NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

(Unaudited)

The use of the words “we,” “us,” “our,” “Company” or “Whitestone” refers to Whitestone REIT and our consolidated subsidiaries, except where the context otherwise requires.

1. INTERIM FINANCIAL STATEMENTS

The consolidated financial statements included in this report are unaudited; however, amounts presented in the consolidated balance sheet as of December 31, 2014 are derived from our audited consolidated financial statements as of that date. The unaudited financial statements as of and for the period ended September 30, 2015 have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information on a basis consistent with the annual audited consolidated financial statements and with the instructions to Form 10-Q.

The consolidated financial statements presented herein reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the financial position of Whitestone and our subsidiaries as of September 30, 2015, and the results of operations for the three and nine month periods ended September 30, 2015 and 2014, the consolidated statements of changes in equity for the nine month period ended September 30, 2015 and cash flows for the nine month periods ended September 30, 2015 and 2014. All of these adjustments are of a normal recurring nature. The results of operations for the interim periods are not necessarily indicative of the results expected for a full year. The statements should be read in conjunction with the audited consolidated financial statements and the notes thereto which are included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Business. Whitestone was formed as a real estate investment trust (“REIT”) pursuant to the Texas Real Estate Investment Trust Act on August 20, 1998. In July 2004, we changed our state of organization from Texas to Maryland pursuant to a merger where we merged directly with and into a Maryland REIT formed for the sole purpose of the reorganization and the conversion of each of our outstanding common shares of beneficial interest of the Texas entity into 1.42857 common shares of beneficial interest of the Maryland entity. We serve as the general partner of Whitestone REIT Operating Partnership, L.P. (the “Operating Partnership”), which was formed on December 31, 1998 as a Delaware limited partnership. We currently conduct substantially all of our operations and activities through the Operating Partnership. As the general partner of the Operating Partnership, we have the exclusive power to manage and conduct the business of the Operating Partnership, subject to certain customary exceptions. As of September 30, 2015 and December 31, 2014, Whitestone owned and operated 70 and 63 commercial properties, respectively, in and around Austin, Chicago, Dallas-Fort Worth, Houston, Phoenix and San Antonio.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Consolidation. We are the sole general partner of the Operating Partnership and possess full legal control and authority over the operations of the Operating Partnership. As of September 30, 2015 and December 31, 2014, we owned a majority of the partnership interests in the Operating Partnership. Consequently, the accompanying consolidated financial statements include the accounts of the Operating Partnership. All significant inter-company balances have been eliminated. Noncontrolling interests in the accompanying consolidated financial statements represents the share of equity and earnings of the Operating Partnership allocable to holders of partnership interests other than us. Net income or loss is allocated to noncontrolling interests based on the weighted average percentage ownership of the Operating Partnership during the period. Issuance of additional common shares of beneficial interest in Whitestone (the “common shares”) and units of limited partnership interest in the Operating Partnership that are

convertible into cash or, at our option, common shares on a one-for-one basis (the “OP units”) changes the ownership interests of both the noncontrolling interests and Whitestone.

Basis of Accounting. Our financial records are maintained on the accrual basis of accounting whereby revenues are recognized when earned and expenses are recorded when incurred.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates that we use include the estimated fair values of properties acquired, the estimated useful lives for depreciable and amortizable assets and costs, the estimated allowance for doubtful accounts, the estimated fair value of interest rate swaps and the estimates supporting our impairment analysis for the carrying values of our real estate assets. Actual results could differ from those estimates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

(Unaudited)

Reclassifications. We have reclassified certain prior period amounts in the accompanying consolidated financial statements in order to be consistent with the current period presentation. These reclassifications had no effect on net income, total assets, total liabilities or equity.

Restricted Cash. We classify all cash pledged as collateral to secure certain obligations and all cash whose use is limited as restricted cash. During the three months ended September 30, 2015, pursuant to the terms of our \$15.1 million 4.99% Note, due January 6, 2024 (See Note 6), which is collateralized by our Anthem Marketplace property, we were required by the lenders thereunder to establish a cash management account controlled by the lenders to collect all amounts generated by our Anthem Marketplace property in order to collateralize such promissory note. As a result, these amounts are reported in the consolidated statements of cash flows under cash flows from financing activities as change in restricted cash.

Marketable Securities. We classify our existing marketable equity securities as available-for-sale in accordance with the Financial Accounting Standards Board's ("FASB") Investments-Debt and Equity Securities guidance. These securities are carried at fair value with unrealized gains and losses reported in equity as a component of accumulated other comprehensive income or loss. The fair value of the marketable securities is determined using Level 1 inputs under FASB Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures." Level 1 inputs represent quoted prices available in an active market for identical investments as of the reporting date. Gains and losses on securities sold are based on the specific identification method, and are reported as a component of interest, dividend and other investment income.

Derivative Instruments and Hedging Activities. We occasionally utilize derivative financial instruments, principally interest rate swaps, to manage our exposure to fluctuations in interest rates. We have established policies and procedures for risk assessment, and the approval, reporting and monitoring of derivative financial instruments. We recognize our interest rate swaps as cash flow hedges with the effective portion of the changes in fair value recorded in comprehensive income (loss) and subsequently reclassified into earnings in the period that the hedged transaction affects earnings. Any ineffective portion of a cash flow hedges' change in fair value is recorded immediately into earnings. Our cash flow hedges are determined using Level 2 inputs under ASC 820. Level 2 inputs represent quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable. As of September 30, 2015, we consider our cash flow hedges to be highly effective.

Development Properties. Land, buildings and improvements are recorded at cost. Expenditures related to the development of real estate are carried at cost which includes capitalized carrying charges and development costs. Carrying charges (interest, real estate taxes, loan fees, and direct and indirect development costs related to buildings under construction), are capitalized as part of construction in progress. The capitalization of such costs ceases when the property, or any completed portion, becomes available for occupancy. For the three months ended September 30, 2015, approximately \$25,000 and \$16,000 in interest expense and real estate taxes, respectively, were capitalized, and for the nine months ended September 30, 2015, approximately \$83,000 and \$53,000 in interest expense and real estate taxes, respectively, were capitalized. For the three months ended September 30, 2014, approximately \$26,000 and \$15,000 in interest expense and real estate taxes, respectively, were capitalized, and for the nine months ended September 30, 2014, approximately \$77,000 and \$47,000 in interest expense and real estate taxes, respectively, were capitalized.

