PROXY STATEMENT

General

This proxy statement, the accompanying Notice of Annual Meeting of Stockholders and the enclosed proxy card are first being mailed to the stockholders of Seitel, Inc., a Delaware corporation (the "Company"), commencing on or about April 10, 2006, in connection with the solicitation by the board of directors of the Company (the "Board of Directors" or the "Board") of proxies to be voted at the Annual Meeting of Stockholders to be held in the St. Regis Hotel located at 1919 Briar Oaks Lane, Houston, Texas 77027, on Monday, May 15, 2006, at 8:30 a.m., Houston time and at any adjournment or postponement thereof (the "Meeting"), for the purposes set forth in the accompanying notice.

Voting at the Meeting; Record Date

Each share of the Company's common stock entitles the holder to one vote on all matters presented at the Meeting. Stockholders may attend the Meeting and vote in person, or they may vote by proxy as described below. Additionally, you may vote over the Internet or by telephone by following the instructions on the enclosed proxy card. As of April 3, 2006, the record date for the determination of stockholders entitled to vote at the Meeting (the "Record Date"), there were outstanding and entitled to vote 154,860,525 shares of the Company's common stock, par value \$.01 per share. The common stock is the Company's only class of voting securities outstanding.

Stockholders have cumulative voting rights in the election of directors. Stockholders are entitled to as many votes as equals the number of votes which such stockholder would be entitled to cast for the election of directors with respect to their shares of the Company's common stock, multiplied by the number of directors to be elected. Stockholders may cast all of their votes for a single director or may distribute their votes among the number of directors to be voted for, or for any two or more of them, as such stockholder may see fit. For example, because three directors are to be elected, a stockholder owning ten shares may cast 30 votes for one nominee, 10 votes for each of the nominees or allocate the 30 votes among each nominee, in any manner. If necessary, the persons designated as proxies will exercise their cumulative voting rights to elect the nominees as Class II directors of the Company.

Quorum Requirement

Holders of a majority of the outstanding shares of the Company's common stock must be present, in person or by proxy, to constitute a quorum for the transaction of business. Stockholders who are present at the Meeting in person or by proxy and who abstain, and proxies relating to shares held in "street name" that are marked as "not voted" will be treated as present for purposes of determining whether a quorum is present.

If a quorum is not obtained, the Meeting may be adjourned for the purpose of obtaining additional proxies or votes or for any other purpose. At any subsequent reconvening of the Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the original convening of the Meeting, except for any proxies which have theretofore been revoked.

Use of Proxies; Revocability of Proxies; Required Vote

Proxies will be voted in accordance with the directions specified thereon and otherwise in accordance with the judgment of the persons designated as proxies. Votes will be tabulated and the results will be certified by an election inspector who is required to resolve impartially any interpretive questions as to the conduct of the vote.

A stockholder may revoke a proxy by delivering to the Company written notice of revocation; delivering to the Company a signed proxy of a later date; or appearing at the Meeting and voting in person.

The nominees for election as Class II Directors will be elected by the affirmative vote of the greatest number of votes cast, a plurality, at the Meeting for the election of directors. Proxies that are marked `abstain` and proxies relating to `street name` shares that are returned to the Company but marked by brokers as `not voted` will have no effect on the election of directors.

PROPOSAL 1

ELECTION OF CLASS II DIRECTORS

In accordance with the Company's amended and restated by-laws (the "Bylaws"), members of the Board of Directors are divided into three classes. Class I consists of three directors who will serve for a term expiring at the Company's annual meeting of stockholders in 2007, Class II consists of three directors who will serve for a term expiring at the Meeting and Class III consists of three directors who will serve for a term expiring at the Company's annual meeting of stockholders in 2008. Each class of directors standing for election upon the expiration of its term will be elected for successive terms of three years.

Mr. Spivy was elected by the directors on March 1, 2006, to fill a vacancy on the Board.

If any nominee should become unavailable for election, the shares will be voted for such substitute nominee as may be proposed by the Board of Directors, or the size of the Board may be reduced. No circumstances are now known, however, that would prevent any of the nominees from serving.

