PROXY STATEMENT

Information Concerning Voting and Solicitation

This Proxy Statement is being furnished to you in connection with the solicitation by the Board of Directors of Atheros Communications, Inc., a Delaware corporation, of proxies to be used at the 2007 Annual Meeting of Stockholders to be held at our offices at 5480 Great America Parkway, Santa Clara, California, at 10:00 a.m., Pacific Time, on Tuesday, May 22, 2007 and any adjournments or postponements thereof. This Proxy Statement and the accompanying form of proxy card are being mailed to stockholders on or about April 9, 2007.

Appointment of Proxy Holders

Your Board of Directors asks you to appoint Craig H. Barratt, Jack R. Lazar and Bruce P. Johnson as your proxy holders to vote your shares at the 2007 Annual Meeting of Stockholders. You make this appointment by voting the enclosed proxy card using one of the voting methods described below.

If appointed by you, the proxy holders will vote your shares as you direct on the matters described in this Proxy Statement. In the absence of your direction, they will vote your shares as recommended by your Board (**FOR** the election of the nominees for Class I directors, and **FOR** the ratification of the appointment of our independent registered public accounting firm).

By signing and dating the proxy card, you also authorize your proxy holders to vote your shares on any matters not known by your Board at the time this Proxy Statement was printed and which, under our Bylaws, may be properly presented for action at the Annual Meeting.

Who Can Vote

Only stockholders who owned shares of our common stock at the close of business on April 3, 2007, the record date for the Annual Meeting, can vote at the Annual Meeting. As of the close of business on April 3, 2007, we had 55,070,082 shares of common stock outstanding and entitled to vote. Each holder of common stock is entitled to one vote for each share held as of April 3, 2007. There is no cumulative voting in the election of directors.

How You Can Vote

You may vote your shares at the Annual Meeting either in person or by mail as described below. Stockholders holding shares through a bank or broker should follow the voting instructions on the form of proxy card received.

Voting by Mail. You may vote by proxy by dating, signing and returning your proxy card in the enclosed postage-paid envelope. Giving a proxy will not affect your right to vote your shares if you attend the Annual Meeting and want to vote in person.

Voting at the Annual Meeting. Voting your proxy card by mail will not limit your right to vote at the Annual Meeting, if you decide to attend in person. Your Board recommends that you vote by mail as it is not practical for most stockholders to attend the Annual Meeting. If you hold shares through a bank or broker, you must obtain a proxy, executed in your favor, from the bank or broker to be able to vote at the Annual Meeting.

If you submit your proxy, but do not mark your voting preference, the proxy holders will vote your shares **FOR** the election of the nominees for Class I directors, and **FOR** the ratification of the appointment of our independent registered public accounting firm. The proxy holders will also vote your shares in their discretion on any other matters that properly come before the Annual Meeting.

Table of Contents

Revocation of Proxies

Stockholders can revoke their proxies at any time before they are exercised in any of three ways:

by voting in person at the Annual Meeting;

by submitting written notice of revocation to Atheros Secretary prior to the Annual Meeting; or

by submitting another proxy of a later date that is properly executed.

Required Vote

Directors are elected by a plurality vote, which means that the three nominees receiving the most affirmative votes will be elected. All other matters submitted for stockholder approval require the affirmative vote of the majority of shares present in person or represented by proxy and entitled to vote.

A quorum, which is a majority of the outstanding shares as of April 3, 2007, must be present to hold the Annual Meeting. A quorum is calculated based on the number of shares represented by the stockholders attending in person and by their proxy holders. If you indicate an abstention as your voting preference, your shares will be counted toward a quorum but they will not be voted on the matter.

Abstentions on any matters are treated as shares present or represented and entitled to vote on that matter and have the same effect as a vote against such matter.

If a broker indicates on the enclosed proxy card or its substitute that such broker does not have discretionary authority to vote on a particular matter (broker non-votes), those shares will be considered as present for purposes of determining the presence of a quorum but will not be treated as shares entitled to vote on that matter.