Share-Based Compensation. From time to time, we award nonvested restricted common share awards or restricted common share unit awards, which may be converted into common shares, to executive officers and employees under our 2008 Long-Term Equity Incentive Ownership Plan (the “2008 Plan”). The vast majority of the awarded shares and units vest when certain performance conditions are met. We recognize compensation expense when achievement of the performance conditions is probable based on management's most recent estimates using the fair value of the shares as of the grant date. We recognized \$1,859,000 and \$1,485,000 in share-based compensation for the three months ended September 30, 2015 and 2014, respectively, and we recognized \$5,202,000 and \$3,092,000 in share-based compensation for the nine months ended September 30, 2015 and 2014, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

(Unaudited)

Noncontrolling Interests. Noncontrolling interests is the portion of equity in a subsidiary not attributable to a parent. The ownership interests not held by the parent are considered noncontrolling interests. Accordingly, we have reported noncontrolling interests in equity on the consolidated balance sheets but separate from Whitestone's equity. On the consolidated statements of operations, subsidiaries are reported at the consolidated amount, including both the amount attributable to Whitestone and noncontrolling interests. The consolidated statement of changes in equity is included for quarterly financial statements, including beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

See our Annual Report on Form 10-K for the year ended December 31, 2014 for further discussion on significant accounting policies.

Recent Accounting Pronouncements. In April 2014, the FASB issued guidance updating the criteria for reporting the disposal of a component of an entity as a discontinued operation. This guidance was effective for reporting periods beginning on or after December 15, 2014 with early adoption permitted only for disposals that have not been reported in financial statements previously issued or available for issuance. We have adopted the guidance beginning with the year ended December 31, 2014.

In April 2015, the FASB issued guidance requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. This guidance is effective retrospectively for reporting periods beginning on or after December 15, 2015 with early adoption permitted only for financial statements that have not been previously issued. We are currently in the process of evaluating the impact of adoption on our consolidated balance sheets.

⁽¹⁾ Promissory note includes an interest rate swap that fixed the interest rate at 3.55% for the duration of the term.

Promissory note includes an interest rate swap that fixed the LIBOR portion of our \$50 million term loan under our

⁽²⁾ previous unsecured revolving credit facility at 0.84%. On October 30, 2015, the maturity date of this loan was extended to October 30, 2020 (See Note 15).

Promissory note includes an interest rate swap that fixed the interest rate at 5.72% for the duration of the term. As

⁽³⁾ part of our acquisition of Paradise Plaza in August 2012, we recorded a discount on the note of \$1.3 million, which amortizes into interest expense over the life of the loan and results in an imputed interest rate of 4.13%.

On October 30, 2015, the maturity date of the Revolver (as defined below) was extended to October 30, 2019 and

⁽⁴⁾ \$100 million of borrowings under the Revolver (as defined below) was converted to a new term loan under the Facility (as defined below) with a rate of LIBOR plus 1.65% to 2.25% and a maturity date of October 30, 2022 (See Note 15).

⁽⁵⁾ On October 30, 2015, the maturity date of this loan was extended to January 29, 2021 (See Note 15).

On December 24, 2014, we assumed a \$2.6 million promissory note as part of our acquisition of the hard corner at Village Square at Dana Park (See Note 14). The 5.46% fixed interest rate note matures October 1, 2023.

On November 26, 2014, we, operating through our subsidiary, Whitestone Headquarters Village, LLC, a Delaware limited liability company, entered into a \$19.0 million promissory note (the “Headquarters Note”), with a fixed interest rate of 4.15% payable to Morgan Stanley Bank, N.A. and a maturity date of December 1, 2024. Proceeds from the Headquarters Note were used to repay a portion of the Facility (as defined below).

On November 7, 2014, we, through our Operating Partnership, entered into an unsecured revolving credit facility (the “Facility”) with the lenders party thereto, with BMO Capital Markets, Wells Fargo Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, and U.S. Bank, National Association, as co-lead arrangers and joint book runners, and Bank of Montreal, as administrative agent (the “Agent”). The Facility amended and restated our previous unsecured revolving credit facility. Proceeds from the Facility were used for general corporate purposes, including property acquisitions, debt repayment, capital expenditures, the expansion, redevelopment and re-tenanting of properties in our portfolio and working capital. We intend to use the additional proceeds from the Facility for general corporate purposes, including property acquisitions, debt repayment, capital expenditure, the expansion, redevelopment and re-tenanting of properties in our portfolio and working capital.

The Facility is comprised of three tranches:

\$400 million unsecured revolving credit facility (the “Revolver”);
\$50 million unsecured term loan (the “Term Loan 1”); and
\$50 million unsecured term loan (the “Term Loan 2”).

The Facility includes an accordion feature that will allow the Operating Partnership to increase the borrowing capacity to \$700 million, upon the satisfaction of certain conditions. The Revolver will mature on November 7, 2018, with an option to extend for one additional year to November 7, 2019, subject to certain conditions, including payment of an extension fee. The Term Loan 1 will mature on February 17, 2017, and the Term Loan 2 will mature on November 7, 2019.

Borrowings under the Facility accrue interest (at the Operating Partnership's option) at a Base Rate or an Adjusted LIBOR plus an applicable margin based upon our then existing leverage. The applicable margin for Adjusted LIBOR borrowings ranges from 1.40% to 1.95% for the Revolver and 1.35% to 1.90% for the term loans. Base Rate means the higher of: (a) the Agent's prime commercial rate, (b) the sum of (i) the average rate quoted by the Agent by two or more federal funds brokers selected by the Agent for sale to the Agent at face value of federal funds in the secondary market in an amount equal or comparable to the principal amount for which such rate is being determined, plus (ii) 1/2 of 1.00%, and (c) the LIBOR rate for such day plus 1.00%. Adjusted LIBOR means LIBOR divided by one minus the Eurodollar Reserve Percentage. The Eurodollar Reserve Percentage means the maximum reserve percentage at which reserves are imposed by the Board of Governors of the Federal Reserve System on eurocurrency liabilities.

