From the President

We are pleased to bring you the Interim Business Report for our 88th fiscal year, which ends on March 31, 2007.

The economic environment was strong during the interim period from April 1, 2006 to September 30, 2006, and we achieved consolidated net income of ¥159.2 billion and non-consolidated net income of ¥74.9 billion. Both these results are considerably higher than the previous interim period. Commensurate with this outcome, we have revised our full-year forecast for consolidated net income upwards to ¥300.0 billion.

The interim dividend for the interim period has been increased to ¥17 per share, ¥7 per share higher than for the previous interim period. Moreover, based on our dividend policy of targeting a consolidated payout ratio of 20% and assuming we achieve the above-mentioned consolidated net income target for the year of ¥300.0 billion, we plan to increase the total dividend for the full year to ¥34 per share, compared to the ¥24 per share paid for the year ended March 2006.

In May of this year we announced Medium-Term Management Outlook, our corporate vision 3 to 5 years ahead and key strategy to realize it. Based on the ideas outlined in this document, we will continue to pursue the sustainable development of Mitsui and make every effort to increase corporate value.

We look forward to your continued support.

Shoei Utsuda

President and Chief Executive Officer

INTERIM BUSINESS REPORT

(April 1, 2006 to September 30, 2006)

OPERATING ENVIRONMENT

THE GLOBAL ECONOMY

An overview of our operating environment in the six-month period ended September 30, 2006 is as follows. The global economy continued its expansion, driven by the steady growth by the U.S. economy, the high growth rate of China and other emerging economies, the recovery of Europe, and the good performance of Japanese economy. In the United States, corporate profits remained robust and consumer spending continued to increase, and despite an easing in housing investment, which had been overheating, the economy performed steadily overall. China and other emerging economies continued to keep high growth, driven by further expansions in capital investment and increases in exports. The European economy demonstrated a clear recovery, supported by greater capital investment, particularly in Germany, and other factors.

The synchronized growth of the global economy made for an upward trend in international commodity markets such as crude oil, non-ferrous metals. Commodity prices reached record-high levels in the summer, and despite falling thereafter, remain at high levels. The global trend towards higher interest rates continued, and in the United States, the policy of raising interest rates that began in 2004 continued during the first half of this fiscal year, while Europe and Japan also raised interest rates.

THE JAPANESE ECONOMY

The Japanese economy continued its recovery. Exports continued to increase, driven by the global economic expansion and the weakening yen. Strong corporate sector profits led to increased capital investment particularly in the digital home appliance field, while improvements in employment and wages led to firmer consumer spending. Because of the economic recovery and the turn of the Consumer Price Index into positive territory, the Bank of Japan decided to terminate its quantitative easing policy this March, and subsequently ended its zero interest rate policy this July.

Table of Contents

MEDIUM-TERM MANAGEMENT OUTLOOK AND BUSINESS RESULTS

The key elements of Mitsui's new Medium-Term Management Outlook, announced in May 2006, are as follows:

Building a business portfolio that meets the needs of customers and of society.

Leveraging business engineering capabilities across Mitsui and its group companies (subsidiaries and associated companies) and optimizing resource allocation.

Prioritizing the development of human resources. In this respect we intend to build on our existing values of *challenge and creativity* and *freedom and open-mindedness* with additional emphasis on *fairness, humility and compliance*. We intend to form and foster a diverse pool of capable personnel.

1 CORPORATE VISION 3 5 YEARS AHEAD QUANTITATIVE SUMMARY

Looking ahead three to five years, risks in the operating environment include political, economic and environmental risks. Notwithstanding these risks, we believe that the currently favorable operating environment with simultaneous growth in different regions of the world, and strong upstream markets for mineral resources, energy and materials is likely to continue. Based on this assumption, we envisage achieving the parameters over the next three to five years as illustrated in the chart on the right.

2 PROGRESS ON KEY INITIATIVES IN THE MEDIUM-TERM MANAGEMENT OUTLOOK AND KEY ISSUES TO ADDRESS

1. DEVELOPMENT OF STRATEGIC BUSINESS PORTFOLIO

1. Investment plan

The Medium-Term Management Outlook intends to make investments around ¥800.0 billion over the two years to March 31, 2008. In the six-month period ended September 30, 2006, we have made investments of ¥230.0 billion.

