Item 11. Executive Compensation

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee of the Board of Directors is responsible for annually reviewing the corporate objectives with respect to the compensation of Verticalnet's chief executive officer and other executives and evaluating the chief executive officer's and other executives' performance in light of those objectives.

Compensation Program's Objectives and Components

The objectives of Verticalnet's executive compensation program are to align the interests of our executives with the interests of shareholders, to retain key executives and to attract new talented executives. In order to accomplish these goals, the Compensation Committee seeks to tie a significant portion of each executive's total compensation to Verticalnet's overall performance. The executive compensation program consists of three key elements:

An annual base salary;

A performance-based annual bonus; and

Edgar Filing: VERTICALNET INC - Form 10-K/A

Long-term incentive awards through grants of stock options and/or restricted stock.

Annual Base Salary

The Compensation Committee believes the payment of a competitive base salary is necessary to obtain and retain the chief executive officer and other executives. The annual base salary is the only guaranteed portion of each executive's cash compensation. The Compensation Committee determines base salaries for Verticalnet's executives, as well as changes in such salaries, after considering numerous factors, including:

Competitive salaries;

The nature of the executive's position and its subjective importance to Verticalnet's success;

Level of experience;

Table of Contents

Expected amount of individual responsibility; and

General market conditions.

Performance-Based Annual Bonus

The Compensation Committee believes the opportunity to earn of a performance-based cash bonus aligns the interests of each executive with the interests of shareholders in Verticalnet's overall performance. This bonus permits individual executive performance to be recognized on an annual basis. The Compensation Committee determines whether to grant an annual performance bonus for each executive based on the achievement of Verticalnet's financial and operating objectives, each executive's individual performance and Verticalnet's achievement of specific goals within each executive's area of responsibility. The Compensation Committee tends to weigh the objective goals more heavily than the subjective goals. The Compensation Committee can exercise its discretion to pay bonuses even if the criteria have not been met, and can exercise its discretion to not pay a bonus even if the criteria have been met.

Verticalnet has recently operated with relatively low levels of cash. Under the terms of Verticalnet's \$6.6 million Senior Secured Convertible Promissory Notes, due July 2007, Verticalnet is required to maintain a cash balance of at least \$1.5 million. As a result of the low levels and restrictions on cash, the executive team as a whole has consistently received a larger percentage of their total compensation in non-cash compensation. Verticalnet has relatively few non-cash compensation alternatives, and has historically limited its non-cash compensation to grants of stock options, restricted stock, or restricted stock units. If Verticalnet's cash levels increase in the future, the Compensation Committee may choose to increase the cash based compensation to the executive team.

Long-Term Incentive Awards

The Compensation Committee believes that the annual and periodic grant of stock options, restricted stock and restricted stock units provides an incentive to our executives to build shareholder value.

In the past, the Compensation Committee has utilized grants of stock options, restricted stock and restricted stock units to motivate, reward and retain executives. Stock options are typically granted annually and are subject to vesting provisions to encourage the executives to remain employed with Verticalnet. Grants of restricted stock may also been used together with or in place of stock options to reward executives performance or to encourage executives to remain with the company. Similarly, restricted stock units are often granted at the inception of employment and thereafter on a periodic basis. Upon beginning employment, each executive receives stock options or restricted stock units based upon that executive's relative position, responsibilities and his or her anticipated performance. The Compensation Committee's decisions whether to grant stock options, restricted stock or restricted stock units either alone or in combination are based on the availability of shares under the company's equity compensation plans, the desire to reward or retain an executive and the executive's perceived value to the company's success.

Additionally, the Compensation Committee reviews the prior level of grants to the executives and to other members of senior management, including the number of shares that continue to be subject to vesting under outstanding options, in setting the level of new options to be granted to the executives. Stock options are granted at the market price on the date of grant and provide value only if the price of Verticalnet's common stock exceeds the exercise price on the date of exercise. Restricted stock and restricted stock units are granted at a price of \$0.07 per share.