All of the members of the Audit Committee are independent within the meaning of applicable rules of the NASD and SEC, and Mr. Golding qualifies as an audit committee financial expert, within the meaning of Regulation S-K promulgated by the SEC.

The Audit Committee assists the Board in monitoring the integrity of the Company's consolidated financial statements. Additionally, the Audit Committee has sole responsibility and authority for the appointment, compensation, retention and oversight of the independent auditors, and evaluates the independence of the independent accountants. The Audit Committee reviews the scope and results of the audit engagement with the independent auditors; reviews and discusses with management and the independent auditors, the financial statements and other financial disclosures in the Company's reports to the SEC; and pre-approves any audit and non-audit services to be performed by the independent auditors. The Audit Committee also monitors and oversees the Company's accounting, auditing, and financial reporting processes; the adequacy of its system of internal accounting and financial controls; and compliance with applicable laws and with the Company's Code of Ethics and Business Conduct. The Audit Committee may hire independent counsel and other advisors, if it deems it necessary. The Audit Committee also has the responsibility to establish procedures for complaints from Company employees regarding accounting, internal accounting controls or auditing. Finally, the Audit Committee reviews on an ongoing basis all related party transactions for potential conflict of interest situations.

Compensation Committee

The Compensation Committee members are Messrs. Black, Flannery, Holmes and Spivy. Each of the members of the Compensation Committee is independent within the meaning of applicable rules of the NASD. The Compensation Committee is responsible for evaluating the performance of, and determining salaries and other compensation arrangements for executive officers of the Company; reviewing employee compensation policies, plans and programs prepared by management, as well as administering and making awards under the Company's compensation plans; and monitoring and making recommendations to the Board with respect to such compensation plans.

Corporate Governance and Nominating Committee

The Nominating Committee members are Messrs. Flannery, Holmes, Mouquin and Kamin. Each of the members of the Nominating Committee is considered independent within the meaning of applicable rules of the NASD. The Nominating Committee evaluates candidates for membership on the Board and makes recommendations to the Board regarding candidates; makes recommendations with respect to the composition of the Board and the committees thereof; oversees management continuity planning processes; recommends corporate governance principles applicable to the Company; and oversees the annual evaluation of the performance of the Board and each Committee.

Identifying Candidates

The Nominating Committee's methods for identifying candidates for election to the Board (other than those proposed by the Company's stockholders, as discussed below) include the solicitation of ideas for possible candidates from a number of sources, such as members of the Board, the Company's management and individuals personally known to the members of the Board. In evaluating candidates for membership on the Board, the Nominating Committee considers several criteria, including personal qualities and characteristics, accomplishments and reputation in the business community; current knowledge and contacts in the communities in which the Company does business and in the Company's industry or other industries relevant to the Company's business; ability and willingness to commit adequate time to Board and committee matters; the fit of the individual's skills and personality with those of other directors and potential directors in building a Board that is effective, collegial and responsive to the needs of the Company; and diversity of viewpoints, background, experience and other demographics.

The Nominating Committee has no specific, minimum qualifications for director candidates. To comply with the Company's certificate of incorporation, a majority of Board members must qualify as independent members and at least one Board member must qualify as an expert in financial matters within the meaning of the rules of the NASD. The Nominating Committee will consider all candidates identified through the processes described in this proxy statement, and will evaluate each of them, including incumbents, based on the same criteria.

Stockholder Recommendations

It is the policy of the Nominating Committee that any stockholder may recommend to the Nominating Committee persons (the Designees) for election to the Board of Directors. In connection with the annual election of directors in 2005, 2006 and 2007, if a stockholder holds in excess of ten percent of the Company's outstanding common stock, that stockholder is entitled to recommend up to three Designees depending on the stockholder's percentage ownership. Subject to the Nominating Committee's evaluation, it will recommend to the full Board of Directors such Designees for annual election, as follows:

Recommending Stockholder's

Percentage Ownership of Outstanding Common Stock	Number of Designee(s) ⁽¹⁾
30% or more	up to three
more than 20%	up to two
more than 10%	one