Table of Contents**MINERAL RESOURCES AND ENERGY**

In the Mineral Resources and Energy area, based on the Medium-Term Management Outlook (as shown on the right), we continued to make investments aimed at increasing our equity production volumes.

| | March | March | March | |
|-----------------------------------|-------------|-------------|-------------|----------------------|
| Our equity share of output | 2005 | 2006 | 2007 | 5 years ahead |
| Oil/Gas (Kbbl/d) | 114 | 123 | 153 | 250 |
| Iron Ore (Mtpy) | 39.5 | 42.2 | 44.7 | 50 |
| Coal (Mtpy) | 8.2 | 6.7 | 7.6 | 16 |

Our total investment in the Sakhalin II project was approximately ¥350.0 billion as of the end of September 2006, an increase of ¥47.0 billion* compared to the end of March 2006. The Sakhalin II Project continues to progress in accordance with the Production Sharing Agreement with the Russian Government, and the construction work is now more than 80% complete towards the scheduled start of LNG delivery in summer 2008. In the meantime, Sakhalin Energy Investment Company Ltd. (Bermuda) (in which we hold a 25% interest) is working closely with the relevant authorities to resolve the environmental issues raised by the Ministry of Natural Resources of the Russian Federation.

The Sakhalin II Project LNG plant (under construction)

We also acquired oil and gas interests valued at ¥53.2 billion in the offshore Gulf of Mexico, through an agreement with Pogo Producing Company of United States. Furthermore, in March 2007, we plan to make Mitsui Oil Exploration Co., Ltd. (Japan), currently one of our associated companies, into a subsidiary (in which we will increase our voting rights to 50.3%). In the Australian iron ore and coal business, we made investments of ¥26.7 billion, as part of our plan to increase production capacity.

* Including effects from foreign exchange translation

INFRASTRUCTURE PROJECTS BUSINESS

In the Infrastructure Projects Business we invested ¥27.5 billion in the acquisition of Brazilian gas distribution operations. We also invested ¥10.3 billion to acquire newly-issued shares of Toyo Engineering Corporation (Japan) with the aim of enhancing collaboration in the infrastructure projects, which are growing in size in all regions.

GLOBAL TRADING NETWORKS BUSINESS

In the global trading networks area, in response to rising demand for salt for use as a raw material in the chlor-alkali industry, we acquired the Onslow salt field in Australia in June 2006. Furthermore, in September 2006, we launched an initiative in the automobile parts business, acquiring newly issued shares in the automobile parts manufacturer and dealer Asahi Tec Corporation (Japan), which increased its capital to fund expansion of overseas operations, particularly in the United States.

Table of Contents

CONSUMER PRODUCTS AND SERVICES BUSINESS

In the consumer products and services business, we invested ¥5.8 billion to acquire newly-issued shares of Brightstar Corp. of United States, a major U.S. distributor of mobile handsets, and aim to expand our mobile phone business in the Asia-Pacific region.

2. Continuous review of our business portfolio based on Mitsui's business strategy

Mitsui's President sits down twice a year for face-to-face discussions with the Chief Operating Officers of each Business Unit to review the profitability and viability of subsidiaries and associated companies. From this fiscal year, the scope of these examinations has been widened to include the entire portfolio of each Business Unit. The examinations cover business domain prioritization, recycling of inefficient assets, and improvement in the quality of monitoring of subsidiaries and associated companies.

The President and the Chief Operating Officers at the

portfolio and subsidiaries and associated companies
review

meeting

2. EVOLUTION OF OUR BUSINESS MODELS LEVERAGING BUSINESS ENGINEERING CAPABILITIES

In April 2006 we reached an agreement with Petróleo Brasileiro S.A. of Brazil to jointly implement a feasibility study on producing bioethanol and related products in Brazil and exporting and selling them internationally. Mitsui aims to pursue, through comprehensive cross-divisional efforts, the commercialization of bioethanol.

3. IMPLEMENTATION OF GLOBAL STRATEGY

In accordance with our policy of strengthening our business strategy in the broad economic regions of Asia, Europe and the Americas, we introduced the Regional Business Unit system in April 2006. The Asia Business Unit is working in partnership with the Iron & Steel Raw Materials and Non-Ferrous Metals Business Unit of Mitsui's Head Office towards the acquisition of a 25% equity stake (equivalent to approximately ¥18 billion) in Erdos Electrical Power & Metallurgical Co., Ltd. (Inner Mongolia Autonomous Region, China) with the aim of expanding our business in China.