Employee Benefits

In addition, all employees, including executives, are entitled to participate in the company's other benefit and welfare benefit plans, which include shared cost medical, dental and vision insurance, employee funded long term and short term disability insurance, life insurance flexible spending accounts and 401(k) plan. Verticalnet does not currently contribute to employee's 401(k) plan. However, Verticalnet has in the past, and may elect in the future, to contribute to employee's 401(k) plans.

Determination of 2006 Executive Compensation

The Compensation Committee does not use a specific formula for determining each element of compensation, but reviews the total compensation of each executive on an annual basis to determine whether it corresponds with the overall compensation philosophy, adequately rewards the executive for his or her individual contribution to Verticalnet's achievements during the year (giving due consideration to Verticalnet's overall success or failure in obtaining the goals for the year) and adequately aligns the interests of the executive with the interests of shareholders.

Table of Contents

Base salary was the sole component of compensation for the chief executive officer and other executives for the fiscal year ended December 31, 2006. Because of the financial condition of Verticalnet, including the relatively low levels of cash projected to be available during 2006, in early 2006 the Compensation Committee recommended to the Board of Directors that no annual bonus be awarded during 2006. The Compensation Committee has not yet determined whether any bonus compensation will be awarded for 2007.

Similarly, in early 2006 the Compensation Committee and the Board of Directors decided that no equity incentive compensation, such as grants of stock options, restricted stock or restricted stock units would be awarded in 2006 to the chief executive officer, executives or other employees. The reasons for this decision included the limited number of shares available for issuance under existing equity compensation plans and the provisions of Verticalnet's \$6.6 million Senior Secured Convertible Promissory Notes, due July 2007. These notes provide for adjustment to the conversion price of the notes in the event that Verticalnet issues shares of common stock, including any options or restricted stock awards exercisable for shares of our common stock, with a price per share of less than \$4.90. Specifically, if Verticalnet issues share of common stock at a price below \$4.90 per share, the conversion price will adjust to the same price as the shares of common stock issued below \$4.90 per share. The anti-dilution provisions do not apply to certain excluded issuances, including the issuance of securities pursuant to equity compensation plans that existed before the August 2005 issue date of the notes. As there were insufficient shares available for issuance under equity compensation plans in existence in August 2005 to make meaningful grants to employees, including executive officers, no such awards were made.

While there are shares available for issuance under our 2006 Omnibus Equity Compensation Plan, approved by our shareholders at the 2006 Annual Meeting, because this plan was not an existing equity compensation plan at the time of issuance of the notes, so long as the notes remain outstanding, no grants of awards below \$4.90 per share can be made under that plan without triggering an adjustment to the conversion prices of the notes. In July 2007, once the notes have been paid in full, this restriction will no longer apply to awards issued under the 2006 Omnibus Equity Compensation Plan. The Committee has no plan to issue awards to employees to compensate for the period in which grants have not been made.

Role of Executive Officers in Compensation Decisions

The Compensation Committee makes all decisions regarding the compensation of the chief executive officer and other executives and approves recommendations regarding equity awards to all officers and directors. Generally, these decisions are based on an evaluation of the criteria discussed above, as determined by the chief executive officer and discussed with the Compensation Committee. In the case of the chief executive officer, the Compensation Committee makes its determinations based in part upon a survey and review of the chief executive officer's performance by other directors and members of the senior management team.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that Verticalnet may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. Verticalnet believes that compensation paid under the management incentive plans is generally fully deductible for federal income tax purposes. However, in certain situations, the Compensation Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers. In this regard, for fiscal 2006, the amount of base salary in excess of \$1,000,000 for any named executive officer was not deductible for federal income tax purposes. In 2006, the company did not pay salary to any executive greater than \$1,000,000.

Nonqualified Deferred Compensation

On October 22, 2004, the American Jobs Creation Act of 2004 was signed into law, changing the tax rules applicable to nonqualified deferred compensation arrangements. While the final regulations have not become effective yet, Verticalnet believes it is operating in good faith compliance with the statutory provisions which were effective January 1, 2005.

