Not Applicable

(Former name or former address, if changed since last report)

Item 12. Results of Operations and Financial Condition.

On February 2, 2004, Aviall, Inc. (the Company) issued the following press release (the Press Release) announcing its financial results for the quarter and fiscal year ended December 31, 2003.

The Press Release contains non-GAAP financial measures as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended (the Exchange Act). In the Press Release, the Company has provided reconciliations of the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles (GAAP) in the United States.

The Press Release includes pro forma earnings per share for the fourth quarter of 2003 and the fiscal year ended December 31, 2003. The pro forma earnings per share information has been prepared assuming the following events were consummated prior to January 1, 2002: (i) the sale of \$200 million of 7⁵/₈% Senior Notes due 2011 (the New Notes) and the related discharge of Aviall Services 14% Senior Notes due 2007 (the Old Notes) and reduction of the outstanding balance on Aviall Services revolving credit facility (the Debt Discharge) and (ii) the lowering of the conversion price of the Company's Series D Senior Convertible Participating Preferred Stock (the Series D Preferred Stock) and the subsequent conversion of all of the outstanding shares of Series D Preferred Stock into 11,100,878 shares of the Company's common stock (the Conversion Event). The pro forma earnings per share calculation excludes the effect of (i) the previously reported quarterly payment-in-kind dividends on the Series D Preferred Stock, (ii) the noncash deemed dividend resulting from the issuance of the Series D Preferred Stock, (iii) the noncash charges related to the Debt Discharge and the Conversion Event, and (iv) all adjustments required by the two-class method of reporting earnings per share that the Company has used since December 2001. In addition, the pro forma earnings per share calculation includes an after-tax adjustment to reflect the lower interest expense of the pro forma interest expense on the Company's New Notes as compared to the Old Notes. Management believes that the pro forma earnings per share presentation is beneficial to investors to provide information on how these consummated transactions would have affected the Company's historical financial statements had they occurred at an earlier date.

The information in this Form 8-K shall not be deemed filed for purposes of Section 18 of the Exchange Act, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

AVIALL ANNOUNCES STRONG 2003 FOURTH QUARTER

DALLAS, TEXAS February 2, 2004 Aviall, Inc. (NYSE: AVL) today reported continuing growth for its fourth quarter and fiscal year ended December 31, 2003:

Highlights

Net earnings from continuing operations for the fourth quarter of 2003 were \$9.3 million, reflecting an increase of \$1.9 million over the fourth quarter of 2002.

Fourth quarter 2003 operating income increased \$2.3 million to \$17.6 million driven primarily by a continued increase in military engine part sales.

Aviall, Inc. revenues grew 19% year-over-year in the fourth quarter to their highest quarterly level for 2003.

Total selling and administrative (S&A) expenses in the fourth quarter of 2003 fell to 9.9% as a percent of sales, compared to 10.8% in the fourth quarter of 2002.

For the full year of 2003, Aviall generated \$51.7 million of net cash flow from operations versus a use of \$37.1 million in 2002, an improvement of \$88.8 million.

AVIALL ANNOUNCES STRONG 2003 FOURTH QUARTER

Page 2

Fourth Quarter 2003 Results

Fourth quarter 2003 net sales rose by \$40.9 million to \$261.5 million, up 19% versus last year's level of \$220.6 million. The net sales growth in the fourth quarter was driven primarily by Aviall Services' strong sales of its Rolls-Royce T56 military engine products. In addition, despite continued industry weakness, both airline and general aviation product sales contributed to revenue growth with small but positive year-over-year increases. Fourth quarter net sales at ILS of \$7.0 million were up \$0.1 million year-over-year, continuing its record of quarterly net sales gains for this global electronic marketplace.

Aviall's gross profit for the 2003 fourth quarter grew \$5.3 million, or 14%, year-over-year to \$43.4 million. However, gross profit as a percentage of net sales was lower due to a larger proportion of lower-margin T56 military engine product sales in the quarter, offset somewhat by slight growth in both general aviation and commercial airline. Selling and administrative (S&A) expenses increased \$2.0 million year-over-year to \$25.8 million but fell as a percentage of sales to a new Company milestone of 9.9%. Of the total fourth quarter 2003 S&A increase, corporate S&A accounted for \$0.8 million, primarily from Sarbanes-Oxley compliance costs, which were only partially offset by foreign currency exchange gains. Accordingly, the operating income margin was 6.7% for the fourth quarter of 2003 versus 6.9% for the fourth quarter of 2002.