We serve as the guarantor for funds borrowed by the Operating Partnership under the Facility. The Facility contains customary terms and conditions, including, without limitation, affirmative and negative covenants such as information reporting requirements, maximum secured indebtedness to total asset value, minimum EBITDA (earnings before interest, taxes, depreciation, amortization or extraordinary items) to fixed charges, and maintenance of a minimum net worth. The Facility also contains customary events of default with customary notice and cure, including, without limitation, nonpayment, breach of covenant, misrepresentation of representations and warranties in a material respect, cross-default to other major indebtedness, change of control, bankruptcy and loss of REIT tax status. As of September 30, 2015, we were in compliance with all covenants under the Facility.

As of September 30, 2015, \$325.6 million was drawn on the Facility, and our remaining borrowing capacity was \$174.4 million. Proceeds from the Facility were used for general corporate purposes, including property acquisitions, debt repayment, capital expenditures, the expansion, redevelopment and retenanting of properties in our portfolio and working capital. On October 30, 2015, we, through our Operating Partnership, entered into the first amendment to the Facility. See Note 15.

On September 3, 2014, we, operating through our subsidiary, Whitestone Pecos Ranch, LLC, a Delaware limited liability company, entered into a \$14.0 million promissory note (the “Pecos Note”), with a fixed interest rate of 4.34% payable to Wells Fargo Bank, National Association and a maturity date of September 11, 2024. Proceeds from the

Pecos Note were used to repay a portion of our previous unsecured revolving credit facility.

On August 26, 2014, we, operating through our subsidiary, Whitestone Shops at Starwood, LLC, a Delaware limited liability company, entered into a \$14.3 million promissory note (the “Starwood Note”), with a fixed interest rate of 4.34% payable to Wells Fargo Bank, National Association and a maturity date of September 11, 2024. Proceeds from the Starwood Note were used to repay a portion of our previous unsecured revolving credit facility.

As of September 30, 2015, our \$172.7 million in secured debt was collateralized by 20 properties with a carrying value of \$214.4 million. Our loans contain restrictions that would require the payment of prepayment penalties for the acceleration of outstanding debt and are secured by deeds of trust on certain of our properties and by assignment of the rents and leases associated with those properties. As of September 30, 2015, we were in compliance with all loan covenants.

Scheduled maturities of our outstanding debt as of September 30, 2015 were as follows (in thousands):

Year	Amount Due
2015	\$ 730
2016	13,269
2017	60,212
2018	237,736

8. EARNINGS PER SHARE

Basic earnings per share for our common shareholders is calculated by dividing income from continuing operations excluding amounts attributable to unvested restricted shares and the net income attributable to noncontrolling interests by our weighted average common shares outstanding during the period. Diluted earnings per share is computed by dividing the net income attributable to common shareholders excluding amounts attributable to unvested restricted shares and the net income attributable to noncontrolling interests by the weighted average number of common shares including any dilutive unvested restricted shares.

Certain of our performance-based restricted common shares are considered participating securities that require the use of the two-class method for the computation of basic and diluted earnings per share. During the three months ended September 30, 2015 and 2014, 435,440 and 425,080 OP units, respectively, were excluded from the calculation of diluted earnings per share because their effect would be anti-dilutive, and during the nine months ended September 30, 2015 and 2014, 406,277 and 495,280 OP units, respectively, were excluded from the calculation of diluted earnings per share because their effect would be anti-dilutive.

For the three months ended September 30, 2015 and 2014, distributions of \$139,000 and \$78,000, respectively, were made to holders of certain restricted common shares, \$9,000 and \$24,000, respectively, of which were charged against earnings. For the nine months ended September 30, 2015 and 2014, distributions of \$427,000 and \$195,000, respectively, were made to holders of certain restricted common shares, \$27,000 and \$68,000, respectively, of which were charged against earnings. 9. INCOME TAXES

Federal income taxes are not provided because we intend to and believe we qualify as a REIT under the provisions of the Internal Revenue Code (the "Code") and because we have distributed and intend to continue to distribute all of our

taxable income to our shareholders. As a REIT, we must distribute at least 90% of our real estate investment trust taxable income to our shareholders and meet certain income sources and investment restriction requirements. In addition, REITs are subject to a number of organizational and operational requirements. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate tax rates.

Taxable income differs from net income for financial reporting purposes principally due to differences in the timing of recognition of interest, real estate taxes, depreciation and rental revenue.

We are subject to the Texas Margin Tax, which is computed by applying the applicable tax rate (1% for us) to the profit margin, which generally will be determined for us as total revenue less a 30% standard deduction. Although the Texas Margin Tax is not an income tax, FASB ASC 740, "Income Taxes" applies to the Texas Margin Tax. For the three months ended September 30, 2015 and 2014, we recognized approximately \$104,000 and \$71,000 in margin tax provision, respectively, and for the nine months ended September 30, 2015 and 2014, we recognized approximately \$292,000 and \$180,000 in margin tax provision, respectively.

10. EQUITY

Common Shares

Under our declaration of trust, as amended, we have authority to issue up to 400,000,000 common shares of beneficial interest, \$0.001 par value per share, and up to 50,000,000 preferred shares of beneficial interest, \$0.001 par value per share.

Equity Offerings

On June 26, 2015, we completed the sale of 3,750,000 common shares, \$0.001 par value per share, at a purchase price of \$13.3386 per share. Total net proceeds from the offering, after deducting offering expenses, were approximately \$49.7 million, which we contributed to the Operating Partnership in exchange for OP units. The Operating Partnership used the net proceeds from this offering to repay a portion of the Facility and for general corporate purposes.

On June 19, 2013, we entered into five equity distribution agreements for an at-the-market distribution program. On August 14, 2013, we entered into a sixth equity distribution agreement on substantially similar terms as the existing equity distribution agreements and amended the existing equity distribution agreements in order to add an additional placement agent (together, the "2013 equity distribution agreements"). Pursuant to the terms and conditions of the 2013 equity distribution agreements, we could issue and sell up to an aggregate of \$50 million of our common shares. Actual sales would depend on a variety of factors to be determined by us from time to time, including (among others) market conditions, the trading price of our common shares, capital needs and our determinations of the appropriate sources of funding for us, and were made in transactions that were deemed to be "at-the-market" offerings as defined in Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"). We had no obligation to sell any of our common shares, and could at any time suspend offers under the 2013 equity distribution agreements or terminate the 2013 equity distribution agreements. During the three and nine months ended September 30, 2015, we did not sell any common shares under the 2013 equity distribution program. During the three and nine months ended September 30, 2014, we sold 377,983 common shares under the 2013 equity distribution program, with net proceeds to us of approximately \$5.3 million. In connection with such sales, we paid compensation of \$0.1 million to the placement agents.