Alloys Co., Ltd. (Erdos EJM), a joint venture of Erdos
Electric Power & Metallurgical Co., Ltd., JFE Steel
Corporation and Mitsui

Table of Contents

4. REINFORCEMENT OF MANAGEMENT FRAMEWORK TO SUPPORT GROWTH

Section 404 of the U.S. Sarbanes-Oxley Act (SOX 404) has become applicable to us from the fiscal year ending March 31, 2007. Mitsui and its subsidiaries subject to SOX 404 have, for the most part, completed self-evaluation on internal controls over financial reporting, and audits by the independent auditor are steadily commencing.

With regard to the DPF incident, where Mitsui sold diesel particulate filters (DPFs) for diesel cars for which false data had been produced and submitted to the authorities, we have completed the redemption of the DPFs in question. To ensure that we never forget the lessons learned from this incident, which caused major concern to all stakeholders, including our customers and the related authorities, and seriously damaged our social trust, we continue to work vigorously to ensure that our compliance systems are thorough and robust.

OUTLINE OF OPERATING RESULTS

(April 1, 2006 to September 30, 2006)

1 OPERATING RESULTS OF THE GROUP

Total Trading Transactions increased by ¥573.6 billion over the previous comparable period to ¥7,622.2 billion, and **gross profit** increased by ¥52.6 billion to ¥427.8 billion, reflecting increased trading in energy and chemical products. Higher profits were generated at oil and gas producing subsidiaries in Australia and the Middle East and iron ore subsidiaries in Australia, driven by rising prices of crude oil and iron ore. Profits also grew from trade in energy and precious metal products, while iron and steel products, machinery and chemicals continued to perform strongly, backed by active worldwide demand.

Table of Contents

Operating income* increased by ¥26.4 billion over the previous comparable period to ¥141.2 billion. While gross profit increased, as mentioned above, selling, general and administrative expenses increased ¥25.8 billion, due to higher expenses in areas such as personnel.

* Operating income = gross profit - selling, general and administrative expenses - provision for doubtful receivables

Income from continuing operations before income taxes, minority interests and equity in earnings increased by ¥29.8 billion to ¥147.6 billion. In addition to the increase in operating income, the major factors were as follows:

Interest expenses increased ¥8.1 billion in line with increased investment in the Sakhalin II Project and other projects, while dividend income increased ¥12.0 billion, with a major contribution from the LNG Projects in the Middle East.

In the previous comparable period, compensation and other charges related to the DPF incident came to ¥9.0 billion.

Impairment losses on goodwill and intangible assets were recorded at Mitsui Norin Co., Ltd. (Japan).

Table of Contents

Equity in earnings of associated companies increased ¥35.7 billion to ¥74.5 billion.

In mineral resources related business, Valepar S.A. (Brazil) and Compania Minera Dona Ines de Collahuasi SCM (Chile) recorded major increases in profit, supported by rising prices of iron ore and copper.

In energy business, as a result of rising oil prices, profits were higher at Japan Australia LNG (MIMI) Pty. Ltd. (Australia) which conducts LNG business in Australia and Mitsui Oil Exploration Co., Ltd. (Japan).

In overseas power producing business, IPM Eagle LLP (United Kingdom) recorded an increase due to expanding its business scale.

As a result of these developments, for the six-month period ended September 30, 2006, the Group recorded **net income** of ¥159.2 billion, ¥76.0 billion higher than the ¥83.2 billion recorded in the previous comparable period.

Table of Contents

2 RESULTS BY OPERATING SEGMENT

Iron & Steel Products: Net income for the six-month period ended September 30, 2006 was ¥9.4 billion, an increase of ¥0.1 billion. High-end products such as steel tubular products and steel plates for shipbuilding and automobiles continued to perform well.

Iron & Steel Raw Materials and Non-Ferrous Metals: Net income for the six-month period was ¥62.2 billion, a major increase of ¥36.2 billion. Gross profit increased slightly as iron ore prices increased and coal prices fell. Supported by across-the-board rises in mineral resource prices, associated companies Valepar S.A. (Brazil), and Compania Minera Dona Ines de Collahuasi SCM (Chile), engaged in copper business, benefited particularly from rising copper prices, recorded major increases in profit.

Machinery & Infrastructure Projects: Net income for the six-month period was ¥18.0 billion, an increase of ¥5.2 billion. Profits increased at overseas power producing business IPM Eagle LLP (United Kingdom), as a result of business expansion and success in operations. Furthermore, net income rose at automotive related subsidiaries and associated companies in all regions.

