**INDEPENDENT AUDITORS REPORT**

To the Dynegy Inc. Benefit Plans Committee for  
the Illinois Power Company Incentive Savings Plan for Employees  
Covered Under a Collective Bargaining Agreement

We have audited the accompanying statements of net assets available for benefits of Illinois Power Company Incentive Savings Plan for Employees Covered Under A Collective Bargaining Agreement (the Plan ) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Illinois Power Company Incentive Savings Plan for Employees Covered Under a Collective Bargaining Agreement as of December 31, 2002 and 2001, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information included in the supplemental schedules of (1) assets (held at end of year), and (2) reportable transactions, together referred to as supplemental information , are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement

Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**INCENTIVE SAVINGS PLAN FOR EMPLOYEES**  
**COVERED UNDER A COLLECTIVE BARGAINING AGREEMENT**

**NOTES TO FINANCIAL STATEMENTS**

**FOR THE YEARS ENDED DECEMBER 31, 2002 AND 2001**

**1. DESCRIPTION OF PLAN**

The following description of the Illinois Power Company Incentive Savings Plan for Employees Covered Under a Collective Bargaining Agreement (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Illinois Power Company Incentive Savings Plan for Employees Covered Under a Collective Bargaining Agreement is sponsored and administered by Dynegy Inc. (the Company) for certain eligible employees of Illinois Power Company (IP) and Dynegy Midwest Generation, Inc. (DMG; IP and DMG are each referred to herein as the Employer). The Dynegy Inc. Benefit Plans Committee serves as the Plan Administrator for the Plan. The Plan became effective as of January 1, 1987. Assets of the Plan are held and managed by a trustee. Effective January 1, 2002, Vanguard Fiduciary Trust Company (Vanguard or the Trustee) became trustee and custodian. The purpose of the Plan is to enable participants to invest a portion of their salaries in tax-deferred savings pursuant to Section 401(k) of the Internal Revenue Code (IRC) and to otherwise help participants prepare financially for their retirement. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Participation

All employees of the Employer who are covered under a collective bargaining agreement are eligible to participate in the Plan other than (a) certain nonresident aliens, (b) leased employees, (c) employees who have waived participation in the Plan, and (d) individuals who are deemed to be employees only under certain Department of the Treasury regulations. Although participation in the Plan commences immediately upon employment as an eligible employee, a participant's election to make before-tax and/or after-tax contributions to the Plan is voluntary. Active participation ceases upon termination of employment with the Employer. Former employees can choose to liquidate their accounts or to leave them in the Plan, except that an automatic lump sum distribution will be made upon termination of employment if the participant's aggregate account balance (excluding the portion thereof attributable to rollover contributions) is

not in excess of \$5,000. Earnings will continue to accrue on undistributed accounts. All accounts, whether for active or former employees, are fully vested.

#### Plan Changes and Amendments

Effective January 1, 2002, the Plan was amended and restated. The Plan also changed recordkeepers and trustees from Fidelity Management Trust Company to Vanguard. As a result, the investment options offered to the Plan's participants changed. In order to facilitate this transition, it was necessary to impose a Quiet Period as adopted in an amendment dated November 30, 2001. The Quiet Period commenced on December 20, 2001 (November 30, 2001 for hardship withdrawals) and ended on January 18, 2002. During this period, requests for, and processing of, distributions, withdrawals, changes in participant contribution rates, and loans were temporarily suspended. In addition, participants were unable to change investment designations with respect to future or existing allocations.

#### Participant Accounts

Each participant's accounts are credited with the participant's contribution and allocations of the Employer's contribution and Plan earnings. For participants with loans, a loan administrative fee is charged to their account.

#### Contributions

Participants may make before-tax contributions by payroll deduction up to the legal dollar limit. Participants may also make after-tax contributions in cash or by payroll deduction. Total contributions are limited to the extent required by law. A participant may also roll-over into the Plan amounts previously invested in another retirement plan.

