**Table of Contents**

**Information Analysis Incorporated**

**Second Quarter 2005 Report on Form 10-QSB**

**PART I**

**Item 1. Financial Statements.**

**INFORMATION ANALYSIS INCORPORATED**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Basis of Presentation**

The accompanying consolidated financial statements have been prepared by Information Analysis Incorporated ( IAI or the Company ) pursuant to the rules and regulations of the Securities and Exchange Commission. Financial information included herein is unaudited; however, in the opinion of management, all adjustments (which include normal recurring adjustments) considered necessary for a fair presentation have been made. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations, but the Company believes that the disclosures made are adequate to make the information presented not misleading. For more complete financial information, these financial statements should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2004 included in the Company s annual report on Form 10-KSB. Results for interim periods are not necessarily indicative of the results for any other interim period or for the full fiscal year.

**2. Going Concern**

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Although the Company has an accumulated deficit of \$13,023,000, it achieved net income of approximately \$220,000 for the six months ended June 30, 2005. The Company s financial position, however, remains challenged.

The Company s credit facility expires September 16, 2005, and is payable on demand. Should the lender demand payment, or fail to renew the credit facility upon expiration, the Company may not be able to repay the credit facility or borrow sufficient funds from another financial institution to refinance it. Management expects that the credit facility will continue to be extended under its existing terms.

Management is seeking alternative financing and capital sources to replace the existing credit facility. The Company s ability to continue operations, however, is contingent upon obtaining new financing and capital, sustaining its return to profitable operations, improving its gross margins, and reducing overhead and general and administrative costs. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**3. Stock-based Compensation**

The Company has an incentive stock option plan, which became effective June 25, 1996. The plan provides for the granting of stock options to certain employees and directors. The maximum number of shares for which options may be granted under the plan is 3,075,000. Options expire no later than ten years from the date of grant or when employment ceases, whichever comes first, and vest over periods determined by the Board of Directors. The average vesting period for options granted in 2005 was eighteen months. The exercise

**Table of Contents****Information Analysis Incorporated****Second Quarter 2005 Report on Form 10-QSB****3. Stock-based Compensation (cont.)**

price of each option equals the quoted market price of the Company's stock on the date of grant. The stock option plan is accounted for under Accounting Principles Board (APB) Opinion No. 25. Accordingly, no compensation has been recognized for the plan. Had compensation cost for the plan been determined based on the estimated fair value of the options at the grant date consistent with the method of Statement of Financial Accounting Standards (SFAS) No. 123, the Company's net income and earnings per share would have been:

**4. Net Income Per Share**

Earnings per share are presented in accordance with SFAS No. 128, Earnings Per Share. This statement requires dual presentation of basic and diluted earnings per share on the face of the income statement. Basic earnings per share excludes dilution and is computed by dividing income available to common shareholders by the weighted-average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, except

Edgar Filing: INFORMATION ANALYSIS INC - Form 10QSB

for periods when the Company reports a net loss because the inclusion of such items would be antidilutive.

**Table of Contents****Information Analysis Incorporated****Second Quarter 2005 Report on Form 10-QSB****4. Net Income Per Share (cont.)**

The following is a reconciliation of the amounts used in calculating basic and diluted net income per common share.

	<b>Net Income</b>	<b>Shares</b>	<b>Per Share Amount</b>
<b>Basic net income per common share for the three months ended June 30, 2005:</b>			
Income available to common stockholders	\$ 148,194	10,290,057	\$ 0.01

Diluted net income per common share for the six months ended June 30, 2005:	\$ 227,997	11,292,107	\$ 0.02
<b>Basic net income per common share for the six months ended June 30, 2004:</b>			
Income available to common stockholders	\$ 112,348	10,283,515	\$ 0.01
Effect of dilutive stock options		143,115	
Effect of dilutive warrants		94,511	
Effect of dilutive convertible notes	7,500	500,000	
Diluted net income per common share for the six months ended June 30, 2004:	\$ 119,848	11,021,141	\$ 0.01

**Item 2. Management's Discussion and Analysis of Financial Condition or Plan of Operation****Cautionary Statement Regarding Forward-Looking Statements**

This Form 10-QSB contains forward-looking statements regarding the Company's business, customer prospects, or other factors that may affect future earnings or financial results that are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties which could cause actual results to vary materially from those expressed in the forward-looking statements. Investors should read and understand the risk factors detailed in the Company's 10-KSB for the fiscal year ended December 31, 2004 and in other filings with the Securities and Exchange Commission.