(1) Subject to reduction to reflect the members of the Board, if any, previously designated by such stockholder and still serving on the Board. Any stockholder wishing to recommend a candidate for director should submit the recommendation in writing to the Secretary of the Company no later than 120 days prior to the date the proxy statement was mailed for the prior year's annual meeting of stockholders and comply with the procedures set forth in Section 3.3 of the Company's Bylaws. In general, the written notice should include the name and address of the stockholder recommending the candidate, a representation as to whether or not such stockholder has solicited or intends to solicit proxies in support of the candidate, a description of all arrangements or understandings (if any) between the stockholder and the individual being recommended as a potential director, such information about the individual being recommended as would be required to be included in a proxy statement filed under then-current rules of the SEC, and the candidate's written consent to be named as a nominee and to serve as a director of the Company. The Nominating Committee will consider all candidates recommended by any stockholder who complies with these procedures.

Director Attendance at Annual Meeting

The Board's policy regarding director attendance at annual meetings of stockholders is that they are welcome to attend, and that the Company will make all appropriate arrangements for directors who choose to attend. All of the directors then serving on the Board attended the 2005 Annual Meeting of Stockholders and it is anticipated that all of the current directors will attend the Meeting.

Communicating with the Board of Directors

Westview Circle Drive, Building C, Suite 100, Houston, Texas 77043, Attention: Secretary. Employment Agreements

Robert D. Monson

On December 15, 2004, the Company entered into an employment agreement with Robert D. Monson, as the Company's president and chief executive officer for an initial term of two years with an automatic annual extension unless either party gives notice of an election not to extend the term. This agreement was amended and restated on March 22, 2005 and October 19, 2005. The agreement provides that Mr. Monson shall be paid an initial annual base salary of \$400,000, subject to increase by the Board or Compensation Committee, and, beginning in calendar year 2005, an annual cash bonus of up to 180% of his base salary under the Company's annual incentive plan, which is subject to the goals, terms and conditions established by the Board or the Compensation Committee.

Edgar Filing: SEITEL INC - Form DEF 14A

Beginning in 2005, Mr. Monson shall receive annual awards of stock options or other equity-based compensation under the Seitel, Inc. 2004 Stock Option Plan (the "Stock Option Plan") in an amount equal to 90% of his base salary. Additionally, if Mr. Monson meets the goals, terms and conditions to receive a cash bonus, he shall receive an additional award of stock options or other equity-based awards for such calendar year (to be issued under the Stock Option Plan) in an amount equal to 90% of the cash bonus. For calendar year 2005, Mr. Monson's equity based awards totaled 796,335 shares of restricted stock of which 316,000 restricted shares were issued in 2004 as a prepayment (discussed below) and 480,335 restricted shares were issued in 2006.

As contemplated in his agreement, on December 15, 2004, Mr. Monson was granted 1,000,000 shares of the Company's common stock as restricted stock (the "Restricted Stock Grant") under the Stock Option Plan. One-third of the Restricted Stock Grant vested on December 15, 2005, 66.6% will be vested on December 15, 2006, and 100%

will be vested on December 15, 2007. A portion of the Restricted Stock Grant represented Mr. Monson's 2004 equity-based award (684,000 shares). The remaining portion of the Restricted Stock Grant was a prepayment of his 2005 equity-based compensation award (316,000 shares) and reduced his 2005 award.

Upon termination by the Company without cause (as defined in his agreement), or resignation by Mr. Monson for good reason (as defined in his agreement) prior to a change in control, he will receive 3.8 times his base salary payable in a lump sum. If Mr. Monson is terminated on account of disability, the amount of his base salary and cash target bonus that would have been payable through the earlier of the end of the term of employment under his agreement or one year, reduced by any disability insurance payments payable from a Company sponsored plan will be payable in a lump sum. If the Company elects not to extend the term of Mr. Monson's agreement, he will receive 1.9 times his base salary payable in a lump sum. In the event Mr. Monson's employment is terminated without cause, voluntarily or involuntarily, after a change in control, he will receive 5.7 times his base salary payable in a lump sum. If Mr. Monson terminates for any reason other than for cause or voluntary resignation (except for voluntary resignation following a change in control), he will receive his unpaid cash bonus, if any, earned and accrued with respect to the preceding year. Under Mr. Monson's restricted stock agreements, his restricted stock shall be 100% vested upon his death or disability, his resignation for good reason, the Company's election not to extend the agreement's term or to terminate him without cause, and on the date preceding a change of control.