On June 4, 2015, we entered into nine amended and restated equity distribution agreements (the "2015 equity distribution agreements"). Pursuant to the terms and conditions of the 2015 equity distribution agreements, we can issue and sell up to an aggregate of \$50 million of our common shares. Actual sales will depend on a variety of factors to be determined by us from time to time, including (among others) market conditions, the trading price of our common shares, capital needs and our determinations of the appropriate sources of funding for us, and will be made in transactions that will be deemed to be "at-the-market" offerings as defined in Rule 415 under the Securities Act. We have no obligation to sell any of our common shares, and can at any time suspend offers under the 2015 equity

distribution agreements or terminate the 2015 equity distribution agreements. We have not sold any common shares under the 2015 equity distribution agreements.

Operating Partnership Units

11. INCENTIVE SHARE PLAN

On July 29, 2008, our shareholders approved the 2008 Plan. On December 22, 2010, our board of trustees amended the 2008 Plan to allow for awards in or related to Class B common shares pursuant to the 2008 Plan. On June 27, 2012, our Class B common shares were redesignated as “common shares.” The 2008 Plan, as amended, provides that awards may be made with respect to common shares of Whitestone or OP units, which may be converted into cash or, at our option, common shares of Whitestone. The maximum aggregate number of common shares that may be issued under the 2008 Plan is increased upon each issuance of common shares by Whitestone so that at any time the maximum number of shares that may be issued under the 2008 Plan shall equal 12.5% of the aggregate number of

common shares of Whitestone and OP units issued and outstanding (other than shares and/or OP units issued to or held by Whitestone).

The Compensation Committee of our board of trustees administers the 2008 Plan, except with respect to awards to non-employee trustees, for which the 2008 Plan is administered by our board of trustees. The Compensation Committee is authorized to grant share options, including both incentive share options and non-qualified share options, as well as share appreciation rights, either with or without a related option. The Compensation Committee is also authorized to grant restricted common shares, restricted common share units, performance awards and other share-based awards.

On April 2, 2014, the Compensation Committee approved the modification of the vesting provisions with respect to awards of an aggregate of 633,704 restricted common shares and restricted common share units for 51 of our employees. The modified time-based shares will vest annually in three equal installments. The modified performance-based restricted common shares and restricted common share units were modified to include performance-based vesting based on achievement of certain absolute financial goals, as well as one to two years of time-based vesting post achievement of financial goals. Continued employment is required through the applicable vesting date. Additionally, 2,049,116 restricted performance-based common share units were granted with the same vesting conditions as the modified performance-based grants described above. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

(Unaudited)

Based on our current financial projections, we expect approximately 82% of the unvested awards to vest over the next 42 months. As of September 30, 2015, there was approximately \$10.8 million in unrecognized compensation cost related to outstanding non-vested performance-based shares, which are expected to vest over a period of 42 months and approximately \$4.2 million in unrecognized compensation cost related to outstanding non-vested time-based shares, which are expected to be recognized over a period of approximately 18 months beginning on October 1, 2015.

We expect to record approximately \$7.1 million in non-cash share-based compensation expense in 2015 and \$13.2 million subsequent to 2015. The unrecognized share-based compensation cost is expected to vest over a weighted average period of 28 months. The dilutive impact of the performance-based shares will be included in the denominator of the earnings per share calculation beginning in the period that the performance conditions are expected to be met.

On December 9, 2014, two of our independent trustees elected to receive a total of 2,314 common shares with a grant date fair value of \$14.69 in lieu of cash for board fees. Overview

We are a fully integrated real estate company that owns, redevelops, repositions, leases, manages and operates Community Centered Properties™. We define Community Centered Properties™ as visibly located properties in established or developing culturally diverse neighborhoods in our target markets. Founded in 1998, we are internally managed with a portfolio of commercial properties in Texas, Arizona and Illinois.

Table of Contents

In October 2006, our current management team joined the Company and adopted a strategic plan to acquire, redevelop, own and operate Community Centered Properties™. We market, lease and manage our centers to match tenants with the shared needs of the surrounding neighborhood. Those needs may include specialty retail, grocery, restaurants and medical, educational and financial services. Our goal is for each property to become a Whitestone-branded business center or retail community that serves a neighboring five-mile radius around our property. We employ and develop a diverse group of associates who understand the needs of our multicultural communities and tenants.

We serve as the general partner of Whitestone REIT Operating Partnership, L.P. (the “Operating Partnership”), which was formed on December 31, 1998 as a Delaware limited partnership. We currently conduct substantially all of our operations and activities through the Operating Partnership. As the general partner of the Operating Partnership, we have the exclusive power to manage and conduct the business of the Operating Partnership, subject to certain customary exceptions.

As of September 30, 2015, we owned and operated 70 commercial properties consisting of:

Operating Portfolio

- 45 retail properties containing approximately 3.9 million square feet of gross leasable area and having a total carrying value (net of accumulated depreciation) of \$578.2 million;

- four office properties containing approximately 0.5 million square feet of gross leasable area and having a total carrying value (net of accumulated depreciation) of \$36.4 million; and

- 11 office/flex properties containing approximately 1.2 million square feet of gross leasable area and having a total carrying value (net of accumulated depreciation) of \$37.0 million.

Redevelopment, New Acquisitions Portfolio

- four retail properties containing approximately 0.4 million square feet of gross leasable area and having a total carrying value (net of accumulated depreciation) of \$85.1 million; and

- six parcels of land held for future development having a total carrying value of \$10.0 million.