Solicitation of Proxies

Atheros will pay the cost of printing and mailing proxy materials. In addition to the solicitation of proxies by mail, solicitation may be made by our directors, officers and other employees by personal interview, telephone or facsimile. No additional compensation will be paid to these persons for solicitation. We will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation materials to beneficial owners of our common stock.

IMPORTANT

Please promptly vote and submit your proxy by signing, dating and returning the enclosed proxy card in the postage-prepaid return envelope so that your shares can be voted. This will not limit your rights to attend or vote at the Annual Meeting.

Directors and Nominees

Our Bylaws currently provide for a Board of Directors consisting of not less than six nor more than eleven members. We currently have authorized eight directors. Our Board of Directors is divided into three classes: Class I, Class II and Class III. The members of each class of directors serve staggered three-year terms:

Accordingly, three Class I directors will be elected at the Annual Meeting to serve until the annual meeting of stockholders to be held in 2010 and until their successors are elected and qualified. If any nominee is unable or declines to serve as director at the time of the Annual Meeting, an event not now anticipated, proxies will be voted for any nominee designated by the Nominating and Corporate Governance Committee to fill the vacancy.

Director Nominations

The Nominating and Corporate Governance Committee nominates directors for election at each annual meeting of stockholders and nominates new directors for election by the Board of Directors to fill vacancies when they arise. The Nominating and Corporate Governance Committee has the responsibility to identify, evaluate, recruit and nominate qualified candidates for election to the Board of Directors.

Table of Contents

The Board of Directors has as an objective that its membership be composed of experienced and dedicated individuals with diversity of backgrounds, perspectives and skills. The Nominating and Corporate Governance Committee will select candidates for director based on their character, judgment, diversity of experience, business acumen, and ability to act on behalf of all stockholders. The Nominating and Corporate Governance Committee believes that nominees for director should have experience, such as experience in management or accounting and finance, or industry and technology knowledge, that may be useful to Atheros and the Board, high personal and professional ethics, and the willingness and ability to devote sufficient time to effectively carry out his or her duties as a director. The Nominating and Corporate Governance Committee believes it appropriate for at least one, and, preferably, multiple, members of the Board to meet the criteria for an audit committee financial expert as defined by SEC rules, and for a majority of the members of the Board to meet the definition of independent director under the rules of The Nasdaq Stock Market. The Nominating and Corporate Governance Committee also believes it appropriate for certain key members of our management to participate as members of the Board.

Prior to each annual meeting of stockholders, the Nominating and Corporate Governance Committee identifies nominees first by evaluating the current directors whose term will expire at the annual meeting and who are willing to continue in service. These candidates are evaluated based on the criteria described above, including as demonstrated by the candidate's prior service as a director, and the needs of the Board with respect to the particular talents and experience of its directors. In the event that a director does not wish to continue in service, the Nominating and Corporate Governance Committee determines not to re-nominate the Director, or a vacancy is created on the Board as a result of a resignation, an increase in the size of the board or other event, the Committee will consider various candidates for Board membership, including those suggested by the Committee members, by other Board members, by any executive search firm engaged by the Committee and by stockholders. A stockholder who wishes to suggest a prospective nominee for the Board should notify Atheros' Secretary or any member of the Committee in writing with any supporting material the stockholder considers appropriate.

In addition, our Bylaws contain provisions that address the process by which a stockholder may nominate an individual to stand for election to the Board of Directors at our annual meeting of stockholders. In order to nominate a candidate for director, a stockholder must give timely notice in writing to Atheros' Secretary and otherwise comply with the provisions of our Bylaws. To be timely, our Bylaws provide that we must have received the stockholder's notice not less than 60 days nor more than 90 days prior to the scheduled date of the meeting. However, if notice or prior public disclosure of the date of the annual meeting is given or made to stockholders less than 75 days prior to the meeting date, we must receive the stockholder's notice by the earlier of (i) the close of business on the 15th day after the earlier of the day we mailed notice of the annual meeting date or provided public disclosure of the meeting date and (ii) two days prior to the scheduled date of the annual meeting. Information required by the Bylaws to be in the notice include the name and contact information for the candidate and the person making the nomination and other information about the nominee that must be disclosed in proxy solicitations under Section 14 of the Securities Exchange Act of 1934 and the related rules and regulations under that Section.

Effective as of January 1, 2006, the consulting agreement was amended such that the compensation to which Dr. Meng was entitled to receive was reduced to a fixed fee of \$25,000 per year. The consulting agreement also provided that Dr. Meng was entitled to reimbursement for reasonable out-of-pocket expenses previously approved in writing. On December 31, 2006, we terminated our consulting agreement with Dr. Meng.

Narrative of Director Compensation

Under our cash compensation plan for our independent directors, we pay each independent director an annual retainer of \$25,000. In addition, each committee member receives an annual retainer of \$2,500, except that members of the Audit Committee receive an annual retainer of \$5,000. We also pay each committee chair an additional annual retainer of \$2,500, except that we pay our Audit Committee Chair an additional annual retainer of \$5,000. These annual retainers are payable on a pro rata basis for the portion of the year on which a director serves on our Board or a committee. We also reimburse all of our directors for reasonable expenses in connection with attendance at board and committee meetings. In 2006, our independent directors received these annual retainers as applicable to each such independent director.

Our independent directors also receive nondiscretionary, automatic grants of nonstatutory stock options under our 2004 Stock Incentive Plan (2004 Plan). Under our 2004 Plan, an independent director will be automatically granted an initial option to purchase 37,500 shares upon first becoming a member of our Board of Directors. The initial option vests and becomes exercisable over four years, with the first 25% of the shares subject to the initial option vesting on the first anniversary of the date of grant and the remainder vesting ratably over the following 36 months. Immediately after each of our regularly scheduled annual meetings of stockholders, each independent director is automatically granted a nonstatutory option to purchase 7,500 shares of our common stock, provided the director has served on our Board for at least six months. Each annual option granted to independent directors who are first elected to our Board of Directors on or after November 1, 2004 vests and becomes exercisable ratably over 48 months and to the other outside directors vests and becomes exercisable ratably over 12 months. The options granted to independent directors have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant, and will become fully vested if we are subject to a change of control. Pursuant to these automatic grant provisions, in 2006, we granted to each of Messrs. Artusi, Baskett, Hennessy, Mohr and Rappaport an option to purchase 7,500 shares, and we granted to Dr. Shih an option to purchase 37,500 shares.

In December 2006, we terminated our consulting agreement with Dr. Meng, and in February 2007, our Compensation Committee approved the payment of \$25,000 per year to Dr. Meng for her services as a member of our Board, commencing January 1, 2007. This annual payment is in lieu of receiving the annual retainers paid to independent directors and is payable at the same time and in the same manner as the fees paid to the independent directors. In addition, in February 2007, our Compensation Committee granted to Dr. Meng an option to purchase 7,500 shares of our common stock, for her services as a director, in lieu of the automatic option grant under our 2004 Plan. This option vests ratably over 12 months and has a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant. Dr. Meng is not eligible to receive the cash compensation for independent directors or the automatic option grants under the 2004 Plan, which are described above.

Directors also are eligible to receive and have received discretionary grants of nonstatutory stock options under our 2004 Plan. The exercise price of stock options granted to directors is equal to 100% of the fair market value of the underlying shares, as determined pursuant to the 2004 Plan on the date of grant.

Specific due dates for these reports have been established, and we are required to identify in this proxy statement those persons who failed to timely file these reports. Report of the Audit Committee

The following report of the Audit Committee does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any other filing by Atheros under the Securities Act of 1933 or the Securities Exchange Act of 1934.

The Audit Committee operates under a written charter adopted by the Board of Directors. A copy of the Audit Committee charter is available on our website at www.atheros.com. The information contained on our website does not form any part of this proxy statement. All members of the Audit Committee meet the independence standards established by The Nasdaq Stock Market.

The Audit Committee assists the Board in fulfilling its responsibility to oversee management's implementation of Atheros' financial reporting process. It is not the duty of the Audit Committee to plan or conduct audits or to determine that the financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the financial statements and the reporting process, including the system of internal controls and disclosure controls. The independent registered public accounting firm is responsible for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States.

In discharging its oversight role, the Audit Committee reviewed and discussed the audited financial statements contained in the 2006 Annual Report with Atheros' management and independent registered public accounting firm as well as management's assessment of internal control over financial reporting.

The Audit Committee met privately with the independent registered public accounting firm on multiple occasions, and discussed issues deemed significant by the independent registered public accounting firm, including those required by Statements on Auditing Standards No. 61 (Audit Committee Communications), as amended. In addition, the Audit Committee discussed with the independent registered public accounting firm its independence from Atheros and its management, including the matters in the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and considered whether the provision of nonaudit services was compatible with maintaining the registered public accounting firm's independence.

Based upon these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Atheros' annual report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

Executive Compensation

Compensation Discussion and Analysis

Overview of our Executive Compensation Policies and Objectives

We believe that compensation of our executive officers should encourage the creation and enhancement of stockholder value and achievement of strategic corporate objectives, attract qualified, skilled and dedicated executives, retain key leaders, reward past performance and incent future performance. It is our philosophy to align the interests of our stockholders and management by integrating compensation with our annual and long-term corporate and financial objectives. We also consider the appropriate balance between incentives for long-term and short-term performance. In addition, in order to attract and retain the most qualified, skilled and dedicated personnel, we offer a total compensation package competitive with companies in the semiconductor industry, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance.

We believe that compensation of each executive officer should be based on the individual's performance and their ability to enhance long-term stockholder value. Factors we consider in determining executive officer compensation include:

the executive officer's level of responsibilities;

the executive officer's performance compared to the goals and objectives established for that executive officer for the year;

the executive officer's contributions to our financial results; and

the executive officer's effectiveness in leading initiatives to determine and achieve our business goals.

Our Chief Executive Officer reviews the compensation of each of the other executive officers each year, measuring their compensation levels against individual business objectives established for the prior year. These objectives are developed annually by him and the respective executive officers. The conclusions reached and recommendations based on this review, including salary adjustments, bonus amounts and annual equity awards, are presented by our Chief Executive Officer to the compensation committee for consideration. The compensation committee reviews these materials and recommendations and has full authority to exercise its judgment in determining the final compensation payable to each executive officer.

We also consider market information and executive officer compensation survey data regarding the base salaries, cash bonuses, and other incentives paid to executive officers of companies comparable to us in the semiconductor industry. However, we do not restrict our decisions to any particular range or level of total compensation paid to executive officers at these companies.

In making executive officer compensation decisions for 2006, the Compensation Committee compared each element of total compensation against statistics for a peer group of high tech companies. The source of market data used for our 2006 comparative analysis was the 2006 Radford survey of executive officer compensation levels at over 100 publicly traded and privately held high tech companies with annual revenues of between \$200 million and \$500 million.

In making executive officer compensation decisions for 2007, the Compensation Committee retained Frederic W. Cook & Co., Inc., or FWC, as its independent compensation consultant, and began using a new survey prepared by FWC. This survey provides competitive comparisons against a group of 20 publicly-traded U.S.-based semiconductor companies that are competitors with us in the labor and capital markets, have similar stock market capitalizations, and similar growth and performance potential. The committee believes that the new survey reflects a reasonable cross-section of our market for executive talent.

Components of our Executive Compensation

The components of executive officer compensation consist of base salary, bonus, and stock options and restricted stock units grants.

Table of Contents

Annual Base Salary

Each year our Chief Executive Officer makes salary recommendations to our Compensation Committee for executive officers other than the Chief Executive Officer, which is designed to compensate each executive officer for services rendered during the year. Our Compensation Committee generally sets base salaries at levels designed to attract and retain qualified executive officers with strong leadership skills, taking into account the individual's level of responsibilities and performance. Our Compensation Committee also considers the executive officer's current salary, prior-year bonus, market information and executive officer compensation survey data regarding the base salaries, as well as other incentives paid to executive officers of companies with comparable revenues and other companies within the semiconductor industry. Our Compensation Committee may adjust salaries from time to time to recognize promotions and outstanding individual performance, and to maintain competitive compensation.

In 2006, the base salaries of our Chief Executive Officer, Chief Financial Officer and Vice President of Marketing were substantially below the 50th percentile base salary levels for comparable positions in the Radford survey peer group. The base salaries for our Vice President of Engineering and Vice President of Sales were above the 75th percentile base salary levels for comparable positions in the Radford survey peer group.

In 2007, our Compensation Committee increased the annual base salary for our Chief Executive Officer by 6.5% and the annual base salaries for our other executive officers between 2.7% and 4.2%, based on the executive officer's level of responsibility and performance. Based on the 2006 FWC survey, Dr. Barratt's base salary for 2007 is substantially below the 25th percentile salary levels for other chief executive officers in the FWC peer group, and the base salary of the other executive officers for 2007 is between the 50th and 75th percentile base salary levels for comparable positions in the FWC peer group.

Cash Bonuses

We believe that a portion of executive officer compensation should be contingent upon our performance and an individual's contribution to our success in meeting corporate and financial objectives. Bonuses paid for 2006 were determined based on the 2006 bonus plan adopted by the Compensation Committee in January 2006. Under our 2006 bonus plan, bonuses earned by our Chief Executive Officer and the other executive officers were based on our achievement of certain financial and non-financial corporate performance objectives. The financial corporate performance objectives were specifically tied to corporate revenue, operating income and gross margin. The categories of the non-financial corporate performance objectives were market share, customer engagements and industry leadership, product development and operational excellence. At the time the objectives were set in January 2006, we believed that they were attainable at the established target levels, but substantial uncertainty nevertheless existed as to the actual attainment of the objectives at any of the established levels. There were three components for potential bonuses:

a bonus of up to 20% of base salary, or 35% for the Chief Executive Officer, for the achievement of financial corporate performance objectives;

a bonus of up to 15% of base salary, or 20% for the Chief Executive Officer, for the achievement of non-financial operational performance objectives; and

a bonus of up to 20% of base salary, or 55% for the Chief Executive Officer, for the achievement of higher levels of financial corporate performance objectives.

We met 90% of our financial and non-financial objectives and 90% of the higher levels of financial corporate performance objectives. Bonuses earned for 2006 therefore equaled 99% of base salary for our Chief Executive Officer and 49.5% of base salary for each of our other executive officers.

In 2006, the bonus of our Vice President of Worldwide Sales was determined under a separate bonus plan. Under this bonus plan he was eligible to receive a bonus of up to \$135,000, of which 80% was based on the achievement of revenue targets and 20% was based on the achievement of the financial and non-financial performance objectives in our 2006 bonus plan. In addition, he was eligible to receive a bonus of up to 15% of his base salary based on the achievement of the higher levels of financial corporate performance objectives under our 2006 bonus plan. We met our revenue targets and 90% of our financial and non-financial objectives in the executive officer bonus plan, and 90% of the higher levels of financial corporate performance objectives in the executive officer bonus plan. The bonus earned by our Vice President of Sales therefore

equaled 97.8% of \$135,000, or \$132,028, plus 13.5% of his base salary.

Table of Contents

In February 2007, our Compensation Committee approved the 2007 bonus plan for our Chief Executive Officer, Chief Financial Officer and our other executive officers, which will be based on our achievement of certain financial corporate performance objectives and certain individual non-financial performance objectives specific to each executive officer. For all executive officers, except the Vice President of Worldwide Sales, the financial corporate objectives are specifically tied to corporate revenue, operating income, gross margin, earnings per share, accounts receivable, days sales outstanding, and inventory turns in 2007. For the Vice President of Worldwide Sales, the financial corporate objectives are specifically tied to corporate revenue, operating income and gross margin. The non-financial objectives include individual objectives related to personal and organizational operational excellence by each executive officer. Under our 2007 bonus plan, each executive officer is entitled to receive:

a bonus of up to 40% of base salary, or 60% for the Chief Executive Officer and the Vice President of Worldwide Sales, for the achievement of financial corporate objectives and non-financial operational and individual performance objectives; and

a bonus of up to an additional 25% of base salary, or 60% for the Chief Executive Officer and 15% for the Vice President of Worldwide Sales, for the achievement of higher levels of financial corporate and operational and individual performance objectives.

We believe that the objectives are attainable at the established target levels, but substantial uncertainty nevertheless exists as to the actual attainment of the objectives at any of the established levels. If earned, these bonuses are expected to be paid in early 2008, except that a portion of the bonus of the Vice President of Worldwide Sales is paid on a quarterly basis.

Equity Awards

Our Compensation Committee administers our 2004 Plan for executive officers, employees, consultants and outside directors, under which it may grant stock options and stock appreciation rights with an exercise price equal to the fair market value of a share of the common stock on the date of grant, and restricted stock and stock units.

We believe that equity awards (1) align our executives' interests with our stockholders' interests by creating a direct link between compensation and stockholder return, (2) provide our executives with a significant, long-term interest in our success and (3) help retain key executives in a competitive market for executive talent. Accordingly, when annually reviewing executive officer compensation we also consider equity awards as appropriate. At its discretion, from time to time our Compensation Committee may also grant equity awards based on individual and corporate achievements. Our Compensation Committee determines the number of shares underlying each equity award based upon several factors, including:

the executive officer's and our performance;

the executive officer's role and responsibilities;

the executive officer's base salary; and

comparison with comparable awards to individuals in similar positions in the industry.

Prior to 2007, our Compensation Committee granted stock options to executive officers annually at its regularly scheduled quarterly meeting held in January of each year. In July 2006, our Board adopted a policy that, commencing in 2007, annual grants of equity awards to executive officers will be granted by our Compensation Committee in February of each year during an open trading window. In addition, in 2007, the equity awards granted by our Compensation Committee to our executive officers consisted of both stock options and restricted stock units, to lessen the compensation expense related to stock options, and to allow more shares to be available under the 2004 Plan for non-executive employee grants.

Edgar Filing: ATHEROS COMMUNICATIONS INC - Form DEF 14A

In addition, our employees generally are able to participate in our 2004 Employee Stock Purchase Plan. Under our Employee Stock Purchase Plan, each executive officer may purchase up to 1,875 shares of our common stock in a six-month period at a discount to the market price. The number of shares that may be purchased by each participant is limited by applicable tax laws.

Tax Deductibility Considerations

Section 162(m) of the Internal Revenue Code disallows a tax deduction for compensation in excess of \$1 million paid to our chief executive officer or any of our other executive officers whose total compensation is required to be reported in our proxy statement by reason of being one of the three most highly compensated officers (other than our chief executive officer and chief financial officer). Our Compensation Committee may elect to provide our officers with compensation that is not fully deductible under Section 162(m) if it determines that such awards are consistent with our philosophy and in the best interests of our stockholders.

Section 409A of the Internal Revenue Code provides that amounts deferred under nonqualified deferred compensation plans are included in an employee's income when they vest unless specified requirements are met. If these requirements are not met, employees are also subject to an additional income tax and interest penalties. None of our named executive officers participates in or has account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us.

Chief Executive Officer Compensation

Our Compensation Committee determines the compensation of the Chief Executive Officer, Craig H. Barratt, using the same criteria as for the other executive officers. In January 2006, our Compensation Committee granted Dr. Barratt an option to purchase 150,000 shares vesting over four years from the date of grant and determined that his 2006 annual salary would remain unchanged from 2005 at \$291,200. In February 2007, our Compensation Committee awarded Dr. Barratt a bonus of \$288,288 for his service in 2006. Dr. Barratt's 2006 bonus was determined under the 2006 bonus plan described above under Cash Bonuses. In determining Dr. Barratt's compensation, including his annual salary, bonus and equity awards, our Compensation Committee considered Dr. Barratt's individual performance and our performance as a whole, including our financial performance, product roll-outs and product development, and Dr. Barratt's leadership in the development and execution of our business strategy, as well as a review of compensation paid to presidents and chief executive officers of comparable companies. Our Compensation Committee also considered Dr. Barratt's potential to enhance long-term stockholder value. By including a cash bonus based on the achievement of performance objectives that is greater than a majority of Dr. Barratt's total potential cash compensation, and including significant grants of stock options and restricted stock units that are subject to vesting over four years, our Compensation Committee has tied Dr. Barratt's cash and equity-based compensation directly to our performance, both in the near term over the following year and in the long-term. In 2007, our Compensation Committee increased Dr. Barratt's annual base salary to \$310,000, or by 6.5%. In increasing his base salary, our Compensation Committee considered a number of factors, including Dr. Barratt's prior performance, our performance during 2006 and compensation paid at comparable companies. Based on the 2006 FWC survey, Dr. Barratt's base salary for 2007 is substantially below the 25th percentile salary levels for other chief executive officers in the peer group.

In the event Mr. Antes is terminated without cause, he will receive severance equal to six months of his then-current annual base salary, and Atheros will pay the health insurance coverage for Mr. Antes and his enrolled dependents for six months after the effective date of his termination.

Certain Relationships and Related Party Transactions

Overview

We have entered into indemnification agreements with each of our current directors and executive officers. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. We also intend to enter into indemnification agreements with our future directors and executive officers. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Audit Committee Pre-Approval Policies and Procedures

It is Atheros' policy that all audit and non-audit services to be performed by its principal accountants be approved in advance by the Audit Committee.

Required Vote

Ratification of the appointment of Deloitte & Touche LLP requires the affirmative vote of a majority of the shares present and voting at the Annual Meeting in person or by proxy. Unless marked to the contrary, proxies received will be voted FOR ratification of the appointment. In the event ratification is not obtained, the Audit Committee will review its future selection of our independent registered public accounting firm but will not be required to select a different independent registered public accounting firm.

Your Board of Directors recommends a vote FOR ratification of Deloitte & Touche LLP as our independent registered public accounting firm.

Stockholder Proposals for the 2008 Annual Meeting

If a stockholder wishes to present a proposal to be included in our Proxy Statement for the 2008 Annual Meeting of Stockholders, the proponent and the proposal must comply with the proxy proposal submission rules of the Securities and Exchange Commission. One of the requirements is that the proposal be received by Atheros Secretary no later than December 8, 2007. Proposals we receive after that date will not be included in the proxy statement. We urge stockholders to submit proposals by Certified Mail Return Receipt Requested.

A stockholder proposal not included in our proxy statement for the 2008 Annual Meeting will be ineligible for presentation at the meeting unless the stockholder gives timely notice of the proposal in writing to our Secretary at our principal executive offices and otherwise complies with the provisions of our Bylaws. To be timely, the Bylaws provide that we must have received the stockholder's notice not less than 60 days nor more than 90 days prior to the scheduled date of the meeting. However, if notice or prior public disclosure of the date of the annual meeting is given or made to stockholders less than 75 days prior to the meeting date, we must receive the stockholder's notice by the earlier of (i) the close of business on the 15th day after the earlier of the day we mailed notice of the annual meeting date or provided public disclosure of the meeting date and (ii) two days prior to the scheduled date of the annual meeting.

Other Matters

Your Board does not know of any other business that will be presented at the Annual Meeting. If any other business is properly brought before the Annual Meeting, your proxy holders will vote on it in accordance with their judgment.

Whether or not you intend to be present at the Annual Meeting, we urge you to submit your signed proxy promptly.

By Order of the Board of Directors.
