**FOR IMMEDIATE RELEASE**

**Mundo Startel Expands Broadband Service Using Alvarion s®  
WiMAX Solution**

*Companies expand wireless broadband services in Angola over the 3.6 GHz  
frequency band*

**Tel Aviv, Israel, August 4, 2009** Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of WiMAX and wireless broadband solutions, and Mundo Startel today announced the expansion of WiMAX services throughout Angola. The network expansion using Alvarion's BreezeMAX solution at the 3.6 GHz frequency band follows Mundo Startel's decision to launch their fixed-line ISP operations.

Following previous successful deployments in Luanda, Mundo Startel and Alvarion continue to provide a cost-effective solution, empowering social care development programs such as e-Health and e-Learning. Mundo will provide internet access services to both enterprises and residential homes. This nationwide WiMAX network also provides access to remote businesses, fueling economic growth for the region.

Broadband services are highly essential for the development of Angola's growing population which currently stands at over 13 million. This project enhances the everyday life of people, and allows them access to new opportunities, said Mr. Paulo Garcia, Managing Director of Mundo Startel. We are happy to expand our partnership with Alvarion as we consider Alvarion as a strong partner who is helping us realize our ambition of providing a nationwide footprint for broadband. Alvarion's leading market position along with a state of the art WiMAX solution

made it a natural choice for this important project.

Mundo Startel is partially owned by Telecom Namibia, along with a number of other local partners, who have committed to invest over \$55 million in Angola to deploy 100,000 wireless lines providing voice and high speed data services in Luanda and throughout the country. The network encourages economic development, as it aims to expand the service nationwide, thus creating jobs for local residents.

Angola's demand for broadband connectivity coupled with the lack of wired infrastructure makes WiMAX technology an ideal solution for the country, said Tzvika Friedman, president and CEO of Alvarion. Alvarion is proud to continue supporting Mundo Startel in bringing broadband services to its customers. Alvarion's widely deployed WiMAX solutions provide flexibility and scalability necessary to grow the networks overtime with the ability to continue adding tailored value added services.

#### **About Mundo Startel**

Mundo Startel is a fully licensed Angolan telecommunications operator that satisfies voice and data connectivity needs for home owners, SMEs, Corporate and Government clients. Startel has invested in NGN technology at the data center in Luanda with POPs located in and around the city. The complete IP network has been built with carrier grade equipment, offering different service levels (QoS) for data and fixed line voice traffic.

#### **About Alvarion**

Alvarion (NASDAQ: ALVR) is the largest WiMAX pure-player with the most extensive WiMAX customer base and over 250 commercial deployments around the globe. Committed to growing the WiMAX market, the company offers solutions for a wide range of frequency bands supporting a variety of business cases. Through its OPEN WiMAX strategy, superior IP and OFDMA know-how, and ability to deploy end-to-end turnkey WiMAX projects, Alvarion is shaping the new wireless broadband experience ([www.alvarion.com](http://www.alvarion.com)).

*This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: potential impact on our business of the spread of the U.S. credit crisis and current global recession; Alvarion's inability to capture market share in the expected growth of the WiMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, services provisioning, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers, and other risks detailed from time to time in the Company's 20-F Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.*