As of September 30, 2015, we had an aggregate of 1,445 tenants. We have a diversified tenant base with our largest tenant comprising only 2.6% of our annualized rental revenues for the nine months ended September 30, 2015. Lease terms for our properties range from less than one year for smaller tenants to over 15 years for larger tenants. Our leases generally include minimum monthly lease payments and tenant reimbursements for payment of taxes, insurance and maintenance. We completed 304 new and renewal leases during the nine months ended September 30, 2015, totaling 707,993 square feet and approximately \$42.8 million in total lease value. This compares to 297 new and renewal leases totaling 678,878 square feet and approximately \$41.4 million in total lease value during the same period in 2014.

We employed 88 full-time employees as of September 30, 2015. As an internally managed REIT, we bear our own expenses of operations, including the salaries, benefits and other compensation of our employees, office expenses, legal, accounting and investor relations expenses and other overhead costs.

How We Derive Our Revenue

Substantially all of our revenue is derived from rents received from leases at our properties. We had rental income and tenant reimbursements of approximately \$24.6 million and \$18.5 million for the three months ended September 30, 2015 and 2014, respectively, and \$67.8 million and \$53.2 million for the nine months ended September 30, 2015 and 2014, respectively.

Table of Contents

Known Trends in Our Operations; Outlook for Future Results

Rental Income

We expect our rental income to increase year-over-year due to the addition of properties and rent increases on renewal leases. The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly acquired properties with vacant space, and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Over the past two years, we have seen modest improvement in the overall economy in our markets, which has allowed us to maintain overall occupancy rates, with slight increases in occupancy at certain of our properties, and to recognize modest increases in rental rates. We expect this trend to continue in 2015.

Scheduled Lease Expirations

We tend to lease space to smaller businesses that desire shorter term leases. As of September 30, 2015, approximately 20% of our gross leasable area was subject to leases that expire prior to December 31, 2016. Over the last two years, we have renewed leases covering approximately 76% of the square footage subject to expiring leases. We routinely seek to renew leases with our existing tenants prior to their expiration and typically begin discussions with tenants as early as 18 months prior to the expiration date of the existing lease. While our early renewal program and other leasing and marketing efforts target these expiring leases, we hope to re-lease most of that space prior to expiration of the leases. In the markets in which we operate, we obtain and analyze market rental rates through review of third-party publications, which provide market and submarket rental rate data and through inquiry of property owners and property management companies as to rental rates being quoted at properties that are located in close proximity to our properties and we believe display similar physical attributes as our nearby properties. We use this data to negotiate leases with new tenants and renew leases with our existing tenants at rates we believe to be competitive in the markets for our individual properties. Due to the short term nature of our leases, and based upon our analysis of market rental rates, we believe that, in the aggregate, our current leases are at market rates. Market conditions, including new supply of properties, and macroeconomic conditions in our markets and nationally affecting tenant income, such as employment levels, business conditions, interest rates, tax rates, fuel and energy costs and other matters, could adversely impact our renewal rate and/or the rental rates we are able to negotiate. We continue to monitor our tenants' operating performances as well as overall economic trends to evaluate any future negative impact on our renewal rates and rental rates, which could adversely affect our cash flow and ability to make distributions to our shareholders.

Acquisitions

We have continued to successfully grow our gross leasable area through the acquisition of additional properties, and we expect to actively pursue and consummate additional acquisitions in the foreseeable future. We believe that over the next few years we will continue to have excellent opportunities to acquire quality properties at historically attractive prices. We have extensive relationships with community banks, attorneys, title companies and others in the real estate industry, which we believe enables us to take advantage of these market opportunities and maintain an active acquisition pipeline.

Property Acquisitions

We seek to acquire commercial properties in high-growth markets. Our acquisition targets are properties that fit our Community Centered Properties™ strategy. We define Community Centered Properties™ as visibly located properties in established or developing, culturally diverse neighborhoods in our target markets, primarily in and around Austin, Chicago, Dallas-Fort Worth, Houston, Phoenix and San Antonio. We may acquire properties in other

high-growth cities in the future. We market, lease and manage our centers to match tenants with the shared needs of the surrounding neighborhood. Those needs may include specialty retail, grocery, restaurants, medical, educational and financial services. Our goal is for each property to become a Whitestone-branded business center or retail community that serves a neighboring five-mile radius around our property.

The primary components of other expenses are detailed in the table below (in thousands, except percentages):

	Nine Months Ended September 30,				
	2015	2014	Change	% Change	
General and administrative	\$15,170	\$10,751	\$4,419	41	%

Total other expenses	\$39,978	\$29,792	\$10,186	34	%

General and administrative. General and administrative expenses increased approximately \$4,419,000, or 41%, for the nine months ended September 30, 2015 as compared to the same period in 2014. The increase was comprised of \$2,110,000 in share-based compensation expense, \$871,000 in increased legal fees, \$754,000 in increased acquisition costs, \$282,000 in increased salaries and benefits, \$252,000 in increased office expenses and \$150,000 in other expenses.

Total compensation recognized in earnings for share-based payments was \$5,202,000 and \$3,092,000 for the nine months ended September 30, 2015 and 2014, respectively.

Based on our current financial projections, we expect approximately 82% of the unvested awards to vest over the next 42 months. As of September 30, 2015, there was approximately \$10.8 million in unrecognized compensation cost related to outstanding non-vested performance-based shares, which are expected to vest over a period of 42 months and approximately \$4.2 million in unrecognized compensation cost related to outstanding non-vested time-based shares, which are expected to be recognized over a period of approximately 18 months beginning on October 1, 2015.

We expect to record approximately \$7.1 million in non-cash share-based compensation expense in 2015 and \$13.2 million subsequent to 2015. The unrecognized share-based compensation cost is expected to vest over a weighted average period of 28 months. The dilutive impact of the performance-based shares will be included in the denominator of the earnings per share calculation beginning in the period that the performance conditions are expected to be met.

Depreciation and amortization. Depreciation and amortization increased approximately \$2,801,000, or 24%, for the nine months ended September 30, 2015 as compared to the same period in 2014. Depreciation for improvements to Same Store properties increased \$213,000 for the nine months ended September 30, 2015 as compared to the same period in 2014. Lease commission amortization and depreciation of corporate assets increased \$169,000 for the nine months ended September 30, 2015 as compared to the same period in 2014. Depreciation for New Store properties increased \$2,419,000.