If Mr. Monson receives an excess parachute payment as defined in Section 280G of the Internal Revenue Code of 1986, as amended (the "Code"), which is subject to excise taxes, the Company will reimburse all such excise taxes payable by him plus all additional excise taxes and income taxes related to the reimbursement.

For purposes of Messrs. Monson, Callaghan and Restrepo's agreements, a "change in control" includes: (i) the acquisition by any person, other than the Company or its affiliates, of 50% or more of the combined voting power of the Company; (ii) the replacement of a majority of the directors under certain circumstances during a two-year period; and (iii) the consummation of certain mergers or approval of a plan for the sale or disposition of substantially all of the assets of the Company.

Kevin P. Callaghan

On March 24, 2005, the Company entered into an employment agreement with Kevin P. Callaghan as the Company's chief operating officer for an initial term of two years with an automatic annual extension unless either party gives notice of an election not to extend the term. The agreement was amended and restated on October 19, 2005. The agreement provides that Mr. Callaghan shall be paid an initial annual base salary of \$330,000, subject to increase by the Board or Compensation Committee, and an annual cash bonus up to 120% of his base salary under the Company's annual incentive plan, which is subject to the goals and terms and conditions established by the Board or the Compensation Committee.

Mr. Callaghan shall receive annual awards of stock options or other equity-based compensation under the Stock Option Plan in an amount equal to 60% of his base salary. Notwithstanding this provision, for calendar year 2005, Mr. Callaghan's equity-based award was set at an amount equal to 160,000 shares of the Company's common stock as restricted stock under the Stock Option Plan (the "Restricted Stock"). Additionally, if Mr. Callaghan meets the goals, terms and conditions to receive a cash bonus, he shall receive an additional award of stock options or other equity-based awards for such calendar year (to be issued under the Stock Option Plan) in an amount equal to 60% of the cash bonus. The Company granted the Restricted Stock on March 24, 2005. The Restricted Stock vested as to 33.3% of such shares on March 24, 2006, an additional 33.3% of such shares shall vest on March 24, 2007, and Mr. Callaghan shall be 100% vested in such shares on March 24, 2008.

Upon termination by the Company without cause (as defined in his agreement), or resignation by Mr. Callaghan for good reason (as defined in his agreement) prior to a change in control, he will receive two times his annual base salary payable in a lump sum. If Mr. Callaghan is terminated on account of disability, the amount of his base salary and cash bonus that would have been payable through the earlier of the end of the term

of employment under his agreement or one year, reduced by any disability insurance payments payable from a Company sponsored plan will be payable in a lump sum. If the Company elects not to extend the term of Mr. Callaghan's agreement, he will receive one times his base salary payable in a lump sum. In the event Mr. Callaghan's employment is terminated without cause, voluntarily or involuntarily, after a change in control, he will receive two times his base salary payable in a lump sum. If Mr. Callaghan terminates for any reason other than for cause or voluntary resignation (except for voluntary resignation following a change in control), he will receive his unpaid cash bonus, if any, earned and accrued with respect to the preceding year. Under Mr. Callaghan's restricted stock agreements, his restricted stock shall be 100% vested upon his death or disability, his resignation for good reason, the Company's election not to extend the agreement's term or to terminate him without cause, and on the date immediately preceding a change in control.

Mr. Callaghan's payments and continuation of benefits are subject to reduction if all or any portion of the amount of any payment or continuation of benefits would not be deductible for federal income tax purposes by the Company under Section 280G and related regulations of the Code.