Chemical: Net income for the six-month period was ¥10.4 billion, an increase of ¥8.1 billion. In upstream business, gross profit increased due to improved market conditions in ammonia, methanol and others, as well as good performance in IT related business, plastics and inorganic raw materials resulting from increased demand, particularly in Asia. The increase also reflects the absence of the burden from compensation and other charges related to the DPF incident that were recorded in the previous comparable period.

Energy: Net income for the six-month period was ¥32.4 billion, an increase of ¥18.2 billion. Despite higher interest expenses due to increased investment in the Sakhalin II Project, rising oil prices resulted in a major increase in net income. There were also increases at associated companies engaged in crude oil and natural gas exploration, development and marketing (such as Japan Australia LNG (MIMI) Pty. Ltd. (Australia) and Mitsui Oil Exploration Co., Ltd. (Japan), as well as increased dividend income from LNG Projects in the Middle East.

Foods & Retail: Net loss for the six-month period was ¥4.2 billion, compared to net income of ¥3.6 billion recorded in the previous comparable period. Gross profit declined at Mitsui Norin Co., Ltd. (Japan) due to increased competition and a decrease in demand for beverage ingredients and restaurant and home-use products, and the Company recorded impairment losses on goodwill and intangible assets.

Lifestyle, Consumer Service, Information, Electronics and Telecommunication: Net income for the six-month period was ¥3.3 billion, a decrease of ¥2.3 billion. As well as a decrease in textiles and increased costs in the Information, Electronics & Telecommunication business, Mitsui Bussan House-Techno Inc. (Japan) withdrew from the houses built for sale business, booking future maintenance-related expenses in the period under review as a result. Associated companies such as QVC JAPAN INC. (Japan), operating in television shopping, recorded an increase in profit.

Table of Contents

Logistics & Financial Markets: Net income for the six-month period was ¥6.4 billion, an increase of ¥1.2 billion, due to strong performance in energy derivative and other trading.

Americas: Net income for the six-month period for the Americas was ¥9.1 billion, an increase of ¥5.1 billion. Income from petroleum trading increased at the subsidiary Westport Petroleum Inc. (United States), and iron and steel products performed well. Rising U.S. dollar interest rates resulted in higher interest expenses.

Europe, Asia and Other Overseas: Net income for the six-month period for Europe was ¥2.0 billion, a decline of ¥0.7 billion. Net income for Asia was ¥3.7 billion, a decrease of ¥0.9 billion. Both declines were due to factors such as increased costs. Net income in Other Overseas was ¥6.7 billion, the same as the previous comparable period.

For further details please refer to pages 27 - 29 of this document, Operating Segment Information .

On a non-consolidated basis, sales for the six-month period ended September 30, 2006 were ¥5,625.4 billion. Gross profit was ¥112.7 billion, and net income was ¥74.9 billion. For details, please refer to pages 30 - 34 of this document, Balance Sheets and Statements of Income .

3 FORECASTS FOR THE YEAR ENDING MARCH 31, 2007

Our initial forecast for net income for the fiscal year ending March 31, 2007 was ¥240.0 billion. However, as a result of good performance in metal resources and energy we have revised this to ¥300.0 billion. Full-year net income forecasts by operating segment are shown below.

Table of Contents

Iron & Steel Raw Materials and Non-Ferrous Metals: Full-year net income forecasts for this segment have been revised to ¥100.0 billion, an increase of ¥45.3 billion over the previous comparable period. Reasons for this include rising prices of copper and iron ore, as well as one-time factors such as the sale of shares in Toho Titanium Co., Ltd. (Japan) and stake in aluminum smelters at Mitalco Inc. (United States), as part of business recycling.

Energy: Full-year net income forecasts in this segment have been revised to ¥77.0 billion, an increase of ¥36.1 billion. The principal factors for this are increased oil prices and increased oil and natural gas production following the start of oil production at the Enfield oil field in Australia.

Iron & Steel Products, First and Second Chemicals: Reflecting continued improvements in the business environment, full-year net income forecasts in these segment have been revised to ¥20.0 billion, an increase of ¥0.6 billion and ¥20.0 billion, an increase of ¥7.9 billion respectively. Pre-tax expenses of ¥9.0 billion relating to the DPF incident were recorded in the Chemical segment in the previous year, which are absent in the period under review.