Interest expense. Interest expense increased approximately \$3,139,000, or 42%, for the nine months ended September 30, 2015 as compared to the same period in 2014. The increase in interest expense is comprised of approximately \$3,839,000 in increased interest expense resulting from a \$152,009,000 increase in our average notes payable balance during the nine months ended September 30, 2015 as compared to the same period in 2014, an increase in amortized loan fees included in interest expense of \$266,000 for the nine months ended September 30, 2015 and offset by decreased interest expense of \$966,000 resulting from a decrease in the average effective interest rate on our average notes payable from 3.37% to 3.06% during nine months ended September 30, 2015 as compared to the same period in 2014.

Interest, dividend and other investment income. Interest, dividend and other investment income increased approximately \$173,000, or 244%, for the nine months ended September 30, 2015 as compared to the same period in 2014. The increase in interest, dividend and other investment income for the nine months ended September 30, 2015 as compared to the same period in 2014 is comprised of approximately \$143,000 in increased interest income, \$44,000 in increased gains on sales of available-for-sale securities and a \$14,000 decrease in dividend income.

Discontinued operations. Discontinued operations are comprised of the of three office buildings known as Zeta, Royal Crest and Featherwood, located in Houston, Texas. On December 31, 2014, we completed the sale of the three office buildings for \$10.3 million. As part of the transaction, we provided short-term seller financing of \$2.5 million. We recorded a gain on sale of \$4.4 million, including recognizing a \$1.9 million gain on sale for the year ended December 31, 2014 and deferring the remaining \$2.5 million gain on sale to be recognized upon receipt of principal payments on the financing provided by us.

Reconciliation of Non-GAAP Financial Measures

Funds From Operations (“FFO”)

The National Association of Real Estate Investment Trusts (“NAREIT”) defines FFO as net income (loss) available to common shareholders computed in accordance with U.S. GAAP, excluding gains or losses from sales of operating real estate assets, impairment charges on properties held for investment and extraordinary items, plus depreciation and amortization of operating properties, including our share of unconsolidated real estate joint ventures and partnerships. We calculate FFO in a manner consistent with the NAREIT definition.

Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using U.S. GAAP net income (loss) alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with U.S. GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Because real estate values instead have historically risen or fallen with market conditions, management believes that the presentation of operating results for real estate companies that use historical cost accounting is insufficient by itself. In addition, securities analysts, investors and other interested parties use FFO as the primary metric for comparing the relative performance of equity REITs.

FFO should not be considered as an alternative to net income or other measurements under U.S. GAAP, as an indicator of our operating performance or to cash flows from operating, investing or financing activities as a measure of liquidity. FFO does not reflect working capital changes, cash expenditures for capital improvements or principal payments on indebtedness. Although our calculation of FFO is consistent with that of NAREIT, there can be no assurance that FFO presented by us is comparable to similarly titled measures of other REITs.

Funds From Operations Core (“FFO Core”)

Management believes that the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash share-based compensation expense, rent support agreement payments received from sellers on acquired assets and acquisition costs. Therefore, in addition to FFO, management uses FFO Core, which we define to exclude such items.

Management believes that these adjustments are appropriate in determining FFO Core as they are not indicative of the operating performance of our assets. In addition, we believe that FFO Core is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that FFO Core presented by us is comparable to the adjusted or modified FFO of other REITs.

Below are the calculations of FFO and FFO Core and the reconciliations to net income, which we believe is the most comparable U.S. GAAP financial measure (in thousands):

Property Net Operating Income (“NOI”)

Management believes that NOI is a useful measure of our property operating performance and is useful to securities analysts in estimating the relative net asset values of REITs. We define NOI as operating revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Other REITs may use different methodologies for calculating NOI and, accordingly, our NOI may not be comparable to other REITs. Because NOI excludes general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes and gain or loss on sale or disposition of assets, it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. We use NOI to evaluate our operating performance since NOI allows us to evaluate the impact that factors such as occupancy levels, lease structure, lease rates and tenant base have on our results, margins and returns. In addition, management believes that NOI provides useful information to the investment community about our property and operating performance when compared to other REITs since NOI is generally recognized as a standard measure of property performance in the real estate industry. However, NOI should not be viewed as a measure of our overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes and gain or loss on sale or disposition of assets, the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties.

Below is the calculation of NOI and the reconciliations to net income, which we believe is the most comparable U.S. GAAP financial measure (in thousands):

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of distributions to holders of our common shares and OP units, including those required to maintain our REIT status and satisfy our current quarterly distribution target of \$0.2850 per share and OP unit, recurring expenditures, such as repairs and maintenance of our properties, non-recurring expenditures, such as capital improvements and tenant improvements, debt service requirements, and, potentially, acquisitions of additional properties.

During the nine months ended September 30, 2015, our cash provided from operating activities was \$25,994,000 and our total distributions were \$21,137,000. Therefore, we had cash flow from operations in excess of distributions of approximately \$4,857,000. We anticipate that cash flows from operating activities and our borrowing capacity

under our unsecured revolving credit facility will provide adequate capital for our working capital requirements, anticipated capital expenditures and scheduled debt payments in the short term. We also believe that cash flows from operating activities and our borrowing capacity will allow us to make all distributions required for us to continue to qualify to be taxed as a REIT for federal income tax purposes.

Table of Contents

Our long-term capital requirements consist primarily of maturities under our longer-term debt agreements, development and redevelopment costs, and potential acquisitions. We expect to meet our long-term liquidity requirements with net cash from operations, long-term indebtedness, sales of common shares, issuance of OP units, sales of underperforming properties and other financing opportunities, including debt financing. We believe we have access to multiple sources of capital to fund our long-term liquidity requirements, including the incurrence of additional debt and the issuance of additional equity. However, our ability to incur additional debt will be dependent on a number of factors, including our degree of leverage, the value of our unencumbered assets and borrowing restrictions that may be imposed by lenders. Our ability to access the equity markets will be dependent on a number of factors as well, including general market conditions for REITs and market perceptions about our Company.

We expect that our rental income will increase as we continue to acquire additional properties, subsequently increasing our cash flows generated from operating activities. We intend to continue acquiring such additional properties that meet our Community Centered Property™ strategy through equity issuances and debt financing.