William J. Restrepo

On July 25, 2005, the Company entered into an employment agreement with William J. Restrepo as the Company's chief financial officer for an initial term of two years with an automatic annual extension unless either party gives notice of an election not to extend the term. The agreement was amended and restated on October 19, 2005. The agreement provides that Mr. Restrepo shall be paid an initial annual base salary of \$240,000, subject to increase by the Board or Compensation Committee, and an annual cash bonus up to 100% of his base salary under the Company's annual incentive plan, which is subject to the goals and terms and conditions established by the Board or the Compensation Committee.

As an inducement to join the Company, Mr. Restrepo was granted 90,000 shares of restricted stock (the "Inducement Restricted Stock") on July 25, 2005. The Inducement Restricted Stock vests as to 33.3% of such shares on July 25, 2006, an additional 33.3% of such shares on July 25, 2007, and Mr. Restrepo shall be 100% vested in such shares on July 25, 2008.

Mr. Restrepo shall receive annual awards of stock options or other equity-based compensation under the Stock Option Plan in an amount equal to 50% of his base salary. Additionally, if Mr. Restrepo meets the goals, terms and conditions to receive a cash bonus, he shall receive an additional award of stock options or other equity-based awards for such calendar year (to be issued under the Stock Option Plan) in an amount equal to 50% of the cash bonus.

Upon termination by the Company without cause (as defined in his agreement), or resignation by Mr. Restrepo for good reason (as defined in his agreement) prior to a change in control, he will receive two times his annual base salary payable in a lump sum. If Mr. Restrepo is terminated on account of disability, the amount of his base salary and cash bonus that would have been payable through the earlier of the end of the term of employment under his agreement or one year, reduced by any disability insurance payments payable from a Company sponsored plan will be payable in a lump sum. If the Company elects not to extend the term of Mr. Restrepo's agreement, he will receive one times his base salary payable in a lump sum. In the event Mr. Restrepo's employment is terminated without cause, voluntarily or involuntarily, after a change in control, he will receive two times his base salary payable in a lump sum. If Mr. Restrepo terminates for any reason other than for cause or voluntary resignation (except for voluntary resignation following a change in control), he will receive his unpaid cash bonus, if any, earned and accrued with respect to the preceding year. Under Mr. Restrepo's restricted stock agreements, his restricted stock shall be 100% vested upon his death or disability, his resignation for good reason, the Company's election not to extend the agreement's term or to terminate him without cause, and on the date immediately preceding a change in control.

Mr. Restrepo's payments and continuation of benefits are subject to reduction if all or any portion of the amount of any payment or continuation of benefits would not be deductible for federal income tax purposes by the Company under Section 280G and related regulations of the Code.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") administers the Company's compensation program for its executive officers. The Company's executive officers are those persons whose job responsibilities include policy-making authority for the Company. The Committee's role is to oversee the Company's compensation plans and policies, evaluate the performance of and determine salaries and all other compensation for executive officers, and administer the Company's equity incentive plans. The Committee's charter reflects these various responsibilities, and is available on the Company's website at www.seitel-inc.com.

The Committee's general philosophy is that executive compensation should attract and retain the most highly qualified executives and provide incentives to create stockholder value. Executive compensation is calculated to provide both significant risk and opportunity for reward based on Company performance. The Committee believes that total cash compensation should vary with the Company's performance in achieving financial objectives, and that incentive equity compensation should be closely aligned with the stockholders' interests.

Determining Executive Compensation

The Committee's review of the Company's executive compensation includes an analysis, for each of the Company's executives, of all elements of compensation consisting of base salary, performance based cash bonuses and equity awards, and health and welfare benefits. Based on a survey completed in late 2004 and assessment of compensation programs and levels for the executive officers, the Committee adopted an executive incentive plan that includes the payment of performance based cash bonuses and equity awards under the 2004 Stock Option Plan. This plan was implemented in 2005 and, based on the Committee's follow up assessment, the incentive plan will continue without material change in 2006.

