determined to further stratify the awards given to employees at organizational level 2 into three classes to better align the awards with the stratification reflected in benchmark comparisons based on LCG Group's analysis of the Radford Biotechnology Survey. Exercising its discretion in light of the foregoing factors, in January 2014, the Committee awarded: to Mr. Stonehouse, options to purchase 84,000 shares of common stock and 128,000 restricted

stock units; to Mr. Staab, options to purchase 35,000 shares of common stock and 54,000 restricted stock units; to Dr. Babu, options to purchase 35,000 shares of common stock and 54,000 restricted stock units; to Dr. Sheridan, options to purchase 35,000 shares of common stock and 54,000 restricted stock units; and to Ms. Barnes, options to purchase 18,000 shares of common stock and 27,000 restricted stock units.

These stock options and restricted stock unit awards granted under the Stock Incentive Plan have a four-year 25% annual vesting schedule to provide a long-term incentive for continued employment. The options expire ten years after the date of the grant. This provides a reasonable time frame during which the executive officers and other employees who receive grants can benefit from the appreciation of the Company's shares. The exercise price of options granted under the Stock Incentive Plan cannot be less than 100% of the fair market value of the underlying stock on the date of grant.

2015 Annual Award

In January 2015, the Committee determined long-term equity incentive awards for 2014 performance. The Committee reviewed analysis presented by LCG Group based on competitive data provided by the Radford Biotechnology Survey, the assessment of the overall performance of the Company in 2014, which is described in detail under the heading “Annual Incentive Compensation” above, the number of shares of common stock available for grant under the Company’s Stock Incentive Plan, existing levels of stock ownership among executives, the vesting schedules of previously granted long-term equity incentive awards, changes in and the volatility of the Company’s stock price, the financial impact to the Company of the awards for 2014 performance, and the perceived impact of previously issued long-term equity incentive awards in retaining and motivating employees. In light of these factors, the Committee determined to grant long-term equity incentive awards at a level representing the 50th percentile of comparative companies based on the Radford Biotechnology Survey. The Committee further determined that in keeping with current market trends and based on the limitations of the available equity pool, the long-term equity incentive awards for 2014 performance should consist of a mix of 75% stock options and 25% restricted stock units. Exercising its discretion in light of the foregoing factors, in January 2015, the Committee awarded: to Mr. Stonehouse, options to purchase 135,700 shares of common stock and 28,400 restricted stock units; to Mr. Staab, options to purchase 42,400 shares of common stock and 8,900 restricted stock units; to Dr. Babu, options to purchase 42,400 shares of common stock and 8,900 restricted stock units; to Dr. Sheridan, options to purchase 52,000 shares of common stock and 8,900 restricted stock units; and to Ms. Barnes, options to purchase 23,200 shares of common stock and 4,800 restricted stock units.

These restricted stock units granted under the Stock Incentive Plan have a four-year 25% annual vesting schedule to provide a long-term incentive for continued employment. Except with respect to the stock options granted for 2014 performance to our CEO, Jon Stonehouse, the stock options also have a four-year 25% annual vesting schedule. All stock options granted under the Stock Incentive Plan expire ten years after the date of the grant. This provides a reasonable time frame during which the executive officers and other employees who receive grants can benefit from the appreciation of the Company’s shares. The Committee determined that because Mr. Stonehouse did not participate in the 2014 Special Performance Award and to further align Mr. Stonehouse’s compensation with the performance objectives discussed below, the stock options granted for 2014 performance to Mr. Stonehouse vest upon the achievement of the Company performance objectives described below under the heading “2014 Special Performance Award.” The exercise price of options granted under the Stock Incentive Plan cannot be less than 100% of the fair market value of the underlying stock on the date of grant.

2014 Special Performance Award

On December 22, 2014, the Committee approved a special grant of 1,250,000 performance based stock options to all eligible employees. This 2014 Special Performance Award was based on the recommendation of our CEO, Jon Stonehouse, with the intent of further aligning all employees with shareholder interests through vesting of options upon the occurrence of important performance metrics that create greater value for the Company. Mr. Stonehouse specifically requested not to be included in this special award to allow more shares to be distributed to employees. The 2014 Special Performance Award was granted pursuant to the Company’s Stock Incentive Plan, the amount of each such award to be determined based upon the organizational level of the employee at the grant date. The options vest upon the achievement of certain performance objectives as detailed below:

- 35% vest upon the successful filing of a New Drug Application for hereditary angioedema (“HAE”) prophylaxis;
- 30% vest upon successful completion of the first HAE patient clinical trial with a second generation HAE compound;
- 20% vest upon the achievement of certain designated levels of RAPIVAB U.S. revenue; and

- 15% vest upon regulatory approval of BCX 4430 for its first indication.