Included in the ILS operating profit for the fourth quarter of 2003 were nonrecurring adjustments related to reversal of expense accruals of approximately \$570,000 and a change in estimates for doubtful accounts receivable of approximately \$180,000, which resulted in a total increase to ILS's operating income of approximately \$750,000.

AVIALL ANNOUNCES STRONG 2003 FOURTH QUARTER

Page 3

Interest expense declined to \$4.6 million in the fourth quarter of 2003 principally as a result of the issuance of new senior notes, the redemption of old senior notes, and paydown of the outstanding balance under our revolving credit facility all of which were completed in June 2003. Diluted earnings per share for continuing operations were \$0.28 for the fourth quarter of 2003 as compared with a reported \$0.24 for the same period in 2002.

Debt outstanding at December 31, 2003 was \$207 million as compared with \$221 million at December 31, 2002, and the cash balance at the end of the fourth quarter of 2003 was \$23 million, versus \$5 million at December 31, 2002. The difference is primarily attributable to improved working capital efficiencies and higher profits due to improved sales and improved S&A expense leverage as a percentage of sales in 2003 as compared to 2002. Net cash used by operations in the fourth quarter of 2003 amounted to \$37.8 million, principally attributable to new contract startup inventory purchases of Honeywell Lighting and Electronics products and the inventory replenishment arising from heavier fourth quarter sales of Rolls-Royce product.

Full-Year Overview

Net earnings from continuing operations for 2003 were \$20.7 million versus \$26.7 million in 2002. The 2003 earnings were reduced by two principal factors: (1) a pretax, noncash \$17.3 million refinancing charge, which was incurred when Aviall Services 14% 2008 Senior Notes were refinanced in June 2003, and (2) a pretax \$1.7 million software impairment charge. In addition, the 2002 earnings were favorably affected by a \$0.8 million tax benefit from the release of reserves related to the state tax net operating loss carryforward and a \$1.0 million gain from reversal of environmental reserves related to our previously owned businesses.

AVIALL ANNOUNCES STRONG 2003 FOURTH QUARTER

Page 4

Net sales for 2003 were \$1.013 billion, up \$210.0 million or 26% as compared with net sales of \$803.3 million in 2002. The 2002 revenue amount does not include \$74 million of T56 parts sales made by Rolls-Royce to the U.S. military as part of the T56 transition program for which Aviall received its contracted margin which was included in gross profit. Gross profit was \$169.6 million in 2003, an 8% increase over the \$156.8 million achieved in 2002.

Driven primarily by additional sales, the integration of new Honeywell product lines, legal fees and Sarbanes-Oxley compliance costs, 2003 selling and administrative expenses were 5% higher in absolute terms year-over-year as compared to the 26% sales gain. This positive leverage of revenue versus expense served to reduce selling and administrative as a percentage of revenue to 9.9%, a reduction from 11.9% in 2002.

Finally, as a result of the refinancing completed in June 2003, Aviall's interest expense decreased \$1.6 million in 2003 compared to 2002. In addition, the Company had a lower effective tax rate of 30% as compared with 33% in 2002 attributable to increased benefit from the federal extraterritorial income (ETI) exclusion and reduced foreign tax rates.

2004 Earnings Guidance

The Company expects net earnings from continuing operations in 2004 to be in the range of approximately \$34.5 - \$36.0 million or equivalent to approximately \$1.06 to \$1.10 per diluted share based upon the current number of diluted shares. Operating earnings (earnings before interest and taxes) are expected to be approximately \$72 - \$75 million, and the Company expects approximately \$16 million of depreciation and amortization expense in 2004.

Page 5

Review and Outlook

Aviall's 2003 performance is a continuation of the momentum that began in 2000. Because of our strategic diversification, the successful execution of our business model, and dedicated team of professionals, we have been able to sustain our upward trend despite the events that have afflicted the aerospace industry over this period," said Paul E. Fulchino, Aviall's chairman, president and chief executive officer.

During this challenging time, Aviall has continued to successfully implement its strategic vision and has transformed itself on several fronts. The many changes that have made this success possible are most visible through: our continuing high marks for customer and supplier satisfaction; our expanded presence in the military- and defense-related aircraft parts arena; our deployment of customer friendly supply chain technologies; and our comprehensive improvements in our S&A infrastructure enabling our inside costs to lead the aftermarket segment at single-digit levels. Equally important, through the industry's toughest period, the Company has also grown, expanded its offerings, and, we believe gained share in its traditional general aviation and airline markets.

Fulchino continued, "An important element in our market successes was the Company's ability to strengthen its management ranks and maintain its customer service value focus. While others have cutback, we have continued to build product expertise and, in concert, implement our long-range technology plan. The expanded daily use of tangible supply-chain efficiencies and resulting connectivity to both buyers and sellers has resulted in increasingly positive responses from both customers and suppliers, as well as formal recognition by industry experts.