The incentive plan provides for a cash bonus for each executive based on a percentage of the executive's base salary, with the opportunity to earn 0% to 200% of the target cash bonus depending on the Company's financial performance. The cash bonuses are subject to increase or decrease up to 50% in the discretion of the Committee. Cash margin, net of interest expense (80% weight) and client pre-funding percentage (20% weight) are the financial performance measures under the incentive plan (the "Financial Performance Measurements"). The 2005 cash bonus targets, as a percentage of base salary, for the Company's executive officers were 90% for Mr. Monson, 60% for Messrs. Callaghan and Simon, 50% for Mr. Restrepo, 45% for Mr. Smith and 25% for Ms. Kendrick. The incentive plan includes two categories of equity awards. The first category is a guaranteed award ("Key Executive Award(s)"). In 2005, Messrs. Monson, Callaghan, Simon, and Restrepo, and Ms. Kendrick received Key Executive Awards, which were made in shares of restricted stock valued at the executive's target percentage multiplied by the executive's base salary. All executive officers earned the second category of equity awards ("Performance Equity Awards"), which were made in shares of restricted stock, except for Mr. Smith who received 40% of his Performance Equity Award in unrestricted shares of common stock and 60% in restricted stock. The 2005 Performance Equity Awards are made in a dollar amount equal to the executive's achieved target percentage multiplied by the executive's cash bonus amount. The Performance Equity Awards are subject to increase or decrease of up to 50% in the discretion of the Committee.

Base salary and Key Executive Awards are the fixed portion of executive compensation. Salary levels reflect a combination of factors including competitive pay levels, the executive's experience, and the Company's overall annual budget for merit increases, as well as the executive's individual performance. The Key Executive Awards of restricted stock vest 33% each year over a three year period.

Cash bonuses and Performance Equity Awards reward the executives for the Company's achievement of the Financial Performance Measurement goals established by the Committee. Each executive officer may achieve a bonus equal to the target percentage of their base salary if the goals are met. This percentage generally increases with the executive's level of responsibility. The incentive plan allows for a doubling of the bonus if the maximum target levels are achieved.

Upon evaluation of 2005 performance against the Financial Performance Measurement Goals established in early 2005, the Committee exercised its discretion to increase performance-based payments ten percent above

what would have resulted from the incentive plan formulas. The increase was based on the Company significantly exceeding the maximum goal levels for cash margin. In addition, the Committee increased base salaries by 5% for the executive officers, effective January 1, 2006.

Like all other full-time employees, other elements of executive compensation in 2005 included health, life and disability insurance, and participation in the Company's 401(k) Plan. These elements remained unchanged when compared to 2004.

Discretionary Restricted Stock Awards

In addition to the executive incentive plan described above, the Committee may grant discretionary restricted stock awards to executive officers. The Committee determines, based in part on the recommendation of the CEO (other than with respect to the CEO), the amount of restricted stock to be granted. The Committee's determination of restricted stock awards in 2005, took into consideration past grants to executive officers, compensation level, contributions to the Company during the year, and potential for contributions in the future. In 2005, discretionary restricted stock awards were granted to Kevin Callaghan, William Restrepo, Robert Simon, Marcia Kendrick and Garis Smith in share amounts of 280,000, 120,000, 195,000, 120,000 and 146,000, respectively. Mr. Smith was granted 32,000 shares of common stock of the Company in 2005 in addition to the restricted shares of stock he was granted.

Chief Executive Officer Compensation

On December 15, 2004, Mr. Monson was appointed president and chief executive officer and entered into an employment agreement with the Company. Under the terms of that employment agreement, his 2005 base salary was \$400,000, and has been increased to \$420,000 for 2006. In 2005, under the executive incentive plan, Mr. Monson earned a cash bonus of \$792,000 and a Performance Equity Award of 459,870 shares of restricted stock based on the Company exceeding maximum performance goals as described above (see - Determining Executive Compensation), and his Key Executive Award was 336,465 shares of restricted stock, 316,000 of which were prepaid in 2004.