The number of stock options granted to each of the Named Executive Officers participating in this special award is as follows: to Mr. Staab, options to purchase 90,000 shares of common stock; to Dr. Babu, options to purchase 90,000 shares of common stock; to Dr. Sheridan, options to purchase 113,000 shares of common stock; and to Ms. Barnes, options to purchase 62,000 shares of common stock.

2014 Special Bonus

On May 26, 2014, the Committee approved a special bonus to all BioCryst employees. The special bonus was paid in consideration of the significant progress in advancing the Company's programs, and in particular, the successful execution of the Company's BCX4161 OPuS-1 clinical trial. The special bonus was paid in cash in June 2014, and totaled approximately \$1 million. As a result of the special bonus, the Company made to the Named Executive Officers the following cash payments: to Mr. Stonehouse, \$127,491; to Mr. Staab, \$62,308, to Dr. Babu, \$54,911; to Dr. Sheridan, \$67,352; and to Ms. Barnes, \$46,741.

2016 AIP Eligibility

In order to align the incentives of employees at all levels of the organization to corporate objectives and match competitive practices, the Compensation Committee agreed to expand the eligibility under the Annual Incentive Plan to all levels of the company starting with the awards for 2015 performance to be paid in 2016.

Clawback Policy

In January 2013, our Board implemented a “clawback” policy. The policy provides that in the event of material noncompliance with financial reporting under the securities laws, we may recover (in whole or in part) any performance based incentive payments and equity-based performance awards received by our named executive officers three years prior to a material financial restatement, if the Board determines that such executive officer was personally involved in misconduct with respect to material noncompliance that led to the restatement and that such incentive payment or equity-based performance award would have been lower had they been calculated based on the restated results.

Other Elements of Compensation

In order to attract and retain key talent and pay market levels of compensation, we offer broad-based retirement, health and welfare employee benefits to our eligible employees, including our Named Executive Officers, subject to the terms and conditions of each benefit program. Our Named Executive Officers are eligible to participate in these benefits on the same basis as other full-time employees.

Medical Insurance. The Company makes available to eligible employees and their dependents group health, dental and vision insurance coverage.

Life and Disability Insurance. The Company makes available disability and life insurance at coverage levels based upon the employee’s level of compensation. In addition, as part of Mr. Stonehouse’s employment agreement, he is entitled to have either a \$1 million life insurance policy payable to his beneficiary upon death, or, if there is no policy in place, we are required to pay his beneficiary \$1 million. An insurance policy was in place at December 31, 2014.

Defined Contribution Plan. The Company offers a retirement plan designed to meet the requirements under Section 401(k) of the Internal Revenue Code. The 401(k) plan permits eligible employees to defer up to 100% of their annual eligible compensation, subject to certain limitations imposed by the Internal Revenue Code. Employee elective deferrals are immediately vested and non-forfeitable. The Company makes matching contributions equal to the first 5% of the employee elective deferrals, which vest over a period not to exceed six years.

Stock Purchase Plan. The Company sponsors a broad-based employee stock purchase plan (the “ESPP”), designed to meet the requirements under Section 423 of the Internal Revenue Code. The ESPP permits employees to purchase Company stock at a discount through payroll deductions. ESPP participants are granted a purchase right to acquire shares of common stock at a price that is 85% of the stock price on either the first day of the stock purchase period or the last day of the stock purchase period, whichever is lower. The purchase dates occur on the last business days of January and July of each year. To pay for the shares, each participant may authorize periodic payroll deductions from 1% to 15% of the employee’s cash compensation, subject to certain limitations imposed by the Internal Revenue Code. In addition, no employee may purchase more than 3,000 shares in each purchase period and/or \$25,000 in each calendar year. All payroll deductions collected from the participant during the purchase period are automatically applied to the purchase of common stock on the dates indicated above provided the participant remains an eligible employee and has not withdrawn from the ESPP prior to the purchase date.

Other. With the exception of the commuting expense reimbursements described below, the Company makes available certain other fringe benefits to executive officers that are the same as are made available to its other employees, such as tuition reimbursement and payment of professional dues. The aggregate amount of these benefits was less than \$10,000 for each NEO during 2014.