AVIALL ANNOUNCES STRONG 2003 FOURTH QUARTER

Page 6

In closing, Fulchino added, "During 2003, Aviall continued to benefit from its core strengths — our global scope and coverage, product depth, market diversity, and large contract execution capabilities. It is precisely these qualities that will continue to provide us with the momentum that is now propelling us into the future. With the strategic addition of new product lines and our proven scalability to support further growth, Aviall is well-positioned to profitably grow in 2004 and beyond."

Aviall will host a conference call on Tuesday, February 3, 2003, at 11 a.m. ET. The conference call can be accessed by calling (800) 857-7001 (toll-free) or (773) 756-4625 (toll) and referencing Aviall. A replay will be available until 11:59 p.m. ET on Thursday, February 12, 2003, at (800) 468-0320 (toll-free) or (402) 344-6805 (toll). The conference call is also being webcast and can be accessed at www.aviall.com under the section "Investor Relations" or at www.vcall.com. In addition, a replay will be available via audio webcast at www.aviall.com under the section "Investor Relations," or at www.vcall.com.

###

About Aviall, Inc.

Aviall, Inc. [NYSE: AVL] is a leading solutions provider of aftermarket supply-chain management services for the aviation and marine industries. As the world's largest independent provider of new aviation parts and related aftermarket services, the Aviall Services business unit markets and distributes products for approximately 215 manufacturers and offers approximately 250,000 catalog items from customer service centers located in North America, Europe, and Asia-Pacific. Aviall Services also supports a full line of aviation batteries, hoses, wheels and brakes, oxygen and paint mixing services. The Inventory Locator Service (ILS) business unit, headquartered in Memphis, Tennessee, provides information and facilitates commerce via its global electronic marketplace to enable subscribers to buy and sell commercial aviation and marine parts, equipment and services. Additional information on Aviall is available via the Internet at www.aviall.com.

Forward-Looking Statements

The statements contained in this release that are not historical facts are forward-looking statements (as such term is defined in the Private Securities Litigation Act of 1995). Actual results may differ materially from those expected in the forward-looking statements. These forward-looking statements involve risks and uncertainties, including pricing pressures, shifts in market demand, general economic conditions and other factors including, among others, those that affect flight activity in military, commercial, business and general aviation, the business activities of the Company's customers and suppliers and developments in information and communications technology.

Deemed dividend from beneficial conversion				
feature				20,533
Preferred stock dividends		1,085	2,016	4,199
Noncash reduction for conversion of preferred				
stock			24,335	
Net interest expense adjustment, net of tax		469	819	1,473

Edgar Filing: AVIALL INC - Form 8-K

Loss on extinguishment of debt, net of tax			11,385	
Pro forma net earnings from continuing operations	\$ 9,281	7,892	32,857	28,124
Pro forma diluted net earnings per share	\$ 0.28	0.25	1.02	0.89
Pro forma weighted average common and potentially dilutive common shares	32,964,481	31,603,351	32,308,786	31,450,770

The above table reflects the reconciliation of our net earnings from continuing operations for the three- and twelve-month periods ended December 31, 2003 and 2002 to our net earnings on a pro forma basis assuming the following events were consummated prior to January 1, 2002: (i) the sale of \$200 million of 7³/₈% Senior Notes due 2011 (the New Notes) and the related discharge of Aviall Services 14% Senior Notes due 2007 (the Old Notes) and reduction of the outstanding balance on Aviall Services revolving credit facility (the Debt Discharge) and (ii) the lowering of the conversion price of our Series D Senior Convertible Participating Preferred Stock (the Series D Preferred Stock) and the subsequent conversion of all of the outstanding shares of Series D Preferred Stock into 11,100,878 shares of our common stock (the Conversion Event). The pro forma earnings per share calculation excludes the effect of (i) the previously reported quarterly payment-in-kind dividends on the Series D Preferred Stock, (ii) the noncash deemed dividend resulting from the issuance of the Series D Preferred Stock, (iii) the noncash charges related to the Debt Discharge and the Conversion Event, and (iv) all adjustments required by the two-class method of reporting earnings per share that Aviall has used since December 2001. In addition, the pro forma earnings per share calculation includes an after-tax adjustment to reflect the lower interest expense of the pro forma interest expense on our New Notes as compared to the Old Notes. Management believes this pro forma presentation is beneficial to investors to provide information on how these consummated transactions would have affected the historical financial statements had they occurred at an earlier date.