As discussed in Note 10 (Equity) to the accompanying consolidated financial statements, on June 26, 2015, we completed the sale of 3,750,000 common shares at a purchase price of \$13.3386 per share. Total net proceeds from the offering, after deducting offering expenses, were approximately \$49.7 million, which we contributed to the Operating Partnership in exchange for OP units. The Operating Partnership used the net proceeds from this offering to repay a portion of the Facility and for general corporate purposes. In addition, on June 4, 2015, we entered into the 2015 equity distribution agreements, as discussed in Note 10 to the accompanying consolidated financial statements. Pursuant to the terms and conditions of the 2015 equity distribution agreements, we can issue and sell up to an aggregate of \$50 million of our common shares into the existing trading market at current market prices or at negotiated prices through the placement agents over a period of time and from time to time. We have not sold any common shares under the 2015 equity distribution agreements. We anticipate using net proceeds from common shares issued pursuant to the 2015 equity distribution agreements for general corporate purposes, which may include acquisitions of additional properties, the repayment of outstanding indebtedness, capital expenditures, the expansion, redevelopment and/or re-tenanting of properties in our portfolio, working capital and other general purposes.

Our capital structure includes non-recourse mortgage debt that we have assumed or originated on certain properties. We may hedge the future cash flows of certain variable rate debt transactions principally through interest rate swaps with major financial institutions. See Note 7 (Derivatives and Hedging Activities) to the accompanying consolidated financial statements for a description of our current cash flow hedges.

As discussed in Note 2 (Summary of Significant Accounting Policies) to the accompanying consolidated financial statements, pursuant to the terms of our \$15.1 million 4.99% Note, due January 6, 2014 (See Note 6 (Debt) to the accompanying consolidated financial statements), which is collateralized by our Anthem Marketplace property, we were required by the lenders thereunder to establish a cash management account controlled by the lenders to collect all amounts generated by our Anthem Marketplace property in order to collateralize such promissory note. Amounts in the cash management account are classified as restricted cash.

Cash and Cash Equivalents

We had cash and cash equivalents of approximately \$5,660,000 as of September 30, 2015, as compared to \$4,236,000 on December 31, 2014. The increase of \$1,424,000 was primarily the result of the following:

Sources of Cash

• Cash flow from operations of \$25,994,000 for the nine months ended September 30, 2015;

Proceeds of \$105,500,000 from the Facility;

Net proceeds of \$49,717,000 from issuance of common shares;

Proceeds from sales of marketable securities of \$496,000;

Cash flow from discontinued operations of \$3,000;

⁽¹⁾ Promissory note includes an interest rate swap that fixed the interest rate at 3.55% for the duration of the term.

Promissory note includes an interest rate swap that fixed the LIBOR portion of our \$50 million term loan under our

⁽²⁾ previous unsecured revolving credit facility at 0.84%. On October 30, 2015, the maturity date of this loan was extended to October 30, 2020 (See Note 15).

⁽³⁾ Promissory note includes an interest rate swap that fixed the interest rate at 5.72% for the duration of the term. As part of our acquisition of Paradise Plaza in August 2012, we recorded a discount on the note of \$1.3 million, which

amortizes into interest expense over the life of the loan and results in an imputed interest rate of 4.13%.

Table of Contents

On October 30, 2015, the maturity date of the Revolver (as defined below) was extended to October 30, 2019 and (4) \$100 million of borrowings under the Revolver (as defined below) was converted to a new term loan under the Facility (as defined below) with a rate of LIBOR plus 1.65% to 2.25% and a maturity date of October 30, 2022 (See Note 15).

(5) On October 30, 2015, the maturity date of this loan was extended to January 29, 2021 (See Note 15).

On December 24, 2014, we assumed a \$2.6 million promissory note as part of our acquisition of the hard corner at Village Square at Dana Park (See Note 14 (Real Estate) to the accompanying consolidated financial statements). The 5.46% fixed interest rate note matures October 1, 2023.

On November 26, 2014, we, operating through our subsidiary, Whitestone Headquarters Village, LLC, a Delaware limited liability company, entered into a \$19.0 million promissory note (the "Headquarters Note"), with a fixed interest rate of 4.15% payable to Morgan Stanley Bank, N.A. and a maturity date of December 1, 2024. Proceeds from the Headquarters Note were used to repay a portion of our unsecured revolving credit facility.

On November 7, 2014, we, through our Operating Partnership, entered into an unsecured revolving credit facility (the "Facility") with the lenders party thereto, with BMO Capital Markets, Wells Fargo Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, and U.S. Bank, National Association, as co-lead arrangers and joint book runners, and Bank of Montreal, as administrative agent (the "Agent"). The Facility amended and restated our previous unsecured revolving credit facility. Proceeds from the Facility were used for general corporate purposes, including property acquisitions, debt repayment, capital expenditures, the expansion, redevelopment and re-tenanting of properties in our portfolio and working capital. We intend to use the additional proceeds from the Facility for general corporate purposes, including property acquisitions, debt repayment, capital expenditure, the expansion, redevelopment and re-tenanting of properties in our portfolio and working capital.

The Facility is comprised of three tranches:

\$400 million unsecured revolving credit facility (the "Revolver");
\$50 million unsecured term loan (the "Term Loan 1"); and
\$50 million unsecured term loan (the "Term Loan 2").

The Facility includes an accordion feature that will allow the Operating Partnership to increase the borrowing capacity to \$700 million, upon the satisfaction of certain conditions. The Revolver will mature on November 7, 2018, with an option to extend for one additional year to November 7, 2019, subject to certain conditions, including payment of an extension fee. The Term Loan 1 will mature on February 17, 2017, and the Term Loan 2 will mature on November 7, 2019.

Borrowings under the Facility accrue interest (at the Operating Partnership's option) at a Base Rate or an Adjusted LIBOR plus an applicable margin based upon our then existing leverage. The applicable margin for Adjusted LIBOR borrowings ranges from 1.40% to 1.95% for the Revolver and 1.35% to 1.90% for the term loans. Base Rate means the higher of: (a) the Agent's prime commercial rate, (b) the sum of (i) the average rate quoted by the Agent by two or more federal funds brokers selected by the Agent for sale to the Agent at face value of federal funds in the secondary market in an amount equal or comparable to the principal amount for which such rate is being determined, plus (ii) 1/2 of 1.00%, and (c) the LIBOR rate for such day plus 1.00%. Adjusted LIBOR means LIBOR divided by one minus the Eurodollar Reserve Percentage. The Eurodollar Reserve Percentage means the maximum reserve percentage at which reserves are imposed by the Board of Governors of the Federal Reserve System on eurocurrency liabilities.