---

**Table of Contents**

**Information Analysis Incorporated**

**Second Quarter 2005 Report on Form 10-QSB**

**Three Months Ended June 30, 2005 Versus Three Months Ended June 30, 2004**

*Revenue*

Our revenues in the second quarter of 2005 were \$3,005,781, compared to \$2,157,442 in the second quarter of 2004, an increase of 39.3%. Professional services revenue was \$2,371,384 versus \$2,068,909, an increase of 14.6%, and product revenue was \$634,397 versus \$88,533, an increase of 616.6%. The increase in professional services revenue is due primarily to new contracts on which work began after the second quarter of 2004, and on expansion of existing contracts. The increase in product revenue is primarily due to a particularly large sale of Adobe products and to sales of Micro Focus products under contracts which commenced in the second quarter of 2005. Adobe and Micro Focus products, as well as the ICONS suite of conversion tools, are generally sold in conjunction with professional services over a specified contract term. We continue to have a steady pipeline of bidding opportunities for new and follow-on business. Professional services revenues are expected to maintain their current levels or to increase in the remainder of 2005, while product revenues are more often one-time purchases (which make them less consistent and less predictable).

*Gross Margins*

Gross margin was \$604,776, or 20.1% of sales, in the second quarter of 2005 versus \$424,751, or 19.7% of sales, in the second quarter of 2004. Of the \$604,776 in 2005, \$534,237 was attributable to professional services and \$70,539 was attributable to software sales. Our gross margin percentage was 22.5% for professional services and 11.1% for software sales for the second quarter of 2005. In the second quarter of 2004, we reported gross margins of 19.7% for professional services and 19.1% for software sales. The increase in professional services gross margin percentage is largely due to improved margins related to new commercial contracts and higher margins on some of our electronic forms services. Also, we achieved cost savings by replacing some of our independent contractors with employees on current contracts and by hiring employees to work on new contracts as opposed to utilizing independent contractors. The decrease in software sales gross margin percentage is due to a lack of sales of the higher-margin ICONS suite of software conversion tools in the second quarter of 2005. Since the capitalized cost of ICONS was fully amortized as of September 30, 2004, higher gross margins will be associated with the sales of ICONS than would have existed in prior periods.

*Selling, General and Administrative*

Selling, general and administrative expenses were \$451,993, or 15.0% of revenues, in the second quarter of 2005 versus \$352,404, or 16.3% of revenues, in the second quarter of 2004. The increase in these expenses is due to increased costs of local area network administration, including the upgrade of equipment and software, the declaration of a performance bonus for executive officers, an increase in recruiting fees, especially for personnel with security clearances, and increases in legal and accounting fees and staffing related to the additional requirements of the Sarbanes-Oxley Act of 2002. We continue to control expenses and reduce them wherever practical, and we believe that only marginal increases in expenses will result from increases in the number of contracts under which we operate. The total cost of additional Sarbanes-Oxley requirements has not yet been fully determined.

*Profits*

We generated income from operations of \$152,783 in the second quarter of 2005 compared to \$72,347 in the second quarter of 2004. Net income for the second quarter of 2005 was \$148,194 versus \$59,006 for the same period in 2004. The change in profitability is primarily related to increased margins on professional services sales.

---

**Table of Contents**

**Information Analysis Incorporated**

**Second Quarter 2005 Report on Form 10-QSB**

**Six Months Ended June 30, 2005 Versus Six Months Ended June 30, 2004**

*Revenue*

Our revenues in the first six months of 2005 were \$5,193,024, compared to \$4,273,843 in the first six months of 2004, an increase of 21.5%. Professional services revenue was \$4,486,479 versus \$4,059,448, an increase of 10.5%, and product revenue was \$706,545 versus \$214,395, an increase of 229.6%. The increase in professional services revenue is due primarily to new contracts on which work began after the second quarter of 2004, and on expansion of existing contracts. The increase in product revenue is primarily due to a particularly large sale of Adobe products and to sales of Micro Focus products under contracts which commenced in the second quarter of 2005. Adobe and Micro Focus products, as well as the ICONS suite of conversion tools, are generally sold in conjunction with professional services over a specified contract term. We continue to have a steady pipeline of bidding opportunities for new and follow-on business. Professional services revenues are expected to maintain their current levels or to increase in the remainder of 2005, while product revenues are more often one-time purchases (which make them less consistent and less predictable).