In determining Mr. Monson's compensation as president and chief executive officer, the Committee considered national surveys, a survey of other companies in the oil field service sector of generally comparable size to the Company (the Compensation Peer Group), and performance judgments as to the past and expected future contributions of Mr. Monson. The Committee believes his total compensation is comparable to executives of similar status in the Compensation Peer Group and is targeted to be in the mid-range of the marketplace. The Committee's conclusion is that, in the aggregate, Mr. Monson's total compensation, mix of components, and payouts under potential severance and change-in-control scenarios is reasonable and not excessive.

Compensation Deductibility Policy

Under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), and applicable Treasury regulations, no tax deduction is allowed for compensation paid during a taxable year in excess of \$1 million paid to the named executive officers. There are exceptions to this limitation in the context of performance-based compensation; however, it may not be possible in all cases to satisfy the requirements of the exceptions. The Committee will comply with the provisions of Code Section 162(m), when doing so is compatible with its determinations as to the most appropriate methods and approaches for the design and delivery of compensation to executive officers of the Company. In 2005, approximately \$900,000 of Mr. Monson's total compensation was not deductible under Code Section 162(m).

Management is responsible for the Company's financial reporting process and systems of internal controls. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon as to whether those financial statements are, in all material respects, presented fairly in conformity with accounting principles generally accepted in the United States of America. The Audit Committee monitors and oversees these processes and the engagement, independence and performance of the Company's independent auditor. The Audit Committee is not professionally engaged in the practice of accounting or auditing and, accordingly, relies, without independent verification, on the information provided to it and on the representations made by management and the independent accountants. The Audit Committee's specific responsibilities are set forth in the Audit Committee Charter available on the Company's website at www.seitel-inc.com.

The Audit Committee has met with the Company's independent accountants, BKD LLP, and discussed the overall scope and plans for their audit. The Audit Committee has also met with the independent accountants, with and without management present, to discuss the results of their examinations. The Audit Committee also discussed with the independent accountants matters required to be discussed with audit committees under generally accepted auditing standards, including, among other things, matters related to the conduct of the audit of the Company's consolidated financial statements and the matters required to be discussed by Statement on Auditing Standards No. 61, as amended.

The independent accountants also provided to the Audit Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1, and the Audit Committee discussed with the independent accountants their independence from the Company.

The Audit Committee has reviewed and discussed the audited consolidated financial statements for the fiscal year ended December 31, 2005, with management and the independent accountants. Based on review of the audited consolidated financial statements and the meetings and discussions with management and the independent accountants, and subject to the limitations on the Audit Committee's role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board of Directors that the Company's audited consolidated financial statements be included in the Company's Annual Report on Form 10-K filed with the SEC.

PRINCIPAL ACCOUNTANT FEES AND SERVICES

BKD, LLP served as the principal accountant of the Company during fiscal year 2005. Although the Company anticipates that its relationship with BKD, LLP will continue during the fiscal year 2006, it is not proposed that any formal action be taken at the Meeting with respect to the continued employment of BKD, LLP, because no such action is legally required. Representatives of BKD, LLP plan to attend the Meeting and will be available to answer appropriate questions and will have an opportunity to make a statement if they so desire, although it is not expected that any statement will be made.

The Audit Committee has adopted a policy regarding the pre-approval of audit and permitted non-audit services to be performed by the Company's independent registered public accounting firm. The Audit Committee will, on an annual basis, consider and approve the provision of audit and non-audit services by BKD, LLP. Thereafter, the Audit Committee will, as necessary, consider and, if appropriate, approve the provision of additional audit and non-audit services which are not encompassed by the Audit Committee's annual pre-approval and are not prohibited by law. The Audit Committee may delegate the authority to pre-approve, on a case-by-case basis, non-audit services to be performed by BKD which are not encompassed by the Audit Committee's pre-approval and not prohibited by law. In addition to solicitations by mail, a number of regular employees of the Company may, if necessary to assure the presence of a quorum, solicit proxies in person or by telephone, for which they will receive no additional compensation. Brokerage houses, banks and other custodians, nominees and fiduciaries will be reimbursed for their customary out-of-pocket and reasonable expenses incurred in forwarding proxy materials to beneficial owners.