We serve as the guarantor for funds borrowed by the Operating Partnership under the Facility. The Facility contains customary terms and conditions, including, without limitation, affirmative and negative covenants such as information reporting requirements, maximum secured indebtedness to total asset value, minimum EBITDA (earnings before interest, taxes, depreciation, amortization or extraordinary items) to fixed charges, and maintenance of a minimum net worth. The Facility also contains customary events of default with customary notice and cure, including, without limitation, nonpayment, breach of covenant, misrepresentation of representations and warranties in a material respect, cross-default to other major indebtedness, change of control, bankruptcy and loss of REIT tax status. As of September 30, 2015, we were in compliance with all covenants under the Facility.

Table of Contents

As of September 30, 2015, \$325.6 million was drawn on the Facility, and our remaining borrowing capacity was \$174.4 million. Proceeds from the Facility were used for general corporate purposes, including property acquisitions, debt repayment, capital expenditures, the expansion, redevelopment and retreating of properties in our portfolio and working capital. On October 30, 2015, we, through our Operating Partnership, entered into the first amendment to the Facility. See Note 15 to the accompanying consolidated financial statements.

On September 3, 2014, we, operating through our subsidiary, Whitestone Pecos Ranch, LLC, a Delaware limited liability company, entered into a \$14.0 million promissory note (the “Pecos Note”), with a fixed interest rate of 4.34% payable to Wells Fargo Bank, National Association and a maturity date of September 11, 2024. Proceeds from the Pecos Note were used to repay a portion of our previous unsecured revolving credit facility.

On August 26, 2014, we, operating through our subsidiary, Whitestone Shops at Starwood, LLC, a Delaware limited liability company, entered into a \$14.3 million promissory note (the “Starwood Note”), with a fixed interest rate of 4.34% payable to Wells Fargo Bank, National Association and a maturity date of September 11, 2024. Proceeds from the Starwood Note were used to repay a portion of our previous unsecured revolving credit facility.

As of September 30, 2015, our \$172.7 million in secured debt was collateralized by 20 properties with a carrying value of \$214.4 million. Our loans contain restrictions that would require the payment of prepayment penalties for the acceleration of outstanding debt and are secured by deeds of trust on certain of our properties and by assignment of the rents and leases associated with those properties. As of September 30, 2015, we were in compliance with all loan covenants.

Scheduled maturities of our outstanding debt as of September 30, 2015 were as follows (in thousands):

Year	Amount Due
2015	\$ 730
2016	13,269
2017	60,212
2018	237,736
2019	58,049
Thereafter	128,472
Total	\$498,468

Capital Expenditures

We continually evaluate our properties’ performance and value. We may determine it is in our shareholders’ best interest to invest capital in properties that we believe have potential for increasing value. We also may have unexpected capital expenditures or improvements for our existing assets. Additionally, we intend to continue investing in similar properties outside of the markets on which we focus in cities with exceptional demographics to diversify market risk, and we may incur significant capital expenditures or make improvements in connection with any properties we may acquire.

Contractual Obligations

During the nine months ended September 30, 2015, there were no material changes outside of the ordinary course of business to the information regarding specified contractual obligations contained in our Annual Report on Form 10-K for the year ended December 31, 2014.

Taxes

We elected to be taxed as a REIT under the Code beginning with our taxable year ended December 31, 1999. As a REIT, we generally are not subject to federal income tax on income that we distribute to our shareholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate rates. We believe that we are organized and operate in a manner to qualify and be taxed as a REIT, and we intend to operate so as to remain qualified as a REIT for federal income tax purposes.

Environmental Matters

Our properties are subject to environmental laws and regulations adopted by various governmental authorities in the jurisdictions in which our operations are conducted. From our inception, we have incurred no significant environmental costs, accrued liabilities or expenditures to mitigate or eliminate future environmental contamination.

Off-Balance Sheet Arrangements

We had no significant off-balance sheet arrangements as of September 30, 2015 and December 31, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our future income, cash flows and fair value relevant to our financial instruments depend upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. Based upon the nature of our operations, we are not subject to foreign exchange rate or commodity price risk. The principal market risk to which we are exposed is the risk related to interest rate fluctuations. Many factors, including governmental monetary and tax policies, domestic and international economic and political considerations, and other

factors that are beyond our control contribute to interest rate risk. Our interest rate risk objective is to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve this objective, we manage our exposure to fluctuations in market interest rates for our borrowings through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable.

Table of Contents

All of our financial instruments were entered into for other than trading purposes.

Fixed Interest Rate Debt

As of September 30, 2015, \$222.9 million, or approximately 45% of our outstanding debt, was subject to fixed interest rates, which limit the risk of fluctuating interest rates. Though a change in the market interest rates affects the fair market value of our fixed interest rate debt, it does not impact net income to shareholders or cash flows. Our total outstanding fixed interest rate debt had an average effective interest rate as of September 30, 2015 of approximately 3.78% per annum with scheduled maturities ranging from 2015 to 2024 (see Note 6 (Debt) to the accompanying consolidated financial statements for further detail). Holding other variables constant, a 1% increase or decrease in interest rates would cause an \$8.7 million decline or increase, respectively, in the fair value for our fixed rate debt.

Variable Interest Rate Debt

As of September 30, 2015, \$275.6 million, or approximately 55% of our outstanding debt, was subject to floating interest rates of LIBOR plus 1.35% to 1.95% and not currently subject to a hedge. The impact of a 1% increase or decrease in interest rates on our non-hedged variable rate debt would result in a decrease or increase of annual net income of approximately \$2.8 million, respectively.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of Whitestone REIT, under the supervision and with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to Whitestone REIT's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of September 30, 2015 (the end of the period covered by this Report).

Changes in Internal Control Over Financial Reporting

During the three months ended September 30, 2015, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