Participants have the option of investing their contributions in any or all of the investment funds in the proportions they choose. They may change their investment options or transfer amounts from fund to fund at any time.

The Employer contributes a monthly match to the Plan equal to 50% of the participant's monthly before-tax contributions that are not in excess of 6% of the participant's compensation for the month. In addition, for each calendar year the Employer makes a true-up matching contribution on behalf of each participant who was an eligible employee on the last day of the year. The true-up matching contribution equals the difference, if any, between (a) 50% of the before-tax contributions made during the year by the eligible participant that were not in excess of 6% of his or her compensation for the year and (b) the aggregate amount of monthly matching contributions made on behalf of such eligible participant during the year. All Employer matching contributions are made in shares of Dynegy common stock and are contained in the Dynegy Stock Fund (the Dynegy Stock Fund) in the Master Trust. Dividends on stock held in the Dynegy

Stock Fund are also invested in the Dynegy Stock Fund. See Notes 4 and 6 for more information.

In addition, the Employer may make a discretionary contribution for a calendar year that is allocated based on compensation to (a) participants who are eligible employees on the last day of the year and (b) participants who terminated employment during the year on or after attaining age 65 or by reason of death or disability. The discretionary contribution is made in shares of Dynegy common stock which are initially held in the Dynegy Stock Fund. Dividends earned on these shares are also invested in the Dynegy Stock Fund. No contributions were made under this arrangement for plan years 2002 and 2001.

#### Vesting

Participants have an immediate 100% vested and nonforfeitable interest in the employee and Employer contributions plus actual earnings thereon.

#### ESOP

In October 1990, the Plan was amended to provide for the implementation of an Employee Stock Ownership Plan (ESOP) arrangement. Under this arrangement, a predecessor to the Company, pursuant to authorization granted by the Illinois Commerce Commission (ICC), loaned \$35 million to the trustee of the ESOP in January 1991. The loan proceeds were used to purchase 952,397 shares of Illinova Corporation common stock on the open market. The shares (which were converted into shares of Dynegy in connection with the February 1, 2000, combination of Illinova Corporation and Dynegy) were allocated to the accounts of eligible participating employees as they were earned through the match or incentive compensation features of the Plan. The loan was paid-off during 2000 and the remaining unallocated shares were allocated to eligible employees during 2001. Total shares allocated to bargaining unit employees for matching contributions and company incentive contributions totaled 550,181 and 402,216 as of December 31, 2001, respectively. The Plan continues to have an ESOP feature, but there is currently no Dynegy stock that has been acquired with the proceeds of a currently outstanding loan.

#### Distributions

Distributions as provided for in the Plan are made to Plan participants or their beneficiaries upon the participant's termination of employment or death. Distributions must begin by April 1st of the calendar year following the later of the calendar year in which the employee reaches age 70 1/2 or the calendar year in which the employee retires. All distributions are made in the form of cash and/or Dynegy common stock.

Forfeitures

Each participant is responsible for supplying the Company with a current address. In the case of a benefit payable on behalf of a participant, if the Plan Administrator is unable to locate the participant or beneficiary to whom such benefit is payable, upon the Plan Administrator's determination thereof, such benefit shall be deemed a forfeiture and shall be used to reduce matching contributions and/or to pay Plan administrative expenses.

During plan year 2002, employer contributions were reduced by \$77,783 from forfeited accounts.

Loans

The Plan allows participants to borrow from their Plan accounts an amount not to exceed the lesser of \$50,000 (reduced by the excess of the highest outstanding balance of loans during the one-year period before the date the loan is made over the outstanding balance of loans on the date the loan is made) or 50% of the vested account balance (other than the portion of such account balance that is invested under the directed brokerage investment fund option). Interest is charged on these loans at a rate commensurate with interest rates charged by persons in the business of lending money for similar type loans. For 2002, the interest rate ranged from 5.25% to 10.50%. The rate for 2001 ranged from 7.75% to 10.50%.