In September 2013, the Committee determined, in order to retain the employment of Dr. Sheridan and better accommodate his personal situation, to reimburse Dr. Sheridan's reasonable commuting expenses for traveling regularly from his home in California to North Carolina to oversee and manage the clinical development operations of the Company. The Committee also determined to grant Dr. Sheridan "gross up" payments to reimburse the taxes on such commuting reimbursements, provided that the total amount for such reimbursement and "gross up" payments do not exceed \$50,000 in a calendar year. The total cost to the company of Dr. Sheridan's reimbursements in 2014 was \$12,429, including \$3,256 in "gross up" payments.

Executive Relocation Policy. In November 2007, the Board approved the Committee's recommended adoption of an Executive Relocation Policy (the "Relocation Policy") for certain new employees of the Company, including executive officers. The Relocation Policy provides for a house hunting trip, temporary living and trips home for up to 90 days, home selling support or direct reimbursement for some selling expenses, moving costs and temporary storage of goods, customary closing expenses on the new home, a miscellaneous allowance of one month's salary, not to exceed \$5,000, and gross up of all taxable expenses. The Relocation Policy requires 100% repayment of benefits if the employee leaves or is terminated for cause within 12 months from the hire date.

Employment Agreement of CEO

Mr. Stonehouse entered into a one-year employment agreement with the Company on January 5, 2007 that automatically renews for successive annual terms. Mr. Stonehouse's minimum annual compensation is \$400,000 with the potential to earn a cash bonus of up to \$300,000 based on the Company's achievement of performance related goals. In addition, Mr. Stonehouse is entitled to receive reasonable vacation, sick leave, medical benefits, \$1,000,000 of life insurance during the term of his employment, participation in profit sharing or retirement plans, payment of fees for his participation in the advisory council at Duke University, and reimbursement for reasonable attorneys' fees incurred in connection with the negotiation of his employment agreement. His agreement also provided for stock option and restricted stock awards. The termination and change in control provisions of Mr. Stonehouse's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Employment Agreements of Other Named Executive Officers

Under Mr. Staab's agreement, effective May 2011, he is entitled to a base salary of \$370,000 and is eligible for an annual cash bonus of up to 30% of his base salary. The termination and change in control provisions of Mr. Staab's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Under Dr. Sheridan's agreement, effective June 2008, he is entitled to a base salary of \$375,000 and a bonus based on a target amount equal to at least 25% of his base compensation. Dr. Sheridan was also provided with relocation assistance under the Relocation Policy consisting of temporary housing for up to six months and payment of certain moving expenses. The termination and change in control provisions of Dr. Sheridan's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Under Dr. Babu's agreement, effective April 2012, he is entitled to a base salary of \$331,450 and a bonus based on a target amount equal to at least 30% of his base compensation. The termination and change in control provisions of Dr. Babu's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Under Ms. Barnes's agreement, effective August 2013, she is entitled to a base salary of \$231,709 and a bonus based on a target amount equal to at least 30% of her base compensation. The termination and change in control provisions of Ms. Barnes's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

Under Ms. Powell's agreement, effective January 2015, she is entitled to a base salary of \$350,000 and a bonus based on a target amount equal to at least 35% of her base compensation. The termination and change in control provisions

of Ms. Powell's agreement are set forth under the heading "Potential Payments Upon Termination or Change in Control."

The stock option provisions for the other Named Executive Officers are the same as all other employees. In the event of termination of service other than on account of death or disability, each executive has three months to exercise any options exercisable prior to the termination in service. In the event of permanent disability, the executive will be able to exercise all outstanding options vested at the time of such disability in their entirety within the earlier of 12 months or the expiration of the option. In the event of death, the executor of his estate will be able to exercise all of the outstanding options in their entirety within the earlier of 12 months or the expiration of the option. If the executive has completed five years of service, all outstanding options vest in their entirety at death, but with less than five years of service only the portion of the option that was exercisable at the time of death will be exercisable during the 12 month period. As with all employees, if the executive is no longer an employee of the Company, but prior to the last date of employment continues service with the Company in another capacity, such as service as a consultant or service as a member of the Board of Directors, his outstanding options continue to vest and be exercisable until three months after separation from such service or expiration of the option.

Upon termination, each Named Executive Officer is entitled to receive amounts earned during the term of employment. These items are: accrued vacation pay, vested amounts payable under the Company's 401(k) plan, and the ability to exercise any outstanding vested stock options for a period of three months following the final date of employment.

In addition, upon death or disability, the executive, or beneficiary in the event of death, will receive benefits under the Company's disability benefit program or payments under a life insurance policy, as applicable.

The standard stock option terms for all optionees, including the Named Executive Officers, provides for full acceleration of vesting upon certain events. Full acceleration is automatic upon a change in control not approved by stockholders, such as: (i) acquisition of over 50% of the combined voting power of the Company, and (ii) change in composition of the Board over a period of 24 consecutive months or less such that a majority of the Board members ceases as a result of one or more contested elections. In the event of an acquisition such as: (i) a merger or consolidation, (ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company in liquidation or dissolution of the Company, or (iii) any reverse merger in which the Company is the surviving entity but in which securities possessing more than 50% of the total combined voting power of the Company's outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such merger, then the unvested options of the optionees are accelerated unless the options are assumed by the acquiring company. These provisions are superseded by the provisions of the employment agreements of the Named Executive Officers, if applicable, as described under the heading "Potential Payments Upon Termination or Change in Control."

Policy Regarding Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits our ability to deduct compensation paid to certain of our Named Executive Officers (the covered employees) for tax purposes to \$1 million annually. Covered employees include our CEO and our next three highest paid executive officers, other than our principal financial officer. This limitation does not apply to performance-based compensation, provided certain conditions are satisfied. As part of its role, the Committee reviews and considers the deductibility of compensation with respect to Section 162(m) of the Internal Revenue Code. Options granted under the Stock Incentive Plan are expected to be fully deductible for federal income tax purposes. Compensation attributable to stock issuances or restricted stock units under the Stock Incentive Plan may or may not qualify for the performance-based compensation exception, depending upon the specific terms of each grant. The application of Section 162(m) is complex and may change with time (with potentially retroactive effect). For 2014, the compensation paid in cash to the Company's executive officers did not exceed the \$1 million limit per officer, except for our CEO. While the Committee considers the deductibility of awards as one factor in determining executive compensation, the Committee also looks at many other factors in making its decisions, and retains the flexibility to grant awards it determines to be consistent with the Company's overall compensation philosophy even if the award is not deductible by the Company for tax purposes.

Policy with Respect to Equity Compensation Awards

The Company grants all equity incentive awards based on the fair market value as of the date of grant. The exercise price for stock option grants and similar awards is determined by reference to the last quoted price per share on the Nasdaq Global Select Market at the close of business on the date of grant.

Risk Assessment of Compensation Programs

During the Company's proxy preparation process in the first quarter of 2015, management of the Company, together with the Company's compensation consultant and outside counsel and Compensation Committee, examined the Company's compensation program and discussed whether any elements of the program created risks that were

reasonably likely to have a material adverse effect on the Company. Following this analysis, management concluded that the elements of the Company's compensation program did not create risks that are reasonably likely to have a material adverse effect on the Company. In its analysis, management considered a number of factors, including primarily: (1) the total value of the payments made under the Company's compensation program for the prior year and (2) that any corporate actions that would potentially lead to achievement of corporate performance objectives would require approval by the Company's Board of Directors, which provides a check on the ability of any individual to take risks that could have a material adverse effect on the Company in an effort to achieve a certain performance objective.

(1) Represents possible payouts under our 2014 AIP. The amount shown in the “target” column represents the incentive payment that will be earned if performance is assessed at target. The amount shown in the “maximum” column represents the maximum amount payable under the AIP. There is no specific “threshold” amount payable for minimal performance under the AIP. Payout could be zero if corporate objectives are not met. The actual amount earned by each Named Executive Officer for 2014 is reported in the “Non-Equity Incentive Plan Compensation” column in the Summary Compensation Table.

(2) Represents stock options that vest upon the achievement of performance objectives described above under the caption “2014 Special Performance Award.” The amount in the “threshold” column represents the number of options

that vest upon the achievement of the minimum performance objective listed above (i.e., 15% of the total options awarded). The amount in the “target” column represents the number of options that vest upon the achievement of all four development milestones (i.e., 100% of the total options awarded). There is no “maximum” award other than the 100% of options vested upon achievement of all of the development milestones listed in the “target” column. If no milestones are achieved, none of the options will vest.

- (3) Restricted stock units vest 25% each year until fully vested after four years.
- (4) Options vest 25% each year until fully vested after four years and have a term of ten years.
- (5) The exercise price is the closing market price of our common stock on the grant date.
- (6) See the Summary Compensation Table above for more information about the assumptions used to determine these amounts.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The following table sets forth potential payments payable to our Named Executive Officers upon termination of employment. The amounts include compensation payable upon voluntary or involuntary termination or retirement, termination following a change in control, and in the event of disability or death. None of the Named Executive Officers are entitled to any payments upon termination with cause. The Company's Annual Incentive Plan provides that if the employment of a participating employee is terminated as a result of death, retirement or permanent disability, the employee is eligible to receive a pro rata award based on his or her base salary on the date of separation during the plan year in which the employee was considered an active employee and the number of whole months actually worked. In all other circumstances, absent provisions to the contrary in an employment agreement, all awards are forfeited if an employee voluntarily or involuntarily terminates employment with the Company before the annual incentive awards are paid. The Company's Compensation Committee may in its discretion revise, amend or add to the benefits if it deems it advisable. The amounts shown assume the options are valued at their last intrinsic value in fiscal 2014 and that termination is effective December 31, 2014, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company. The amounts shown in the table do not include: accrued vacation, vested amounts payable under the Company's 401(k) plan, any accrued but unpaid bonus or base salary, or potential compensation recognized upon exercise of vested options as disclosed in the Outstanding Equity Awards table above.