Table of Contents*Accounting for Stock-Based Compensation*

Beginning on January 1, 2006, Verticalnet began accounting for stock-based payments including its Stock Option Program, Long-Term Stock Grant Program, Restricted Stock Program and Stock Award Program in accordance with the requirements of Financial Accounting Standards Board Statement No.123(R).

Post-employment Compensation Plans

Verticalnet does not maintain any retirement, pension or other post-employment compensation plans.

Perquisites and Other Personal Benefits

Verticalnet does not provide the named executive officers with perquisites or other personal benefits with a cumulative value in excess of \$10,000. In 2006, the Employment Agreement of the chief executive officer and then chief financial officer were modified in 2006 to provide, among other things, that Verticalnet would reimburse the employee for the annual insurance premium costs associated with a term life insurance policy purchased by the employee with a death benefit equal to \$700,000 for the chief executive officer and \$600,000 for the then chief financial officer. Gene S. Godick resigned as the chief financial officer effective December 1, 2006 and his employment agreement terminated at that time.

Verticalnet has entered into employment agreements with certain key employees, including the named executive officers. The employment agreements provide for potential payments to the named executive officers in the event of a change in control and are designed to, among other things, promote stability and continuity of senior management.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in Verticalnet's annual report on 10-K/A for 2006 and Verticalnet's 2007 proxy statement.

Stock Option Plans

Verticalnet has four active equity compensation plans:

the 2006 Omnibus Equity Compensation Plan,

the Verticalnet, Inc. 2000 Equity Compensation Plan,

the Equity Compensation Plan for Employees (1999) and

the 1999 Long Term Incentive Plan.

Verticalnet also has four additional plans that we assumed in connection with prior acquisitions:

the 1998 Tigris Plan,

the 1999 Isadra NQ Plan,

the Atlas Commerce Plan 1999 LTIP,

the Isadra Rollover Plan.

Verticalnet does not intend to make any grants pursuant to the inactive plans.

Options are awarded at the closing price of Verticalnet's Common Stock on the date of the grant. In certain limited circumstances, the Compensation Committee may grant options to an executive at an exercise price in excess of the closing price of Verticalnet's Common Stock on the grant date. In 2006, the Compensation Committee did not grant any options with an exercise price that was less than the closing price of Verticalnet's Common Stock on the grant date, nor did it grant options which are priced on a date other than the grant date.

The majority of the options granted by the Compensation Committee vest at a rate of 25% per year over the first four years of the ten-year option term. Vesting and exercise rights cease upon termination of employment except in the case of death (subject to a one year limitation), disability or retirement. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

In 2005, the Compensation Committee determined that the annual bonus for the named executive officers in 2005 would be paid in four quarterly installments, and were based upon the achievement of quarterly financial goals in 2005. The grants to the named executive Officers in

Edgar Filing: VERTICALNET INC - Form 10-K/A

March 2006 set forth in the table below were the final installment for the 2005 bonus. Mr. Cohen was not an executive officer until December 1, 2006.

(1) Mr. Cohen has served as our Vice President and Chief Accounting Officer since December 1, 2006. Prior to serving as Vice President and Chief Accounting Officer, Mr. Cohen served as our Controller since March 2003.

(2) Mr. Godick served as our Executive Vice President and Chief Financial Officer until his resignation on December 1, 2006.

(3) Mr. Habig served as our Executive Vice President or Sales and Consulting until his resignation on January 5, 2007. As discussed above, Verticalnet has entered into employment agreements with certain key employees, including the named executive officers. The employment agreements provide for potential payments to the named executive officers in the event of a change in control.