All loans made will mature and be payable in full no earlier than one year and no later than five years from the date of the loan. An exception exists when the loan is used by the participant to acquire his or her principal residence. In this case, the loan will mature and be payable in full no earlier than one year and no later than ten years from the date of the loan. Loan repayments are made by payroll deductions authorized by the participant while the participant remains employed by the Employer or an affiliate. After termination of employment and before receiving a distribution from the Plan, a participant may continue to make loan payments directly to the Trustee. Interest paid on the loan is credited to the participant's account. The Trustee maintains a Loan Fund to hold the balances of participants' loans.

Plan-to-Plan Transfers

Amounts are transferred to or from the Illinois Power Company Incentive Savings Plan as participants shift out of or into positions covered by a collective bargaining agreement. These transfers are shown on the Statement of Changes in Net Assets Available for Benefits as plan-to-plan transfers.

Plan Termination

Subject to certain limitations, the right to amend, modify or terminate the Plan is reserved by the Company.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting.

### Investments

Participant loans included in the loan fund are valued at cost, which approximates fair value. Other investments are stated at fair value based on the latest quoted market price. Shares of mutual funds are valued at the net asset value of shares held by the Plan at the year end.

The investments held in the Master Trust are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are valued at fair value as determined in good faith by or under the direction of the Trustee. The Trustee determines the Plan's interest in the market value of the Master Trust's net assets in accordance with a computational method agreed upon between the Plan Administrator and the Trustee. The Dynegy Stock Fund and the Stable Value Fund, however, are identified with each plan on an actual basis. At December 31, 2002 the Plan's interest in the Master Trust was approximately 26.4%.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

### Income

Net appreciation (depreciation) of investments is comprised of realized and unrealized gains and losses. Realized gains or losses represent the difference between proceeds received upon sale and the average cost of the investment. Unrealized gain or loss is the difference between market value and cost of investments retained in the Plan (at financial statement date). For the purpose of allocation to participants, the Dynegy Stock Fund is valued by the Plan at its unit price (comprised of market price plus uninvested cash position) on the date of allocation and current unit price is used at the time of distribution to participants resulting in a realized gain or loss and is reflected in the income from the Plan's investment in the Master Trust.

Investment income from the Plan's investment in the Master Trust consists of the Plan's proportionate share of the Master Trust's interest and dividend income and investment income from net appreciation (depreciation) in fair value of investments.

The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned. Realized gains and losses on security sales are computed on an average cost basis. Purchases and sales of securities are recorded on a trade-date-basis.

#### Expenses

Most expenses incurred in the administration of the Plan and the trust are paid by the Employer. These expenses include fees and expenses of the Trustee, fund managers, consultants, auditors, and legal personnel.

#### Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated August 29, 2002 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has not been amended since receiving the determination letter and the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

#### Distribution of Benefits

Distributions of benefits are recorded when paid.

#### Reclassification

Certain prior year balances have been reclassified to conform to current year presentation.

**3. INVESTMENTS**

Plan investments are received, invested and held by the Trustee. Individual investments that represent 5% or more of the Plan's net assets available for benefits include:

<b>Investments at fair value as determined by quoted market price</b>	<b>Fair value at December 31</b>

**5. TRANSACTIONS WITH PARTIES-IN-INTEREST**

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these qualify as party-in-interest transactions. Fees paid during the year for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

**6. NONPARTICIPANT-DIRECTED INVESTMENTS**

All funds in the Plan are participant directed, with the exception that Employer matching and discretionary contributions are initially invested in the Dynegy Stock Fund. Participants may diversify the investment of Employer matching and discretionary contributions after such amounts are initially credited to their accounts. Information about the net assets available for benefits and the significant components of the changes in net assets available for benefit relating to the Dynegy Stock Fund is as follows:
