A Rule 144a Security A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund s investment adviser has determined to be liquid, represent 17.5% of net assets applicable to common shareholders.

B Convertible Bond Bond may be converted into the issuer s common stock.

C Floating Rate Security The rate of interest on this type of security is tied to the London Interbank Offer Rate (LIBOR). The coupon rate is as of March 31, 2007.

D Position, or a portion thereof, with an aggregate market value of \$21,307 have been collateralized to support reverse repurchase agreements.

E Stepped-Coupon Security A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends in accordance with a pre-determined schedule.

F Position, or a portion thereof is collateral to cover futures contracts written.

G Zero-Coupon Bond A bond with no periodic interest payments which is sold at such a discount as to produce a current yield to maturity.

H Yankee Bond A dollar-denominated bond issued in the U.S. by a foreign entity.

- I Bond is in default as of March 31, 2007.
- J Stripped Security Security with interest-only or principal-only payment streams, denoted by a 1 or 2, respectively. For interest-only securities, the amount shown as principal is the notional balance used to calculate the amount of the interest due.
- *K* Treasury Inflation Protected Security Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index (CPI) for all Urban Consumers. Interest is calculated on the basis of the current adjusted principal value.
- L When-issued security Security purchased on a delayed basis. Final settlement amount and maturity date have not yet been announced.
- *M* The coupon shown on the variable rate security is the rate in effect as of March 31, 2007.
- N Denominated in Brazilian Reals.
- O Indexed Security The rate of interest on this type of security is linked to the Coeficienete de Establizacion de Referencia (CER). The coupon rate is as of March 31, 2007.
- P Denominated in Argentine Pesos.
- Q Denominated in Russian Rubles.
- *R* Convertible Preferred Stock Stock may be converted into the issuer s common stock.
- S Indexed Security The rate of interest on this type of security is based on the Constant Maturity Treasury (CMT) index. The coupon rate is as of March 31, 2007.
- T Denominated in Egyptian Pounds.

N.M.- Not meaningful.

<u>Notes</u>

Security Valuation

The Fund s securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The Fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

With respect to the Fund, where a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund s adviser to be the primary market. The Fund will value its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.

The following is a summary of open swap contracts outstanding at March 31, 2007.