As of November 13, 2002, the Company entered into an employment agreement with Nathanael V. Lentz with an initial salary of \$350,000 per annum. The agreement has a term of two years, with automatic renewal unless either

party gives at least one year advance notice of non-renewal. This agreement was amended on March 16, 2006. The agreement has a target bonus of 50% of salary, which is not guaranteed. If Mr. Lentz is terminated without cause or if he resigns for good reason, then he will receive, in exchange for a mutual general release, a lump sum cash payment equal to his base salary for one year, and a pro rata portion of any target bonus or other bonus Mr. Lentz would have earned in the year of termination, which bonus will be paid no later than March 15 of the year following the calendar year in which his employment terminates or, if earlier, when bonuses for such period are otherwise paid. In addition, he would receive continued healthcare coverage paid by the Company for one year; unvested options granted during 2001 would be accelerated for a period equal to six months plus one additional month for each month that the executive has been employed by the Company; all vested options granted during 2001 would be exercisable for five years after termination of employment (or the remaining term of the option, if shorter), his post-termination covenant against non-competition would be reduced to six months; and he would receive any other benefits due to him under programs we maintain and in which he was due a benefit at the time of his termination. Upon a change of control, all of his outstanding stock options, restricted stock grants, RSUs granted and other equity rights will become fully vested and/or exercisable. If within two years after a change of control, Mr. Lentz is terminated without cause or if he resigns for good reason, then he will receive the severance benefits described above, plus a lump sum cash payment equal to his target bonus for the year, and all stock options granted to him on or after March 16, 2006 will remain exercisable for the one year period after his termination of employment (or the remaining term of the option, if shorter). The agreement provides that Mr. Lentz may terminate his employment for any reason during the three months following the change of control and receive the change of control severance benefits. The agreement provides for a cap to his compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Code. The agreement defines good reason after a change of control as (1) he is transferred more than 50 miles without consent; (2) a material reduction of authority, duties, or responsibilities after reasonable notice and a chance to cure; (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; (4) non-renewal of the agreement by the Company; or (5) any action resulting in him not being the Chief Executive Officer of the Company. Mr. Lentz's employment is subject to a one-year non-compete, non-solicitation, and confidentiality provisions as set forth in the employment agreement.

As of December 1, 2006, the Company entered into an employment agreement with Jonathan T. Cohen to be the Company's Vice President and Chief Accounting Officer with an initial salary of \$175,000 per annum. The agreement has a term of one year, with automatic renewal unless either party gives at least one year advance notice of non-renewal. If Mr. Cohen is terminated without cause (with one month advance notice of termination without cause), then he will receive, in exchange for a mutual general release: a lump sum payment equal to salary for three months and a pro rata portion of any bonus Mr. Cohen would have earned in the year of termination. In addition, the Company will pay healthcare coverage for three months; unvested options would be accelerated and all vested options would be exercisable for 90 days after termination of employment. If within one year after a change of control, the executive is terminated without cause or chooses to leave for good reason, then the executive will receive the termination without cause benefits above, except Mr. Cohen will receive a lump sum payment equal to salary for six months. The agreement provides for a cap to the executive's compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Code. The agreement defines good reason after a change of control as (1) the executive is transferred more than 50 miles without consent; (2) a material reduction of authority, duties, or responsibilities after reasonable notice and a chance to cure; (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company. Mr. Cohen's employment is subject to a one-year non-compete, non-solicitation, and confidentiality provisions as set forth in the employment agreement.

As of December 16, 2002, the Company entered into an employment agreement with Christopher G. Kuhn to be the Company's General Counsel with an initial salary of \$165,000 per annum. The agreement has a term of one year, with automatic renewal unless either party gives at least one year advance notice of non-renewal. If Mr. Kuhn is terminated without cause (with one month advance notice of termination without cause), then he will receive, in exchange for a mutual general release: a lump sum payment equal to salary for three months and a pro rata portion of any bonus Mr. Kuhn would have earned in the year of termination. In addition, the Company will pay healthcare coverage for six months; unvested options would be accelerated and all vested options would be exercisable for 90 days after termination of employment. If within one year after a change of control, the executive is terminated without cause or chooses to leave for good reason, then the executive will receive the termination without cause benefits above, except Mr. Kuhn will receive a lump sum payment equal to salary for six months. The agreement

provides for a cap to the executive's compensation if it produces a greater net benefit than an uncapped award would after accounting for the increased tax obligation resulting from being an excess parachute payment under sections 280G and 4999 of the Code. The agreement defines "good reason" after a change of control as (1) the executive is transferred more than 50 miles without consent; (2) a material reduction of authority, duties, or responsibilities after reasonable notice and a chance to cure; (3) any failure of the Company materially to comply with and satisfy the terms of the agreement; or (4) non-renewal of the agreement by the Company. Mr. Kuhn's employment is subject to a one-year non-compete, non-solicitation, and confidentiality provisions as set forth in the employment agreement.