A description of the relevant provisions of the employment agreements of Messrs. Stonehouse and Staab, Drs. Sheridan and Babu, and Ms. Barnes is set forth below the table. A description of the benefits executive officers are entitled to upon death, retirement or disability under the AIP or under the terms of the Company's equity grants is included in "Compensation Discussion and Analysis."

Assumptions used in the calculation of these amounts are included in Note 6 to the Company's audited consolidated financial statements for the year ended December 31, 2014, which are included in the Company's Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2014.

Narrative to Director Compensation Table

Directors who are employees of the Company do not receive any additional compensation for their services as a director. In addition to the equity awards described above, non-employee directors receive an annual retainer fee

consisting of four equal installments paid in arrears on a quarterly basis. Annual retainers are also paid to members of Board committees. Directors are also reimbursed for expenses incurred in attending board or committee meetings and while representing the Company in conducting certain business. The annual retainer fee is \$35,000 (\$60,000 for the Chairman), consisting of four quarterly payments of \$8,750 each (\$15,000 each for the Chairman). Fees are not paid for attending committee meetings. Rather, members of the Audit Committee other than the Chair are paid an annual retainer of \$8,000, members of the Compensation Committee are paid an annual retainer of \$5,000, and members of the Corporate Governance and Nominating Committee is paid an annual retainer of \$4,000. The Chair of the Audit Committee is paid an annual retainer of \$16,000, and the Chair of the Compensation Committee is paid \$10,000, and the Chair of the Corporate Governance and Nominating Committee is paid an annual retainer of \$7,000. The annual retainers for committee members and committee Chairs are paid in arrears in four equal installments on a quarterly basis. Members of the Science Committee and Finance Committee do not currently receive any additional compensation for serving on those committees.

Beginning on May 6, 2014, Directors were given the opportunity to elect to receive, in lieu of cash retainers, a number of shares of our common stock equivalent in value to the retainer earned by such Director. Directors that make such an election receive 100% of their compensation in the form of common stock. In 2014, elections were made on June 1, 2014, effective until the 2015 Annual Meeting. These shares are distributed four times a year, in line with previous paid quarterly retainers. The number of shares to be distributed is determined using the closing price of our common stock on the last business day of the applicable three month period. One Director, Dr. Cohen, elected to receive shares of our common stock in lieu of cash retainer in 2014. Subsequent Elections to receive Company shares in lieu of cash for future years shall be made on the date of each Annual Meeting, effective until the subsequent Annual Meeting.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors has furnished the following report, in accordance with rules established by the Securities and Exchange Commission ("SEC"), for inclusion in this proxy statement.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the consolidated financial statements in the Annual Report on Form 10-K for the year ended December 31, 2014, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. In addition, the Audit Committee reviewed and discussed the internal audit plan for the year ended December 31, 2014. Furthermore, the Audit Committee reviewed and discussed with the Company's management and Ernst and Young LLP the evaluation of the Company's design and functioning of its internal controls over financial reporting, including the required Section 404 testing undertaken by Company management and Ernst and Young with respect to the Company's internal controls over financial reporting. The Audit Committee reviewed with Ernst & Young LLP, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with Ernst & Young LLP the matters required to be discussed by applicable requirements of the Public Company Accounting Oversight Board. The Audit Committee has received the written disclosures and the letter from Ernst & Young LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young LLP's communications with the Audit Committee concerning independence, and has discussed with Ernst & Young LLP their independence. The Audit Committee also considered the compatibility of non-audit services with Ernst & Young LLP's independence.

The Audit Committee discussed with Ernst & Young LLP the overall scope and plans for their audit. The Audit Committee regularly meets with Ernst & Young LLP, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2014 for filing with the SEC. The Audit Committee and the Board approved the selection of Ernst & Young LLP as the Company's independent registered public accounting firm for 2014 and has approved the retention of Ernst & Young LLP as the principal accounting firm to be used by the Company throughout the fiscal year ending December 31, 2015.