*Gross Margins*

Gross margin was \$1,069,056, or 20.6% of sales, in the first six months of 2005 versus \$813,734, or 19.0% of sales, in the first six months of 2004. Of the \$1,069,056 in 2005, \$967,442 was attributable to professional services and \$101,614 was attributable to software sales. Our gross margin percentage was 21.6% for professional services and 14.4% for software sales for the first six months of 2005. In 2004, we reported gross margins of 18.2% for professional services and 35.5% for software sales. The increase in professional services gross margin percentage is largely due to improved margins related to new commercial contracts and higher margins on some of our electronic forms services. Also, we achieved cost savings by replacing some of our independent contractors with employees on current contracts and by hiring employees to work on new contracts as opposed to utilizing independent contractors. The decrease in software sales gross margin percentage is due to a lack of sales of the higher-margin ICONS suite of software conversion tools in the first six months of 2005. Since the capitalized cost of ICONS was fully amortized as of September 30, 2004, higher gross margins will be associated with the sales of ICONS than would have existed in prior periods.

*Selling, General and Administrative*

Selling, general and administrative expenses were \$840,379, or 16.2% of revenues, in the first six months of 2005 versus \$680,512, or 15.9% of revenues, in 2004. The increase in these expenses is due to increased costs of local area network administration, including the upgrade of equipment and software, the declaration of a performance bonus for executive officers, an increase in recruiting fees, especially for personnel with security clearances, and increases in legal and accounting fees and staffing related to the additional requirements of the Sarbanes-Oxley Act of 2002. We continue to control expenses and reduce them wherever practical, and we believe that only marginal increases in expenses will result from increases in the number of contracts under which we operate. The total cost of additional Sarbanes-Oxley requirements has not yet been fully determined.

*Profits*

## Edgar Filing: INFORMATION ANALYSIS INC - Form 10QSB

We generated income from operations of \$228,677 in the first six months of 2005 compared to income from operations of \$133,222 in the same period in 2004. Net income for the first six months 2005 was \$220,497 versus \$112,348 for 2004. The increase in profitability is primarily related to increased margins on professional services sales.

**Information Analysis Incorporated**

Second Quarter 2005 Report on Form 10-QSB

**Business Strategy**

We continue to pursue merger and acquisition opportunities as a strategy for growth.

**Liquidity and Capital Resources**

Through the first six months of 2005, we financed operations from current collections and through our bank line of credit. Cash and cash equivalents at June 30, 2005 were \$80,914 compared to \$115,917 at December 31, 2004.

We have a revolving line of credit with a bank providing for demand or short-term borrowings of up to \$500,000. The line of credit is callable on demand, and next expires on September 16, 2005. We believe the line of credit will be renewed at substantially equivalent terms. As of June 30, 2005, we had \$33,969 outstanding on our line of credit versus an outstanding balance of \$219,650 at December 31, 2004. We believe that our profitability will continue through the remainder of 2005 and that cash flows from collections, coupled with funds drawn from our line of credit, should enable us to continue to finance our operations.

We have outstanding convertible notes in the amount of \$125,000. These notes originally came due on September 30, 2004. All of the note holders offered, and we accepted, a one-year extension of the maturity of the notes. We believe that we will be able to retire the notes on the due date of September 30, 2005, if the conversion privilege has not yet been exercised.

We are in negotiations with various organizations to obtain a new line of credit. The current line of credit, or a similar new credit facility, when coupled with funds generated from operations, assuming the operations are cash flow positive, should be sufficient to meet our operating cash requirements. We may periodically be required to delay timely payments of our accounts payable. Cash flow from operations may not be sufficient to provide additional working capital necessary to repay certain past due payables.

We have no material commitments for capital expenditures.

**Item 3. Controls and Procedures**

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, with the participation of the Company's management, the Company's principal executive officer and principal financial officer conducted an evaluation (as required by paragraph (b) of Rule 13a-15 or Rule 15d-15 under the Exchange Act) of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) Changes in Internal Control over Financial Reporting. There have been no significant changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 under the Exchange Act that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting. There have been no significant changes subsequent to the date of the evaluation, nor were there any significant deficiencies or material weaknesses in the Company's internal controls. Accordingly, no corrective actions were required or undertaken.