On December 1, 2006, the Company entered into termination letter agreement with Gene S. Godick in connection with his resignation as the Company's Executive Vice President and Chief Financial Officer. Pursuant to the agreement, the Company agreed to provide Mr. Godick with a termination payment equal to one month base pay, continued health care benefits through December 31, 2007, and the accelerated vesting of 4,444 shares of restricted stock previously granted to Mr. Godick.

The Employment Agreement between Brent Habig and the Company dated January 28, 2004 was terminated in conjunction with Mr. Habig's resignation as Executive Vice President effective January 5, 2007. Mr. Habig received no additional severance benefits as a result of his resignation.

The following table shows the potential payments to all executives upon termination of employment or change in control of the Company under their employment agreement or other plans or agreements of the Company assuming termination or change of control occurred on December 31, 2006: The following table sets forth the potential payments upon termination or change in control for the named executive officers for 2006.

Compensation to Directors

In November 2004, the Board of Directors adopted a policy regarding compensation to the members of the Board of Directors. Verticalnet pays its non-employee directors \$10,000 once a year for regular service on the Board of

Table of Contents

Directors in the form of a grant of restricted stock units. The number of restricted stock units granted is determined by dividing \$10,000 by the closing price of Verticalnet common stock on the date of grant, which is typically the date of the annual meeting of shareholders. The restricted stock units have an exercise price of \$0.01 which is payable by the grantee upon distribution of the shares represented by the restricted stock units, and typically vest 25% each quarter after the date of grant. On March 2, 2006, the Board of Directors determined that the grant of restricted stock units to the Board of Directors for 2006 would not be made until the annual grant date for 2007, provided that a present member of the Board of Directors must be on the Board of Directors on the date of the annual grant for 2007 to receive the grant of restricted stock units.

Additionally, each non-employee director receives an initial grant of 30,000 options upon joining the Board of Directors and an annual grant of 20,000 options granted on the date of the annual meeting of shareholders. The exercise price of the options is the closing price of Verticalnet common stock on the date of grant. The options are generally non-qualified stock options and 100% of the options vest in one year from the date of grant. Options have a maximum term of ten years, except that a director has 90 days to exercise after leaving the Board of Directors.

Verticalnet pays the chair of the audit committee \$5,000 and members of its audit committee \$3,500 for each fiscal quarter that they serve on the committee. Verticalnet pays the members of its compensation and nominating and corporate governance committees \$1,500 for each fiscal quarter that they serve on the respective committee. In addition, members of the Board of Directors are reimbursed for expenses they incur in attending meetings.

The following table sets forth the annual compensation paid to directors for 2006.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services to be Provided by Independent Registered Public Accounting Firm

The Audit Committee is responsible for appointing, setting compensation for and overseeing the work of the independent registered public accounting firm. The Audit Committee has established a policy regarding pre-approval of the retention of the independent registered public accounting firm for the performance of all audit and lawfully permitted non-audit services and regarding pre-approval of the fees for such services. On an on-going basis, management communicates specific projects and categories of service for which the advance approval of the Audit Committee is requested. The Audit Committee reviews these requests prior to the rendering of such services after due consideration of the effect of the performance thereof on the independence of the independent registered public accounting firm and advises management if the Audit Committee approves the engagement of the independent registered public accounting firm to provide these services, as well as certain fee levels for these services. On a periodic basis, management reports to the Audit Committee regarding the actual spending for such projects and services as compared to the pre-approved fee levels. The Audit Committee also has delegated the ability to pre-approve audit and lawfully permitted non-audit services to Mr. Milano, provided that any pre-approvals by Mr. Milano are reported to the full Audit Committee at its next scheduled meeting.

The prior approval of the Audit Committee was obtained for all services provided by KPMG LLP in 2006.
