We are particularly proud of the above-20% operating margins that we have achieved for both the quarter and the six-month period, a result of our ability to leverage our current cost structure to support a higher level of sales. Our balance sheet includes the contribution of the successful PIPE (Private Investment into Public Entity) financing with gross proceeds of \$17.9 million that we closed in May, a transaction that we carried out to increase our working capital and to fund our long-term work plans. Taken as a whole, we are pleased with our progress and working to build the Company for the benefit of our shareholders."