Machinery & Infrastructure Projects: Full-year net income forecasts in this segment have been revised to ¥34.0 billion, an increase of ¥3.4 billion. This is a result of good performance in automotive business and shipping, as well as contributions from overseas power generator business IPM Eagle LLP (United Kingdom) following business expansion.

Foods & Retail: Full-year net income forecasts in this segment have been revised to ¥0.0 billion, an increase of ¥3.2 billion. In the previous fiscal year this segment recorded a net loss of ¥3.2 billion, as a result of impairment losses on fixed assets at MITSUI FOODS CO., LTD. (Japan) and other factors. We expect a net loss of ¥9.0 billion at Mitsui Norin Co., Ltd. (Japan) as a result of an impairment loss on goodwill and other factors, but we believe that this segment will begin a gentle recovery.

Notes:

- The figures shown in this table have been prepared on the basis of accounting principles generally accepted in the United States of America (U.S. GAAP). Total Trading Transactions is a voluntary disclosure and represents the gross transaction volume of the nominal aggregate value of the sales contracts in which Mitsui & Co., Ltd. and its subsidiaries (collectively the companies) act as principal and transactions in which the companies serve as agent. Total Trading Transactions is not meant to represent sales or revenues in accordance with US GAAP. The companies have included the information concerning Total Trading Transactions because it is used by similar Japanese trading companies as an industry benchmark, and the companies believe it is a useful supplement to results of operations data as a measure of the companies performance compared to other similar Japanese trading companies.
- In accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the prior year figures relating to discontinued operations have been reclassified.
- Figures less than ¥1 million and figures less than ¥1/100 (in the case of Net Income per Share) are rounded.

Table of Contents

Notes:

1. In accordance with SFAS No.144, the figures of Consolidated Total for the six-month period ended September 30, 2005 have been reclassified. The reclassifications to Income (Loss) from Discontinued Operations Net (After Income Tax Effect) are included in Adjustments and Eliminations.
2. All Other includes business activities which primarily provide services, such as financing service and operation services to external customers and/or to the companies and associated companies. Total assets of All Other at September 30, 2006 and 2005 consisted primarily of cash and cash equivalents and time deposits related to financing activities, and assets of certain subsidiaries related to the above services.
3. Net loss of Adjustments and Eliminations includes income and expense items that are not allocated to specific reportable operating segments, such as certain expenses of the corporate departments, and eliminations of intersegment transactions.
4. Transfers between operating segments are made at cost plus a markup.
5. Operating Income (Loss) reflects the companies a) Gross Profit, b) Selling, general and administrative expenses, and c) Provision for doubtful receivables.
6. Starting from the year ended March 31, 2006, Iron & Steel Products and Iron & Steel Raw Materials and Non-Ferrous Metals which formally composed the Metal Products & Minerals, and Foods & Retail, which was formally included in Consumer Products & Services are disclosed as a separate product-focused reportable operating segment, and Electronics & Information, which was formally included in the Machinery, Electronics & Information is aggregated to Life Style and Consumer Service, which were formally included in Consumer Products & Services and disclosed as Life Style, Consumer Service, Information, Electronics and Telecommunication. Machinery and Infrastructure Projects, which were formally included in Machinery, Electronics & Information, are disclosed as Machinery & Infrastructure Projects. Also, starting from the six-month period ended September 30, 2006, Mitsui & Co., Financial Services (Europe) which was formerly included in Europe, is transferred to All Other, in order to centralize the operation of financing services to the companies and associated companies. The operating segment information for the six-month period ended September 30, 2005 has been restated to conform to the current period presentation.

prepared in accordance with accounting principles generally accepted in Japan.

Table of Contents

Management Philosophy (MVV)

Mission

We will contribute to the creation of a future where the dreams of the inhabitants of our irreplaceable Earth can be fulfilled.

Vision

We aim to become a global business enabler that can meet the needs of our customers throughout the world.

Values

Making it a principle to be fair and humble, we, with sincerity and in good faith, will strive to be worthy of the trust society places in us.

With lofty aspirations and from an honest perspective, we will pursue business that benefits society.

Always taking on the challenge of new fields, we will dynamically create business that can lead the times.

Making the most of our corporate culture that fosters Freedom and Open-mindedness, we will fully demonstrate our abilities as a corporation as well as individuals.

In order to nurture human resources full of creativity and a superior sense of balance, we will provide our people with a workplace for self-development as well as self-realization.
