Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the Quaker Chemical Corporation Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Quaker Chemical Corporation Retirement Savings Plan (the Plan) as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Quaker Chemical Corporation Retirement Savings Plan as of December 31, 2005 and 2004, and the changes in its net assets available for benefits for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. In our opinion, the related supplemental schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Notes to Financial Statements

NOTE 1 DESCRIPTION OF PLAN

The following description of the Quaker Chemical Corporation Retirement Savings Plan (the Plan) provides only general information. The Plan document is a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for certain U.S. employees of the Quaker Chemical Corporation (the Company) and adopting affiliates. The Plan is administered by the Pension Committee appointed by the Company's Board of Directors, and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Employees of the Company are eligible to participate in the Plan on their first day of employment or as soon as administratively practicable thereafter, unless specified differently in any bargaining unit agreement. Employees designated as AC Products, Inc. (AC) participants are eligible to participate in the Plan on the first day of the month coincident with or next following the employee's completion of one year of service.

Contributions

Participants may elect to contribute on a before-tax basis any whole percentage of their compensation, up to 50%, during the year, not to exceed the annual Internal Revenue Code limits. The Company matches 50% of each participant's contribution up to 6% of compensation, except for those participants designated by the Company as AC participants. The first 50% of the match can be allocated by each participant to any investment options available in the Plan. The second 50% of the Company match will be allocated to the Quaker Chemical Corporation Stock Fund (the Company Stock Fund); and upon reaching age 50, participants may reallocate the second 50% to other available investments options within the Plan.

The Company's Board of Directors (AC's Board of Directors with respect to AC participants) reserves the right to make future discretionary contributions, which would be allocated on the basis of eligible participants' base compensation. Upon completing 1 year of service, each participant shall be eligible to receive discretionary contributions on the first day of the month coinciding with or next following the date on which the participant meets the 1 year of service requirement.

Participants who are eligible to make contributions and who have or will attain age 50 before the end of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of the Internal Revenue Code Section 414(v). No Company matching contributions shall be made with respect to catch-up contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) Plan earnings.

Participant Loans

Participants may borrow from their fund accounts (other than amounts invested in the Company Stock Fund) an amount limited to the lesser of \$50,000 or 50% of the participant's vested account balance. The loans bear interest at a rate equal to the prevailing rate of interest charged for similar loans by lending institutions in the community plus 1%. The term of each participant loan generally may not exceed five years. Interest rates at December 31, 2005 range from 5.00% to 9.00%.

Payment of Benefits

Generally, upon separation of service, for any reason, a participant may receive a lump sum amount equal to the value of the participant's account. If a participant's vested account balance exceeds \$1,000, the participant may defer payment until the first of the month coincident with or next following attainment of age 65.

Hardship Withdrawals

Participants who receive a hardship withdrawal from their account will not be eligible to make contributions for 6 months following the receipt of the hardship withdrawal.

Vesting

Participants are fully vested in all Company and employee voluntary contributions plus actual earnings upon entering the Plan.

Forfeitures

As of the last day of each Plan year, any forfeited amounts shall, in the discretion of the Company, be used to reduce future Company matching contributions or pay any administrative expenses of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall remain 100% vested in their employer contributions.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of the Retirement Savings Trust are valued at net asset value at year-end. The Company Stock Fund is valued at its year-end unit closing price (comprised of year-end market price plus uninvested cash position). Equities are valued at last quoted sales price as of the close of trading at year-end; such securities not traded on the year-end date are valued at the last quoted bid prices. Fixed income securities are valued using the last quoted bid price. Participant loans are valued at cost which approximates fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Payment of Benefits

Benefits are recorded when paid.
