Shanghai, China April 29, 2005. Semiconductor Manufacturing International Corporation (NYSE: SMI; SEHK: 981) (SMIC or the Company), one of the leading semiconductor foundries in the world, today announced its consolidated results of operations for the three months ended March 31, 2005. Sales decreased 14.7% in the first quarter of 2005 to \$248.8 million from \$291.8 million in the prior quarter. The Company reported an increase in capacity to 131,172 8-inch equivalent wafers per month and a utilization rate of 85% in the first quarter of 2005. Gross margins were 3.4% in the first quarter of 2005 compared to 20.3% in the fourth quarter of 2004. Net loss increased to \$30.0 million in the first quarter of 2005 compared to a loss of \$11.2 million in the fourth quarter of 2004.

Our revenues were in line with expectations, down 15% in 1Q05, mainly due to industry softness and a generally tough pricing environment for foundries, said Dr. Richard Chang, President and Chief Executive Officer of SMIC. However, we are encouraged by the 11.6% increase quarter on quarter for the 0.18 micron and below technologies due in part to our successful qualification and shipment of our first customer product from Fab 4, our first 12-inch fab. With a reduction in our customers' inventory levels in the first quarter, we are beginning to see improved customer demand for the second half of the year. This trend in conjunction with the execution of our business strategy should lead to improvements in our business environment.

Sales decreased to \$248.8 million in 1Q05, down 14.7% QoQ from \$291.8 million in 4Q04 and up 33.1% YoY from \$186.9 million in 1Q04. Key factors leading to these decreases were the following:

decreased 8-inch equivalent wafer shipments to 284,912, down 6.2% QoQ from 303,796 in 4Q04; and

decreased blended ASP of \$829, down 9.6% QoQ from \$917.

Cost of sales increased to \$240.3 million in 1Q05 from \$232.7 million in 4Q04, primarily due to the increase in depreciation expenses and an inventory write-down as a result of declining estimated market value of approximately \$8.9 million in 1Q05 compared to \$3.8 million in 4Q04.

Gross profit decreased to \$8.5 million in 1Q05, down 85.6% QoQ from \$59.1 million in 4Q04 and down 85.8% YoY from \$60.2 million in 1Q04.

Gross margins decreased to 3.4% in 1Q05 from 20.3% in 4Q04, primarily due to the decrease in wafer production, the increase in depreciation expenses, and a lower blended ASP, which was the result of the DRAM pricing declines and industry softness.

R&D expenses decreased to \$17.9 million in 1Q05, down 34.6% QoQ from \$27.4 million in 4Q04, primarily due to non-recurring start up costs associated with Fab 4 (Beijing) being classified as research and development in 4Q04. Those R&D expenses have subsequently been classified in cost of sales upon commencement of Fab 4 commercial production in 1Q05.

G&A expenses decreased to \$6.6 million in 1Q05, down 74.1% QoQ from \$25.5 million in 4Q04, primarily due to foreign exchange gains of \$3.6 million in 1Q05 compared to losses of \$11.3 million in 4Q04 relating to operating activities, and decreases in legal fees and bad debt provision.

Income (loss) from operations improved to a loss of \$22.0 million in 1Q05 from a loss of \$23.4 million in 4Q04 and decreased from a gain of \$26.8 million in 1Q04.

Other non-operating income (loss) decreased to a loss of \$8.0 million in 1Q05 from gains of \$12.4 million in 4Q04, primarily due to foreign exchange losses of \$2.3 million in 1Q05 compared to gains of \$13.3 million in 4Q04 relating to non-operating activities resulting from financing or investment transactions, and the increase in interest expenses of \$3.1 million to \$7.7 million in 1Q05 from \$4.6 million in 4Q04.

Net foreign exchange gain of \$1.3 million based on foreign exchange gains of \$3.6 million in G&A and foreign exchange losses of \$2.3 million relating to non-operating activities resulting from financing or investment transactions (i.e. forward contracts) classified as other income (expenses).

Net loss of \$30.0 million compared to a loss of \$11.2 million in 4Q04 and a gain of \$27.5 million in 1Q04.
